30.602-2 Noncompliance with CAS requirements.
30.602-3 Voluntary changes.
30.603 Subcontract administration.

APPENDIX A TO PART 30—Preambles to the Cost Accounting Standards

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 52 FR 35613, Sept. 22, 1987, unless otherwise noted.

30.000 Scope of part.

This part describes policies and procedures for applying the Cost Accounting Standards to negotiated national defense contracts and subcontracts. This part also prescribes policies and procedures for applying those standards to certain nondefense contracts. This part does not apply to sealed bid contracts or to any contract with a small business concern (see 30.201-1(b) for these and other exemptions).

Subpart 30.1—General

30.101 Cost Accounting Standards.

(a) Pub. L. 91-379 (50 U.S.C. App. 2168) requires certain national defense contractors and subcontractors to comply with Cost Accounting Standards (CAS) and to disclose in writing and follow consistently their cost accounting practices.

(b) The obligation to comply with the CAS is extended to certain nondefense contracts as a matter of policy. This decision has resulted in differences in application between national defense and nondefense contracts and these differences are noted in the appropriate sections throughout this part.

Subpart 30.2—CAS Program Requirements

30.201 Contract requirements.

30.201-1 CAS applicability.

(a) This subsection describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. (See subpart 30.4.) Negotiated contracts not exempt in accordance with 30.201-1(b) shall be subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 30.201-2.

(b) The following categories of contracts and subcontracts are exempt from all CAS requirements:

(1) Sealed bid contracts.

(2) Negotiated contracts and subcontracts not in excess of $100,000.

(3) Contracts and subcontracts with small businesses.

(4) Contracts and subcontracts with foreign governments or their agents or instrumentalities or, insofar as the requirements of CAS other than 30.401 and 30.402 are concerned, any contract or subcontract awarded to a foreign concern.

(5) Contracts and subcontracts in which the price is set by law or regulation.

(6) Contracts and subcontracts when the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public (see 15.804-3(c)). A prospective contractor requesting exemption from CAS on this basis must provide supporting justification in accordance with 15.804-3(e). When the contracting officer determines that the justification is adequate, this exemption from CAS shall be used even though the award is made on the basis of adequate price competition.

(7) Contracts and subcontracts of $500,000 or less if the business unit is not currently performing any national defense CAS-covered contracts.

(8) Nondefense contracts awarded based on adequate price competition (see 15.804-3(b)).

(9) Nondefense contracts and subcontracts awarded to business units that are not currently performing any CAS-covered national defense contracts.

(10) Contracts and subcontracts with educational institutions other than those to be performed by Federally Funded Research and Development Centers (FFRDC's) operated by such institutions.

(11) Contracts awarded to labor surplus area concerns pursuant to a labor surplus area set-aside (see part 20).

(12) Contracts and subcontracts awarded to a United Kingdom contractor for performance substantially in the United Kingdom, provided that the contractor has filed with the United Kingdom Ministry of Defense, for retention by the Ministry, a completed Disclosure Statement (Form No. CASB-DS-1) which shall adequately describe its cost accounting practices. Whenever that contractor is already required to follow U.K. Government Accounting Conventions, the disclosed practices shall be in accord with the requirements of those conventions. (See 30.201-4(d).

(13) Subcontracts under the NATO PHM Ship program to be performed outside the United States by a foreign concern.

(14) Contracts and subcontracts to be executed and performed entirely outside the United States, its territories, and possessions.

(15) Firm-fixed-price contracts and subcontracts awarded without submission of any cost data; (*provided*, that the failure to submit such data is not attributable to a waiver of the requirement for certified cost or pricing data.

30.201-2 Types of CAS coverage.

(a) *Full coverage.* Full coverage requires that the business unit comply with all of the CAS in effect on the date of the contract award and with any CAS that become applicable because of later award of a national defense CAS-covered contract. However, the award of a new nondefense CAS-covered contract shall not trigger application of new CAS having effective dates later than the award date of the last national defense CAS-covered contract. Full coverage applies to contractor business units that—

(1) Receive a single national defense CAS-covered contract award of $10 million or more;

(2) Received $10 million or more in national defense CAS-covered contract awards during its preceding cost accounting period; or

(3) Received less than $10 million in national defense CAS-covered contract

awards during its preceding cost accounting period but such awards were 10 percent or more of total sales.

(b) *Modified coverage.* (1) Modified CAS coverage requires only that the contractor comply with Standard 401, Consistency in Estimating, Accumulating, and Reporting Costs, and Standard 402, Consistency in Allocating costs Incurred for the Same Purpose. Modified, rather than full, CAS coverage may be applied to a covered contract of less than $10 million awarded to a business unit that received less than $10 million in national defense CAS-covered contracts in the immediately preceding cost accounting period if the sum of such awards was less than 10 percent of the business unit's total sales during that period. For the purpose of determining whether the sum of covered contract awards equals 10 percent of the business unit's total sales, an order received by the one segment from another segment shall be treated in the same way that a subcontract award to the receiving segment would be treated. In measuring sales for a year, a transfer by one segment to another shall be deemed to be a sale by the transferor.

(2) If any one contract is awarded with modified CAS coverage, all CAS-covered contracts awarded to that business unit during that cost accounting period must also have modified coverage with the following exception: if the business unit receives a single national defense contract award of $10 million or more, that contract must be subject to full CAS coverage. Thereafter, any covered contract awarded in the same cost accounting period must also be subject to full CAS coverage.

(3) A contract awarded with modified CAS coverage shall remain subject to such coverage throughout its life regardless of changes in the business unit's CAS status during subsequent cost accounting periods.

(c) *Nondefense contracts.* Nondefense contracts subject to CAS shall have the same type of CAS coverage as the most recently awarded national defense contract currently being performed by the same business unit.

(d) *Subcontracts.* Subcontract awards subject to CAS require the same type of CAS coverage as would prime contracts awarded to the same business unit.

(e) *Foreign concerns.* Contracts with foreign concerns subject to CAS shall only be subject to modified coverage.

30.201-3 Solicitation provisions.

(a) *Cost Accounting Standards Notices and Certification (National Defense).* The contracting officer shall insert the provision at 52.230-1, Cost Accounting Standards Notices and Certification (National Defense), in solicitations for proposed national defense contracts subject to CAS as specified in 30.201. The provision allows offerors to—

(1) Certify their Disclosure Statement status.;

(2) Claim exemption from CAS if they are not currently performing any CAS-covered contracts and the proposal will result in an award of $500,000 or less;

(3) Claim exemption from full CAS coverage and elect modified CAS coverage when appropriate; and

(4) Certify whether award of the contemplated contract would require a change to existing cost accounting practices.

(b) *Cost Accounting Standards Notices and Certification (Nondefense).* The contracting officer shall insert the provision at 52.230-2, Cost Accounting Standards Notices and Certification (Nondefense), in solicitations for proposed nondefense contracts that do not meet the criteria for CAS exemption in 30.201-1. The provision allows offerors to claim exemption from CAS if they are not currently performing any CAS-covered national defense contracts or to certify what type of CAS coverage applies to them.

30.201-4 Contract clauses.

(a) *Cost Accounting Standards.* (1) The contracting officer shall insert the clause at 52.230-3, Cost Accounting Standards, in negotiated contracts, unless the contract is exempted (see 30.201-1) the contract is subject to modified coverage (see 30.201-2), or the clause prescribed in paragraph (d) of this subsection is used.

(2) The clause at 52.230-3 requires the contractor to disclose actual cost

accounting practice (applicable to national defense contracts only) and to follow these practices consistently.

(b) *Administration of Cost Accounting Standards.* (1) The contracting officer shall insert the clause at 52.230-4, Administration of Cost Accounting Standards, in contracts containing either the clause prescribed in paragraph (a) of this subsection, or the clause prescribed in paragraph (c) of this subsection.

(2) The clause at 52.230-4, Administration of Cost Accounting Standards, specifies rules for administering CAS requirements and procedures to be followed in cases of failure to comply.

(c) *Disclosure and Consistency of Cost Accounting Practices.* (1) The contracting officer shall insert the clause 52.230-5, Disclosure and Consistency of Cost Accounting Practices, in negotiated contract when the contract amount is over $100,000, but less that $10 million, and the offeror certifies it is eligible for and elects to use modified CAS coverage (see 30.201-2, unless the clause prescribed in paragraph (d) of this subsection is used).

(2) The clause at 52.230-5 requires the contractor to comply with CAS 401 and 402, to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently disclosed and established cost accounting practices.

(d) *Consistency in Cost Accounting Practices.* The contracting officer shall insert the clause 52.230-6, Consistency in Cost Accounting Practices, in negotiated defense contracts that are exempt from CAS requirements solely on the basis of the fact that the contract is to be awarded to a United Kingdom contractor and is to be performed substantially in the United Kingdom (see 30.201-1(b) (12)).

[52 FR 35613, Sept. 22, 1987, as amended at 55 FR 38517, Sept. 18, 1990]

30.201-5 Waiver.

(a) In some instances, contractors or subcontractors may refuse to accept all or part of the requirements of the CAS clauses (52.230-3, Cost Accounting Standards and 52.230-5, Disclosure and Consistency of Cost Accounting Practices). If the contracting officer determine that it is impractical to obtain the materials supplies, or services from any other source, the contracting officer shall prepare a request for waiver describing the proposed contract or subcontract and containing—

(1) An unequivocal statement that the proposed contractor or subcontractor refuses to accept a contract containing all or a specified part of a CAS clause and the specific reason for that refusal;

(2) A statement as to whether the proposed contractor or subcontractor has accepted any prime contract or subcontract containing a CAS clause;

(3) The amount of the proposed award and the sum of all awards by the agency requesting the waiver to the proposed contractor or subcontractor in each of the preceding 3 years;

(4) A statement that no other source is available to satisfy the agency's needs on a timely basis;

(5) A statement of alternative methods considered for fulfilling the need and the agency's reasons for rejecting them;

(6) A statement of steps being taken by the agency to establish other sources of supply for future contracts for the products or services for which a waiver is being requested; and

(7) Any other information that may be useful in evaluating the requests.

(b) (1) For national defense contracts of the DOD, waivers shall be controlled and approved by the Deputy Assistant Secretary of Defense (Procurement) and shall be processed for review by the Defense Acquisition Regulatory (DAR) Council in accordance with agency procedures.

(2) For national defense contracts of National Aeronautics and Space Administration (NASA), waivers shall be controlled and approved by the Assistant Administrator for Procurement after consultation with the Deputy Assistant Secretary of Defense (Procurement). Requests for waiver shall be processed in accordance with agency regulations.

(c) For nondefense contracts, and defense contracts of agencies other than DOD or NASA, the agency head or designee may waive CAS requirements. Agencies shall ensure consistent treatment of—

(1) Waivers within the agency; and

(2) Contractors performing under both defense and nondefense contracts.

(d) For purchases of substantially the same product from the same contractor for which a waiver was previously granted, approval authority is redelegated in the Department of Defense to the Secretaries of the Military Departments and the Director, Defense Logistics Agency.

30.202 Disclosure requirements.

30.202-1 General requirements.

(a) A Disclosure Statement is a written description of a contractor's cost accounting practices and procedures. The submission of a new or revised Disclosure Statement is not required for any nondefense contract or from any small business concern. However, if a Disclosure Statement has been submitted in connection with a CAS-covered defense contract, the contractor must also comply with such disclosed practices under nondefense CAS-covered contracts (see subparagraph (a)(1) of the clause at 52.230-3, Cost Accounting Standards).

(b) Completed Disclosure Statements are required in the following circumstances:

(1) Any business unit that is selected to receive a CAS-covered negotiated national defense contract or subcontract of $10 million or more shall submit a Disclosure Statement before award.

(2) Any company which, together with its segments, received net awards of negotiated national defense prime contracts and subcontracts subject to CAS totaling more than $10 million in its most recent cost accounting period must submit a Disclosure Statement before award of its first CAS-covered contract in the immediately following cost accounting period. However, if the first CAS-covered contract is received within 90 days of the start of the cost accounting period, the contractor is not required to file until the end of 90 days.

(c) When a Disclosure Statement is required, a separate Disclosure Statement must be submitted for each segment whose costs included in the total price of any CAS-covered contract or subcontract exceed $100,000, unless the contract or subcontract is of the type or value exempted by 30.201-1. If the cost accounting practices are identical for more than one segment, then only one Disclosure Statement, clearly identifying each such segment, need be submitted. A Disclosure Statement will also be required for each corporate or group office whose costs of any amount are allocated to one or more segments performing CAS-covered contracts.

(d) Each corporate or other home office that allocates costs to one or more disclosing segments performing CAS-covered contracts must submit a Part VIII of the Disclosure Statement.

(e) Foreign contractors and subcontractors who are required to submit a Disclosure Statement may, in lieu of filing a Form No. CASB-DS-1, make disclosure by using a disclosure form prescribed by an agency of its Government, provided that the official designated to approve waivers in 30.201-5 determines that the information disclosed by that means will satisfy requirements of subpart 30.2. The use of alternative forms has been approved for the contractors of the following countries:

(1) Canada.

(2) Federal Republic of Germany.

30.202-2 Impracticality of submission.

The agency head may determine that it is impractical to secure the Disclosure Statement, although submission is required, and authorize contract award without obtaining the Statement. This authority may not be delegated.

30.202-3 Amendment and revisions.

(a) Contractors and subcontractors are responsible for maintaining accurate Disclosure Statements and complying with disclosed practices. Amendments and revisions to Disclosure Statements may be submitted at any time and may be proposed by either the contractor or the Government. Resubmission of complete, updated, Disclosure Statements is discouraged except when extensive changes require it to assist the review process.

(b) Should the obligation to maintain the Disclosure Statement cease because the contractor no longer meets the financial thresholds, the contractor shall still be required to follow the disclosed practices for those contracts awarded during a period in which the contractor was obligated to submit a Disclosure Statement.

30.202-4 Privileged and confidential information.

If the offeror or contractor notifies the contracting officer that the Disclosure Statement contains trade secrets and commercial or financial information, which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside the Government.

30.202-5 Filing Disclosure Statements.

(a) Disclosure must be on Form Number CASB-DS-1. Forms may be obtained from the cognizant administrative contracting officer (ACO).

(b) Offerors are required to file Disclosure Statements as follows:

(1) Original and one copy with the cognizant ACO; and

(2) One copy with the cognizant contract auditor.

(c) Amendments and revisions shall be submitted to the currently cognizant ACO and auditor.

30.202-6 Responsibilities.

(a) The contracting officer is responsible for determining when a proposed contract may require CAS coverage and for including the appropriate notice in the solicitation. The contracting officer must then ensure that the offeror has made the required solicitation certifications and that required Disclosure Statements are submitted.

(b) The contracting officer shall not award a CAS-covered contract until the ACO has made a written determination that a required Disclosure Statement is adequate unless, in order to protect the Government's interest, the contracting officer waives the requirement for an adequacy determination before award. In this event, a determination of adequacy shall be required as soon as possible after the award.

(c) The cognizant auditor is responsible for conducting reviews of Disclosure Statements for adequacy and compliance.

(d) The cognizant ACO is responsible for determinations of adequacy and compliance of the Disclosure Statement.

30.202-7 Determinations.

(a) *Adequacy determination.* The contract auditor shall conduct an initial review of a Disclosure Statement to ascertain whether it is current, accurate, and complete and shall report the results to the cognizant ACO, who shall determine whether or not it adequately describes the offeror's cost accounting practices. If the ACO identifies any areas of inadequacy, the ACO shall request a revised Disclosure Statement. If the Disclosure Statement is adequate, the ACO shall notify the offeror in writing, with copies to the auditor and contracting officer. The notice of adequacy shall state that a disclosed practice shall not, by virtue of such disclosure, be considered an approved practice for pricing proposals or accumulating and reporting contract performance cost data. Generally, the ACO shall furnish the contractor notification of adequacy or inadequacy within 30 days after the Disclosure Statement has been received by the ACO.

(b) *Compliance determination.* After the notification of adequacy, the auditor shall conduct a detailed compliance review to determine whether or not the disclosed practices comply with part 31 and the CAS and shall advise the ACO of the results. The ACO shall take action regarding noncompliance with CAS under FAR 30.602-2. The ACO may require a revised Disclosure Statement and adjustment of the prime contract price or cost allowance. Noncompliance with part 31 shall be processed separately, in accordance with normal administrative practices.

30.202-8 Subcontractor Disclosure Statements.

(a) The contractor or higher tier subcontractor is responsible for administering the CAS requirements contained in subcontracts.

(b) If the subcontractor has previously furnished a Disclosure Statement to an ACO, the subcontractor may satisfy the submission requirement by identifying to the contractor or higher tier subcontractor the ACO to whom it was submitted.

(c)(1) If the subcontractor considers the Disclosure Statement (or other similar information) privileged or confidential, the subcontractor may submit it directly to the ACO and auditor cognizant of the subcontractor, notifying the contractor or higher tier subcontractor. A preaward determination of adequacy is not required in such cases. Instead, the ACO cognizant of the subcontractor shall (i) notify the auditor that the adequacy review will be performed during the postaward compliance review and, upon completion, (ii) notify the subcontractor, the contractor or higher tier subcontractor, and the cognizant ACO's of the findings.

(2) Even though a Disclosure Statement is not required, a subcontractor may (i) claim that CAS-related reviews by contractors or higher tier subcontractors would reveal proprietary data or jeopardize the subcontractor's competitive position and (ii) request that the Government perform the required reviews.

(d) When the Government requires determinations of adequacy or inadequacy, the ACO cognizant of the subcontractor shall make such recommendation to the ACO cognizant of the prime contractor or next higher tier subcontractor. ACO's cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

(e) Postaward submission of the subcontractor's Disclosure Statement must be approved by the ACO having cognizance of the prime contractor. Before authorizing postaward submission, the ACO shall coordinate with the ACO cognizant of the subcontractor to ensure that this action will not have an adverse impact on other contracts and subcontracts subject to the CAS requirements, and with the contracting officer to obtain the information needed to make the required written determination.

(f) Any determination that it is impractical to secure a subcontractor's Disclosure Statement must be made in accordance with 30.202-2.

Subpart 30.3—CAS Rules and Regulations

30.301 Definitions.

The definitions set forth in section 31.001 also apply to this part.

Actual cost, as used in this part, means an amount determined on the basis of cost incurred as distinguished from forecasted cost. Actual cost includes standard cost properly adjusted for applicable variance.

Asset accountability unit, as used in this part, means a tangible capital asset which is a component of plant and equipment that is captialized when acquired or whose replacement is capitalized when the unit is removed, transferred, sold, abandoned, demolished, or otherwise disposed of.

Assignment of cost to cost accounting periods. (See 30.302-1(b).)

Bid and proposal (B&P) cost, as used in this part, means the cost incurred in preparing, submitting, or supporting any bid or proposal which effort is neither sponsored by a grant, nor required in the performance of a contract.

CAS-covered contract, as used in this part, means any negotiated contract or subcontract in which a CAS clause is required to be included.

Category of material, as used in this part, means a particular kind of goods, comprised of identical or interchangeable units, acquired or produced by a contractor, which are intended to be sold, or consumed or used in the performance of either direct or indirect functions.

Change to a cost accounting practice. (See 30.302-2.)

Cost accounting practice. (See 30.302-1.)

Cost objective, as used in this part, means a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

Currently performing, as used in this part, means that a contractor has been awarded a contract, but has not yet received notification of final acceptance of all supplies, services, and data deliverable under the contract (including options).

Defense contractor, as used in this part, means any person who enters into a contract with the United States for the production of material or the performance of services for the national defense.

Defense subcontractor, as used in this part, means any person other than the United States who contracts, at any tier, to perform any part of a defense contractor's contract.

Direct cost, as used in this part, means any cost which is identified specifically with a particular final cost objective. Direct costs are not limited to items which are incorporated in the end product as material or labor. Costs identified specifically with a contract are direct costs of that contract. All costs identified specifically with other final cost objectives of the contractor are direct costs of those cost objectives.

Disclosure statement, as used in this part, means the Disclosure Statement required by 30.202-1.

Entitlement, as used in this part, means an employee's right whether conditional or unconditional to receive a determinable amount of compensated personnel absence, or pay in lieu thereof.

Established catalog or market price of commercial items sold in substantial quantities to the general public is as defined in 15.804-3(c).

Funded pension cost, as used in this part, means the portion of pension costs for a current or prior cost accounting period that has been paid to a funding agency or, under a pay-as-you-go plan to plan participants or beneficiaries.

Funding agency, as used in this part, means an organization or individual which provides facilities to receive and accumulate assets to be used either for the payment of benefits under a pension plan, or for the purchase of such benefits.

Indirect cost, as used in this part, means any cost not directly identified with a single final cost objective, but identified with two or more final cost objectives or with at least one intermediate cost objective.

Indirect cost pool, as used in this part, means a grouping of incurred costs identified with two or more objectives but not identified specifically with any final cost objective.

Material inventory record, as used in this part, means any record used for the accumulation of actual or standard costs of a category of material recorded as an asset for subsequent cost allocation to one or more cost objectives.

Measurement of cost. (See 30.302-1(a).)

Multiemployer pension plan, as used in this part, means a plan to which more than one employer contributes and which is maintained pursuant to one or more collective bargaining agreements between an employee organization and more than one employer.

Negotiated subcontract, as used in this part, means any subcontract except a firm fixed-priced subcontract made by a contractor or subcontractor after receiving offers from at least two persons not associated with each other or with such contractor or subcontractor, providing (a) the solicitation to all competitors is identical, (b) price is the only consideration in selecting the subcontractor from among the competitors solicited, and (c) the lowest offer received in compliance with the solicitation from among those solicited is accepted.

Net awards, as used in this part, means the total obligated value of negotiated national defense prime contract and subcontract awards received during the reporting period minus cancellations, terminations, and other related credit transactions.

Operating revenue, as used in this part, means amounts accrued or charged to customers, clients, and tenants, for the sale of products manufactured or purchased for resale, for services, and for rental of property held primarily for leasing to others. It includes both reimbursable costs and fees under cost-type contracts and percentage-of-completion sales accruals, except it includes only the fee for management contracts under which the contractor acts essentially as an agent of the Government in the erection or operation of Government-owned facilities. It excludes incidental interest, dividends, royalty, and rental income and proceeds from the sale of assets used in the business.

Production unit, as used in this part, means a grouping of activities which either uses homogeneous inputs of direct material and direct labor or yields homogeneous outputs such that costs or statistics related to these homogeneous inputs or outputs are appropriate as bases for allocating variances.

Repairs and maintenance, as used in this part, means the total endeavor to obtain the expected service during the life of tangible capital assets. Maintenance is the regularly recurring activity of keeping assets in normal or expected operating condition. Repair is the activity of putting them back into normal or expected operating condition.

Reporting costs, as used in this part, is the provision of cost information to others. The reporting of costs involves selecting relevant cost data and presenting it in an intelligible manner for use by the receipient.

Small business, as used in this part, means any concern, firm, person, corporation, partnership, cooperative, or other business enterprise which, under 15 U.S.C. 637(b)(6) and the rules and regulations of the Small Business Administration in part 121 of title 13 of the Code of Federal Regulations, is determined to be a small business concern for the purpose of Government contracting.

30.302 Definitions, explanations, and illustrations of the terms, "cost accounting practice" and "change to a cost accounting practice."

30.302-1 Cost accounting practice.

Cost accounting practice, as used in this part, means any disclosed or established accounting method or technique which is used for allocation of cost to cost objectives, assignment of cost to cost accounting periods, or measurement of cost.

(a) *Allocation of cost to cost objectives*, as used in this part, includes both direct and indirect allocation of cost. Examples of cost accounting practices involving allocation of cost to cost objectives are the accounting methods or techniques used to accumulate cost, to determine whether a cost is to be directly or indirectly allocated to determine the composition of cost pools, and to determine the selection and composition of the appropriate allocation base.

(b) *Assignment of cost to cost accounting periods*, as used in this part, refers to a method or technique used in determining the amount of cost to be assigned to individual cost accounting periods. Examples of cost accounting practices which involve the assignment of cost to cost accounting periods are requirements for the use of specified accrual basis accounting or cash basis accounting for a cost element.

(c) *Measurement of cost*, as used in this part, encompasses accounting methods and techniques used in defining the components of cost, determining the basis for cost measurement, and establishing criteria for use of alternative cost measurement techniques. The determination of the amount paid or a change in the amount paid for a unit of goods and services is not a cost accounting practice. Examples of cost accounting practices which involve measurement of costs are—

(1) The use of either historical cost, market value, or present value;

(2) The use of standard cost or actual cost; or

(3) The designation of those items of cost which must be included or excluded from tangible capital assets or pension cost.

30.302-2 Change to a cost accounting practice.

Change to a cost accounting practice, as used in this part, means any alteration in a cost accounting practice, as defined in 30.302-1, whether or not such practices are covered by a Disclosure Statement, except for the following:

(a) The initial adoption of a cost accounting practice for the first time a cost is incurred, or a function is created, is not a change in cost accounting practice. The partial or total elimination of a cost or the cost of a function is not a change in cost accounting practice. As used here, function is an activity or group of activities that is identifiable in scope and has a purpose or end to be accomplished.

(b) The revision of a cost accounting practice for a cost which previously had been immaterial is not a change in cost accounting practice.

30.302-3 Illustrations of changes which meet the definition of "change to a cost accounting practice."

(a) The method or technique used for measuring costs has been changed.

Description	Accounting treatment
(1) Contractor changes its actuarial cost method for computing pension costs.	(1)(i) *Before change*: The contractor computed pension cos using the aggregate cost method. (ii) *After change*: The contractor computes pension cost usin the unit credit method.
(2) Contractor uses standard costs to account for its direct labor. Labor cost at standard was computed by multiplying labor-time standard by actual labor rates. The contractor changes the computation by multiplying labor-time standard by labor-rate standard.	(2)(i) *Before change*: Contractor's direct labor cost was measured with only one component set at standard. (ii) *After change*: Contractor's direct labor cost is measure with both the time and rate components set at standar

(b) The method or technique used for assignment of cost to cost accountin periods has been changed.

Description	Accounting treatment
(1) Contractor changes his established criteria for capitalizing certain classes of tangible capital assets whose acquisition costs totaled $1 million per cost accounting period.	(1)(i) *Before change*: Items having acquisition costs of b tween $200 and $400 per unit were capitalized and depr ated over a number of cost accounting periods. (ii) *After change*: The contractor charges the value of ass costing between $200 and $400 per unit to an indir expense pool which is allocated to the cost objectives the cost accounting period in which the cost was incur
(2) Contractor changes his methods for computing depreciation for a class of assets.	(2)(i) *Before change*: The contractor assigned deprecia costs to cost accounting periods using an accelera method. (ii) *After change*: The contractor assigns depreciation costs cost accounting periods using the straight line meth
(3) Contractor changes his general method of determining asset lives for classes of assets acquired prior to the effective date of CAS 409.	(3)(i) *Before change*: The contractor identified the cost counting periods to which the cost of tangible capital ass would be assigned using guideline class lives provided IRS Rev. Proc. 72-10. (ii) *After change*: The contractor changes the method which he identifies the cost accounting periods to which costs of tangible capital assets will be assigned. He n uses the expected actual lives based on past us

(c) The method or technique used for allocating costs has been changed.

Description	Accounting treatment
(1) Contractor changes his method of allocating G&A expenses under the requirements of Cost Accounting Standard 410.	(1) (i) *Before change:* The contractor operating under Cost Accounting Standard 410 has been allocating his general and administrative expense pool to final cost objectives on a total cost input base in compliance with the Standard. The contractor's business changes substantially such that there are significant new projects which have only insignificant quantities of material. (ii) *After change:* After the addition of the new work, an evaluation of the changed circumstances reveals that the continued use of a total cost input base would result in a significant distortion in the allocation of the G&A expense pool in relation to the benefits received. To remain in compliance with Standard 410, the contractor alters his G&A allocation base from a total cost input base to a value added base.
(2) The contractor changes the accounting for hardware common to all projects.	(2) (i) *Before change:* The contractor allocated the cost of purchased or requisitioned hardware directly to projects. (ii) *After change:* The contractor charges the cost of purchased or requisitioned hardware to an indirect expense pool which is allocated to projects using an appropriate allocation base.
(3) The contractor merges operating segments A and B which use different cost accounting practices in accounting for manufacturing overhead costs.	(3) (i) *Before change:* In segment A, the costs of the manufacturing overhead pool have been allocated to final cost objectives using a direct labor hours base; in segment B, the costs of the manufacturing overhead pool have been allocated to final cost objectives using a direct labor dollars base. (ii) *After change:* As a result of the merger of operations, the combined segment decides to allocate the cost of the manufacturing overhead pool to all final cost objectives, using a direct labor dollars base. Thus, for those final cost objectives referred to in segment A, the cost of the manufacturing overhead pool will be allocated to the final cost objectives of segment A using a direct labor dollars base instead of a direct labor hours base.

30.302-4 Illustrations of changes which do not meet the definition of "Change to a cost accounting practice."

Description	Accounting treatment.
(a) Changes in the interest rate levels in the national economy have invalidated the prior actuarial assumption with respect to anticipated investment earnings. The pension plan administrators adopted an increased (decreased) interest rate actuarial assumption. The company allocated the resulting pension costs to all final cost objectives.	(a) Adopting the increase (decrease) in the interest rate actuarial assumption is not a change in cost accounting practice.
(b) The basic benefit amount for a company's pension plan is increased from $8 to $10 per year of credited service. The change increases the dollar amount of pension cost allocated to all final cost objectives.	(b) The increase in the amount of the benefits is not a change in cost accounting practice.
(c) A contractor who has never paid pensions establishes for the first time a pension plan. Pension costs for the first year amounted to $3.5 million.	(c) The initial adoption of an accounting practice for the first time incurrence of a cost is not a change in cost accounting practice.
(d) A contractor maintained a Deferred Incentive Compensation Plan. After several year's experience, the plan was determined not to be attaining its objective, so it was terminated, and no future entitlements were paid.	(d) There was a termination of the Deferred Incentive Compensation Plan. Elimination of a cost is not a change in cost accounting practice.
(e) A contractor eliminates a segment that was operated for the purpose of doing research for development of products related to nuclear energy.	(e) The projects and expenses related to nuclear energy projects have been terminated. No transfer of these projects and no further work in this area is planned. This is an elimination of cost and not a change in cost accounting practice.

Description	Accounting treatment.
(f) For a particular class of assets for which technological changes have rarely affected asset lives, a contractor starts with a 5-year average of historical lives to estimate future lives. He then considers technological changes and likely use. For the past several years the process resulted in an estimated future life of 10 years for this class of assets. This year, a technological change leads to a prediction of a useful life of 7 years for the assets acquired this year for the class of assets.	(f) The change in estimate (not in method) is not a change in cost accounting practice. The contractor has not changed the method or technique used to determine the estimate. The methodology applied has indicated a change in the estimated life, and this is not a change in cost accounting practice.
(g) The marketing department of a segment has reported directly to the general manager of the segment. The costs of the marketing department have been combined as part of the segment's G&A expense pool. The company reorganizes and requires the marketing department to report directly to a vice president at corporate headquarters.	(g) After the organization change in the company's reporting structure, the parties agree that the appropriate recognition of the beneficial or causal relationship between the costs of the marketing department and the segment is to continue to combine these costs as part of the segment's G&A expense pool. Thus, the organizational change has not resulted in a change in cost accounting practice.

30.303 Effect of filing Disclosure Statement.

(a) A disclosure of a cost accounting practice by a contractor does not determine the allowability of particular items of cost. Irrespective of the practices disclosed by a contractor, the question of whether or not, or the extent to which, a specific element of cost is allowed under a contract remains for consideration in each specific instance. Contractors are cautioned that the determination of the allowability of cost items will remain a responsibility of the contracting officers pursuant to the provisions of the applicable procurement regulations.

(b) The individual Disclosure Statement may be used in audits of contracts or in negotiation of prices leading to contracts. The authority of the audit agencies and the contracting officers is in no way abrogated by the material presented by the contractor in his Disclosure Statement. Contractors are cautioned that their disclosures must be complete and accurate; the practices disclosed may have a significant impact on ways in which contractors will be required to comply with Cost Accounting Standards.

30.304 Concurrent full and modified coverage.

Contracts subject to full coverage may be performed during a period in which a previously awarded contract subject to modified coverage is being performed. Compliance with full coverage may compel the use of cost accounting practices that are not required under modified coverage. Under these circumstances the cost accounting practices applicable to contracts subject to modified coverage need not be changed. Any resulting differences in practices between contracts subject to full coverage and those subject to modified coverage shall not constitute a violation of CAS 30.401 and CAS 30.402. This principle also applies to contracts subject to modified coverage being performed during a period in which a previously awarded contract subject to full coverage is being performed.

30.305 Materiality.

In determining whether amounts of cost are material or immaterial, the following criteria shall be considered where appropriate; no one criterion is necessarily determinative:

(a) *The absolute dollar amount involved.* The larger the dollar amount, the more likely that it will be material.

(b) *The amount of contract cost compared with the amount under consideration.* The larger the proportion of the amount under consideration to contract cost, the more likely it is to be material.

(c) *The relationship between a cost item and a cost objective.* Direct cost items, especially if the amounts are themselves part of a base for allocation of indirect costs, will normally have more impact than the same amount of indirect costs.

(d) *The impact on Government funding.* Changes in accounting treatment will have more impact if they influence the distribution of costs between

vernment and non-Government
objectives than if all cost objec-
s have Government financial sup-
t.

) *The cumulative impact of indi-*
ually immaterial items. It is appro-
te to consider whether such im-
s (1) tend to offset one another, or
tend to be in the same direction
hence to accumulate into a mate-
amount.

) *The cost of administrative proc-*
ng of the price adjustment modifi-
on shall be considered. If the cost
rocess exceeds the amount to be
vered, it is less likely the amount
be material.

6 Interpretations.

determining amounts of increased
s in the clauses at 52.230-3, Cost
ounting Standards, and 52.230-5,
losure and Consistency of Cost Ac-
ting Practices, the following con-
rations apply:

) Increased costs shall be deemed
ve resulted whenever the cost
by the Government results from
ange in a contractor's cost ac-
ting practices or from failure to
ly with applicable Cost Account-
Standards, and such cost is higher
it would have been had the prac-
not been changed or applicable
Accounting Standards complied
.

If the contractor under any
-price contract, including a firm
-price contract, fails during con-
performance to follow its cost ac-
ting practices or to comply with
c ble Cost Accounting Standards,
ased costs are measured by the
rence between the contract price
d to and the contract price that
d have been agreed to had the
actor proposed in accordance
the cost accounting practices
during contract performance.
determination of the contract
that would have been agreed to
e left to the contracting parties
vill depend on the circumstances
h case.

The Government policy underly-
his interpretation is that the
d States not pay increased costs,
ing a profit enlarged beyond
n the contemplation of the parties to the contract when the contract costs, price, or profit is negotiated, by reason of a contractor's failure to use applicable Cost Accounting Standards, or to follow consistently its cost accounting practices. In making price adjustments under the Cost Accounting Standard clause at 52.230-3 in fixed price or cost reimbursement incentive contracts, or contracts providing for prospective or retroactive price redetermination, the Federal agency shall apply this requirement appropriately in the circumstances.

(d) The contractor and the contracting officer may enter into an agreement as contemplated by subdivision (a)(4)(ii) of the Cost Accounting Standards clause at 52.230-3, covering a change in practice proposed by the Government or the contractor for all of the contractor's contracts for which the contracting officer is responsible, provided that the agreement does not permit any increase in the cost paid by the Government. Such agreement may be made final and binding, notwithstanding the fact that experience may subsequently establish that the actual impact of the change differed from that agreed to.

(e) An adjustment to the contract price or of cost allowances pursuant to the Cost Accounting Standards clause at 52.230-3 may not be required when a change in cost accounting practices or a failure to follow Standards or cost accounting practices is estimated to result in increased costs being paid under a particular contract by the United States. This circumstance may arise when a contractor is performing two or more covered contracts, and the change or failure affects all such contracts. The change or failure may increase the cost paid under one or more of the contracts, while decreasing the cost paid under one or more of the contracts. In such case, the Government will not require price adjustment for any increased costs paid by the United States, so long as the cost decreases under one or more contracts are at least equal to the increased cost under the other affected contracts, provided that the contractor and the affected contracting officers agree on the method by which the price adjustments are to be made for all affected contracts. In this situation, the contracting agencies would, of course, require an adjustment of the contract price or cost allowances, as appropriate, to the extent that the increases under certain contracts were not offset by the decreases under the remaining contracts.

30.307 Cost Accounting Standards Preambles.

Appendix A of this part contains the nonregulatory preambles to the Cost Accounting Standards, preambles to related Rules and Regulations, and preambles published under the FAR System. The preambles are not regulatory, but are intended to explain why the Standards and related Rules and Regulations were written, and to provide rationale for positions taken relative to issues raised in the public comments. The preambles are printed in chronological order to provide an administrative history. As revisions are made to part 30, preambles will be published under the FAR system. Part I, Preambles to the Cost Accounting Standards, and Part II, Preambles to the Related Rules and Regulations, published by the Cost Accounting Standards Board, were originally published in Title 4 of the Code of Federal Regulations and are only published in the looseleaf edition of the FAR. Part III contains preambles published under the FAR system that are published in the Appendix A to part 30 of Title 48, as well as in the looseleaf version of the FAR.

[52 FR 35613, Sept. 22, 1987, as amended at 53 FR 27465, July 20, 1988]

Subpart 30.4—Cost Accounting Standards

30.400 General.

This subpart contains the Cost Accounting Standards (CAS). The requirements for use of these Standards are contained in subpart 30.2. Normal FAR paragraph numbering conventions are modified in subpart 30.4 to maintain the original CAS numbering and referencing scheme. For example, CAS 401 now reads 30.401.

30.401 Cost accounting standard—consistency in estimating, accumulating and reporting costs.

30.401-10 [Reserved]

30.401-20 Purpose.

The purpose of this Cost Accounting Standard is to ensure that each contractor's practices used in estimating costs for a proposal are consistent with cost accounting practices used by him in accumulating and reporting costs. Consistency in the application of cost accounting practices is necessary to enhance the likelihood that comparable transactions are treated alike. With respect to individual contracts, the consistent application of cost accounting practices will facilitate the preparation of reliable cost estimates used in pricing a proposal and their comparison with the costs of performance of the resulting contract. Such comparisons provide one important basis for financial control over costs during contract performance and aid in establishing accountability for costs in the manner agreed to by both parties at the time of contracting. The comparisons also provide an improved basis for evaluating estimating capabilities.

30.401-30 [Reserved]

30.401-40 Fundamental requirement.

(a) A contractor's practices used in estimating costs in pricing a proposal shall be consistent with his cost accounting practices used in accumulating and reporting costs.

(b) A contractor's cost accounting practices used in accumulating and reporting actual costs for a contract shall be consistent with his practices used in estimating costs in pricing the related proposal.

(c) The grouping of homogeneous costs in estimates prepared for proposal purposes shall not per se be deemed an inconsistent application of cost accounting practices under paragraphs (a) and (b) of this section when such costs are accumulated and reported in greater detail on an actual cost basis during contract performance.

401-50 Techniques for application.

a) The standard allows grouping of
mogeneous costs in order to cover
ose cases where it is not practicable
estimate contract costs by individ-
l cost element or function. However,
ts estimated for proposal purposes
all be presented in such a manner
d in such detail that any significant
t can be compared with the actual
t accumulated and reported there-
. In any event the cost accounting
actices used in estimating costs in
cing a proposal and in accumulating
d reporting costs on the resulting
tract shall be consistent with re-
ct to:
l) The classification of elements or
ctions of cost as direct or indirect;
the indirect cost pools to which
h element or function of cost is
rged or proposed to be charged;
and (3) the methods of allocating indirect costs to the contract.

(b) Adherence to the requirement of 30.401-40(a) of this standard shall be determined as of the date of award of the contract, unless the contractor has submitted cost or pricing data pursuant to Pub. L. 87-653, in which case adherence to the requirement of 30.401-40(a) shall be determined as of the date of final agreement on price, as shown on the signed certificate of current cost or pricing data. Notwithstanding 30.401-40(b), changes in established cost accounting practices during contract performance may be made in accordance with FAR Part 30.

30.401-60 Illustrations.

(a) The following examples are illustrative of applications of cost accounting practices which are deemed to be consistent.

Practices used in estimating costs for proposals	Practices used in accumulating and reporting costs of contract performance
ntractor estimates an average direct labor rate for manufactur- direct labor by labor category or function.	1. Contractor records manufacturing direct labor based on actual cost for each individual and collects such costs by labor category or function
ntractor estimates an average cost for minor standard hardware ns, including nuts, bolts, washers, etc.	2. Contractor records actual cost for minor standard hardware items based upon invoices or material transfer slips.
ntractor uses an estimated rate for manufacturing overhead to applied to an estimated direct labor base. He identifies the ns included in his estimate of manufacturing overhead and vides supporting data for the estimated direct labor base.	3. Contractor accounts for manufacturing overhead by individual items of cost which are accumulated in a cost pool allocated to final cost objectives on a direct labor base.

) The following examples are illustrative of application of cost accounting
ctices which are deemed not to be consistent.

Practices used for estimating costs for proposals	Practices used in accumulating and reporting costs of contract performance
ntractor estimates a total dollar amount for engineering labor ch includes disparate and significant elements or functions of ineering labor. Contractor does not provide supporting data onciling this amount to the estimates for the same engineering or cost functions for which he will separately account in contract formance.	4. Contractor accounts for engineering labor by cost function, i.e., drafting, designing, production engineering, etc.
ntractor estimates engineering labor by cost function, i.e., fting, production engineering, etc.	5. Contractor accumulates total engineering labor in one undifferentiated account.
ntractor estimates a single dollar amount for machining cost to er labor, material and overhead.	6. Contractor records separately the actual cost of machining labor and material as direct costs, and factory overhead as indirect costs.

01-61 Interpretation.

.401, Cost Accounting Standard—
sistency in Estimating, Accumulat-
and Reporting Costs, requires in
01-40 that a contractor's "practices used in estimating costs in pricing a proposal shall be consistent with his cost accounting practices used in accumulating and reporting costs."

In estimating the cost of direct material requirements for a contract, it is a common practice to first estimate the cost of the actual quantities to be incorporated in end items. Provisions are then made for additional direct material costs to cover expected material losses such as those which occur, for example, when items are scrapped, fail to meet specifications, are lost, consumed in the manufacturing process, or destroyed in testing and qualification processes. The cost of some or all of such additional direct material requirements is often estimated by the application of one or more percentage factors to the total cost of basic direct material requirements or to some other base.

Questions have arisen as to whether the accumulation of direct material costs in an undifferentiated account where a contractor estimates a significant part of such costs by means of percentage factors is in compliance with 30.401. The most serious questions pertain to such percentage factors which are not supported by the contractor with accounting, statistical, or other relevant data from past experience, nor by a program to accumulate actual costs for comparison with such percentage estimates. The accumulation of direct costs in an undifferentiated account in this circumstance is a cost accounting practice which is not consistent with the practice of estimating a significant part of costs by means of percentage factors. This situation is virtually identical with that described in Illustration 30.401-60(b)(5), which deals with labor.

30.401 does not, however, prescribe the amount of detail required in accumulating and reporting costs. The amount of detail required may vary considerably depending on the percentage factors used, the data presented in justification or lack thereof, and the significance of each situation. Accordingly, it is neither appropriate nor practical to prescribe a single set of accounting practices which would be consistent in all situations with the practices of estimating direct material costs by percentage factors. Therefore, the amount of accounting and statistical detail to be required and maintained in accounting for this portion of direct material costs has been and continues to be a matter to be decided by Government procurement authorities on the basis of the individual facts and circumstances.

[52 FR 35622, as amended at 52 FR 36675, Sept. 30, 1987]

30.401-62 Exemption. [Reserved]

30.401-63 Effective date. [Reserved]

30.402 Cost accounting standard—consistency in allocating costs incurred for the same purpose.

30.402-10 [Reserved]

30.402-20 Purpose.

The purpose of this standard is to require that each type of cost is allocated only once and on only one basis to any contract or other cost objective. The criteria for determining the allocation of costs to a product, contract, or other cost objective should be the same for all similar objectives. Adherence to these cost accounting concepts is necessary to guard against the overcharging of some cost objectives and to prevent double counting. Double counting occurs most commonly when cost items are allocated directly to a cost objective without eliminating like cost items from indirect cost pools which are allocated to that cost objective.

30.402-30 [Reserved]

30.402-40 Fundamental requirement.

All costs incurred for the same purpose, in like circumstances, are either direct costs only or indirect costs only with respect to final cost objectives. No final cost objective shall have allocated to it as an indirect cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included as a direct cost of that or any other final cost objective. Further, no final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included in any indirect cost pool to be allocated to that or any other final cost objective.

30.402-50 Techniques for application.

(a) The Fundamental Requirement is stated in terms of cost incurred and is equally applicable to estimates of costs to be incurred as used in contract proposals.

(b) The Disclosure Statement to be submitted by the contractor will require that he set forth his cost accounting practices with regard to the distinction between direct and indirect costs. In addition, for those types of cost which are sometimes accounted for as direct and sometimes accounted for as indirect, the contractor will set forth in his Disclosure Statement the specific criteria and circumstances for making such distinctions. In essence, the Disclosure Statement submitted by the contractor, by distinguishing between direct and indirect costs. and by describing the criteria and circumstances for allocating those items which are sometimes direct and sometimes indirect, will be determinative as to whether or not costs are incurred for the same purpose. Disclosure Statement as used herein refers to the statement required to be submitted by contractors as a condition of contracting as set forth in subpart 30.2.

(c) In the event that a contractor has not submitted a Disclosure Statement the determination of whether specific costs are directly allocable to contracts shall be based upon the contractor's cost accounting practices used at the time of contract proposal.

(d) Whenever costs which serve the same purpose cannot equitably be indirectly allocated to one or more final cost objectives in accordance with the contractor's disclosed accounting practices, the contractor may either: (1) use a method for reassigning all such costs which would provide an equitable distribution to all final cost objectives, or (2) directly assign all such costs to final cost objectives with which they are specifically identified. In the event the contractor decides to make a change for either purpose, the Disclosure Statement shall be amended to reflect the revised accounting practices involved.

(e) Any direct cost of minor dollar amount may be treated as an indirect cost for reasons of practicality where the accounting treatment for such cost is consistently applied to all final cost objectives, provided that such treatment produces results which are substantially the same as the results which would have been obtained if such cost had been treated as a direct cost.

30.402-60 Illustrations.

(a) Illustrations of costs which are incurred for the same purpose:

(1) Contractor normally allocates all travel as an indirect cost and previously disclosed this accounting practice to the Government. For purposes of a new proposal, contractor intends to allocate the travel costs of personnel whose time is accounted for as direct labor directly to the contract. Since travel costs of personnel whose time is accounted for as direct labor working on other contracts are costs which are incurred for the same purpose, these costs may no longer be included within indirect cost pools for purposes of allocation to any covered Government contract. Contractor's Disclosure Statement must be amended for the proposed changes in accounting practices.

(2) Contractor normally allocates planning costs indirectly and allocates this cost to all contracts on the basis of direct labor. A proposal for a new contract requires a disproportionate amount of planning costs. The contractor prefers to continue to allocate planning costs indirectly. In order to equitably allocate the total planning costs, the contractor may use a method for allocating all such costs which would provide an equitable distribution to all final cost objectives. For example, he may use the number of planning documents processed rather than his former allocation base of direct labor. Contractor's Disclosure Statement must be amended for the proposed changes in accounting practices.

(b) Illustrations of costs which are not incurred for the same purpose:

(1) Contractor normally allocates special tooling costs directly to contracts. The costs of general purpose tooling are normally included in the indirect cost pool which is allocated to contracts. Both of these accounting

practices were previously disclosed to the Government. Since both types of costs involved were not incurred for the same purpose in accordance with the criteria set forth in the contractor's Disclosure Statement, the allocation of general purpose tooling costs from the indirect cost pool to the contract, in addition to the directly allocated special tooling costs, is not considered a violation of the standard.

(2) Contractor proposes to perform a contract which will require three firemen on 24-hour duty at a fixed-post to provide protection against damage to highly inflammable materials used on the contract. Contractor presently has a fire fighting force of 10 employees for general protection of the plant. Contractor's costs for these latter firemen are treated as indirect costs and allocated to all contracts; however, he wants to allocate the three fixed-post firemen directly to the particular contract requiring them and also allocate a portion of the cost of the general firefighting force to the same contract. He may do so but only on condition that his disclosed practices indicate that the costs of the separate classes of firemen serve different purposes and that it is his practice to allocate the general firefighting force indirectly and to allocate fixed-post firemen directly.

30.402-61 Interpretation.

30.402, Cost Accounting Standard—Consistency in Allocating Costs Incurred for the Same Purpose, provides, in 30.402-40, that "* * * no final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included in any indirect cost pool to be allocated to that or any other final cost objective."

This interpretation deals with the way 30.402 applies to the treatment of costs incurred in preparing, submitting, and supporting proposals. In essence, it is addressed to whether or not, under the Standard, all such costs are incurred for the same purpose, in like circumstances.

Under 30.402, costs incurred in preparing, submitting, and supporting proposals pursuant to a specific requirement of an existing contract ar considered to have been incurred i different circumstances from the circumstances under which costs are incurred in preparing proposals which do not result from such specific requirement. The circumstances are different because the costs of preparing proposals specifically required by the provisions of an existing contract relate only to that contract while other proposal costs relate to all work of the contractor.

This interpretation does not preclude the allocation, as indirect costs of costs incurred in preparing all proposals. The cost accounting practices used by the contractor, however, must be followed consistently and the method used to reallocate such costs of course, must provide an equitable distribution to all final cost objectives

[52 FR 35622, as amended at 52 FR 36675 Sept. 30, 1987]

30.402-62 Exemption. [Reserved]

30.402-63 Effective date. [Reserved]

30.403 Allocation of home office expenses to segments.

30.403-10 [Reserved]

30.403-20 Purpose.

(a) The purpose of this Cost Accounting Standard is to establish criteria for allocation of the expenses of a home office to the segments of the organization based on the beneficial or causal relationship between such expenses and the receiving segments. It provides for: (1) identification of expenses for direct allocation to segments to the maximum extent practical; (2) accumulation of significant nondirectly allocated expenses into logical and relatively homogeneous pools to be allocated on bases reflecting the relationship of the expenses to the segments concerned; and (3) allocation of any remaining or residual home office expenses to all segments. Appropriate implementation of this Standard will limit the amount of home office expenses classified as residual to the expenses of managing the organization as a whole.

(b) This Standard does not cover the reallocation of a segment's share of home office expenses to contracts and other cost objectives.

30.403-30 [Reserved]

30.403-40 Fundamental requirement.

(a) (1) Home office expenses shall be allocated on the basis of the beneficial or causal relationship between supporting and receiving activities. Such expenses shall be allocated directly to segments to the maximum extent practical. Expenses not directly allocated, if significant in amount and in relation to total home office expenses, shall be grouped in logical and homogeneous expense pools and allocated pursuant to paragraph (b) of this subsection. Such allocations shall minimize to the extent practical the amount of expenses which may be categorized as residual (those of managing the organization as a whole). These residual expenses shall be allocated pursuant to paragraph (c) of this subsection.

(2) No segment shall have allocated to it as an indirect cost, either through a homogeneous expense pool, or the residual expense pool, any cost, if other costs incurred for the same purpose have been allocated directly to that or any other segment.

(b) The following subparagraphs provide criteria for allocation of groups of home office expenses.

(1) *Centralized service functions.* Expenses of centralized service functions performed by a home office for its segments shall be allocated to segments on the basis of the service furnished to or received by each segment. Centralized service functions performed by a home office for its segments are considered to consist of specific functions which, but for the existence of a home office, would be performed or acquired by some or all of the segments individually. Examples include centrally performed personnel administration and centralized data processing.

(2) *Staff management of certain specific activities of segments.* The expenses incurred by a home office for staff management or policy guidance functions which are significant in amount and in relation to total home office expenses shall be allocated to segments receiving more than a minimal benefit over a base, or bases, representative of the total specific activity being managed. Staff management or policy guidance to segments is commonly provided in the overall direction or support of the performance of discrete segment activities such as manufacturing, accounting, and engineering (but see subparagraph (b)(6) of this subsection).

(3) *Line management of particular segments or groups of segments.* The expense of line management shall be allocated only to the particular segment or group of segments which are being managed or supervised. If more than one segment is managed or supervised, the expense shall be allocated using a base or bases representative of the total activity of such segments. Line management is considered to consist of management or supervision of a segment or group of segments as a whole.

(4) *Central payments or accruals.* Central payments or accruals which are made by a home office on behalf of its segments shall be allocated directly to segments to the extent that all such payments or accruals of a given type or class can be identified specifically with individual segments. Central payments or accruals are those which but for the existence of a number of segments would be accrued or paid by the individual segments. Common examples include centrally paid or accrued pension costs, group insurance costs, State and local income taxes and franchise taxes, and payrolls paid by a home office on behalf of its segments. Any such types of payments or accruals which cannot be identified specifically with individual segments shall be allocated to benefited segments using an allocation base representative of the factors on which the total payment is based.

(5) *Independent research and development costs and bid and proposal costs.* Independent research and development costs and bid and proposal costs of a home office shall be allocated in accordance with 30.420.

(6) *Staff management not identifiable with any certain specific activities of segments.* The expenses incurred by

a home office for staff management, supervisory, or policy functions, which are not identifiable to specific activities of segments shall be allocated in accordance with paragraph (c) of this subsection as residual expenses.

(c) *Residual expenses.* (1) All home office expenses which are not allocable in accordance with paragraph (a) of this subsection and subparagraphs (b)(1) through (b)(5) of this subsection shall be deemed residual expenses. Typical residual expenses are those for the chief executive, the chief financial officer, and any staff which are not identifiable with specific activities of segments. Residual expenses shall be allocated to all segments under a home office by means of a base representative of the total activity of such segments, except where paragraph (c) (2) or (3) of this subsection applies.

(2) Residual expenses shall be allocated pursuant to 30.403-50(c)(1) if the total amount of such expenses for the contractor's previous fiscal year (excluding any unallowable costs and before eliminating any amounts to be allocated in accordance with subparagraph (c)(3) of this section) exceeds the amount obtained by applying the following percentage(s) to the aggregate operating revenue of all segments for such previous year:

3.35 percent of the first $100 million;
0.95 percent of the next $200 million;
0.30 percent of the next $2.7 billion;
0.20 percent of all amounts over $3 billion.

The determination required by this paragraph for the 1st year the contractor is subject to this Standard shall be based on the pro forma application of this Standard to the home office expenses and aggregate operating revenue for the contractor's previous fiscal year.

(3) Where a particular segment receives significantly more or less benefit from residual expenses than would be reflected by the allocation of such expenses pursuant to subparagraph (c) (1) or (2) of this subsection (see 30.403-50(d)), the Government and the contractor may agree to a special allocation of residual expenses to such segment commensurate with the benefits received. The amount of a special allocation to any segment made pursu-
ant to such an agreement shall be e
cluded from the pool of residual e
penses to be allocated pursuant to su
paragraph (c) (1) or (2) of this subse
tion, and such segment's data shall b
excluded from the base used to all
cate this pool.

30.403-50 Techniques for application.

(a) (1) Separate expense grouping
will ordinarily be required to impl
ment 30.403-40. The number of grou
ings will depend primarily on the var
ety and significance of service an
management functions performed by
particular home office. Ordinarily
each service or management functio
will have to be separately identifie
for allocation by means of an appr
priate allocation technique. Howeve
it is not necessary to identify and all
cate different functions separately,
allocation in accordance with the rel
vant requirements of 30.403-40(b) ca
be made using a common allocatio
base. For example, if the personnel d
partment of a home office provid
personnel services for some or all
the segments (a centralized servic
function) and also established perso
nel policies for the same segments
staff management function), the e
penses of both functions could be all
cated over the same base, such as th
number of personnel, and the separat
functions do not have to be identifie

(2) Where the expense of a give
function is to be allocated by means
a particular allocation base, all se
ments shall be included in the bas
unless: (i) Any excluded segment d
not receive significant benefits fro
or contribute significantly to the cau
of the expense to be allocated and, (
any included segment did receive si
nificant benefits from or contribut
significantly to the cause of the e
pense in question.

(b) (1) Section 30.403-60 illustrat
various expense pools which may b
used together with appropriate alloc
tion bases. The allocation of centra
ized service functions shall be go
erned by a hierarchy of preferable a
location techniques which represen
beneficial or casual relationships. Th
preferred representation of such rel
tionships is a measure of the activit

of the organization performing the function. Supporting functions are usually labor-oriented, machine-oriented, or space-oriented. Measures of the activities of such functions ordinarily can be expressed in terms of labor hours, machine hours, or square footage. Accordingly, costs of these functions shall be allocated by use of a rate, such as a rate per labor hour, rate per machine hour or cost per square foot, unless such measures are unavailable or impractical to ascertain. In these latter cases the basis for allocation shall be a measurement of the output of the supporting function. Output is measured in terms of units of end product produced by the supporting function, as for example, number of printed pages for a print shop, number of purchase orders processed by a purchasing department, number of hires by an employment office.

(2) Where neither activity nor output of the supporting function can be practically measured, a surrogate for the beneficial, or causal relationship must be selected. Surrogates used to represent the relationship are generally measures of the activity of the segments receiving the service; for example, for personnel services reasonable surrogates would be number of personnel, labor hours, or labor dollars of the segments receiving the service. Any surrogate used should be a reasonable measure of the services received and, logically, should vary in proportion to the services received.

(c) (1) Where residual expenses are required to be allocated pursuant to 30.403-40(c)(2), the three factor formula described below must be used. This formula is considered to result in appropriate allocations of the residual expenses of home offices. It takes into account three broad areas of management concern: The employees of the organization, the business volume, and the capital invested in the organization. The percentage of the residual expenses to be allocated to any segment pursuant to the three factor formula is the arithmetical average of the following three percentages for the same period:

(i) The percentage of the segment's payroll dollars to the total payroll dollars of all segments.

(ii) The percentage of the segment's operating revenue to the total operating revenue of all segments. For this purpose, the operating revenue of any segment shall include amounts charged to other segments and shall be reduced by amounts charged by other segments for purchases.

(iii) The percentage of the average net book value of the sum of the segment's tangible capital assets plus inventories to the total average net book value of such assets of all segments. Property held primarily for leasing to others shall be excluded from the computation. The average net book value shall be the average of the net book value at the beginning of the organization's fiscal year and the net book value at the end of the year.

(d) The following paragraphs provide guidance for implementing the requirements of 30.403-40(c)(3).

(1) An indication that a segment received significantly less benefit in relation to other segments can arise if a segment, unlike all or most other segments, performs on its own many of the functions included in the residual expense. Another indication may be that, in relation to its size, comparatively little or no costs are allocable to a segment pursuant to 30.403-40(b) (1) through (5). Evidence of comparatively little communication or interpersonal relations between a home office and a segment, in relation to its size, may also indicate that the segment receives significantly less benefit from residual expenses. Conversely, if the opposite conditions prevail at any segment, a greater allocation than would result from the application of 30.403-40(c) (1) or (2) may be indicated. This may be the case, for example, if a segment relies heavily on the home office for certain residual functions normally performed by other segments on their own.

(2) Segments which may require special allocations of residual expenses pursuant to 30.403-40(c)(3) include, but are not limited to foreign subsidiaries, GOCO's, domestic subsidiaries with less than a majority ownership, and joint ventures.

(3) The portion of residual expenses to be allocated to a segment pursuant to 30.403-40(c)(3) shall be the cost of estimated or recorded efforts devoted to the segments.

(e) Home office functions may be performed by an organization which for some purposes may not be a part of the legal entity with which the Government has contracted. This situation may arise, for example, in instances where the Government contracts directly with a 'corporation which is wholly or partly owned by another corporation. In this case, the latter corporation serves as a *home office*, and the corporation with which the contract is made is a *segment* as those terms are defined and used in this Standard. For purposes of contracts subject to this Standard, the contracting corporation may only accept allocations from the other corporation to the extent that such allocations meet the requirements set forth in this Standard for allocation of home office expenses to segments.

30.403-60 Illustrations.

(a) The following table lists some typical pools, together with illustrative allocation bases, which could be used in appropriate circumstances:

Home office expense or function	Illustrative allocation bases
Centralized service functions:	
1. Personnel administration	1. Number of personnel, labor hours, payroll, numbe of hires.
2. Data processing services	2. Machine time, number of reports.
3. Centralized purchasing and subcontracting	3. Number of purchase orders, value of purchases, number of items.
4. Centralized warehousing	4. Square footage, value of material, volume.
5. Company aircraft service	5. Actual or standard rate per hour, mile, passeng mile, or similar unit.
6. Central telephone service	6. Usage costs, number of instruments.

(b) The selection of a base for allocating centralized service functions shall be governed by the criteria established in 30.403-50(b).

(c) The listed allocation bases in this section are illustrative. Other bases for allocation of home office expenses to segments may be used if they are substantially in accordance with the beneficial or casual relationships outlined in 30.403-40.

Home office expense or function	Illustrative allocation bases
Staff management of specific activities:	
1. Personnel management	1. Number of personnel, labor hours, payroll, number of hires.
2. Manufacturing policies (quality control, industrial engineering, production, scheduling, tooling, inspection and testing, etc.).	2. Manufactunng cost input, manufacturing direct labor.
3. Engineering policies	3. Total engineering costs, engineering direct labor, number of drawings.
4. Material/purchasing policies	4. Number of purchase orders, value of purchases.
5. Marketing policies	5. Sales, segment marketing costs.
Central payments or accruals:	
1. Pension expenses	1. Payroll or other factor on which total payment is based.
2. Group insurance expenses	2. Payroll or other factor on which total payment is based.
3. State and local income taxes and franchise taxes	3. Any base or method which results in an allocation that equals or approximates a segment's proportionate share of the tax imposed by the jurisdiction in which the segment does business, as measured by the same factors used to determine taxable income for that jurisdiction.

30.403-61 Interpretation.

Questions have arisen as to the requirements of 30.403, Cost Accounting Standard, Allocation of Home Office Expenses to Segments, for the purpose of allocating State and local income taxes and franchise taxes based on income (hereinafter collectively referred to as income taxes) from a home office of an organization to its segments.

By means of an illustrative allocation base in 30.403-60, the Standard provides that income taxes are to be allocated by "any base or method which results in an allocation that equals or approximates a segment's proportionate share of the tax imposed by the jurisdiction in which the segment does business, as measured by the same factors used to determine taxable income for that jurisdiction." This provision contains two essential criteria for the allocation of income taxes from a home office to segments. First, the taxes of any particular jurisdiction are to be allocated only to those segments that do business in the taxing jurisdiction. Second, where there is more than one segment in a taxing jurisdiction, the taxes are to be allocated among those segments on the basis of "the same factors used to determine the taxable income for that jurisdiction." The questions that have arisen relate primarily to whether segment book income or loss is a "factor" for this purpose.

Most States tax a fraction of total organization income, rather than the book income of segments that do business within the State. The fraction is calculated pursuant to a formula prescribed by State statute. In these situations the book income or loss of individual segments is not a factor used to determine taxable income for that jurisdiction. Accordingly, in States that tax a fraction of total organization income, rather than the book income of segments within the State, such book income is irrelevant for tax allocation purposes. Therefore, segment book income is to be used as a factor in allocating income tax expense from a home office to segments only where this amount is expressly used by the taxing jurisdiction in computing the income tax.

[52 FR 35622, as amended at 52 FR 36675, Sept. 30, 1987]

30.403-62 Exemption. [Reserved]

30.403-63 Effective date. [Reserved]

30.404 Capitalization of tangible assets.

30.404-10 [Reserved]

30.404-20 Purpose.

This Standard requires that, for purposes of cost measurement, contractors establish and adhere to policies with respect to capitalization of tangible assets which satisfy criteria set forth herein. Normally, cost measurements are based on the concept of enterprise continuity; this concept implies that major asset acquisitions will be capitalized, so that the cost applicable to current and future accounting periods can be allocated to cost objectives of those periods. A capitalization policy in accordance with this Standard will facilitate measurement of costs consistently over time.

30.404-30 [Reserved]

30.404-40 Fundamental requirement.

(a) The acquisition cost of tangible capital assets shall be capitalized. Capitalization shall be based upon a written policy that is reasonable and consistently applied.

(b) The contractor's policy shall designate economic and physical characteristics for capitalization of tangible assets.

(1) The contractor's policy shall designate a minimum service life criterion, which shall not exceed 2 years, but which may be a shorter period. The policy shall also designate a minimum acquisition cost criterion which shall not exceed $1,500, but which may be a smaller amount.

(2) The contractor's policy may designate other specific characteristics which are pertinent to his capitalization policy decisions (e.g., class of asset, physical size, identifiability and controllability, the extent of integration or independence of constituent units).

(3) The contractor's policy shall provide for identification of asset ac-

countability units to the maximum extent practical.

(4) The contractor's policy may designate higher minimum dollar limitations for original complement of low cost equipment and for betterments and improvements than the limitation established in accordance with subparagraph (b)(1) of this subsection, provided such higher limitations are reasonable in the contractor's circumstances.

(c) Tangible assets shall be capitalized when both of the criteria in the contractor's policy as required in subparagraph (b)(1) of this subsection are met, except that assets described in subparagraph (b)(4) of this section shall be capitalized in accordance with the criteria established in accordance with that paragraph.

(d) Costs incurred subsequent to the acquisition of a tangible capital asset which result in extending the life or increasing the productivity of that asset (e.g., betterments and improvements) and which meet the contractor's established criteria for capitalization shall be capitalized with appropriate accounting for replaced asset accountability units. However, costs incurred for repairs and maintenance to a tangible capital asset which either restore the asset to, or maintain it at, its normal or expected service life or production capacity shall be treated as costs of the current period.

[52 FR 35613, Sept. 22, 1987, as amended at 53 FR 27465, July 20, 1988]

30.404-50 Techniques for application.

(a) The cost to acquire a tangible capital asset includes the purchase price of the asset and costs necessary to prepare the asset for use.

(1) The purchase price of an asset shall be adjusted to the extent practical by premiums and extra charges paid or discounts and credits received which properly reflect an adjustment in the purchase price.

(i) Purchase price is the consideration given in exchange for an asset and is determined by cash paid, or to the extent payment is not made in cash, in an amount equivalent to what would be the cash price basis. Where this amount is not available, the purchase price is determined by the current value of the consideration given in exchange for the asset. For example, current value for a credit instrument is the amount immediately required to settle the obligation or the amount of money which might have been raised directly through the use of the same instrument employed in making the credit purchase. The current value of an equity security is its market value. Market value is the current or prevailing price of the security as indicated by recent market quotations. If such values are unavailable or not appropriate (thin market, volatile price movement, etc.), an acceptable alternative is the fair value of the asset acquired.

(ii) Donated assets which, at the time of receipt, meet the contractor's criteria for capitalization shall be capitalized at their fair value at that time.

(2) Costs necessary to prepare the asset for use include the cost of placing the asset in location and bringing the asset to a condition necessary for normal or expected use. Where material in amount, such costs, including initial inspection and testing, installation and similar expenses, shall be capitalized.

(b) Tangible capital assets constructed or fabricated by a contractor for its own use shall be capitalized at amounts which include all indirect costs properly allocable to such assets. This requires the capitalization of general and administrative expenses when such expenses are identifiable with the constructed asset and are material in amount (e.g., when the in-house construction effort requires planning, supervisory, or other significant effort by officers or other personnel whose salaries are regularly charged to general and administrative expenses). When the constructed assets are identical with or similar to the contractor's regular product, such assets shall be capitalized at amounts which include a full share of indirect costs.

(c) In circumstances where the acquisition by purchase or donation of previously used tangible capital assets is not an arm's length transaction, acquisition cost shall be limited to the capitalized cost of the asset to the owner who last acquired the asset through an arm's-length transaction.

reduced by depreciation charges from date of that acquisition to date of gift or sale.

(d) Under the *purchase method* of accounting for business combinations, acquired tangible capital assets shall be assigned a portion of the cost of the acquired company, not to exceed their fair value at date of acquisition. Where the fair value of identifiable acquired assets less liabilities assumed exceeds the purchase price of the acquired company in an acquisition under the *purchase method*, the value otherwise assignable to tangible capital assets shall be reduced by a proportionate part of the excess.

(e) Under the *pooling of interest method* of accounting for business combinations, the values established for tangible capital assets for financial accounting shall be the values used for determining the cost of such assets.

(f) Asset accountability units shall be identified and separately capitalized at the time the assets are acquired. However, whether or not the contractor identifies and separately capitalizes a unit initially, the contractor shall remove the unit from the asset accounts when it is disposed of and, if replaced, its replacement shall be capitalized.

30.404-60 Illustrations.

(a) *Illustrations of costs which must be capitalized.* (1) Contractor has an established policy of capitalizing tangible assets which have a service life of more than 1 year and a cost of $2,000. The contractor's policy must be modified to conform to the $1,500 policy limitation on minimum acquisition cost established by the Standard.

(i) Contractor acquires a tangible capital asset with a life of 18 months at a cost of $1,700. The Standard requires that the asset be capitalized in compliance with contractor's policy as to service life.

(ii) Contractor acquires a tangible asset with a life of 18 months at a cost of $900. The asset need not be capitalized unless the contractor's revised policy establishes a minimum cost criterion below $900.

(2) Contractor has an established policy of capitalizing tangible assets which have a service life of more than 1 year and a cost of $250. The Standard requires that, based upon contractor's policy, the asset be capitalized.

(3) Contractor establishes a major new production facility. In the process, a number of large and small items of equipment were acquired to outfit it. The contractor has an established policy of capitalizing individual items of tangible assets which have a service life of over 1 year and a cost of $500, and all items meeting these requirements were capitalized. In addition, the contractor's policy requires capitalization of an original complement which has a service life of over 1 year and a cost of $5,000. Items of durable equipment acquired for the production facility costing less than $500 each aggregated $50,000. Based upon the contractor's policy, the durable equipment items must be capitalized as the original complement of low cost equipment. (The concept of original complement applies to such items as books in a new library, impact wrenches in a new factory, work benches and racks in a new production facility, or furniture and fixtures in a new office building.)

(4) Contractor has an established policy for treating its heavy presses and their power supplies as separate asset accountability units. A power supply is replaced during the service life of the related press. The Standard requires that, based upon the contractor's policy, the new power supply be capitalized with appropriate accounting for the replaced unit.

(b) *Illustrations of costs which need not be capitalized.* (1) The contractor has an established policy of capitalizing tangible assets which have a service life of 2 years and a cost of $500. The contractor acquires an asset with a useful life of 18 months and a cost of $5,000. The tangible asset should be expensed because it does not meet the 2 year criterion. .

(2) The contractor establishes a new assembly line. In outfitting the line, the contractor acquires $5,000 of small tools. On similar assembly lines under similar conditions, the original complement of small tools was expensed because the complement was replaced annually as a result of loss, pilferage, breakage, and physical wear and tear.

Because the unit of original complement does not meet the contractor's service life criterion for capitalization (1 year), the small tools may be expensed.

[52 FR 35613, Sept. 22, 1987, as amended at 53 FR 27465, July 20, 1988]

30.404-61 Interpretation. [Reserved]

30.404-62 Exemption. [Reserved]

30.404-63 Effective date.

The effective date of the modifications to 30.404-40 (b) (1), 30.404-60 (a)(1), and 30.404-60 (a)(1)(i), which increase the minimum acquisition cost criterion for capitalization of tangible capital assets to $1,500, is September 19, 1988. The modification shall be applied to accrued expenditures for acquisition of tangible capital assets on or after the start of the contractor's next cost accounting period, beginning after receipt of a contract to which the modification is applicable.

[53 FR 27465, July 20, 1988]

30.405 Accounting for unallowable costs.

30.405-10 [Reserved]

30.405-20 Purpose.

(a) The purpose of this Cost Accounting Standard is to facilitate the negotiation, audit, administration and settlement of contracts by establishing guidelines covering: (1) identification of costs specifically described as unallowable, at the time such costs first become defined or authoritatively designated as unallowable; and (2) the cost accounting treatment to be accorded such identified unallowable costs in order to promote the consistent application of sound cost accounting principles covering all incurred costs. The Standard is predicated on the proposition that costs incurred in carrying on the activities of an enterprise—regardless of the allowability of such costs under Government contracts—are allocable to the cost objectives with which they are identified on the basis of their beneficial or causal relationships.

(b) This Standard does not govern the allowability of costs. This is a function of the appropriate procurement or reviewing authority.

30.405-30 [Reserved]

30.405-40 Fundamental requirement.

(a) Costs expressly unallowable or mutually agreed to be unallowable, including costs mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, or proposal applicable to a Government contract.

(b) Costs which specifically become designated as unallowable as a result of a written decision furnished by a contracting officer pursuant to contract disputes procedures shall be identified if included in or used in the computation of any billing, claim, or proposal applicable to a Government contract. This identification requirement applies also to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under either this paragraph or paragraph (a) of this subsection.

(c) Costs which, in a contracting officer's written decision furnished pursuant to contract disputes procedures, are designated as unallowable directly associated costs of unallowable costs covered by either paragraph (a) or (b) of this subsection shall be accorded the identification required by paragraph (b) of this subsection.

(d) The costs of any work project not contractually authorized, whether or not related to performance of a proposed or existing contract, shall be accounted for, to the extent appropriate, in a manner which permits ready separation from the costs of authorized work projects.

(e) All unallowable costs covered by paragraphs (a) through (d) of this subsection shall be subject to the same cost accounting principles governing cost allocability as allowable costs. In circumstances where these unallowable costs normally would be part of a regular indirect-cost allocation base or bases, they shall remain in such base or bases. Where a directly associated cost is part of a category of costs normally included in an indirect-cost pool that will be allocated over a base containing the unallowable cost with which it is associated, such a directly associated cost shall be retained in the indirect-cost pool and be allocated through the regular allocation process.

(f) Where the total of the allocable and otherwise allowable costs exceeds a limitation-of-cost or ceiling-price provision in a contract, full direct and indirect cost allocation shall be made to the contract cost objective, in accordance with established cost accounting practices and Standards which regularly govern a given entity's allocations to Government contract cost objectives. In any determination of unallowable cost overrun, the amount thereof shall be identified in terms of the excess of allowable costs over the ceiling amount, rather than through specific identification of particular cost items or cost elements.

30.405-50 Techniques for application.

(a) The detail and depth of records required as backup support for proposals, billings, or claims shall be that which is adequate to establish and maintain visibility of identified unallowable costs (including directly associated costs), their accounting status in terms of their allocability to contract cost objectives, and the cost accounting treatment which has been accorded such costs. Adherence to this cost accounting principle does not require that allocation of unallowable costs to final cost objectives be made in the detailed cost accounting records. It does require that unallowable costs be given appropriate consideration in any cost accounting determinations governing the content of allocation bases used for distributing indirect costs to cost objectives. Unallowable costs involved in the determination of rates used for standard costs, or for indirect-cost bidding or billing, need be identified only at the time rates are proposed, established, revised or adjusted.

(b) The visibility requirement of paragraph (a) of this subsection, may be satisfied by any form of cost identification which is adequate for purposes of contract cost determination and verification. The Standard does not require such cost identification for purposes which are not relevant to the determination of Government contract cost. Thus, to provide visibility for incurred costs, acceptable alternative practices would include: (1) the segregation of unallowable costs in separate accounts maintained for this purpose in the regular books of account; (2) the development and maintenance of separate accounting records or workpapers; or (3) the use of any less formal cost accounting techniques which establishes and maintains adequate cost identification to permit audit verification of the accounting recognition given unallowable costs. Contractors may satisfy the visibility requirements for estimated costs either: (1) By designation and description (in backup data, workpapers, etc.) of the amounts and types of any unallowable costs which have specifically been identified and recognized in making the estimates; or (2) by description of any other estimating technique employed to provide appropriate recognition of any unallowable costs pertinent to the estimates.

(c) Specific identification of unallowable costs is not required in circumstances where, based upon considerations of materiality, the Government and the contractor reach agreement on an alternate method that satisfies the purpose of the Standard.

30.405-60 Illustrations.

(a) An auditor recommends disallowance of certain direct labor and direct material costs, for which a billing has been submitted under a contract, on the basis that these particular costs were not required for performance and were not authorized by the contract. The contracting officer issues a written decision which supports the auditor's position that the questioned costs are unallowable. Following receipt of the contracting officer's decision, the contractor must clearly identify the disallowed direct labor and direct material costs in his accounting records and reports covering any subsequent submission which includes such costs. Also, if the contractor's base for allocation of any indirect cost pool relevant to the subject contract consists of direct labor, direct material, total prime cost, total cost input, etc., he must include the disallowed direct labor and material costs in his allocation base for such pool. Had the contracting officer's decision been against the auditor, the contractor would not, of course, have been required to account separately for the costs questioned by the auditor.

(b) A contractor incurs, and separately identifies, as a part of his manufacturing overhead, certain costs which are expressly unallowable under the existing and currently effective regulations. If manufacturing overhead is regularly a part of the contractor's base for allocation of general and administrative (G&A) or other indirect expenses, the contractor must allocate the G&A or other indirect expenses to contracts and other final cost objectives by means of a base which includes the identified unallowable manufacturing overhead costs.

(c) An auditor recommends disallowance of the total direct indirect costs attributable to an organizational planning activity. The contractor claims that the total of these activity costs are allowable under the Federal Acquisition Regulation as *Economic planning costs* (FAR 31.205-12); the auditor contends that they constitute *Organization costs* (FAR 31.205-27) and therefore are unallowable. The issue is referred to the contracting officer for resolution pursuant to the contract disputes clause. The contracting officer issues a written decision supporting the auditor's position that the total costs questioned are unallowable under the FAR. Following receipt of the contracting officer's decision, the contractor must identify the disallowed costs and specific other costs incurred for the same purpose in like circumstances in any subsequent estimating, cost accumulation or reporting for Government contracts, in which such costs are included. If the contracting officer's decision had supported the contractor's contention, the costs questioned by the auditor would have been allowable *Economic planning costs*, and the contractor would not have been required to provide special identification.

(d) A defense contractor was engaged in a program of expansion and diversification of corporate activities. This involved internal corporate reorganization, as well as mergers and acquisitions. All costs of this activity were charged by the contractor as corporate or segment general and administrative (G&A) expense. In the contractor's proposals for final Segment G&A rates (including corporate home office allocations) to be applied in determining allowable costs of its defense contracts subject to FAR part 31, the contractor identified and excluded the expressly unallowable costs (as listed in FAR 31.205-12) incurred for incorporation fees and for charges for special services of outside attorneys, accountants, promoters, and consultants. In addition, during the course of negotiation of interim bidding and billing G&A rates, the contractor agreed to classify as unallowable various in-house costs incurred for the expansion program, and various directly associated costs of the identifiable unallowable costs. On the basis of negotiations and agreements between the contractor and the contracting officers' authorized representatives, interim G&A rates were established, based on the net balance of allowable G&A costs. Application of the rates negotiated to proposals, and on an interim basis to billings, for covered contracts constitutes compliance with the Standard.

(e) An official of a company, whose salary, travel, and subsistence expenses are charged regularly as general and administrative (G&A) expenses, takes several business associates on what is clearly a business entertainment trip. The entertainment costs of such trips is expressly unallowable because it constitutes entertainment expense, and is separately identified by the contractor. The contractor does not regularly include his G&A expenses in any indirect-expense allocation base. In these circumstances, the official's travel and subsistence expenses would be directly associated costs for identification with the unallowable entertainment expense. However, unless this type of activity constituted a significant part of the official's regular duties and responsibilities on which his salary was based, no part of the official's salary would be required to be identified as a directly associated cost of the unallowable entertainment expense.

30.405-61 Interpretation. [Reserved]

30.405-62 Exemption. [Reserved]

30.405-63 Effective date. [Reserved]

30.406 Cost accounting standard—cost accounting period.

30.406-10 [Reserved]

30.406-20 Purpose.

The purpose of this Cost Accounting Standard is to provide criteria for the selection of the time periods to be used as cost accounting periods for contract cost estimating, accumulating, and reporting. This Standard will reduce the effects of variations in the flow of costs within each cost accounting period. It will also enhance objectivity, consistency, and verifiability, and promote uniformity and comparability in contract cost measurements.

30.406-30 [Reserved]

30.406-40 Fundamental requirement.

(a) A contractor shall use this fiscal year as his cost accounting period, except that:

(1) Costs of an indirect function which exists for only a part of a cost accounting period may be allocated to cost objectives of that same part of the period as provided in 30.406-50(a).

(2) An annual period other than the fiscal year may, as provided in 30.406-50(d), be used as the cost accounting period if its use is an established practice of the contractor.

(3) A transitional cost accounting period other than a year shall be used whenever a change of fiscal year occurs.

(4) Where a contractor's cost accounting period is different from the reporting period required by Renegotiation Board regulations, the latter may be used for such reporting.

(b) A contractor shall follow consistent practices in his selection of the cost accounting period or periods in which any types of expense and any types of adjustment to expense (including prior-period adjustments) are accumulated and allocated.

(c) The same cost accounting period shall be used for accumulating costs in an indirect cost pool as for establishing its allocation base, except that the contracting parties may agree to use a different period for establishing an allocation base as provided in 30.406-50(e).

30.406-50 Techniques for application.

(a) The cost of an indirect function which exists for only a part of a cost accounting period may be allocated on the basis of data for that part of the cost accounting period if the cost is (1) material in amount, (2) accumulated in a separate indirect cost pool, and (3) allocated on the basis of an appropriate direct measure of the activity or output of the function during that part of the period.

(b) The practices required by 30.406-40(b) of this Standard shall include appropriate practices for deferrals, accruals, and other adjustments to be used in identifying the cost accounting periods among which any types of expense and any types of adjustment to expense are distributed. If an expense, such as taxes, insurance or employee leave, is identified with a fixed, recurring, annual period which is different from the contractor's cost accounting period, the Standard permits continued use of that different period. Such expenses shall be distributed to cost accounting periods in accordance with the contractor's established practices for accruals, deferrals and other adjustments.

(c) Indirect cost allocation rates, based on estimates, which are used for the purpose of expediting the closing of contracts which are terminated or completed prior to the end of a cost accounting period need not be those finally determined or negotiated for that cost accounting period. They shall, however, be developed to represent a full cost accounting period, except as provided in paragraph (a) of this subsection.

(d) A contractor may, upon mutual agreement with the Government, use as his cost accounting period a fixed annual period other than his fiscal year, if the use of such a period is an established practice of the contractor and is consistently used for managing and controlling the business, and appropriate accruals, deferrals or other adjustments are made with respect to such annual periods.

(e) The contracting parties may agree to use an annual period which does not coincide precisely with the cost accounting period for developing the data used in establishing an allocation base: *Provided,*

(1) The practice is necessary to obtain significant administrative convenience, (2) the practice is consistently followed by the contractor, (3) the annual period used is representative of the activity of the cost accounting period for which the indirect costs to be allocated are accumulated, and (4) the practice can reasonably be estimated to provide a distribution to cost objective of the cost accounting period not materially different from that which otherwise would be obtained.

(f) When a transitional cost accounting period is required under the provisions of 30.406-40(a)(3), the contractor may select any one of the following:

(1) The period, less than a year in length, extending from the end of his previous cost accounting period to the beginning of his next regular cost accounting period; (2) a period in excess of a year, but not longer than 15 months, obtained by combining the period described in subparagraph (f)(1) of this subsection with the previous cost accounting period; or (3) a period in excess of a year, but not longer than 15 months, obtained by combining the period described in subparagraph (f)(1) of this section with the next regular cost accounting period. A change in the contractor's cost accounting period is a change in accounting practices for which an adjustment in the contract price may be required in accordance with paragraph (a)(4)(ii) or (iii) of the contract clause set out at FAR 52.230-3.

30.406-60 Illustrations.

(a) A contractor allocates general management expenses on the basis of total cost input. In a proposal for a covered negotiated fixed-price contract, he estimates the allocable expenses based solely on the estimated amount of the general management expense pool and the amount of the total cost input base estimated to be incurred during the 8 months in which performance is scheduled to be commenced and completed. Such a proposal would be in violation of the requirements of this Standard that the calculation of the amounts of both the indirect cost pools and the allocation bases be based on the contractor's cost accounting period.

(b) A contractor whose cost accounting period is the calendar year, installs a computer service center to begin operations on May 1. The operating expense related to the new service center is expected to be material in amount, will be accumulated in a separate indirect cost pool, and will be allocated to the benefiting cost objectives on the basis of measured usage. The total operating expenses of the computer service center for the 8-month part of the cost accounting period may be allocated to the benefiting cost objectives of that same 8-month period.

(c) A contractor changes his fiscal year from a calendar year to the 12-month period ending May 31. For financial reporting purposes, he has a 5-month transitional *fiscal year.* The same 5-month period must be used as the transitional cost accounting period; it may not be combined as provided in 30.406-50(f), because the transitional period would be longer than 15 months. The new fiscal year must be adopted thereafter as his regular cost accounting period. The change in his cost accounting period is a change in accounting practices; adjustments of the contract prices may thereafter be required in accordance with subparagraph (a)(4)(ii) or (iii) of the contract clause at 52.230-3.

(d) Financial reports to stockholders are made on a calendar year basis for the entire contractor corporation. However, the contracting segment does all internal financial planning, budgeting, and internal reporting on the basis of a *model year.* The contracting parties agree to use a *model year* and they agree to overhead rates on the *model year* basis. They also agree on a technique for prorating fiscal year assignment of corporate home office expenses between model years. This practice is permitted by the Standard.

(e) Most financial accounts and contract cost records are maintained on the basis of a fiscal year which ends November 30 each year. However, employee vacation allowances are regularly managed on the basis of a *vacation year* which ends September 30 each year. Vacation expenses are estimated uniformly during each *vacation year.* Adjustments are made each October to adjust the accrued liability to actual, and the estimating rates are modified to the extent deemed appropriate. This use of a separate annual period for determining the amounts of vacation expense is permitted under 30.406-50(b).

30.406-61 Interpretation. [Reserved]

30.406-62 Exemption. [Reserved]

30.406-63 Effective date. [Reserved]

30.407 Use of standard costs for direct material and direct labor.

30.407-10 [Reserved]

30.407-20 Purpose.

(a) The purpose of this Cost Accounting Standard is to provide criteria under which standard costs may be used for estimating, accumulating, and reporting costs of direct material and direct labor; and to provide criteria relating to the establishment of standards, accumulation of standard costs, and accumulation and disposition of variances from standard costs. Consistent application of these criteria where standard costs are in use will improve cost measurement and cost assignment.

(b) This Cost Accounting Standard is not intended to cover the use of preestablished measures solely for estimating.

30.407-30 [Reserved]

30.407-40 Fundamental requirement.

Standard costs may be used for estimating, accumulating, and reporting costs of direct material and direct labor only when all of the following criteria are met:

(a) Standard costs are entered into the books of account.

(b) Standard costs and related variances are appropriately accounted for at the level of the production unit.

(c) Practices with respect to the setting and revising of standards, use of standard costs, and disposition of variances are stated in writing and are consistently followed.

30.407-50 Techniques for application.

(a) (1) A contractor's written statement of practices with respect to standards shall include the bases and criteria (such as engineering studies, experience, or other supporting data) used in setting and revising standards; the period during which standards are to remain effective; the level (such as ideal or realistic) at which material-quantity standards and labor-time standards are set; and conditions (such as those expected to prevail at the beginning of a period) which material-price standards and labor-rate standards are designed to reflect.

(2) Where only either the material price or material quantity is set at standard, with the other component stated at actual, the result of the multiplication shall be treated as material cost at standard. Similarly, where only either the labor rate or labor time is set at standard, with the other component stated at actual, the result of the multiplication shall be treated as labor cost at standard.

(3) A labor-rate standard may be set to cover a category of direct labor only if the functions performed within that category are not materially disparate and the employees involved are interchangeable with respect to the functions performed.

(4) A labor-rate standard may be set to cover a group of direct labor workers who perform disparate functions only under either one of the following conditions:

(i) Where that group of workers all work in a single production unit yielding homogeneous outputs (in this case, the same labor-rate standard shall be applied to each worker in that group), or

(ii) Where that group of workers, in the performance of their respective functions, forms an integral team (in this case, a labor-rate standard shall be set for each integral team).

(b) (1) Material-price standards may be used and their related variances may be recognized either at the time purchases of material are entered into the books of account or at the time material cost is allocated to production units.

(2) Where material-price standards are used and related variances are recognized at the time purchases of material are entered into the books of account, they shall be accumulated separately by homogeneous groupings of material. Examples of homogeneous groupings of material are:

(i) Where prices of all items in that grouping of material are expected to fluctuate in the same direction and at substantially the same rate, or

(ii) Where items in that grouping of material are held for use in a single production unit yielding homogeneous outputs.

(3) Where material-price variances are recognized at the time purchases of material are entered into the books of account, variances of each homogeneous grouping of material shall be allocated (except as provided in paragraph (b)(4) of this section), at least annually, to items in purchased-items inventory and to production units receiving items from that homogeneous grouping of material, in accordance with either one of the following practices, which shall be consistently followed:

(i) Items in purchased-items inventory of a homogeneous grouping of material are adjusted from standard cost to actual cost; the balance of the material-price variance, after reflecting these adjustments, shall be allocated to production units on the basis of the total of standard cost of material received from that homogeneous grouping of material by each of the production units; or

(ii) Items, at standard cost, in purchased-items inventory of a homogeneous grouping of material, are treated, collectively, as a production unit; the material-price variance shall be allocated to production units on the basis of standard cost of material received from that homogeneous grouping of material by each of the production units.

(4) Where material-price variances are recognized at the time purchases of material are entered into the books of account, variances of each homogeneous grouping of material which are insignificant may be included in appropriate indirect cost pools for allocation to applicable cost objectives.

(5) Where a material-price variance is allocated to a production unit in accordance with subparagraph (b)(3) of this subsection, it may be combined with material-quantity variance into one material-cost variance for that production unit. A separate material-cost variance shall be accumulated for each production unit.

(6) Where material-price variances are recognized at the time material cost is allocated to production units, these variances and material-quantity variances may be combined into one material-cost variance account.

(c) Labor-cost variances shall be recognized at the time labor cost is introduced into production units. Labor-rate variances and labor-time variances may be combined into one labor-cost variance account. A separate labor-cost variance shall be accumulated for each production unit.

(d) A contractor's established practice with respect to the disposition of variances accumulated by production unit shall be in accordance with one of the following subparagraphs:

(1) Variances are allocated to cost objectives (including ending in-process inventory) at least annually. Where a variance related to material is allocated, the allocation shall be on the basis of the material cost at standard, or, where outputs are homogeneous, on the basis of units of output. Similarly, where a variance related to labor is allocated, the allocation shall be on the basis of the labor cost at standard or labor hours at standard, or, where outputs are homogeneous, on the basis of units of output; or

(2) Variances which are immaterial may be included in appropriate indirect cost pools for allocation to applicable cost objectives.

(e) Where variances applicable to covered contracts are allocated by memorandum worksheet adjustments rather than in the books of account, the bases used for adjustment shall be in accordance with those stated in subparagraphs (b)(3) and (d) of this subsection.

30.407-60 Illustrations.

(a) Contractor A's written practice is to set his material-price standard for an item on the basis of average purchase prices expected to prevail during the calendar year. For that item whose usage from month to month is stable, a purchase contract is generally signed on May 1 of each year for a one-year commitment. The current purchase contract calls for a purchase price of $3 per pound; an increase of 5 percent, or 15¢ per pound, has been announced by the vendor when the new purchase contract comes into effect next May. Contractor A sets his material-price standard for this item t $3.10 per pound for the year [$3.00×4+$3.15×8]÷12). Since Contractor A sets his material-price standard in accordance with his written practice, he complies with provisions f 30.407-40(c) of this Cost Accounting Standard.

(b) Contractor B accumulates, in one ccount, labor cost at standard for a epartment in which several categories of direct labor of disparate functions, in different combinations, are sed in the manufacture of various issimilar outputs of the department. ontractor B's department is not a roduction unit as defined in 30.407-0(a)(7) of this Cost Accounting tandard. Modifying his practice so as o comply with the definition of production unit in 30.407-30(a)(7), he ould accumulate the standard costs nd variances separately, (1) for each the several categories of direct bor, or (2) for each of several subdepartments, with homogeneous output r each of the subdepartments.

(c) Contractor C allocates variances the end of each month. During the onth of March, a production unit s accumulated the following data th respect to labor:

	Labor hours at standard	Labor dollars at standard	Labor cost variance
Balance, March 1	5,000	$25,000	$2,000
Additions in March	15,000	75,000	5,000
Total	20,000	100,000	7,000
Transfers-out in March	8,000	40,000	
Balance, March 31	12,000	60,000	

Using labor hours at standard as the base, Contractor C establishes a labor-cost variance rate of $.35 per standard labor hour ($7,000÷20,000), and deducts $2,800 ($.35×8,000) from the labor-cost variance account, leaving a balance of $4,200 ($7,000—$2,800). Contractor C's practice complies with provisions of 30.407-50(d)(1) of this Cost Accounting Standard.

(d) Contractor D, who uses materials the prices of which are expected to fluctuate at different rates, recognizes material-price variances at the time purchases of material are entered into the books of account. He maintains one purchase-price variance account for the whole plant. Purchased items are requisitioned by various production units in the plant. Since prices of material are expected to fluctuate at different rates, this plant-wide grouping does not constitute a homogeneous grouping of material. Contractor D's practice does not comply with provisions of 30.407-50(b)(2) of this Cost Accounting Standard. However, if he would maintain several purchased-items inventory accounts, each representing a homogeneous grouping of material, and maintain a material-price variance account for each of these homogeneous groupings of material, Contractor D's practice would comply with 30.407-50(b)(2) of this Cost Accounting Standard.

(e) Contractor E recognizes material-price variances at the time purchases of material are entered into the books of account and allocates variances at the end of each month. During the month of May, a homogeneous grouping of material has accumulated the following data:

	Material cost at standard	Material price variance
Inventory, May 1	$150,000	$20,000
Additions in May	1,850,000	120,000
Total	2,000,000	140,000
Requisitions:		
Production unit 1	900,000	
Production unit 2	450,000	
Production unit 3	300,000	
Production unit 4	150,000	
Inventory, May 31	200,000	

Contractor E establishes a material-price variance rate of 7% ($140,000÷$2,000,000) and allocates as follows:

	Material cost at standard	Material-price variance rate (percent)	Material-price variance allocation
Production unit 1	$900,000	7	$63,000
Production unit 2	450,000	7	31,500
Production unit 3	300,000	7	21,000
Production unit 4	150,000	7	10,500
Ending inventory of homogeneous grouping of material	200,000	7	14,000
Total	2,000,000		140,000

Contractor E's practice complies with provisions of 30.407-50(b)(3)(ii) of this Cost Accounting Standard.

(f) Contractor F makes year-end adjustments for variances attributable to covered contracts. During the year just ended, a covered contract was processed in four production units, each with homogeneous outputs. Data with respect to output and to labor of each of the four production units are as follows:

Production unit	Total units of output	Total units used by the covered contract	Total labor cost at standard	Total labor-cost variance
1	100,000	10,000	$400,000	$20,000
2	30,000	6,000	900,000	30,000
3	20,000	5,000	600,000	10,000
4	10,000	4,000	500,000	20,000

Since the outputs of each production unit are homogeneous, Contractor F uses the units of output as the basis of making memorandum worksheet adjustments concerning applicable variances, and establishes the followin figures:

	Labor-cost variance per unit of output	Units used by the covered contract	Labor-cost variance attributable to the covered contra
Production unit 1	$0.20	10,000	$2,000
Production unit 2	1.00	6,000	6,000
Production unit 3	.50	5,000	2,500
Production unit 4	2.00	4,000	8,000
Total labor-cost variance attributable to the covered contract			18,500

Contractor F makes a year-end adjustment of $18,500 as the labor-cost variances attributable to the covered contract. Contractor F's practice complies with provisions of 30.407-50(e) of this Cost Accounting Standard.

30.407-61 Interpretation. [Reserved]

30.407-62 Exemption. [Reserved]

30.407-63 Effective date. [Reserved]

30.408 Accounting for costs of compensated personal absence.

30.408-10 [Reserved]

30.408-20 Purpose.

The purpose of this Standard is to improve, and provide uniformity in, the measurement of costs of vacation, sick leave, holiday, and other compensated personal absence for a cost accounting period, and thereby increase the probability that the measured costs are allocated to the proper cost objectives.

30.408-30 [Reserved]

30.408-40 Fundamental requirement.

(a) The costs of compensated personal absence shall be assigned to the cost accounting period or periods in which the entitlement was earned.

(b) The costs of compensated personal absence for an entire cost accounting period shall be allocated pro rata on an annual basis among the final cost objectives of that period.

30.408-50 Techniques for application.

(a) *Determinations.* Each plan or custom for compensated personal absence shall be considered separately in determining when entitlement is earned. If a plan or custom is changed or a new plan or custom is adopted, then a new determination shall be made beginning with the first cost accounting period to which such new or changed plan or custom applies.

(b) *Measurement of entitlement.* (1) For purposes of compliance with 30.408-40(a), compensated personal absence is earned at the same time and in the same amount as the employer becomes liable to compensate the employee for such absence if the employer terminates the employee's employment for lack of work or other reasons not involving disciplinary action, in accordance with a plan or custom of the employer. Where a new employee must complete a probationary period before the employer becomes liable, the employer may nonetheless treat such service as creating entitlement in any computations required by this Standard, provided that he does so consistently.

(2) Where a plan or custom provides for entitlement to be determined as of the first calendar day or the first business day of a cost accounting period based on service in the preceding cost accounting period, the entitlement shall be considered to have been earned, and the employer's liability to have arisen, as of the close of the preceding cost accounting period.

(3) In the absence of a determinable liability, in accordance with subparagraph (b)(1) of this subsection, compensated personal absence will be considered to be earned only in the cost accounting period in which it is paid.

(c) *Determination of employer's liability.* In computing the cost of compensated personal absence, the computation shall give effect to the employer's liability in accordance with the following paragraphs:

(1) The estimated liability shall include all earned entitlement to compensated personal absence which exists at the time the liability is determined, in accordance with paragraph (b) of this subsection.

(2) The estimated liability shall be reduced to allow for anticipated nonutilization, if material.

(3) The liability shall be estimated consistently either in terms of current or of anticipated wage rates. Estimates may be made with respect to individual employees, but such individual estimates shall not be required if the total cost with respect to all employees in the plan can be estimated with reasonable accuracy by the use of sample data, experience or other appropriate means.

(d) *Adjustments.* (1) The estimate of the employer's liability for compensated personal absence at the beginning of the first cost accounting period for which a contractor must comply with this Standard shall be based on the contractor's plan or custom applicable to that period, notwithstanding that some part of that liability has not previously been recognized for contract costing purposes. Any excess of the amount of the liability as determined in accordance with paragraph (c) of this subsection over the corresponding amount of the liability as determined in accordance with the contractor's previous practice shall be held in suspense and accounted for as described in subparagraph (d)(3) of this subsection.

(2) If a plan or custom is changed or a new plan or custom is adopted, and the new determination made in accordance with paragraph (a) of this subsection results in an increase in the estimate of the employer's liability for compensated personal absence at the beginning of the first cost accounting period for which the new plan is effective over the estimate made in accordance with the contractor's prior practice, then the amount of such increase shall be held in suspense and accounted for as described in subparagraph (d)(3) of this subsection.

(3) At the close of each cost accounting period, the amount held in suspense shall be reduced by the excess of the amount held in suspense at the beginning of the cost accounting period over the employer's liability (as estimated in accordance with paragraph (c) of this subsection) at the end of that cost accounting period. The cost of compensated personal ab-

sence assigned to that cost accounting period shall be increased by the amount of the excess.

(e) *Allocations.* Except where the use of a longer or shorter period is permitted by the provisions of the Cost Accounting Standard on Cost Accounting Period (30.406 of this subpart), the costs of compensated personal absence shall be allocated to cost objectives on a pro-rata basis which reflects the total of such costs and the total of the allocation base for the entire cost accounting period. However, this provision shall not preclude revisions to an allocation rate during a cost accounting period based on revised estimates of period totals.

30.408-60 Illustrations.

(a) Company A's vacation plan provides that on the anniversary of each employee's hiring date, that employee shall become eligible to receive a 2-week vacation with pay. Vacation entitlement must be used within 2 years or forfeited. An employee who leaves the company voluntarily will be paid for any remaining unused vacation entitlement which was earned through the employee's last anniversary date. An employee who is laid off for lack of work will also be paid a pro-rata vacation allowance for service since the employee's last anniversary date. Company A accrues vacation costs each month based on an estimate of the anniversary years which will be completed in that month. At the end of its cost accounting period, Company A adjusts its estimated liability to agree with its actual liability for completed years of service on an individual employee basis.

(1) In order to comply with 30.408-50(c), Company A must increase its estimated liability for vacation pay at all times to include the estimated additional amount which would be payable to employees in the event of layoff. The additional liability may be calculated on an individual employee basis or it may be estimated for the employees as a group by the use of sample or historical data.

(2) The following illustrates one method of estimating Company A's liability at the end of its cost accounting period, December 31, with respect to individual employees, in accordance with 30.408-50(c).

John Doe, Anniversary date July 10:	
Unused entitlement resulting from completed service years, 24 hrs. at $5	$120
Full months of service since anniversary, 5: Pro-rata entitlement on lay-off=80 hrs. x 5/12=33.3 hrs. at 15	167
Total	287
Less estimated allowance for forfeitures, 3½ percent	10
Net liability	277

(b) Company B has a vacation plan similar to Company A's, but Company B does not pay pro-rata vacation pay on lay-off for service since the last anniversary date. Company B must include in its estimate of its liability at the end of its cost accounting period only that unused vacation entitlement which results from completed years of service, with allowance for forfeitures if material.

(c) Company C's sick leave plan provides that an employee will accumulate one-half day of sick leave entitlement for each full month of service. Sick leave entitlement may be accumulated without limit, but an employee is paid for sick leave only during actual illness; the Company does not pay for unused sick leave on lay-off. Despite the fact that Company C might be able to estimate the amount which will be paid for sick leave in a future cost accounting period with a high degree of accuracy, it has no liability for payment for unused sick leave entitlement in the event of lay-off. Therefore, in accordance with 30.408-50(b)(3), it must assign to each cost accounting period only the costs of sick leave which it pays in that period.

(d) Company D's vacation plan provides that on July 1, each employee who has been employed by the Company for at least 1 year shall be entitled to 2 weeks of vacation. All vacation must be taken between July 1 and September 30. An employee who terminates after September 30 and before July 1 receives no vacation pay. Company D has a cost accounting period which ends on December 31; however, Company D customarily accrues its anticipated liability for vacation pay at July 1 in 12 equal installments over the *vacation year* starting on July 1 of the previous year and ending on June 30 of the current year. Company D has no liability for vacation pay at January 1 or at December 31. In accordance with 30.408-50(b)(3), the amount of vacation cost which Company D must assign to each cost accounting period is the amount of such costs paid in that period. Therefore, Company D may not use the *vacation year* ending June 30 to apportion these costs between cost accounting periods.

(e) Company E's cost accounting period ends on December 31. Its vacation plan provides that on January 1, each employee who has been employed for at least 1 year shall become entitled to 2 weeks of vacation. The Company does not recognize a liability for vacation pay at December 31 because an employee must be employed on January 1 to be eligible.

(1) Despite the requirement that the employee also be employed on January 1, the necessary service was completed in the preceding cost accounting period. If the other terms of the plan are such that in accordance with this Standard, Company E must recognize its vacation costs on the accrual basis, then in accordance with 30.408-50(b)(2), Company E must estimate its vacation costs as if the liability arose on December 31 rather than on the following January 1.

(2) Assume that Company E must comply with this Standard beginning on January 1, 1976. Assume that the employees of Company E earned $90,000 in vacation pay in 1975, all of which will be taken in 1976. Assume, further, that because of reduced employment levels, the employees of Company E will earn only $80,000 in vacation pay in 1976, $5,000 of which will be paid in 1976 because of layoffs. The following example illustrates the computation of vacation pay costs for Company E in 1976:

1976 beginning liability:	
With Standard (30.408-50(d)(1))	$90,000
Without Standard	0
Amount to be held in suspense (30.408-50(d)(1))	90,000
1976 ending liability	75,000
Plus: Paid in 1976	95,000
Subtotal	170,000
Less: 1976 beginning liability	90,000
1976 vacation cost, basic amount	80,000
Amount in suspense at beginning of 1976	90,000
Less: 1976 ending liability	75,000
Suspense to be written off in 1976; additional 1976 vacation cost (30.408-50(d)(3))	15,000
1976 basic vacation cost	80,000
Plus: 1976 reduction of suspense	15,000
1976 total vacation cost	95,000

(3) Assume, further, that all of the vacation entitlement which remained at December 31, 1976 ($75,000) is taken in 1977. Also, Company E hires a substantial number of additional employees in 1977, so that the amount of vacation entitlement earned in 1977 is $85,000. The following example illustrates the computation of vacation pay costs for Company E in 1977:

1977 ending liability	$85,000
Plus: Paid in 1977	75,000
Subtotal	160,000
Less: 1977 beginning liability	75,000
1977 vacation cost, basic amount	85,000
Amount in suspense at beginning of 1977 [1]	75,000
1977 ending liability [1]	85,000
1977 basic vacation cost	85,000
Plus: 1977 reduction of suspense [1]	0
1977 total vacation cost	85,000

[1] Because the 1977 ending liability exceeds the amount in suspense at the beginning of 1977, there is no reduction of suspense in 1977.

(4) Assume further, that Company E goes out of business in 1978. All employees are terminated and paid both for the $85,000 vacation liability at the end of 1977 and an additional $40,000 earned in 1978. The following example illustrates the computation of vacation pay costs for Company E in 1978:

1978 ending liability	0
Plus: Paid in 1978	$125,000
Subtotal	125,000
Less: 1978 beginning liability	85,000
1978 vacation cost, basic amount	40,000
Amount in suspense at beginning of 1978	75,000

Less: 1978 ending liability	0
Suspense to be written off in 1978; additional 1978 vacation cost (30.408-50(d)(3))	75,000
1978 basic vacation cost	40,000
Plus: 1978 reduction in suspense	75,000
1978 total vacation cost	115,000

(f) All of the salary costs of Company F's salaried employees are charged to service, administrative, or overhead functions. No accounting entries are made to segregate costs of compensated personal absence of these employees from their other salary costs, although other records are maintained to control the total amount of such absences.

(1) This policy does not violate the requirement of 30.408-40(b) if such salaries are charged to overhead or indirect cost pools for subsequent allocation to final cost objectives over annually determined allocation bases which are appropriate for those pools.

(2) If the same policy were followed in the case of engineers whose salaries were directly allocated to two or more final cost objectives, or to both intermediate and final cost objectives, so that costs of compensated personal absence were charged directly to the jobs on which the individuals were working when paid, then this would violate the requirement of 30.408-40(b) that these costs be allocated among cost objectives on the basis of the costs of the entire cost accounting period. Only if all salaries were directly allocated to a single final cost objective, as might be the case with personnel assigned to an overseas base for the performance of a single contract, would this practice be in accord with that requirement.

(g) Company G determines a *charging rate* for each employee. The charging rate includes an allowance for compensated personal absence based on average experience. As the employee performs services, the related cost objectives are charged for the services at the charging rate, the employee is paid at his base rate, and the excess is credited to the accrued liability for each benefit. As benefits are paid, the costs are charged against the accrued liabilities. The amount of each accrued liability is adjusted at the end of the costs accounting period, and any difference is adjusted through appropriate overhead accounts in accordance with company policy.

(1) This method is not a violation of 30.408-40(b) if it results in allocating the estimated annual costs of compensated personal absence at a rate which reflects the anticipated costs of the entire cost accounting period.

(2) The computation itself must comply with the criteria of 30.408-40(a). For example, if the terms of the Company's sick leave plan are such that in accordance with this Standard, the costs should be recognized in the cost accounting period when they are paid, then the computation should be intended to amortize the expected costs of sick leave over the activity of that cost accounting period, leaving no accrued liability for sick leave at the end of the cost accounting period.

30.408-61 Interpretation. [Reserved]

30.408-62 Exemption. [Reserved]

30.408-63 Effective date. [Reserved]

30.409 Cost accounting standard—depreciation of tangible capital assets.

30.409-10 [Reserved]

30.409-20 Purpose.

The purpose of this Standard is to provide criteria and guidance for assigning costs of tangible capital assets to cost accounting periods and for allocating such costs in cost objectives within such periods in an objective and consistent manner. The Standard is based on the concept that depreciation costs identified with cost accounting periods and benefiting cost objectives within periods should be a reasonable measure of the expiration of service potential of the tangible assets subject to depreciation. Adherence to this Standard should provide a systematic and rational flow of the costs of tangible capital assets to benefited cost objectives over the expected service lives of the assets. This Standard does not cover nonwasting assets or natural resources which are subject to depletion.

30.409-30 [Reserved]

30.409-40 Fundamental requirement.

(a) The depreciable cost of a tangible capital asset (or group of assets) shall be assigned to cost accounting periods in accordance with the following criteria:

(1) The depreciable cost of a tangible capital asset shall be its capitalized cost less its estimated residual value.

(2) The estimated service life of a tangible capital asset (or group of assets) shall be used to determine the cost accounting periods to which the depreciable cost will be assigned.

(3) The method of depreciation selected for assigning the depreciable cost of a tangible capital asset (or group of assets) to the cost accounting periods representing its estimated service life shall reflect the pattern of consumption of services over the life of the asset.

(4) The gain or loss which is recognized upon disposition of a tangible capital asset shall be assigned to the cost accounting period in which the disposition occurs.

(b) The annual depreciation cost of a tangible capital asset (or group of assets) shall be allocated to cost objectives for which it provides service in accordance with the following criteria:

(1) Depreciation cost may be charged directly to cost objectives only if such charges are made on the basis of usage and only if depreciation costs of all like assets used for similar purposes are charged in the same manner.

(2) Where tangible capital assets are part of, or function as, an organizational unit whose costs are charged to other cost objectives based on measurement of the services provided by the organizational unit, the depreciation cost of such assets shall be included as part of the cost of the organizational unit.

(3) Depreciation costs which are not allocated in accordance with subparagraph (b) (1) or (2) of this subsection, shall be included in appropriate indirect cost pools.

(4) The gain or loss which is recognized upon disposition of a tangible capital asset, where material in amount, shall be allocated in the same manner as the depreciation cost of the asset has been or would have been allocated for the cost accounting period in which the disposition occurs. Where such gain or loss is not material, the amount may be included in an appropriate indirect cost pool.

30.409-50 Techniques for application.

(a) Determination of the appropriate depreciation charges involves estimates both of service life and of the likely pattern of consumption of services in the cost accounting periods included in such life. In selecting service life estimates and in selecting depreciation methods, many of the same physical and economic factors should be considered. The following are among the factors which may be taken into account: quantity and quality of expected output, and the timing thereof; costs of repair and maintenance, and the timing thereof; standby or incidental use and the timing thereof; and technical or economic obsolescence of the asset (or group of assets), or of the product or service it is involved in producing.

(b) Depreciation of a tangible capital asset shall begin when the asset and any others on which its effective use depends are ready for use in a normal or acceptable fashion. However, where partial utilization of a tangible capital asset is identified with a specific operation, depreciation shall commence on any portion of the asset which is substantially completed and used for that operation. Depreciable spare parts which are required for the operation of such tangible capital assets shall be accounted for over the service life of the assets.

(c) A consistent policy shall be followed in determining the depreciable cost to be assigned to the beginning and ending cost accounting periods of asset use. The policy may provide for any reasonable starting and ending dates in computing the first and last year depreciable cost.

(d) Tangible capital assets may be accounted for by treating each individual asset as an accounting unit, or by combining two or more assets as a single accounting unit, provided such treatment is consistently applied over the service life of the asset or group of assets.

(e) Estimated service lives initially established for tangible capital assets (or groups of assets) shall be reasonable approximations of their expected actual periods of usefulness, considering the factors mentioned in paragraph (a) of this subsection. The estimate of the expected actual periods of usefulness need not include the additional period tangible capital assets are retained for standby or incidental use where adequate records are maintained which reflect the withdrawal from active use.

(1) The expected actual periods of usefulness shall be those periods which are supported by records of either past retirement or, where available, withdrawal from active use (and retention for standby or incidental use) for like assets (or groups of assets) used in similar circumstances appropriately modified for specifically identified factors expected to influence future lives. The factors which can be used to modify past experience include:

(i) Changes in expected physical usefulness from that which has been experienced such as changes in the quantity and quality of expected output.

(ii) Changes in expected economic usefulness, such as changes in expected technical or economic obsolescence of the asset (or group of assets), or of the product or service produced.

(2) Supporting records shall be maintained which are adequate to show the age at retirement or, if the contractor so chooses, at withdrawal from active use (and retention for standby or incidental use) for a sample of assets for each significant category. Whether assets are accounted for individually or by groups, the basis for estimating service life shall be predicated on supporting records of experienced lives for either individual assets or any reasonable grouping of assets as long as that basis is consistently used. The burden shall be on the contractor to justify estimated service lives which are shorter than such experienced lives.

(3) The records required in subparagraphs (e) (1) and (2) of this subsection, if not available on the date when the requirements of this Standard must first be followed by a contractor, shall be developed from current and historical fixed asset records and be available following the second fiscal year after that date. They shall be used as a basis for estimates of service lives of tangible capital assets acquired thereafter. Estimated service lives used for financial accounting purposes (or other accounting purposes where depreciation is not recorded for financial accounting purposes for some noncommercial organizations), if not unreasonable under the criteria specified in paragraph (e) of this subsection, shall be used until adequate supporting records are available.

(4) Estimated service lives for tangible capital assets for which the contractor has no available data or no prior experience for similar assets shall be established based on a projection of the expected actual period of usefulness, but shall not be less than asset guideline periods (mid-range) established for asset guideline classes under the Revenue Procedure 72-10 published by the Internal Revenue Service, and any additions, supplements or revisions thereto, which are in effect as of the first day of the cost accounting period in which the assets are acquired. Use of this alternative procedure shall cease as soon as the contractor is able to develop estimates which are appropriately supported by his own experience.

(5) The contracting parties may agree on the estimated service life of individual tangible capital assets where the unique purpose for which the equipment was acquired or other special circumstances warrant a shorter estimated service life than the life determined in accordance with the other provisions of this 30.409-50(e) and where the shorter life can be reasonably predicted.

(f) (1) The method of depreciation used for financial accounting purposes (or other accounting purposes where depreciation is not recorded for financial accounting purposes) shall be used for contract costing unless (i) such method does not reasonably reflect the expected consumption of services for the tangible capital asset (or group of assets) to which applied, or (ii) the method is unacceptable for Federal income tax purposes. If the contractor's method of depreciation used for financial accounting purposes (or other accounting purposes as provided above) does not reasonably reflect the expected consumption of services or is unacceptable for Federal income tax purposes, he shall establish a method of depreciation for contract costing which meets these criteria, in accordance with subparagraph (f)(3) of this subsection.

(2) After the date of initial applicability of this Standard, selection of methods of depreciation for newly acquired tangible capital assets, which are different from the methods currently being used for like assets in similar circumstances, shall be supported by projections of the expected consumption of services of those assets (or groups of assets) to which the different methods of depreciation shall apply. Support in accordance with subparagraph (f)(3) of this subsection shall be based on the expected consumption of services of either individual assets or any reasonable grouping of assets as long as the basis selected for grouping assets is consistently used.

(3) The expected consumption of asset services over the estimated service life of a tangible capital asset (or group of assets) is influenced by the factors mentioned in paragraph (a) of this subsection which affect either potential activity or potential output of the asset (or group of assets). These factors may be measured by the expected activity or the expected physical output of the assets, as for example: hours of operation, number of operations performed, number of units produced, or number of miles traveled. An acceptable surrogate for expected activity or output might be a monetary measure of that activity or output generated by use of tangible capital assets, such as estimated labor dollars, total cost incurred or total revenues, to the extent that such monetary measures can reasonably be related to the usage of specific tangible capital assets (or groups of assets). In the absence of reliable data for the measurement or estimation of the consumption of asset services by the techniques mentioned, the expected consumption of services may be represented by the passage of time. The appropriate method of depreciation should be selected as follows:

(i) An accelerated method of depreciation is appropriate where the expected consumption of asset services is significantly greater in early years of asset life.

(ii) The straight-line method of depreciation is appropriate where the expected consumption of asset services is reasonably level over the service life of the asset (or group of assets).

(g) The estimated service life and method of depreciation to be used for an original complement of low-cost equipment shall be based on the expected consumption of services over the expected useful life of the complement as a whole and shall not be based on the individual items which form the complement.

(h) Estimated residual values shall be determined for all tangible capital assets (or groups of assets). For tangible personal property, only estimated residual values which exceed ten percent of the capitalized cost of the asset (or group of assets) need be used in establishing depreciable costs. Where either the declining balance method of depreciation or the class life asset depreciation range system is used consistent with the provisions of this Standard, the residual value need not be deducted from capitalized cost to determine depreciable costs. No depreciation cost shall be charged which would significantly reduce book value of a tangible capital asset (or group of assets) below its residual value.

(i) Estimates of service life, consumption of services, and residual value shall be reexamined for tangible capital assets (or groups of assets) whenever circumstances change significantly. Where changes are made to the estimated service life, residual value, or method of depreciation during the life of a tangible capital asset, the remaining depreciable costs for cost accounting purposes shall be limited to the undepreciated cost of the assets and shall be assigned only to the cost accounting period in which the change is made and to subsequent periods.

(j) (1) Gains and losses on disposition of tangible capital assets shall be considered as adjustments of depreciation costs previously recognized and shall be assigned to the cost accounting period in which disposition occurs except as provided in subparagraphs (j) (2) and (3) of this subsection. The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds in the event of involuntary conversion, and its undepreciated balance. However, the gain to be recognized for contract costing purposes shall be limited to the difference between the original acquisition cost of the asset and its undepreciated balance.

(2) Gains and losses on the disposition of tangible capital assets shall not be recognized where:

(i) Assets are grouped and such gains and losses are processed through the accumulated depreciation account, or, (ii) the asset is given in exchange as part of the purchase price of a similar asset and the gain or loss is included in computing the depreciable cost of the new asset. Where the disposition results from an involuntary conversion and the asset is replaced by a similar asset, gains and losses may either be recognized in the period of disposition or used to adjust the depreciable cost base of the new asset.

(3) The contracting parties may account for gains and losses arising from mass or extraordinary dispositions in a manner which will result in treatment equitable to all parties.

(4) Gains and losses on disposition of tangible capital assets transferred in other than an arms-length transaction and subsequently disposed of within 12 months from the date of transfer shall be assigned to the transferor.

(k) Where, in accordance with 30.409-40(b)(1), the depreciation costs of like tangible capital assets used for similar purposes are directly charged to cost objectives on the basis of usage, average charging rates based on cost shall be established for the use of such assets. Any variances between total depreciation cost charged to cost objectives and total depreciation cost for the cost accounting period shall be accounted for in accordance with the contractor's established practice for handling such variances.

(l) Practices for determining depreciation methods, estimated service lives and estimated residual values need not be changed for assets acquired prior to compliance with this Standard if otherwise acceptable under applicable procurement regulations. However, if changes are effected such changes must conform to the criteria established in this Standard and may be effected on a prospective basis to cover the undepreciated balance of cost by agreement between the contracting parties pursuant to negotiation under (a)(4)(B) or (C) of the Contract Clause set out at FAR 52.230-2.

30.409-60 Illustrations.

The following examples are illustrative of the provisions of this Standard.

(a) X, Y, and Z companies purchase identical milling machines to be used for similar purposes.

(1) Company X estimates service life for tangible capital assets on a individual asset basis. Its experience with similar machines is that the average replacement period is 14 years. Under the provisions of the Standard, Company X shall use the estimated service life of 14 years for the milling machine unless it can demonstrate changed circumstances or new circumstances to support a different estimate.

(2) Company Y estimates service life for tangible capital assets by grouping assets of the same general kind and with similar service lives. Accordingly, all machine tools are accounted for as a single group. The average replacement life for machine tools for Company Y is 12 years. In accordance with the provisions of the Standard, Company Y shall use a life of 12 years for the acquisition unless it can support a different estimate for the entire group.

(3) Company Z estimates service life for tangible capital assets by grouping assets according to use without regard to service lives. Accordingly, all machinery and equipment is accounted for as a single group. The average replacement life for machinery and equipment in Company Z is 10 years

Reproduced from poor document.

best copy available

In accordance with the provisions of the Standard, Company Z shall use an estimated service life of ten years for the acquisition unless it can support a different estimate for the entire group.

(b) Company X desires to charge depreciation of the milling machine described in paragraph (a) of this subsection, directly to final cost objectives. Usage of the milling machine can be measured readily based on hours of operation. Company X may charge depreciation cost directly on a unit of time basis provided he uses one depreciation charging rate for all like milling machines in the machine shop and charges depreciation for all such milling machines directly to benefiting cost objectives.

(c) A contractor acquires, and capitalizes as an asset accountability unit, a new lathe. The estimated service life is 10 years for the lathe. He acquires, and capitalizes as an original complement of low-cost equipment related to the lathe, a collection of tool holders, chucks, indexing heads, wrenches, and the like. Although individual items comprising the complement have an average life of six years, replacements of these items will be made as needed and, therefore, the expected useful life of the complement is equal to the life of the lathe. An estimated service life of 10 years should be used for the original complement.

(d) A contractor acquires a test facility with an estimated physical life of ten years, to be used on contracts for a new program. The test facility was acquired for $5 million. It is expected that the program will be completed in 6 years and the test facility acquired is not expected to be required for other products of the contractor. Although the facility will last 10 years, the contracting parties may agree in advance to depreciate the facility over 6 years.

(e) Contractor acquires a building by donation from its local Government. The building had been purchased new by another company and subsequently acquired by the local Government. Contractor capitalizes the building at its fair value. Under the Standard the depreciable cost of the asset based on that value may be accounted for over its estimated service life and allocated to cost objectives in accordance with contractor's cost allocation practices.

(f) A major item of equipment which was acquired prior to the applicability of this Standard was estimated, at acquisition, to have a service life of 12 years and a residual value of no more than 10 percent of acquisition cost. After 4 years of service, during which time this Standard has become applicable, a change in the production situation results in a well-supported determination to shorten the estimated service life to a total of 7 years. The revised estimated residual value is 15 percent of acquisition cost. The annual depreciation charges based on this particular asset will be appropriately increased to amortise the remaining cost, less the current estimate of residual value, over the remaining 3 years of expected usefulness. This change is not a change of cost accounting practice, but a correction of numeric estimates. The requirement of 30.409-50(l) for an adjustment pursuant to subdivision (a)(4)(ii) or (iii) of the CAS clause does not apply.

(g) The support required by 30.409-50(e) can, in all likelihood, be derived by sampling from almost any reasonable fixed asset records. Of course, the more complete the data in the records which are available, the more confidence there can be in determinations of asset service lives. The following descriptions of sampling methods are illustrations of techniques which may be useful even with limited fixed asset records.

(1) A company maintains an inventory of assets in use. The company should select a sampling time period which, preferably, is significantly longer than the anticipated life of the assets for which lives are to be established. Of course, the inventory must be available for each year in the sampling time period. The company would then select a random sample of items in each year except the most recent year of the time period. Each item in the sample would be compared to the subsequent year's inventory to determine if the asset is still in service; if not, then the asset had been retired in the year from which the sample was drawn. The item is then traced to

prior year inventories to determine the year in which acquired.

NOTE: Sufficient items must be drawn in each year to ensure an adequate sample.

(2) A company maintains an inventory of assets in use and also has a record of retirements. In this case the company does not have to compare the sample to subsequent years to determine if disposition has occurred. As in Example (1) above, the sample items are traced to prior years to determine the year in which acquired.

(3) A company maintains retirement records which show acquisition dates. The company should select a sampling time period which, preferably, is significantly longer than the anticipated life of the assets for which lives are to be estimated. The company would then select a random sample of items retired in each year of the sampling time period and tabulate age at retirement.

(4) A company maintains only a record of acquisitions for each year. The company should select a random sample of items acquired in the most recent complete year and determine from current records or observations whether each item is currently in service. The acquisitions of each prior year should be sampled in turn to determine if sample items are currently in service. This sampling should be performed for a time period significantly longer than the anticipated life of assets for which the lives are to be established, but can be discontinued at the point at which sample items no longer appear in current use. From the data obtained, mortality tables can be constructed to determine average asset life.

(5) A company does not maintain accounting records on fully depreciated assets. However, property records are maintained, and such records are retained for 3 years after disposition of an asset in groups by year of disposition. An analysis of these retirements may be made by selecting the larger dollar items for each category of assets for which lives are to be determined (for example, at least 75 percent of the acquisition values retired each year). The cases cited above are only examples and many other examples could have been used. Also, in an example, a company's individual ci cumstances must be considered i order to take into account possibl biased results because of changes i organizations, products, acquisitio policies, economic factors, etc. The results from example (g)(5) of this subsection, for instance, might be substantially distorted if the 3 year period was unusual with respect to dispositions. Therefore, the examples are illustrative only and any sampling performed in compliance with this Standard should take into account all relevant information to ensure that reasonable results are obtained.

30.409-61 Interpretation. [Reserved]

30.409-62 Exemption. [Reserved]

30.409-63 Effective date. [Reserved]

30.410 Allocation of business unit general and administrative expenses to final cost objectives.

30.410-10 [Reserved]

30.410-20 Purpose.

The purpose of this Cost Accounting Standard is to provide criteria for the allocation of business unit general and administrative (G&A) expenses to business unit final cost objectives based on their beneficial or causal relationship. These expenses represent the cost of the management and administration of the business unit as a whole. The Standard also provides criteria for the allocation of home office expenses received by a segment to the cost objectives of that segment. This Standard will increase the likelihood of achieving objectivity in the allocation of expenses to final cost objectives and comparability of cost data among contractors in similar circumstances.

30.410-30 [Reserved]

30.410-40 Fundamental requirement.

(a) Business unit G&A expenses shall be grouped in a separate indirect cost pool which shall be allocated only to final cost objectives.

(b) (1) The G&A expense pool of a business unit for a cost accounting period shall be allocated to final cost objectives of that cost accounting period by means of a cost input base representing the total activity of the business unit except as provided in subparagraph (b)(2) of this subsection. The cost input base selected shall be the one which best represents the total activity of a typical cost accounting period.

(2) The allocation of the G&A expense pool to any particular final cost objectives which receive benefits significantly different from the benefits accruing to other final cost objectives shall be determined by special allocation (30.410-50(j)).

(c) Home office expenses received by a segment shall be allocated to segment cost objectives as required by 30.410-50(g).

(d) Any costs which do not satisfy the definition of G&A expense but which have been classified by a business unit as G&A expenses, can remain in the G&A expense pool unless they can be allocated to business unit cost objectives on a beneficial or causal relationship which is best measured by a base other than a cost input base.

30.410-50 Techniques for application.

(a) G&A expenses of a segment incurred by another segment shall be removed from the incurring segment's G&A expense pool. They shall be allocated to the segment for which the expenses were incurred on the basis of the beneficial or causal relationship between the expenses incurred and all benefiting or causing segments. If the expenses are incurred for two or more segments, they shall be allocated using an allocation base common to all such segments.

(b) The G&A expense pool may be combined with other expenses for allocation to final cost objectives provided that—

(1) The allocation base used for the combined pool is appropriate both for the allocation of the G&A expense pool under this Standard and for the allocation of the other expenses; and

(2) Provision is made to identify the components and total of the G&A expense pool separately from the other expenses in the combined pool.

(c) Expenses which are not G&A expenses and are insignificant in amount may be included in the G&A expense pool for allocation to final cost objectives.

(d) The cost input base used to allocate the G&A expense pool shall include all significant elements of that cost input which represent the total activity of the business unit. The cost input base selected to represent the total activity of a business unit during a cost accounting period may be—total cost input, value-added cost input, or single element cost input. The determination of which cost input base best represents the total activity of a business unit must be judged on the basis of the circumstances of each business unit.

(1) A total cost input base is generally acceptable as an appropriate measure of the total activity of a business unit.

(2) Value-added cost input shall be used as an allocation base where inclusion of material and subcontract costs would significantly distort the allocation of the G&A expense pool in relation to the benefits received, and where costs other than direct labor are significant measures of total activity. A value-added cost input base is total cost input less material and subcontract costs.

(3) A single element cost input base; e.g., direct labor hours or direct labor dollars, which represents the total activity of a business unit may be used to allocate the G&A expense pool where it produces equitable results. A single element base may not produce equitable results where other measures of activity are also significant in relation to total activity. A single element base is inappropriate where it is an insignificant part of the total cost of some of the final cost objectives.

(e) Where, prior to the effective date of this Standard, a business unit's disclosed or established cost accounting practice was to use a cost of sales or sales base, that business unit may use the transition method set out in Appendix A hereof.

(f) Cost input shall include those expenses which by operation of this Standard are excluded from the G&A expense pool and are not part of a combined pool of G&A expenses and other expenses allocated using the same allocation base.

(g) (1) Allocations of the home office expenses of (i) line management of particular segments or groups of segments, (ii) residual expenses, and (iii) directly allocated expenses related to the management and administration of the receiving segment as a whole shall be included in the receiving segment's G&A expense pool.

(2) Any separate allocation of the expenses of home office (i) centralized service functions, (ii) staff management of specific activities of segments, and (iii) central payments or accruals, which is received by a segment shall be allocated to the segment cost objectives in proportion to the beneficial or causal relationship between the cost objectives and the expense if such allocation is significant in amount. Where a beneficial or causal relationship for the expense is not identifiable with segment cost objectives, the expense may be included in the G&A expense pool.

(h) Where a segment performs home office functions and also performs as an operating segment having a responsibility for final cost objectives, the expense of the home office functions shall be segregated. These expenses shall be allocated to all benefiting or causing segments, including the segment performing the home office functions, pursuant to disclosed or established accounting practices for the allocation of home office expenses to segments.

(i) For purposes of allocating the G&A expense pool, items produced or worked on for stock or product inventory shall be accounted for as final cost objectives in accordance with the following paragraphs:

(1) Where items are produced or worked on for stock or product inventory in a given cost accounting period, the cost input to such items in that period shall be included only once in the computation of the G&A expense allocation base and in the computation of the G&A expense allocation rate for that period and shall not be included in the computation of the base or rate for any other cost accounting period.

(2) A portion of the G&A expense pool shall be allocated to items produced or worked on for stock or product inventory in the cost accounting period or periods in which such items are produced at the rates determined for such periods except as provided in subparagraph (i)(3) of this subsection.

(3) Where the contractor does not include G&A expense in inventory as part of the cost of stock or product inventory items, the G&A rate of the cost accounting period in which such items are issued to final cost objectives may be used to determine the G&A expenses applicable to issues of stock or product inventory items.

(j) Where a particular final cost objective in relation to other final cost objectives receives significantly more or less benefit from G&A expense than would be reflected by the allocation of such expenses using a base determined pursuant to paragraph (d) of this subsection, the business unit shall account for this particular final cost objective by a special allocation from the G&A expense pool to the particular final cost objective commensurate with the benefits received. The amount of a special allocation to any such final cost objective shall be excluded from the G&A expense pool required by 30.410-40(a), and the particular final cost objective's cost input data shall be excluded from the base used to allocate this pool.

30.410-60 Illustrations.

(a) Business Unit A has been including the cost of scientific computer operations in its G&A expense pool. The scientific computer is used predominately for research and development, rather than for the management and administration of the business unit as a whole. The costs of the scientific computer operation do not satisfy the Standard's definition of G&A expense; however, they may remain in the G&A expense pool unless they can be allocated to business unit cost objectives on a beneficial or causal relationship which is best measured by a base other than a cost input base representing the total activity of a business unit during a cost accounting period.

(b) Segment B performs a budgeting function, the cost of which is included in its G&A expense pool. This function includes the preparation of budgets for another segment. The cost of preparing the budgets for the other segment should be removed from B's G&A expense pool and transferred to the other segment.

(c) (1) Business Unit C has a personnel function which is divided into two parts (i) a vice president of personnel who establishes personnel policy and overall guidance, and (ii) a personnel department which handles hirings, testing, evaluations, etc. The expense of the vice president is included in the G&A expense pool. The expense of the personnel department is allocated to the other indirect cost pools based on the beneficial or causal relationship between that expense and the indirect cost pools. This procedure is in compliance with the requirements of this Standard.

(2) Unit C has included selling costs as part of its G&A expense pool. Business Unit C wishes to continue to include selling costs in its G&A expense pool. Under the provisions of this Standard, Unit C may continue to include selling costs in its G&A pool, and these costs will be allocated over a cost input base selected in accordance with the provisions of 30.410-50(d).

(3) Business Unit C has included R&D and B&P costs in its G&A ex- ense pool. Unit C has used a cost of ales base to allocate its G&A expense ool. As of January 1, 1978 (assumed or purposes of this illustration), the ate on which Unit C must first allo- ate its G&A expense pool in accord- nce with the requirements of this tandard, Unit C has among its final st objectives several cost reimburse- ent contracts and fixed price con- acts subject to the CAS clause (re- rred to as the pre-existing con- acts). If Unit C chooses to use the ansition method in 30.410-50(e):

(i) Unit C shall allocate IR&D and &P costs during the transition riod (from January 1, 1978, to and cluding the cost accounting period ring which the pre-existing con- cts are completed), to the pre-exist- contracts as part of its G&A ex- nse pool using a cost of sales base pursuant to 30.410-50(e) and Appendix A.

(ii) During the transition period such costs, as part of the G&A expense pool, shall be allocated to new cost reimbursement contracts and new fixed price contracts subject to the CAS clause using a cost input base as required by 30.410-50 (d) and (e) and Appendix A.

(iii) Beginning with the cost accounting period after the transition period the IR&D and B&P costs, as part of the G&A expense pool, shall be allocated to all final cost objectives using a cost input base as required by 30.410-50(d). If Unit C chooses not to use the transition method in 30.410-50(e), the contractual provision requiring appropriate equitable adjustment of the prices of affected prime contracts and subcontracts will be implemented.

(4) Business Unit C has accounted for and allocated IR&D and B&P costs in a cost pool separate and apart from the G&A expense pool, Unit C may continue to account for these costs in a separate cost pool under the provision of this Standard. If Unit C is to use a total cost input base, these costs when accounted for and allocated in a cost pool separate and apart from the G&A expense pool will become part of the total cost input base used by Unit C to allocate the G&A expense pool.

(5) Business Unit C has included selling costs as part of its G&A expense pool. Unit C has used a cost of sales base to allocate the G&A expense pool. Unit C desires to continue to allocate selling costs using the costs of sales base. Under the provisions of this Standard, Unit C would account for selling costs as a cost pool separate and apart from the G&A expense pool, and continue to allocate these costs over a cost of sales base. If Unit C uses a total cost input base to allocate the G&A expense pool, the selling costs will become part of the total cost input base.

(d) (1) Business Unit D has accounted for selling costs in a cost pool separate and apart from its G&A expense pool and has allocated these costs using a cost of sales base. Under the provisions of this Standard, Unit D may continue to account for those costs in a separate pool and allocate them using a cost of sales base. Unit D has a total cost input base to allocate its G&A expense pool. The selling costs will become part of the cost input base used by Unit D to allocate the G&A expense pool.

(2) During a cost accounting period, Business Unit D buys $2,000,000 of raw materials. At the end of that cost accounting period, $500,000 of raw materials inventory have not been charged out to contracts or other cost objectives. The $500,000 of raw materials are not part of the total cost input base for the cost accounting period, because they have not been charged to the production of goods and services during that period. If all of the $2,000,000 worth of raw material had been charged to cost objectives during the cost accounting period, the cost input base for the allocation of the G&A expense pool would include the entire $2,000,000.

(3) Business Unit D manufactures a variety of testing devices. During a cost accounting period, Unit D acquires and uses a small building, constructs a small production facility using its own resources, and keeps for its own use one unit of a testing device that it manufactures and sells to its customers. The acquisition cost of the building is not part of the total cost input base; however, the depreciation taken on the building would be part of the total cost input base. The costs of construction of the small production facility are not part of the total cost input base. The requirements of 30.404 provide that those G&A expenses which are identifiable with the constructed asset and are material in amount shall be capitalized as part of the cost of the production facility. If there are G&A expenses material in amount and identified with the constructed asset, these G&A expenses would be removed from the G&A expense pool prior to the allocation of this pool to final cost objectives. The cost of the testing device shall be part of the total cost input base per the requirements of 30.404 which provides that the costs of constructed assets identical with the contractor's regular product shall include a full share o indirect cost.

(e) (1) Business Unit E produces Item Z for stock or product inventory. The business unit does not include G&A expense as part of the inventory cost of these items for costing or financial reporting purposes. A production run of these items occurred during Cost Accounting Period 1. A number of the units produced were not issued during Period 1 and are issued in Period 2. However, those units produced in Period 1 shall be included in the cost input of that period for calculating the G&A expense allocation base and shall not be included in the cost input of Period 2.

(2) Business Unit E should apply the G&A expense rate of Period 1 to those units of Item Z issued during Period 1 and may apply the rate of Period 2 to the units issued in Period 2.

(3) If the practice of Business Unit E is to include G&A expense as part of the cost of stock or product inventory, the inventory cost of all units of Item Z produced in Period 1 and remaining in inventory at the end of Period 1, should include G&A expense using the G&A rate of Period 1.

(f) (1) Business Unit F produced Item X for stock or product inventory. The business unit does not include G&A expense as part of the inventory cost of these items. A production run of these items was started, finished, and placed into inventory in a single cost accounting period. These items are issued during the next cost accounting period.

(2) The cost of items produced for stock or product inventory should be included in the G&A base in the same year they are produced. The cost of such items is not to be included in the G&A base on the basis of when they are issued to final cost objectives. Therefore, the time of issuance of these items from inventory to a final cost objective is irrelevant in computing the G&A base.

(g) The normal productive activity of Business Unit G includes the construction of base operating facilities for others. G uses a total cost input base to allocate G&A expense to final cost objectives. As part of a contract to construct an operating facility, G agrees to acquire a large group of trucks and other mobile equipment to equip the base operating facility. G does not usually supply such equipment. The cost of the equipment constitutes a significant part of the contract cost. A special G&A allocation to this contract shall be agreed to by the parties if they agree that in the circumstances the contract as a whole receives substantially less benefit from the G&A expense pool than that which would be represented by a cost allocation based on inclusion of the contract cost in the total cost input base.

(h) (1) The home office of Segment H separately allocates to benefiting or causing segments significant home office expenses of (i) staff management functions relative to manufacturing, (ii) staff management functions relative to engineering, (iii) central payment of health insurance costs, and (iv) residual expenses. H receives these expenses as separate allocations. H maintains three indirect cost pools: (i) G&A expense, (ii) manufacturing overhead, and (iii) engineering overhead; all home office expenses allocated to H are included in H's G&A expense pool.

(2) This accounting practice of H does not comply with 30.410-50(g)(2). Home office residual expenses should be in the G&A expense pool, and the expenses of the staff management functions relative to manufacturing and engineering should be included in the manufacturing overhead and engineering overhead pools, respectively. The health insurance costs should be allocated in proportion to the beneficial and causal relationship between these costs and H's cost objectives.

APPENDIX A TO 30.410—TRANSITION FROM A COST OF SALES OR SALES BASE TO A COST INPUT BASE

A business unit may use the method described below for transition from the use of a cost of sales or sales base to a cost input base.

(1) Calculate the cost of sales or sales base in accordance with the cost accounting practice disclosed or established prior to the date established by 30.410-80(b) of this Cost Accounting Standard.

(2) Calculate the G&A expense allocation rate using the base determined in subparagraph (1) of this Appendix and use that rate to allocate from the G&A expense pool to the final cost objectives which were in existence prior to the date on which the business unit must first allocate costs in accordance with the requirements of this Cost Accounting Standard.

(3) Calculate a cost input base in compliance with 30.410-50(d) of this Appendix.

(4) Calculate the G&A expense rate using the base determined in subparagraph (3) of this Appendix and use that rate to allocate from the G&A expense pool to those final cost objectives which arise under contracts entered into on or after the date on which the business unit must first allocate costs in accordance with the requirements of this Cost Accounting Standard.

(5) The calculations set forth in paragraphs (1)-(4) of this Appendix shall be performed for each cost accounting period during which final cost objectives described in (2) are being performed.

(6) The business unit shall establish an inventory suspense account. The amount of the inventory suspense account shall be equal to the beginning inventory of contracts subject to the CAS clause of the cost accounting period in which the business unit must first allocate costs in accordance with the requirements of this Cost Accounting Standard.

(7) In any cost accounting period, after the cost accounting periods described in (5) of this Appendix, if the ending inventory of contracts subject to the CAS clause is less than the balance of the inventory suspense account, the business unit shall calculate two G&A expense allocation rates, one to allocate G&A expenses to contracts subject to the CAS clause and one applicable to other work.

(a) The G&A expense pool shall be divided in the proportion which the cost input of the G&A expense allocation base of the contracts subject to the CAS clause bears to the total of the cost input allocation base, selected in accordance with 30.410-50(d), for the cost accounting period.

(b) The G&A expenses applicable to contracts subject to the CAS clause shall be reduced by an amount determined by multiplying the difference between the balance of the inventory suspense account and the ending inventory of contracts subject to the CAS clause by the cost of sales rate, as determined under (1) of this Appendix, of the cost accounting period in which a business unit must first allocate costs in accordance with the requirements of this Cost Accounting Standard.

(8) In any cost accounting period in which such a reduction is made, the balance of the inventory suspense account shall be reduced

to be equal to the ending inventory of contracts subject to the CAS claure of that cost accounting period.

* * * * *

The following illustrates how a business unit would use this transition method.

1. Business Unit R has been using a cost of sales base to allocate its G&A expense pool to final cost objectives. Unit R uses a calendar year as its cost accounting period. On October 1, 1976 (assumed for purposes of this illustration) Cost Accounting Standard 410 becomes effective. On October 2, 1976, Unit R receives a 3-year contract containing the Cost Accounting Standards clause. As a result, Unit R must comply with the requirements of the Standard in the cost accounting period beginning in January 1978.

As of January 3, 1978, Business Unit R has the following contracts:

(1) Contract I—A 4-year contract awarded in January, 1975.

(2) Contract II—A 3-year contract which was negotiated in March 1976, and was awarded on October 2, 1976.

(3) Contract III—A 4-year contract awarded on January 2, 1978.

If Business Unit R chooses to use the transition method provided in 30.410-50(e), it will allocate the G&A expense pool to these contracts as follows:

(a) Contract I—Since Contract I was in existence prior to January 1, 1978, the G&A expense pool shall be allocated to it using a cost of sales base as provided in 30.410-50(e).

(b) Contract II—Since this contract was in existence prior to January 1, 1978, the G&A expense pool shall be allocated to it using a cost of sales base as provided in 30.410-50(e).

(c) Contract III—Since this contract was awarded after January 1, 1978, the G&A expense pool shall be allocated to this contract using a cost input base.

Having chosen to use 30.410-50(e), Business Unit R will use the transition method of allocating the G&A expense pool to final cost objectives until all contracts awarded prior to January 1, 1978, are completed (1979 if the contracts are completed on schedule). Beginning with the cost accounting period subsequent to that time, 1980, Unit R will use a cost input base to allocate the G&A expense pool to all cost objectives. Unit R will also carry forward an inventory suspense account in accordance with the requirements of this Standard.

2.A. Business Unit N is first required to allocate its costs in accordance with the requirements of 30.410 during the fiscal year beginning January 1, 1978. Unit N has used a cost of sales base to allocate its G&A expense pool.

During the years 1978, 1979, 1980, Business Unit N reported the following data:

	Contracts prior to Jan. 1, 1978				Contracts after Jan. 1, 1978		
	Total	Non-CAS work	CAS-fixed price work	CAS-cost contracts	Non-CAS work	CAS-fixed price work	CAS-cost contracts
Year 1978:							
Beginning inventory	$500	300	200	0	0	0	0
Cost input	+3000	400	600	700	500	500	300
Total	3500	700	800	700	500	500	300
Cost of sales	−3000	600	550	700	450	400	300
Ending inventory	500	100	250	0	50	100	0
Year 1979:							
Beginning inventory	500	100	250	0	50	100	0
Cost input	+3000	400	600	700	500	500	300
Total	3500	500	850	700	550	600	300
Cost of sales	−2500	450	650	700	150	250	300
Ending inventory	1000	50	200	0	400	350	0
Year 1980:							
Beginning inventory	1000	50	200	0	400	350	0
Cost input	+3000	400	600	700	500	500	300
Total	4000	450	800	700	900	850	300
Cost of sales	−3250	450	800	700	450	550	300
Ending inventory	750	0	0	0	450	300	0

NOTES:
Operating data is in thousands of dollars.
G. & A. expense $375,000 in accordance with the requirements of this standard.

Work existing prior to January 1, 1978, may include—

(1) Government contracts which contain the CAS clause;

(2) Government contracts which do not contain the CAS clause;

(3) Contracts other than Government contracts or customer orders; and

(4) Production not specifically identified with contracts or customer orders under production or work orders existing prior to the date on which a business unit must first allocate its costs in compliance with this Standard and which are limited in time or quantity.

Production under standing or unlimited work orders, continuous flow processes and the like, not identified with contracts or customer orders are to be treated as final cost objectives awarded after the date on which a business unit must first allocate its costs in compliance with the requirements of this Standard.

Business Unit N may allocate the G&A expense pool as follows:

[In dollars]

	Year 1978		Year 1979		Year 1980	
1. G. & A. expense pool		375		375		375
Cost of sales rate	375/3,000=	.125	375/2,500=	.15	375/3,250=	.115
Cost input rate	375/3,000=	.125	375/3,000=	.125	375/3,000=	.125
2. G. & A. allocations:						
Prior contracts:						
Non-CAS work	600×0.125=	75.00	450×0.15=	67.50	450×0.115=	51.75
CAS-fixed price work	550×0.125=	68.75	650×0.15=	97.50	800×0.115=	92.00
CAS-cost contracts	700×0.125=	87.50	700×0.15=	105.00	700×0.115=	80.50
After contracts:						
Non-CAS work	500×0.125=	62.50	500×0.125=	62.50	500×0.125=	62.50
CAS-fixed price work	500×0.125=	62.50	500×0.125=	62.50	500×0.125=	62.50
CAS-cost contracts	300×0.125=	37.50	300×0.125=	37.50	300×0.125=	37.55
		393.75	432.50		386.80	
3. Inventory suspense account [1]		200				
G. & A. rate applicable		.125				

[1] Beginning inventory of contracts subject to the CAS clause, January 1978.

2.B. In cost accounting period 1982, Business Unit N has an ending inventory of contracts subject to the CAS clause of $100,000. This is the first cost accounting period after the transition in which the amount of the ending inventory is less than the amount of the inventory suspense account. During this cost accounting period, Business Unit N had G&A expenses of $410,000 and cost input of $3,500,000; $1,500,000 applicable to contracts subject to the CAS clause and $2,000,000 applicable to other work.

Business Unit N would compute its G&A expense allocation rate applicable to contracts subject to the CAS clause as follows:

(1) Amount of inventory suspense account	$200,000
Amount of ending inventory	100,000
Difference	100,000
G. & A. rate applicable (see 2.A. above)	×0.125
Adjustment to G. & A. expense applicable to contracts subject to the CAS clause	12,500
(2) G. & A. expense pool	410,000
G. & A. expenses applicable to contracts subject to the CAS clause ($1,500,000/$3,500,000 ×$410,000)	175,890
G. & A. expenses applicable to other work	234,110
(3) G. & A. expenses applicable to contracts subject to the CAS clause	175,890
Adjustment to G. & A. expenses applicable to contracts subject to the CAS clause	−12,500
G. & A. expenses allocable to contracts subject to the CAS clause	163,390

(4) G. & A. expense allocation rate applicable to contracts subject to the CAS clause for cost accounting period 1982—$163,390/$1,500,000=0.109.

The amount of the inventory suspense account would be reduced to $100,000.

30.410-61 Interpretation. [Reserved]

30.410-62 Exemption. [Reserved]

30.410-63 Effective date. [Reserved]

30.411 Cost accounting standard—accounting for acquisition costs of material.

30.411-10 [Reserved]

30.411-20 Purpose.

(a) The purpose of this Cost Accounting Standard is to provide criteria for the accounting for acquisition costs of material. The Standard includes provisions on the use of inventory costing methods. Consistent application of this Standard will improve the measurement and assignment of costs to cost objectives.

(b) This Cost Accounting Standard does not cover accounting for the acquisition costs of tangible capital assets nor accountability for Government-furnished materials.

30.411-30 [Reserved]

30.411-40 Fundamental requirement.

(a) The contractor shall have, and consistently apply, written statements of accounting policies and practices for accumulating the costs of material and for allocating costs of material to cost objectives.

(b) The cost of units of a category of material may be allocated directly to a cost objective provided the cost objective was specifically identified at the time of purchase or production of the units.

(c) The cost of material which (1) is used solely in performing indirect functions, or (2) is not a significant element of production cost, whether or not incorporated in an end product, may be allocated to an indirect cost pool. When significant, the cost of such indirect material not consumed in a cost accounting period shall be established as an asset at the end of the period.

(d) Except as provided in paragraphs (b) and (c) of this subsection, the cost of a category of material shall be accounted for in material inventory records.

(e) In allocating to cost objectives the costs of a category of material issued from company-owned material inventory, the costing method used shall be selected in accordance with the provisions of 30.411-50, and shall be used in a manner which results in systematic and rational costing of issues of material to cost objectives. The same costing method shall, within the same business unit, be used for similar categories of materials.

30.411-50 Techniques for application.

(a) Material cost shall be the acquisition cost of a category of material, whether or not a material inventory record is used. The purchase price of material shall be adjusted by extra charges incurred or discounts and credits earned. Such adjustments shall be charged or credited to the same cost objective as the purchase price of the material, except that where it is not practical to do so, the contractor's policy may provide for the consistent inclusion of such charges or credits in an appropriate indirect cost pool.

(b) One of the following inventory costing methods shall be used when issuing material from a company-owned inventory:

(1) The first-in, first-out (FIFO) method.

(2) The moving average cost method.

(3) The weighted average cost method.

(4) The standard cost method.

(5) The last-in, first-out (LIFO) method.

(c) The method of computation used for any inventory costing method selected pursuant to the provisions of this Standard shall be consistently followed.

(d) Where the excess of the ending inventory over the beginning inventory of material of the type described in 30.411-40(c) is estimated to be significant in relation to the total cost included in the indirect cost pool, the cost of such unconsumed material shall be established as an asset at the end of the period by reducing the indirect cost pool by a corresponding amount.

30.411-60 Illustrations.

(a) Contractor "A" has one contract which requires two custom-ordered, high-value, airborne cameras. The contractor's established policy is to order such special items specifically identified to a contract as the need arises and to charge them directly to the contract. Another contract is received which requires three more of these cameras, which the contractor purchases at a unit cost which differs from the unit cost of the first two cameras ordered. When the purchase orders were placed, the contractor identified the specific contracts on which the cameras being purchased were to be used. Although these cameras are identical, the actual cost of each camera is charged to the contract for which it was acquired without establishing a material inventory record. This practice would not be a violation of this Standard.

(b) (1) A Government contract requires use of electronic tubes identified as "W." The contractor expects to receive other contracts requiring the use of tubes of the same type. In accordance with its written policy, the contractor establishes a material inventory record for electronic tube "W," and allocates the cost of units issued to the existing Government contract by the FIFO method. Such a practice would conform to the requirements of this Standard.

(2) The contractor is awarded several additional contracts which require an electronic tube which the contractor concludes is similar to the one described in subparagraph (b)(1) of this subsection and which is identified as "Y." At the time a purchase order for these tubes is written, the contractor cannot identify the specific number of tubes to be used on each contract. Consequently, the contractor establishes an inventory record for these tubes and allocates their cost to the contracts on an average cost method. Because a FIFO method is used for a similar category of material within the same business unit, the use of an average cost method for "Y" would be a violation of this Standard.

(c) A contractor complies with the Cost Accounting Standard on standard costs (30.407), and he uses a standard cost method for allocating the costs of essentially all categories of material. Also, it is the contractor's established practice to charge the cost of purchased parts which are incorporated in his end products, and which are not a significant element of production cost to an indirect cost pool. Such practices conform to this Standard.

(d) A contractor has one established inventory for type "R" transformers. The contractor allocates by the LIFO method the current costs of the individual units issued to Government contracts. Such a practice would conform to the requirements of this Standard.

(e) A contractor has established inventories for various categories of material which are used on Government contracts. During the year the contractor allocates the costs of the units of the various categories of material issued to contracts by the moving average cost method. The contractor uses the LIFO method for tax and financial reporting purposes and, at year end, applies a pooled LIFO inventory adjustment for all categories of material to Government contracts. This application of pooled costs to Government contracts would be a violation of this Standard because the lump sum adjustment to all of the various categories of material is, in effect, a noncurrent repricing of the material issues.

30.411-61 Interpretation. [Reserved]

30.411-62 Exemption. [Reserved]

30.411-63 Effective date. [Reserved]

30.412 Cost accounting standard for composition and measurement of pension cost.

30.412-10 [Reserved]

30.412-20 Purpose.

The purpose of this Standard is to provide guidance for determining and measuring the components of pension cost. The Standard establishes the basis on which pension costs shall be assigned to cost accounting periods. The provisions of this Cost Accounting Standard should enhance uniformity and consistency in accounting for pension costs and thereby increase the probability that those costs are properly allocated to cost objectives.

30.412-30 [Reserved]

30.412-40 Fundamental requirement.

(a) *Components of pension cost.* (1) For defined-benefit pension plans, the components of pension cost for a cost accounting period are (i) the normal cost of the period, (ii) a part of any unfunded actuarial liability, (iii) an interest equivalent on the unamortized portion of any unfunded actuarial liability, and (iv) an adjustment for any actuarial gains and losses.

(2) For defined-contribution pension plans, the pension cost for a cost accounting period is the net contribution required to be made for that period, after taking into account dividends and other credits, where applicable.

(b) *Measurement of pension cost.* (1) For defined-benefit pension plans, the amount of pension cost of a cost accounting period shall be determined by use of an actuarial cost method which measures separately each of the components of pension cost set forth in subparagraph (a)(1) of this subsection, or which meets the requirements set forth in 30.412-50(b)(2).

(2) Each actuarial assumption used to measure pension cost shall be separately identified and shall represent the contractor's best estimates of anticipated experience under the plan, taking into account past experience and reasonable expectations. The validity of the assumptions used may be evaluated on an aggregate, rather than on an assumption-by-assumption, basis.

(c) *Assignment of pension cost.* The amount of pension cost computed for a cost accounting period is assignable only to that period. Except for pay-as-you-go plans, the cost assignable to a period is allocable to cost objectives of that period to the extent that liquidation of the liability for such cost can be compelled or liquidation is actually effected in that period. For pay-as-you-go plans, the entire cost assignable to a period is allocable to cost objectives of that period only if the payment of benefits earned by plan participants can be compelled. If such payment is optional with the company, the amount of assignable costs allocable to cost objectives of that period is limited to the amount of benefits actually paid to retirees or beneficiaries in that period.

30.412-50 Techniques for application.

(a) *Components of pension cost.* (1) Any portion of an unfunded actuarial liability included as a separately identified part of the pension cost of a cost accounting period shall be included in equal annual installments. Each installment shall consist of an amortized portion of the unfunded actuarial liability plus an interest equivalent on the unamortized portion of such liability. The period of amortization shall be established as follows:

(i) If amortization of an unfunded actuarial liability has begun prior to the date this Standard first becomes applicable to a contractor, no change in the amortization period is required by this Standard.

(ii) If amortization of an unfunded actuarial liability has not begun prior to the date this Standard first becomes applicable to a contractor, the amortization period shall begin with the period in which the Standard becomes applicable and shall be no more than 30 years nor less than 10 years. However, if the plan was in existence as of January 1, 1974, the amortization period shall be no more than 40 years nor less than 10 years.

(iii) Each unfunded actuarial liability resulting from the institution of new pension plans or from adoption of improvements to pension plans subsequent to the date this Standard first becomes applicable to a contractor shall be amortized over no more than 30 years nor less than 10 years.

(2) Pension costs applicable to prior years that were specifically unallowable in accordance with then existing Government contractual provisions shall be separately identified and eliminated from any unfunded actuarial liability being amortized pursuant to the provision of subparagraph (a)(1) of this subsection, or from future normal costs if the actuarial cost method in use does not separately develop an unfunded actuarial liabil-

ity. Interest earned on funded unallowable pension costs, based on the valuation rate of return, need not be included by contractors as a reduction of future years' computations of pension costs made pursuant to this Standard.

(3) A contractor shall establish and consistently follow a policy for selecting specific amortization periods for unfunded actuarial liabilities, if any, that are developed under the actuarial cost method in use. Such policy may give consideration to factors such as the size and nature of unfunded actuarial liabilities.

(4) Actuarial assumptions used in calculating the amount of an unfunded actuarial liability shall be the same as those used for other components of pension cost. If any assumptions are changed during an amortization period, the resulting increase or decrease in an unfunded actuarial liability shall be separately amortized over no more than 30 years nor less than 10 years.

(5) Actuarial gains and losses shall be identified separately from unfunded actuarial liabilities that are being amortized pursuant to the provisions of this Standard. The accounting treatment to be afforded to such gains and losses shall be consistently applied for each pension plan.

(6) An excise tax assessed pursuant to a law or regulation because of inadequate or delayed funding of a pension plan is not a component of pension cost.

(7) If any portion of the pension cost computed for a cost accounting period is not funded in that period, no amount for interest on the portion not funded in that period shall be a component of pension cost of any future cost accounting period. Conversely, if a contractor prematurely funds pension costs in a current cost accounting period, the interest earned on such premature funding, based on the valuation rate of return, may be excluded from future years' computations of pension cost made pursuant to this Standard.

(8) For purposes of this Standard, defined-benefit pension plans funded exclusively by the purchase of individual or group permanent insurance or annuity contracts shall be treated as defined-contribution pension plans. However, all other defined-benefit pension plans administered wholly or in part through insurance company contracts shall be subject to the provisions of this Standard relative to defined-benefit pension plans.

(9) If a pension plan is supplemented by a separately-funded plan which provides retirement benefits to all of the participants in the basic plan, the two plans shall be considered as a single plan for purposes of this Standard. If the effect of the combined plans is to provide defined-benefits for the plan participants, the combined plan shall be treated as a defined-benefit plan for purposes of this Standard.

(10) A multiemployer pension plan established pursuant to the terms of a collective bargaining agreement shall be considered to be a defined-contribution pension plan for purposes of this Standard.

(11) A pension plan applicable to colleges and universities that is part of a State pension plan shall be considered to be a defined-contribution pension plan for purposes of this Standard.

(b) *Measurement of pension cost.* (1) The amount of pension cost assignable to cost accounting periods shall be measured by the accrued benefit cost method or by a projected benefit cost method which identifies separately normal costs, any unfunded actuarial liability, and periodic determinations of actuarial gains and losses, except as provided in subparagraph (b)(2) of this subsection.

(2) Any other projected benefit cost method may be used, provided that:

(i) The method is used by the contractor in measuring pension costs for financial accounting purposes;

(ii) The amount of pension cost assigned to a cost accounting period computed under such method is reduced by the excess, if any, of the value of the assets of the pension fund over the actuarial liability of the plan as determined by a projected benefit cost method set forth in subparagraph (b)(1) of this subsection;

(iii) The contractor accumulates supplementary information identifying the actuarial gains and losses (and, separately, gains or losses resulting from changed actuarial assumptions) that have occurred since the last determination of gains and losses and the extent to which such gains and losses have been amortized through subsequent pension contributions or offset by gains and losses in subsequent cost accounting periods, and

(iv) The cost of future pension benefits is spread over the remaining average working lives of the work force.

(3) Irrespective of the projected benefit cost method used, the calculation of normal cost shall be based on a percentage of payroll for plans where the pension benefit is a function of salaries and wages and on employee service for plans where the pension benefit is not a function of salaries and wages.

(4) The cost of benefits under a pay-as-you-go pension plan shall be measured in the same manner as are the costs of defined-benefit plans whose benefits are provided through a funding agency.

(5) Actuarial assumptions should reflect long-term trends so as to avoid distortions caused by short-term fluctuations.

(6) Pension cost shall be based on provisions of existing pension plans. This shall not preclude contractors from making salary projections for plans whose benefits are based on salaries and wages, or from considering improved benefits for plans which provide that such improved benefits must be made.

(7) If the evaluation of the validity of actuarial assumptions shows that, in the aggregate, the assumptions were not reasonable, the contractor shall (i) identify the major causes for the resultant actuarial gains or losses and (ii) provide information as to the basis and rationale used for retaining or revising such assumptions for use in the ensuing cost accounting period(s).

(c) *Assignment of pension cost.* (1) Amounts funded in excess of the pension cost computed for a cost accounting period pursuant to the provisions of this Standard shall be applied to pension costs of future cost accounting periods.

(2) Evidence that the liquidation of a liability for pension cost can be compelled includes (i) provisions of law such as the funding provisions of the Employee Retirement Income Security Act of 1974, except as provided in subparagraph (c)(3) of this subsection, (ii) a contractual agreement which requires liquidation of the liability, or (iii) the existence of rights by a third party to required liquidation of the liability.

(3) Any portion of pension cost computed for a cost accounting period that is deferred to future periods pursuant to a waiver granted under provisions of the Employee Retirement Income Security Act of 1974, shall not be assigned to the current period. Rather, such costs shall be assigned to the cost accounting period(s) in which the funding takes place.

(4) A liability for pension cost for a cost accounting period (or, for pay-as-you-go plans, for payments to retirees or beneficiaries for a period) shall be considered to be liquidated in the period if funding is effected by the date established for filing a Federal income tax return (including authorized extensions). For contractors not required to file Federal income tax returns, the date shall be that established for filing Federal corporation income tax returns.

30.412-60 Illustrations.

(a) *Components of pension cost.* (1) Contractor A has a defined-benefit pension plan for its employees. The contractor's policy has been to compute and fund as annual pension cost normal cost plus only interest on the unfunded actuarial liability. Pursuant to 30.412-40(a)(1), the components of pension cost for a cost accounting period must now include not only the normal cost for the period and interest on the unfunded actuarial liability, but also an amortized portion of the unfunded actuarial liability. The amortization of the liability and the interest equivalent on the unamortized portion of the liability must be computed in equal annual installments.

(2) Contractor B has insured pension plans for each of two small groups of employees. One plan is funded through a group permanent insurance contract; the other plan is funded through a group deferred annuity con-

tract. Both plans provide for defined benefits. Pursuant to 30.413-50(a)(8), for purposes of this Standard the plan financed through a group permanent insurance contract shall be considered to be a defined-contribution pension plan; the net premium required to be paid for a cost accounting period (after deducting dividends and any credits) shall be the pension cost for that period. However, the group deferred annuity plan is subject to the provisions of this Standard that are applicable to defined-benefit plans.

(3) Contractor C provides pension benefits for certain hourly employees through a multiemployer defined-benefit plan. Under the collective bargaining agreement, the contractor pays six cents into the fund for each hour worked by the covered employees. Pursuant to 30.412-50(a)(10), the plan shall be considered to be a defined-contribution pension plan. The payments required to be made for a cost accounting period shall constitute the assignable pension cost for that period.

(4) Contractor D provides pension benefits for certain employees hrough a defined-contribution pen- ion plan. However, the contractor has separate fund which is used to sup- lement pension benefits provided for ll of the participants in the basic plan n order to provide a minimum month- y retirement income to each partici- ant. Pursuant to 30.412-50(a)(9), the wo plans shall be considered as a ingle plan for purposes of this Stand- rd. Because the effect of the supple- ental fund is to provide defined-ben- fits for the plan's participants, the rovisions of this Standard relative to efined-benefit pension plans shall be pplicable to the combined plan.

(b) *Measurement of pension cost.* (1) ontractor E has a pension plan hose costs are assigned to cost ac- unting periods by use of an actuarial st method which does not separately entify actuarial gains and losses or e effect on pension cost resulting om changed actuarial assumptions. this cost method is used to measure sts for financial accounting pur- ses, it may be used for purposes of is Standard, provided that the con- ctor develops the supplementary information set forth in 30.412-50(b)(2)(iii) regarding such gains and losses and changed actuarial assumptions. In addition, the contractor must develop an actuarial liability determined by a projected benefit cost method set forth in 30.412-50(b)(1). If the resultant actuarial liability is less than the value of the pension fund, the pension cost computed for the cost accounting period must be reduced by that amount (30.412-50(b)(2)(ii)).

(2) For a number of years Contractor F has had a pay-as-you-go pension plan which provides for payments of $200 a month to employees after retirement. The contractor is currently making such payments to several retired employees and charges such payments against current income as its pension cost. For the current cost accounting period, the contractor paid benefits totaling $24,000. Contractor F's method of accounting for pension cost does not comply with the provisions of this Standard relative to pay-as-you-go plans as set forth in 30.412-40(c) and 30.412-50(b)(4). The contractor should:

(i) Compute, by use of an actuarial cost method, its actuarial liability for benefits earned by plan participants. This entire liability is always unfunded for a pay-as-you-go plan.

(ii) Compute a level amount which, including an interest equivalent, would amortize the unfunded actuarial liability over a period of no less than 10 or more than 40 years.

(iii) Compute, by use of the actuarial cost method selected, a normal cost for the period.

The sum of subdivisions (b)(2)(ii) and (iii) of this subsection represents the amount of pension cost assignable to the period. If payment of benefits earned by plan participants can be compelled, the entire amount of cost assignable to the period is allocable to cost objectives of that period. If such payments cannot be compelled, the amount of assignable cost allocable to cost objectives of that period is limited to the amount of benefits actually paid in that period ($24,000).

(3) Contractor G has two defined-benefit pension plans which provide for fixed dollar payments to hourly

employees. Under one plan, the contractor's actuary believes that the contractor will be required to increase the level of benefits by specified percentages over the next several years. In calculating pension costs, the contractor may not assume future benefits greater than that currently required by the plan. With regard to the second plan, a collective bargaining agreement negotiated with the employee's labor union provided that pension benefits will increase by specified percentages over the next several years. Because the improved benefits are required to be made, the contractor can consider such increased benefits in computing pension costs for the current cost accounting period (30.412-50(b)(6)).

(c) *Assignment of pension cost.* Contractor H has a trusteed pension plan for its salaried employees. It computes $1 million of pension cost for a cost accounting period. Pursuant to the funding provisions of the Employee Retirement Income Security Act of 1974, the company must fund at least $800,000. Because liquidation of the liability for the portion of pension cost required by law to be funded ($800,000) can be compelled, such cost is allocable to cost objectives of the period, in accordance with 30.412-40(c). If Contractor H can be compelled by the trustee or the plan participants to fund the remaining $200,000, the liability therefor is also allocable to cost objectives of that period.

30.412-61 Interpretation. [Reserved]

30.412-62 Exemption. [Reserved]

30.412-63 Effective date. [Reserved]

30.413 Adjustment and allocation of pension cost.

30.413-10 [Reserved]

30.413-20 Purpose.

A purpose of this Standard is to provide guidance for adjusting pension cost by measuring actuarial gains and losses and assigning such gains and losses to cost accounting periods. The Standard also provides the bases on which pension cost shall be allocated to segments of an organization. The provisions of this Cost Accounting Standard should enhance uniformity and consistency in accounting for pension costs.

30.413-30 [Reserved]

30.413-40 Fundamental requirement.

(a) *Assignment of actuarial gains and losses.* Actuarial gains and losses shall be calculated annually and shall be assigned to the cost accounting period for which the actuarial valuation is made and subsequent periods.

(b) *Valuation of the assets of a pension fund.* The value of all pension fund assets shall be determined under an asset valuation method which takes into account unrealized appreciation and depreciation of pension fund assets, and shall be used in measuring the components of pension cost.

(c) *Allocation of pension cost to segments.* Contractors shall allocate pension cost to each segment having participants in a pension plan. A separate calculation of pension cost for a segment is required when the conditions set forth in 30.413-50(c) (2) and (3) are present. When these conditions are not present, allocations may be made by calculating a composite pension cost for two or more segments and allocating this cost to these segments by means of an allocation base.

30.413-50 Techniques for application.

(a) *Assignment of actuarial gains and losses.* (1) In accordance with the provisions of 30.412, actuarial gains and losses shall be identified separately from unfunded actuarial liabilities being amortized.

(2) Actuarial gains and losses determined under a pension plan whose costs are measured by an immediate-gain actuarial cost method shall be amortized over a 15-year period in equal annual installments, beginning with the date as of which the actuarial valuation is made. The installment for a cost accounting period shall consist of an element for amortization of the gain or loss and an element for interest on the unamortized balance at the beginning of the period. If the actuarial gain or loss determined for a cost accounting period is not material, the entire gain or loss may be included as

a component of the current or ensuing year's pension cost.

(3) Actuarial gains and losses applicable to a pension plan whose costs are measured by a spread-gain actuarial cost method shall be included as part of current and future normal cost and spread over the remaining average working lives of the work force.

(b) *Valuation of the assets of a pension fund.* (1) The actuarial value of the assets of a pension fund shall be used (i) in measuring actuarial gains and losses, and (ii) for purposes of measuring other components of pension cost.

(2) The actuarial value of the assets of a pension fund may be determined by the use of any recognized asset valuation method which provides equivalent recognition of appreciation and depreciation of pension fund assets. However, the total asset value produced by the method used shall fall within a corridor from 80 to 120 percent of the market value of the assets, determined as of the valuation date. If the method produces a value that falls outside the corridor, the value of the assets shall be adjusted to equal the nearest boundary of the corridor.

(3) The method selected for valuing pension fund assets shall be consistently applied from year to year within each plan.

(4) The provisions of subparagraphs b) (1) through (3) of this subsection are not applicable to plans that are unded with insurance companies under contracts where the insurance ompany guarantees benefit payments.

(c) *Allocation of pension cost to segments.* (1) For contractors who com- ute a composite pension cost covering lan participants in two or more seg- ents, the base to be used for allocat- g such costs shall be representative the factors which the pension bene- s are based. For example, a base nsisting of salaries and wages shall used for pension costs that are cal- lated as a percentage of salaries and ges; a base consisting of the number employees shall be used for pension ts that are calculated as an amount employee.

(2) Separate pension cost for a segment shall be calculated whenever any of the following conditions exist for that segment, provided that such condition(s) materially affect the amount of pension cost allocated to the segment:

(i) There is a material termination gain or loss attributable to the segment,

(ii) The level of benefits, eligibility for benefits, or age distribution is materially different for the segment than for the average of all segments, or

(iii) The appropriate assumptions relating to termination, retirement age, or salary scale are, in the aggregate, materially different for the segment than for the average of all segments. Calculations of termination gains or losses shall give consideration to factors such as unexpected early retirements, benefits becoming fully vested, and reinstatements or transfers without loss of benefits. An amount may be estimated for future reemployments.

(3) Pension cost shall also be separately calculated for a segment under circumstances where—

(i) The pension plan for that segment becomes merged with that of another segment, and

(ii) The ratios of assets to actuarial liabilities for each of the merged plans are materially different from one another after applying the benefits in effect after the merger.

(4) Whenever the pension cost of a segment is required to be calculated separately pursuant to subparagraphs (c) (2) and (3) of this subsection, such calculations shall be prospective only; pension costs need not be redetermined for prior years.

(5) For a segment whose pension costs are required to be calculated separately pursuant to subparagraph (c)(2) of this subsection, there shall be an initial allocation of a share in the undivided pension fund assets to that segment, as follows:

(i) If the necessary data are readily determinable, the amount of assets to be allocated to the segment shall be the amount of funds contributed by, or on behalf of, the segment, increased by income received on such funds, and decreased by benefits and expenses paid from such funds; (ii) if the data specified in subdivision (i) of this subparagraph (c)(5), are not readily determinable the actuarial value of the pension fund's assets shall be allocated to the segment in a manner consistent with the actuarial cost method or methods used to compute pension cost. For a segment whose pension costs are required to be calculated separately pursuant to subparagraph (c)(3) of this subsection the initial allocation of assets to the segment shall be the market value of the segment's assets as of the date of the merger.

(6) If, prior to the time a contractor is required to use this Standard, it has been calculating pension cost separately for individual segments, the amount of assets previously allocated to those segments need not be changed.

(7) After the initial allocation of assets, the contractor shall maintain a record of the portion of subsequent contributions, income, benefit payments, and expenses attributable to the segment and paid from the pension fund; income and expenses shall include a portion of any investment gains and losses attributable to the assets of the pension fund. Fund income and expenses shall be allocated to the segment in the same proportion that the assets allocated to the segment bears to total fund assets as of the beginning of the period for which fund income and expenses are being allocated.

(8) If plan participants transfer among segments, contractors need not transfer assets or liabilities unless a transfer is sufficiently large to distort the segments' ratio of fund assets to actuarial liabilities.

(9) Contractors who separately calculate the pension cost of one or more segments may calculate such cost either for all pension plan participants assignable to the segment(s) or for only the active participants of the segment(s). If costs are calculated only for active participants, a separate segment shall be created for all of the inactive participants of the pension plan and the cost thereof shall be calculated. When a contractor makes such an election, assets shall be allocated to the segment for inactive participants in accordance with paragraphs (c) (5), (6), and (7) of this section. When an employee of a segment becomes inactive, assets shall be transferred from that segment to the segment established to accumulate the assets and actuarial liabilities for the inactive plan participants. The amount of funds transferred shall be that portion of the actuarial liabilities for these inactive participants that have been funded. If inactive participants become active, funds and liabilities shall similarly be transferred to the segments to which the participants are assigned. Such transfers need be made only as of the last day of a cost accounting period. The total annual pension cost for a segment having active lives shall be the amount calculated for the segment plus an allocated portion of the pension cost calculated for the inactive participants. Such an allocation shall be on the same basis as that set forth in subparagraph (c)(1) of this subsection.

(10) Where pension cost is separately calculated for one or more segments, the acturaial cost method used for a plan shall be the same for all segments, as required by 30.412-50(b). Unless a separate calculation of pension cost for a segment is made because of a condition set forth in subdivision (c)(2)(iii) of this subsection, the same actuarial assumptions may be used for all segments covered by a plan.

(11) If a pension plan has participants in the home office of a company, the home office shall be treated as a segment for purposes of allocating the cost of the pension plan. Pension cost allocated to a home office shall be a part of the costs to be allocated in accordance with the appropriate requirements of 30.403.

(12) If a segment is closed, the contractor shall determine the difference between the actuarial liability for the segment and the market value of the assets allocated to the segment, irrespective of whether or not the pension plan is terminated. The determination of the actuarial liability shall give consideration to any requirements imposed by agencies of the United States Government. In computing the market value of assets for the segment, if the contractor has not al-

ready allocated assets to the segment, such an allocation shall be made in accordance with the requirements of subdivisions (c)(5) (i) and (ii) of this section. The market value of the assets allocated to the segment shall be the segment's proportionate share of the total market value of the assets of the pension fund. The calculation of the difference between the market value of the assets and the actuarial liability shall be made as of the date of the event (e.g., contract termination) that caused the closing of the segment. If such a date cannot be readily determined, or if its use can result in an inequitable calculation, the contracting parties shall agree on an appropriate date. The difference between the market value of the assets and the actuarial liability for the segment represents an adjustment of previously-determined pension costs.

30.413-60 Illustrations.

(a) *Assignment of actuarial gains and losses.* Contractor A has a defined-benefit pension plan whose costs are measured under an immediate-gain actuarial cost method. The contractor makes actuarial valuations every other year. In the past, at each valuation date, the contractor has calculated the actuarial gains and losses that have occurred since the previous valuation date and has merged such gains and losses with the unfunded actuarial liabilities that are being amortized. Pursuant to 30.413-40(a), the contractor must make an actuarial valuation annually. Any actuarial gains or losses measured must be separately amortized over a 15-year period beginning with the period for which the actuarial valuation is made (30.413-50(a) (1) nd (2)).

(b) *Valuation of the assets of a pension fund.* Contractor B has a defined enefit pension plan, the assets of hich are invested in equity securities, ebt securities, and real property. The ontractor, whose cost accounting eriod is the calendar year, has an nnual actuarial valuation of the penon fund in June of each year; the efctive date of the valuation is the benning of that year. The contractor's ethod for valuing the assets of the nsion fund is as follows: debt securities expected to be held to maturity are valued on an amortized basis running from initial cost at purchase to par value at maturity; land and buildings are valued at cost less depreciation taken to date; all equity securities and debt securities not expected to be held to maturity are valued on the basis of a 5-year moving average of market values. In making an actuarial valuation, the contractor must compare the values reached under the asset valuation method used with the market values of all of the assets (30.413-40(b)). In this case, the assets are valued as of January 1 of that year. The contractor established the following values as of the valuation date.

	Asset valuation method	Market
Cash	$100,000	$100,000
Equity securities	6,000,000	7,800,000
Debt securities expected to be held to maturity	550,000	600,000
Other debt securities	600,000	750,000
Land and buildings, net of depreciation	400,000	750,000
Total	$7,650,000	$10,000,000

Section 30.413-50(b)(2) requires that the total value of the assets of the pension fund fall within a corridor from 80 to 120 percent of market. The corridor for the plan's assets as of January 1 is from $12 million to $8 million. Because the asset value reached by the contractor—$7,650,000—falls outside the corridor, the value reached must be adjusted to equal the nearest boundary of the corridor: $8 million. In subsequent years the contractor must continue to use the same method for valuing assets (30.413-50(b)(3)). If the value produced falls inside the corridor, such value shall be used in measuring pension cost.

(c) *Allocation of pension cost to segments.* (1) Contractor C has a defined-benefit pension plan covering employees at five segments. Pension cost is computed by use of an immediate-gain actuarial cost method. One segment (X) is devoted primarily to performing work for the Government. During the current cost accounting period, Segment X had a large and unforeseeable reduction of employees because of a contract termination at the convenience of the Government and because the contractor did not receive an anticipated follow-on contract to one that was completed during the period. As a result, the plan has a large net termination gain. As a consequence of this gain a separate calculation of the pension cost for Segment X would result in a materially different allocation of costs to that segment than would a composite calculation and allocation by means of a base. Accordingly, pursuant to 30.413-50(c)(2), the contractor must calculate a separate pension cost for Segment X. In doing so, the entire termination gain must be assigned to Segment X and amortized over 15 years. If the actuarial assumptions for Segment X continue to be substantially the same as for the other segments, the termination gain may be separately amortized and allocated only to Segment X; all other Segment X computations may be included as part of the composite calculation. After the gain is amortized, the contractor is no longer required to separately calculate the costs for Segment X unless subsequent events require such separate calculation.

(2) Contractor D has a defined-benefit pension plan covering employees at 10 segments, all of which have some contracts subject to Cost Accounting Standards. The contractor uses a spread-gain actuarial cost method and calculates pension cost by developing a pension cost rate and applying that rate to the salaries and wages of the work force. One of the segments (Segment Y) is entirely devoted to Government work. The contractor's policy is to place junior employees in this segment. The age distribution of the employees of the segment is so different from that of the other segments that the pension cost for Segment Y would be materially different if computed separately than if computed as part of a computation which averages the ages of all employees covered by the plan. Pursuant to 30.413-50(c)(2), the contractor must compute the pension cost for Segment Y as if it were a separate pension plan. Accordingly, the contractor must allocate a portion of the pension fund's assets to Segment Y. Memorandum records may be used in making the allocation. However, because this portion cannot be readily determined, 30.413-50(c)(5)(ii) permits the allocation to be made on the basis of the actuarial cost method or methods used to calculate prior years' pension cost for the plan. Once the assets have been allocated, in future cost accounting periods the contractor shall make separate pension cost calculations for Segment Y based on the actual age distribution for the segment. Because the factors comprising pension cost for the other nine segments are relatively equal, the contractor may compute pension cost for these nine segments by using composite factors and developing a percentage of payroll for the nine segments. The pension cost allocated to each of the nine segments shall be the product of the percentages developed and the payroll of each segment (30.413-50(c)(1)).

(3) Contractor E has a defined-benefit pension plan which covers employees at 12 segments. The contractor uses composite actuarial assumptions to develop a pension cost for all segments. Three of these segments primarily perform Government work; the work at the other nine segments is primarily commercial. Employee turnover at the segments performing commercial work is relatively stable. However, employment experience at the Government segments has been very volatile; there have been large fluctuations in employment levels and the contractor assumes that this pattern of employment will continue to occur. It is evident that separate termination assumptions for the Government segments and the commercial segments will result in materially different pension costs for the Government segments. Therefore, the cost for these segments must be separately calculated, using the appropriate termination assumptions for these segments (30.413-50(c)(2)(iii)).

(4) Contractor F has a defined-benefit pension plan covering employees at 25 segments. Twelve of these segments primarily perform Government work; the remaining segments perform primarily commercial work. The contractor's records show that the termina-

tion experience and projections for the 12 segments are so different from that of the average of all of the segments that separate pension cost calculations are required for these segments pursuant to 30.413-50(c)(2). However, because the termination experience and projections are about the same for all 12 segments, contractor F may calculate a composite pension cost for the 12 segments and allocate the cost to these segments by use of an appropriate allocation base.

(5) After this Standard becomes applicable to Contractor G, it acquires Contractor H and makes it Segment H. Prior to the merger, each contractor had its own defined-benefit pension plan. Under the terms of the merger, Contractor H's pension plan and plan assets were merged with those of Contractor G. The actuarial assumptions, current salary scale, and other plan characteristics and about the same for Segment H and Contractor G's other segments. However, based on the same benefits at the time of the merger, the plan of Contractor H had a disproportionately larger unfunded actuarial liability than did Contractor G's plan. Any combining of the assets and actuarial liabilities of both plans would result in materially different pension cost allocation to Contractor G's segments than if pen- ion cost were computed for Segment H on the basis that it had a separate ension plan. Accordingly, pursuant to 0.413-50(c)(5), Contractor G must al- ocate to Segment H a portion of the ssets of the combined plan. The mount to be allocated shall be the arket value of Segment H's pension lan assets at the date of the merger, djusted for subsequent receipts and xpenditures applicable to the seg- ent (30.413-50(c)(7)). Contractor G ust use these amounts of assets as a sis for calculating the annual pen- on cost applicable to Segment H.

(6) Contractor I has a defined-bene- pension plan covering employees at ven segments. The contractor has en making a composite pension cost lculation for all of the segments. wever, the contractor determines at, pursuant to this Standard, sepa- e pension costs must be calculated one of the segments. In accordance with 30.413-50(c)(9), the contractor elects to allocate fund assets only for the active participants of that segment. The contractor must then create a segment to accumulate the assets and actuarial liabilities for the plan's inactive participants. When active participants of a segment become inactive, the contractor must transfer assets to the segment for inactive participants to cover the actuarial liabilities for the participants that become inactive. However, the amount to be transferred shall be proportionate to the percentage of such liabilities that are funded.

(7) Contractor J has a defined-benefit pension plan covering employees at 10 segments. The contractor makes a composite pension cost calculation for all segments. The contractor's records show that the termination experience for one segment—primarily performing Government work—has been significantly different from the average turnover experience of the other segments. Moreover, the contractor assumes that such different experience will continue. Because of this fact, and because the application of a different termination assumption would result in significantly different costs being charged to the Government, the contractor must develop separate pension cost for that segment. In accordance with 30.413-50(c)(2), the amount of pension cost must be based on an acceptable termination assumption for that segment; however, as provided in 30.413-50(c)(10), all other assumptions for that segment may be the same as those for the remaining segments.

(8) Contractor K has a 5-year contract to operate a Government-owned facility. The employees of that facility are covered by the contractor's overall defined-benefit pension plan which covers salaried and hourly employees at other locations. At the conclusion of the 5-year period, the Government decides not to renew the contract. Although some employees are hired by the successor contractor, as far as Contractor K is concerned, the facility is closed. Pursuant to 30.413-50(c)(12), Contractor K must compute an unfunded actuarial liability for the pension plan for that facility. The contractor first calculates the actuarial li-

ability as of the date the contract expired. Because many of Contractor K's employees are terminated from the pension plan, the Internal Revenue Service considers it to be a partial plan termination, and thus requires that the terminated employees become fully vested in their accrued benefits to the extent such benefits are funded. Taking this factor into consideration, the actuary calculates the actuarial liability as amounting to $12.5 million. The contractor must then determine the market value of the pension fund assets allocable to the facility, pursuant to 30.413-50(c)(5), as of the date agreed to by the contracting parties (30.413-50(c)(12))—the date the contract expired. In making this determination, the contractor establishes the ratio of the actuarial value of the assets allocable to the segment to the total actuarial value of the assets of the pension fund. The product of this ratio and the market value of all pension fund assets is the market value of the assets allocated to the segment. In this case, the market value of the segment's assets amounted to $13.8 million. Thus, for this facility the value of pension fund assets exceeded the actuarial liability by $1.3 million. This amount indicates the extent to which the Government over-contributed to the pension plan for the segment and, accordingly, indicates the extent to which prior years' pension costs are subject to adjustment.

30.413-61 Interpretation. [Reserved]

30.413-62 Exemption. [Reserved]

30.413-63 Effective date. [Reserved]

30.414 Cost accounting standard—cost of money as an element of the cost of facilities capital.

30.414-10 [Reserved]

30.414-20 Purpose.

The purpose of this Cost Accounting Standard is to establish criteria for the measurement and allocation of the cost of capital committed to facilities as an element of contract cost. Consistent application of these criteria will improve cost measurement by providing for allocation of cost of contractor investment in facilities capital to negotiated contracts.

30.414-30 [Reserved]

30.414-40 Fundamental requirement.

(a) A contractor's facilities capital shall be measured and allocated in accordance with the criteria set forth in this Standard. The allocated amount shall be used as a base to which a cost of money rate is applied.

(b) The cost of money rate shall be based on interest rates determined by the Secretary of the Treasury, pursuant to Pub. L. 92-41 (85 Stat. 97).

(c) The cost of capital committed to facilities shall be separately computed for each of contract using facilities capital cost of money factors computed for each cost accounting period.

30.414-50 Techniques for application.

(a) The investment base used in computing the cost of money for facilities capital shall be computed from accounting data used for contract cost purposes. The form and instructions stipulated in this Standard shall be used to make the computation.

(b) The cost of money rate for any cost accounting period shall be the arithmetic mean of the interest rates specified by the Secretary of the Treasury pursuant to Pub. L. 92-41 (85 Stat 97). Where the cost of money must be determined on a prospective basis the cost of money rate shall be based on the most recent available rate published by the Secretary of the Treasury.

(c) (1) A facilities capital cost of money factor shall be determined for each indirect cost pool to which a significant amount of facilities capital has been allocated and which is used to allocate indirect costs to final cost objectives.

(2) The facilities capital cost of money factor for an indirect cost pool shall be determined in accordance with Form CASB CMF, and its instructions which are set forth in Appendix A. One form will serve for all the indirect cost pools of a business unit.

(3) For each CAS-covered contract, the applicable cost of capital committed to facilities for a given cost ac-

counting period is the sum of the products obtained by multiplying the amount of allocation base units (such as direct labor hours, or dollars of total cost input) identified with the contract for the cost accounting period by the facilities capital cost of money factor for the corresponding indirect cost pool. In the case of process cost accounting systems the contracting parties may agree to substitute an appropriate statistical measure for the allocation base units identified with the contract.

30.414-60 Illustrations.

The use of Form CASB CMF and other computations anticipated for this Cost Accounting Standard are illustrated in Appendix B.

30.414-61 Interpretation. [Reserved]

30.414-62 Exemption.

(a) This Standard shall not apply to any prime contract or subcontract providing that (1) the date of award of such contract, or (2) if the contractor has submitted cost or pricing data, the date of final agreement on price as shown on the contractor's signed certificate of current cost or pricing data, precedes the effective date of this Standard.

(b) This Standard shall not apply where compensation for the use of tangible capital assets is based on use rates or allowances such as provided by the provisions of OMB Circular A-21 (Cost Principles for Educational Institutions), OMB Circular A-87 (Cost Principles for State and Local Governments), § 15.402-1(a) of the Armed Services Procurement Regulation, or other appropriate Federal procurement regulations.

	TOTAL							
	UNDISTRIBUTED							
	DISTRIBUTED							
OVERHEAD POOLS								
G&A EXPENSE POOLS								
TOTAL							/////////	/////////

Purpose

The purpose of this form is to (a) accumulate total facilities capital net book values allocated to each business unit for the contractor cost accounting period, and (b) convert those values to facilities capital cost of money factors applicable to each overhead or G&A expense allocation base employed within a business unit.

Basis

All data pertain to the cost accounting period for which the contractor prepares overhead and G&A expense allocations. The cost of money computations should be compatible with those allocation procedures. More specifically, facilities capital values used should be the same values that are used to generate depreciation or amortization that is allowed for Federal Government contract costing purposes; land which is integral to the regular operation of the business unit shall be included.

Applicable Cost of Money Rate (Col. 1)

Enter here the rate as computed in accordance with 30.414-50(b).

Accumulation and Direct Distribution of Net Book Value (Col. 2)

Recorded, Leased Property, Corporate. The net book value of facilities capital items in this column shall represent the average balances outstanding during the cost accounting period. This applies both to items that are subject to periodic depreciation or amortization and also to such items as land that are not subject to periodic write-offs. Unless there is a major fluctuation, it will be adequate to ascertain the net book of these assets at the beginning and end of each cost accounting period, and to compute an average of those two sets of figures. "Recorded" facilities are the facilities capital items owned by the contractor, carried on the books of the business unit, and used in its regular business activity. "Leased property" is the capitalized value of leases for which constructive costs of ownership are allowed in lieu of rental costs under Government procurement regulations. Corporate or group facilities are the business unit's allocable share of corporate-owned and leased facilities. The net book value of items of facilities capital which are held or controlled by the home office shall be allocated to the business unit on a basis consistent with the home office expense allocation.

Distributed and Undistributed. All facilities capital items that are identified in the contractor's records as solely applicable to an organizational unit corresponding to a specific overhead, G&A or other indirect cost pool which is used to allocate indirect costs to final cost objectives, are listed against the applicable pools and are classified as "distributed." "Undistributed" is the remainder of the business unit's facilities capital. The sum of "distributed" and "undistributed" must also correspond to the amount shown on the "total" line.

Allocation of Distributed. List in the narrative column all the overhead and G&A expense pools to which "distributed" facilities capital items have been allocated. Enter the corresponding amounts in (Col. 2). The sum of all the amounts shown against specific overhead and G&A expense pools must correspond to the amount shown in the "distributed" line.

Allocation of Undistributed (Col. 3)

Business unit "undistributed" facilities are allocated to overhead and the G&A expense pools on any reasonable basis that approximates the actual absorption of depreciation or amortization of such facilities. For instance, the basis of allocation of undistributed assets in each business unit between; e.g., engineering overhead pool and the manufacturing overhead pool, should be related to the manner in which the expenses generated by these assets are allocated between the two overhead pools. Detailed analysis of this allocation is not required where essentially the same results an be obtained by other means. Where the ost accounting system for purposes of Govrnment contract costing uses more than ne "charging rate" for allocating indirect osts accumulated in a single cost pool, one epresentative base may be substituted for he multiplicity of bases used in the allocaion process. The net book value of service enter facilities capital items appropriately llocated should be included in this column. he sum of the entries in Column 3 is equal o the entry in the undistributed line, olumn 2.

A supporting work sheet of this allocation hould be prepared if there is more than ne service center or other similar "intermeate" cost objective involved in the reallotion process.

Alternative Allocation Process—As an alrnative to the above allocation process all e undistributed assets for one or more rvice centers or similar intermediate cost jectives may be allocated to the G&A exnse pool. Consequently, the cost of money r these undistributed assets will be distribed to the final cost objectives on the same is that is used to allocate G&A expense. is procedure may be adopted for any cost ounting period only when the contract parties agree (a) that the depreciation amortization generated by these undistributed assets is immaterial or (b) that the results of this alternative procedure are not likely to differ materially from those which would be obtained under the "regular" allocation process described previously.

Total Net Book Value (Col. 4)

The sum of Columns 2 and 3. The total of this column should agree with the business unit's total shown in Column 2.

Cost of Money for the Cost Accounting Period (Col. 5)

Multiply the amounts in Column 4 by the percentage rate in Column 1.

Allocation Base for the Period (Col. 6)

Show here the total units of measure used to allocate overhead and G&A expense pools (e.g., direct labor dollars, machine hours, total cost input, etc.). Include service centers that make charges to final cost objectives. Each base unit-of-measure must be compatible with the bases used for applying overhead in the Federal Government contract cost computation.

The total base unit of measure used for allocation in this column refers to all work done in an organizational unit associated with the indirect cost pool and not to Government work alone.

Facilities Capital Cost of Money Factors (Col. 7)

The quotients of cost of money for the cost accounting period (Col. 5) separately divided by the corresponding overhead or G&A expense allocation bases (Col. 6). Carry each computation to five decimal places. This factor represents the cost of money applicable to facilities capital allocated to each unit of measure of the overhead or G&A expense allocation base.

APPENDIX B TO 30.414—EXAMPLE—ABC CORPORATION

ABC Corporation has a home office that controls three operating divisions (Business Units A, B & C). The home office includes an administrative computer center whose costs are allocated separately to the business units. The separate allocation conforms to the requirements specified in the Cost Accounting Standard No. 403. Tables I through VI deal with home office expense allocations to business units.

The A Division is a business unit as defined by the CASB, and it uses one engineering and one manufacturing overhead pool to accumulate costs for charging overhead to final cost objectives. In addition, the indirect cost allocation process also uses two "service centers" with their own indirect cost pools: occupancy and technical computer center.

The costs accumulated in the occupancy pool are allocated among manufacturing overhead, engineering overhead, and the technical computer center on the basis of floor space occupied. The costs accumulated in the technical computer center cost pool are allocated to users on the basis of a CPU hourly rate. Some of these allocations are made to engineering or manufacturing overhead while others are allocated direct to final cost objectives.

At the business unit level, all the indirect expense incurred is regarded either as an engineering or manufacturing expense. Thus the sole item that enters into the business unit G&A expense pool is the allocation received by the A Division from the home office.

Operating results for the A Division are given in Table VII. Facilities capital items for the division are given in Table IX.

The example is based on a single set of illustrative contract cost data given in Table VIII. Since two methods, the "regular" and the "alternative" method, are potentially available for computing cost of money on facilities capital items two sets of different results can be considered.

In addition, total cost input is used in the example as the allocation base for the G&A expense. Two variations of this example have been prepared to illustrate the impact of excluding or including cost of money from total cost input. Variation I, summarized in Table XIII, excludes cost of money from the cost input allocation base. Variation II, summarized in Tables XVII and XVIII, includes cost of money in the cost input allocation base.

Throughout the example, where appropriate, cross references have been made to the text of the relevant parts of the Standard.

VARIATION I—TOTAL COST INPUT ALLOCATION BASE EXCLUDES COST OF MONEY—TABLE I—NET BOOK VALUE OF HOME OFFICE FACILITIES CAPITAL

	Dec. 31, 1974	Dec. 31, 1975
Administrative computer center facilities capital	$550,000	$450,00
Other home office facilities capital	420,000	380,00
Total	970,000	830,00

The assets in the above table generate allowable depreciation or amortization, as explained in instructions for Form CAS CMF (Basis). Thus, they should be included in the asset base for cost of money computation.

TABLE II—HOME OFFICE FACILITIES CAPITAL ANNUAL AVERAGE BALANCES

Administrative computer center facilities capital	$500,00
Other home office facilities capital	400,00
Total	900,00

The above averages are based on data in Table I computed in accordance with the criteria in instructions for Form CAS CMF (Recorded, Leased Property, Corporate).

$970,000+$830,000=$1,800,000÷2=$900,000

TABLE III—HOME OFFICE DEPRECIATION AND AMORTIZATION FOR 1975

Administrative computer center facilities capital	$100,00
Other home office facilities capital	40,00
Total	140,00

TABLE IV—ALLOCATION OF ABC HOME OFFICE EXPENSES TO DIVISIONS (*business units*)

	Total expense	Allocation to business units		
		A	B	C
Administrative computer center	$1,800,000	$900,000	$900,000	
Other home office	4,800,000	2,400,000	1,200,000	$1,200,00
Total	6,600,000	3,300,000	2,100,000	1,200,00

The above allocation is carried out in accordance with CAS 403. The expense allocated to individual business units above ncludes depreciation and amortization as reflected in Table V

TABLE V—DEPRECIATION AND AMORTIZATION COMPONENT OF ABC HOME OFFICE EXPENSE

	Total depreciation and amortization expense	Allocation to business units		
		A	B	C
Administrative computer center	$100,000	$50,000	$50,000	
Other home office	40,000	20,000	10,000	$10,000
Total	140,000	70,000	60,000	10,000

TABLE VI—ALLOCATION OF HOME OFFICE FACILITIES CAPITAL TO BUSINESS UNITS

(a) Depreciation and amortization allocation in Table V converted to percentages

	Total depreciation and amortization expense (in percent)	Allocation to business units (in percent)		
		A	B	C
dministrative computer center	100	50	50	
ther home office	100	50	25	25

) Application of percentages in (a) to average net book values in Table II, in accordance with criteria in Instructions for Form CASB CMF (Recorded, Leased Property, Corporate).

	Total net book value	Allocation to business units		
		A	B	C
ministrative computer center facilities capital	$500,000	$250,000	$250,000	
her home office facilities capital	400,000	200,000	100,000	$100,000
Total	900,000	450,000	350,000	100,000

TABLE VII—"A" DIVISION 1975 OPERATING RESULTS

	Total cost input and G. & A.	Fixed price CAS-covered contracts	Cost reimbursement, CAS-covered contracts	Commercial and other work
t material:				
Purchased parts	$2,000,000	$100,000	$100,000	$1,800,000
Subcontract items	21,530,000	11,750,000	7,206,000	2,575,000
Total	23,530,000	11,850,000	7,306,000	4,375,000
l labor and overhead:				
ngineering labor	2,000,000	1,500,000	500,000	
ngineering overhead (80 pct of direct engineering labor)	1,600,000	1,200,000	400,000	
anufacturing labor	3,000,000	1,200,000	200,000	1,600,000
anufacturing overhead (200 pct of direct management labor)	6,000,000	2,400,000	400,000	3,200,000
direct charges:				
chnical computer center direct charge—2,280 h at $250/h	570,000	200,000	370,000	
Total cost input (excluding cost of money)	36,700,000	18,350,000	9,175,000	9,175,000
. (8.99 pct of cost input)	3,300,000	1,650,000	825,000	825,000
Total	40,000,000	20,000,000	10,000,000	10,000,000

TABLE VIII—COST DATA FOR THE CONTRACT

Purchased parts	$85,000
Subcontract items	990,000
Technical computer time 280 h at $250/h	70,000
Engineering labor	330,000
Engineering overhead at 80 pct	264,000
Manufacturing labor	1,210,000
Manufacturing overhead at 200 pct	2,420,000
Total cost input (excluding cost of money)	5,369,000
G. & A. at 8.99 pct	483,000
Total cost input and G. & A. (excluding cost of money)	5,852,000

TABLE IX—DIVISION A FACILITIES CAPITAL

Average net book values are computed in accordance with Instructions to Form CASB CMF. Average figures only are given, the underlying beginning and ending balances for 1975 have not been reproduced.

Name of indirect cost pool the asset is associated with	Average net book value	Annual depreciation
Engineering overhead	$320,000	$40,000
Manufacturing overhead	4,500,000	900,000
Technical computer center	450,000	90,000
Occupancy	3,000,000	200,000
Facilities capital recorded by division A (see Form CASB CMF instructions for description of recorded)	8,270 000	1,230,000
Allocated from home office, table VI	450,000	
Total division A	8,720,000	

TABLE X—ALLOCATION OF UNDISTRIBUTED FACILITIES CAPITAL

(a) *Occupancy Pool Assets.* Total occupancy pool expenses are assumed to be $1,000,000 of which $200,000 is depreciation per Table IX. Allocation of the $3,000,000 net book value of assets per Table IX is performed on the basis of floor space utilization.

Indirect cost pool	Occupancy expense and depreciation allocation	Percent of total floor space utilized	Asset allocation
Engineering	$200,000	20	$600,000
Manufacturing	750,000	75	2,250,000
Technical computer	50,000	5	150,000
Total	1,000,000	100	3,000,000

(b) *Technical Computer Center Assets.* Total technical computer center expenses for the year are assumed to be $770,000 including $90,000 depreciation per Table IX and $50,000 charge from the occupancy pool per paragraph (a) of this table. A charging rate of $250 per hour is computed assuming a total of 3,080 chargeable CPU hours per annum. The net book value of assets amounting to $600,000 [$450,000 per Table IX plus the $150,000 allocated per (a) above] is allocated on the basis of CPU hours utilized.

Overhead pool or cost objective	Hours charged	Amount charged	Percent	Asset allocation
Fixed price contracts, table VII	800	$200,000	26	$156,000
Cost reimbursement contracts, table VII	1,480	370,000	48	288,000
Engineering overhead pool	800	200,000	26	156,000
Total	3,080	770,000	100	600,000

(c) SUMMARY OF UNDISTRIBUTED FACILITIES CAPITAL ALLOCATION. Undistributed (per Table IX).

Technical computer center	$450,000
Occupancy	3,000,000
Total	3,450,000

Distribution per paragraph (a) or (b) of this table of balances to overhead pools that result in charges direct to final cost objectives.

Overhead pool	(a)	(b)	Total
Engineering	$600,000	$156,000	$756,000
Manufacturing	2,250,000		2,250,000
Technical computer center (direct charge to contracts)		444,000	444,000
Total	2,850,000	600,000	3,450,000

52 FR 35622, as amended at 52 FR 36675, ept. 30, 1987]

0.415 Accounting for the cost of deferred compensation.

0.415-10 [Reserved]

0.415-20 Purpose.

(a) The purpose of this Standard is o provide criteria for the measurement of the cost of deferred compenation and the assignment of such cost o cost accounting periods. The appliation of these criteria should increase he probability that the cost of deerred compensation is allocated to ost objectives in a uniform and conistent manner.

(b) This Standard is applicable to he cost of all deferred compensation xcept for compensated personal abence and pension plan costs which are overed in other Cost Accounting tandards.

0.415-30 [Reserved]

0.415-40 Fundamental requirement.

(a) The cost of deferred compensaion shall be assigned to the cost acounting period in which the contracr incurs an obligation to compensate e employee. In the event no obligaon is incurred prior to payment, the st of deferred compensation shall be e amount paid and shall be assigned the cost accounting period in which e payment is made.

b) The measurement of the amount the cost of deferred compensation shall be the present value of the future benefits to be paid by the contractor.

(c) The cost of each award of deferred compensation shall be considered separately for purposes of measurement and assignment of such costs to cost accounting periods. However, if the cost of deferred compensation for the employees covered by a deferred compensation plan can be measured with reasonable accuracy on a group basis, separate computations for each employee are not required.

30.415-50 Techniques for application.

(a) The contractor shall be deemed to have incurred an obligation for the cost of deferred compensation when all of the following conditions have been met. However, for awards which require that the employee perform future service in order to receive the benefits, the obligation is deemed to have been incurred as the future service is performed for that part of the award attributable to such future service:

(1) There is a requirement to make the future payment(s) which the contractor cannot unilaterally avoid.

(2) The deferred compensation award is to be satisfied by a future payment of money, other assets, or shares of stock of the contractor.

(3) The amount of the future payment can be measured with reasonable accuracy.

(4) The recipient of the award is known.

(5) If the terms of the award require that certain events must occur before an employee is entitled to receive the benefits, there is a reasonable probability that such events will occur.

(6) For stock options, there must be a reasonable probability that the options ultimately will be exercised.

(b) If any of the conditions in 30.415-50(a) is not met, the cost of deferred compensation shall be assignable only to the cost accounting period or periods in which the compensation is paid to the employee.

(c) If the cost of deferred compensation can be estimated with reasonable accuracy on a group basis, including consideration of probable forfeitures, such estimate may be used as the basis for measuring and assigning the present value of future benefits.

(d) The following provisions are applicable for plans that meet the conditions of 30.415-50(a) and the compensation is to be paid in money.

(1) If the deferred compensation award provides that the amount to be paid shall include the principal of the award plus interest at a rate fixed at the date of award, such interest shall be included in the computation of the amount of the future benefit. If no interest is included in the award, the amount of the future benefit is the amount of the award.

(2) If the deferred compensation award provides for payment of principal plus interest at a rate not fixed at the time of award but based on a specified index which is determinable in each applicable cost accounting period, e.g., a published corporate bond rate, such interest shall be included in the computation of the amount of future benefit. The interest rate to be used shall be the rate in effect at the close of the period in which the cost of deferred compensation is assignable. Since that interest rate is likely to vary from the actual rates in future periods, adjustments shall be made in any such future period in which the variation in rates materially affects the cost of deferred compensation.

(3) If the deferred compensation award provides for payment of principal plus interest at a rate not based on a specified index or not determinable in each applicable year, the

(i) Cost of deferred compensation for the principal of the award shall be measured by the present value of the future benefits of the principal and shall be assigned to the cost accounting period in which the employer incurs an obligation to compensate the employee;

(ii) Interest on such awards shall be assigned to the cost accounting period(s) in which the payment of the deferred compensation is made.

(4) If the terms of the award require that the employee perform future service in order to receive benefits, the cost of the deferred compensation shall be appropriately assigned to the periods of current and future service based on the facts and circumstances of the award. The cost of deferred compensation for each cost accounting period shall be the present value of the future benefits of the deferred compensation calculated as of the end of each such period to which such cost is assigned.

(5) In computing the present value of the future benefits, the discount rate shall be equal to the interest rate as determined by the Secretary of the Treasury pursuant to Pub. L. 92-41, 85 Stat. 97, at the time the cost is assignable.

(6) If the award is made under a plan which requires irrevocable funding for payment to the employee in a future cost accounting period together with all interest earned thereon, the amount assignable to the period of award shall be the amount irrevocably funded.

(7) In computing the assignable cost for a cost accounting period, any forfeitures which reduce the employer's obligation for payment of deferred compensation shall be a reduction of contract costs in the period in which the forfeiture occurred. The amount of the reduction for a forfeiture shall be the amount of the award that was assigned to a prior period, plus interest compounded annually, using the same Treasury rate that was used as the discount rate at the time the cost was assigned. For irrevocably funded plans, pursuant to 30.415-50(d)(6), the amount of the reduction for a forfeit-

ure shall be the amount initially funded plus or minus a pro-rata share of the gains and losses of the fund.

(8) If the cost of deferred compensation for group plans measured in accordance with 30.415-50(c) is determined to be greater than the amounts nitially assigned because the forfeit-ure was overestimated, the additional ost shall be assignable to the cost ac-counting period in which such cost is scertainable.

(e) The following provisions are ap-plicable for plans that meet the condi-ions of 30.415-50(a) and the compen-ation is received by the employee in ther than money. The measurements et forth herein constitute the present alue of future benefits for awards nade in other than money and, there-ore, shall be deemed to be a reasona-le measure of the amount of the uture payment:

(1) If the award is made in the stock f the contractor, the cost of deferred ompensation for such awards shall be ased on the market value of the stock n the measurement date; i.e., the first ate the number of shares awarded is nown. Market value is the current or revailing price of the security as indi-ated by market quotations. If such alues are unavailable or not appropri-te (thin market, volatile price move-ents, etc.) an acceptable alternative the fair value of the stock.

(2) If an award is made in the form options to employees to purchase ock of the contractor, the cost of de-rred compensation of such award all be the amount by which the rket value of the stock exceeds the tion price multiplied by the number shares awarded on the measure-nt date; i.e., the first date on which h the option price and the number shares is known. If the option price the measurement date is equal to greater than the market value of stock, no cost shall be deemed to e been incurred for contract cost-purposes.

) If the terms of an award of stock tock option require that the em-ee perform future service in order ceive the stock or to exercise the on, the cost of the deferred com-ation shall be appropriately as-d to the periods of current and future service based on the facts and circumstances of the award. The cost to be assigned shall be the value of the stock or stock option at the measurement date as prescribed in 30.415-50(e)(1) or (e)(2).

(4) If an award is made in the form of an asset other than cash, the cost of deferred compensation for such award shall be based on the market value of the asset at the time the award is made. If a market value is not available, the fair value of the asset shall be used.

(5) If the terms of an award, made in the form of an asset other than cash, require that the employee perform future service in order to receive the asset, the cost of the deferred compensation shall be appropriately assigned to the periods of current and future service based on the facts and circumstances of the award. The cost to be assigned shall be the value of the asset at the time of award as prescribed in 30.415-50(e)(4).

(6) In computing the assignable cost for a cost accounting period, any forfeitures which reduce the employer's obligation for payment of deferred compensation shall be a reduction of contract costs in the period in which the forfeiture occurred. The amount of the reduction shall be equal to the amount of the award that was assigned to a prior period, plus interest compounded annually, using the Treasury rate (see 30.415-50(d)(5)) that was in effect at the time the cost was assigned. If the recipient of the award of stock options voluntarily fails to exercise such options, such failure shall not constitute a forfeiture under provisions of this Standard.

(7) Stock option awards or any other form of stock purchase plans containing all of the following characteristics shall be considered noncompensatory and not covered by this Standard:

(i) Substantially all full-time employees meeting limited employment qualifications may participate.

(ii) Stock is offered equally to eligible employees or based on a uniform percentage of salary or wages.

(iii) An option or a purchase right must be exercisable within a reasonable period.

(iv) The discount from the market price of the stock is no greater than would be reasonable in an offer of stock to stockholders or others.

30.415-60 Illustrations.

(a) Contractor A has a deferred compensation plan in which all cash awards are increased each year by an interest factor equivalent to the long-term borrowing rate of the contractor prevailing during each such year. The interest factor based on a variable long-term borrowing rate meets the criteria of 30.415-50(d)(2). Consequently, the cost of deferred compensation for Contractor A shall be measured by the present value of the future benefits and shall be assigned to the cost accounting period in which the contractor initially incurs an obligation to compensate the employee. If the long-term borrowing rate for Contractor A was nine percent at the close of the period to which the cost of deferred compensation was assignable, then that rate should be used to calculate the future benefit. Any adjustment in the cost of deferred compensation which results from a material change in the nine percent rate in future applicable periods shall be made in each such future period or periods (see 30.415-50(d)(2)).

(b) Contractor B made a deferred compensation award of $10,000 to an employee on December 31, 1976, for services performed in 1976 to be paid in equal annual payments of $2,000 starting at December 31, 1981. The terms of the award do not provide for an interest factor to be included in the payment; consequently, according to provisions of 30.415-50(d)(1), interest may not be included in the computation of the future benefit. The assignable cost for 1976 is computed as follows, assuming that the interest rate determined by the Secretary of the Treasury (pursuant to Pub. L. 92-41, 85 Stat. 97) at the time of award is eight percent and the conditions set forth in 30.415-50(a) are met.

Year	Amount of future payment × Discount rate 8-pct present value factor = Present value
1981	$2,000 × 0.6805 = $1,361
1982	2,000 × .6301 = 1,260
1983	2,000 × .5834 = 1,167
1984	2,000 × .5402 = 1,080
1985	2,000 × .5002 = 1,000
Assignable cost for 1976	5,868

(c) Contractor C awarded stock options for 1,000 shares of the contractor to key employees on December 31, 1976, under a deferred compensation plan requiring 2 years of additional service before the awards can be exercised. The facts and circumstances of the awards indicate that the deferred compensation applies only to the periods of future service. The market price of the stock was $26 per share, the option price was $22, and the interest rate established by the Secretary of the Treasury in effect at the time of award was 8 percent.

(1) In accordance with 30.415-50(e)(2), the cost of the stock options is the amount by which the current value of the stock exceeds the option price multiplied by the number of shares awarded on the measurement date. Thus, the total cost of the stock options is 1,000 shares multiplied by the difference of the option price and the market price ($26 − 22) or $4,000.

(2) Under provisions of 30.415-50(e)(3), the cost for stock options is assigned to each future cost accounting period in which employee service is required and is computed as follows:

	Assignable Cost[1]
Year of required service:	
1977	$2,000
1978	2,000
Total amount of award	4,000

[1] Note that this illustration assumes that the facts and circumstances of the award indicate that the award relates equally to each period of future service. Thus, the assignable cost was allocated on a pro-rata basis.

(d) (1) Contractor D has a deferred compensation plan that specifies that an employee receiving a cash award must remain with the company for 3 calendar years after the award in order to qualify and receive the award and the facts and circumstances indicate that the deferred compensation applies only to the periods of future service. In accordance with 30.415-50(d)(4), the cost of deferred compensation is assignable to the periods of future service. Thus, the amount of cost of deferred compensation to be assigned by Contractor D for each of the 3 years shall be the present value of the future benefits of the deferred compensation award calculated as of the end of each such period to which such cost is assigned.

(2) Under this plan, Contractor D made an award to an employee of $3,000 to be paid at the end of the third year. The assignable cost for each of the 3 years is computed as follows:

Year [1]	Amount of future payment	×	Present value factor [2] using prevailing Treasury rate [3]	=	Assignable cost for each year
1	$1,000	×	0.8573 (8 pct for 2 yr)	=	$857.30
2	1,000	×	0.9302 (7.5 pct for 1 yr)	=	930.20
3	1,000	×	1.000 (8 pct for 0 yr)	=	1,000.00

[1] Note that in accordance with the facts and circumstances of the award no deferred compensation is assignable to the period in which the award is made and that the award relates equally to each period of future service.

[2] Note that since the costs are measured at the end of each year of required service, the present value factors are based on the number of years from the year of assignment to the date of payment.

[3] Note that the prevailing Treasury rate changed from year 1 to year 2.

(e) (1) Contractor E has a deferred compensation plan that specifies that an employee receiving a cash award must remain with the company for two calendar years after the award in order to qualify and receive the award. Contractor E made an award of $6,000 at the end of 1976 to an employee to be paid at the end of 1978. However, the employee voluntarily terminated his employment before the end of 1977. The facts and circumstances of the award indicate that $2,000 of the award represents compensation for services rendered in the period of award (1976). The remaining portion of the award represents compensation for services to be rendered in future periods. The assignable cost for 1976, which was the only period to which costs were assigned before termination, was the present value of $2,000, the amount of the award attributable to the services of that period. Thus, the cost assigned for 1976 was:

Amount of future payment×Discount rate present value factor for 2 yr at 8 pct=Assignable cost

$2,000×0.8573=$1,714.60

(2) According to provisions of 30.415-50(d)(7), the amount of the forfeiture shall be the amount of the cost that was assigned to a prior period, plus interest compounded annually, from the year the cost was assigned to the year of forfeiture, using the same Treasury rate (see 30.415-50(d)(5)) that was used as the discount rate at the time the cost was assigned. The Treasury rate in effect at the date of award was eight percent.

(3) The amount of the forfeiture is computed as follows:

Assignable cost×Discount rate future value factor for 1 yr at 8 pct=Forfeiture

$1,714.60×1.08=$1,851.77

30.415-61 Interpretation. [Reserved]

30.415-62 Exemption. [Reserved]

30.415-63 Effective date. [Reserved]

30.416 Accounting for insurance costs.

30.416-10 [Reserved]

30.416-20 Purpose.

The purpose of this standard is to provide criteria for the measurement of insurance costs, the assignment of such costs to cost accounting periods, and their allocation to cost objectives. The application of these criteria should increase the probability that insurance costs are allocated to cost objectives in a uniform and consistent manner.

30.416-30 [Reserved]

30.416-40 Fundamental requirement.

(a) The amount of insurance cost to be assigned to a cost accounting period is the projected average loss for that period plus insurance administration expenses in that period.

(b) The allocation of insurance costs to cost objectives shall be based on the beneficial or causal relationship between the insurance costs and the benefiting or causing cost objectives.

30.416-50 Techniques for application.

(a) *Measurement of projected average loss.*

(1) For exposure to risk of loss which is covered by the purchase of insurance or by payments to a trusteed fund, the premium or payment, adjusted in accordance with the following criteria, shall represent the projected average loss:

(i) The premium cost applicable to a given policy term shall be assigned pro rata among the cost accounting periods covered by the policy term, except as provided in subdivisions (a)(1)(ii) through (vi) of this subsection. A refund, dividend or additional assessment shall become an adjustment to the pro rata premium costs for the earliest cost accounting period in which the refund or dividend is actually or constructively received or in which the additional assessment is payable.

(ii) Where insurance is purchased specifically for, and directly allocated to, a single final cost objective, the premium need not be prorated among cost accounting periods.

(iii) Any part of a premium or payment to an insurer or trustee, or any part of a dividend or premium refund retained by an insurer or trustee which would be includable as a deposit in published financial statements prepared in accordance with generally accepted accounting principles shall be accounted for as a deposit for the purpose of determining insurance costs.

(iv) Any part of a premium or payment to an insurer or to a trustee, or any part of a dividend or premium refund retained by an insurer, for inclusion in a reserve or fund established and maintained on behalf of the insured or the policyholder or trustor, shall be accounted for as a deposit unless the following conditions are met:

(A) The objectives of the reserve or fund are clearly stated in writing.

(B) Measurement of the amount required for the reserve or fund is actuarially determined and is consistent with the objectives of the reserve or fund.

(C) Payments and additions to the reserve or fund are made in a systematic and consistent manner.

(D) If payments to accomplish the stated objectives of the reserve or fund are made from a source other than the reserve or fund, the payments into the reserve or fund are reduced accordingly.

(v) If an objective of an insurance program is to prefund insurance coverage on retired persons, then, in addition to the requirements imposed by subdivision (a)(1)(iv) of this subsection:

(A) Payments must be made to an insurer or trustee to establish and maintain a fund or reserve for that purpose;

(B) The policyholder or trustor must have no right of recapture of the reserve or fund so long as any active or retired participant in the program remains alive unless the interests of such remaining participants are satisfied through adequate reinsurance or otherwise; and

(C) The amount added to the reserve or fund in any cost accounting period must not be greater than an amount which would be required to apportion the cost of the insurance coverage fairly over the working lives of the active employees in the plan. If a contractor establishes a terminal-funded plan for retired persons or converts from a pay-as-you-go plan to a terminal-funded plan, the actuarial present value of benefits applicable to employees already retired shall be amortized over a period of 15 years.

(vi) The contractor may adopt and consistently follow a practice of determining insurance costs based on the estimated premium and assessments net of estimated refunds and dividends. If this practice is adopted, then any difference between an estimated and actual refund, dividend, or assessment shall become an adjustment to the pro rata net premium costs for the earliest cost accounting period in which the refund or dividend is actually or constructively received or in which the additional assessment is payable.

(2) For exposure to risk of loss which is not covered by the purchase of insurance or by payments to a trusteed fund, the contractor shall follow a program of self-insurance accounting according to the following criteria:

(i) Except as provided in subdivisions (a)(2) (ii) and (iii) of this subsection actual losses shall not become a part of insurance costs. Instead, the contractor shall make a self-insurance charge for each period for each type of self-insured risk which shall represent the projected average loss for that period. If insurance could be purchased against the self-insured risk, the cost of such insurance may be used as an estimate of the projected average loss; if this method is used, the self-insurance charge plus insurance administration expenses may be equal to, but shall not exceed, the cost of comparable purchased insurance plus the associated insurance administration expenses. However, the contractor's actual loss experience shall be evaluated regularly, and self-insurance charges for subsequent periods shall reflect such experience in the same manner as would purchased insurance. If insurance could not be purchased against the self-insured risk, the amount of the self-insurance charge for each period shall be based on the contractor's experience, relevant industry experience, and anticipated conditions in accordance with accepted actuarial principles.

(ii) Where it is probable that the actual amount of losses which will occur in a cost accounting period will not differ significantly from the projected average loss for that period, the actual amount of losses in that period may be considered to represent the projected average loss for that period in lieu of a self-insurance charge.

(iii) Under self-insurance programs for retired persons, only actual losses shall be considered to represent the projected average loss unless a reserve or fund is established in accordance with 30.416-50(a)(1)(v).

(iv) The self-insurance charge shall be determined in a manner which will give appropriate recognition to any indemnification agreement which exists between the contracting parties.

(3) In measuring actual losses under subparagraph (a)(2) of this subsection:

(i) The amount of a loss shall be measured by (A) the actual cash value of property destroyed, (B) amounts paid or accrued to repair damage, (C) amounts paid or accrued to estates and beneficiaries, and (D) amounts paid or accrued to compensate claimants, including subrogation. Where the amount of a loss which is represented by a liability to a third party is uncertain, the estimate of the loss shall be the amount which would be includable as an accrued liability in financial statements prepared in accordance with generally accepted accounting principles.

(ii) If a loss has been incurred and the amount of the liability to a claimant is fixed or reasonably certain, but actual payment of the liability will not take place for more than 1 year after the loss is incurred, the amount of the loss to be recognized currently shall be the present value of the future payments, determined by using a discount rate equal to the interest rate as determined by the Secretary of the Treasury pursuant to Pub. L. 92-41, 85 Stat. 97, in effect at the time the loss is recognized. Alternatively, where settlement will consist of a series of payments over an indefinite time period, as in workmen's compensation, the contractor may follow a consistent policy of recognizing only the actual amounts paid in the period of payment.

(4) The contractor may elect to recognize immaterial amounts of self-insured losses or insurance administration expenses as part of other expense categories rather than as "insurance costs."

(b) *Allocation of insurance costs:* (1) Where actual losses are recognized as an estimate of the projected average loss, in accordance with 30.416-50(a)(2), or where actual loss experience is determined for the purpose of developing self-insurance charges by segment, a loss which is incurred in a given segment shall be identified with that segment. However, if the contractor's home office is, in effect, a reinsurer of its segments against catastrophic losses, a portion of such catastrophic losses shall be allocated to, or identified with, the home office.

(2) Insurance costs shall be allocated on the basis of the factors used to determine the premium, assessment, refund, dividend, or self-insurance charge, except that insurance costs incurred by a segment or allocated to a segment from a home office may be combined with costs of other indirect cost pools if the resultant allocation to each final cost objective is substantially the same as it would have been if separately allocated under this provision.

(3) Insurance administration expenses which are material in relation to total insurance costs shall be allocated on the same basis as the related premium costs or self-insurance charge.

(c) *Records.* The contractor shall maintain such records as may be necessary to substantiate the amounts of premiums, refunds, dividends, losses, and self-insurance charges, paid or accrued, and the measurement and allocation of insurance costs. Memorandum records may be used to reflect any material differences between insurance costs as determined in accordance with this standard and as includable in financial statements prepared in accordance with generally accepted accounting principles.

[52 FR 35613, Sept. 22, 1987, as amended at 53 FR 27466, July 20, 1988]

30.416-60 Illustrations.

(a) Contractor A pays a companywide property and casualty insurance premium for the policy term July 1, 1980, to July 1, 1983, and includes the entire amount as cost in its cost accounting period which ended December 31, 1980. This is a violation of 30.416-50(a)(1)(i) in that only one-sixth of the policy term fell within the cost accounting period which ended December 31, 1980, and therefore only one-sixth of the premium should have been included in cost in that cost accounting period.

(b) Contractor B has a retrospectively rated worker's compensation insurance program. The policy term corresponds with the contractor's cost accounting period. Premium refunds are normally received and applied in the following cost accounting period. The contractor's practice is to include the entire gross premium in insurance cost in the cost accounting period in which it is paid and to credit the refund against insurance cost in the cost accounting period in which it is received. This practice conforms with 30.416-50(a)(1)(i). The contractor could also, under the provisions of 30.416-50(a)(1)(vi), have followed a consistent practice of estimating such refunds in advance and including the estimated net premium in insurance cost.

(c) Contractor C establishes a self-insured program of life insurance for active and retired persons. The contractor pays death benefits directly to the beneficiaries of deceased employees and includes such payments in insurance costs at the time of payment. This practice complies with 30.416-50(a)(2)(iii) which requires that only the actual losses be recognized unless a trusteed reserve or fund is established in accordance with 30.416-50(a)(1)(v).

(d) Instead of paying death benefits directly, contractor D purchases annual group term life insurance on active and retired persons and charges the premiums to insurance costs (with proper recognition for refunds and dividends). Contractor D's retired persons wish to be protected against possible discontinuance of the program. Contractor D, therefore, establishes a trusteed fund. As each employee retires, contractor D deposits in the fund an amount which is equal to the premium on a paid-up policy for that employee, and he advises the trustee that the fund is to be used to continue to pay premiums on retired persons in the event the program is discontinued. The contractor also continues to purchase group term insurance on both active employees and retired persons and charges both the premiums and the deposits to insurance costs. This practice does not comply with 30.416-50(a)(1)(iv)(D) which requires that if payments to accomplish the stated objectives of the reserve or funds are made from a source other than the reserve or fund, the payments into the fund shall be reduced accordingly.

NOTE: In this instance the contractor could comply with the standard by paying from the fund that portion of the group term premium which represented the retired persons or by reducing the deposits to the fund by an equivalent amount in accordance with 30.416-50(a)(1)(iv)(D). This practice would also comply with the requirement of 30.416-50(a)(1)(v)(C) that the amount added to the fund not be greater than an amount which would be required to fairly allocate the cost over the working lives of the active employees in the plan.

(e) Contractor E wishes to provide assurance of his life insurance program continuance to both active and retired employees. He establishes a trusteed fund in accordance with 30.416-50(a)(1) (iv) and (v) and thereafter pays into the fund each year for each active employee an actuarially determined amount which will accumulate to the equivalent of the premium on a paid-up life insurance policy at retirement. He charges the annual payments to insurance costs. Benefits are paid directly from the fund (or the fund is used to pay the annual premiums on group term life insurance for all employees). This practice also complies with the requirement of 30.416-50(a)(1)(v)(C) that the amount added to the fund not be greater than an amount which would be required to fairly allocate the cost over the working lives of the active employees in the plan.

(f) Contractor F has a fire insurance policy which provides that the first $50,000 of any fire loss will be borne by the contractor. Because the risk of loss is dispersed among many physical units of property and the average potential loss per unit is relatively low, the actual losses in any period may be expected not to differ significantly from the projected average loss. Therefore, the contractor intends to let the actual losses represent the projected average loss for this exposure to risk. Property with an actual cash value of $80,000 is destroyed in a fire. The contractor charges the $50,000 of the loss not covered by the policy to insurance costs for contract costing purposes. The practice complies with the requirement of 30.416-50(a)(2). However, had the contractor's plan been to make a self-insurance charge for such losses, then any difference between the self-insurance charge and actual losses in that cost accounting period would not have been allocable as an insurance cost.

(g) Contractor G is preparing to enter into a Government contract to produce explosive devices. The contractor is unable to purchase adequate insurance protection and must act as a self-insurer. There is a significant possibility of a major loss, against which the Government will not undertake to idemnify the contractor. The contractor, therefore, intends to make a self-insurance charge for this exposure to risk. The contractor may, in accordance with 30.416-50(a)(2)(i), use data obtained from other contractors or any other reasonable method of estimating the projected average loss in order to determine the self-insurance charge.

(h) Contractor H purchases liability insurance for all of its motor vehicles in a single, company-wide policy which contains a $50,000 deductible provision. However, the company's management policy provides that when a loss is incurred in a segment, only the first $5,000 of the loss will be charged to the segment; the balance of the loss will be absorbed at the home-office level and reallocated among all segments. Because the risk of loss is dispersed among many physical units and the maximum potential loss per occurrence is limited, the actual losses in any cost accounting period may be expected not to differ significantly from the projected average loss. Therefore, the contractor intends to let the actual losses represent the projected average loss for this exposure to risk. An analysis of the loss experience shows that many past losses exceeded $5,000. Contractor H's practice of allocating the loss in excess of $5,000 to the home office is a violation of 30.416-50(b)(1)(ii). The limit of $5,000 cannot realistically be considered a measure of a "catastrophic" loss when losses frequently exceed this amount, and the use of a limit this low would obscure segment loss experience.

30.416-61 Interpretation. [Reserved]

30.416-62 Exemption. [Reserved]

30.416-63 Effective date.

The effective date of the modification deleting the reference to state discount rates at 30.416-50(a)(3)(ii), is September 19, 1988. The modification shall be followed by each contractor on or after the start of its next cost accounting period beginning after the receipt of a contract to which the modification is applicable.

[53 FR 27466, July 20, 1988]

30.417 Cost of money as an element of the cost of capital assets under construction.

30.417-10 [Reserved]

30.417-20 Purpose.

The purpose of this Cost Accounting Standard is to establish criteria for the measurement of the cost of money attributable to capital assets under construction, fabrication or development as an element of the cost of those assets. Consistent application of these criteria will improve cost measurement by providing for recognition of cost of contractor investment in assets under construction, and will provide greater uniformity in accounting for asset acquisition costs.

30.417-30 [Reserved]

30.417-40 Fundamental requirement.

The cost of money applicable to the investment in tangible and intangible capital assets being constructed, fabricated, or developed for a contractor's own use shall be included in the capitalized acquisition cost of such assets.

30.417-50 Techniques for application.

(a) The cost of money for an asset shall be calculated as follows:

(1) The cost of money rate used shall be based on interest rates determined by the Secretary of the Treasury pursuant to Pub. L. 92-41 (85 Stat. 97).

(2) A representative investment amount shall be determined each cost accounting period for each capital asset being constructed, fabricated, or developed giving appropriate consideration to the rate at which costs of construction are incurred.

(3) Other methods for calculating the cost of money to be capitalized, such as the method used for financial accounting and reporting, may be used, provided the resulting amount does not differ materially from the amount calculated by use of subparagraphs (a) (1) and (2), of this subsection.

(b) If substantially all the activities necessary to get the asset ready for its intended use are discontinued, cost of money shall not be capitalized for the period of discontinuance. However, if such discontinuance arises out of causes beyond the control and without the fault or negligence of the contractor, cessation of cost of money capitalization is not required.

30.417-60 Illustrations.

(a) A contractor decided to build a major addition to his plant using both his own labor and outside subcontractors. It took 13 months to complete the building. The first 10 months of the construction period were in one cost accounting period. At the end of the cost accounting period the total charges, including cost of money computed in accordance with 30.414, accumulated in the construction-in-progress account for this project amounted to $750,000. However, most of these construction costs were incurred towards the end of the cost accounting period. In developing a method for determining a representative investment amount, appropriate consideration must be given to the rate at which costs have been incurred in accordance with 30.417-50(a)(2). Therefore, the contractor averaged the 10 month-end balances and determined that the average investment in the project was $245,000. Two cost of money rates were in effect during the 10-month period; their time-weighted average was determined to be 8.6 percent. Application of the 8.6 percent rate for ten-twelfths of a year to the representative balance of $245,000 resulted in the determination that $17,448 should be added to the construction-in-progress account in recognition of the cost of money related to this project in its first cost accounting period. The project was completed with the addition of $750,000 of additional costs during the first 3 months of the subsequent cost accounting period. The contractor considered the 3 month-end balances (which included the $17,558 capitalized cost of money described in the preceding paragraph) and determined that the representative balance was $1,234,000. The cost of money rate in effect during this 3-month period was 7.75 percent. Applying the rate of 7.75 percent for one-fourth of a year to the balance of $1,234,000 resulted in a determination that $23,909 should be added to the construction-in-progress account in recognition of the cost of money while under construction in the second cost accounting period. The capitalized project was put into service at the recognized cost of acquisition of $1,541,467 which consists of the "regular" costs of $1,500,000 plus $17,558 and $23,909 cost of money. This practice is in accordance with 30.417-50(a) and other applicable provisions of the Standard.

NOTE: An alternative technique would be to make separate calculations, using an appropriate investment amount and cost of money rate, for each month. The sum of the monthly cost of money amounts could be entered in the construction-in-progress account once each cost accounting period.

(b) A contractor built a major addition with identical basic data to those described in 30.417-60(a) except that the costs were incurred at a fairly uniform rate throughout the period. Because of the pattern of cost incurrence, the contractor used beginning and ending balances of the cost accounting period to find the representative amounts. For the first cost accounting period the representative investment amount was the average of the beginning and ending balances (zero and $750,000), or $375,000. Application of the average interest rate of 8.6 percent for ten-twelfths of a year resulted in the determination that $26,875 should be added to the construction-in-progress account in recognition of the cost of money related to this project in its first cost accounting period. During the subsequent three months the contractor used the representative balance of $1,151,875, derived by averaging the beginning balance of $776,875 ($750,000 "regular" cost plus the $26,875 imputed cost from the prior period) and the balance at the end, $1,526,875. Applying the 7.75% cost of money rate to this balance for a three-month period resulted in a determination that $22,317 should be added to the construction-in-progress account in recognition of the cost of money while under construction in the second cost accounting period. The capitalized project was put into service at the recognized cost of acquisition of $1,549,192 which consists of the "regular" costs of $1,500,000 plus $26,875 and $22,317 imputed cost of money. This practice is in accordance with 30.417-50(a) and other applicable provisions of the Standard.

NOTE: If this contractor, acting in accordance with established Standards for financial accounting, allocated a portion of its paid interest expense to this construction project and the resultant acquisition cost for financial reporting purposes was not materially different from $1,549,192, the contractor could, in accordance with 30.417-50(a)(iii), use the same acquisition cost for contract costing purposes.

30.417-61 Interpretation. [Reserved]

30.417-62 Exemption. [Reserved]

30.417-63 Effective date. [Reserved]

30.418 Allocation of direct and indirect costs.

30.418-10 [Reserved]

30.418-20 Purpose.

The purpose of this Cost Accounting Standard is (a) to provide for consistent determination of direct and indirect costs, (b) to provide criteria for the accumulation of indirect costs, including service center and overhead costs, in indirect cost pools, and (c) to provide guidance relating to the selection of allocation measures based on the beneficial or causal relationship between an indirect cost pool and cost objectives. Consistent application of these criteria and guidance will improve classification of costs as direct and indirect and the allocation of indirect costs.

30.418-30 [Reserved]

30.418-40 Fundamental requirements.

(a) A business unit shall have a written statement of accounting policies and practices for classifying costs as direct or indirect which shall be consistently applied.

(b) Indirect costs shall be accumulated in indirect cost pools which are homogeneous.

(c) Pooled costs shall be allocated to cost objectives in reasonable proportion to the beneficial or causal relationship of the pooled costs to cost objectives as follows:

(1) If a material amount of the costs included in a cost pool are costs of management or supervision of activities involving direct labor or direct material costs, resource consumption cannot be specifically identified with cost objectives. In that circumstance, a base shall be used which is representative of the activity being managed or supervised.

(2) If the cost pool does not contain a material amount of the costs of management or supervision of activities involving direct labor or direct material costs, resource consumption can be specifically identified with cost objectives. The pooled cost shall be allocated based on the specific identifiability of resource consumption with cost objectives by means of one of the following allocation bases:

(i) A resource consumption measure, (ii) an output measure, or (iii) a surrogate that is representative of resources consumed. The base shall be selected in accordance with the criteria set out in 30.418-50(e).

(d) To the extent that any cost allocations are required by the provisions of other Cost Accounting Standards, such allocations are not subject to the provisions of this Standard.

(e) This Standard does not cover accounting for the costs of special facilities where such costs are accounted for in separate indirect cost pools.

30.418-50 Techniques for application.

(a) *Determination of direct cost and indirect cost.* (1) The business unit's written policy classifying costs as direct or indirect shall be in conformity with the requirements of this Standard.

(2) In accounting for direct costs a business unit shall use actual costs, except that—

(i) Standard costs for material and labor may be used as provided in 30.407; or

(ii) An average cost or pre-established rate for labor may be used provided that (A) the functions performed are not materially disparate and employees involved are interchangeable with respect to the functions performed, or (B) the functions performed are materially disparate but the employees involved either all work in a single production unit yielding homogeneous outputs, or perform their respective functions as an integral team.

Whenever average cost or pre-established rates for labor are used, the variances, if material, shall be disposed of at least annually by allocation to cost objectives in proportion to the costs previously allocated to these cost objectives.

(3) Labor or material costs identified specifically with one of the particular cost objectives listed in subparagraph (d)(3) of this subsection shall be accounted for as direct labor or direct material costs.

(b) *Homogeneous indirect cost pools.* (1) An indirect cost pool is homogeneous if each significant activity whose costs are included therein has the same or a similar beneficial or causal relationship to cost objectives as the other activities whose costs are included in the cost pool. It is also homogeneous if the allocation of the costs of the activities included in the cost pool result in an allocation to cost objectives which is not materially different from the allocation that would result if the costs of the activities were allocated separately.

(2) An indirect cost pool is not homogeneous if the costs of all significant activities in the cost pool do not have the same or a similar beneficial or causal relationship to cost objectives and, if the costs were allocated separately, the resulting allocation

would be materially different. The determination of materiality shall be made using the criteria provided in Subpart 30.3.

(3) A homogeneous indirect cost pool shall include all indirect costs identified with the activity to which the pool relates.

(c) *Change in Allocation Base.* No change in an existing indirect cost pool allocation base is required if the allocation resulting from the existing base does not differ materially from the allocation that results from the use of the base determined to be most appropriate in accordance with the criteria set forth in paragraphs (d) and (e) of this subsection. The determination of materiality shall be made using the criteria provided in Subpart 30.3.

(d) *Allocation measures for an indirect cost pool which includes a material amount of the costs of management or supervision of activities involving direct labor or direct material costs.* (1) The costs of the management or supervision of activities involving direct labor or direct material costs do not have a direct and definitive relationship to the benefiting cost objectives and cannot be allocated on measures of a specific beneficial or causal relationship. In that circumstance, the base selected to measure the allocation of the pooled costs to cost objectives shall be a base representative of the activity being managed or supervised.

(2) The base used to represent the activity being managed or supervised shall be determined by the application of the criteria below. All significant elements of the selected base shall be included.

(i) A direct labor hour base or direct labor cost base shall be used, whichever in the aggregate is more likely to vary in proportion to the costs included in the cost pool being allocated, except that

(ii) A machine-hour base is appropriate if the costs in the cost pool are comprised predominantly of facility-related costs, such as depreciation, maintenance, and utilities, or

(iii) A units-of-production base is appropriate if there is common production of comparable units, or

(iv) A material cost base is appropriate if the activity being managed or supervised is a material-related activity.

(3) Indirect cost pools which include material amounts of the costs of management or supervision of activities involving direct labor or direct material costs shall be allocated to—

(i) Final cost objectives;

(ii) Goods produced for stock or product inventory;

(iii) Independent research and development and bid and proposal projects;

(iv) Cost centers used to accumulate costs identified with a process cost system (i.e., process cost centers);

(v) Goods or services produced or acquired for other segments of the contractor and for other cost objectives of a business unit; and

(vi) Self-construction, fabrication, betterment, improvement, or installation of tangible capital assets.

(e) *Allocation measures for indirect cost pools that do not include material amounts of the costs of management or supervision of activities involving direct labor or direct material costs.* Homogeneous indirect cost pools of this type have a direct and definitive relationship between the activities in the pool and benefiting cost objectives. The pooled costs shall be allocated using an appropriate measure of resource consumption. This determination shall be made in accordance with the following criteria taking into consideration the individual circumstances:

(1) The best representation of the beneficial or causal relationship between an indirect cost pool and the benefiting cost objectives is a measure of resource consumption of the activities of the indirect cost pool.

(2) (i) If consumption measures are unavailable or impractical to ascertain, the next best representation of the beneficial or causal relationship for allocation is a measure of the output of the activities of the indirect cost pool. Thus, the output is substituted for a direct measure of the consumption of resources.

(ii) The use of the basic unit of output will not reflect the proportional consumption of resources in circumstances in which the level of resource consumption varies among the units of output produced. Where a material difference will result, either the output measure shall be modified or more than one output measure shall be used to reflect the resources consumed to perform the activity.

(3) If neither resources consumed nor output of the activities can be measured practically, a surrogate that varies in proportion to the services received shall be used to measure the resources consumed. Generally, such surrogates measure the activity of the cost objectives receiving the service.

(4) Allocation of indirect cost pools which benefit one another may be accomplished by use of (i) the cross-allocation (reciprocal) method, (ii) the sequential method, or (iii) another method the results of which approximate those achieved by either of the methods in subdivisions (e)(4)(i) or (e)(4)(ii) of this subsection.

(5) Where the activities represented by an indirect cost pool provide services to two or more cost objectives simultaneously, the cost of such services shall be prorated between or among the cost objectives in reasonable proportion to the beneficial or causal relationship between the services and the cost objectives.

(f) *Special allocation.* Where a particular cost objective in relation to other cost objectives receives significantly more or less benefit from an indirect cost pool than would be reflected by the allocation of such costs using a base determined pursuant to paragraphs (d) and (e) of this subsection, the Government and contractor may agree to a special allocation from that indirect cost pool to the particular cost objective commensurate with the benefits received. The amount of a special allocation to any such cost objective made pursuant to such an agreement shall be excluded from the indirect cost pool and the particular cost objective's allocation base data shall be excluded from the base used to allocate the pool.

(g) *Use of pre-established rates for indirect costs.* (1) Pre-established rates, based on either forecasted actual or standard cost, may be used in allocating an indirect cost pool.

(2) Pre-established rates shall reflect the costs and activities anticipated for the cost accounting period except as

provided in subparagra
subsection. Such pre-es
shall be reviewed at
and revised as necessar
anticipated conditions.

each final cost objective. This cost accounting treatment is in accordance with the provisions of 30.418-50(a)(2)(ii)(B).

(c) Business Unit C accumulates the costs relating to building ownership, maintenance, and utility into one indirect cost pool designated "Occupancy Costs" for allocation to cost objectives. Each of these activities has the same or a similar beneficial or causal relationship to the cost objectives occupying a space. Unit C's practice is in conformance with the provisions of 30.418-50(b)(1).

(d) Business Unit D includes the indirect costs of machining and assembling activities in a single manufacturing overhead pool. The machining activity does not have the same or similar beneficial or causal relationship to cost objectives as the assembling activity. Also, the allocation of the cost of the machining activity to cost objectives would be significantly different if allocated separately from the costs of the assembling activity. Unit D's single manufacturing overhead pool is not homogeneous in accordance with the provisions of 30.418-50(b), and separate pools must be established in accordance with 30.418-40(b).

(e) In accordance with 30.418-50(b)(3), Business Unit E includes all the cost of occupancy in an indirect cost pool. In selecting an allocation measure for this indirect cost pool, the contractor establishes that it is impractical to ascertain a measurement of the consumption of resources in relation to the use of facilities by individual cost objectives. An output base, the number of square feet of space provided to users, can be measured practically; however, the cost to provide facilities is significantly different for various types of facilities such as warehouse, factory, and office and each type of facility requires a different level of resource consumption to provide the same number of square feet of usable space. Allocation on a basic unit measure of square feet of, space occupied will not adequately reflect the proportional consumption of resources. Unit E establishes a weighted square foot measure for allocating occupancy costs, which reflects the different levels of resource consumption required to provide the different types of facilities. This practice is in conformance with provisions of 30.418-50(e)(2)(ii).

(f) Business Unit F has an indirect cost pool containing a significant amount of material-related costs. The contractor allocates these costs between his machining overhead cost pool and his assembly overhead cost pool. The business unit finds it impractical to use an allocation measure based on either consumption or output. The business unit selects a dollars of material-issued base which varies in proportion to the services rendered. The dollars of material-issued base is a surrogate base which conforms to the provisions of 30.418-50(e)(3).

(g) Business Unit G has a machining activity for which it develops a separate overhead rate, using direct labor cost as the allocation base. The machining activity occasionally does significant amounts of work for other activities of the business unit. The labor used in doing the work for other activities is of the same nature as that used for contract work. However, the machining labor for other activities is not included in the base used to allocate the overhead costs of the machining activity. This practice is not in conformance with 30.418-50(d)(2). Unit G must include the cost of labor doing work for the other activities in the allocation base for the machining activity indirect cost pool.

(h) Business Unit H accounts for the costs of company aircraft in a separate homogeneous indirect cost pool and allocates the cost to benefiting cost objectives using flight hours. Unit H prorates the cost of a single flight between benefiting cost objectives whenever simultaneous services have been rendered. Manager of Contract 2 learns of the trip and goes along with Manager of Contract 1. Unit H prorates the cost of the trip between Contract 1 and Contract 2. This practice is in conformance with the provision of 30.418-50(e)(5).

(i) During a cost accounting period, Business Unit I allocates the cost of its flight services indirect cost pool to other indirect cost pools and final cost objectives using a pre-established rate.

The pre-established rate is based on an estimate of the actual costs and activity for the cost accounting period. For the cost accounting period, Unit I establishes a rate of $200 per hour for use of the flight services activity. In March, the contractor's operating environment changes significantly; the contractor now expects a significant increase in the cost of this activity during the remainder of the year. Unit I estimates the rate for the entire cost accounting period to be $240 an hour. Pursuant to the provisions of 30.418-50(g)(4), the Business Unit may revise its rate to the expected $240 an hour. If the accumulated variances are significant, the business unit must also adjust the costs previously allocated to reflect the revised rates.

30.418-61 Interpretation. [Reserved]

30.418-62 Exemptions.

This standard shall not apply to contractors who are subject to the provisions of OMB Circular A-87 (Cost Principles for State and Local Governments.)

[52 FR 35622, as amended at 52 FR 36675, Sept. 30, 1987. Redesignated at 53 FR 27466, July 20, 1988]

30.418-63 Effective date. [Reserved]

30.420 Accounting for independent research and development costs and bid and proposal costs.

30.420-10 [Reserved]

30.420-20 Purpose.

The purpose of this Cost Accounting Standard is to provide criteria for the accumulation of independent research and development costs and bid and proposal costs, and for the allocation of such costs to cost objectives based on the beneficial or causal relationship between such costs and cost objectives. Consistent application of these criteria will improve cost allocation.

30.420-30 [Reserved]

30.420-40 Fundamental requirement.

(a) The basic unit for the identification and accumulation of Independent Research and Development (IR&D) and Bid and Proposal (B&P) costs shall be the individual IR&D or B&P project.

(b) IR&D and B&P project costs shall consist of all allocable costs, except business unit general and administrative expenses.

(c) IR&D and B&P cost pools consist of all IR&D and B&P project costs and other allocable costs, except business unit general and administrative expenses.

(d) The IR&D and B&P cost pools of a home office shall be allocated to segments on the basis of the beneficial or causal relationship between the IR&D and B&P costs and the segments reporting to that home office.

(e) The IR&D and B&P cost pools of a business unit shall be allocated to the final cost objectives of that business unit on the basis of the beneficial or causal relationship between the IR&D and B&P costs and the final cost objectives.

(f) (1) B&P costs incurred in a cost accounting period shall not be assigned to any other cost accounting period.

(2) IR&D costs incurred in a cost accounting period shall not be assigned to any other cost accounting period, except as may be permitted pursuant to provisions of existing laws, regulations, and other controlling factors.

30.420-50 Techniques for application.

(a) IR&D and B&P project costs shall include (1) costs, which if incurred in like circumstances for a final cost objective, would be treated as direct costs of that final cost objective, and (2) the overhead costs of productive activities and other indirect costs related to the project based on the contractor's cost accounting practice or applicable Cost Accounting Standards for allocation of indirect costs.

(b) IR&D and B&P cost pools for a segment consist of the project costs plus allocable home office IR&D and B&P costs.

(c) When the costs of individual IR&D or B&P efforts are not material in amount, these costs may be accumulated in one or more project(s) within each of these two types of effort.

(d) The costs of any work performed by one segment for another segment shall not be treated as IR&D costs or B&P costs of the performing segment unless the work is a part of an IR&D or B&P project of the performing segment. If such work is part of a performing segment's IR&D or B&P project, the project will be transferred to the home office to be allocated in accordance with paragraph (e) of this subsection.

(e) The costs of IR&D and B&P projects accumulated at a home office shall be allocated to its segments as follows:

(1) Projects which can be identified with a specific segment(s) shall have their costs allocated to such segment(s).

(2) The costs of all other IR&D and B&P projects shall be allocated among all segments by means of the same base used by the company to allocate its residual expenses in accordance with 30.403; provided, however, where a particular segment receives significantly more or less benefit from the IR&D or B&P costs than would be reflected by the allocation of such costs to the segment by that base, the Government and the contractor may agree to a special allocation of the IR&D or B&P costs to such segment commensurate with the benefits received. The amount of a special allocation to any segment made pursuant to such an agreement shall be excluded from the IR&D and B&P cost pools to be allocated to other segments and the base data of any such segment shall be excluded from the base used to allocate these pools.

(f) The costs of IR&D and B&P projects accumulated at a business unit shall be allocated to cost objectives as follows:

(1) Where costs of any IR&D or B&P project benefit more than one segment of the organization, the amounts to be allocated to each segment shall be determined in accordance with paragraph (e) of this subsection.

(2) IR&D and B&P cost pools which are not allocated under subparagraph (f)(1) of this subsection, shall be allocated to all final cost objectives of the business unit by means of the same base used by the business unit to allocate its general and administrative expenses in accordance with 30.410-50; provided, however, where a particular final cost objective receives significantly more or less benefit from IR&D or B&P costs than would be reflected by the allocation of such costs the Government and the contractor may agree to a special allocation of the IR&D or B&P costs to such final cost objective commensurate with the benefits received. The amount of special allocation to any such final cost objective made pursuant to such an agreement shall be excluded from the IR&D and B&P cost pools to be allocated to other final cost objectives and the particular final cost objective's base data shall be excluded from the base used to allocate these pools.

(g) Notwithstanding the provisions of paragraphs (d), (e) or (f) of this subsection, the costs of IR&D and B&P projects allocable to a home office pursuant to 30.420-50(d) may be allocated directly to the receiving segments, provided that such allocation not be substantially different from the allocation that would be made if they were first passed through home office accounts.

30.420-60 Illustrations.

(a) Business Unit A's engineering department in accordance with its established accounting practice, charges administrative effort including typing to its overhead cost pool. In submitting a proposal, the engineering department assigns several typists to the proposal project on a full time basis and charges the typists' time directly to the proposal project, rather than to its overhead pool. Because the engineering department under its established accounting practice does not charge the cost of typing directly to final cost objectives, the direct charge does not meet with the requirements of 30.420-50(a).

(b) Company B has five segments. The company undertakes an IR&D project which is part of the IR&D plans of segments X, Y, and Z, and will be of general benefit to all five segments. The company designates Segment Z as the project leader in performing the project. In accumulating the costs, each segment allocates overhead to its part of the project but does not allocate segment G&A. The IR&D costs are then allocated to the home office by each segment. The costs are combined with other IR&D costs that benefit the company as a whole. The costs are allocated to all five segements by means of the same base by which the company allocates its residual home office expense costs to all segments. This practice meets the requirements of 30.420-40(b), 30.420-50(e)(2), and 30.420-50(f)(1).

(c) Business Unit C normally accounts for its B&P effort by individual project. It accumulates directly allocated costs and departmental overhead costs by project. The business unit also submits large numbers of bids and proposals whose individual costs of preparation are not material in amount. The business unit collects the cost of these efforts under a single project. Since the cost of preparing each individual bid and proposal is not material, the practice of accumulating these costs in a single project meets the requirements of 30.420-50(c).

(d) Segment D requests that Segment Y provide support for a Segment D IR&D project. The work being performed by Y is similar in nature to Y's normal product and is not part of its annual IR&D plan. Segment Y allocates to the project all costs it allocates to other final cost objectives, including G&A expense. Segment Y then directly transfers the cost of the project to Segment D in accordance with its normal intersegment transfer procedure. This accounting treatment meets the requirements of 30.420-50(d) and 30.410.

(e) Contractor E has six operating segments and a research segment. The research segment performs work under (1) research and development contracts, (2) projects which are not part of its own IR&D plan but are specifically in support of other segments' IR&D projects, and (3) IR&D projects for the benefit of the company as a whole.

(i) The research segment directly allocates the cost of the projects in support of another segment's IR&D projects, including an allocation of its general and administrative expenses, to the receiving segment. This practice meets the requirements of 30.420-50(d).

(ii) The costs of the IR&D projects which benefit the company as a whole exclude any allocation of the research segment's general and administrative expenses and are transferred to the home office. The home office allocates these costs on the same base it uses to allocate its residual expenses to all seven segments. This practice meets the requirements of 30.420-50(e)(2) and (f)(1).

(f) Company F accumulates at the home office the costs of IR&D and B&P projects which generally benefit all segments of the company except Segment X. The company and the contracting officer agree that the nature of the business activity of Segment X is such that the home office IR&D and B&P effort is neither caused by nor provides any benefit to that segment. For the purpose of allocating its home office residual expenses, the company uses a base as provided in 30.403. For the purpose of allocating the home office IR&D and B&P costs, the company removes the data of Segment X from the base used for the allocation of its residual expenses. This practice meets the requirements of 30.420-50(e)(2).

(g) Company G has 10 segments. Segment X performs IR&D projects, the results of which benefit it and two other segments but none of the other seven segments. The cost of those projects performed by Segment X are transferred to the home office and allocated to the three segments on the basis of the benefits received by the three segments. This practice meets the requirements of 30.420-50(e)(1) and 30.420-50(f)(1).

30.420-61 Interpretation. [Reserved]

30.420-62 Exemptions.

This Standard shall not apply to contractors who are subject to the provisions of OMB Circular A-87 (Cost Principles for State and Local Government).

[52 FR 35622, as amended at 52 FR 36675, Sept. 30, 1987. Redesignated at 53 FR 27466, July 20, 1988]

30.420-63 Effective date. [Reserved]

Subpart 30.5—[Reserved]

Subpart 30.6—CAS Administration

30.601 Responsibility.

(a) The cognizant ACO shall perform CAS administration for all contracts in a business unit notwithstanding retention of other administration functions by the contracting officer.

(b) Within 30 days of the award of any new contract or subcontract subject to CAS, the contracting officer, contractor, or subcontractor making the award shall request the cognizant ACO to perform administration for CAS matters (see subpart 42.2).

30.602 Changes to disclosed or established cost accounting practices.

Adjustments to contracts for CAS noncompliance, new standards, or voluntary changes are required only if the amounts involved are material. The ACO has the right to forego action to adjust contracts if the amount involved is not considered material; however, in the case of noncompliance issues, the ACO shall inform the contractor that (a) the Government reserves the right to make appropriate contract adjustments if, in the future, the ACO determines that the cost impact has become material and (b) the contractor is not excused from the obligation to comply with the applicable Standard or rules and regulations involved. In determining materiality, the ACO shall use the criteria in 30.305.

30.602-1 Equitable adjustment for new or modified standards.

(a) The clause at 52.230-1, Cost Accounting Standards Notices and Certification (National Defense), requires offerors to state whether or not the award of the contemplated contract would require a change to established cost accounting practices affecting existing contracts and subcontracts. The contracting officer shall ensure that the contractor's response to the notice is made known to the cognizant ACO.

(b) Contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, may require equitable adjustments to comply with new or modified CAS. Such adjustments are limited to contracts and subcontracts awarded before the effective date of each new or modified standard. A new or modified standard becomes applicable prospectively to these contracts and subcontracts when a new national defense contract or subcontract containing the clause at 52.230-3, Cost Accounting Standards, is awarded on or after the effective date of the new standard.

(c) Contracting officers shall encourage contractors to submit to the cognizant ACO any change in accounting practice in anticipation of complying with a new or modified standard as soon as practical after the new or modified standard has been incorporated into the FAR.

(d) Upon receipt of information from the contractor indicating that an accounting change is required to comply with a new or modified standard, the cognizant ACO shall review the proposed change concurrently for adequacy and compliance. If the review indicates that the change is both adequate and in compliance (see 30.202-7), the contractor shall be notified and requested to submit a cost impact proposal in sufficient detail to determine the impact on each CAS-covered contract and subcontract. The proposal shall identify each additional standard and all contracts and subcontracts containing the CAS clause and having an award date before the effective date of that standard. The proposal shall be in sufficient detail to permit evaluation, determination, and negotiation of the cost impact upon each affected contract and subcontract containing the clause at 52.230-3, Cost Accounting Standards, and shall be in the form and manner specified by the cognizant contracting officer.

(e) The cognizant ACO shall promptly analyze the proposal with the assistance of the auditor, determine the impact, and negotiate the contract price adjustments on behalf of all Government agencies. The ACO shall invite contracting officers to participate in negotiations of adjustments when the price of any of their contracts may be increased or decreased by $10,000 or more. At the conclusion of negotiations, the ACO shall—

(1) Execute supplemental agreements to contracts of the ACO's own agency (and, if additional funds are required, request them from the appropriate contracting officer);

(2) Prepare a negotiation memorandum and send copies to cognizant auditors and contracting officers of other agencies having prime contracts affected by the negotiation (those agencies shall execute supplemental agreements in the amounts negotiated); and

(3) Furnish copies of the memorandum indicating the effect on costs to the ACO of the next higher tier subcontractor or prime contractor, as appropriate, if a subcontract is to be adjusted. This memorandum shall be the basis for negotiation between the subcontractor and the next higher tier subcontractor or prime contractor and for execution of a supplemental agreement to the subcontract.

(f) If the contractor does not submit a proposal in the form and time specified (see paragraph (b) of the clause at 52.230-4, Administration of Cost Accounting Standards, or if the parties fail to agree concerning the cost impact, the cognizant ACO, with the assistance of the auditor, shall estimate the cost impact on contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards. The ACO shall request the contractor to agree to the cost or price adjustment. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate withholding provisions, until the proposal has been furnished by the contractor. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to protect the Government's interests under subpart 32.6.

30.602-2 Noncompliance with CAS requirements.

(a) Within 15 days of the receipt of a report of alleged noncompliance from the auditor, the cognizant ACO shall make an initial finding of compliance or noncompliance and advise the auditor.

(b) If an initial finding of noncompliance is made, the ACO shall immediately notify the contractor in writing of the exact nature of the noncompliance and allow 30 days within which to agree or to submit reasons why the existing practices are considered to be in compliance.

(c) If the contractor agrees with the initial finding of noncompliance—

(1) The contractor shall be required to correct the noncompliance and submit a complete description of any accounting change and the general dollar magnitude of the change of all CAS-covered contracts and subcontracts;

(2) The cognizant ACO shall review the accounting change for adequacy and compliance concurrently (if the change is both adequate and in compliance, the ACO shall notify the contractor and request a cost impact proposal);

(3) The cost impact proposal must identify all contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, or the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices, and shall be in sufficient detail to permit evaluation and negotiation of the cost impact of each separate CAS-covered contract and subcontract from the date of failure to comply until the noncompliance is corrected; and

(4) The ACO shall then follow the procedures in 30.602-1(e).

(d) If the contractor disagrees with the initial noncompliance finding, the cognizant ACO shall review the reasons why the contractor considers the existing practices to be in compliance and make a determination of compliance or noncompliance.

(1) If the ACO makes a determination of compliance, the ACO shall

notify the contractor and send a copy to the auditor.

(2) If the ACO makes a determination of noncompliance, or if the contractor fails to furnish the cost impact proposal, the ACO, with the assistance of the auditor, shall determine the cost impact of the noncompliance on contracts and subcontracts containing CAS clauses. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate provisions, until the proposal has been furnished by the contractor.

(3) If the ACO determines that the noncompliance results in material increased costs to the Government, the ACO shall notify the contractor and request agreement as to the cost or price adjustment, together with any applicable interest. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to protect the Government's interests under subpart 32.6.

(4) If the ACO estimate indicates there is no material increase in costs as a result of the noncompliance and the contractor refuses to take corrective action, the ACO shall notify the contractor in writing that the contractor is in noncompliance, that corrective action should be taken, and that if such noncompliance subsequently results in materially increased costs to the Government, the provisions of the clause at 52.230-3, Cost Accounting Standards, and/or the clause at 52.230-5, Disclosure and Consistency of Cost Accounting Practices, will be enforced.

30.602-3 Voluntary changes.

(a) The contract price may be adjusted for voluntary changes to a contractor's Disclosure Statement or cost accounting practices. The contractor must first notify the cognizant ACO by submission, not less than 60 days (or such other date as may be mutually agreed to) before proposed implementation, of a description of the accounting change and the general dollar magnitude of the change (including the sum of all increases and the sum of all decreases) for all CAS-covered contracts and subcontracts.

(b) The cognizant ACO shall review the accounting change concurrently for adequacy and compliance (see 30.202-7). If the change meets both tests, the ACO shall so notify the contractor and request that the contractor submit a cost impact proposal identifying all contracts and subcontracts containing the clause at 52.230-3, Cost Accounting Standards, and the clause at 52.230-2, Disclosure and Consistency of Cost Accounting Practices. The cost impact proposal shall be in sufficient detail to allow evaluation and negotiation of the cost impact upon each affected CAS-covered contract and subcontract.

(c) With the assistance of the auditor, the ACO shall promptly analyze the cost impact proposal to determine whether or not the proposed change will result in increased costs being paid by the Government. The ACO shall consider all of the contractor's affected CAS-covered contracts and subcontracts, but any cost changes to higher-tier subcontracts or contracts of other contractors over and above the cost of the subcontract adjustment shall not be considered. Increased costs resulting from a voluntary change may be allowed only if the ACO determines that the change is desirable and not detrimental to the Government. The ACO shall then follow the procedures in 30.602-1(e).

(d) If the contractor fails to submit a cost impact proposal in the form and time specified or if the parties fail to agree concerning the cost impact, the cognizant ACO, with the assistance of the auditor, shall estimate the cost impact on contracts and subcontracts containing a CAS clause and shall then request the contractor to agree to the cost or price adjustment. The ACO may withhold an amount not to exceed 10 percent of each subsequent payment request related to the contractor's CAS-covered prime contracts, which contain the appropriate withholding provisions, until the proposal has been furnished by the contractor. The contractor shall also be advised that, in the event no agreement on the cost or price adjustment is reached within 20 days, action may be taken in accordance with the clause at 52.233-1, Disputes. If the ACO issues a unilateral determination under the Disputes clause, the ACO shall consider appropriate action to protect the Government's interests under subpart 32.6.

30.603 Subcontract administration.

When a negotiated CAS price adjustment or a determination of noncompliance is required at the subcontract level, the ACO cognizant of the subcontractor shall make the determination and advise the ACO cognizant of the prime contractor or next higher tier subcontractor of his decision. ACO's cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

APPENDIX A TO PART 30—PREAMBLES TO THE COST ACCOUNTING STANDARDS

PART I—PREAMBLES TO THE COST ACCOUNTING STANDARDS PUBLISHED BY THE COST ACCOUNTING STANDARDS BOARD

NOTE: Preambles to the Cost Accounting Standards published by the Cost Accounting Standards Board appear in Title 4 of the Code of Federal Regulations and are republished in the looseleaf edition of the FAR.

PART II—PREAMBLES TO THE RELATED RULES AND REGULATIONS PUBLISHED BY THE COST ACCOUNTING STANDARDS BOARD

NOTE: Preambles to the Related Rules and Regulations published by the Cost Accounting Standards Board appear in Title 4 of the Code of Federal Regulations and are republished in the looseleaf edition of the FAR.

PART III—PREAMBLES PUBLISHED UNDER THE FAR SYSTEM

Preamble A to 30.404, Capitalization of Tangible Assets

This final rule, in Federal Acquisition Circular (FAC) 84-38, revises 30.404-40(b)(1), 30.404-60(a)(1), and 30.404-60(a)(1)(i).

Summary

Section 30.404 requires that contractors have written policies for capitalization which must include a minimum acquisition cost criterion of $1000. The Standard is being amended to raise the threshold to $1500. The purpose of the change is to permit contractors to adopt practices appropriated in today's economy. *Effective date.* The effective date of this modification is September 19, 1988.

Supplementary Information:

Background

The CAS Board established the minimum acquisition cost criterion for capitalization at $500 when it originally promulgated CAS 404 in 1973. The Board's initial $500 limitation encompassed the practices of 97 percent of the companies whose Disclosure Statements were filed with the Board. In the promulgation comments to the Standard, the Board recommended that the special limits in the standard ". . . may need to be reviewed in the future . . . (and will be revised) promptly if developments warrant a change."

On March 3, 1980, the Board *did* revise the limitation upward to $1000 as it recognized that circumstances had changed significantly since the promulgation of Standard 404. The Board found that the performance of several official indices showed increases from 60 to 80 percent and a survey of companies not influenced by the limitation of Standard 404 showed a significant number using $1000 as the minimum criterion for capitalization.

The impact of inflation has continued over the 7 years since 1980, although at a lower level. Indices from the Commerce Department for the implicit price deflators on nonresidential structures and machinery and equipment showed increases from 30 to 35 percent over the period 1979 through 1985. When applied to the current $1000 criterion, this yields values from $1300 to $1350. In addition, economic projections showed inflation levels rising slightly from 1986 through 1989. Consequently, this change increases the minimum acquisition cost criterion for capitalization of tangible capital assets to $1500 to cover both actual and projected price increases.

The amendment which is now being promulgated is derived directly from the proposed rule which was published in the FEDERAL REGISTER on July 9, 1986 (51 FR 24971), with an invitation for interested parties to submit comments.

Four letters of comment were received on the July 9, 1986, proposal. Only one letter directly addressed the appropriateness of the proposed revisions to 30.404. That comment stated that inflation should not be the motivating factor in determining significant costs for capitalization, but rather materiality of the cost should be the factor in determining significance.

The CAS Board's comments in the CAS 404 preamble and its action to increase the capitalization threshold based upon inflation, discussed above, indicate that the Board considered the materiality and significance of asset acquisition cost to be directly related to the level of prices in the economy. The Defense Acquisition Regulatory Council and the Civilian Agency Acquisition Council agree with the CAS Board's outlook on this matter and expect the increase in capitalization threshold provided in this modification to 30.404 will be beneficial to Government contract costing by not requiring capitalization of assets that are of insignificant value.

Preamble A to 30.416, Accounting for Insurance Costs

This final rule, in Federal Acquisition Circular (FAC) 84-38, revises 30.416-50(a)(3)(ii).

Summary

FAR 30.416-50(a)(3)(ii) revisions delete the requirement to use state rates in discounting certain self-insured losses to present value.

Effective date: The effective date of this modification is September 19, 1988.

This modification shall be followed by each contractor on or after the start of its next cost accounting period, beginning after receipt of a contract to which this modification is applicable.

Supplementary Information

Background

Section 30.416 provides that the amount of insurance cost to be assigned to a cost accounting period is the projected average loss (PAL) for that period plus insurance administration expense in that period. The PAL is either the insurance premium, where the risk of loss is covered by the purchase of insurance, or a self-insurance charge, where the exposure to risk is not covered by the purchase of insurance. Where it is probable that the actual amount of losses will not differ significantly from the PAL, the actual amount of losses may be considered to represent the PAL for the period as the self-insurance charge.

In self-insurance, when the actual amount of losses is being used to represent the PAL, contractors are to discount those losses to present value, where payments to the claimant will not take place for over a year after the loss occurs. If a state provides a discount rate for computing lump-sum settlements, 30.416 requires that the state rate be used for computing present value. Otherwise, the Pub. L. 92-41 Treasury rate is to be used. The differing rates specified by the states, and the lack of specified rates in some states, result in inconsistent treatment of self-insurance charges on defense contracts.

The purpose of requiring a present value computation for contract cost accounting purposes is to recognize the time value of money for funds advanced to and used by the contractor for extended periods before being disbursed. The Pub. L. 92-41 Treasury rate is generally specified for this purpose. The majority of state laws covering worker's compensation insurance specify a discount rate in the range of 3-6 percent. The use of a low rate results in a larger settlement than would use of a current money market rate. The purpose of low state rates is to discourage lump-sum settlements. This purpose is unrelated to that of fair valuation for contract cost accounting purposes. The use of state rates may produce inaccurate measures of present values and will most certainly create inconsistencies in the pricing of contracts due to the lack of consistent determinations of present values. Consequently, the proposed rule, published in the FEDERAL REGISTER on July 8, 1986 (51 FR 24788), deleted the reference to state discount rates at 30.416-50(a)(3)(ii) and required use of the Pub. L. 92-41 Treasury rate in all cases.

Four comments were received in response to the proposed rule. None of the comments directly challenged the appropriateness of the proposed revision. Therefore, no changes were made to the proposed rule as a result of the public comments.

SOURCE: 48 FR 42301, Sept. 19, 1983, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes for part 31 appear at 52 FR 35669, Sept. 22, 1987.

31.000 Scope of part.

This part contains cost principles and procedures for (a) the pricing of contracts, subcontracts, and modifications to contracts and subcontracts whenever cost analysis is performed (see 15.805-3) and (b) the determination, negotiation, or allowance of costs when required by a contract clause.

31.001 Definitions.

Accrued benefit cost method means an actuarial cost method under which units of benefit are assigned to each cost accounting period and are valued as they accrue; i.e., based on the services performed by each employee in the period involved. The measure of normal cost under this method for each cost accounting period is the present value of the units of benefit deemed to be credited to employees for service in that period. The measure of the actuarial liability at a plan's inception date is the present value of the units of benefit credited to employees for service prior to that date. (This method is also known as the unit credit cost method.)

Accumulating costs means collecting cost data in an organized manner, such as through a system of accounts.

Actual cash value means the cost of replacing damaged property with other property of like kind and quality in the physical condition of the property immediately before the damage.

Actual costs, as used in this part (other than subpart 31.6), means amounts determined on the basis of costs incurred, as distinguished from forecasted costs. Actual costs include standard costs properly adjusted for applicable variances.

Actuarial assumption means a prediction of future conditions affecting pension costs; e.g., mortality rate, employee turnover, compensation levels, pension fund earnings, and changes in values of pension funds assets.

Actuarial cost method means a technique which uses actuarial assumptions to measure the present value of future pension benefits and pension fund administrative expenses, and which assigns the cost of such benefits and expenses to cost accounting periods.

Actuarial gain and loss means the effect on pension cost resulting from differences between actuarial assumptions and actual experience.

Actuarial liability means pension cost attributable, under the actuarial cost method in use, to years before the date of a particular actuarial valuation. As of such date, the actuarial liability represents the excess of the present value of the future benefits and administrative expenses over the present value of future contributions for the normal cost for all plan participants and beneficiaries. The excess of the actuarial liability over the value of the assets of a pension plan is the unfunded actuarial liability.

Actuarial valuation means the determination, as of a specified date, of the normal cost, actuarial liability, value of the assets of a pension fund, and other relevant values for the pension plan.

Allocate means to assign an item of cost, or a group of items of cost, to one or more cost objectives. This term includes both direct assignment of cost and the reassignment of a share from an indirect cost pool.

Automatic data processing equipment (ADPE), as used in this part means:

(a) Digital and analog computer components and systems, irrespective of type of use, size, capacity, or price;

(b) All peripheral, auxiliary, and accessorial equipment used in support of digital and/or analog computers, either cable connected, or *self standing,* and whether selected or acquired with the computers or separately;

(c) Punched card machines (PCM) and systems used in conjunction with or independently of digital or analog computers; and

(d) Digital and analog terminal and conversion equipment that is acquired solely or primarily for use with a system which employs a computer or punched card machines.

Business unit means any segment of an organization, or an entire business organization which is not divided into segments.

Compensated personal absence means any absence from work for reasons such as illness, vacation, holidays, jury duty, military training, or personal activities for which an employer pays compensation directly to an employee in accordance with a plan or custom of the employer.

Cost input means the cost, except general and administrative (G&A) expenses, which for contract costing purposes is allocable to the production of goods and services during a cost accounting period.

Cost objective, as used in this part (other than subpart 31.6), means a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

Cost of capital committed to facilities means an imputed cost determined by applying a cost of money rate to facilities capital.

Deferred compensation means an award made by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of the receipt of compensation by the employee. This definition shall not include the amount of year end accruals for salaries, wages, or bonuses that are to be paid within a reasonable period of time after the end of a cost accounting period.

Defined-benefit pension plan means a pension plan in which the benefits to be paid, or the basis for determining such benefits, are established in advance and the contributions are intended to provide the stated benefits.

Defined-contribution pension plan means a pension plan in which the contributions to be made are established in advance and the benefits are determined thereby.

Directly associated cost means any cost which is generated solely as a result of the incurrence of another cost, and which would not have been incurred had the other cost not been incurred.

Estimating costs means the process of forecasting a future result in terms of cost, based upon information available at the time.

Expressly unallowable cost means a particular item or type of cost which, under the express provisions of an applicable law, regulation, or contract, is specifically named and stated to be unallowable.

Facilities capital means the net book value of tangible capital assets and of those intangible capital assets that are subject to amortization.

Final cost objective, as used in this part (other than subparts 31.3 and 31.6), means a cost objective that has allocated to it both direct and indirect costs and, in the contractor's accumulation system, is one of the final accumulation points.

Fiscal year, as used in this part, means the accounting period for which annual financial statements are regularly prepared, generally a period of 12 months, 52 weeks, or 53 weeks.

Funded pension cost, as used in this part, means the portion of pension costs for a current or prior cost accounting period that has been paid to a funding agency.

General and administrative (G&A) expense means any management, financial, and other expense which is incurred by or allocated to a business unit and which is for the general management and administration of the business unit as a whole. G&A expense does not include those management expenses whose beneficial or causal relationship to cost objectives can be more directly measured by a base other than a cost input base representing the total activity of a business unit during a cost accounting period.

Home office means an office responsible for directing or managing two or more, but not necessarily all, segments of an organization. It typically establishes policy for, and provides guidance to, the segments in their operations. It usually performs management, supervisory, or administrative functions, and may also perform service functions in support of the operations of the various segments. An organization which has intermediate levels, such as groups, may have several home offices which report to a common home office. An intermediate organization may be both a segment and a home office.

Immediate-gain actuarial cost method means any of the several actuarial cost methods under which actuarial gains and losses are included as part of the unfunded actuarial liability of the pension plan, rather than as part of the normal cost of the plan.

Independent research and development (IR&D) cost means the cost of effort which is neither sponsored by a grant, nor required in performing a contract, and which falls within any of the following four areas: (a) basic research, (b) applied research, (c) development, and (d) systems and other concept formulation studies.

Indirect cost pools, as used in this part (other than subparts 31.3 and 31.6), means groupings of incurred costs identified with two or more cost objectives but not identified specifically with any final cost objective.

Insurance administration expenses means the contractor's costs of administering an insurance program; e.g., the costs of operating an insurance or risk-management department, processing claims, actuarial fees, and service fees paid to insurance companies, trustees, or technical consultants.

Intangible capital asset means an asset that has no physical substance, has more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the benefits it yields.

Labor cost at standard means a preestablished measure of the labor element of cost, computed by multiplying labor-rate standard by labor-time standard.

Labor-rate standard means a preestablished measure, expressed in monetary terms, of the price of labor.

Labor-time standard means a preestablished measure, expressed in temporal terms, of the quantity of labor.

Material cost at standard means a preestablished measure of the materil elements of cost, computed by muliplying material-price standard by material-quantity standard.

Material-price standard means a preestablished measure, expressed in monetary terms, of the price of mateial.

Material-quantity standard means a reestablished measure, expressed in hysical terms, of the quantity of maerial.

Moving average cost means an invenory costing method under which an verage unit cost is computed after ach acquisition by adding the cost of he newly acquired units to the cost of he units of inventory on hand and diiding this figure by the new total umber of units.

Normal cost means the annual cost attributable, under the actuarial cost method in use, to years subsequent to a particular valuation date.

Original complement of low cost equipment means a group of items acquired for the initial outfitting of a tangible capital asset or an operational unit, or a new addition to either. The items in the group individually cost less than the minimum amount established by the contractor for capitalization for the classes of assets acquired but in the aggregate they represent a material investment. The group, as a complement, is expected to be held for continued service beyond the current period. Initial outfitting of the unit is completed when the unit is ready and available for normal operations.

Pay-as-you-go cost method means a method of recognizing pension cost only when benefits are paid to retired employees or their beneficiaries.

Pension plan means a deferred compensation plan established and maintained by one or more employers to provide systematically for the payment of benefits to plan participants after their retirements; *provided,* that the benefits are paid for life or are payable for life at the option of the employees. Additional benefits such as permanent and total disability and death payments, and survivorship payments to beneficiaries of deceased employees may be an integral part of a pension plan.

Pension plan participant means any employee or former employee of an employer or any member or former member of an employee organization, who is or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan's participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer's pension plan.

Pricing means the process of establishing a reasonable amount or amounts to be paid for supplies or services.

Profit center, as used in this part (other than subparts 31.3 and 31.6), means the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

Projected average loss means the estimated long-term average loss per period for periods of comparable exposure to risk of loss.

Projected benefit cost method means any of the several actuarial cost methods which distribute the estimated total cost of all the employees' prospective benefits over a period of years, usually their working careers.

Proposal means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

Residual value means the proceeds, less removal and disposal costs, if any, realized upon disposition of a tangible capital asset. It usually is measured by the net proceeds from the sale or other disposition of the asset, or its fair value if the asset is traded in on another asset. The estimated residual value is a current forecast of the residual value.

Segment means one of two or more divisons, product departments, plants, or other subdivisions of an organization reporting directly to a home office, usually identified with responsibility for profit and/or producing a product or service. The term includes Government-owned contractor-operated (GOCO) facilities, and joint ventures and subsidiaries (domestic and foreign) in which the organization has a majority ownership. The term also includes those joint ventures and subsidiaries (domestic and foreign) in which the organization has less than a majority of ownership, but over which it exercises control.

Self-insurance means the assumption or retention of the risk of loss by the contractor, whether voluntarily or involuntarily. Self-insurance includes the deductible portion of purchased insurance.

Self-insurance charge means a cost which represents the projected average loss under a self-insurance plan.

Service life means the period of usefulness of a tangible capital asset (or
group of assets) to its current own
The period may be expressed in uni
of time or output. The estimated ser
ice life of a tangible capital asset (
group of assets) is a current foreca
of its service life and is the period ov
which depreciation cost is to be a
signed.

Spread-gain actuarial cost metho
means any of the several project
benefit actuarial cost methods und
which actuarial gains and losses are i
cluded as part of the current an
future normal costs of the pensio
plan.

Standard cost means any cost com
puted with the use of preestablishe
measures.

Tangible capital asset means a
asset that has physical substanc
more than minimal value, and is ex
pected to be held by an enterprise fo
continued use or possession beyon
the current accounting period for th
services it yields.

Termination gain or loss means a
actuarial gain or loss resulting fro
the difference between the assume
and actual rates at which pension pla
participants separate from employ
ment for reasons other than retire
ment, disability, or death.

Unallowable cost means any co
which, under the provisions of an
pertinent law, regulation, or contrac
cannot be included in prices, cost-rei
bursements, or settlements under
Government contract to which it is a
locable.

Unfunded pension plan as used i
this part, means a defined benefit pe
sion plan for which no funding agen
is established for the accumulation
contributions.

Variance means the difference b
tween a preestablished measure an
an actual measure.

Weighted average cost means an i
ventory costing method under whic
an average unit cost is computed per
odically by dividing the sum of th
cost of beginning inventory plus th
cost of acquisitions by the tot
number of units included in these tw
categories.

[48 FR 42301, Sept. 17, 1983, as amended
54 FR 13024, Mar. 29, 1989]

Subpart 31.1—Applicability

31.100 Scope of subpart.

This subpart describes the applicability of the cost principles and procedures in succeeding subparts of this part to various types of contracts and subcontracts. It also describes the need for advance agreements.

31.101 Objectives.

In recognition of differing organizational characteristics, the cost principles and procedures in the succeeding subparts are grouped basically by organizational type; e.g., commercial concerns and educational institutions. The overall objective is to provide that, to the extent practicable, all organizations of similar types doing similar work will follow the same cost principles and procedures. To achieve this uniformity, individual deviations concerning cost principles require advance approval of the agency head or designee in the case of civilian agencies and the National Aeronautics and Space Administration, and by the DAR Council in the case of the Department of Defense. Agency supplements and class deviations require advance approval by either the DAR Council or Civilian Agency Acquisition Council, as appropriate.

31.102 Fixed-price contracts.

The applicable subparts of part 31 shall be used in the pricing of fixed-price contracts, subcontracts, and modifications to contracts and subcontracts whenever (a) cost analysis is performed, or (b) a fixed-price contract clause requires the determination or negotiation of costs. However, application of cost principles to fixed-price contracts and subcontracts shall not be construed as a requirement to negotiate agreements on individual elements of cost in arriving at agreement on the total price. The final price accepted by the parties reflects agreement only on the total price. Further, notwithstanding the mandatory use of cost principles, the objective will continue to be to negotiate prices that are fair and reasonable, cost and other factors considered.

31.103 Contracts with commercial organizations.

This category includes all contracts and contract modifications for supplies, services, or experimental, developmental, or research work negotiated with organizations other than educational institutions (see 31.104), construction and architect-engineer contracts (see 31.105), State and local governments (see 31.107) and nonprofit organizations (see 31.108) on the basis of cost.

(a) The cost principles and procedures in subpart 31.2 and agency supplements shall be used in pricing negotiated supply, service, experimental, developmental, and research contracts and contract modifications with commercial organizations whenever cost analysis is performed as required by 15.805-3.

(b) In addition, the contracting officer shall incorporate the cost principles and procedures in subpart 31.2 and agency supplements by reference in contracts with commercial organizations as the basis for—

(1) Determining reimbursable costs under (i) cost-reimbursement contracts and cost-reimbursement subcontracts under these contracts performed by commercial organizations and (ii) the cost-reimbursement portion of time-and-materials contracts except when material is priced on a basis other than at cost (see 16.601(b)(3));

(2) Negotiating indirect cost rates (see subpart 42.7);

(3) Proposing, negotiating, or determining costs under terminated contracts (see 49.103 and 49.113);

(4) Price revision of fixed-price incentive contracts (see 16.204 and 16.403);

(5) Price redetermination of price redetermination contracts (see 16.205 and 16.206); and

(6) Pricing changes and other contract modifications.

31.104 Contracts with educational institutions.

This category includes all contracts and contract modifications for research and development, training, and other work performed by educational institutions.

(a) The contracting officer shall incorporate the cost principles and procedures in subpart 31.3 by reference in cost-reimbursement contracts with educational institutions as the basis for—

(1) Determining reimbursable costs under the contracts and cost-reimbursement subcontracts thereunder performed by educational institutions;

(2) Negotiating indirect cost rates; and

(3) Settling costs of cost-reimbursement terminated contracts (see subpart 49.3 and 49.109-7).

(b) The cost principles in this subpart are to be used as a guide in evaluating costs in connection with negotiating fixed-price contracts and termination settlements.

31.105 Construction and architect-engineer contracts.

(a) This category includes all contracts and contract modifications negotiated on the basis of cost with organizations other than educational institutions (see 31.104), State and local governments (see 31.107), and nonprofit organizations except those exempted under OMB Circular A-122 (see 31-108) for construction management or construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It also includes architect-engineer contracts related to construction projects. It does not include contracts for vessels, aircraft, or other kinds of personal property.

(b) Except as otherwise provided in (d) below, the cost principles and procedures in subpart 31.2 shall be used in the pricing of contracts and contract modifications in this category if cost analysis is performed as required by 15.805-3.

(c) In addition, the contracting officer shall incorporate the cost principles and procedures in subpart 31.2 (as modified by (d) below) by reference in contracts in this category as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts, including cost-reimbursement subcontracts thereunder;

(2) Negotiating indirect cost rates;
(3) Proposing, negotiating, or dete
mining costs under terminated co
tracts;
(4) Price revision of fixed-price i
centive contracts; and
(5) Pricing changes and other co
tract modifications.
(d) Except as otherwise provided
this paragraph (d), the allowability
costs for construction and architec
engineer contracts shall be determine
in accordance with subpart 31.2.
(1) Because of widely varying facto
such as the nature, size, duration, an
location of the construction projec
advance agreements as set forth
31.109, for such items as home offic
overhead, partners' compensation, em
ployment of consultants, and equi
ment usage costs, are particularly im
portant in construction and architec
engineer contracts. When appropria
they serve to express the parties' u
derstanding and avoid possible subs
quent disputes or disallowances.
(2) *Construction equipment*, as use
in this section, means equipment (i
cluding marine equipment) in soun
workable condition, either owned
controlled by the contractor or th
subcontractor at any tier, or obtaine
from a commercial rental source, an
furnished for use under Governme
contracts.
(i) Allowable ownership and opera
ing costs shall be determined as fo
lows:
(A) Actual cost data shall be use
when such data can be determined f
both ownership and operating cos
for each piece of equipment, or grou
of similar serial or series equipme
from the contractor's accounti
records. When such costs cannot be
determined, the contracting agen
may specify the use of a particul
schedule of predetermined rates
any part thereof to determine own
ship and operating costs of constru
tion equipment (see subdivisio
(d)(2)(i)(B) and (C) of this sectio
However, costs otherwise unallowab
under this part shall not become
lowable through the use of any sche
ule (see 31.109(c)). For example, sche
ules need to be adjusted for Gove
ment contract costing purposes if th
are based on replacement cost, inclu

unallowable interest costs, or use improper cost of money rates or computations. Contracting officers should review the computations and factors included within the specified schedule and ensure that unallowable or unacceptably computed factors are not allowed in cost submissions.

(B) Predetermined schedules of construction equipment use rates (e.g., the Construction Equipment Ownership and Operating Expense Schedule published by the U.S. Army Corps of Engineers, industry sponsored construction equipment cost guides, or commercially published schedules of construction equipment use cost) provide average ownership and operating rates for construction equipment. The allowance for ownership costs should include the cost of depreciation and may include facilities capital cost of money. The allowance for operating costs may include costs for such items as fuel, filters, oil, and grease; servicing, repairs, and maintenance; and tire wear and repair. Costs of labor, mobilization, demobilization, overhead, and profit are generally not reflected in schedules, and separate consideration may be necessary.

(C) When a schedule of predetermined use rates for construction equipment is used to determine direct costs, all costs of equipment that are included in the cost allowances provided by the schedule shall be identified and eliminated from the contractor's other direct and indirect costs charged to the contract. If the contractor's accounting system provides for site or home office overhead allocations, all costs which are included in the equipment allowances may need to be included in any cost input base before computing the contractor's overhead rate. In periods of suspension of work pursuant to a contract clause, the allowance for equipment ownership shall not exceed an amount for standby cost as determined by the schedule or contract provision.

(ii) Reasonable costs of renting construction equipment are allowable (but see paragraph (C) below).

(A) Costs, such as maintenance and minor or running repairs incident to operating such rented equipment, that are not included in the rental rate are allowable.

(B) Costs incident to major repair and overhaul of rental equipment are unallowable.

(C) The allowability of charges for construction equipment rented from any division, subsidiary, or organization under common control, will be determined in accordance with 31.205-36(b)(3).

(3) Costs incurred at the job site incident to performing the work, such as the cost of superintendence, timekeeping and clerical work, engineering, utility costs, supplies, material handling, restoration and cleanup, etc., are allowable as direct or indirect costs, provided the accounting practice used is in accordance with the contractor's established and consistently followed cost accounting practices for all work.

(4) Rental and any other costs, less any applicable credits incurred in acquiring the temporary use of land, structures, and facilities are allowable. Costs, less any applicable credits, incurred in constructing or fabricating structures and facilities of a temporary nature are allowable.

[48 FR 42301, Sept. 19, 1983, as amended at 50 FR 23607, June 4, 1985; 52 FR 19804, May 27, 1987]

031.106 Facilities contracts.

31.106-1 Applicable cost principles.

The cost principles and procedures applicable to the evaluation and determination of costs under facilities contracts (as defined in 45.301), and subcontracts thereunder, will be governed by the type of entity to which a facilities contract is awarded. Except as otherwise provided in 31.106-2 below, subpart 31.2 applies to facilities contracts awarded to commercial organizations; subpart 31.3 applies to facilities contracts awarded to educational institutions; and 31.105 applies to facilities contracts awarded to construction contractors. Whichever cost principles are appropriate will be used in the pricing of facilities contracts and contract modifications if cost analysis is performed as required by 15.805-3. In addition, the contracting officer shall incorporate the cost principles and procedures appropriate in the circumstances (e.g., subpart 31.2; subpart 31.3; or 31.105) by reference in facilities contracts as the basis for—

(a) Determining reimbursable costs under facilities contracts, including cost-reimbursement subcontracts thereunder;

(b) Negotiating indirect cost rates; and

(c) Determining costs of terminated contracts when the contractor elects to *voucher out* costs (see subpart 49.3), and for settlement by determination (see 49.109-7).

31.106-2 Exceptions to general rules on allowability and allocability.

(a) A contractor's established accounting system and procedures are normally directed to the equitable allocation of costs to the types of products which the contractor produces or services rendered in the course of normal operating activities. The acquisition of, or work on, facilities for the Government normally does not involve the manufacturing processes, plant departmental operations, cost patterns of work, administrative and managerial control, or clerical effort usual to production of the contractor's normal products or services.

(b) Advance agreements (see 31.109) should be made between the contractor and the contracting officer as to indirect cost items to be applied to the facilities acquisition. A contractor's normal accounting practice for allocating indirect costs to the acquisition of contractor facilities may range from charging all these costs to this acquisition to not charging any. When necessary to produce an equitable result, the contractor's usual method of allocating indirect cost shall be varied, and appropriate adjustment shall be made to the pools of indirect cost and the bases of their distribution.

(c) The purchase of completed facilities (or services in connection with the facilities) from outside sources does not involve the contractor's direct labor or indirect plant maintenance personnel. Accordingly, indirect manufacturing and plant overhead costs, which are primarily incurred or generated by reason of direct labor or maintenance labor operations, are not allocable to the acquisition of such facilities.

(d) Contracts providing for the installation of new facilities or the rehabilitation of existing facilities may involve the use of the contractor's plant maintenance labor, as distinguished from direct labor engaged in the production of the company's normal products. In such instances, only those types of indirect manufacturing and plant operating costs that are related to or incurred by reason of the expenditures of the classes of labor used for the performance of the facilities work may be allocated to the facilities contract. Thus, a facilities contract which involves the use of plant maintenance labor only would not be subject to an allocation of such cost items as direct productive labor supervision, depreciation, and maintenance expense applicable to productive machinery and equipment, or raw material and finished goods storage costs.

(e) Where a facilities contract calls for the construction, production, or rehabilitation of equipment or other items that are involved in the regular course of the contractor's business by the use of the contractor's direct labor and manufacturing processes, the indirect costs normally allocated to all that work may be allocated to the facilities contract.

31.106-3 Contractor's commercial products.

If facilities constituting the contractor's usual commercial products (or only minor modifications thereof) are acquired by the Government under the contract, the Government shall not pay any amount in excess of the contractor's most favored customer price or the price of other suppliers for like quantities of the same or substantially the same items, whichever is lower.

31.107 Contracts with State, local, and federally recognized Indian tribal governments.

(a) Subpart 31.6 provides principles and standards for determining costs applicable to contracts with State, local, and federally recognized Indian tribal governments. They provide the basis for a uniform approach to the problem of determining costs and to promote efficiency and better relationships between State, local, and federally recognized Indian tribal governments, and Federal Government entities. They apply to all programs that involve contracts with State, local, and federally recognized Indian tribal governments, except contracts with—

(1) Publicly financed educational institutions subject to subpart 31.3; or

(2) Publicly owned hospitals and other providers of medical care subject to requirements promulgated by the sponsoring Government agencies.

(b) The Office of Management and Budget will approve any other exceptions in particular cases when adequate justification is presented.

[48 FR 42301, Sept. 19, 1983, as amended at 52 FR 30076, Aug. 12, 1987]

31.108 Contracts with nonprofit organizations.

Subpart 31.7 provides principles and standards for determining costs applicable to contracts with nonprofit organizations other than educational institutions, State and local governments, and those nonprofit organizations exempted under OMB Circular No. A-122.

31.109 Advance agreements.

(a) The extent of allowability of the costs covered in this part applies broadly to many accounting systems in varying contract situations. Thus, the reasonableness and allocability of certain costs may be difficult to determine, particularly for firms or their divisions that may not be under effective competitive restraints. To avoid ossible subsequent disallowance or ispute based on unreasonableness or onallocability, contracting officers nd contractors should seek advance greement on the treatment of special r unusual costs. However, an advance greement is not an absolute require- ent and the absence of an advance greement on any cost will not, in elf, affect the reasonableness or al- cability of that cost.

(b) Advance agreements may be ne- tiated either before or during a con- act but should be negotiated before incurrence of the costs involved. The agreements must be in writing, executed by both contracting parties, and incorporated into applicable current and future contracts. An advance agreement shall contain a statement of its applicability and duration.

(c) The contracting officer is not authorized by this 31.109 to agree to a treatment of costs inconsistent with this part. For example, an advance agreement may not provide that, notwithstanding 31.205-20, interest is allowable.

(d) Advance agreements may be negotiated with a particular contractor for a single contract, a group of contracts, or all the contracts of a contracting office, an agency, or several agencies.

(e) The cognizant administrative contracting officer (ACO), or other contracting officer established in part 42, shall negotiate advance agreements except that an advance agreement affecting only one contract, or class of contracts from a single contracting office, shall be negotiated by a contracting officer in the contracting office, or an ACO when delegated by the contracting officer. When the negotiation authority is delegated, the ACO shall coordinate the proposed agreement with the contracting officer before executing the advance agreement.

(f) Before negotiating an advance agreement, the Government negotiator shall—

(1) Determine if other contracting offices inside the agency or in other agencies have a significant unliquidated dollar balance in contracts with the same contractor;

(2) Inform any such office or agency of the matters under consideration for negotiation; and

(3) As appropriate, invite the office or agency and the cognizant audit agency to participate in prenegotiation discussions and/or in the subsequent negotiations.

(g) Upon completion of the negotiation, the sponsor shall prepare and distribute to other interested agencies and offices, including the audit agency, copies of the executed agreement and a memorandum providing the information specified in 15.808, Price negotiation memorandum, as applicable.

(h) Examples of costs for which advance agreements may be particularly important are—

(1) Compensation for personal services, including but not limited to allowances for off-site pay, incentive pay, location allowances, hardship pay, cost of living differential, and termination of defined benefit pension plans;

(2) Use charges for fully depreciated assets;

(3) Deferred maintenance costs;

(4) Precontract costs;

(5) Independent research and development and bid and proposal costs;

(6) Royalties and other costs for use of patents;

(7) Selling and distribution costs;

(8) Travel and relocation costs, as related to special or mass personnel movements, as related to travel via contractor-owned, -leased, or -chartered aircraft, or as related to maximum per diem rates;

(9) Costs of idle facilities and idle capacity;

(10) Costs of automatic data processing equipment;

(11) Severance pay to employees on support service contracts;

(12) Plant reconversion;

(13) Professional services (e.g., legal, accounting, and engineering);

(14) General and administrative costs (e.g., corporate, division, or branch allocations) attributable to the general management, supervision, and conduct of the contractor's business as a whole. These costs are particularly significant in construction, job-site, architect-engineer, facilities, and Government-owned contractor operated (GOCO) plant contracts (see 31.203(f));

(15) Costs of construction plant and equipment (see 31.105(d)).

(16) Costs of public relations and advertising; and

(17) Training and education costs (see 31.205-44(h)).

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 12298, Apr. 9, 1986; 51 FR 27489, July 31, 1986; 52 FR 9038, Mar. 20, 1987; 52 FR 27806, July 24, 1987; 54 FR 34755, Aug. 21, 1989]

Subpart 31.2—Contracts With Commercial Organizations

31.201 General.

31.201-1 Composition of total cost.

The total cost of a contract is the sum of the allowable direct and indirect costs allocable to the contract, incurred or to be incurred, less any allocable credits, plus any allocable cost of money pursuant to 31.205-10. In ascertaining what constitutes a cost, any generally accepted method of determining or estimating costs that is equitable and is consistently applied may be used, including standard costs properly adjusted for applicable variances. See 31.201-2(b) and (c) for Cost Accounting Standards (CAS) requirements.

31.201-2 Determining allowability.

(a) The factors to be considered in determining whether a cost is allowable include the following:

(1) Reasonableness.

(2) Allocability.

(3) Standards promulgated by the CAS Board, if applicable; otherwise, generally accepted accounting principles and practices appropriate to the particular circumstances.

(4) Terms of the contract.

(5) Any limitations set forth in this subpart.

(b) Certain cost principles in this subpart incorporate the measurement, assignment, and allocability rules of selected CAS and limit the allowability of costs to the amounts determined using the criteria in those selected standards. Only those CAS or portions of standards specifically made applicable by the cost principles in this subpart are mandatory unless the contract is CAS-covered (see part 30). Business units that are not otherwise subject to these standards under a CAS clause are subject to the selected standards only for the purpose of determining allowability of costs on Government contracts. Including the selected standards in the cost principles does not subject the business unit to any other CAS rules and regulations. The applicability of the CAS rules and regulations is determined by the CAS clause, if any, in the contract and the requirements of the standards themselves.

(c) When contractor accounting practices are inconsistent with this subpart 31.2, costs resulting from such inconsistent practices shall not be allowed in excess of the amount that would have resulted from using practices consistent with this subpart.

31.201-3 Determining reasonableness.

(a) A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. No presumption of reasonableness shall be attached to the incurrence of costs by a contractor. If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable.

(b) What is reasonable depends upon a variety of considerations and circumstances, including—

(1) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;

(2) Generally accepted sound business practices, arm's length bargaining, and Federal and State laws and regulations;

(3) The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and

(4) Any significant deviations from the contractor's established practices.

[52 FR 19804, May 27, 1987]

31.201-4 Determining allocability.

A cost is allocable if it is assignable or chargeable to one or more cost objectives on the basis of relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government contract if it—

(a) Is incurred specifically for the contract;

(b) Benefits both the contract and other work, and can be distributed to them in reasonable proportion to the benefits received; or

(c) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

31.201-5 Credits.

The applicable portion of any income, rebate, allowance, or other credit relating to any allowable cost and received by or accruing to the contractor shall be credited to the Government either as a cost reduction or by cash refund. See 31.205-6(j)(4) for rules related to refund or credit to the Government upon termination of an overfunded defined benefit pension plan.

[48 FR 42301, Sept. 19, 1983, as amended at 54 FR 34755, Aug. 21, 1989]

31.201-6 Accounting for unallowable costs.

(a) Costs that are expressly unallowable or mutually agreed to be unallowable, including mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, or proposal applicable to a Government contract. A directly associated cost is any cost which is generated solely as a result of incurring another cost, and which would not have been incurred had the other cost not been incurred. When an unallowable cost is incurred, its directly associated costs are also unallowable.

(b) Costs which specifically become designated as unallowable or as unallowable directly associated costs of unallowable costs as a result of a written decision furnished by a contracting officer shall be identified if included in or used in computing any billing, claim, or proposal applicable to a Government contract. This identification requirement applies also to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under either this paragraph or paragraph (a) above.

(c) The detail and depth of records required as backup support for proposals, billings, or claims shall be that which is adequate to establish and maintain visibility of identified unallowable costs, including directly associated costs. Unallowable costs involved in determining rates used for standard costs, or for indirect cost proposals or billing, need be identified only at the time rates are proposed, established, revised, or adjusted. These requirements may be satisfied by any form of cost identification which is adequate for purposes of contract cost determination and verification.

(d) If a directly associated cost is included in a cost pool which is allocated over a base that includes the unallowable cost with which it is associated, the directly associated cost shall remain in the cost pool. Since the unallowable costs will attract their allocable share of costs from the cost pool, no further action is required to assure disallowance of the directly associated costs. In all other cases, the directly associated costs, if material in amount, must be purged from the cost pool as unallowable costs.

(e)(1) In determining the materiality of a directly associated cost, consideration should be given to the significance of (i) the actual dollar amount, (ii) the cumulative effect of all directly associated costs in a cost pool, or (iii) the ultimate effect on the cost of Government contracts.

(2) Salary expenses of employees who participate in activities that generate unallowable costs shall be treated as directly associated costs to the extent of the time spent on the proscribed activity, provided the costs are material in accordance with subparagraph (e)(1) above (except when such salary expenses are, themselves, unallowable). The time spent in proscribed activities should be compared to total time spent on company activities to determine if the costs are material. Time spent by employees outside the normal working hours should not be considered except when it is evident that an employee engages so frequently in company activities during periods outside normal working hours as to indicate that such activities are a part of the employee's regular duties.

(3) When a selected item of cost under 31.205 provides that directly associated costs be unallowable, it is intended that such directly associated costs be unallowable only if determined to be material in amount in accordance with the criteria provided in paragraphs (e)(1) and (e)(2) above, except in those situations where allowance of any of the directly associated costs involved would be considered to be contrary to public policy.

31.201-7 Construction and architect-engineer contracts.

Specific principles and procedures for evaluating and determining costs in connection with contracts and subcontracts for construction, and architect-engineer contracts related to construction projects, are in 31.105. The applicability of these principles and procedures is set forth in 31.000 and 31.100.

31.202 Direct costs.

(a) A direct cost is any cost that can be identified specifically with a particular final cost objective. No final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose in like circumstances have been included in any indirect cost pool to be allocated to that or any other final cost objective. Costs identified specifically with the contract are direct costs of the contract and are to be charged directly to the contract. All costs specifically identified with other final cost objectives of the contractor are direct costs of those cost objectives and are not to be charged to the contract directly or indirectly.

(b) For reasons of practicality, any direct cost of minor dollar amount may be treated as an indirect cost if the accounting treatment—

(1) Is consistently applied to all final cost objectives; and

(2) Produces substantially the same results as treating the cost as a direct cost.

31.203 Indirect costs.

(a) An indirect cost is any cost not directly identified with a single, final cost objective, but identified with two or more final cost objectives or an intermediate cost objective. It is not subject to treatment as a direct cost. After direct costs have been determined and charged directly to the contract or other work, indirect costs are those remaining to be allocated to the several cost objectives. An indirect cost shall not be allocated to a final cost objective if other costs incurred for the same purpose in like circumstances have been included as a direct cost of that or any other final cost objective.

(b) Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring such costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Commonly, manufacturing overhead, selling expenses, and general and administrative (G&A) expenses are separately grouped. Similarly, the particular case may require subdivision of these groupings, e.g., building occupancy costs might be separable from those of personnel administration within the manufacturing overhead group. This necessitates selecting a distribution base common to all cost objectives to which the grouping is to be allocated. The base should be selected so as to permit allocation of the grouping on the basis of the benefits accruing to the several cost objectives. When substantially the same results can be achieved through less precise methods, the number and composition of cost groupings should be governed by practical considerations and should not unduly complicate the allocation.

(c) Once an appropriate base for distributing indirect costs has been accepted, it shall not be fragmented by removing individual elements. All items properly includable in an indirect cost base should bear a pro rata share of indirect costs irrespective of their acceptance as Government contract costs. For example, when a cost input base is used for the distribution of G&A costs, all items that would properly be part of the cost input base, whether allowable or unallowable, shall be included in the base and bear their pro rata share of G&A costs.

(d) The contractor's method of allocating indirect costs shall be in accordance with standards promulgated by the CAS Board, if applicable to the contract; otherwise, the method shall be in accordance with generally accepted accounting principles which are consistently applied. The method may require examination when—

(1) Substantial differences occur between the cost patterns of work under the contract and the contractor's other work;

(2) Significant changes occur in the nature of the business, the extent of subcontracting, fixed-asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances; or

(3) Indirect cost groupings developed for a contractor's primary location are applied to offsite locations. Separate cost groupings for costs allocable to offsite locations may be necessary to permit equitable distribution of costs on the basis of the benefits accruing to the several cost objectives.

(e) A base period for allocating indirect costs is the cost accounting period during which such costs are incurred and accumulated for distribution to work performed in that period. The criteria and guidance in 30.406 for selecting the cost accounting periods to be used in allocating indirect costs are incorporated herein for application to contracts subject to full CAS coverage. For contracts subject to modified CAS coverage and for non-CAS-covered contracts, the base period for allocating indirect costs will normally be the contractor's fiscal year. But a shorter period may be appropriate (1) for contracts in which performance involves only a minor portion of the fiscal year, or (2) when it is general practice in the industry to use a shorter period. When a contract is performed over an extended period, as many base periods shall be used as are required to represent the period of contract performance.

(f) Special care should be exercised in applying the principles of paragraphs (b), (c), and (d) above when

Government-owned contractor-operated (GOCO) plants are involved. The distribution of corporate, division, or branch office G&A expenses to such plants operating with little or no dependence on corporate administrative activities may require more precise cost groupings, detailed accounts screening, and carefully developed distribution bases.

31.204 Application of principles and procedures.

(a) Costs shall be allowed to the extent they are reasonable, allocable, and determined to be allowable under 31.201, 31.202, 31.203, and 31.205. These criteria apply to all of the selected items that follow, even if particular guidance is provided for certain items for emphasis or clarity.

(b) Costs incurred as reimbursements or payments to a subcontractor under a cost-reimbursement, fixed-price incentive, or price redeterminable type subcontract of any tier above the first firm-fixed-price subcontract or fixed-price subcontract with economic price adjustment provisions are allowable to the extent that allowance is consistent with the appropriate subpart of this part 31 applicable to the subcontract involved. Costs incurred as payments under firm-fixed-price subcontracts or fixed-price subcontracts with economic price adjustment provisions or modifications thereto, when cost analysis was performed under 15.805-3, shall be allowable only to the extent that the price was negotiated in accordance with 31.102.

(c) Section 31.205 does not cover every element of cost. Failure to include any item of cost does not imply that it is either allowable or unallowable. The determination of allowability shall be based on the principles and standards in this subpart and the treatment of similar or related selected items. When more than one subsection in 31.205 is relevant to a contractor cost, the cost shall be apportioned among the applicable subsections, and the determination of allowability of each portion shall be based on the guidance contained in the applicable subsection. When a cost, to which more than one subsection in 31.205 is relevant, cannot be apportioned, the determination of allowability shall be based on the guidance contained in the subsection that most specifically deals with, or best captures the essential nature of, the cost at issue.

[48 FR 42301, Sept. 19, 1983, as amended at 53 FR 17858, May 18, 1988]

31.205 Selected costs.

31.205-1 Public relations and advertising costs.

(a) *Public relations* means all functions and activities dedicated to—

(1) Maintaining, protecting, and enhancing the image of a concern or its products; or

(2) Maintaining or promoting reciprocal understanding and favorable relations with the public at large, or any segment of the public. The term public relations includes activities associated with areas such as advertising, customer relations, etc.

(b) *Advertising* means the use of media to promote the sale of products or services and to accomplish the activities referred to in paragraph (d) of this subsection, regardless of the medium employed, when the advertiser has control over the form and content of what will appear, the media in which it will appear, and when it will appear. Advertising media include but are not limited to conventions, exhibits, free goods, samples, magazines, newspapers, trade papers, direct mail, dealer cards, window displays, outdoor advertising, radio, and television.

(c) Public relations and advertising costs include the costs of media time and space, purchased services performed by outside organizations, as well as the applicable portion of salaries, travel, and fringe benefits of employees engaged in the functions and activities identified in paragraphs (a) and (b) of this subsection.

(d) The only advertising costs that are allowable are those specifically required by contract, or that arise from requirements of Government contracts and that are exclusively for—

(1) Recruiting personnel required for performing contractual obligations, when considered in conjunction with all other recruitment costs (but see 31.205-34);

(2) Acquiring scarce items for contract performance; or

(3) Disposing of scrap or surplus materials acquired for contract performance.

Costs of this nature, if incurred for more than one Government contract or both Government work and other work of the contractor, are allowable to the extent that the principles in 31.201-3, 31.201-4, and 31.203 are observed.

(e) Allowable public relations costs include the following:

(1) Costs specifically required by contract.

(2) Costs of—

(i) Responding to inquiries on company policies and activities;

(ii) Communicating with the public, press, stockholders, creditors, and customers; and

(iii) Conducting general liaison with news media and Government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern such as notice of contract awards, plant closings or openings, employee layoffs or rehires, financial information, etc.

(3) Costs of participation in community service activities (e.g., blood bank drives, charity drives, savings bond drives, disaster assistance, etc.).

(4) Costs of plant tours and open houses (but see subparagraph (f)(5) of this subsection).

(5) Costs of keel laying, ship launching, commissioning, and roll-out ceremonies, to the extent specifically provided for by contract.

(f) Unallowable public relations and advertising costs include the following:

(1) All advertising costs other than those specified in paragraph (d) of this subsection.

(2) Costs of air shows and other special events, such as conventions and trade shows, including—

(i) Costs of displays, demonstrations, and exhibits;

(ii) Costs of meeting rooms, hospitality suites, and other special facilities used in conjunction with shows and other special events; and

(iii) Salaries and wages of employees engaged in setting up and displaying exhibits, making demonstrations, and providing briefings.

(3) Costs of sponsoring meetings, symposia, seminars, and other special events when the principal purpose of the event is other than dissemination of technical information or stimulation of production.

(4) Costs of ceremonies such as corporate celebrations and new product announcements.

(5) Costs of promotional material, motion pictures, videotapes, brochures, handouts, magazines, and other media that are designed to call favorable attention to the contractor and its activities (but see 31.205-13(a), Employee morale, health, welfare, food service, and dormitory costs and credits; 31.205-21, Labor relations costs; 31.205-43(c), Trade, business, technical, and professional activity costs; and 31.205-44, Training and education costs).

(6) Costs of souvenirs, models, imprinted clothing, buttons, and other mementos provided to customers or the public.

(7) Costs of memberships in civic and community organizations.

(8) All public relations costs, other than those specified in paragraph (e) of this subsection, whose primary purpose is to promote the sale of products or services by stimulating interest in a product or product line (except for those costs made allowable under 31.205-38(c)), or by disseminating messages calling favorable attention to the contractor for purposes of enhancing the company image to sell the company's products or services. Nothing in this paragraph (f)(8) modifies the express unallowability of costs listed in paragraph (f)(2) through (f)(7). The purpose of this paragraph is to provide criteria for determining whether costs not specifically identified should be unallowable.

(g) Notwithstanding the provisions of paragraph (d) and subparagraph (f)(2) of this section, reasonable costs incurred to promote American aerospace exports at domestic and international exhibits, such as air shows, trade shows, and conventions, are allowable. Such reasonable costs include transportation of the aircraft, aerospace parts and equipment, and other associated support cost. However, such allowable costs shall not include the cost of entertainment, hospitality suites or chalets, advertising media other than exhibits, and other costs not necessary to establish, operate or maintain an exhibit, display, or demonstration. This paragraph applies so long as section 8062 of Pub. L. 100-202, or a similar provision in a subsequent act, is in effect.

[51 FR 12298, Apr. 9, 1986, as amended at 53 FR 12130, Apr. 12, 1988; 53 FR 13274, Apr. 22, 1988; 54 FR 34755, Aug. 21, 1989]

31.205-2 Automatic data processing equipment leasing costs.

(a) This subsection applies to all contractor-leased automatic data processing equipment (ADPE), as defined in 31.001 (except as components of an end item to be delivered to the Government), acquired under operating leases, as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, issued by the Financial Accounting Standards Board. Compliance with 31.205-11(m) requires that ADPE acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges or over the leased life as amortization charges as appropriate. Allowability of costs related to contractor-owned ADPE is governed by other requirements of this subpart.

(b)(1) If the contractor leases ADPE but cannot demonstrate, on the basis of facts existent at the time of the decision to lease or continue leasing and documented in accordance with paragraph (d) below, that leasing will result in less cost to the Government over the anticipated useful life (see paragraph (c) below), then rental costs are allowable only up to the amount that would be allowed had the contractor purchased the ADPE.

(2) The costs of leasing ADPE are allowable only to the extent that the contractor can annually demonstrate in accordance with paragraph (d) below (whether or not the term of lease is renewed or otherwise extended) that these costs meet the following criteria:

(i) The costs are reasonable and necessary for the conduct of the contractor's business in light of factors such as the contractor's requirements for ADPE, costs of comparable facilities, the various types of leases available, and the terms of the rental agreement.

(ii) The costs do not give rise to a material equity in the facilities (such as an option to renew or purchase at a bargain rental or price other than that normally given to industry at large) but represent charges only for the current use of the equipment, including incidental service costs such as maintenance, insurance, and applicable taxes.

(iii) The contracting officer's approval was obtained for the leasing arrangement (see paragraph (d)(3) below) when the total cost of leasing—

(A) The ADPE is to be allocated to one or more Government contracts which require negotiating or determining costs, or

(B) ADPE in a single plant, division, or cost center exceeds $500,000 a year and 50 percent or more of the total leasing cost is to be allocated to one or more Government contracts which require negotiating or determining costs.

(3) Rental costs under a sale and leaseback arrangement are allowable only up to the amount that would have been allowed had the contractor retained title to the ADPE.

(4) Allowable rental costs of ADPE leased from any division, subsidiary, or organization under a common control are limited to the cost of ownership (excluding interest or other costs unallowable under this subpart 31.2 and including the cost of money (see 31.205-10)). When there is an established practice of leasing the same or similar equipment to unaffiliated lessees, rental costs shall be allowed in accordance with paragraphs (b)(1) and (2) above, except that the purchase price and costs of ownership shall be determined under 31.205-26(e).

(c)(1) An estimate of the anticipated useful life of the ADPE may represent the application life (utility in a given function), technological life (utility before becoming obsolete in whole or in part), or physical life (utility before wearing out) depending upon the facts and circumstances and the particular facilities involved. Each case must be evaluated individually. In estimating anticipated useful life, the contractor may use the application life if it can be demonstrated that the ADPE has utility only in a given function and the duration of the function can be determined. Technological life may be used if the contractor can demonstrate that existing ADPE must be replaced because of—

(i) Specific program objectives or contract requirements that cannot be accomplished with the existing ADPE;

(ii) Cost reductions that will produce identifiable savings in production or overhead costs;

(iii) Increase in workload volume that cannot be accomplished efficiently by modifying or augmenting existing ADPE; or

(iv) Consistent pattern of capacity operation (2 ½-3 shifts) on existing ADPE.

(2) Technological advances will not justify replacing existing ADPE before the end of its physical life if it will be able to satisfy future requirements or demands.

(3) In estimating the least cost to the Government for useful life, the cumulative costs that would be allowed if the contractor owned the ADPE should be compared with cumulative costs that would be allowed under any of the various types of leasing arrangements available. For the purpose of this comparison, the costs of ADPE exclude interest or other unallowable costs pursuant to this subpart 31.2; they include but are not limited to the costs of operation, maintenance, insurance, depreciation, facilities capital cost of money, rental, and the cost of machine services, as applicable.

(d) (1) Except as provided in paragraph (3) below, the contractor's justification, under paragraph (b) above, of the leasing decisions shall consist of the following supporting data, prepared before acquisition:

(i) Analysis of use of existing ADPE.

(ii) Application of the criteria in paragraph (b) above.

(iii) Specific objectives or requirements, generally in the form of a data system study and specification.

(iv) Solicitation of proposals, based on the data system specification, from qualified sources.

(v) Proposals received in response to the solicitation and reasons for selecting the equipment chosen and for the decision to lease.

(2) Except as provided in paragraph (3) below, the contractor's annual justification, under paragraph (b)(2) above, of the decision to retain or change existing ADPE capability and the need to continue leasing shall consist of current data as specified in subdivisions (d)(1)(i) through (iii) above.

(3) If the contractor's prospective ADPE lease cost meets the threshold in 31.205-2(b)(2)(iii) above, the contractor shall furnish data supporting the initial decision to lease (see paragraph (b)(1) above). If the total cost of leasing ADPE in a single plant, division, or cost center exceeds $500,000 per year and 50 percent or more of the total leasing cost is allocated to Government contracts which require negotiating or determining costs, the contractor shall furnish data supporting the annual justification for retaining or changing existing ADPE capability and the need to continue leasing shall also be furnished (see paragraph (b)(2) above).

31.205-3 Bad debts.

Bad debts, including actual or estimated losses arising from uncollectible accounts receivable due from customers and other claims, and any directly associated costs such as collection costs, and legal costs are unallowable.

31.205-4 Bonding costs.

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor. They arise also in instances where the contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the contract are allowable.

(c) Costs of bonding required by the contractor in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

31.205-5 Civil defense costs.

(a) Civil defense costs are those incurred in planning for, and protecting life and property against, the possible effects of enemy attack. Costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, fire fighting training and equipment, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the contractor's premises pursuant to suggestions or requirements of civil defense authorities are allowable when allocated to all work of the contractor.

(b) Costs of capital assets acquired for civil defense purposes are allowable through depreciation (see 31.205-11).

(c) Contributions to local civil defense funds and projects are unallowable.

31.205-6 Compensation for personal services.

(a) *General.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor during the period of contract performance (except as otherwise provided for severance pay costs in paragraph (g) below and for pension costs in paragraph (j) below). It includes, but is not limited to, salaries; wages; directors' and executive committee members' fees; bonuses (including stock bonuses); incentive awards; employee stock options, stock appreciation rights, and stock ownership plans; employee insurance; fringe benefits; contributions to pension, annuity, and management employee incentive compensation plans; and allowances for off-site pay, incentive pay, location allowances, hardship pay, severance pay, and cost of living differential. Compensation for personal services is allowable subject to the following general criteria and additional requirements contained in other parts of this cost principle:

(1) Compensation for personal services must be for work performed by the employee in the current year and must not represent a retroactive adjustment of prior years' salaries or wages (but see 31.205-6(g), (h), (j), (k), and (m) below).

(2) The compensation in total must be reasonable for the work performed; however, specific restrictions on individual compensation elements must be observed where they are prescribed.

(3) The compensation must be based upon and conform to the terms and conditions of the contractor's established compensation plan or practice followed so consistently as to imply, in effect, an agreement to make the payment.

(4) No presumption of allowability will exist where the contractor introduces major revisions of existing compensation plans or new plans and the contractor—

(i) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation, and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the allowability of the changes.

(5) Costs that are unallowable under other paragraphs of this subpart 31.2 shall not be allowable under this subsection 31.205-6 solely on the basis that they constitute compensation for personal services. (See 31.205-34(c)).

(b) *Reasonableness.* (1) The compensation for personal services paid or accrued to each employee must be reasonable for the work performed. Compensation will be considered reasonable if each of the allowable elements making up the employee's compensation package is reasonable. In determining the reasonableness of individual elements for particular employees or classes of employees, consideration should be given to all potentially relevant facts. Facts which may be relevant include general conformity with the compensation practices of other firms of the same size, the compensation practices of other firms in the

ndustry, the compensation prac-
f other firms in the same geo-
c area, the compensation prac-
f firms engaged in predominant-
Government work, and the cost
mparable services obtainable
utside sources. While all of the
actors, as well as any other rel-
nes, should be considered, their
significance will vary accord-
circumstances. For example, in
se of secretarial salaries, con-
with the compensation paid
er firms in the same geographic
ould likely be a more significant
n than conformity with the
sation paid by other firms in
ne industry wherever located.
inistering this principle, it is
zed that not every compensa-
e need be subjected in detail to
ove or other tests. The tests
applied only when a general
reveals amounts or types of
sation that appear unreason-
unjustified. Based on an initial
of the facts, contracting offi-
their representatives may chal-
he reasonableness of any indi-
lement or the sum of the indi-
lements of compensation paid
ed to particular employees or
of employees. In such cases,
no presumption of reasonable-
, upon challenge, the contrac-
t demonstrate the reasonable-
he compensation item in ques-
doing so, the contractor may
e, and the contracting officer
sider, not only any circum-
urrounding the compensation
llenged, but also the magni-
other compensation elements
ay be lower than would be
d reasonable in themselves.
mple, a contractor, if chal-
the amount of base salaries
agement, could counter by
lower than normal end-of-
agement bonuses. However,
actor's right to introduce off-
ompensation elements into
tion is subject to the follow-
tions:
ts will be considered only be-
allowable elements of an
s (or a class of employees')
tion package. For example,
management salaries cannot
be offset against lower than normal secretarial salaries.

(ii) Offsets will be considered only between the allowable portion of the following compensation elements of employees or classes of employees:

(A) Wages and salaries.

(B) Incentive bonuses.

(C) Deferred compensation.

(D) Pension and savings plan benefits.

(E) Health insurance benefits.

(F) Life insurance benefits.

(G) Compensated personal absence benefits.

However, any of the above elements or portions thereof, whose amount is not measurable, shall not be introduced or considered as an offset item.

(iii) In considering offsets, the magnitude of the compensation elements in question must be taken into account. An executive bonus that is excessive by $100,000 is not fully offset by a base salary that is low by only $25,000. In determining the magnitude of compensation elements, the timing of receipt by the employee must be considered. For example, a bonus of $100,000 in the current period will be considered as of greater value than a deferred compensation arrangement to make the same payment in some future period.

(2) Compensation costs under certain conditions give rise to the need for special consideration. Among such conditions are the following:

(i) Compensation to (A) owners of closely held corporations, partners, sole proprietors, or members of their immediate families, or (B) persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that salaries are reasonable for the personal services rendered rather than being a distribution of profits. Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits. For closely held corporations, compensation costs covered by this subdivision shall not be recognized in amounts exceeding those costs that are deductible as compensation under the Internal Revenue Code and regulations under it.

(ii) Any change in a contractor's compensation policy that results in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy. Contracting officers or their representatives should normally challenge increased costs where major revisions of existng compensation plans or new plans are introduced by the contractor, and the contractor—

(A) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation; and

(B) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the reasonableness of the changes.

(iii) The contractor's business is such that its compensation levels are not subject to the restraints that normally occur in the conduct of competitive business.

(iv) The contractor incurs costs for compensation in excess of the amounts which are deductible under the Internal Revenue Code and regulations issued under it.

(c) *Labor-management agreements.* Nothwithstanding any other requirements of this subsection 31.205-6, costs of compensation are not allowable to the extent that they result from provisions of labor-management agreements that, as applied to work in performing Government contracts, are determined to be unreasonable because they are either unwarranted by the character and circumstances of the work or discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (e.g., work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (e.g., work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in employee compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this paragraph (c) unless—

(1) The contractor has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether unusual conditions pertain to Government contract work, imposing burdens, hardships, or hazards on the contractor's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(d) *Salaries and wages.* Salaries and wages for current services include gross compensation paid to employees in the form of cash, stock (see paragraph (f)(2) below regarding valuation), products, or services, and are allowable.

(e) *Domestic and foreign differential pay.* (1) When personal services are performed in a foreign country, compensation may also include a differential that may properly consider all expenses associated with foreign employment such as housing, cost of living adjustments, transportation, bonuses, additional Federal, State, local or foreign income taxes resulting from foreign assignment, and other related expenses.

(2) Although the additional taxes in paragraph (1) above may be considered in establishing foreign overseas differential, any increased compensation calculated directly on the basis of an employee's specific increase in income taxes is unallowable. Differential allowances for additional Federal, State, or local income taxes resulting from domestic assignments are unallowable.

(f) *Bonuses and incentive compensation.* (1) Incentive compensation for management employees, cash bonuses, suggestion awards, safety awards, and incentive compensation based on production, cost reduction, or efficient performance are allowable provided the awards are paid or accrued under an agreement entered into in good faith between the contractor and the employees before the services are rendered or pursuant to an established plan or policy followed by the contractor so consistently as to imply, in effect, an agreement to make such payment and the basis for the award is supported.

(2) When the costs of bonuses and ncentive compensation are paid in the tock of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the stock shall be the fair market value on the measurement date (i.e., the first date the number of shares awarded is known) determined upon the most objective basis available; and

(ii) Accruals for the cost of stock before issuing the stock to the employees shall be subject to adjustment according to the possibilities that the employees will not receive the stock and that their interest in the accruals will be forfeited.

(3) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of paragraph (f)(1) above and of paragraph (k) below.

(g) *Severance pay.* (1) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages by contractors o workers whose employment is being nvoluntarily terminated. Payments or early retirement incentive plans re covered in paragraph (j)(6) below.

(2) Severance pay to be allowable ust meet the general allowability criteria in subdivision (g)(2)(i) below, nd, depending upon whether the severance is normal or abnormal, criteria subdivision (g)(2)(ii) for normal sev- ance pay or subdivision (g)(2)(iii) for normal severance pay also apply.

(i) Severance pay is allowable only to e extent that, in each case, it is re- ired by (A) law; (B) employer-em- yee agreement; (C) established licy that constitutes, in effect, an plied agreement on the contractor's rt; or (D) circumstances of the par- ular employment (but see 37.110(f) arding services performed outside the United States). Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable.

(ii) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant, or where the contractor provides for accrual of pay for normal severances, that method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period and if amounts accrued are allocated to all work performed in the contractor's plant.

(iii) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(h) *Backpay.* (1) *Backpay resulting from violations of Federal labor laws or the Civil Rights Act of 1964.* Backpay may result from a negotiated settlement, order, or court decree that resolves a violation of Federal labor laws or the Civil Rights Act of 1964. Such backpay falls into two categories: one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations, such as when the employee was improperly discharged, discriminated against, or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay resulting from violation of Federal labor laws or the Civil Rights Act of 1964 is unallowable.

(2) *Other backpay.* Backpay may also result from payments to union employees (union and non-union) for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiations. Such backpay is allowable. Backpay to nonunion employees based upon results of union agreement negotiations is allowable only if (i) a formal agreement or understanding exists between management and the employees concerning these payments, or (ii) an established policy or practice exists and is followed by the contractor so consistently as to imply, in effect, an agreement to make such payment.

(i) *Stock options, stock appreciation rights, phantom stock plans, and junior stock conversions.*

(1) The cost of stock options awarded to employees to purchase stock of the contractor or of an affiliate will be treated as deferred compensation and must comply with the requirements of paragraph (k) of this subsection. The allowable cost of stock options is limited to the difference between the option price and the market price on the first date on which the option price and the number of shares are known. Accordingly, when the stock option price is equal to or greater than the market price on that date, then no costs are allowable for contract costing purposes.

(2) Stock appreciation rights are rights granted to employees by contractors to receive the increase in value, or appreciation, of company stock even though the employee neither purchases the stock nor receives title to it. Stock appreciation rights will be treated as deferred compensation and must comply with the requirements of paragraph (k) of this subsection. The allowable cost of stock appreciation rights is limited to the difference between the stock-appreciation-right base price from which appreciation will be measured and the market price on the first date on which both the number of shares and the stock-appreciation-right base price are known. Accordingly, when the stock-appreciation-right base price is equal to or greater than the market price on that date, then no costs are allowable for contract costing purposes.

(3) In phantom-stock-type plans, contractors assign or attribute contingent shares of stock to employees as if the employees own the stock, even though the employees neither purchase the stock nor receive title to it. Under these plans, an employee's account may be increased by the equivalent of dividends paid and any appreciation in the market price of the stock over the price of the stock on the first date on which the number of shares awarded is known. Such increases in employee accounts for dividend equivalents and market price appreciation are unallowable.

(4) Junior stock is a class of equity stock that (i) is sold to employees at a price below that of the contractor's common stock, (ii) carries reduced dividend and voting rights, and (iii) is convertible to common stock upon the attainment of specified corporate goals. Costs associated with the conversion of junior stock into common stock are not allowable, whether or not they are accounted for as compensation costs.

(j) *Pension costs.* (1) A pension plan is a deferred compensation plan that is established and maintained by one or more employers to provide systematically for paying benefits to plan participants after their retirement, provided that the benefits are paid for life or are payable for life at the option of the employee. Additional benefits such as permanent and total disability and death payments and survivorship payments to beneficiaries of deceased employees may be treated as pension costs, provided the benefits are an integral part of the pension plan and meet all the criteria pertaining to pension costs.

(2) Pension plans are normally segregated into two types of plans: defined benefit or defined contribution pension plans. The cost of all defined benefit pension plans shall be measured, allocated, and accounted for in compliance with the provisions of 30.412, Composition and Measurement of Pension Costs, and 30. 413, Adjustment and Allocation of Pension Cost. The costs of all defined contribution pension plans shall be measured, allo-

cated, and accounted for in accordance with the provisions of 30.412. Pension costs are allowable subject to the referenced standards and the cost limitations and exclusions set forth in subdivision (j)(2)(i) and in subparagraphs (j) (3), through (8) of this subsection.

(i) Except for unfunded pension plans as defined in 31.001, to be allowable in the current year, pension costs must be funded by the time set for filing the Federal income tax return or any extension thereof. Pension costs assigned to the current year, but not funded by the tax return time, shall not be allowable in any subsequent year.

(ii) Pension payments must be reasonable in amount and be paid pursuant to (A) an agreement entered into in good faith between the contractor and employees before the work or services are performed and (B) the terms and conditions of the established plan. The cost of changes in pension plans which are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future are not allowable.

(iii) Except as provided for early retirement benefits in subparagraph (j) (7) of this subsection, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(iv) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in accordance with a policy or practice consistently followed.

(3) *Defined benefit pension plans.* This paragraph covers pension plans in which the benefits to be paid or the basis for determining such benefits are established in advance and the contributions are intended to provide the stated benefits. The cost limitations and exclusions pertaining to defined benefit plans are as follows:

(i) Normal costs of pension plans not funded in the year incurred, and all other components of pension costs (see 30.412-40(a)(1)) assignable to the current accounting period but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income tax return or any extension thereof is considered to have been made during such taxable year). However, any part of a pension cost that is computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) (see 30.412-50(c)(3)), will be allowable in those future accounting periods in which the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding occurred in the year the costs would have been assigned except for the waiver.

(A) Except for unfunded pension plans as defined in 31.001, normal costs of pension plans not funded in the year incurred, and all other components of pension costs (see 30.412-40(a)(1)) assignable to the current accounting period but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income tax return or any extension thereof is considered to have been made during such taxable year). However, any part of a pension cost that is computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA) (see 30.412-50(c)(3)), will be allowable in those future accounting periods in which the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding occurred in the year the costs would have been assigned except for the waiver.

(B) Allowable costs for unfunded pension plans, as defined in 31.001, are limited to the amount computed in accordance with 30.412 and 30.413.

(ii) Any amount paid or funded before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in those years. The interest earned on such premature funding, based on the valuation rate of return, may be excluded from future years' computations of pension costs in accordance with 30.412-50(a)(7).

(iii) Increased pension costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable. If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in 30.413-50(c)(5). Determination of unallowable costs shall be made in accordance with the actuarial method used in calculating pension costs.

(iv) Allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA Section 4062 or 4064 arising from terminating an employee deferred compensation plan will be considered on a case-by-case basis; provided that if insurance was required by the PBGC under ERISA Section 4023, it was so obtained and the indemnification payment is not recoverable under the insurance. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work. If a beneficial or other equitable relationship exists, the Government will participate, despite the requirements of 31.205-19(a)(3) and (b), in the indemnification payment to the extent of its fair share.

(4) *Termination of defined benefit pension plans.* When excess or surplus assets revert to the contractor as a result of termination of a defined benefit pension plan, or such assets are constructively received by it for any reason, the contractor shall make a refund or give a credit to the Government for its equitable share. The Government's equitable share shall reflect the Government's participation in pension costs through those contracts for which certified (see 15.804) cost or pricing data were submitted or which are subject to subpart 31.2.

(5) *Defined contribution pension plans.* This paragraph covers those pension plans in which the contributions to be made are established in advance and the level of benefits is determined by the contributions made. It also covers profit sharing, savings plans, and other such plans provided the plans fall within the definition of a pension plan in paragraph (j)(1) above.

(i) The pension cost assignable to a cost accounting period is the net contribution required to be made for that period after taking into account dividends and other credits, where applicable. However, any portion of pension cost computed for a cost accounting period that is deferred pursuant to a waiver granted under the provisions of ERISA (see 30.412-50(c)(3)) will be allowable in those future accounting periods when the funding does occur. The allowability of these deferred contributions will be limited to the amounts that would have been allowed had the funding been made in the year the costs would have been assigned except for the waiver.

(ii) Any amount paid or funded to the trust before the time it becomes assignable and allowable shall be applied to future years, in order of time, as if actually paid and deductible in such years.

(iii) The provisions of subdivision (j)(3)(iv) above concerning payments to PBGC apply to defined contribution plans.

(6) [Reserved]

(7) *Early retirement incentive plans.* An early retirement incentive plan is a plan under which employees receive a bonus or incentive, over and above the requirement of the basic pension plan, to retire early. These plans normally are not applicable to all participants of the basic plan and do not represent life income settlements, and as such would not qualify as pension costs. However, for contract costing purposes, early retirement incentive payments are allowable subject to the pension cost criteria contained in subdivisions (j)(3)(i) through (iv) provided—

(i) The costs are accounted for and allocated in accordance with the contractor's system of accounting for pension costs.

(ii) The payments are made in accordance with the terms and conditions of the contractor's plan;

(iii) The plan is applied only to active employees. The cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable; and

(iv) The total of the incentive payments to any employee may not exceed the amount of the employee's annual salary for the previous fiscal year before the employee's retirement.

(8) *Employee stock ownership plans (ESOP)* (i) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property. Costs of ESOP's are allowable subject to the following conditions:

(A) Contributions by the contractor in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees participating in the plan in any particular year.

(B) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP, or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution rate shall be subject to the contracting officer's approval.

(C) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific year, the expense associated with that liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(D) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(E) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; e.g., makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust to determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

(ii) Amounts contributed to an ESOP arising from either (A) an additional investment tax credit (see 1975 Tax Reduction Act—TRASOP's); or (B) a payroll-based tax credit (see Economic Recovery Tax Act of 1981) are unallowable.

(iii) The requirements of subdivision (j)(3)(ii) above are applicable to Employee Stock Ownership Plans.

(k) *Deferred compensation.* (1) Deferred compensation is an award given by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of receipt of compensation by the employee. Deferred compensation does not include the amount of year-end accruals for salaries, wages, or bonuses that are paid within a reasonable period of time after the end of a cost accounting period. Subject to 31.205-6(a), deferred awards are allowable when they are based on current or future services. Awards made in periods subsequent to the period when the work being remunerated was performed are not allowable.

(2) The costs of deferred awards shall be measured, allocated, and accounted for in compliance with the provisions of 30.415, Accounting for the Cost of Deferred Compensation.

(3) Deferred compensation payments to employees under awards made before the effective date of 30.415 are allowable to the extent they would have been allowable under prior acquisition regulations.

(l) *Compensation incidental to business acquisitions.* The following costs are unallowable:

(1) Payments to employees under agreements in which they receive special compensation, in excess of the contractor's normal severance pay practice, if their employment terminates following a change in the management control over, or ownership of, the contractor or a substantial portion of its assets.

(2) Payments to employees under plans introduced in connection with a change (whether actual or prospective) in the management control over, or ownership of, the contractor or a substantial portion of its assets in which those employees receive special compensation, which is contingent upon the employee remaining with the contractor for a specified period of time.

(m) *Fringe benefits.* (1) Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. Fringe benefits include, but are not limited to, the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans. Except as provided elsewhere in subpart 31.2, the costs of fringe benefit are allowable to the extent that they are reasonable and are required by law, employer-employee agreement, or an established policy of the contractor.

(2) That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is unallowable regardless of whether the cost is reported as taxable income to the employees (see 31.205-46(f)).

(n) *Employee rebate and purchase discount plans.* Rebates and purchase discounts, in whatever form, granted to employees on products or services produced by the contractor or affiliates are unallowable.

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 12299, Apr. 9, 1986; 51 FR 31426, Sept. 3, 1986; 52 FR 19804, May 27, 1987; 53 FR 10830, Apr. 1, 1988; 53 FR 34228, Sept. 2, 1988; 54 FR 13024, Mar. 29, 1989; 54 FR 34755, Aug. 21, 1989; 54 FR 18507, May 1, 1989; 54 FR 51401, Dec. 15, 1989]

31.205-7 Contingencies.

(a) *Contingency,* as used in this subpart, means a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) Costs for contingencies are generally unallowable for historical costing purposes because such costing deals with costs incurred and recorded on the contractor's books. However, in some cases, as for example, terminations, a contingency factor may be recognized when it is applicable to a past period to give recognition to minor unsettled factors in the interest of expediting settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those that may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy, e.g., anticipated costs of rejects and defective work. Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; e.g., results of pending litigation. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See, for example, 31.205-6(g), 31.205-19, and 31.205-24.)

31.205-8 Contributions or donations.

Contributions or donations, including cash, property and services, regardless of recipient, are unallowable, except as provided in 31.205-1(e)(3).

[51 FR 12300, Apr. 9, 1986]

31.205-9 [Reserved]

31.205-10 Cost of money.

(a) *Facilities capital cost of money*—(1) *General.* (i) Facilities capital cost of money (cost of capital committed to facilities) is an imputed cost determined by applying a cost-of-money rate to facilities capital employed in contract performance. A cost-of-money rate is uniformly imputed to all contractors (see subdivision (ii) below). Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowings (see 31.205-20).

(ii) 30.414, Cost of Money as an Element of the Cost of Facilities Capital, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to facilities. Cost-of-money factors are developed on Form CASB-CMF, broken down by overhead pool at the business unit, using (A) business-unit facilities capital data, (B) overhead allocation base data, and (C) the cost-of-money rate, which is based on interest rates specified by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2).

(2) *Allowability.* Whether or not the contract is otherwise subject to CAS, facilities capital cost of money is allowable if—

(i) The contractor's capital investment is measured, allocated to contracts, and costed in accordance with 30.414;

(ii) The contractor maintains adequate records to demonstrate compliance with this standard;

(iii) The estimated facilities capital cost of money is specifically identified or proposed in cost proposals relating to the contract under which this cost is to be claimed; and

(iv) The requirements of 31.205-52, which limit the allowability of facilities capital cost of money, are observed.

(3) *Accounting.* The facilities capital cost of money need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* Facilities capital cost of money that is (i) allowable under paragraph (2) above, and (ii) calculated, allocated, and documented in accordance with this cost principle shall be an *incurred cost* for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

(5) The cost of money resulting from including asset valuations resulting from business combinations in the facilities capital employed base is unallowable (see 31.205-52).

(b) *Cost of money as an element of the cost of capital assets under construction*—(1) *General.* (i) Cost of money as an element of the cost of capital assets under construction is an imputed cost determined by applying a cost-of-money rate to the investment in tangible and intangible capital assets while they are being constructed, fabricated, or developed for a contractor's own use. Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowing (see 31.205-20).

(ii) 30.417, Cost of Money as an Element of the Cost of Capital Assets Under Construction, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to capital assets under construction, fabrication, or development.

(2) *Allowability.* (i) Whether or not the contract is otherwise subject to CAS, and except as specified in subdivision (ii) below, the cost of money for capital assets under construction, fabrication, or development is allowable if—

(A) The cost of money is calculated, allocated to contracts, and costed in accordance with 30.417;

(B) The contractor maintains adequate records to demonstrate compliance with this standard;

(C) The cost of money for tangible capital assets is included in the capitalized cost that provides the basis for allowable depreciation costs, or, in the case of intangible capital assets, the cost of money is included in the cost of those assets for which amortization costs are allowable; and

(D) The requirements of 31.205-52, which limit the allowability of cost of money for capital assets under construction, fabrication, or development, are observed.

(ii) Actual interest cost in lieu of the calculated imputed cost of money for capital assets under construction, fabrication, or development is unallowable.

(3) *Accounting.* The cost of money for capital assets under construction need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* The cost of money for capital assets under construction that is allowable under paragraph (2) above of this cost principle shall be an *incurred cost* for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

[48 FR 42301, Sept. 19, 1983, as amended at 49 FR 26743, June 29, 1984; 52 FR 35669, Sept. 22, 1987; 55 FR 25530, June 21, 1990]

31.205-11 Depreciation.

(a) Depreciation is a charge to c
rent operations which distributes t
cost of a tangible capital asset, less
timated residual value, over the es
mated useful life of the asset in a sy
tematic and logical manner. It do
not involve a process of valuatio
Useful life refers to the prospecti
period of economic usefulness in a pa
ticular contractor's operations as di
tinguished from physical life; it is ev
denced by the actual or estimated r
tirement and replacement practice
the contractor.

(b) Contractors having contract
subject to 30.409, Depreciation of Ta
gible Capital Assets, must adhere t
the requirement of that standard fo
all fully CAS-covered contracts an
may elect to adopt the standard for al
other contracts. All requirements o
30.409 are applicable if the election i
made, and its requirements supersede
any conflicting requirements of thi
cost principle. Once electing to adopt
30.409 for all contracts, contractor
must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts. Paragraphs (c) through (e) below apply to contracts to which 30.409 is not applied.

(c) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable contract cost, if the contractor is able to demonstrate that it is reasonable and allocable (but see paragraph (i) below).

(d) Depreciation shall be considered reasonable if the contractor follows policies and procedures that are—

(1) Consistent with those followed in the same cost center for business other than Government;

(2) Reflected in the contractor's books of accounts and financial statements; and

(3) Both used and acceptable for Federal income tax purposes.

(e) When the depreciation reflected on a contractor's books of accounts and financial statements differs from that used and acceptable for Federal income tax purposes, reimbursement shall be based on the asset cost amortized over the estimated useful life of the property using depreciation methods (straight line, sum of the years' digits, etc.) acceptable for income tax purposes. Allowable depreciation shall not exceed the amounts used for book and statement purposes and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same cost center on non-Government business.

(f) Depreciation for reimbursement purposes in the case of tax-exempt organizations shall be determined on the basis described in paragraph (e) immediately above.

(g) Special considerations are required for assets acquired before the effective date of this cost principle if, on that date, the undepreciated balance of these assets resulting from depreciation policies and procedures used previously for Government contracts and subcontracts is different from the undepreciated balance on the books and financial statements. The undepreciated balance for contract cost purposes shall be depreciated over the remaining life using the methods and lives followed for book purposes. The aggregate depreciation of any asset allowable after the effective date of this 31.205-11 shall not exceed the cost basis of the asset less any depreciation allowed or allowable under prior acquisition regulations.

(h) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives in paragraph (a) above, vary with volume of production or use of multishift operations.

(i) In the case of emergency facilities covered by certificates of necessity, a contractor may elect to use normal depreciation without requesting a determination of *true depreciation*, or may elect to use either normal or *true depreciation* after a determination of *true depreciation* has been made by an Emergency Facilities Depreciation Board (EFDB). The method elected must be followed consistently thoughout the life of the emergency facility. When an election is made to use normal depreciation, the criteria in paragraphs (c), (d), (e), and (f) above shall apply for both the emergency period and the post-emergency period. When an election is made to use *true depreciation*, the amount allowable as depreciation—

(1) With respect to the emergency period (five years), shall be computed in accordance with the determination of the EFDB and allocated rateably over the full five year emergency period; *provided* no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(2) After the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered *true depreciation*.

(j) No depreciation, rental, or use charge shall be allowed on property acquired at no cost from the Government by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(k) The depreciation on any item which meets the criteria for allowance at a *price* under 31.205-26(e) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(l) No depreciation or rental shall be allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but see 31.109(h)(2)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(m) 30.404, Capitalization of Tangible Assets, applies to assets acquired by a *capital lease* as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for

Leases, issued by the Financial Accounting Standards Board (FASB). Compliance with 30.404 and FAS-13 requires that such leased assets (capital leases) be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the leased life as amortization charges as appropriate. Assets whose leases are classified as capital leases under FAS-13 are subject to the requirements of 31.205-11 while assets acquired under leases classified as operating leases are subject to the requirements on rental costs in 31.205-36. The standards of financial accounting and reporting prescribed by FAS-13 are incorporated into this principle and shall govern its application, except as provided in subparagraphs (1), (2), and (3) below.

(1) Rental costs under a sale and leaseback arrangement shall be allowable up to the amount that would have been allowed had the contractor retained title to the property.

(2) Capital leases, as defined in FAS-13, for all real and personal property, between any related parties are subject to the requirements of this subparagraph 31.205-11(m). If it is determined that the terms of the lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges shall not be allowed in excess of those which would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

(3) Assets acquired under leases that the contractor must capitalize under FAS-13 shall not be treated as purchased assets for contract purposes if the leases are covered by 31.205-36(b)(4).

(n) Whether or not the contract is otherwise subject to CAS, the requirements of 31.205-52, which limit the allowability of depreciation, shall be observed.

[48 FR 42301, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

31.205-12 Economic planning costs.

(a) This category includes costs of generalized long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs do not include organization or reorganization costs covered by 31.205-27.

(b) Economic planning costs are allowable as indirect costs to be properly allocated.

(c) Research and development and engineering costs designed to lead to new products for sale to the general public are not allowable under this principle.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, except as limited by paragraph (b) immediately below, and to the extent that the net amount is reasonable. Some examples are house publications, health clinics, recreation, employee counseling services, and food and dormitory services, which include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities.

(b) Losses from operating food and dormitory services may be included as costs only if the contractor's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to the accomplishment of the above objective are not allowable. A loss may be allowed, however, to the extent that the contractor can demonstrate that unusual circumstances exist (e.g., (1) where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available, or (2) where charged but unproductive labor costs would be excessive but for the services provided or where cessation or reduction of food or dormitory operations will not otherwise yield net cost savings) such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Costs of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(c) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (d) immediately below).

(d) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, may be included as costs incurred under paragraph (a) above only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 12300, Apr. 9, 1986]

31.205-14 Entertainment costs.

Costs of amusement, diversion, social activities, and any directly associated costs such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities are unallowable (but see 31.205-1 and 31.205-13). Costs of membership in social, dining, or country clubs or other organizations having the same purposes are also unallowable, regardless of whether the cost is reported as taxable ncome to the employees.

51 FR 12300, Apr. 9, 1986]

1.205-15 Fines, penalties, and mischarging costs.

(a) Costs of fines and penalties reulting from violations of, or failure of the contractor to comply with, Federal, State, local, or foreign laws and regulations, are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

(b) Costs incurred in connection with, or related to, the mischarging of costs on Government contracts are unallowable. Such costs include those incurred to identify, measure, or otherwise determine the magnitude of the improper charging, and costs incurred to remedy or correct the mischarging, such as the costs to rescreen and reconstruct records.

[51 FR 12301, Apr. 9, 1986, as amended at 54 FR 13024, Mar. 29, 1989]

31.205-16 Gains and losses on disposition of depreciable property or other capital assets.

(a) Gains and losses from the sale, retirement, or other disposition (but see 31.205-19) of depreciable property shall be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (but see paragraph (d) of this subsection). However, no gain or loss shall be recognized as a result of the transfer of assets in a business combination (see 31.205-52).

(b) Gains and losses on disposition of tangible capital assets, including those acquired under capital leases (see 31.205-11(m), shall be considered as adjustments of depreciation costs previously recognized. The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is capitalized) of the asset and its undepreciated balance (except see subdivisions (c)(2)(i) or (ii) below).

(c) Special considerations apply to an involuntary conversion which occurs when a contractor's property is destroyed by events over which the owner has no control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following govern involuntary conversions:

(1) When there is a cash award and the converted asset is not replaced, gain or loss shall be recognized in the period of disposition. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor shall either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government shall participate to the same extent as outlined in subparagraph (c)(1) above.

(d) Gains and losses on the disposition of depreciable property shall not be recognized as a separate charge or credit when—

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(e) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition other than through business combinations shall be considered on a case-by-case basis.

(f) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property shall be excluded in computing contract costs.

[48 FR 42301, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

31.205-17 Idle facilities and idle capacity costs.

(a) *Costs of idle facilities or idle capacity,* as used in this subsection, means costs such as maintenance, repair, housing, rent, and other related costs; e.g., property taxes, insurance, and depreciation.

Facilities, as used in this subsection, means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

Idle capacity, as used in this subsection, means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

Idle facilities, as used in this subsection, means completely unused facilities that are excess to the contractor's current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload; or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes which could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (but see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable provided the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities or

le capacity reserved for defense mo-
lization production shall be the sub-
ct of a separate agreement.

.205–18 Independent research and development and bid and proposal costs.

(a) *Definitions.*

Applied research, as used in this sub-
ction, means that effort which (1)
ormally follows basic research, but
ay not be severable from the related
sic research, (2) attempts to deter-
ine and exploit the potential of sci-
tific discoveries or improvements in
chnology, materials, processes,
ethods, devices, or techniques, and
) attempts to advance the state of
e art. Applied research does not in-
ude efforts whose principal aim is
sign, development, or test of specific
ems or services to be considered for
le; these efforts are within the defi-
tion of the term *development,* de-
ed below.

Basic research, as used in this sub-
ction, means that research which is
rected toward increase of knowledge
science. The primary aim of basic
search is a fuller knowledge or un-
rstanding of the subject under
dy, rather than any practical appli-
ion thereof.

id and proposal (B&P) costs, as
ed in this subsection, means the
ts incurred in preparing, submit-
g, and supporting bids and propos-
(whether or not solicited) on po-
tial Government or non-Govern-
nt contracts. The term does not in-
de the costs of effort sponsored by
rant or cooperative agreement or
uired in contract performance.

ompany, as used in this subsection,
ans all divisions, subsidiaries, and
iliates of the contractor under
nmon control.

evelopment, as used in this subsec-
, means the systematic use, under
atever name, of scientific and tech-
al knowledge in the design, develop-
nt, test, or evaluation of a potential
product or service (or of an im-
vement in an existing product or
vice) for the purpose of meeting
cific performance requirements or
ectives. Development includes the
ctions of design engineering, proto-
ng, and engineering testing. Devel-
ent excludes: (1) subcontracted
technical effort which is for the sole purpose of developing an additional source for an existing product, or (2) development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

Independent research and development (IR&D) means a contractor's IR&D cost that is not sponsored by, or required in performance of, a contract or grant and that consists of projects falling within the four following areas: (1) basic research, (2) applied research, (3) development, and (4) systems and other concept formulation studies. IR&D effort shall not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

Systems and other concept formulation studies, as used in this subsection, means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipments or components, or modifications and improvements to existing systems, equipments, or components.

(b) *Composition and allocation of costs.* The requirements of 30.420, Accounting for Independent Research and Development Costs and Bid and Proposal Costs, are incorporated in their entirety and shall apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered shall be subject to all requirements of 30.420.

(2) *Modified-CAS-covered and non-CAS-covered contracts.* Contracts that are not CAS-covered or that contain terms or conditions requiring modified CAS coverage shall be subject to all requirements of 30.420 *except* 4 CFR 420.50(e)(2) and 4 CFR 420.50(f)(2), which are not then applicable. However, non-CAS covered or modified CAS-covered contracts awarded at a time the contractor has CAS-covered contracts requiring compliance with 30.420, shall be subject to all the requirements of 30.420. When the requirements of 4 CFR 420.50(e)(2) and 4 CFR 420.50(f)(2) are not applicable, the following apply:

(i) IR&D and B&P costs shall be allocated to final cost objectives on the same basis of allocation used for the G&A expense grouping of the profit center (see 31.001) in which the costs are incurred. However, when IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs shall be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(ii) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraph (d) below, costs for IR&D and B&P are allowable only in accordance with the following:

(1) *Companies required to negotiate advance agreements.*

(i) Any company that received payments for IR&D and B&P costs in a fiscal year, either as a prime contractor or subcontractor, exceeding $5,400,000 from Government agencies, is required to negotiate with the Government an advance agreement which establishes a ceiling for allowability of IR&D and B&P costs for the following fiscal year. This agreement is binding on all Government agencies, unless prohibited by statute. The requirements of section 203 of Pub. L. 91-441 necessitate that the Department of Defense (DOD) be the lead negotiating agency when the contractor has received more than $5,400,000 in payments for IR&D and B&P from DOD. Computation of IR&D and B&P costs to determine whether the threshold criterion was reached shall include only recoverable IR&D and B&P costs allocated during the company's previous fiscal year to prime contracts and subcontracts for which the submission and certification of cost or pricing data were required. (Also see paragraph (b) above and 15.804.) The computation shall include full burdening pursuant to 30.420.

(ii) When a company meets the criterion in (i) above, required advance agreements may be negotiated at the corporate level and/or with those profit centers that contract directly with the Government and that in the preceding year allocated recoverable IR&D and B&P costs exceeding $675,000, including burdening, to contracts and subcontracts for which the submission and certification of cost or pricing data were required (also see paragraph (b) above and 15.804). When ceilings are negotiated for separate profit centers of the company, the allowability of IR&D and B&P costs for any center that in its previous fiscal year did not reach the $675,000 threshold may be determined in accordance with subparagraph (c)(2) below.

(iii) Ceilings are the maximum dollar amounts of total IR&D and B&P costs that will be allowable for allocation over the appropriate base for that part of the company's operation covered by an advance agreement.

(iv) No IR&D and B&P cost shall be allowable if a company fails to initiate negotiation of a required advance agreement before the end of the fiscal year for which the agreement is required.

(v) When negotiations are held with a company meeting the $5,400,000 criterion or with separate profit centers (when negotiations are held at that level under (ii) above), and if no advance agreement is reached, payment for IR&D and B&P costs shall be reduced below that which the company or profit center would have otherwise received. The amount of such reduced payment shall not exceed 75 percent of the amount which, in the opinion of the contracting officer, the company or profit center would be entitled to receive under an advance agreement. Written notification of the contracting officer's determination of a reduced amount shall be provided the contractor. In the event that an advance agreement is not reached before the end of the contractor's fiscal year for which the agreement is to apply, negotiations shall immediately be terminated, and the contracting officer shall furnish a determination of the reduced amount.

(vi) Contractors may appeal decisions of the contracting officer to reduce payment. The appeal shall be filed with the contracting officer within 30 days of receipt of the contracting officer's determination. (Also see subpart 42.10.)

(2) *Companies not required to negotiate advance agreements.* Ceilings for allowable IR&D and B&P costs for companies not required to negotiate advance agreements in accordance with subparagraph (c)(1) above shall be established by a formula, either on a company-wide basis or by profit centers, computed as follows:

(i) Determine the ratio of IR&D/B&P costs to total sales (or other base acceptable to the contracting officer) for each of the preceding three years and average the two highest of these ratios; this average is the IR&D/B&P historical ratio;

(ii) Compute the average annual IR&D/B&P costs (hereafter called average), using the two highest of the preceding three years;

(iii) IR&D/B&P costs for the center for the current year which are not in excess of the product of the center's actual total sales (or other accepted base) for the current year and the IR&D/B&P historical ratio computed under (i) above (hereafter called product) shall be considered allowable only o the extent the product does not xceed 120 percent of the average. If he product is less than 80 percent of he average, costs up to 80 percent of he average shall be allowable.

(iv) However, at the discretion of the ontracting officer, an advance agree- ent may be negotiated when the con- actor can demonstrate that the for- ula would produce a clearly inequita- le cost recovery.

(d) *Deferred IR&D and B&P costs.*) IR&D costs that were incurred in evious accounting periods are unal- wable, except when a contractor has veloped a specific product at its own k in anticipation of recovering the velopment costs in the sale price of e product provided that—

i) The total amount of IR&D costs plicable to the product can be iden- ed;

i) The proration of such costs to s of the product is reasonable;

ii) The contractor had no Govern- nt business during the time that costs were incurred or did not allo- IR&D costs to Government con- ts except to prorate the cost of developing a specific product to the sales of that product; and

(iv) No costs of current IR&D programs are allocated to Government work except to prorate the costs of developing a specific product to the sales of that product.

(2) When deferred costs are recognized, the contract (except firm-fixed-price and fixed-price with economic price adjustment) will include a specific provision setting forth the amount of deferred IR&D costs that are allocable to the contract. The negotiation memorandum will state the circumstances pertaining to the case and the reason for accepting the deferred costs.

[48 FR 42301, Sept. 19, 1983, as amended at 49 FR 12986, Mar. 30, 1984; 55 FR 25530, June 21, 1990]

31.205–19 Insurance and indemnification.

(a) Insurance by purchase or by self-insuring includes coverage the contractor is required to carry, or to have approved, under the terms of the contract and any other coverage the contractor maintains in connection with the general conduct of its business. Any contractor desiring to establish a program of self-insurance applicable to contracts that are not subject to 30.416, Accounting for Insurance Costs, shall comply with the self-insurance requirements of that standard as well as with part 28 of this Regulation. However, approval of a contractor's insurance program in accordance with part 28 does not constitute a determination as to the allowability of the program's cost. The amount of insurance costs which may be allowed is subject to the cost limitations and exclusions in the following subparagraphs.

(1) Costs of insurance required or approved, and maintained by the contractor pursuant to the contract, are allowable.

(2) Costs of insurance maintained by the contractor in connection with the general conduct of its business are allowable, subject to the following limitations:

(i) Types and extent of coverage shall follow sound business practice, and the rates and premiums must be reasonable.

(ii) Costs allowed for business interruption or other similar insurance must be limited to exclude coverage of profit.

(iii) The cost of property insurance premiums for insurance coverage in excess of the acquisition cost of the insured assets is allowable only when the contractor has a formal written policy assuring that in the event the insured property is involuntarily converted, the new asset shall be valued at the book value of the replaced asset plus or minus adjustments for differences between insurance proceeds and actual replacement cost. If the contractor does not have such a formal written policy, the cost of premiums for insurance coverage in excess of the acquisition cost of the insured asset is unallowable.

(iv) Costs of insurance for the risk of loss of or damage to Government property are allowable only to the extent that the contractor is liable for such loss or damage and such insurance does not cover loss or damage that results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers or other equivalent representatives.

(v) Contractors operating under a program of self-insurance must obtain approval of the program when required by 28.308(a).

(vi) Costs of insurance on the lives of officers, partners, or proprietors are allowable only to the extent that the insurance represents additional compensation (see 31.205-6).

(3) Actual losses are unallowable unless expressly provided for in the contract, except—

(i) Losses incurred under the nominal deductible provisions of purchased insurance, in keeping with sound business practice, are allowable for contracts not subject to 30.416 and when the contractor did not establish a self-insurance program. Such contracts are not subject to the self-insurance requirements of 30.416. For contracts subject to 30.416, and for those made subject to the self-insurance requirements of that Standard as a result of the contractor's having established a self-insurance program (see paragraph (a) above), actual losses may be used as a basis for charges under a self-insurance program when the actual amount of losses will not differ significantly from the projected average losses for the accounting period (see CFR 416.50(a)(2)(ii)). In those instances where an actual loss has occurred and the present value of the liability is determined under the provisions of 30.416-50(a)(3)(ii), the allowable cost shall be limited to an amount computed using as a discount rate the interest rate determined by the Secretary of the Treasury pursuant to U.S.C. App. 1215(b)(2) in effect at the time the loss is recognized. However, the full amount of a lump-sum settlement to be paid within a year of the date of settlement is allowable.

(ii) Minor losses, such as spoilage, breakage, and disappearance of small hand tools that occur in the ordinary course of doing business and that are not covered by insurance are allowable.

(4) The cost of insurance to protect the contractor against the costs of correcting its own defects in materials or workmanship is unallowable. However, insurance costs to cover fortuitous or casualty losses resulting from defects in materials or workmanship are allowable as a normal business expense.

(5) Premiums for retroactive or backdated insurance written to cover occurred and known losses are unallowable.

(b) If purchased insurance is available, the charge for any self-insurance coverage plus insurance administration expenses shall not exceed the cost of comparable purchased insurance plus associated insurance administration expenses.

(c) Insurance provided by captive insurers (insurers owned by or under the control of the contractor) is considered self-insurance, and charges for it must comply with the self-insurance provisions of 30.416. However, if the captive insurer also sells insurance to the general public in substantial quantities and it can be demonstrated that the charge to the contractor is based on competitive market forces, the insurance will be considered purchased insurance.

(d) The allowability of premiums for insurance purchased from fronting insurance companies (insurance companies not related to the contractor but who reinsure with a captive insurer of the contractor) shall not exceed the amount (plus reasonable fronting company charges for services rendered) which the contractor would have been allowed had it insured directly with the captive insurer.

(e) Self-insurance charges for risks of catastrophic losses are not allowable (see 28.308(e)).

(f) The Government is obligated to indemnify the contractor only to the extent authorized by law, as expressly provided for in the contract, except as provided in paragraph (a)(3) above.

(g) Late premium payment charges related to employee deferred compensation plan insurance incurred pursuant to section 4007 (29 U.S.C. 1307) or section 4023 (29 U.S.C. 1323) of the Employee Retirement Income Security Act of 1974 are unallowable.

[48 FR 42301, Sept. 19, 1983, as amended at 50 FR 23697, June 4, 1985; 51 FR 31426, Sept. 3, 1986]

31.205-20 Interest and other financial costs.

Interest on borrowings (however represented), bond discounts costs of financing and refinancing capital (net worth plus long-term liabilities), legal and professional fees paid in connection with preparing prospectuses, costs of preparing and issuing stock rights, and directly associated costs are unallowable except for interest assessed by State or local taxing authorities under the conditions specified in 31.205-41 (but see 31.205-28).

31.205-21 Labor relations costs.

Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of shop stewards, labor management committees, employee publications, and other related activities, are allowable.

31.205-22 Legislative lobbying costs.

(a) Costs associated with the following activities are unallowable:

(1) Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in kind or cash contributions, endorsements, publicity, or similar activities;

(2) Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections;

(3) Any attempt to influence (i) the introduction of Federal or state legislation, or (ii) the enactment or modification of any pending Federal or state legislation through communication with any member or employee of the Congress or state legislature (including efforts to influence state or local officials to engage in similar lobbying activity), or with any government official or employee in connection with a decision to sign or veto enrolled legislation;

(4) Any attempt to influence (i) the introduction of Federal or state legislation, or (ii) the enactment or modification of any pending Federal or state legislation by preparing, distributing or using publicity or propaganda, or by urging members of the general public or any segment thereof to contribute to or participate in any mass demonstration, march, rally, fund raising drive, lobbying campaign or letter writing or telephone campaign; or

(5) Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable activities.

(b) The following activities are excepted from the coverage of (a) above:

(1) Providing a technical and factual presentation of information on a topic directly related to the performance of a contract through hearing testimony, statements or letters to the Congress or a state legislature, or subdivision, member, or cognizant staff member thereof, in response to a documented request (including a Congressional Record notice requesting testimony or statements for the record at a regularly scheduled hearing) made by the recipient member, legislative body or

subdivision, or a cognizant staff member thereof; provided such information is readily obtainable and can be readily put in deliverable form; and further provided that costs under this section for transportation, lodging or meals are unallowable unless incurred for the purpose of offering testimony at a regularly scheduled Congressional hearing pursuant to a written request for such presentation made by the Chairman or Ranking Minority Member of the Committee or Subcommittee conducting such hearing.

(2) Any lobbying made unallowable by (a)(3) above to influence state legislation in order to directly reduce contract cost, or to avoid material impairment of the contractor's authority to perform the contract.

(3) Any activity specifically authorized by statute to be undertaken with funds from the contract.

(c) When a contractor seeks reimbursement for indirect costs, total lobbying costs shall be separately identified in the indirect cost rate proposal, and thereafter treated as other unallowable activity costs.

(d) Contractors shall submit as part of their annual indirect cost rate proposals a certification that the requirements and standards of this subsection have been complied with.

(e) Contractors shall maintain adequate records to demonstrate that the certification of costs as being allowable or unallowable pursuant to this subsection complies with the requirements of this subsection.

(f) Time logs, calendars, or similar records shall not be required to be created for purposes of complying with this subsection during any particular calendar month when—

(1) The employee engages in lobbying (as defined in paragraphs (a) and (b) of this subsection) 25 percent or less of the employee's compensated hours of employment during that calendar month; and

(2) Within the preceding 5-year period, the organization has not materially misstated allowable or unallowable costs of any nature, including legislative lobbying costs.

When the conditions of subparagraphs (f)(1) and (2) of this subsection are met, contractors are not required to establish records to support the lowability of claimed costs in additi to records already required or ma tained. Also, when the conditions subparagraphs (f)(1) and (2) of t subsection are met, the absence time logs, calendars, or similar recor will not serve as a basis for disallowi costs by contesting estimates of lob ing time spent by employees during calendar month.

(g) Existing procedures should utilized to resolve in advance any nificant questions or disagreemen concerning the interpretation or app cation of this subsection.

[49 FR 18278, Apr. 27, 1984, as amended 51 FR 12301, Apr. 9, 1986; 52 FR 19804, M 27, 1987]

31.205-23 Losses on other contracts.

An excess of costs over income und any other contract (including the co tractor's contributed portion und cost-sharing contracts) is unallowab

31.205-24 Maintenance and repair costs.

(a) Costs necessary for the upkeep property (including Government pro erty, unless otherwise provided fo that neither add to the permane value of the property nor apprecia prolong its intended life, but keep it an efficient operating condition, are be treated as follows (but see 31.20 11):

(1) Normal maintenance and repa costs are allowable.

(2) Extraordinary maintenance a repair costs are allowable, provid those costs are allocated to the app cable periods for purposes of dete mining contract costs (but see 31.10

(b) Expenditures for plant a equipment, including rehabilitati which should be capitalized and su ject to depreciation, according to ge erally accepted accounting principl as applied under the contractor's e tablished policy or, when applicab according to 30.404, Capitalization o Tangible Assets, are allowable only o a depreciation basis.

31.205-25 Manufacturing and producti engineering costs.

(a) The costs of manufacturing an production engineering effort as d scribed in (1) through (4) below are all allowable:

(1) Developing and deploying new or improved materials, systems, processes, methods, equipment, tools and techniques that are or are expected to be used in producing products or services;

(2) Developing and deploying pilot production lines;

(3) Improving current production functions, such as plant layout, production scheduling and control, methods and job analysis, equipment capabilities and capacities, inspection techniques, and tooling analysis (including tooling design and application improvements); and

(4) Material and manufacturing producibility analysis for production suitability and to optimize manufacturing processes, methods, and techniques.

(b) This cost principle does not cover:

(1) Basic and applied research effort (as defined in 31.205-18(a)) related to new technology, materials, systems, processes, methods, equipment, tools and techniques. Such technical effort is governed by 31.205-18, Independent research and development costs and bid and proposal costs; and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools and techniques that are intended for sale is also governed by 31.205-18.

(c) Where manufacturing or production development costs are capitalized or required to be capitalized under the contractor's capitalization policies, allowable cost will be determined in accordance with the requirements of 31.205-11, Depreciation.

31.205-26 Material costs.

(a) Material costs include the costs of such items as raw materials, parts, sub-assemblies, components, and manufacturing supplies, whether purchased or manufactured by the contractor, and may include such collateral items as inbound transportation and intransit insurance. In computing material costs, consideration shall be given to reasonable overruns, spoilage, or defective work (unless otherwise provided in any contract provision relating to inspecting and correcting defective work). These costs are allowable, subject to the requirements of paragraphs (b) through (e) below.

(b) Costs of material shall be adjusted for income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap, salvage, and material returned to vendors. Such income and other credits shall either be credited directly to the cost of the material or be allocated as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, lost discounts need not be credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs; *provided*, such adjustments relate to the period of contract performance.

(d) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable. When estimates of future material costs are required, current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materials, supplies, and services that are sold or transferred between any divisions, subsidiaries, or affiliates of the contractor under a common control shall be on the basis of cost incurred in accordance with this subpart. However, allowance may be at a price when it is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, and when the price—

(1) Is or is based on an *established catalog or market price of commercial items sold in substantial quantities to the general public* in accordance with 15.804; or

(2) Is the result of *adequate price competition* in accordance with 15.804 and is the price at which an award was made to the affiliated organization after obtaining quotations on an equal basis from such organization and one or more outside sources that produce the item or its equivalent in significant quantity.

(3) Provided, that in either subparagraph (1) or (2) above—

(i) The price is not in excess of the transferor's current sales price to its most favored customer (including any division, subsidiary or affiliate of the contractor under a common control) for a like quantity under comparable conditions; and

(ii) The contracting officer has not determined the price to be unreasonable.

(f) The price determined in accordance with subparagraph (e)(1) above should be adjusted to reflect the quantities being acquired and may be adjusted to reflect actual cost of any modifications necessary because of contract requirements.

31.205-27 Organization costs.

(a) Except as provided in paragraph (b) of this section, expenditures in connection with (1) planning or executing the organization or reorganization of the corporate structure of a business, including mergers and acquisitions, (2) resisting or planning to resist the reorganization of the corporate structure of a business or a change in the controlling interest in the ownership of a business, and (3) raising capital (net worth plus long-term liabilities), are unallowable. Such expenditures include but are not limited to incorporation fees and costs of attorneys, accountants, brokers, promoters and organizers, management consultants and investment counselors, whether or not employees of the contractor. Unallowable *reorganization* costs include the cost of any change in the contractor's financial structure, excluding administrative costs of short-term borrowings for working capital, resulting in alterations in the rights and interests of security holders, whether or not additional capital is raised.

(b) The cost of activities primarily intended to provide compensation will not be considered organizational costs subject to this subsection, but will be governed by 31.205-6. These activities include acquiring stock for (1) executive bonuses, (2) employee savings plans, and (3) employee stock ownership plans.

[48 FR 42301, Sept. 19, 1983, as amended at 53 FR 10830, Apr. 1, 1988]

31.205-28 Other business expenses.

The following types of recurring costs are allowable when allocated on an equitable basis:

(a) Registry and transfer charges resulting from changes in ownership of securities issued by the contractor.

(b) Cost of shareholders' meetings.

(c) Normal proxy solicitations.

(d) Preparing and publishing reports to shareholders.

(e) Preparing and submitting required reports and forms to taxing and other regulatory bodies.

(f) Incidental costs of directors' and committee meetings.

(g) Other similar costs.

31.205-29 Plant protection costs.

Costs of items such as (a) wages, uniforms, and equipment of personnel engaged in plant protection, (b) depreciation on plant protection capital assets and (c) necessary expenses to comply with military requirements, are allowable.

31.205-30 Patent costs.

(a) The following patent costs are allowable to the extent that they are incurred as requirements of a Government contract (but see 31.205-33):

(1) Costs of preparing invention disclosures, reports, and other documents.

(2) Costs for searching the art to the extent necessary to make the invention disclosures.

(3) Other costs in connection with the filing and prosecution of a United States patent application where title or royalty-free license is to be conveyed to the Government.

(b) General counseling services relating to patent matters, such as advice on patent laws, regulations, clauses

Reproduced from poor document.

best copy available

and employee agreements, are allowable (but see 31.205-33).

(c) Other than those for general counseling services, patent costs not required by the contract are unallowable. (See also 31.205-37.)

31.205-31 Plant reconversion costs.

Plant reconversion costs are those incurred in restoring or rehabilitating the contractor's facilities to approximately the same condition existing immediately before the start of the Government contract, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon before costs are incurred. Care should be exercised to avoid duplication through allowance as contingencies, additional profit or fee, or in other contracts.

31.205-32 Precontract costs.

Precontract costs are those incurred before the effective date of the contract directly pursuant to the negotiation and in anticipation of the contract award when such incurrence is necessary to comply with the proposed contract delivery schedule. Such costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (see 31.109).

31.205-33 Professional and consultant service costs.

(a) *Definition. Professional and consultant services,* as used in this subpart, are those services rendered by persons who are members of a particular profession or possess a special skill and who are not officers or employees of the contractor. Examples include those services acquired by contractors or subcontractors in order to enhance their legal, economic, financial, or technical positions. Professional and consultant services are generally acquired to obtain information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance, such as studies, analyses, evaluations, liaison with Government officials, or other forms of representation.

(b) Costs of professional and consultant services are allowable subject to this paragraph and paragraphs (c) through (h) of this subsection when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (but see 31.205-30).

(c) Costs of professional and consultant services performed under any of the following circumstances are unallowable:

(1) Services to improperly obtain, distribute, or use information or data protected by law or regulation (e.g., FAR 52.215-12, Restriction on Disclosure and Use of Data);

(2) Services that are intended to improperly influence the contents of solicitations, the evaluation of proposals or quotations, or the selection of sources for contract award, whether award is by the Government, or by a prime contractor or subcontractor; or

(3) Any other services obtained, performed, or otherwise resulting in violation of any statute or regulation prohibiting improper business practices or conflicts of interest;

(4) Services performed which are not consistent with the purpose and scope of the services contracted for or otherwise agreed to.

(d) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with organization and reorganization (see also 31.205-27), defense of antitrust suits, defense against Government claims or appeals, or the prosecution of claims or appeals against the Government (see 33.201) are unallowable (but see 31.205-47). Such costs incurred in connection with patent infringement litigation are unallowable unless otherwise provided for in the contract.

(e) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with the defense or prosecution of lawsuits or appeals between contractors arising from either:

(1) An agreement or contract concerning a teaming arrangement, a joint venture, or similar arrangement of shared interest, or

(2) Dual sourcing, co-production, or similar programs, are unallowable, except when—

(i) Incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer, or

(ii) When agreed to in writing by the contracting officer.

(f) In determining the allowability of costs (including retainer fees) in a particular case, no single factor or any special combination of factors is necessarily determinative. However, the contracting officer shall consider the following factors, among others:

(1) The nature and scope of the service rendered in relation to the service required.

(2) The necessity of contracting for the service, considering the contractor's capability in the particular area.

(3) The past pattern of acquiring such services and their costs, particularly in the years prior to the award of Government contracts.

(4) The impact of Government contracts on the contractor's business.

(5) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly when the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

(6) Whether the service can be performed more economically by employment rather than by contracting.

(7) The qualifications of the individual or concern rendering the service and the customary fee charged, especially on nongovernment contracts.

(8) Adequacy of the contractual agreement for the service (e.g., description of the service, estimate of time required, rate of compensation, termination provisions).

(g) Retainer fees, to be allowable, must be supported by evidence that—

(1) The services covered by the retainer agreement are necessary and customary;

(2) The level of past services justifies the amount of the retainer fees (if no services were rendered, fees are not automatically unallowable);

(3) The retainer fee is reasonable in comparison with maintaining an in-house capability to perform the covered services, when factors such as cost and level of expertise are considered; and

(4) The actual services performed are documented in accordance with paragraph (h) of this subsection.

(h) Fees for services rendered shall be allowable only when supported by evidence of the nature and scope of the service furnished. (See also 31.205-38(g).) However, retainer agreements generally are not based on specific statements of work. Evidence necessary to determine that work performed is proper and does not violate law or regulation shall include:

(1) Details of all agreements (e.g., work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing the services and details of actual services performed;

(2) Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services provided; and

(3) Consultants' work products and related documents, such as trip reports indicating persons visited and subjects discussed, minutes of meetings, and collateral memoranda and reports.

[55 FR 3883, Feb. 5, 1990]

31.205-34 Recruitment costs.

(a) Subject to paragraphs (b) and (c) below, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, the following costs are allowable:

(1) Costs of help-wanted advertising.

(2) Costs of operating an employment office needed to secure and maintain an adequate labor force.

(3) Costs of operating an aptitude and educational testing program.

(4) Travel costs of employees engaged in recuiting personnel.

(5) Travel costs of applicants for interviews.

(6) Costs for employment agencies not in excess of standard commercial rates.

(b) Help-wanted advertising costs are unallowable if the advertising—

(1) Is for personnel other than those required to perform obligations under a Government contract;

(2) Does not describe specific positions or classes of positions;

(3) Is excessive relative to the number and importance of the positions or to the industry practices;

(4) Includes material that is not relevant for recruitment purposes, such as extensive illustrations or descriptions of the company's products or capabilities;

(5) Is designed to *pirate* personnel from another Government contractor; or

(6) Includes color (in publications).

(c) Excessive compensation costs offered to prospective employees to *pirate* them from another Government contractor are unallowable. Such excessive costs may include salaries, fringe benefits, or special emoluments which are in excess of standard industry practices or the contractor's customary compensation practices.

31.205-35 Relocation costs.

(a) Relocation costs are costs incident to the permanent change of duty of assignment (for an indefinite or stated period, but in either event for not less than 12 months) of an existing employee or upon recruitment of a new employee. The following types of relocation costs are allowable as noted, subject to paragraphs (b) through (f) below:

(1) Cost of travel of the employee and members of the immediate family (see 31.205-46) and transportation of the household and personal effects to the new location.

(2) Cost of finding a new home, such as advance trips by employees and spouses to locate living quarters, and temporary lodging during the transition periods not exceeding separate cumulative totals of 60 days for employees and 45 days for spouses and dependents, including advance trip time.

(3) Closing costs (i.e., brokerage fees, egal fees, appraisal fees, points, finance charges, etc.) incident to the disposition of actual residence owned y the employee when notified of ransfer, except that these costs when dded to the costs described in subaragraph (a)(4) below shall not exceed 14 percent of the sales price of the property sold.

(4) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, mortgage interest, after settlement date or lease date of new permanent residence, except that these costs when added to the costs described in subparagraph (a)(3) above, shall not exceed 14 percent of the sales price of the property sold.

(5) Other necessary and reasonable expenses normally incident to relocation, such as disconnecting and connecting household appliances; automobile registration; driver's license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(6) Costs incident to acquiring a home in a new location, except that (i) these costs will not be allowable for existing employees or newly recruited employees who, before the relocation, were not homeowners and (ii) the total costs shall not exceed 5 percent of the purchase price of the new home.

(7) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who, before the relocation, were not homeowners and the total payments are limited to an amount determined as follows:

(i) The difference between the mortgage interest rates of the old and new residences times the current balance of the old mortgage times 3 years.

(ii) When mortgage differential payments are made on a lump sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized shall be proportionately adjusted to reflect payments only for the actual time of the relocation.

(8) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable

differential payments may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(9) Cost of canceling an unexpired lease.

(b) The costs described in paragraph (a) above must also meet the following criteria to be considered allowable:

(1) The move must be for the benefit of the employer.

(2) Reimbursement must be in accordance with an established policy or practice that is consistenly followed by the employer and is designed to motivate employees to relocate promptly and economically.

(3) The costs must not otherwise be unallowable under subpart 31.2.

(4) Amounts to be reimbursed shall not exceed the employee's actual expenses, except that for miscellaneous costs of the type discussed in subparagraph (a)(5) above, a flat amount, not to exceed $1,000, may be allowed in lieu of actual costs.

(c) The following types of costs are not allowable:

(1) Loss on sale of a home.

(2) Costs incident to acquiring a home in a new location as follows:

(i) Real estate brokers fees and commissions.

(ii) Cost of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner's title policy insurance when such insurance was not previously carried by the employee on the old residence (however, cost of a mortgage title policy is allowable).

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on residence being sold.

(4) Payments for employee income or FICA (social security) taxes incident to reimbursed relocation costs.

(5) Payments for job counseling and placement assistance to employee spouses and dependents who were not employees of the contractor at the old location.

(6) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed either as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee's control, the contractor shall refund or credit the relocation costs to the Government.

(e) Subject to the requirements of paragraphs (a) through (d) above, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

(f) Relocation costs (both outgoing and return) of employees who are hired for performance on specific contracts or long-term field projects are allowable if—

(1) The term of employment is not less than 12 months;

(2) The employment agreement specifically limits the duration of employment to the time spent on the contract or field project for which the employee is hired;

(3) The employment agreement provides for return relocation to the employee's permanent and principal home immediately prior to the outgoing relocation, or other location of equal or lesser cost; and

(4) The relocation costs are determined under the rules of paragraphs (a) through (d) above. However, the costs to return employees, who are released from employment upon completion of field assignments pursuant to their employment agreements, are not subject to the refund or credit requirement of paragraph (d).

[48 FR 42301, Sept. 19, 1983, as amended at 52 FR 9038, Mar. 20, 1987]

31.205-36 Rental costs.

(a) This subsection is applicable to the cost of renting or leasing real or personal property, except ADPE (see 31.205-2), acquired under *operating leases* as defined in Statement of Financial Accounting Standards No. 13 (FAS-13), Accounting for Leases. Compliance with 31.205-11(m) requires that assets acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; i.e., be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the lease term as amortization charges, as appropriate (but see subparagraph (b)(4) below).

(b) The following costs are allowable:

(1) Rental costs under operating leases, to the extent that the rates are reasonable at the time of the lease decision, after consideration of (i) rental costs of comparable property, if any; (ii) market conditions in the area; (iii) the type, life expectancy, condition, and value of the property leased; (iv) alternatives available; and (v) other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title.

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organization under common control, to the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, facilities capital cost of money, and maintenance (excluding interest or other unallowable costs pursuant to part 31), provided that no part of such costs shall duplicate any other allowed cost. Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees shall be allowed in accordance with subparagraph (b)(1) above.

(4) Rental costs under leases entered into before March 1, 1970 for the remaining term of the lease (excluding options not exercised before March 1, 1970) to the extent they would have been allowable under Defense Acquisition Regulation (Formerly ASPR) 15-205.34 or Federal Procurement Regulations section 1-15.205-34 in effect January 1, 1969.

(c) The allowability of rental costs under unexpired leases in connection with terminations is treated in 31.205-42(e).

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

(1) The Government has a license or the right to a free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining; e.g., royalties—

(1) Paid to persons, including corporations, affiliated with the contractor;

(2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Paid under an agreement entered into after the contract award.

(c) In any case involving a patent formerly owned by the contractor, the royalty amount allowed should not exceed the cost which would have been allowed had the contractor retained title.

(d) See 31.109 regarding advance agreements.

31.205-38 Selling costs.

(a) *Selling* is a generic term encompassing all efforts to market the contractor's products or services, some of which are covered specifically in other subsections of 31.205. Selling activity includes the following broad categories:

(1) Advertising.

(2) Corporate image enhancement including broadly-targeted sales efforts, other than advertising.

(3) Bid and proposal costs.

(4) Market planning.

(5) Direct selling.

(b) Advertising costs are defined at 31.205-1(b) and are subject to the allowability provisions of 31.205-1 (d) and (f). Corporate image enhancement activities are included within the definitions of public relations at 31.205-1(a) and entertainment at 31.205-14 and are subject to the allowability provisions at 31.205-1 (e) and (f) and 31.205-14, respectively. Bid and proposal costs are defined at 31.205-18 and have their allowability controlled by that subsection. Market planning involves market research and analysis and generalized management planning concerned with development of the contractor's business. The allowability of long-range market planning costs is controlled by the provisions of 31.205-12. Other market planning costs are allowable to the extent that they are reasonable. Costs of activities which are correctly classified and disallowed under cost principles referenced in this paragraph (b) are not to be reconsidered for reimbursement under any other provision of this subsection.

(c) Direct selling efforts are those acts or actions to induce particular customers to purchase particular products or services of the contractor. Direct selling is characterized by person-to-person contact and includes such activities as familiarizing a potential customer with the contractor's products or services, conditions of sale, service capabilities, etc. It also includes negotiation, liaison between customer and contractor personnel, technical and consulting activities, individual demonstrations, and any other activities having as their purpose the application or adaptation of the contractor's products or services for a particular customer's use. The cost of direct selling efforts is allowable if reasonable in amount.

(d) The costs of any selling efforts other than those addressed in paragraphs (b) or (c) of this subsection are unallowable.

(e) Costs of the type identified in paragraphs (b), (c), and (d) of this subsection are often commingled on the contractor's books in the selling expense account because these activities are performed by the sales departments. However, identification and segregation of unallowable costs is required under the provisions of 31.201-6 and 30.405, and such costs are not allowable merely because they are incurred in connection with allowable selling activities.

(f) Notwithstanding any other provision of this subsection, costs of direct selling efforts, as defined in paragraph (c) of this subsection, incurred in connection with potential and actual Foreign Military Sales, as defined by the Arms Export Control Act, or foreign sales of military products or services are unallowable on U.S. Government contracts for U.S. Government requirements.

(g) Notwithstanding any other provision of this subsection, sellers' or agents' compensation, fees, commissions, percentages, retainer or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business (see 3.408-2).

[51 FR 12301, Apr. 9, 1986, as amended at 52 FR 19805, May 27, 1987, 55 FR 38517, Sept. 18, 1990]

31.205-39 Service and warranty costs.

Service and warranty costs include those arising from fulfillment of any contractual obligation of a contractor to provide services such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance. When not inconsistent with the terms of the contract, such service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

31.205-40 Special tooling and special test equipment costs.

(a) The terms *special tooling* and *special test equipment* are defined in 45.101.

(b) The cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and shall be allocated to the specific Government contract or contracts for which acquired, except that the cost of (1) items acquired by the contractor before the effective date of the contract (or replacement of such items), whether or not altered or adapted for use in performing the contract, and (2) items which the contract schedule specifically excludes, shall be allowable only as depreciation or amortization.

(c) When items are disqualified as special tooling or special test equipment because with relatively minor expense they can be made suitable for general purpose use and have a value as such commensurate with their value as special tooling or special test equipment, the cost of adapting the items for use under the contract and the cost of returning them to their prior configuration are allowable.

31.205-41 Taxes.

(a) The following types of costs are allowable:

(1) Federal, State, and local taxes (see part 29), except as otherwise provided in paragraph (b) below that are required to be and are paid or accrued in accordance with generally accepted accounting principles. Fines and penalties are not considered taxes.

(2) Taxes otherwise allowable under subparagraph (a)(1) above, but upon which a claim of illegality or erroneous assessment exists; provided the contractor, before paying such taxes—

(i) Promptly requests instructions from the contracting officer concerning such taxes; and

(ii) Takes all action directed by the contracting officer arising out of subparagraph (2)(i) above or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, to (A) determine the legality of the assessment or (B) secure a refund of such taxes.

(3) Pursuant to subparagraph (a) (2) above, the reasonable costs of any action taken by the contractor at the direction or with the concurrence of the contracting officer. Interest or penalties incurred by the contractor for non-payment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to ensure timely direction after a prompt request.

(b) The following types of costs are not allowable:

(1) Federal income and excess profits taxes.

(2) Taxes in connection with financing, refinancing, refunding operations, or reorganizations (see 31.205-20 and 31.205-27).

(3) Taxes from which exemptions are available to the contractor directly, or available to the contractor based on an exemption afforded the Government, except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government. When partial exemption from a tax is attributable to Government contract activity, taxes charged to such work in excess of that amount resulting from application of the preferential treatment are unallowable. These provisions intend that tax preference attributable to Government contract activity be realized by the Government. The term *exemption* means freedom from taxation in whole or in part and includes a tax abatement or reduction resulting from mode of assessment, method of calculation, or otherwise.

(4) Special assessments on land that represent capital improvements.

(5) Taxes (including excises) on real or personal property, or on the value, use, possession or sale thereof, which is used solely in connection with work other than on Government contracts (see paragraph (c) below).

(6) Taxes on accumulated funding deficiencies of, or prohibited transactions involving, employee deferred compensation plans pursuant to Section 4971 or Section 4975 of the Internal Revenue Code of 1954, as amended.

(7) Income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the books of account and financial statements.

(c) Taxes on property (see subparagraph (b)(5) above) used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained; e.g., taxes on contractor-owned work-in-process which is used solely in connection with non-Government work should be allocated to such work; taxes on contractor-owned work-in-process inventory (and Government-owned work-in-process inventory when taxed) used solely in connection with Government work should be charged to such work. The cost of taxes incurred on property used in both Government and non-Government work shall be apportioned to all such work based upon the use of such property on the respective final cost objectives.

(d) Any taxes, interest, or penalties that were allowed as contract costs and are refunded to the contractor shall be credited or paid to the Government in the manner it directs. If a contractor or subcontractor obtains a foreign tax credit that reduces its U.S. Federal income tax return because of the payment of any tax or duty allowed as contract costs, and if those costs were reimbursed by a foreign government, the amount of the reduction shall be paid to the Treasurer of the United States at the time the Federal income tax return is filed. However, any interest actually paid or credited to a contractor incident to a refund of tax, interest, or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest, or penalties.

[48 FR 42301, Sept. 19, 1983, as amended at 55 FR 3884, Feb. 5, 1990]

31.205-42 Termination costs.

Contract terminations generally give rise to the incurrence of costs or the need for special treatment of costs that would not have arisen had the contract not been terminated. The following cost principles peculiar to terminktion situations are to be used in conjunction with the other cost principles in subpart 31.2:

(a) *Common items.* The costs of items reasonably usable on the contractor's other work shall not be allowable unless the contractor submits evidence that the items could not be retained at cost without sustaining a loss. The contracting officer should consider the contractor's plans and orders for current and planned production when determining if items can reasonably be used on other work of the contractor. Contemporaneous purchases of common items by the contractor shall be regarded as evidence that such items are reasonably usable on the contractor's other work. Any acceptance of common items as allocable to the terminated portion of the contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* Despite all reasonable efforts by the contractor, costs which cannot be discontinued immediately after the effective date of termination are generally allowable. However, any costs continuing after the effective date of the termination due to the negligent or willful failure of the contractor to discontinue the costs shall be unallowable.

(c) *Initial costs.* Initial costs (see 15.804-6(f)), including starting load and preparatory costs, are allowable as follows:

(1) Starting load costs not fully absorbed because of termination are nonrecurring labor, material, and related overhead costs incurred in the early part of production and result from factors such as—

(i) Excessive spoilage due to inexperienced labor;

(ii) Idle time and subnormal production due to testing and changing production methods;

(iii) Training; and

(iv) Lack of familiarity or experience with the product, materials, or manufacturing processes.

(2) Preparatory costs incurred in preparing to perform the terminated contract include such costs as those incurred for initial plant rearrangement and alterations, management and personnel organization, and production planning. They do not include special machinery and equipment and starting load costs.

(3) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be in-

cluded in overhead. Initial costs attributable to only one contract shall not be allocated to other contracts.

(4) If initial costs are claimed and have not been segregated on the contractor's books, they shall be segregated for settlement purposes from cost reports and schedules reflecting that high unit cost incurred during the early stages of the contract.

(5) If the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately before termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(d) *Loss of useful value.* Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided—

(1) The special tooling, or special machinery and equipment is not reasonably capable of use in the other work of the contractor;

(2) The Government's interest is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) The loss of useful value for any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, or special machinery and equipment was acquired.

(e) *Rental under unexpired leases* Rental costs under unexpired leases, less the residual value of such leases, are generally allowable when shown to have been reasonably necessary for the performance of the terminated contract, if—

(1) The amount of rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

(f) *Alterations of leased property.* The cost of alterations and reasonable restorations required by the lease may be allowed when the alterations were necessary for performing the contract.

(g) *Settlement expenses.* (1) Settlement expenses, including the following, are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for—

(A) The preparation and presentation, including supporting data, of settlement claims to the contracting officer; and

(B) The termination and settlement of subcontracts.

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(iii) Indirect costs related to salary and wages incurred as settlement expenses in (i) and (ii); normally, such indirect costs shall be limited to payroll taxes, fringe benefits, occupancy costs, and immediate supervision costs.

(2) If settlement expenses are significant, a cost account or work order shall be established to separately identify and accumulate them.

(h) *Subcontractor claims.* Subcontractor claims, including the allocable portion of the claims common to the contract and to other work of the contractor, are generally allowable. An appropriate share of the contractor's indirect expense may be allocated to the amount of settlements with subcontractors; provided, that the amount allocated is reasonably proportionate to the relative benefits received and is otherwise consistent with 31.201-4 and 31.203(c). The indirect expense so allocated shall exclude the same and similar costs claimed directly or indirectly as settlement expenses.

31.205-43 Trade, business, technical and professional activity costs.

The following types of costs are allowable:

(a) Memberships in trade, business, technical, and professional organizations.

(b) Subscriptions to trade, business, professional, or other technical periodicals.

(c) When the principal purpose of a meeting, conference, symposium, or seminar is the dissemination of trade, business, technical or professional information or the stimulation of production or improved productivity:

(1) Costs of organizing, setting up, and sponsoring the meetings, symposia, etc., including rental of meeting facilities, transportation, subsistence, and incidental costs;

(2) Costs of attendance by contractor employees, including travel costs (see 31.205-46); and

(3) Costs of attendance by individuals who are not employees of the contractor, *provided*;

(i) Such costs are not also reimbursed to the individual by the employing company or organization, and

(ii) The individual's attendance is essential to achieve the purpose of the conference, meeting, symposium, etc.

[48 FR 42301, Sept. 19, 1983, as amended at 53 FR 27467, July 20, 1988]

31.205–44 Training and education costs.

(a) *Allowable costs*. Training and education costs are allowable to the extent indicated below.

(b) *Vocational training*. Costs of preparing and maintaining a noncollege level program of instruction, including but not limited to on-the-job, classroom, and apprenticeship training, designed to increase the vocational effectiveness of employees, are allowable. These costs include (1) salaries or wages of trainees (excluding overtime compensation), (2) salaries of the director of training and staff when the training program is conducted by the contractor, (3) tuition and fees when the training is in an institution not operated by the contractor, and/or (4) training materials and textbooks.

(c) *Part-time college level education*. Allowable costs of part-time college education at an undergraduate or postgraduate level, including that provided at the contractor's own facilities, are limited to—

(1) Fees and tuition charged by the educational institution, or, instead of tuition, instructors' salaries and the related share of indirect cost of the educational institution, to the extent that the sum thereof is not in excess of the tuition that would have been paid to the participating educational institution;

(2) Salaries and related costs of instructors who are employees of the contractor; and

(3) Training materials and textbooks; and

(4) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours. In unusual cases, the period may be extended (see paragraph (h) below).

(d) *Full-time education*. Costs of tuition, fees, training materials and textbooks (but not subsistence, salary, or any other emoluments) in connection with full-time education, including that provided at the contractor's own facilities, at a postgraduate but not undergraduate college level, are allowable only when the course or degree pursued is related to the field in which the employee is working or may reasonably be expected to work and are limited to a total period not to exceed 2 school years or the length of the degree program, whichever is less, for each employee so trained.

(e) *Specialized programs*. Costs of attendance of up to 16 weeks per employee per year at specialized programs specifically designed to enhance the effectiveness of managers or to prepare employees for such positions are allowable. Such costs include enrollment fees and related charges and employees' salaries, subsistence, training materials, textbooks, and travel. Costs allowable under this paragraph do not include costs for courses that are part of a degree-oriented curriculum, which are only allowable pursuant to paragraphs (c) and (d) of this subsection.

(f) *Other expenses*. Maintenance expense and normal depreciation or fair rental on facilities owned or leased by the contractor for training purposes are allowable in accordance with 31.205-17, 31.205-24, and 31.205-36.

(g) *Grants*. Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, and fellowships are considered contributions and are unallowable.

(h) *Advance agreements.* (1) Training and education costs in excess of those otherwise allowable under (c) and (d) of this subsection, including subsistence, salaries, or any other emoluments, may be allowed to the extent set forth in an advance agreement negotiated under 31.109. To be considered for an advance agreement, the contractor must demonstrate that the costs are consistently incurred under an established managerial, engineering, or scientific training and education program, and that the course or degree pursued is related to the field in which employees are now working or may reasonably be expected to work. Before entering into the advance agreement, the contracting officer shall give consideration to such factors as—

(i) The length of employees' service with the contractor;

(ii) Employees' past performance and potential;

(iii) Whether employees are in formal development programs; and

(iv) The total number of participating employees.

(2) Any advance agreement must include a provision requiring the contractor to refund to the Government training and education costs for employees who resign within 12 months of completion of such training or education for reasons within an employee's control.

(i) *Training or education costs for other than bona—fide employees.* Costs of tuition, fees, textbooks, and similar or related benefits provided for other than bona—fide employees are unallowable, except that the costs incurred for educating employee dependents (primary and secondary level studies) when the employee is working in a foreign country where public education is not available and where suitable private education is inordinately expensive may be included in overseas differential.

(j) *Employee dependent education plans.* Costs of college plans for employee dependents are unallowable.

[48 FR 42301, Sept. 19, 1983, as amended at 52 FR 9038, Mar. 20, 1987; 52 FR 27806, July 24, 1987; 52 FR 30077, Aug. 12, 1987]

31.205-45 Transportation costs.

Allowable transportation costs include freight, express, cartage, and postage charges relating to goods purchased, in process, or delivered. When these costs can be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items. When identification with the materials received cannot be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the contractor follows a consistent and equitable procedure. Outbound freight, if reimbursable under the terms of the contract, shall be treated as a direct cost.

31.205-46 Travel costs.

(a)(1) Costs for transportation, lodging, meals, and incidental expenses incurred by contractor personnel on official company business are allowable subject to paragraphs (b) through (f) of this section. Costs for transportation may be based on mileage rates, actual costs incurred, or on a combination thereof, provided the method used results in a reasonable charge. Costs for lodging, meals, and incidental expenses may be based on per diem, actual expenses, or a combination thereof, provided the method used results in a reasonable charge.

(2) Except as provided in paragraph (a)(3) of this section, costs incurred for lodging, meals, and incidental expenses (as defined in the regulations cited in (a)(2) (i) through (iii) of this paragraph) shall be considered to be reasonable and allowable only to the extent that they do not exceed on a daily basis the maximum per diem rates in effect at the time of travel as set forth in the—

(i) Federal Travel Regulations, prescribed by the General Services Administration, for travel in the conterminous 48 United States, available on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, Stock No. 022-001-81003-7;

(ii) Joint Travel Regulations, Volume 2, DoD Civilian Personnel, Appendix A, prescribed by the Department of Defense, for travel in Alaska, Hawaii, The Commonwealth of Puerto Rico, and territories and possessions of the United States, available on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, Stock No. 908-010-00000-1; or

(iii) Standarized Regulations (Government Civilians, Foreign Areas), section 925, *Maximum Travel Per Diem Allowances of Foreign Areas*, prescribed by the Department of State, for travel in areas not covered in (a)(2) (i) and (ii) of this paragraph, available on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, Stock No. 744-088-00000-0.

(3) In special or unusual situations, actual costs in excess of the above-referenced maximum per diem rates are allowable provided that such amounts do not exceed the higher amounts authorized for Federal civilian employees as permitted in the regulations referenced in (a)(2) (i), (ii), or (iii) or this section. For such higher amounts to be allowable, all of the following conditions must be met:

(i) One of the conditions warranting approval of the actual expense method, as set forth in the regulations referred in (a)(2) (i), (ii), or (iii) of this section, must exist.

(ii) A written justification for use of the higher amounts must be approved by an officer of the contractor's organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

(iii) If it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area, the contractor must obtain advance approval from the contracting officer.

(iv) Documentation to support actual costs incurred shall be in accordance with the contractor's established practices provided that a receipt is required for each expenditure in excess of $25.00. The approved justification required by (a)(3)(ii) and, if applicable, (a)(3)(iii) of this paragraph must be retained.

(4) Paragraphs (a)(2) and (a)(3) of this section do not incorporate the regulations cited in (a)(2) (i), (ii), and (iii) in their entirety. Only the coverage in the referenced regulations dealing with special or unusual situations, the maximum per diem rates, and definitions of lodging, meals and incidental expenses are incorporated herein.

(5) An advance agreement (see 31.109) with respect to compliance with paragraphs (a)(2) and (a)(3) of this section may be useful and desirable.

(b) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(c) Travel costs directly attributable to specific contract performance are allowable and may be charged to the contract under 31.202.

(d) Airfare costs in excess of the lowest customary standard, coach, or equivalent airfare offered during normal business hours are unallowable except when such accommodations require circuitous routing, require travel during unreasonable hours, excessively prolong travel, result in increased cost that would offset transportation savings, are not reasonably adequate for the physical or medical needs of the traveler, or are not reasonably available to meet mission requirements. However, in order for airfare costs in excess of the above standard airfare to be allowable, the applicable condition(s) set forth in this paragraph must be documented and justified.

(e)(1) *Cost of travel by contractor-owned, -leased, or -chartered aircraft*, as used in this subparagraph, includes the cost of lease, charter, operation (including personnel), maintenance, depreciation, insurance, and other related costs.

(2) The costs of travel by contractor-owned, -leased, or -chartered aircraft are limited to the standard airfare described in paragraph (d) of this subsection for the flight destination unless travel by such aircraft is specifically required by contract specification, term, or condition, or a higher amount is approved by the contracting officer. A higher amount may be agreed to when one or more of the circumstances for justifying higher than standard airfare listed in paragraph (d) of this subsection are applicable, or

when an advance agreement under subparagraph (e)(3) of this subsection has been executed. In all cases, travel by contractor-owned, -leased, or -chartered aircraft must be fully documented and justified. For each contractor-owned, -leased, or -chartered aircraft used for any business purpose which is charged or allocated, directly or indirectly, to a Government contract, the contractor must maintain and make available manifest/logs for all flights on such company aircraft. As a minimum, the manifest/log shall indicate—

(i) Date, time, and points of departure;

(ii) Destination, date, and time of arrival;

(iii) Name of each passenger and relationship to the contractor;

(iv) Authorization for trip; and

(v) Purpose of trip.

(3) Where an advance agreement is proposed (see 31.109), consideration may be given to the following:

(i) Whether scheduled commercial airlines or other suitable, less costly, travel facilities are available at reasonable times, with reasonable frequency, and serve the required destinations conveniently.

(ii) Whether increased flexibility in scheduling results in time savings and more effective use of personnel that would outweigh additional travel costs.

(f) Costs of contractor-owned or leased automobiles, as used in this paragraph, include the costs of lease, operation (including personnel), maintenance, depreciation, insurance, etc. These costs are allowable, if reasonable, to the extent that the automobiles are used for company business. That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is compensation for personal services and is unallowable as stated in 31.205-6(m)(2).

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 12301, Apr. 9, 1986; 51 FR 27489, July 31, 1986; 51 FR 36972, Oct. 16, 1986]

31.205-47 Costs related to legal and other proceedings.

(a) *Definitions.Conviction,* as used in this subsection, is defined in 9.403.

Costs, include, but are not limited to, administrative and clerical expenses; the cost of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; all elements of compensation, related costs and expenses of employees, officers and directors; and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding which bears a direct relationship to the proceedings.

Fraud, as used in this subsection, means (1) acts of fraud or corruption or attempts to defraud the Government or to corrupt its agents, (2) acts which constitute a cause for debarment or suspension under 9.406-2(a) and 9.407-2(a) and (3) acts which violate the False Claims Act, 31 U.S.C., sections 3729-3731, or the Anti-Kickback Act, 41 U.S.C., sections 51 and 54.

Penalty, does not include restitution, reimbursement, or compensatory damages.

Proceeding, includes an investigation.

(b) Costs incurred in connection with any proceeding brought by Federal, State, local or foreign Government for violation of, or a failure to comply with, law or regulation by the contractor (including its agents or employers) are unallowable if a result is—

(1) In a criminal proceeding, a conviction;

(2) In a civil or administrative proceeding, either a finding of contractor liability or imposition of a monetary penalty;

(3) A final decision by an appropriate official of an executive agency to:

(i) Debar or suspend the contractor;

(ii) Rescind or void a contract; or

(iii) Terminate a contract for default by reason of a violation or failure to comply with a law or regulation;

(4) Disposition of the matter by consent or compromise if the proceeding could have led to any of the outcomes listed in subparagraphs (b) (1) through (3) of this subsection (but see

paragraphs (c) and (d) of this subsection); or

(5) Not covered by subparagraphs (b) (1) through (4) of this subsection, but where the underlying alleged contractor misconduct was the same as that which led to a different proceeding whose costs are unallowable by reason of subparagraphs (b) (1) through (4) of this subsection.

(c) To the extent they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by the United States that is resolved by consent or compromise pursuant to an agreement entered into between the contractor and the United States, and which are unallowable solely because of paragraph (b) of this subsection, may be allowed to the extent specifically provided in such agreement.

(d) To the extent that they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by a State, local, or foreign government may be allowable when the contracting officer (or other official specified in agency procedures) determines, that the costs were incurred either:

(1) As a direct result of a specific term or condition of a Federal contract; or

(2) As a result of compliance with specific written direction of the cognizant contracting officer.

(e) Costs incurred in connection with proceedings described in paragraph (b) of this subsection, but which are not made unallowable by that paragraph, may be allowable to the extent that:

(1) The costs are reasonable in relation to the activities required to deal with the proceeding and the underlying cause of action;

(2) The costs are not otherwise recovered from the Federal Government or a third party, either directly as a result of the proceeding or otherwise; and

(3) The percentage of costs allowed does not exceed the percentage determined to be appropriate considering the complexity of procurement litigation, generally accepted principles governing the award of legal fees in civil actions involving the United States as a party, and such other factors as may be appropriate. Such percentage shall not exceed 80 percent. However, if an agreement reached under paragraph (c) of this subsection has explicitly considered this 80 percent rule, then the full amount of costs resulting from that agreement shall be allowable.

(f) Costs not covered elsewhere in this subsection are unallowable if incurred in connection with—

(1) Defense against Government claims or appeals or the prosecution of claims or appeals against the Government (see 33.201).

(2) Organization, reorganization, (including mergers and acquisitions) or resisting mergers and acquisitions (see also 31.205-27).

(3) Defense of antitrust suits.

(4) Defense of suits brought by employees or ex-employees of the contractor under section 2 of the Major Fraud Act of 1988 where the contractor was found liable or settled.

(5) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with the defense or prosecution of lawsuits or appeals between contractors arising from either (1) an agreement or contract concerning a teaming arrangement, a joint venture, or similar arrangement of shared interest; or (2) dual sourcing, coproduction, or similar programs, are unallowable, except when (i) incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer, or (ii) when agreed to in writing by the contracting officer.

(6) Patent infringement litigation, unless otherwise provided for in the contract.

(7) Representation of, or assistance to, individuals, groups, or legal entities which the contractor is not legally bound to provide, arising from an action where the participant was convicted of violation of a law or regulation or was found liable in a civil or administrative proceeding.

(g) Costs which may be unallowable under 31.205-47, including directly associated costs, shall be segregated and accounted for by the contractor separately. During the pendency of any proceeding covered by paragraph (b) and subparagraphs (f)(4) and (f)(7) of this subsection, the contracting officer shall generally withhold payment of such costs. However, if in the best interests of the Government, the contracting officer may provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the contractor to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.

[48 FR 42301, Sept. 19, 1983, as amended at 51 FR 12302, Apr. 9, 1986; 54 FR 13024, Mar. 29, 1989]

31.205-48 Deferred research and development costs.

Research and development, as used in this subsection, means the type of technical effort which is described in 31.205-18 but which is sponsored by, or required in performance of, a contract or grant. Research and development costs (including amounts capitalized) that were incurred before the award of a particular contract are unallowable except when allowable as precontract costs. In addition, when costs are incurred in excess of either the price of a contract or amount of a grant for research and development effort, such excess may not be allocated as a cost to any other Government contract.

31.205-49 Goodwill.

Goodwill, an unidentifiable intangible asset, originates under the purchase method of accounting for a business combination when the price paid by the acquiring company exceeds the sum of the identifiable individual assets acquired less liabilities assumed, based upon their fair values. The excess is commonly referred to as goodwill. Goodwill may arise from the acquisition of a company as a whole or a portion thereof. Any costs for amortization, expensing, write-off, or write-down of goodwill (however represented) are unallowable.

[49 FR 26743, June 29, 1984]

31.205-50 Executive lobbying costs.

Costs incurred in attempting to improperly influence (see FAR 3.401), either directly or indirectly, an employee or officer of the executive branch of the Federal Government to give consideration or to act regarding a regulatory or contract matter are unallowable.

[51 FR 12302, Apr. 9, 1986]

31.205-51 Costs of alcoholic beverages.

Costs of alcoholic beverages are unallowable.

[51 FR 12302, Apr. 9, 1986]

31.205-52 Asset valuations resulting from business combinations.

When the purchase method of accounting for a business combination is used, allowable amortization, cost of money, and depreciation shall be limited to the total of the amounts that would have been allowed had the combination not taken place.

[55 FR 25530, June 21, 1990]

Subpart 31.3—Contracts With Educational Institutions

31.301 Purpose.

This subpart provides the principles for determining the cost of research and development, training, and other work performed by educational institutions under contracts with the Government.

31.302 General.

Office of Management and Budget (OMB) Circular No. A-21, Cost Principles for Educational Institutions, revised, provides principles for determining the costs applicable to research and development, training, and other work performed by educational institutions under contracts with the Government.

31.303 Requirements.

(a) Contracts that refer to this subpart 31.3 for determining allowable costs under contracts with educational institutions shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-21 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

Subparts 31.4—31.5 [Reserved]

Subpart 31.6—Contracts With State, Local, and Federally Recognized Indian Tribal Governments

31.601 Purpose.

This subpart provides the principles for determining allowable cost of contracts and subcontracts with State, local, and federally recognized Indian tribal governments.

31.602 General.

Office of Management and Budget (OMB) Circular No. A-87, Cost Principles for State and Local Governments, Revised, sets forth the principles for determining the allowable costs of contracts and subcontracts with State, local, and federally recognized Indian tribal governments. These principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

31.603 Requirements.

(a) Contracts that refer to this subpart 31.6 for determining allowable costs under contracts with State, local and Indian tribal governments shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-87 which is in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

Subpart 31.7—Contracts With Nonprofit Organizations

31.701 Purpose.

This subpart provides the principles for determining the cost applicable to work performed by nonprofit organizations under contracts with the Government. A nonprofit organization, for purpose of identification, is defined as a business entity organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from federal income taxation under section 501 of the Internal Revenue Code.

31.702 General.

Office of Management and Budget (OMB) Circular No. A-122, Cost Principles for Nonprofit Organizations, sets forth principles for determining the costs applicable to work performed by nonprofit organizations under contracts (also applies to grants and other agreements) with the Government.

31.703 Requirements.

(a) Contracts which refer to this subpart 31.7 for determining allowable costs shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-122 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

32.907-2 Late contract financing payment.
32.908 Contract clauses.
32.909 Contractor inquiries.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42328, Sept. 19, 1983, unless otherwise noted.

32.000 Scope of part.

This part prescribes policies and procedures for contract financing and other payment matters. This includes—

(a) Payment methods, including partial payments and progress payments based on percentage or stage of completion;

(b) Loan guarantees, advance payments, and progress payments based on costs;

(c) Administration of debts to the Government arising out of contracts;

(d) Contract funding, including the use of contract clauses limiting costs or funds;

(e) Assignment of claims to aid in private financing; and

(f) Selected payment clauses.

32.001 Definition.

Contract action, as used in this part, means an action resulting in a contract, as defined in FAR subpart 2.1, including contract modifications for additional supplies or services, but not including contract modifications that are within the scope and under the terms of the contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

[52 FR 30077, Aug. 12, 1987]

Subpart 32.1—General

32.100 Scope of subpart.

This subpart provides policies and procedures applicable to the general subject of contract financing and payment.

32.101 Authority.

The basic authority for the contract financing described in this part is contained in section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255), section 2307 of the Armed Services Procurement Act (10 U.S.C. 2307), and Title III of the Defense Production Act of 1950 (50 U.S.C. App. 2091).

32.102 Description of contract financing methods.

(a) Advance payments are advances of money by the Government to a prime contractor before, in anticipation of, and for the purpose of complete performance under one or more contracts. They are expected to be liquidated from payments due to the contractor incident to performance of the contracts. Since they are not measured by performance, they differ from partial, progress, or other payments based on the performance or partial performance of a contract. Advance payments may be made to prime contractors for the purpose of making subadvances to subcontractors.

(b) Progress payments based on costs are made on the basis of costs incurred by the contractor as work progresses under the contract. This form of contract financing does not include—

(1) Payments based on the percentage or stage of completion accomplished;

(2) Payments for partial deliveries accepted by the Government; or

(3) Partial payments for a contract termination proposal.

(c) Loan guarantees are made by Federal Reserve banks, on behalf of designated guaranteeing agencies, to enable contractors to obtain financing from private sources under contracts for the acquisition of supplies or services for the national defense.

(d) Partial payments for accepted supplies and services that are only a part of the contract requirements are authorized under section 305 of the Federal Property and Administrative Services Act (41 U.S.C. 255). Although partial payments are generally treated as a method of payment and not as a method of contract financing, using partial payments can assist contractors to participate in Government contracts without, or with minimal, contract financing. When appropriate, agencies shall use this payment method.

(e) (1) Progress payments based on a percentage or stage of completion are authorized by the statutes cited in 32.101.

(2) This type of progress payment may be used as a payment method under agency procedures. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract. Furthermore, progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions.

[48 FR 42328, Sept. 19, 1987, as amended at 52 FR 30077, Aug. 12, 1987]

32.103 Progress payments construction contracts.

When satisfactory progress has not been achieved by a contractor during any period for which a progress payment is to be made, a percentage of the progress payment may be retained. Retainage should not be used as a substitute for good contract management, and the contracting officer should not withhold funds without cause. Determinations to retain and the specific amount to be withheld shall be made by the contracting officer on a case-by-case basis. Such decisions will be based on the contracting officer's assessment of past performance and the likelihood that such performance will continue. The amount of retainage withheld shall not exceed 10 percent of the approved estimated amount in accordance with the terms of the contract and may be adjusted as the contract approaches completion to recognize better than expected performance, the ability to rely on alternative safeguards, and other factors. Upon completion of all contract requirements, retained amounts shall be paid promptly.

[51 FR 19716, May 30, 1986]

32.104 Providing contract financing.

(a) Prudent contract financing can be a useful working tool in Government acquisition by expediting the performance of essential contracts. Government financing shall be provided only to the extent actually needed for prompt and efficient performance, considering the availability of private financing. Contract financing shall be administered so as to aid, not impede, the acquisition. At the same time, the contracting officer shall avoid any undue risk of monetary loss to the Government through the financing. The contractor's use of the contract financing provided and the contractor's financial status shall be monitored.

(b) If the contractor is a small business concern, the contracting officer shall give special attention to meeting the contractor's contract financing need. However, a contractor's receipt of a certificate of competency from the Small Business Administration has no bearing on the contractor's need for or entitlement to contract financing.

32.105 Uses of contract financing.

(a) Contract financing methods covered in this part are intended to be self-liquidating through contract performance. Consequently, agencies shall only use the methods for financing of contractor working capital, not for the expansion of contractor-owned facilities or the acquisition of fixed assets. However, under loan guarantees, exceptions may be made for—

(1) Facilities expansion of a minor or incidental nature, if a relatively small part of the guaranteed loan is used for the expansion and the contractor's repayment would not be delayed or impaired; or

(2) Other instances of facilities expansion for which contract financing is appropriate under agency procedures.

(b) The limitations in this section do not apply to contracts under which facilities are being acquired for Government ownership.

32.106 Order of preference.

The contracting officer shall consider the following order of preference when a contractor requests contract financing, unless an exception would be in the Government's interest in a specific case:

(a) Private financing without Government guarantee. It is not intended, however, that the contractor be required to obtain private financing (1) at unreasonable terms, or (2) from other agencies.

(b) Progress payments based on costs at customary rates (see 32.501-1).

(c) Loan guarantees.

(d) Progress payments based on costs with unusual terms (see 32.501).

(e) Advance payments (see exceptions in 32.402(b)).

32.107 Need for contract financing not a deterrent.

(a) If the contractor or offeror meets the standards prescribed for responsible prospective contractors at 9.104, the contracting officer shall not treat the contractor's need for contract financing as a handicap for a contract award; e.g., as a responsibility factor or evaluation criterion.

(b) The contractor should not be disqualified from contract financing solely because the contractor failed to indicate a need for contract financing before the contract was awarded.

32.108 Financial consultation.

Each contracting office should have available and use the services of contract financing personnel competent to evaluate credit and financial problems. In resolving any questions concerning (a) the financial capability of an offeror or contractor to perform a contract or (b) what form of contract financing is appropriate in a given case, the contracting officer should consult the appropriate contract financing office.

32.109 Termination financing.

To encourage contractors to invest their own funds in performance despite the susceptibility of the contract to termination for the convenience of the Government, the contract financing procedures under this part may be applied to the financing of terminations either in connection with or independently of financing for contract performance (see 49.112-1).

32.110 Contract performance in foreign countries.

(a) In applying the coverage of part 32 to a contract performed partly or completely in a foreign country, the contracting officer shall give due consideration to the sovereignty, laws, and procedures of the country concerned and shall obtain legal advice as necessary. The legal advice may indicate a need for additional protective arrangements within the foreign jurisdiction or for deviations from the contract clauses prescribed in this part.

(b) The contracting officer shall act as necessary to comply with applicable foreign laws, while providing the most effective protection of the Government's interest.

32.111 Contract clauses.

(a) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates, in accordance with agency regulations—

(1) The clause at 52.232-1, Payments, in solicitations and contracts when a fixed-price supply contract, a fixed-price service contract, or a contract for nonregulated communication services is contemplated;

(2) The clause at 52.232-2, Payment under Fixed-Price Research and Development Contracts, in solicitations and contracts when a fixed-price re-

search and development contract is contemplated;

(3) The clause at 52.232-3, Payments under Personal Services Contracts, in solicitations and contracts for personal services;

(4) The clause at 52.232-4, Payments under Transportation Contracts and Transportation-Related Services Contracts, in solicitations and contracts for transportation or transportation-related services;

(5) The clause at 52.232-5, Payments under Fixed-Price Construction Contracts, in solicitations and contracts for construction when a fixed-price contract is contemplated; and

(6) The clause at 52.232-6, Payments under Communication Service Contracts with Common Carriers, in solicitations and contracts for regulated communication services by common carriers.

(b) The contracting officer shall insert the clause at 52.232-7, Payments under Time-and-Materials and Labor-Hour Contracts, appropriately modified with respect to payment due dates in accordance with agency regulations, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated. If (i) the nature of the work to be performed requires the contractor to furnish material that is regularly sold to the general public in the normal course of business by the contractor and (ii) the price is under the limitations prescribed in 16.601(b)(3), the contracting officer shall use the clause with its Alternate I. If a labor-hour contract is contemplated, and if no specific reimbursement for materials furnished is intended, the contracting officer may use the clause with its Alternate II.

(c) The contracting officer shall insert the following clauses, appropriately modified with respect to payment due dates in accordance with agency regulations:

(1) The clause at 52.232-8, Discounts for Prompt Payment, in solicitations and contracts when a fixed-price supply contract or fixed-price service contract is contemplated.

(2) A clause, substantially the same as the clause at 52.232-9, Limitation on Withholding of Payments, in solicitations and contracts when a supply contract, research and development contract, service contract, time-and-materials contract, or labor-hour contract is contemplated that includes two or more terms authorizing the temporary withholding of amounts otherwise payable to the contractor for supplies delivered or services performed.

(d) The contracting officer shall insert the following clauses, appropriately modified with respect to payments due dates in accordance with agency regulations:

(1) The clause at 52.232-10, Payments under Fixed-Price Architect-Engineer Contracts, in fixed-price architect-engineer contracts.

(2) The clause at 52.232-11, Extras, in solicitations and contracts when a fixed-price supply contract, fixed-price service contract, or a transportation contract is contemplated.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

Subpart 32.2—[Reserved]

Subpart 32.3—Loan Guarantees for Defense Production

32.300 Scope of subpart.

This subpart prescribes policies and procedures for designated agencies' guarantees of loans made by private financial institutions to borrowers performing contracts related to national defense (see 30.102).

32.301 Definitions.

Borrower, as used in this subpart, means a contractor, subcontractor (at any tier), or other supplier who receives a guaranteed loan.

Federal Reserve Board means the Board of Governors of the Federal Reserve System.

Guaranteed loan or *V loan*, as used in this subpart, means a loan, revolving credit fund, or other financial arrangement made pursuant to Regulation V of the Federal Reserve Board, under which the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of the guaranteed percentage.

Guaranteeing agency, as used in this subpart, means any agency that the President has authorized to guarantee loans, through Federal Reserve Banks, for expediting national defense production.

32.302 Authority.

Congress has authorized Federal Reserve Banks to act, on behalf of guaranteeing agencies, as fiscal agents of the United States in the making of loan guarantees for defense production (Section 301, Defense Production Act of 1950 (50 U.S.C. App. 2091)). By Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, the President has designated the following agencies as guaranteeing agencies:

(a) Department of Defense.

(b) Department of Energy.

(c) Department of Commerce.

(d) Department of the Interior.

(e) Department of Agriculture.

(f) General Services Administration.

(g) National Aeronautics and Space Administration.

32.303 General.

(a) Section 301 of the Defense Production Act authorizes loan guarantees for contract performance or other operations related to national defense, subject to amounts annually authorized by Congress on the maximum obligation of any guaranteeing agency under any loan, discount, advance, or commitment in connection therewith, entered into under section 301. (See 50 U.S.C. App. 2091 for statutory limitations and exceptions concerning the authorization of loan guarantee amounts and the use of loan guarantees for the prevention of insolvency or bankruptcy.)

(b) The guarantee shall be for less than 100 percent of the loan unless the agency determines that—

(1) The circumstances are exceptional;

(2) The operations of the contractor are vital to the national defense; and

(3) No other suitable means of financing are available.

(c) Loan guarantees are not issued to other agencies of the Government.

(d) Guaranteed loans are essentially the same as conventional loans made by private financial institutions, except that the guaranteeing agency is obligated, on demand of the lender, to purchase a stated percentage of the loan and to share any losses in the amount of the guaranteed percentage. It is the responsibility of the private financial institution to disburse and collect funds and to administer the loan. Under Regulation V of the Federal Reserve Board (12 CFR 245), any private financing institution may submit an application to the Federal Reserve Bank of its district for guarantee of a loan or credit.

(e) Federal Reserve Banks will make the loan guarantee agreements on behalf of the guaranteeing agencies.

(f) Under Section 302(c) of Executive Order 10480, August 14, 1953 (3 CFR 1949-53), as amended, all actions and operations of Federal Reserve Banks, as fiscal agents, are subject to the supervision of the Federal Reserve Board. The Federal Reserve Board is authorized to prescribe the following, after consultation with the heads of guaranteeing agencies:

(1) Regulations governing the actions and operations of fiscal agents.

(2) Rates of interest, guarantee and commitment fees, and other charges that may be made for loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through the Federal Reserve Banks. These prescriptions may be in the form of specific rates or limits, or in other forms.

(3) Uniform forms and procedures to be used in connection with the guarantees.

(g) The guaranteeing agency is responsible for certifying eligibility for the guarantee and fixing the maximum dollar amount and maturity date of the guaranteed loan to meet the contractor's requirement for financing performance of the defense production contract on hand at the time the guarantee application is submitted.

32.304 Procedures.

32.304-1 Application for guarantee.

(a) A contractor, subcontractor, or supplier that needs operating funds to perform a contract related to national defense may apply to a financing institution for a loan. If the financing institution is willing to extend credit, but considers a Government guarantee necessary, the institution may apply to the Federal Reserve Bank of its district for the guarantee. Application forms and guidance are available at all Federal Reserve Banks.

(b) The Federal Reserve Bank will promptly send a copy of the application, including a list of the relevant defense contracts held by the contractor, to the Federal Reserve Board. The Board will transmit the application and the list of contracts to the interested guaranteeing agency, so that the agency can determine the eligibility of the contractor.

(c) To expedite the process, the Federal Reserve Bank may, pursuant to instructions of a guaranteeing agency, submit lists of the defense contracts to the interested contracting officers.

(d) While eligibility is being determined, the Federal Reserve Bank will make any necessary credit investigations to supplement the information furnished by the applicant financing institution in order to—

(1) Expedite necessary defense financing; and

(2) Protect the Government against monetary loss.

(e) The Federal Reserve Bank will send its report and recommendation to the Federal Reserve Board. The Board will transmit them to the interested guaranteeing agency.

32.304-2 Certificate of eligibility.

(a) The contracting officer shall prepare the certificate of eligibility for a contract that the contracting officer deems to be of material consequence, when—

(1) The contract financing office requests it;

(2) Another interested agency requests it; or

(3) The application for a loan guarantee relates to a contract or subcontract within the cognizance of the contracting officer.

(b) The agency shall evaluate the relevant data, including the certificate of eligibility, the accompanying data, and any other relevant information on the contractor's financial status and performance, to determine whether authorization of a loan guarantee would be in the Government's interest.

(c) If the contractor has several major national defense contracts, it is normally not necessary to evaluate the eligibility of relatively minor contracts. The determination of eligibility should be processed, without delay, based on the the preponderance of the amount of the contracts.

(d) The certificate of eligibility shall include the following determinations:

(1) The supplies or services to be acquired are essential to the national defense.

(2) The contractor has the facilities and the technical and management ability required for contract performance.

(3) There is no practicable alternate source for the acquisition without prejudice to the national defense. (This statement shall not be included if the contractor is a small business concern.)

(e) The contracting officer shall consider the following factors in determining if a practicable alternate source exists:

(1) Prejudice to the national defense, because reletting of a contract with another source would conflict with a major policy on defense acquisition; e.g., policies relating to the mobilization base.

(2) The urgency of contract performance schedules.

(3) The technical ability and facilities of other potential sources.

(4) The extent to which other sources would need contract financing to perform.

(5) The willingness of other sources to enter into contracts.

(6) The time and expense involved in repurchasing for contracts or parts of contracts. This may include potential claims under a termination for convenience or delays incident to default at a later date.

(7) The comparative prices available from other sources.

(8) The disruption of established subcontracting arrangements.

(9) Other pertinent factors.

(f) The contracting officer shall attach sufficient data to the certificate of eligibility to support the determinations made. Available pertinent information shall be included on—

(1) The contractor's past performance;

(2) The relationship of the contractor's operations to performance schedules; and

(3) Other factors listed in paragraph (e) above, if relevant to the case under consideration.

(g) If the contracting officer determines that a certificate of eligibility is not justified, the facts and reasons supporting that conclusion shall be documented and furnished to the agency contract finance office.

(h) The guaranteeing agency shall review the proposed guarantee terms and conditions. If they are considered appropriate, the guaranteeing agency shall complete a standard form of authorization as prescribed by the Federal Reserve Board. The agency shall transmit the authorization through the Federal Reserve Board to the Federal Reserve Bank. The Bank is authorized to execute and deliver to the financing institution a standard form of guarantee agreement, with the terms and conditions approved for the particular case. The financing institution will then make the loan.

(i) Substantially the same procedure may be followed for the application of an offeror who is actively negotiating or bidding for a defense contract, except that the guarantee shall not be authorized until the contract has been executed.

(j) The contracting officer shall report to the agency contract finance office any information about the contractor that would have a potentially adverse impact on a pending guarantee application. The contracting officer is not required, however, to initiate any special investigation for this purpose.

(k) With regard to existing contracts, the agency shall not consider the percentage of guarantee requested by the financing institution in determining the contractor's eligibility.

32.304-3 Asset formula.

(a) Under guaranteed loans made primarily for working capital purposes, the agency shall normally limit the guarantee, by use of an asset formula, to an amount that does not exceed a specified percentage (90 percent or less) of the contractor's investment (e.g., payrolls and inventories) in defense production contracts. The asset formula may include all items under defense contracts for which the contractor would be entitled to payment on performance or termination. The formula shall exclude—

(1) Amounts for which the contractor has not done any work or made any expenditure;

(2) Amounts that would become due as the result of later performance under the contracts; and

(3) Cash collateral or bank deposit balances.

(b) Progress payments are deducted from the asset formula.

(c) The agency may relax the asset formula to an appropriate extent for the time actually necessary for contract performance, if the contractor's working capital and credit are inadequate.

32.304-4 Guarantee amount and maturity.

The agency may change the guarantee amount or maturity date, within the limitations at 32.304-3, as follows:

(a) If the contractor enters into additional defense production contracts after the application for, but before authorization of, a guarantee, the agency may adjust the loan guarantee amount or maturity date to meet any significant increase in financing need.

(b) If the contractor enters into defense production contracts during the term of the guaranteed loan, the parties may adjust the existing guarantee agreement to provide for financing the new contracts. Pertinent information and the Federal Reserve Bank reports will be submitted to the guaranteeing agency under the procedures for the original guarantee application, described in 32.304-1. Normally, a new certificate of eligibility is required.

32.304-5 Assignment of claims under contracts.

(a) The agency shall generally require a contractor that is provided a guaranteed loan to execute an assignment of claims under defense production contracts (including any contracts entered into during the term of the guaranteed loan that are eligible for financing under the loan); however, the agency need not require assignment if any of the following conditions are present:

(1) The contractor's financial condition is so strong that the protection to the Government provided by an assignment of claims is unnecessary.

(2) In connection with the assignment of claims under a major contract, the increased protection of the loan that would be provided by the assignments under additional, relatively smaller contracts is not considered necessary by the agency.

(3) The assignment of claims would create an administrative burden disproportionate to the protection required; e.g., if the contractor has a large number of contracts with individually small dollar amounts.

(b) The contractor shall also execute an assignment of claims if requested to do so by the guarantor or the financing institution.

(c) A subcontract or purchase order issued to a subcontractor shall not be considered eligible for financing under guaranteed loans when the issuer of the subcontract or purchase order reserves (1) the privilege of making payments directly to the assignor or to the assignor and assignee jointly, after notice of the assignment, or (2) the right to reduce or set off assigned proceeds under defense production contracts by reason of claims against the borrower arising after notice of assignment and independently of defense production contracts under which the borrower is the seller.

32.304-6 Other collateral security.

The following are examples of other forms of security that, although seldom invoked under guaranteed loans, may be required when considered necessary for protection of the Government interest:

(a) Mortgages on fixed assets.

(b) Liens against inventories.

(c) Endorsements.

(d) Guarantees.

(e) Subordinations or standbys of other indebtedness.

32.304-7 Contract surety bonds and loan guarantees.

(a) Contract surety bonds are incompatible with the Government's interests under guaranteed loans, unless the interests of the surety are subordinated to the guaranteed loan.

(b) If a substantial share of the contractor's defense contracts are covered by surety bonds, or the amount of the bond is substantial in relation to the contractor's net worth, the agency shall not authorize the guarantee of a loan on a bonded contract unless the surety enters into an agreement with the financing institution to subordinate the surety's rights and claims in favor of the guaranteed loan.

(c) The agency approval of a guarantee for a loan involving relatively substantial subcontracts covered by surety bonds shall also depend on the establishment of a reasonable allocation agreement between the sureties and the financing institution. The agreement should give the financing institution the benefit, with regard to payments to be made on the contract, of the portion of its loans fairly attributable to expenditures made under the bonded subcontracts before notice of default.

32.304-8 Other borrowing.

(a) Because of the limitations under guaranteed loans, some contractors seek to supplement the loan by other borrowing (outside the guarantee) from the financing institution or other sources. It has been recognized in practice that, while prohibition of borrowings outside the guaranteed loan is preferable when practicable in a given V-loan case, such other borrowings should be permitted when necessary.

(b) If the agency consents to the contractor obtaining other borrowing during the guaranteed loan period, the agency shall apply the following restrictions:

(1) A reasonable limit on the amount of other borrowing.

(2) If guaranteed and unguaranteed loans are made by the same financing institution, a requirement that any collateral security requested by the institution under the unguaranteed loan

is also to be secondary collateral for the guaranteed loan.

(3) A requirement that the contractor provide appropriate certificates to the guaranteeing agency, at intervals not longer than 30 days, to disclose outstanding unguaranteed borrowings.

32.305 Loan guarantees for terminated contracts.

(a) The purpose of guaranteed loans; i.e., to provide for financing based on the borrower's recoverable investment in defense production contracts, may also apply to contracts that have been terminated (partially or totally) for the convenience of the Government. Guaranteed loans also may be made before such termination if it is known that termination of particular contracts for the convenience of the Government is about to occur. These loans are expected to provide necessary financing pending termination settlements and payments. They may also finance continuing performance of defense production contracts that are eligible for guaranteed loans.

(b) The procedure for such guarantees is substantially the same as that outlined in 32.304, except that certificates of eligibility are not required for (1) contracts that have been totally terminated or (2) the terminated portion of contracts that have been partially terminated. The agency shall take precautions necessary to avoid Government losses and to ensure the loans will be self-liquidating from the proceeds of defense production contracts.

(c) Loan guarantees for contract termination financing shall not be provided before specific contract terminations are certain.

32.306 Loan guarantees for subcontracts.

If the request for a loan guarantee concerns a subcontractor that is financially weak in comparison with its contractor, the Government's interests may be fostered by the contractor making progress payments to the subcontractor. If so, the agency shall try to arrange for the contractor to provide the progress payments. As a result, the need for the loan guarantee may be reduced or eliminated and the contractor would bear part or all of the risk of loss arising from the selection of the subcontractor.

Subpart 32.4—Advance Payments

32.400 Scope of subpart.

This subpart provides policies and procedures for advance payments on prime contracts and subcontracts. It does not include policies and procedures for advance payments for the types of transactions listed in 32.404.

32.401 Statutory authority.

The agency may authorize advance payments in negotiated and sealed bid contracts if the action is appropriate under (a) section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255), (b) the Armed Services Procurement Act (10 U.S.C. 2307), or (c) Pub. L. 85-804 (50 U.S.C. 1431-1435) and Executive Order 10789, November 14, 1958 (3 CFR 1958 Supp. pp. 72-74) (see part 50 of the Federal Acquisition Regulation (FAR) for other applications of this statute).

[48 FR 42328, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

32.402 General.

(a) A limitation on authority to grant advance payments under Pub. L. 85-804 (50 U.S.C. 1431-1435) is described at FAR 50.203(b)(4). This limitation also applies to advance payments authorized under 10 U.S.C. 2307.

(b) Advance payments may be provided on any type of contract; however, the agency shall authorize advance payments sparingly. Except for the contracts described in 32.403(a) and (b), advance payment is the least preferred method of contract financing (see 32.106) and generally they should not be authorized if other types of financing are reasonably available to the contractor in adequate amounts. Loans and credit at excessive interest rates or other exorbitant charges, or loans from other Government agencies, are not considered reasonably available financing.

(c) If statutory requirements and standards for advance payment determinations are met, the contracting officer shall generally recommend that the agency authorize advance payments.

(1) The statutory requirements are that—

(i) The contractor gives adequate security;

(ii) The advance payments will not exceed the unpaid contract price (see 32.410(b), subparagraph (a)(2)); and

(iii) The agency head or designee determines, based on written findings, that the advance payment—

(A) Is in the public interest (under 32.401(a) or (b)); or

(B) Facilitates the national defense (under 32.401(c)).

(2) The standards for advance payment determinations are that—

(i) The advance payments will not exceed the contractor's interim cash needs based on—

(A) Analysis of the cash flow required for contract performance;

(B) Consideration of the reimbursement or other payment cycle; and

(C) To the extent possible, employment of the contractor's own working capital;

(ii) The advance payments are necessary to supplement other funds or credit available to a contractor;

(iii) The recipient is otherwise qualified as a responsible contractor;

(iv) The Government will benefit from performance prospects or there are other practical advantages; and

(v) The case fits one or more of the categories described in 32.403.

(d) If necessary, the agency may authorize advance payments in addition to progress or partial payments on the same contract (see 32.501-1(c)).

(e) Each agency that provides advance payments shall—

(1) Place the responsibility for making findings and determinations, and for approval of contract terms concerning advance payments (see 32.410), at an organizational level high enough to ensure uniform application of this subpart (see the limitation at 50.201(b) which also applies to advance payments authorized under Pub. L. 85-804 (50 U.S.C. 1431-1435)); and

(2) Establish procedures for coordination, before advance payment authorization, with the activity that provides contract financing support.

(f) If the contract provides for advance payments under Pub. L. 85-804, the contracting officer shall ensure conformance with the requirements of FAR 50.307.

32.403 Applicability.

Advance payments may be considered useful and appropriate for the following:

(a) Contracts for experimental, research, or development work with nonprofit educational or research institutions.

(b) Contracts solely for the management and operation of Government-owned plants.

(c) Contracts for acquisition at cost of facilities for Government ownership.

(d) Contracts of such a highly classified nature that the agency considers it undesirable for national security to permit assignment of claims under the contract.

(e) Contracts entered into with financially weak contractors whose technical ability is considered essential to the agency. In these cases, the agency shall closely monitor the contractor's performance and financial controls to reduce the Government's financial risk.

(f) Contracts for which a loan by a private financial institution is not practicable, whether or not a loan guarantee under this part is issued; for example, if—

(1) Financing institutions will not assume a reasonable portion of the risk under a guaranteed loan;

(2) Loans with reasonable interest rates or finance charges are not available to the contractor; or

(3) Contracts involve operations so remote from a financial institution that the institution could not be expected to suitably administer a guaranteed loan.

(g) Contracts with small business concerns, under which circumstances that make advance payments appropriate often occur (but see 32.104(b)).

(h) Contracts under which exceptional circumstances make advance payments the most advantageous contract financing method for both the Government and the contractor.

32.404 Exclusions.

(a) This subpart does not apply to advance payments authorized by law for—

(1) Rent;

(2) Tuition;

(3) Insurance premiums;

(4) Expenses of investigations in foreign countries;

(5) Extension or connection of public utilities for Government buildings or installations;

(6) Subscriptions to publications;

(7) Purchases of supplies or services in foreign countries, if—

(i) The purchase price does not exceed $10,000 (or equivalent amount of the applicable foreign currency); and

(ii) The advance payment is required by the laws or government regulations of the foreign country concerned;

(8) Enforcement of the customs or narcotics laws; or

(9) Other types of transactions excluded by agency procedures under statutory authority.

(b) Agencies may issue their own instructions to deal with advance payment items in paragraph (a) above authorized under statutes relevant to their agencies.

32.405 Applying Pub. L. 85-804 to advance payments under sealed bid contracts.

(a) Actions that designated agencies may take to facilitate the national defense without regard to other provisions of law relating to contracts, as explained in 50.101(a), also include making advance payments. These advance payments may be made at or after award of sealed bid contracts as well as negotiated contracts.

(b) Bidders may request advance payments before or after award, even if the invitation for bids does not contain an advance payment provision. However, the contracting officer shall reject any bid requiring that advance payments be provided as a basis for acceptance.

(c) When advance payments are requested, the agency may—

(1) Enter into the contract and provide for advance payments conforming to this part 32;

(2) Enter into the contract without providing for advance payments if the contractor does not actually need advance payments; or

(3) Deny award of the contract if the request for advance payments has been disapproved under 32.409-2 and funds adequate for performance are not otherwise available to the offeror.

[48 FR 42328, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

32.406 Letters of credit.

(a) The Department of the Treasury (Treasury) prescribes regulations and instructions covering the use of letters of credit for advance payments under contracts. See Treasury Department Circular 1075 (31 CFR part 205), and the implementing instructions in the Treasury Financial Manual, available in offices providing financial advice and assistance.

(b) If agencies provide advance payments to contractors, use of the following methods is required unless the agency has obtained a waiver from the Treasury Department:

(1) By letter of credit if the contracting agency expects to have a continuing relationship with the contractor for a year or more, with advances totaling at least $120,000 a year.

(2) By direct Treasury check if the circumstances do not meet the criteria in subparagraph (1) above.

(c) If the agency has entered into multiple contracts (or a combination of contract(s) and assistance agreement(s)) involving eligibility of a contractor for more than one letter of credit, the agency shall follow arrangements made under Treasury procedures for (1) consolidating funding to the same contractor under one letter of credit or (2) replacing multiple letters of credit with a single letter of credit.

(d) The letter of credit enables the contractor to withdraw Government funds in amounts needed to cover its own disbursements of cash for contract performance. Whenever feasible, the agency shall, under the direction

nd approval of the Department of
he Treasury, use a letter of credit
ethod that requires the contractor
ot to withdraw the Government
unds until the contractor's checks
ave been (1) forwarded to the payees
lelay of drawdown technique), or (2)
resented to the contractor's bank for
ayment (checks paid technique) (see
l CFR 205.3 and 205.4(d)).

(e) The Treasury regulations provide
or terminating the advance financing
rrangement if the contractor is un-
illing or unable to minimize the
lapsed time between receipt of the
dvance and disbursement of the
unds. In such cases, if reversion to
ormal payment methods is not feasi-
le, the Treasury regulation provides
or use of a working capital method of
dvance; i.e., for limiting advances to
.) only the estimated disbursements
or a given initial period and (2) subse-
uently, for only actual cash disburse-
ents (31 CFR 205.3(k) and 205.7).

8 FR 42328, Sept. 19, 1983, as amended at
FR 19805, May 27, 1987]

.407 Interest.

(a) Except as provided in paragraph
) below, the contracting officer shall
arge interest on the daily unliquida-
d balance of all advance payments at
e higher of—

(1) The published prime rate of the
nking institution (depository) in
hich the special bank account (see
.409-3) is established; or

(2) The rate established by the Sec-
tary of the Treasury under 50 U.S.C.
pp. 1215(b)(2).

(b) The interest rate for advance
yments shall be adjusted for
anges in the prime rate of the de-
sitory and the semiannual determi-
tion by the Secretary of the Treas-
y under 50 U.S.C. App. 1215(b)(2).
e contracting officer shall obtain
ta from the depository on changes
the interest rate during the month.
terest shall be computed at the end
each month on the daily unliquida-
l balance of advance payments at
applicable daily interest rate.

c) Interest shall be required on con-
cts that are for acquisition, at cost,
facilities for Government owner-
p, if the contracts are awarded in combination with, or in contemplation of, supply contracts or subcontracts.

(d) The agency head or designee may authorize advance payments without interest under the following types of contracts, if in the Government's interest:

(1) Contracts for experimental, research, or development work (including studies, surveys, and demonstrations in socio-economic areas) with nonprofit education or research institutions.

(2) Contracts solely for the management and operation of Government-owned plants.

(3) Cost-reimbursement contracts with governments, including State or local governments, or their instrumentalities.

(4) Other classes of contracts, or unusual cases, for which the exclusion of interest on advances is specifically authorized by agency procedures.

(e) If a contract provides for interest-free advance payments, the contracting officer may require the contractor to charge interest on advances or downpayments to subcontractors and credit the Government for the proceeds from the interest charges. Interest rates shall be determined as described in paragraphs (a) and (b) above. The contracting officer need not require the contractor to charge interest on an advance to a subcontractor that is an institution of the kind described in paragraph (d)(1).

(f) The contracting officer shall not allow interest charges, required by this 32.407, as reimbursable costs under cost-reimbursement contracts, whether the interest charge was incurred by the prime contractor or a subcontractor.

32.408 Application for advance payments.

(a) A contractor may apply for advance payments before or after the award of a contract.

(b) The contractor shall submit any advance payment request in writing to the contracting officer and provide the following information:

(1) A reference to the contract if the request concerns an existing contract, or a reference to the solicitation if the request concerns a proposed contract.

(2) A cash flow forecast showing estimated disbursements and receipts for the period of contract performance. If the application pertains to a type of contract described in 32.403(a) or (b), the contractor shall limit the forecast to the contract to be financed by advance payments.

(3) The proposed total amount of advance payments.

(4) The name and address of the bank at which the contractor expects to establish a special account as depository for the advance payments. If advance payments in the form of a letter of credit are anticipated, the contractor shall identify the specific account at the bank to be used. This subparagraph (4) is not applicable if an alternate method is used under agency procedures.

(5) A description of the contractor's efforts to obtain unguaranteed private financing or a V-loan (see 32.301) under eligible contracts. This requirement is not applicable to the contract types described in 32.403(a) or (b).

(6) Other information appropriate to an understanding of (i) the contractor's financial condition and need, (ii) the contractor's ability to perform the contract without loss to the Government, and (iii) financial safeguards needed to protect the Government's interest. Ordinarily, if the contract is a type described in 32.403(a) or (b), the contractor may limit the response to this subparagraph (6) to information on the contractor's reliability, technical ability, and accounting system and controls.

32.409 Contracting officer action.

After analysis of the contractor's application and any appropriate investigation, the contracting officer shall recommend approval or disapproval and transmit the request and recommendation to the approving authority designated under 32.402(e).

32.409-1 Recommendation for approval.

If recommending approval, the contracting officer shall transmit the following, under agency procedures, to the approving authority:

(a) Contract data, including—

(1) Identification and date of the award;

(2) Citation of the appropriation;

(3) Type and dollar amount of the contract;

(4) Items to be supplied, schedule of deliveries or performance, and status of any deliveries or performance;

(5) The contract fee or profit contemplated; and

(6) A copy of the contract, if available.

(b) The contractor's request and supporting information.

(c) A report on the contractor's past performance, responsibility, technical ability, and plant capacity.

(d) Comments on (1) the contractor's need for advance payments and (2) potential Government benefits from the contract performance.

(e) Proposed advance payment contract terms, including proposed security requirements.

(f) The findings, determination, and authorization (see 32.410).

(g) The recommendation for approval of the advance payment request.

(h) Justification of any proposal for waiver of interest charges (see 32.407).

32.409-2 Recommendation for disapproval.

If recommending disapproval, the contracting officer shall, under agency procedures, transmit—

(a) The items prescribed in 32.409-1(a), (b), and (c); and

(b) The recommendation for disapproval and the reasons.

32.409-3 Security, supervision, and covenants.

(a) If advance payments are approved, the contracting officer shall enter into an agreement with the contractor covering bank accounts and suitable covenants protecting the Government's interest (see 32.411). This requirement generally applies under all statutory authorities, but modified requirements applicable to certain specific cases are prescribed in paragraphs (e) through (g) below.

(b) The agency shall (1) ensure that the amount of advance payments does not exceed the contractor's financial needs, and (2) closely supervise the contractor's withdrawal of funds from special bank accounts in which the advance payments are deposited.

(c) In the terms of the agreement, the contracting officer should provide for a paramount lien in favor of the Government. This lien may supplement or replace other security requirements. The lien should cover—

(1) Supplies being acquired;

(2) Any credit balance in the special bank account in which advance payments are deposited; and

(3) All property that the contractor acquires for performing the contract, except to the extent to which the Government otherwise has valid title to the property.

(d) Security requirements vary to fit the circumstances of different cases. Minimum security requirements are covered by the clauses prescribed in the contract. The contracting officer may supplement these as necessary in each case for protection of the Government's interest. Examples of additional security terms are—

(1) Personal or corporate endorsements or guarantees;

(2) Pledges of collateral;

(3) Subordination or standby of other indebtedness;

(4) Controls or limitations on profit distributions, salaries, bonuses or commissions, rentals and royalties, capital expenditures, creation of liens, retirement of stock or debt, and creation of additional obligations; and

(5) Advance payment bonds (rarely required).

(e) In an advance payment agreement with an instrumentality of the Government, a State, a local government, or an agency or instrumentality of a State or local government, the contracting officer may omit the requirement for deposit of the advances in a special bank account, if the official approving the advance determines that other adequate security exists to protect the Government's interest.

(f) The requirements of this 32.409-3 do not apply when using letters of credit if an agency's procedures provide for—

(1) The use under a cost-reimbursement contract of Federal funds deposited in the contractor's bank account (without the contractor acquiring title to the funds); and

(2) The security of such deposit of public moneys in accordance with governing regulations of the Treasury Department.

(g) If a separate special bank account is not required; e.g., advance payment by a letter of credit, an agency may require a special bank account for an individual case, or classes of cases, if the circumstances warrant.

32.410 Findings, determination, and authorization.

(a) Each determination concerning advance payments shall be supported by written findings (see 32.402(c)(1)(iii)).

(b) The following is an example of the format and text of findings, determination, and authorization with alternative words, phrases, and paragraphs to be selected to conform to the circumstances involved:

FINDINGS, DETERMINATION, AND AUTHORIZATION FOR ADVANCE PAYMENTS

FINDINGS

(a) The undersigned hereby finds that:

(1) The ——— [*insert the name of the contracting activity*] and ——— [*insert the name of the contractor*] (have entered) (propose to enter) into (negotiated) (sealed bid) Contract No. ——, dated ———

[*Summarize the specific facts and significant circumstances concerning the contract and the contractor, that, together with the other findings, will clearly support the determination below.*]

(2) Advance payments (in an amount not to exceed $——— at any time outstanding) (in an aggregate amount not exceeding $———, less the aggregate amounts repaid, or withdrawn by the Government) are required by the Contractor to perform under the contract. The amount does not exceed the unpaid contract price or the estimated interim cash needs arising during the reimbursement cycle.

(3) The advance payments are necessary for prompt, efficient contract performance that will benefit the Government.

(4) The proposed advance payment clause provides for security for the protection of the Government. The clause requires that all payments will be desposited in a special bank account and that the Government will have a paramount lien on (i) the credit balance in the special bank account, (ii) any supplies contracted for, and (iii) any material or other property acquired for performance of the contract. [*Insert the following, if*

applicable (The Contractor's financial management system provides for effective control over and accountability for all Federal funds under governing regulations of the Treasury Department.) (An advance payment bond is required.)] This security is considered adequate.

(5) Advance payments are the only adequate means of financing available to the Contractor, and the amount designated in (2) above is based, to the extent possible, on the use of the Contractor's own working capital in performing the contract.

[*Insert paragraph (6), (7), or (8), as applicable*].

(6) The Contractor is a nonprofit (educational) (and) (research) institution, and the contract is for (experimental) (,) (research and development) work.

(7) The contract is solely for the management and operation of a Government-owned plant.

(8) The following unusual facts and circumstances favor making advance payments to the Contractor without interest:

[*List the pertinent facts and circumstances.*]

DETERMINATION

(b) Based on the findings in (a) above, the undersigned determined that the making of the proposed advance payments, (with interest at the rate of —[*Insert the interest rate computed in accordance with 32.407*] percent on the daily unliquidated balance of the advance payments,) (without interest, except as provided by the proposed advance payment clause,) (is in the public interest) (will facilitate the national defense).

AUTHORIZATION

(c) The advance payments, of which (the amount at any time outstanding) (the aggregate amount, less the aggregate amounts repaid, or withdrawn by the Government), shall not exceed $——, are hereby authorized under (section 305 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 255)) (the Armed Services Procurement Act (10 U.S.C. 2307)) (the Extraordinary Contracting Authority of Government Agencies in Connection with National Defense Functions (50 U.S.C. 1431-1435) and Executive Order No. 10789 of November 14, 1958 (3 CFR 1958 Supp. pp. 72-74)) [*or, if other, cite appropriate authority*] on (terms substantially as contained in the proposed advance payment clause, a copy (an outline) of which is annexed to this authorization) (the following terms:) [*Insert the appropriate terms.*]

(All prior authorizations for advance payments under Contract No. —— are superseded.)

(*Title of authorized official*)

[*Each Findings, Determination, and Authorization shall be individually prepared to fit the particular circumstances at hand. Subparagraphs (a)(1), (2), (3) and (4) and paragraphs (b) and (c) shall be used in each case. If the contract is (a) for experimental, developmental, or research work and with a nonprofit educational or research institution, or (b) only for management and operation of a Government-owned plant, subparagraph (a)(5) should not be included. If the advance payment is to be made without interest to the contractor, include subparagraph (a)(6), (7), or (8). If any advance payments have previously been authorized for the contract, include the final sentence of paragraph (c). The alternate parenthetical wording or other modifications may be used as appropriate. The paragraphs actually used shall be renumbered sequentially*].

[48 FR 42328, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

32.411 Agreement for special bank account.

The contracting officer shall use substantially the following form of agreement for a special bank account for advance payments:

AGREEMENT FOR SPECIAL BANK ACCOUNT

This agreement is entered into this — day of ——, 19—, between the United States of America, (the Government), represented by the Contracting Officer executing this agreement, —— [*Insert the name of the contractor*], a —— [*Insert the name of the State of incorporation*] corporation (the Contractor), and ——, a banking corporation under the laws of ——, located at —— (the Bank).

RECITALS

(a) Under date of ——, 19—, the Government and the Contractor entered into Contract No. ——, or a related supplemental agreement, providing for advance payments to the Contractor. A copy of the advance payment terms was furnished to the Bank.

(b) The contract or supplemental agreement requires that amounts advanced to the Contractor be deposited separate from the Contractor's general or other funds, in a Special Bank Account at a member bank of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (12 U.S.C. 1811). The parties agree to deposit the amounts with the Bank, which meets the requirement.

(c) This Special Bank Account is designated "——— [*Insert the contractor's name*], ——— [*Insert the name of the Government agency*] Special Bank Account."

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, the parties agree to the following conditions:

(a) The Government shall have a lien on the credit balance in the account to secure the repayment of all advance payments made to the Contractor. The lien is paramount to any lien or claim of the Bank regarding the account.

(b) The Bank is bound by the terms of the contract relating to the deposit and withdrawal of funds in the Special Bank Account, but is not responsible for the application of funds withdrawn from the account. The Bank shall act on written directions from the Contracting Officer, the administering office, or a duly authorized representative of either. The Bank is not liable to any party to this agreement for any action that complies with the written directions. Any written directions received by the Bank through the Contracting Officer on ——— [*Insert the name of the agency*] stationery and purporting to be signed by, or by the direction of ——— or duly authorized representative, shall be, as far as the rights, duties, and liabilities of the Bank are concerned, considered as being properly issued and filed with the Bank by the ——— [*Insert the name of the agency*].

(c) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank regarding the Special Bank Account at all reasonable times and for all reasonable purposes, including (but not limited to), the inspection or copying of the books and records and any and all pertinent memoranda, checks, correspondence, or documents. The Bank shall preserve the books and records for a period of 6 years after the closing of this Special Bank Account.

(d) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings regarding the Special Bank Account, the Bank will promptly notify ——— [*Insert the name of the administering office*].

(e) While this Special Bank Account exists, the Bank shall inform the Government each month of the Bank's published prime interest rate and changes to the rate during the month. The Bank shall give this information to the Contracting Officer on the last business day of the month. [*This covenant will not be included in Special Bank Account Agreements covering interest-free advance payments*].

Each of the parties to this agreement has executed the agreement on ———, 19—

32.412 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-12, Advance Payments, in solicitations and contracts under which the Government will provide advance payments, except as provided in 32.412(b).

(b) If the agency desires to waive the countersignature requirement because of the contractor's financial strength, good performance record, and favorable experience concerning cost disallowances, the contracting officer shall use the clause with its Alternate I.

(c) If a cost-reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the agency considers a more rapid liquidation appropriate, the contracting officer shall use the clause with its Alternate III.

(e) If the agency provides advance payments under the contract at no interest to the prime contractor, the contracting officer shall use the clause with its Alternate IV.

(f) If the requirement for a special bank account is eliminated in accordance with 32.409-3 (e) or (g), the contracting officer shall insert in the solicitation or contract the clause set forth in Alternate V of 52.232-12, Advance Payments, instead of the basic clause.

[48 FR 42328, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

Subpart 32.5—Progress Payments Based on Costs

32.500 Scope of subpart.

This subpart prescribes policies, procedures, forms, solicitation provisions, and contract clauses for providing contract financing through progress payments based on costs. This subpart does not apply to—

(a) Payments under cost-reimbursement contracts, other than reimbursement of the contractor's progress payments to subcontractors and suppliers (see 32.504(f)); or

(b) Contracts for construction or for shipbuilding or ship conversion, alteration, or repair, when the contracts provide for progress payments based on a percentage or stage of completion.

32.501 General.

Progress payments may be customary or unusual. Customary progress payments are those made under the general guidance in this subpart, using the customary progress payment rate, the cost base, and frequency of payment established in the Progress Payments clause, and either the ordinary liquidation method or the alternate method as provided in subsections 32.503-8 and 32.503-9. Any other progress payments are considered unusual, and may be used only in exceptional cases when authorized in accordance with subsection 32.501-2.

32.501-1 Customary progress payment rates.

(a) The customary progress payment rate is 80 percent, applicable to the total costs of performing the contract. The customary rate for contracts with small business concerns is 85 percent. The Department of Defense (DOD) may establish other customary rates for foreign military sales and for flexible progress payments.

(b) Any rate higher than those permitted in paragraph (a) above shall be considered an unusual progress payment. The contracting officer shall not include a higher rate in a contract unless advance agency approval is obtained as prescribed in 32.501-2.

(c) When advance payments and progress payments are authorized under the same contract, a progress payment rate higher than the customary rate shall not be authorized.

(d) In accordance with the Defense Procurement Improvement Act of 1986 (Pub. L. 99-145) and, for civilian agencies, as a matter of policy, progress payments are limited to 80 percent on work accomplished under undefinitized contract actions. A higher rate is not authorized under unusual progress payments or flexible progress payments for the undefinitized actions.

[48 FR 42328, Sept. 19, 1987, as amended at 52 FR 30077, Aug. 12, 1987]

32.501-2 Unusual progress payments.

(a) The contracting officer may provide unusual progress payments only if—

(1) The contract necessitates predelivery expenditures that are large in relation to contract price and in relation to the contractor's working capital and credit;

(2) The contractor fully documents an actual need to supplement any private financing available, including guaranteed loans; and

(3) The contractor's request is approved by the head of the contracting activity or a designee. In addition, see 32.502-2.

(b) The excess of the unusual progress payment rate approved over the customary progress payment rate should be the lowest amount possible under the circumstances.

(c) Progress payments will not be considered unusual merely because they are on letter contracts or the definitive contracts that supersede letter contracts.

32.501-3 Contract price.

(a) For the purpose of making progress payments and determining the limitation on progress payments, the contract price shall be as follows:

(1) Under firm-fixed-price contracts, the contract price is the current contract price plus any unpriced modifications for which funds have been obligated.

(2) If the contract is redeterminable or subject to economic price adjust-

ment, the contract price is the initial price until modified.

(3) Under a fixed-price incentive contract, the contract price is the target price plus any unpriced modifications for which funds have been obligated. However, if the contractor's properly incurred costs exceed the target price, the contracting officer may provisionally increase the price up to the ceiling or maximum price.

(4) Under a letter contract, the contract price is the maximum amount obligated by the contract as modified.

(5) Under an unpriced order issued against a basic ordering agreement, the contract price is the maximum amount obligated by the order, as modified.

(6) Any portion of the contract specifically providing for reimbursement of costs only shall be excluded from the contract price.

(b) The contracting officer shall not make progress payments or increase the contract price beyond the funds obligated under the contract, as amended.

32.501-4 Consideration for progress payments.

(a) There is no requirement for a separate consideration for providing progress payments or changing progress payment or liquidation rates, if coverage is included in the terms of the contract when awarded.

(b) Occasionally, unanticipated circumstances arise during contract performance which, under the policies of this subpart, result in the contract being amended to provide progress payments. In such a case, adequate new consideration is required.

(c) The contractor may provide the new consideration by monetary or nonmonetary means. A monetary consideration could be a reduction in the contract price. A nonmonetary consideration could be the incorporation of terms in the contract modification giving the Government a new and substantial benefit.

(d) The fair and reasonable consideration should approximate as nearly as practicably ascertainable the amount by which the price would have been maller had the Progress Payments ause been contained in the initial contract. In the absence of definite information on this point, the contracting officer should apply the following criteria in evaluating whether the proposed new consideration is adequate:

(1) The value to the contractor of the anticipated amount and duration of unliquidated progress payments at the imputed financial costs of the equivalent working capital.

(2) The estimated profit rate to be earned through contract performance.

(e) The contracting officer shall not provide for any other type of specific charges, such as interest, for progress payments.

32.501-5 Other protective terms.

If the contracting officer considers it necessary for protection of the Government's interest, protective terms such as the following may be used in addition to the Progress Payments clause of the contract:

(a) Personal or corporate guarantees.

(b) Subordinations or standbys of indebtedness.

(c) Special bank accounts.

(d) Protective covenants of the kinds in paragraph (p) of the clause at 52.232-12, Advance Payments.

32.502 Preaward matters.

This section covers matters that generally are relevant only before contract award. This does not preclude taking actions discussed here after award, if appropriate; e.g., postaward addition of a Progress Payments clause for consideration.

32.502-1 Use of customary progress payments.

The use of a Progress Payments clause in solicitations and resulting contracts generally shall be based upon considerations of the criteria in this subsection. Reasonable doubts should be resolved in favor of including the Progress Payments clause in the solicitation. Bids conditioned on progress payments when the solicitation did not provide for progress payments shall be rejected as nonresponsive.

(a) Subject to paragraphs (b) and (c) below, the contracting officer may provide for customary progress payments if the contractor (1) will not be able to bill for the first delivery of products, or other performance milestones, for a substantial time after work must begin (normally 4 months or more for small business concerns; 6 months or more for others), and (2) will make expenditures for contract performance during the predelivery period that have a significant impact on the contractor's working capital. Progress payments may also be authorized, particularly for small suppliers, if the contractor demonstrates actual financial need or the unavailability of private financing (see 32.106(a)).

(b) To reduce undue administrative effort and expense, the contracting officer generally should not provide for progress payments on contracts of less than $1,000,000 unless—

(1) The contractor is a small business concern and the contract will involve approximately $100,000 or more; or

(2) The contractor will perform a group of small contracts at the same time and the total impact on working capital is equivalent to a single contract of $1,000,000 or more.

(c) The contracting officer shall not provide for progress payments if the contract items are quick turnover types for which progress payments are not a customary commercial practice. Examples of items customarily not subject to progress payments include (1) subsistence, (2) clothing, (3) medical and dental supplies, and (4) standard commercial items not requiring a substantial accumulation of predelivery expenditures by the contractor.

(d) (1) In considering whether to provide for progress payments in circumstances under which a series of orders are awarded (e.g., indefinite delivery contracts or basic ordering agreements contemplating requisitions, task orders, etc., or their equivalent), the contracting officer shall apply the standards in paragraphs (a) through (c) above, based on—

(i) An estimate of the total work to be done; and

(ii) The probable impact on working capital of the predelivery expenditures and production lead times of the majority of the individual orders.

(2) In authorizing progress payments under multiple-order contracts, the contracting officer should establish a single liquidation rate applicable to all orders.

32.502-2 Contract finance office clearance.

The contracting officer shall obtain the approval of the contract finance office or other offices designated under agency procedures before taking any of the following actions:

(a) Providing a progress payment rate higher than the customary rate (see 32.501-1).

(b) Deviating from the progress payments terms prescribed in this part.

(c) Providing progress payments to a contractor—

(1) Whose financial condition is in doubt;

(2) Who has had an advance payment request or loan guarantee denied for financial reasons (or approved but withdrawn or lapsed) within the previous 12 months; or

(3) Who is named in the consolidated list of contractors indebted to the United States (known commonly as the *Hold-up List*).

32.502-3 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.232-13, Notice of Progress Payments, in invitations for bids and requests for proposals that include a Progress Payments clause.

(b) (1) Under the authority of the statutes cited in 32.101, an invitation for bids may restrict the availability of progress payments to small business concerns only.

(2) The contracting officer shall insert the provision at 52.232-14, Notice of Availability of Progress Payments Exclusively for Small Business Concerns, in invitations for bids if it is anticipated that (1) both small business concerns and others may submit bids in response to the same invitation and (2) only the small business bidders would need progress payments.

(c) The contracting officer shall insert the provision at 52.232-15, Progress Payments Not Included, in invitations for bids if the solicitation will not contain one of the provisions prescribed in paragraphs (a) and (b) above.

32.502-4 Contract clauses.

(a) The contracting officer shall insert the clause at 52.232-16, Progress Payments, in solicitations and fixed-price contracts under which the Government will provide progress payments based on costs.

(b) If the contractor is a small business concern, the contracting officer shall use the clause with its Alternate I.

(c) If the contract is a letter contract, the contracting officer shall use the clause with its Alternate II.

(d) If the nature of the contract necessitates separate progress payment rates for portions of work that are clearly severable and accounting segregation would be maintained (e.g., annual production requirements), the application of separate progress payment rates shall be fully described in a supplementary special provision within the contract. Separate progress payment requests and subsequent invoices shall be submitted by the contractor for the severable portions of work in order to maintain accounting integrity.

[48 FR 42328, Sept. 19, 1983, as amended 52 FR 30077, Aug. 12, 1987]

32.503 Postaward matters.

This section covers matters that are generally relevant only after award of a contract. This does not preclude taking actions discussed here before award, if appropriate; e.g., preaward review of accounting systems and controls.

32.503-1 Contractor requests.

Each contractor request for progress payment shall—

(a) Be submitted on Standard Form 1443, Contractor's Request for Progress Payment;

(b) Comply with the instructions on the reverse of the applicable form, and the contract terms; and

(c) Include any additional information reasonably requested by the contracting officer.

32.503-2 Supervision of progress payments.

(a) The extent of progress payments supervision, by prepayment review or periodic review, should vary inversely with the contractor's experience, performance record, reliability, quality of management, and financial strength, and with the adequacy of the contractor's accounting system and controls. Supervision shall be of a kind and degree sufficient to provide timely knowledge of the need for, and timely opportunity for, any actions necessary to protect Government interests.

(b) The administering office must keep itself informed of the contractor's overall operations and financial condition, since difficulties encountered and losses suffered in operations outside the particular progress payment contract may affect adversely the performance of that contract and the liquidation of the progress payments.

(c) For contracts with contractors (1) whose financial condition is doubtful or not strong in relation to progress payments outstanding or to be outstanding, (2) with management of doubtful capacity, (3) whose accounting controls are found by experience to be weak, or (4) experiencing substantial difficulties in performance, full information on progress under the contract involved (including the status of subcontracts) and on the contractor's other operations and overall financial condition should be obtained and analyzed frequently, with a view to protecting the Government's interests better and taking such action as may be proper to make contract performance more certain.

(d) So far as practicable, all cost problems, particularly those involving indirect costs, that are likely to create disagreements in future administration of the contract should be identified and resolved at the inception of the contract (see 31.109).

32.503-3 Initiation of progress payments and review of accounting system.

(a) For contractors that the administrative contracting officer (ACO) has found by previous experience or recent audit review (within the last 12 months) to be (1) reliable, competent, and capable of satisfactory performance, (2) possessed of an adequate accounting system and controls, and (3) in sound financial condition, progress payments in amounts requested by the contractor should be approved as a matter of course.

(b) For all other contractors, the ACO shall not approve progress payments before determining (1) that (i) the contractor will be capable of liquidating any progress payments or (ii) the Government is otherwise protected against loss by additional protective provisions, and (2) that the contractor's accounting system and controls are adequate for proper administration of progress payments. The services of the cognizant independent audit agency or office should be used to the greatest extent practicable. However, if the auditor so advises, a complete audit may not be necessary.

32.503-4 Approval of progress payment requests.

(a) When the reliability of the contractor and the adequacy of the contractor's accounting system and controls have been established (see 32.503-3 above) the ACO may, in approving any particular progress payment request (including initial requests on new contracts), rely upon that accounting system and upon the contractor's certification, without requiring audit or review of the request before payment.

(b) The ACO should not routinely ask for audits of progress payment requests. However, when there is reason to (1) question the reliability or accuracy of the contractor's certification or (2) believe that the contract will involve a loss, the ACO should ask for a review or audit of the request before payment is approved or the request is otherwise disposed of.

(c) When there is reason to doubt the amount of a progress payment request, only the doubtful amount should be withheld, subject to later adjustment after review or audit; any clearly proper and due amounts should be paid without awaiting resolution of the differences.

32.503-5 Administration of progress payments.

(a) While the ACO may, in approving progress payment requests under 32.503-3 above, rely on the contractor's accounting system and certification without prepayment review, postpayment reviews (including audits when considered necessary) shall be made periodically, or when considered desirable by the ACO to determine the validity of progress payments already made and expected to be made.

(b) These postpayment reviews or audits shall, as a minimum, include a determination of whether or not—

(1) The unliquidated progress payments are fairly supported by the value of the work accomplished on the undelivered portion of the contract;

(2) The applicable limitation on progress payments in the Progress Payments clause has been exceeded;

(3) (i) The unpaid balance of the contract price will be adequate to cover the anticipated cost of completion, or

(ii) The contractor has adequate resources to complete the contract; and

(4) There is reason to doubt the adequacy and reliability of the contractor's accounting system and controls and certification.

(c) (1) Generally, the progress payments made under multiple-order contracts should be administered under each individual order as if the order constituted a separate contract.

(2) If the contractor requests it and the contracting officer approving individual progress payments agrees, the administration of progress payments may be based on the overall contract or agreement. Under this method, the contractor shall include a supporting schedule with each request for a progress payment. The schedule should identify the costs applicable to each order.

(3) The contracting officer may treat a group of orders as a single unit for administration of progress payments if each order in the group is (i) subject to a uniform liquidation rate, and (ii) under the jurisdiction of the same payment office.

32.503-6 Suspension or reduction of payments.

(a) *General.* The Progress Payments clause provides a Government right to reduce or suspend progress payments, or to increase the liquidation rate, under specified conditions. These conditions and actions are discussed in paragraphs (b) through (g) below.

(1) The contracting officer shall take these actions only in accordance with the contract terms and never precipitately or arbitrarily. These actions should be taken only after—

(i) Notifying the contractor of the intended action and providing an opportunity for discussion;

(ii) Evaluating the effect of the action on the contractor's operations, based on the contractor's financial condition, projected cash requirements, and the existing or available credit arrangements; and

(iii) Considering the general equities of the particular situation.

(2) The contracting officer shall take immediate unilateral action only if warranted by circumstances such as overpayments or unsatisfactory contract performance.

(3) In all cases, the contracting officer shall (i) act fairly and reasonably, (ii) base decisions on substantial evidence, and (iii) document the contract file. Findings made under paragraph (c) of the Progress Payments clause shall be in writing.

(b) *Contractor noncompliance.* (1) The contractor must comply with all material requirements of the contract. This includes the requirement to maintain an efficient and reliable accounting system and controls, adequate for the proper administration of progress payments. If the system or controls are deemed inadequate, progress payments shall be suspended (or the portion of progress payments associated with the unacceptable portion of the contractor's accounting system shall be suspended) until the necessary changes have been made.

(2) If the contractor fails to comply with the contract without fault or negligence, the contracting officer will not take action permitted by paragraph (c)(1) of the Progress Payments clause, other than to correct overpayments and collect amounts due from the contractor.

(c) *Unsatisfactory financial condition.* (1) If the contracting officer finds that contract performance (including full liquidation of progress payments) is endangered by the contractor's financial condition, or by a failure to make progress, the contracting officer shall require the contractor to make additional operating or financial arrangements adequate for completing the contract without loss to the Government.

(2) If the contracting officer concludes that further progress payments would increase the probable loss to the Government, the contracting officer shall suspend progress payments and all other payments until the unliquidated balance of progress payments is eliminated.

(d) *Excessive inventory.* If the inventory allocated to the contract exceeds reasonable requirements (including a reasonable accumulation of inventory for continuity of operations), the contracting officer should, in addition to requiring the transfer of excessive inventory from the contract, take one or more of the following actions, as necessary, to avoid or correct overpayment:

(1) Eliminate the costs of the excessive inventory from the costs eligible for progress payments, with appropriate reduction in progress payments outstanding.

(2) Apply additional deductions to billings for deliveries (increase liquidation).

(e) *Delinquency in payment of costs of performance.* (1) If the contractor is delinquent in paying the costs of contract performance in the ordinary course of business, the contracting officer shall evaluate whether the delinquency is caused by an unsatisfactory financial condition and, if so, shall apply the guidance in paragraph (c) above. If the contractor's financial condition is satisfactory, the contracting officer shall not deny progress payments if the contractor agrees to—

(i) Cure the payment delinquencies;

(ii) Avoid further delinquencies; and

(iii) Make additional arrangements adequate for completing the contract without loss to the Government.

(2) If the contractor has, in good faith, disputed amounts claimed by subcontractors, suppliers, or others, the contracting officer shall not consider the payments delinquent until the amounts due are established by the parties through litigation or arbitration. However, the amounts shall be excluded from costs eligible for progress payments so long as they are disputed.

(3) Determinations of delinquency in making contributions under employee pension, profit sharing, or stock ownership plans, and exclusion of costs for such contributions from progress payment requests, shall be in accordance with paragraph (a)(2) of the clause at 52.232-6, Progress Payments, without regard to the provisions of 32.503-6.

(f) *Fair value of undelivered work.* (1) For the purposes of subpart 32.5, the fair value of undelivered work is the lesser of (i) the contract price of the undelivered work, minus the estimated costs required for completing contract performance, or (ii) the incurred costs applicable to the undelivered items.

(2) The contracting officer shall monitor the relationship of unliquidated progress payments to the fair value of undelivered work under the contract. If the unliquidated progress payments exceed the fair value of undelivered work, the contracting officer shall, governed by the principles in paragraphs (c) and (e) above, take appropriate action to eliminate this excess using the loss ratio adjustment described in paragraph (g) below, and based on full consideration of—

(i) The degree of completion of contract performance;

(ii) The quality and amount of work performed on the undelivered portion of the contract;

(iii) The amount of work remaining to be done and the estimated costs of completion of performance; and

(iv) The amount remaining unpaid under the contract.

(g) *Loss contracts.* (1) If the sum of the total costs incurred under a contract plus the estimated costs to complete the performance are likely to exceed the contract price, the contracting officer shall compute a loss ratio factor and adjust future progress payments to exclude the element of loss. The loss ratio factor is computed as follows:

(i) Revise the current contract price used in progress payment computations (the current ceiling price under fixed-price incentive contracts) to include any pending change orders and unpriced orders to the extent funds for the orders have been obligated.

(ii) Divide the revised contract price by the sum of the total costs incurred to date plus the estimated additional costs of completing the contract performance.

(2) If the contracting officer believes a loss is probable, future progress payment requests shall be modified as follows:

(i) The contract price shall be the revised amount computed under subparagraph (1)(i) above.

(ii) The total costs eligible for progress payments shall be the product of (A) the sum of paid costs eligible for progress payments times (B) the loss ratio factor computed under subparagraph (1)(ii) above.

(iii) The costs applicable to items delivered, invoiced, and accepted shall not include costs in excess of the contract price of the items.

(3) The contracting officer may use audit assistance, technical services, management reports, and other sources of pertinent data to evaluate progress payment requests. If the contracting officer concludes that the contractor's figures in the contractor's progress payment request are not correct, the contracting officer shall—

(i) In the manner prescribed in paragraph (4) below, prepare a supplementary analysis to be attached to the contractor's request;

(ii) Advise the contractor in writing of the differences; and

(iii) Adjust all further progress payments in accordance with paragraph (1) above, using the contracting officer's figures, until the difference is resolved.

(4) The following is an example of the supplementary analysis required in paragraph (3) above:

Section I:
Contract price [illegible]

Change orders and unpriced orders (to extent funds have been obligated)	50,000
Revised contract price	$1,000,000
Section II:	
Total costs incurred to date	$900,000
Estimated additional costs to complete	300,000
Total costs to complete	$1,200,000

$$\text{Loss ratio factor} \quad \frac{\$1,000,000}{\$1,200,000} = 83.3\%$$

Total costs eligible for progress payments	$900,000
Loss ratio factor	× 83.3%
Recognized costs for progress payments	$749,700
Progress payment rate	× 80.0%
Alternate amount to be used	$599,760
Section III:	
Factored costs of items delivered *	$250,000
Recognized costs applicable to undelivered items ($749,700 – $250,000)	$499,700

* This amount shall be the same as the contract price of the items delivered.

[48 FR 42328, Sept. 19, 1983, as amended at 52 FR 30077, Aug. 12, 1987; 54 FR 5056, Jan. 31, 1989; 54 FR 48989, Nov. 28, 1989]

32.503-7 Limitation on general and administrative expenses (G&A) for progress payments.

If the contractor established an inventory suspense account under Appendix A of Cost Accounting Standard (CAS) 410, Allocation of Business Unit General and Administrative Expenses to Final Cost Objectives (4 CFR part 410), and the account is $5 million or more, the following limitations shall apply to progress payments:

(a) G&A shall not be eligible for progress payments until the value of work in process inventories under new contracts exceeds that under the old. For this purpose, new contracts shall be considered to be those awarded after CAS 410 became applicable to the work of the contractor. Old contracts are those included in the suspense account prescribed in CAS 410.

(b) The amount of G&A eligible for progress payments under the contract shall be the contractor's pro rata share of G&A allocable to the excess under paragraph (a) above.

32.503-8 Liquidation rates—ordinary method.

Progress payments are recouped by the Government through the deduction of liquidations from payments that would otherwise be due to the contractor for completed contract items. To determine the amount of the liquidation, a liquidation rate is applied to the contract price of contract items delivered and accepted. The ordinary method is that the liquidation rate is the same as the progress payment rate; at the beginning of a contract, only this method may be used. If the contract is subject to the CAS limitation in 32.503-7 on G&A eligible for progress payments, the ordinary method includes the use of an adjusted liquidation rate to reflect the applicable G&A suspense account. The adjusted liquidation rate shall be established by (a) dividing the unbilled G&A by the contract price, (b) multiplying the quotient by the progress payment rate stated in the contract, and (c) subtracting the resulting rate from the progress payment rate. For example, if the price is $1,100,000 and the unbilled G&A is $47,600, the adjusted liquidation rate would be 76.5 percent, computed as follows:

Unbilled G&A divided by contract price (47,600/1,100,000)	4.33%
Result x progress payment rate (4.33% x 80%)	3.46%
Result subtracted from progress payment rate (80% - 3.46%)	76.54%

[48 FR 42328, Sept. 19, 1983, as amended 52 FR 30077, Aug. 12, 1987]

32.503-9 Liquidation rates—alternate method.

(a) The liquidation rate determined under 32.503-8 shall apply throughout the period of contract performance unless the contracting officer adjusts the liquidation rate under the alternate method in this 32.503-9. The objective of the alternate liquidation rate method is to permit the contractor to retain the earned profit element of the contract prices for completed items in the liquidation process. The contracting officer may reduce the liquidation rate if—

(1) The contractor requests a reduction in the rate;

(2) The rate has not been reduced in the preceding 12 months;

(3) The contract delivery schedule extends at least 18 months from the contract award date;

(4) Data on actual costs are available (i) for the products delivered, or (ii) if no deliveries have been made, for a performance period of at least 12 months;

(5) The reduced liquidation rate would result in the Government recouping under each invoice the full extent of the progress payments applicable to the costs allocable to that invoice;

(6) The contractor would not be paid for more than the costs of items delivered and accepted (less allocable progress payments) and the earned profit on those items;

(7) The unliquidated progress payments would not exceed the limit prescribed in paragraph (a)(4) of the Progress Payments clause;

(8) The parties agree on an appropriate rate; and

(9) The contractor agrees to certify annually, or more often if requested by the contracting officer, that the alternate rate continues to meet the conditions of subsections 5, 6, and 7 above. The certificate must be accompanied by adequate supporting information.

(b) The contracting officer shall change the liquidation rate in the following circumstances:

(1) The rate shall be increased for both previous and subsequent transactions, if the contractor experiences a lower profit rate than the rate anticipated at the time the liquidation rate was established. Accordingly, the contracting officer shall adjust the progress payments associated with contract items already delivered, as well as subsequent progress payments.

(2) The rate shall be increased or decreased in keeping with the successive changes to the contract price or target profit when—

(i) The target profit is changed under a fixed-price incentive contract with successive targets; or

(ii) A redetermined price involves a change in the profit element under a contract with prospective price redetermination at stated intervals.

(c) Whenever the liquidation rate is changed, the contracting officer shall issue a contract modification to specify the new rate in the Progress Payments clause. Adequate consideration for these contract modifications is provided by the consideration included in the initial contract. The parties shall promptly make the payment or liquidation required in the circumstances.

32.503-10 Establishing alternate liquidation rates.

(a) The contracting officer shall ensure that the liquidation rate is—

(1) High enough to result in Government recoupment of the applicable progress payments on each billing; and

(2) Supported by documentation included in the administration office contract file.

(b) The minimum liquidation rate is the expected progress payments divided by the contract price. Each of these factors is discussed below:

(1) Usually, the contracting officer shall compute the expected progress payments by multiplying the estimated cost of performing the contract by the progress payment rate. In certain cases, part of the contractor's G&A is excluded from the estimated cost for the purpose of calculating expected progress payments for the liquidation rate. These cases pertain to the implementation of CAS 410 (see 32.503-7 and 32.503-8).

(2) For purposes of computing the liquidation rate, the contracting officer may adjust the estimated cost and the contract price to include the estimated value of any work authorized but not yet priced and any projected economic adjustments; however, the contracting officer's adjustment shall not exceed the Government's estimate of the price of all authorized work or the funds obligated for the contract.

(3) The following are examples of the computation. Assuming an estimated price of $1,100,000 and total estimated costs eligible for progress payments of $1,000,000:

(i) If the progress payment rate is 80 percent, the minimum liquidation rate should be 72.7 percent, computed as follows:

$$\frac{(\$1{,}000{,}000 \times 80\%)}{\$1{,}100{,}000} = 72.7\%$$

(ii) If the progress payment rate is 85 percent, the minimum liquidation rate should be 77.3 percent, computed as follows:

$$\frac{(\$1{,}000{,}000 \times 85\%)}{\$1{,}100{,}000} = 77.3\%$$

(iii) If the contract is subject to CAS limitation on G&A eligible for progress payments (see 32.503-7), an adjusted alternate liquidation rate shall be established by subtracting the estimated G&A not eligible for progress payments from the total estimated contract costs. For example, if the price is $1,100,000, costs are $1,000,000, and unbilled G&A is $47,600, the liquidation rate should be 69.3 percent, computed as follows:

$$\frac{(\$1{,}000{,}000 - \$47{,}600)}{\$1{,}100{,}000} \times 80\% = 69.3\%$$

(4) Minimum liquidation rates will generally be expressed to tenths of a percent. Decimals between tenths will be rounded up to the next highest tenth (not necessarily the nearest tenth), since rounding down would produce a rate below the minimum rate calculated.

[48 FR 42328, Sept. 19, 1983, as amended 52 FR 30077, Aug. 12, 1987]

32.503-11 Adjustments for price reduction.

(a) If a retroactive downward price reduction occurs under a redeterminable contract that provides for progress payments, the contracting officer shall—

(1) Determine the refund due and obtain repayment from the contractor for the excess of payments made for delivered items over amounts due as recomputed at the reduced prices; and

(2) Increase the unliquidated progress payments amount for overdeductions made from the contractor's billings for items delivered.

(b) The contracting officer shall also increase the unliquidated progress payments amount if the contractor makes an interim or voluntary price reduction under a redeterminable or incentive contract.

2.503-12 Maximum unliquidated amount.

(a) The contracting officer shall ensure that any excess of the unliquidated progress payments over the contractual limitation in paragraph (a) of the Progress Payments clause in the contract is promptly corrected through one or more of the following actions:

(1) Increasing the liquidation rate.

(2) Reducing the progress payment rate.

(3) Suspending progress payments.

(b) The excess described in paragraph (a) above is most likely to arise under the following circumstances:

(1) The costs of performance exceed the contract price.

(2) The alternate method of liquidation (see 32.503-9) is used and the actual costs of performance exceed the cost estimates used to establish the liquidation rate.

(3) The rate of progress or the quality of contract performance is unsatisfactory.

(4) The rate of rejections, waste, or spoilage is excessive.

(c) As required, the services of the cognizant independent audit agency or office should be fully utilized, along with the services of qualified cost analysis and engineering personnel.

32.503-13 Quarterly statements for price revision contracts.

Under price revision or redeterminable contracts that include progress payments clauses, the contracting officer shall occasionally compare the quarterly statements submitted under the price revision or renegotiation clause at 52.216-5, 52.216-6, 52.216-16, or 52.216-17 with the contractor's requests for progress payments. The contracting officer should ensure, as far as is reasonably possible, that costs of delivered items in the quarterly statements are excluded from the costs of undelivered items (the basis for unliquidated progress payments) in the contractor's request for progress payments.

32.503-14 Protection of Government title.

(a) Since the Progress Payments clause gives the Government title to all of the materials, work-in-process, finished goods, and other items of property described in paragraph (d) of the Progress Payments clause, under the contract under which progress payments have been made, the ACO must ensure that the Government title to these inventories is not compromised by other encumbrances. Ordinarily, the ACO, in the absence of reason to believe otherwise, may rely upon the contractor's certification contained in the progress payment request.

(b) If the ACO becomes aware of any arrangement or condition that would impair the Government's title to the property affected by progress payment, the ACO shall require additional protective provisions (see 32.501-5) to establish and protect the Government's title.

(c) The existence of any such encumbrance is a violation of the contractor's obligations under the contract, and the ACO may, if necessary, suspend or reduce progress payments under the terms of the Progress Payments clause covering failure to comply with any material requirement of the contract. In addition, if the contractor fails to disclose an existing encumbrance in the progress payments certification, the ACO should consult with legal counsel concerning possible violation of 31 U.S.C. 3729, the False Claims Act.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.503-15 Application of Government title terms.

(a) Property to which the Government obtains title by operation of the Progress Payments clause solely is not, as a consequence, Government-furnished property.

(b) Although property title is vested in the Government under the Progress Payments clause, the acquisition, handling, and disposition of certain types of property are governed by other clauses, as follows:

(1) The clause at 52.245-17, Special Tooling, for special tooling.

(2) The termination clauses at 52.249, for termination inventory.

(c) The contractor may sell or otherwise dispose of current production scrap in the ordinary course of business on its own volition, even if title has vested in the Government under the Progress Payments clause. The contracting officer shall require the contractor to credit the costs of the contract performance with the proceeds of the scrap disposition.

(d) When the title to materials or other inventories is vested in the Government under the Progress Payments clause, the contractor may transfer the inventory items from the contract for its own use or other disposition only if, and on terms, approved by the contracting officer. The contractor shall (1) eliminate the costs allocable to the transferred property from the costs of contract performance, and (2) repay or credit to the Government an amount equal to the unliquidated progress payments, allocable to the transferred property.

(e) If excess property remains after the contract performance is complete and all contractor obligations under the contract are satisfied, including full liquidation of progress payments, the excess property is outside the scope of the Progress Payments clause. Therefore, the contractor holds title to it.

32.503-16 Risk of loss.

(a) Under the Progress Payments clause, and except for normal spoilage, the contractor bears the risk for loss, theft, destruction, or damage to property affected by the clause, even though title is vested in the Government, unless the Government has expressly assumed this risk. The clauses prescribed in this regulation related to progress payments, default, and terminations do not constitute a Government assumption of this risk.

(b) If a loss occurs in connection with property for which the contractor bears the risk, the contractor is obligated to repay to the Government the amount of unliquidated progress payments based on costs allocable to the property.

(c) The contractor is not obligated to pay for the loss of property for which the Government has assumed the risk of loss. However, a serious loss may impede the satisfactory progress of contract performance, so that the contracting officer may need to act under paragraph (c)(5) of the Progress Payments clause.

32.504 Subcontracts.

(a) The contracting officer shall encourage the contractor to provide progress payments to subcontractors on terms that meet the standards in 32.502-1 for customary progress payments.

(b) The contractor's requests for progress payments may include the full amount paid to subcontractors as progress payments under the contract and subcontracts.

(c) If the contractor is considering making unusual progress payments to a subcontractor, the parties shall be guided by the policies in 32.501-2. If unusual progress payments for the subcontract are approved by the Government, the contracting officer shall issue a contract modification to specify the new rate in subdivision (j)(4) of the Progress Payments clause in the prime contract. This will allow the contractor to include the progress payments to the subcontractor in the cost basis for progress payments by the Government. This modification shall not be considered a deviation and shall not require the clearance prescribed in 32.502-2(b).

(d) The contractor has a duty to ensure that progress payments to subcontractors conform to the standards and principles prescribed in paragraph (j) of the Progress Payments clause in the prime contract. Although the contracting officer should, to the extent appropriate, review the subcontract as part of the overall administration of progress payments in the prime contract, there is no special requirement for contracting officer review or consent merely because the subcontract includes a progress payments clause except as provided in paragraph (c) above. However, the contracting officer shall ensure that the contractor has installed the necessary management control systems, including internal audit procedures.

(e) The subcontract terms shall include the substance of the Progress Payments clause in the prime contract, modified to indicate that the contractor, not the Government, awards the subcontract and administers the progress payments. The following exceptions apply to wording modifications:

(1) The subcontract terms on title to property under progress payments shall provide for vesting of title in the Government, not the contractor, as in paragraph (d) of the Progress Payments clause in the prime contract. A reference to the contractor may, however, be substituted for *Government* in subdivision (d)(2)(iv) of the clause.

(2) In the subcontract terms on reports and access to records, the contractor shall not delete the references to *Contracting Officer* and *Government* in adapting paragraph (g) of the Progress Payments clause in the contract, but may expand the terms as follows:

(i) The term *Contracting Officer* may be changed to *Contracting Officer or Prime Contractor.*

(ii) The term *the Government* may be changed to *the Government or Prime Contractor.*

(3) The subcontract special terms regarding default shall include paragraph (h) of the Progress Payments clause in the contract through its subdivision (i). The rest of paragraph (h) is optional.

(f) If the contractor makes progress payments to a subcontractor under a cost-reimbursement prime contract, the contracting officer shall accept the progress payments as reimbursable costs of the prime contract only under the following conditions:

(1) The payments are made under the criteria in 32.502-1 for customary progress payments.

(2) The payments do not exceed the progress payment rate in 32.501-1 unless unusual progress payments to the subcontractor have been approved in accordance with 32.501-2.

(3) The subcontractor complies with the liquidation principles of 32.503-8, 32.503-9, and 32.503-10.

(4) The subcontract contains progress payments terms as prescribed in this section.

[48 FR 42328, Sept. 19, 1983, as amended at 52 FR 9039, Mar. 20, 1987]

Subpart 32.6—Contract Debts

32.600 Scope of subpart.

This subpart prescribes policies and procedures for the Government's actions in ascertaining and collecting contract debts, charging interest on the debts, deferring collections, and compromising and terminating certain debts.

32.601 Definition.

Responsible official, as used in this subpart, means the contracting officer (see subpart 2.1) or other official designated under agency procedures to administer the collection of contract debts and applicable interest.

32.602 General.

The contract debts covered in this subpart arise in various ways. The following are some examples:

(a) Damages or excess costs related to defaults in performance.

(b) Breach of contract obligations concerning progress payments, advance payments, or Government-furnished property or material.

(c) Government expense of correcting defects.

(d) Overpayments related to errors in quantity or billing or deficiencies in quality.

(e) Retroactive price reductions resulting from contract terms for price redetermination or for determination of prices under incentive type contracts.

(f) Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts.

(g) Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections.

32.603 Applicability.

Except as otherwise specified, this subpart applies to all debts to the Government arising in connection with contracts and subcontracts for the acquisition of supplies or services.

32.604 Exclusions.

This subpart does not apply to claims of the Government against military or civilian employees or their dependents arising in connection with current or past employment by the Government. Sections 32.613, 32.614, and 32.616 do not apply to claims against common carriers for transportation overcharges and freight and cargo losses.

32.605 Responsibilities and cooperation among Government officials.

(a) To protect the Government's interests, contracting officers, contract financing offices, disbursing officials, and auditors shall cooperate fully with each other to—

(1) Discover promptly when a contract debt arises;

(2) Ascertain the correct amount of the debt;

(3) Act promptly and effectively to collect the debt;

(4) Administer deferment of collection agreements; and

(5) Provide up-to-date information on the status of the debt.

(b) For most kinds of contract debts, the contracting officer has the primary responsibility for determining the amounts of and collecting contract debt. Under some agency procedures, however, the individual who is responsible for payment under the contract, e.g., the disbursing officer, may have this primary responsibility.

32.606 Debt determination and collection.

(a) If any indication of a contract debt arises, the responsible official shall determine promptly whether an actual debt is due the Government and the amount. Any unwarranted delay may contribute to—

(1) Loss of timely availability of the funds to the program for which the funds were initially provided;

(2) Increased difficulty in collecting the debt; or

(3) Actual monetary loss to the Government.

(b) In determining the amount of any contract debt, the responsible official shall fairly consider both the Government's claim and any contract claims by the contractor against the Government. This determination does not constitute a settlement of such claims, nor is it a contracting officer's final determination under the Contract Disputes Act of 1978.

(c) The responsible official shall establish a control record for each contract debt, to include at least the following information:

(1) The name and address of the contractor.

(2) The contract number, if any.

(3) A description of the debt.

(4) The amount of debt and the appropriation to be credited.

(5) The date the debt was determined.

(6) The dates of demands for payment.

(7) The amounts and dates of collections, as they occur.

(8) The date of any appeal filed or action brought in the Court of Claims under the Disputes clause.

(9) The status of collections. Examples include—

(i) Actions reported to the disbursing officer (name, location, and date);

(ii) Funds requested to be withheld by the disbursing officer;

(iii) Funds requested to be withheld by other offices (date and office);

(iv) Deferment or installment payment arrangement requested;

(v) Deferment or installment request reviewed;

(vi) Supplemental information requested to support deferment requests; and

(vii) Actions transferred to the conract financing office.

(d) Except in cases in which an agreement has been entered into for deferment of collections (32.613) or bankruptcy proceedings against the contractor have been initiated, the contractor shall be required to liquidate the debt by—

(1) Cash payment in a lump sum, on demand; or

(2) Credit against existing unpaid bills due the contractor.

(e) The responsible officials shall use all proper means available to them for collecting debts as rapidly as possible. Practices for ascertaining and collecting debts shall be comprehensive, dynamic, and as uniform as practicable. Full consideration shall be given to personal contact and followup.

[48 FR 42328, Sept. 19, 1983, as amended at 55 FR 38517, Sept. 18, 1990]

32.607 Tax credit.

(a) If the contractor is entitled to a tax credit under section 1481 of the Internal Revenue Code (26 U.S.C. 1481) and requests recognition of the credit in the debt collection, the responsible official shall comply.

(b) The tax credit shall be considered to reduce the amount of the debt as of the date when interest on the debt begins to accrue.

(c) The amount of the debt reduction shall be the amount of the tax credit certificate, if a certificate was issued by the Internal Revenue Service (IRS). If the IRS has not yet issued a certificate, the responsible official may accept the contractor's estimate of the tax credit amount until the certificate is issued, subject to any verification that the responsible official considers appropriate.

(d) A reduction for a tax credit does not apply to a debt arising from a subcontract.

32.608 Negotiation of contract debts.

(a) The responsible official shall ensure that any negotiations concerning debt determinations are completed expeditiously. If consistent with the contract, the official shall make a unilateral determination promptly if the contractor is delinquent in any of the following actions:

(1) Furnishing pertinent information.

(2) Negotiating expeditiously.

(3) Entering into an agreement on a fair and reasonable price revision.

(4) Signing an interim memorandum evidencing a negotiated pricing agreement involving refund.

(5) Executing an appropriate contract modification reflecting the result of negotiations.

(b) The amount of indebtedness determined unilaterally shall be an amount that—

(1) Is proper based on the merits of the case;

(2) Does not exceed an amount that would have been considered acceptable in a negotiated agreement; and

(3) Is consistent with the contract terms.

(c) For unilateral debt determinations, the contracting officer shall issue a decision as required by the clause at 52.233-1, Disputes. Such decision shall include a demand for payment (see 33.211(a)(4)(vi)). No demand for payment under 32.610 shall be issued prior to a contracting officer's final decision. A copy of the final decision shall be sent to the appropriate finance office.

[48 FR 42328, Sept. 19, 1983, as amended at 54 FR 34755, Aug. 21, 1989]

32.609 Memorandum of pricing agreement with refund.

(a) If a refund to the Government is agreed upon in negotiations under a price revision type of contract, the responsible official shall promptly write a memorandum to document the agreement and the contract debt. The memorandum shall be signed by the negotiators for the Government and the contractor. If the procedures of either the agency or the contractor require approval of the negotiation results by higher authority, the memorandum shall be written without prejudice to the final pricing. After negotiations are completed, a supplemental agreement shall be executed without delay.

(b) The amount of refund shall be computed promptly, without waiting for itemization of adjustment of past billings, accounting adjustments, or the adjusted invoices.

32.610 Demand for payment of contract debt.

(a) A demand for payment shall be made as soon as the responsible official has computed the amount of refund due. If the debt arises from excess costs for a default termination, the demand shall be made without delay, as explained in 49.402-6.

(b) The demand shall include the following:

(1) A description of the debt, including the debt amount.

(2) Notification that any amounts not paid within 30 days from the date of the demand will bear interest from the date of the demand, or from any earlier date specified in the contract and that the interest rate shall be the rate established by the Secretary of the Treasury, for the period affected, under 50 U.S.C. App. 1215(b)(2).

(3) A notification that the contractor may submit a proposal for deferment of collection if immediate payment is not practicable or if the amount is disputed.

(4) Identification of the responsible official designated for determining the amount of the debt and for its collection.

(c) If subparagraph (b)(3) of the clause at 52.232-17, Interest, applies, the demand mentioned in paragraph (a) above shall accompany or be included in the transmittal mentioned in the clause.

[48 FR 42328, Sept. 19, 1983, as amended at 54 FR 34755, Aug. 21, 1989]

32.611 Routine setoff.

If a disbursing officer is the responsible official for collection of a contract debt, or is notified of the debt by the responsible official and has contractor invoices on hand for payment, the disbursing officer shall make an appropriate setoff. The disbursing officer shall give the contractor an explanation of the setoff. To the extent that the setoff reduces the debt, the explanation shall replace the demand prescribed in 32.610.

32.612 Withholding and setoff.

During the 30 days following the issuance of a demand, the advisability of withholding payments otherwise due to the contractor shall be considered based on the circumstances of the individual cases. If payment is not completed within 30 days, and deferment is not requested, withholding of principal and interest shall be initiated immediately. In the event the contract is assigned under the Assignment of Claims Act of 1940 (31 U.S.C. 3727 and 41 U.S.C. 15), the rights of the assignee will be scrupulously respected and withholding of payments shall be consistent with those rights. For additional information on assignment of claims, see subpart 32.8.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.613 Deferment of collection.

(a) If the responsible official receives a written request from the contractor for a deferment of the debt collection or installment payments, the official shall promptly review the request to see if the information included is adequate for action on the request. If not, the contractor shall be asked to furnish the needed information. Any necessary changes to the terms of the proposed deferment/installment agreement shall also be suggested.

(b) If the contractor has appealed the debt under the procedures of the Disputes clause of the contract, the information with the request for deferment may be limited to an explanation of the contractor's financial condition.

(c) If there is no appeal pending or action filed under the Disputes clause of the contract, the following information about the contractor should be submitted with the request:

(1) Financial condition.

(2) Contract backlog.

(3) Projected cash receipts and requirements.

(4) The feasibility of immediate payment of the debt.

(5) The probable effect on operations of immediate payment in full.

(d) Although the existence of a contractor appeal of the debt does not of itself require the Government to suspend or delay collection action, the responsible official shall consider whether deferment of the debt collection is advisable to avoid possible overcollection. The responsible official may authorize a deferment pending the resolution of appeal.

(e) Deferments pending disposition of appeal may be granted to small business concerns and financially weak contractors, with a reasonable balance of the need for Government security against loss and undue hardship on the contractor.

(f) If a contractor has not appealed the debt or filed an action under the Disputes clause of the contract, the responsible official may arrange for deferment/installment payments if the contractor is unable to pay at once in full or the contractor's operations under national defense contracts would be seriously impaired. The arrangement shall include appropriate covenants and securities and should be limited to the shortest practicable maturity.

(g) Contracts and arrangements for deferment may not provide that a claim of the Government will not become due and payable pending mutual agreement on the amount of the claim or, in the case of a dispute, until the decision is reached.

(h) At a minimum, the deferment agreement shall contain the following:

(1) A description of the debt.

(2) The date of first demand for payment.

(3) Notice of an interest charge, in conformity with 32.614 and the clause at 52.232-17, Interest.

(4) Identification of the office to which the contractor is to send debt payments.

(5) A requirement for the contractor to submit financial information requested by the Government and for reasonable access to the contractor's records and property by Government representatives.

(6) Provision for the Government to terminate the deferment agreement and accelerate the maturity of the debt if the contractor defaults or if bankruptcy or insolvency proceedings are instituted by or against the contractor.

(7) Protective requirements that are considered by the Government to be prudent and feasible in the specific circumstances. The coverage of protective terms at 32.409 and 32.501-5 may be used as a guide.

(i) If a contractor appeal of the debt determination is pending, the deferment agreement shall also include a requirement that the contractor shall—

(1) Diligently prosecute the appeal; and

(2) Pay the debt in full when the appeal is decided, or when the parties reach agreement on the debt amount.

(j) If the contractor does not plan to appeal the debt or file an action under the Disputes clause of the contract, the deferment/installment agreement shall include a specific schedule or plan for payment. It should permit the Government to make periodic financial reviews of the contractor and to require prepayments if the Government considers the contractor's ability to pay improved. It should also provide for required stated or measurable prepayments on the occurrence of specific events or contingencies that improve the contractor's ability to pay.

(k) If desired by the contractor, the deferment agreement may provide for the right to make prepayments without prejudice, for refund of overpayments, and for crediting of interest (see 32.614-2).

(l) Actions filed by contractors under the Disputes clause shall not suspend or delay collection. Until the action is decided, deferments shall only be granted if, within 30 days after the filing of such action, the contractor presents to the responsible official a good and sufficient bond, or other collateral acceptable to the responsible official, in the amount of the claim, and approved by the responsible official. Any amount collected by the Government in excess of the amount found to be due on appeal under the Disputes clause of the contract shall be refunded to the contractor with interest thereon from the date of collection by the Government at the annual rate established by the Secretary of Treasury under 50 U.S.C. App. 1215(b)(2). Simple interest shall be calculated through the period of indebtedness to reflect each 6-month period change in the rates established by the Secretary.

32.614 Interest.

32.614-1 Interest charges.

(a) Under the clause at 52.232-17, Interest, the responsible official shall apply interest charges to any contract debt unpaid after 30 days from the issuance of a demand, unless—

(1) The contract specifies another due date or procedure for charging or collecting interest;

(2) The contract is a kind excluded under 32.617; or

(3) The contract or debt has been exempted from interest charges under agency procedures.

(b) If not already applicable under the contract terms, interest on contract debt shall be made an element of any agreement entered into on deferment of collection.

(c) The interest charge shall be at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2) for the period in which the amount becomes due. The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(1) The date on which the designated office receives payment from the contractor;

(2) The date of issuance of a Government check to the contractor from which an amount otherwise payable has been withheld as a credit against the contract debt;

(3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the contractor; or

(4) The date of any applicable tax credit under 32.607.

32.614-2 Interest credits.

(a) An equitable interest credit shall be applied under the following circumstances:

(1) When the amount of debt initially determined is subsequently reduced; e.g., through a successful appeal.

(2) When the collection procedures followed in a given case result in an overcollection of the debt due.

(3) When the responsible official determines that the Government has unduly delayed payments to the con-

tractor on the same contract at some time during the period to which the interest charge applied, provided an interest penalty was not paid for such late payment.

(b) Any appropriate interest credits shall be computed under the following procedures:

(1) Interest at the rate under 32.614-1(c) shall be charged on the reduced debt from the date specified in the first demand made for payment of the higher debt.

(2) Interest may not be reduced for any time between the due date under the demand and the period covered by a deferment of collection, unless the contract includes an interest clause; e.g., the clause prescribed in 32.617.

(3) Interest shall not be credited in an amount that, when added to other amounts refunded or released to the contractor, exceeds the total amount that has been collected, or withheld for the purpose of collecting the debt. This limitation shall be further reduced by the amount of any limitation applicable under 32.614-2(b)(2).

32.615 Delays in receipt of notices or demands.

If delivery of the demands or notices required by the clause at 52.232-17, Interest, is delayed by the Government (e.g., undue delay after dating at the originating office or delays in the mail), the date of the debt and accrual of interest shall be extended to a time that is fair and reasonable under the particular circumstances.

32.616 Compromise actions.

For debts under $20,000, excluding interest, if further collection is not practicable or would cost more than the amount of recovery, the agency may compromise the debt or terminate or suspend further collection action. Compromise is authorized by the Federal Claims Collection Act of 1966 (31 U.S.C. 3711). Compromise actions shall conform to Federal claims collection standards (4 CFR 101-105), and agency regulations.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.617 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-17, Interest, in solicitations and contracts, unless it is contemplated that the contract will be in one or more of the following categories:

(1) Small purchases.

(2) Contracts with Government agencies.

(3) Contracts with a State or local government or instrumentality.

(4) Contracts with a foreign government or instrumentality.

(5) Contracts without any provision for profit or fee with a nonprofit organization.

(6) Contracts described in subpart 5.5, Paid advertisements.

(7) Any other exceptions authorized under agency procedures.

(b) The contracting officer may insert the clause at 52.232-17, Interest, in solicitations and contracts when it is contemplated that the contract will be in any of the categories specified in 32.617(a).

Subpart 32.7—Contract Funding

32.700 Scope of subpart.

This subpart (a) describes basic requirements for contract funding and (b) prescribes procedures for using limitation of cost or limitation of funds clauses. Detailed acquisition funding requirements are contained in agency fiscal regulations.

32.701 [Reserved]

32.702 Policy.

No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations (Anti-Deficiency Act, 31 U.S.C. 1341), unless otherwise authorized by law. Before executing any contract, the contracting officer shall (a) obtain written assurance from responsible fiscal authority that adequate funds are available or (b) expressly condition the contract upon availability of funds in accordance with 32.703-2.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.703 Contract funding requirements.

32.703-1 General.

(a) If the contract is fully funded, funds are obligated to cover the price or target price of a fixed-price contract or the estimated cost and any fee of a cost-reimbursement contract.

(b) If the contract is incrementally funded, funds are obligated to cover the amount allotted and any corresponding increment of fee.

32.703-2 Contracts conditioned upon availability of funds.

(a) *Fiscal year contracts.* The contracting officer may initiate a contracting action properly chargeable to funds of the new fiscal year before these funds are available; *provided,* that the contract includes the clause at 52.232-18, Availability of Funds (see 32.705-1(a)). This authority may be used only for operation and maintenance and continuing services (e.g., rentals, utilities, and supply items not financed by stock funds) (1) necessary for normal operations and (2) for which Congress previously had consistently appropriated funds, unless specific statutory authority exists permitting applicability to other requirements.

(b) *Indefinite-quantity or requirements contracts.* A one-year indefinite-quantity or requirements contract for services that is funded by annual appropriations may extend beyond the fiscal year in which it begins; *provided,* that (1) any specified minimum quantities are certain to be ordered in the initial fiscal year (see 37.106) and (2) the contract includes the clause at 52.232-19, Availability of Funds for the Next Fiscal Year (see 32.705-1(b)).

(c) *Acceptance of supplies or services.* The Government shall not accept supplies or services under a contract conditioned upon the availability of funds until the contracting officer has given the contractor notice, to be confirmed in writing, that funds are available.

32.703-3 Contracts crossing fiscal years.

A contract that is funded by annual appropriations may not cross fiscal years, except in accordance with statutory authorization (see 41 U.S.C. 11a,
31 U.S.C. 1308, and 42 U.S.C. 2459
or when the contract calls for an e
product that cannot feasibly be sub
vided for separate performance
each fiscal year (e.g., contracts f
expert or consultant services).

[48 FR 42328, Sept. 19, 1983, as amended
51 FR 2665, Jan. 17, 1986]

32.704 Limitation of cost or funds.

(a) (1) When a contract contains t
clause at 52.232-20, Limitation of Co
52.232-21, Limitation of Cost (Fac
ties); or 52.232-22, Limitation
Funds, the contracting officer, up
learning that the contractor is
proaching the estimated cost of t
contract or the limit of the funds
lotted, shall promptly obtain fundi
and programming information pe
nent to the contract's continuati
and notify the contractor in writi
that—

(i) Additional funds have been all
ted, or the estimated cost has been
creased, in a specified amount;

(ii) The contract is not to be furth
funded and that the contractor sho
submit a proposal for an adjustme
of fee, if any, based on the percent
of work completed in relation to
total work called for under the c
tract;

(iii) The contract is to be termin
ed; or

(iv) (A) The Government is consid
ing whether to allot additional fu
or increase the estimated cost, (B)
contractor is entitled by the contr
terms to stop work when the fund
or cost limit is reached, and (C)
work beyond the funding or cost li
will be at the contractor's risk.

(2) Upon learning that a parti
funded contract containing any of
clauses referenced in subparagraph
above will receive no further fu
the contracting officer shall prom
give the contractor written notice
the decision not to provide funds.

(b) Under a cost-reimbursement c
tract, the contracting officer may is
a change order, a direction to repl
or repair defective items or work, c
termination notice without immedi
ly increasing the funds available. Si
a contractor is not obligated to in
costs in excess of the estimated cos

the contract, the contracting officer shall ensure availability of funds for directed actions. The contracting officer may direct that any increase in the estimated cost or amount allotted to a contract be used for the sole purpose of funding termination or other specified expenses.

(c) Government personnel encouraging a contractor to continue work in the absence of funds will incur a violation of Revised Statutes Section 3679 (31 U.S.C. 1341) that may subject the violator to civil or criminal penalties.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.705 Contract clauses.

32.705-1 Clauses for contracting in advance of funds.

(a) The contracting officer shall insert the clause at 52.232-18, Availability of Funds, in solicitations and contracts if the contract will be chargeable to funds of the new fiscal year and the contracting action is to be initiated before the funds are available.

(b) The contracting officer shall insert the clause at 52.232-19, Availability of Funds for the Next Fiscal Year, in solicitations and contracts if a one-year indefinite-quantity or requirements contract for services is contemplated and the contract (a) is funded by annual appropriations and (b) is to extend beyond the initial fiscal year (see 32.703-2(b)).

32.705-2 Clauses for limitation of cost or funds.

(a) The contracting officer shall insert the clause at 52.232-20, Limitation of Cost, in solicitations and contracts if a fully funded cost-reimbursement contract is contemplated, except those for consolidated facilities, facilities acquisition, or facilities use, whether or not the contract provides for payment of a fee.

(b) The contracting officer shall insert the clause at 52.232-21, Limitation of Cost (Facilities), in solicitations and contracts for consolidated facilities, facilities acquisition, or facilities use (see 45.301).

(c) The contracting officer shall insert the clause at 52.232-22, Limitation of Funds, in solicitations and contracts if an incrementally funded cost-reimbursement contract is contemplated.

Subpart 32.8—Assignment of Claims

32.800 Scope of subpart.

This subpart prescribes policies and procedures for the assignment of claims under the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727 (hereafter referred to as *the Act*).

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

32.801 Definitions.

Assignment of claims, as used in this subpart, means the transfer or making over by the contractor to a bank, trust company, or other financing institution, as security for a loan to the contractor, of its right to be paid by the Government for contract performance.

Designated agency, as used in this subpart, means any agency authorized to include a no-setoff commitment in its contracts. The designated agencies are the Department of Defense, the General Services Administration, the National Aeronautics and Space Administration, the Federal Aviation Administration, and any other agency authorized by statute or designated by the President.

No-setoff commitment, as used in this subpart, means a contractual undertaking that, to the extent permitted by the Act, payments by the designated agency to the assignee under an assignment of claims will not be reduced to liquidate the indebtedness of the contractor to the Government.

32.802 Conditions.

Under the Assignment of Claims Act, a contractor may assign moneys due or to become due under a contract if all the following conditions are met:

(a) The contract specifies payments aggregating $1,000 or more.

(b) The assignment is made to a bank, trust company, or other financing institution, including any Federal lending agency.

(c) The contract does not prohibit the assignment.

(d) Unless otherwise expressly permitted in the contract, the assignment—

(1) Covers all unpaid amounts payable under the contract;

(2) Is made only to one party, except that any assignment may be made to one party as agent or trustee for two or more parties participating in the financing of the contract; and

(3) Is not subject to further assignment.

(e) The assignee sends a written notice of assignment together with a true copy of the assignment instrument to the—

(1) Contracting officer or the agency head;

(2) Surety on any bond applicable to the contract; and

(3) Disbursing officer designated in the contract to make payment.

32.803 Policies.

(a) Any assignment of claims that has been made under the Act to any type of financing institution listed in 32.802(b) may thereafter be further assigned and reassigned to any such institution if the conditions in 32.802(d) and (e) continue to be met.

(b) A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government's interest.

(c) Under a requirements or indefinite quantity type contract that authorizes ordering and payment by multiple Government activities, amounts due for individual orders for $1,000 or more may be assigned.

(d) Each designated agency (see 32.801) may include a no-setoff commitment only in time of war or national emergency in any contract permitting the assignment of claims. In such times there should be special considerations to justify a determination that exclusion of a no-setoff commitment is in the Government's interest.

(e) When an assigned contract does not include a no-setoff commitment, the Government may apply against payments to the assignee any liability of the contractor to the Government arising independently of the assigned contract if the liability existed at the time notice of the assignment was received even though that liability ha not yet matured so as to be due an payable.

32.804 Extent of assignee's protection.

(a) No payments made by the Government to the assignee under an contract assigned in accordance wit the Act may be recovered on accoun of any liability of the contractor t the Government. This immunity o the assignee is effective whether th contractor's liability arises from or independently of the assigned contract.

(b) Except as provided in paragrap (c) below, the inclusion of a no-setof commitment in an assigned contrac entitles the assignee to receive contract payments free of reduction o setoff for—

(1) Any liability of the contractor t the Government arising independentl of the contract; and

(2) Any of the following liabilities o the contractor to the Governmen arising from the assigned contract:

(i) Renegotiation under any statut or contract clause.

(ii) Fines.

(iii) Penalties, exclusive of amount that may be collected or witheld fro the contractor under, or for failure t comply with, the terms of the contract.

(iv) Taxes or social security contributions.

(v) Withholding or nonwithholdin of taxes or social security contributions.

(c) In some circumstances, a setof may be appropriate even though th assigned contract includes a no-setof commitment, e.g.—

(1) When the assignee has neithe made a loan under the assignment no made a commitment to do so; or

(2) To the extent that the amoun due on the contract exceeds th amount of any loans made or expecte to be made under a firm commitmen for financing.

32.805 Procedure.

(a) *Assignments*. (1) Assignments b corporations should be (i) executed b an authorized representative, (ii) attested by the secretary or the assistan secretary of the corporation, and (iii) impressed with the corporate seal or accompanied by a certified copy of the resolution of the corporation's board of directors authorizing the signing representative to execute the assignment.

(2) If the contractor is a partnership, the assignment may be signed by one partner, if it is accompanied by an acknowledged certification that the signer is a general partner of the partnership.

(3) If the contractor is an individual, the assignment must be signed by that individual and the signature acknowledged before a notary public or other person authorized to administer oaths.

(b) *Filing.* The assignee shall forward to each party specified in 32.802(e) an original and three copies of the notice of assignment, together with one true copy of the instrument of assignment. The true copy shall be a certified duplicate or photostat copy of the original assignment.

(c) *Format for notice of assignment.* The following is a suggested format for use by an assignee in providing the notice of assignment required by 32.802(e).

NOTICE OF ASSIGNMENT

TO: ——— [*address to one of the parties specified in 32.802(e)*].

This has reference to Contract No. ——— dated ———, entered into between ——— [*contractor's name and address*] and ——— [*government agency, name of office, and address*], for ——— [*describe nature of the contract*].

Moneys due or to become due under the contract described above have been assigned to the undersigned under the provisions of the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15.

A true copy of the instrument of assignment executed by the Contractor on ——— [*date*], is attached to the original notice.

Payments due or to become due under this contract should be made to the undersigned assignee.

Please return to the undersigned the three enclosed copies of this notice with appropriate notations showing the date and hour of receipt, and signed by the person acknowledging receipt on behalf of the addressee.

Very truly yours,

____

[*name of assignee*]

By ______________________

[*signature of signing officer*

Title ______________________

[*title of signing officer*]

____

____

[*address of assignee*]

ACKNOWLEDGEMENT

Receipt is acknowledged of the above notice and of a copy of the instrument of assignment. They were received at ——— (a.m.) (p.m.) on ———, 19———.

____

[*signature*]

____

[*title*]

____

On behalf of

____

[*name of addressee of this notice*]

(d) *Examination by the Government.* In examining and processing notices of assignment and before acknowleging their receipt, contracting officers should assure that the following conditions and any additional conditions specified in agency regulations, have been met:

(1) The contract has been properly approved and executed.

(2) The contract is one under which claims may be assigned.

(3) The assignment covers only money due or to become due under the contract.

(e) *Release of assignment.* (1) A release of an assignment is required whenever—

(i) There has been a further assignment or reassignment under the Act; or

(ii) The contractor wishes to reestablish its right to receive further payments after the contractor's obligations to the assignee have been satisfied and a balance remains due under the contract.

(2) The assignee, under a further assignment or reassignment, in order to establish a right to receive payment from the Government, must file with the addressees listed in 32.802(e) a—

(i) Written notice of release of the contractor by the assigning financing institution;

(ii) Copy of the release instrument;

(iii) Written notice of the further assignment or reassignment; and

(iv) Copy of the further assignment or reassignment instrument.

(3) If the assignee releases the contractor from an assignment of claims under a contract, the contractor, in order to establish a right to receive payment of the balance due under the contract, must file a written notice of release together with a true copy of the release of assignment instrument with the addressees noted in 32.802(e).

(4) The addressee of a notice of release of assignment or the official acting on behalf of that addressee shall acknowledge receipt of the notice.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986; 52 FR 9039, Mar. 20, 1987]

32.806 Contract clauses.

(a) (1) The contracting officer shall insert the clause at 52.232-23, Assignment of Claims, in solicitations and contracts when the contract amount is expected to be $1,000 or more, unless the contract will prohibit the assignment of claims (see 32.803(b)). The use of this clause is not required for purchase orders. However, the clause may be used in purchase orders for $1,000 or more that are accepted in writing by the contractor, if such use is consistent with agency policies and regulations.

(2) If a no-setoff commitment is to be included in the contract (see 32.801 and 32.803(d)) and the contract is expected to be for $1,000 or more, the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.232-24, Prohibition of Assignment of Claims, in solicitations and contracts for which a determination has been made under agency regulations that the prohibition of assignment of claims is in the Government's interest.

[48 FR 42328, Sept. 19, 1983, as amended at 51 FR 2665, Jan. 17, 1986]

Subpart 32.9—Prompt Payment

SOURCE: 53 FR 3690, Feb. 8, 1988, unle
otherwise noted.

32.900 Scope of subpart.

This subpart prescribes policies, pr
cedures, and clauses for implementin
Office of Management and Budg
(OMB) Circular A-125, *Prompt Pa*
ment.

[54 FR 13333, Mar. 31, 1989]

32.901 Applicability.

This subpart applies to all Gover
ment contracts (including small pu
chases as defined in subpart 13.1
except for contracts where payme
terms and late payment penalties ha
been established by other governme
tal authority (e.g., tariffs). The inte
est penalty provisions of this subpa
do not apply to contracts awarded
foreign vendors outside the Unit
States for work performed outside t
United States.

[54 FR 13333, Mar. 31, 1989]

32.902 Definitions.

Contract financing payment, as us
in this subpart, means a Governme
disbursement of monies to a contra
tor under a contract clause or oth
authorization prior to acceptance
supplies or services by the Gover
ment. Contract financing payments
clude advance payments, progress pa
ments based on cost under the clau
at 52.232-16, Progress Paymen
progress payments based on a perce
age or stage of completion (s
32.102(e)(1)) other than those ma
under the clause at 52.232-5, Pa
ments Under Fixed-Price Constructi
Contracts or the clause at 52-232-1
Payments Under Fixed-Price Arc
tect-Engineer Contracts, and inter
payments on cost-type contracts. Co
tract financing payments do not
clude invoice payments or payme
for partial deliveries.

Day, as used in this subpart, mea
calendar day, unless otherwise indic
ed.

Designated billing office, as used
this subpart, means the office
person designated in the contr

where the contractor first submits invoices and contract financing requests. This might be the Government disbursing office, contract administration office, office accepting the supplies delivered or services performed by the contractor, contract audit office, or a nongovernmental agent. In some cases, different offices might be designated to receive invoices and contract financing requests.

Designated payment office means the place designated in the contract to make invoice payments or contract financing payments. Normally, this will be the Government disbursing office.

Discount for prompt payment means an invoice payment reduction voluntarily offered by the contractor, in conjunction with the clause at 52.232-8, Discounts for Prompt Payment, if payment is made by the Government prior to the due date. The due date is calculated from the date of the contractor's invoice.

Due date means the date on which payment should be made.

Invoice payment, as used in this subpart, means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government. This includes payments of partial deliveries that have been accepted by the Government and final cost or fee payments where amounts owed have been settled between the Government and the contractor. For purposes of this subpart, invoice payments also include all payments made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, and the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts. Invoice payments do not include contract financing payments.

Payment date means the date on which a check for payment is dated or an electronic funds transfer is made.

Proper invoice means a bill or written request for payment which meets the minimum standards specified in the clauses at 52.232-25, Prompt Payment, 52.232-26, Prompt Payment for Fixed-Price Architect-Engineer Contracts, or 52.232-27, Prompt Payment for Construction Contracts (also see 32.905(e)), and other terms and conditions contained in the contract for invoice submission.

Receiving report means written evidence meeting the requirements of 32.905(f) which indicates Government acceptance of supplies delivered or services performed by the contractor (see subpart 46.6).

[53 FR 3690, Feb. 8, 1988, as amended at 54 FR 13333, Mar. 31, 1989; 55 FR 25530, June 21, 1990]

32.903 Policy.

All solicitations and contracts subject to this subpart shall specify payment procedures, payment due dates, and interest penalties for late invoice payment. Invoice payments and contract financing payments will be made by the Government as close as possible to (or earlier as determined by the Agency head to be necessary on a case-by-case basis), but not later than the due dates specified in the contract by incorporation of the clauses at 52.232-25, Prompt Payment, 52.232-26, Prompt Payment for Fixed-Price Architect-Engineer Contracts or 52.232-27, Prompt Payment for Construction Contracts. Payment will be based on receipt of a proper invoice or contract financing request and satisfactory contract performance. Agency procedures shall ensure that, when specifying due dates, full consideration is given to the time reasonably required by Government officials to fulfill their administrative responsibilities under the contract. Checks will be mailed and electronic funds transfers will be transmitted on or about the same day the payment action is dated. When appropriate, Government contracts should allow the contractor to be paid for partial deliveries that have been accepted by the Government (see 32.102(d)). Discounts for prompt payment offered by the contractor shall be taken only when payments are made within the discount period specified by the contractor. Agencies shall pay an interest penalty, without request from the contractor, for late invoice payments or improperly taken discounts for prompt payment. The interest penalty shall be absorbed within funds available for administration or operation of the program for which the penalty was incurred. The temporary unavailability of funds to make a timely payment does not relieve the obligation to pay interest penalties. For contracts awarded after October 1, 1989, if the interest penalty is not paid within 10 days after it is due and the contractor makes a written demand for payment within 40 days after payment of the principal amount due, agencies shall pay an additional penalty amount, which shall be calculated in accordance with regulations issued by the Office of Management and Budget.

[54 FR 13333, Mar. 31, 1989]

32.904 Responsibilities.

Agency heads shall establish the policies and procedures necessary to implement this subpart. Agency heads are authorized to prescribe additional standards for establishing due dates on invoice payments (32.905) and contract financing payments (32.906), as deemed necessary to support agency programs and foster prompt payment to contractors. Agency heads may also adopt different payment procedures in order to accommodate unique circumstances, provided that such procedures are consistent with the policies set forth in this subpart.

32.905 Invoice payments.

(a) Except as prescribed in 32.905(b), 32.905(c), and 32.905(d), the due date for making an invoice payment by the designated payment office shall be:

(1) The 30th day after the designated billing office has received a proper invoice from the contractor; or the 30th day after Government acceptance of supplies delivered or services performed by the contractor, whichever is later.

(i) On a final invoice where the payment amount is subject to contract settlement actions, acceptance shall be deemed to have occurred on the effective date of the contract settlement.

(ii) For the sole purpose of computing an interest penalty that might be due the contractor, Government acceptance shall be deemed to have occurred contructively on the 7th day after the contractor has delivered supplies or performed services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contract requirement. In the event that actual acceptance occurs within the constructive acceptance period, the determination of an interest penalty shall be based on the actual date of acceptance. The constructive acceptance requirement does not, however, compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities. Except in the case of a contract for the procurement of a brand name commercial item for authorized resale (e.g., commissary items), the contracting officer may specify a longer period for constructive acceptance in the solicitation and resulting contract, if required to afford the Government a reasonable opportunity to inspect and test the property furnished or to evaluate the services performed. The contract file shall indicate the justification for extending the constructive acceptance period beyond 7 days.

(iii) If the contract does not require submission of an invoice for payment (e.g., periodic lease payments), the due date will be as specified in the contract.

(2) However, if the designated billing office fails to annotate the invoice with the actual date of receipt of the invoice, the invoice payment due date shall be deemed to be the 30th day after the date the contractor's invoice is dated, provided a proper invoice i received and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(b) The due date for making payments on contracts that contain the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts, shall be as follows:

(1) The due date for work or service completed by the contractor shall b the later of the following two events:

(i) The 30th day after the designate billing office has received a proper invoice from the contractor.

(ii) The 30th day after Governmen acceptance of the work or servic completed by the contractor. On final invoice where the payment amount is subject to contract settlement actions (e.g., release of claims), acceptance shall be deemed to have occurred on the effective date of the settlement. For the sole purpose of computing an interest penalty that might be due the contractor, Government acceptance shall be deemed to have occurred constructively on the 7th day after the contractor has completed the work or services in accordance with the terms and conditions of the contract (see also 32.905(b)(4)). In the event that actual acceptance occurs within the constructive acceptance period, the determination of an interest penalty shall be based on the actual date of acceptance.

(2) The due date for progress payments shall be the 30th day after Government approval of contractor estimates of work or services accomplished. For the sole purpose of computing an interest penalty that might be due the contractor, Government approval shall be deemed to have occurred constructively on the 7th day after contractor estimates have been received by the designated billing office (see also 32.905(b)(4)). In the event that actual approval occurs within the constructive approval period, the determination of an interest penalty shall be based on the actual date of approval.

(3) However, if the designated billing office fails to annotate the invoice or payment request with the actual date of receipt, the payment due date shall be the 30th day after the date the contractor's invoice or payment request is dated, provided a proper invoice or payment request is received and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(4) The constructive acceptance and constructive approval requirements described in 32.905(b)(1) and (b)(2) are conditioned upon receipt of a proper payment request and no disagreement over quantity, quality, contractor compliance with contract requirements, or the requested progress payment amount. These requirements do not compel Government officials to accept work or services, approve contractor estimates, perform contract administration functions, or make payment prior to fulfilling their responsibilities. The contracting officer may specify a longer period for constructive acceptance or constructive approval, if required to afford the Government a reasonable opportunity to inspect and test the property furnished or to evaluate the services performed.

(c) The due date for making payments on construction contracts shall be as follows:

(1) The due date for making progress payments based on contracting officer approval of the estimated amount and value of work or services performed, including payments for reaching milestones in any project, shall be 14 days after receipt of a proper payment request by the designated billing office. However, if the designated billing office fails to annotate the payment request with the actual date of receipt, the payment due date shall be deemed to be the 14th day after the date the contractor's payment request is dated, provided a proper payment request is received and there is no disagreement over quantity, quality, or contractor compliance with contract requirements. The contracting officer may specify a longer period in the solicitation and resulting contract if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the contractor's performance under the contract. The contract file shall indicate the justification for extending the due date beyond 14 days. The contracting officer or his representative shall not approve progress payment requests unless the certification and substantiation of amounts requested are provided as required by the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts.

(2) The due date for payment of any amounts retained by the contracting officer in accordance with the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, shall be as specified in the contract or, if not specified, 30 days after approval by the contracting officer for release to the contractor. This release of retained amounts shall be based on the

contracting officer's determination that satisfactory progress has been made.

(3) The due date for final payments based on completion and acceptance of all work (including any retained amounts), and payments for partial deliveries that have been accepted by the Government (e.g., each separate building, public work, or other division of the contract for which the price is stated separately in the contract) shall be as follows:

(i) Either the 30th day after receipt by the designated billing office of a proper invoice from the contractor, or the 30th day after Government acceptance of the work or services completed by the contractor, whichever is later. However, if the designated billing office fails to annotate the invoice with the actual date of receipt, the invoice payment due date shall be deemed to be the 30th day after the date the contractor's invoice is dated, provided a proper invoice is received and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(ii) On a final invoice where the payment amount is subject to contract settlement actions (e.g., release of contractor claims), acceptance shall be deemed to have occurred on the effective date of the contract settlement.

(4) For the sole purpose of computing an interest penalty that might be due the contractor for payments described in subdivision (c)(3)(i) of this section, Government acceptance or approval shall be deemed to have occurred constructively on the 7th day after the contractor has completed the work or services in accordance with the terms and conditions of the contract (see also 32.905(c)(5)). In the event that actual acceptance occurs within the constructive acceptance period, the determination of an interest penalty shall be based on the actual date of acceptance.

(5) The constructive acceptance and constructive approval requirements described in subparagraph (c)(4) of this section are conditioned upon receipt of a proper payment request and no disagreement over quantity, quality, contractor compliance with contract requirements, or the requested
amount. These requirements do n
compel Government officials to acce
work or services, approve contract
estimates, perform contract admini
tration functions, or make paymer
prior to fulfilling their responsibilitie
The contracting officer may specify
longer period for constructive accep
ance or constructive approval in th
solicitation and resulting contract,
required to afford the Government
reasonable opportunity to adequatel
inspect the work and to determine th
adequacy of the contractor's perform
ance under the contract.

(d) The payment terms or contrac
for meat and meat food products, co
tracts for perishable agricultural co
modities, and contracts for dairy pro
ucts, edible fats or oils, and food pro
ucts prepared from edible fats or oi
are as follows:

(1) The due date on contractor i
voices for meat or meat food product
as defined in section 2(a)(3) of th
Packers and Stockyard Act of 1921
U.S.C. 182(3)), as further defined
Pub. L. 98-181, including any edib
fresh or frozen poultry meat, any pe
ishable poultry meat food produ
fresh eggs, and any perishable e
product, will be as close as possible
but not later than, the seventh d
after product delivery.

(2) The due date on contractor i
voices for perishable agricultural co
modities, as defined in section 1(4)
the Perishable Agricultural Commo
ities Act of 1930 (7 U.S.C. 499a(4)), w
be as close as possible to, but not lat
than, the tenth day after product d
livery, unless another date is specifi
in the contract.

(3) The due date on contractor i
voices for dairy products (as defined
section 111(e) of the Dairy Producti
Stabilization Act of 1983 (7 U.S.
4502(e)), edible fats or oils, and fo
products prepared from edible fats
oils, will be as close as possible to, b
not later than, the tenth day after t
date on which a proper invoice h
been received.

(e) A proper invoice must inclu
the items listed in subparagrap
(e)(1) through (e)(8) of this section.
the invoice does not comply with the
requirements, then the contract
must be notified of the defect withi

days (3 days on contracts for meat and meat food products, and 5 days on contracts for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats or oils) after receipt of the invoice at the designated billing office. The reason that the invoice is not a proper invoice must be specified. If such notice is not timely, then an adjusted due date for the purpose of determining an interest penalty, if any, will be established in accordance with 32.907-1(b):

(1) Name and address of the contractor.

(2) Invoice date.

(3) Contract number or other authorization for supplies delivered or services performed (including order number and contract line item number).

(4) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.

(5) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.

(6) Name and address of contractor official to whom payment is to be sent (must be the same as that in the contract or on a proper notice of assignment).

(7) Name (where practicable), title, phone number, and mailing address of person to be notified in event of a defective invoice.

(8) Any other information or documentation required by the contract (such as evidence of shipment).

(f) All invoice payments shall be supported by a receiving report or any other Government documentation authorizing payment. The receiving report or other Government documentation should be forwarded to the designated payment office by the 5th working day after Government acceptance or approval, unless other arrangements have been made. This period of time does not extend the due dates prescribed in 32.905. Acceptance should be completed as expeditiously as possible. The receiving report or other Government documentation authorizing payment shall, as a minimum, include the following:

(1) Contract number or other authorization for supplies delivered or services performed.

(2) Description of supplies delivered or services performed.

(3) Quantities of supplies received and accepted, if applicable.

(4) Date supplies delivered or services performed.

(5) Date supplies or services were accepted by the designated Government official (or progress payment request was approved if being made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts).

(6) Signature printed name, title, mailing address, and telephone number of the designated Government official responsible for acceptance or approval functions.

(7) If the contract provides for the use of certified invoices in lieu of a separate receiving report, the certified invoice must also contain the information described in subparagraphs (f)(1) through (f)(6) of this section.

(g) When a discount for prompt payment is to be taken, payment will be made as close as possible to, but not later than, the end of the discount period. Payment terms are specified in the clause at 52.232-8, Discounts for Prompt Payment.

(h) The designated billing office shall immediately annotate each invoice with the actual date it receives the invoice.

(i) The designated payment office shall annotate each invoice and receiving report with the date a proper invoice was received by the designated payment office.

[54 FR 13334, Mar. 31, 1989]

32.906 Contract financing payments.

(a) Unless otherwise prescribed in policies and procedures issued by the Agency head, the due date for making contract financing payments by the designated payment office will be the 30th day after the designated billing office has received a proper request. In the event that an audit or other review of a specific financing request is required to ensure compliance with the terms and conditions of the contract, the designated payment office is not compelled to make payment by the due date specified. Agency heads may prescribe shorter periods for payment, if appropriate based on contract pricing or administrative considerations. For example, a shorter period may be justified by an Agency if the nature and extent of contract financing arrangements are integrated with Agency contract pricing policies. A period shorter than 7 days or longer than 30 days shall not be prescribed.

(b) For advance payments, loans, or other arrangements that do not involve recurrent submission of contract financing requests, payment shall be made in accordance with the applicable contract financing terms or as directed by the contracting officer.

(c) A proper contract financing request must comply with the terms and conditions specified by contract financing clauses or other authorizing terms. The contractor shall correct any defects in requests submitted in the manner specified in the contract or as directed by the contracting officer.

(d) The designated billing officer and designated payment office shall annotate each contract financing request with the date a proper request was received in their respective offices.

32.907 Interest penalties.

32.907-1 Late invoice payment.

(a) An interest penalty shall be paid automatically by the designated payment office, without request from the contractor, when all of the following conditions, if applicable, have been met:

(1) A proper invoice has been received by the designated billing office.

(2) A receiving report or other Government documentation authorizing payment has been processed and there was no disagreement over quantity, quality, or contractor compliance with any contract requirement.

(3) In the case of a final invoice, the payment amount is not subject to further contract settlement actions between the Government and the contractor.

(4) The designated payment office paid the contractor after the due date.

(b) The interest penalty computation shall not include (1) the time taken by the Government to notify the contractor of a defective invoice, unless it exceeds the periods prescribed in 32.905(e), or (2) the time taken by the contractor to correct the invoice. If the designated billing office failed to notify the contractor of a defective invoice within the periods prescribed in 32.905(e), then the due date on the corrected invoice will be adjusted by subtracting the number of days taken beyond the prescribed notification of defects period from the payment due date. Any interest penalty owed the contractor will be based on this adjusted due date.

(c) An interest penalty shall be paid automatically by the designated payment office, without request from the contractor, if a discount for prompt payment is taken improperly. The interest penalty shall be calculated on the amount of discount taken for the period beginning with the first day after the end of the discount period through the date when the contractor is paid.

(d) The interest penalty shall be at the rate established by the Secretary of the Treasury under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) that is in effect on the day after the due date, except where the interest penalty is prescribed by other governmental authority (e.g., tariffs). The rate in effect on the day after the due date shall remain fixed during the period for which an interest penalty is calculated. This rate is referred to as the *Renegotiation Board Interest Rate*, and it is published in the Federal Register semiannually on or about January 1 and July 1. The interest penalty will accrue daily on the invoice payment amount approved by the Government and be compounded in 30-day increments inclusive from the first day after the due date through the payment date. That is, interest accrued at the end of any 30-day period will be added to the approved invoice payment amount and be subject to interest penalties if not paid in

e succeeding 30-day period. The in-
rest penalty amount, interest rate
d the period for which the interest
nalty was computed, will be sepa-
tely stated by the designated pay-
ent office on the check, in accompa-
ying remittance advice, or, in the
se of wire transfers, by an appropri-
e electronic data message accompa-
ying the wire transfer. Adjustments
ll be made by the designated pay-
ent office for errors in calculating
terest penalties, if requested by the
ntractor.

(e) Interest penalties under the
ompt Payment Act will not continue
accrue (1) after the filing of a claim
r such penalties under the clause at
.233-1, Disputes, or (2) for more
an 1 year. Interest penalties of less
an $1.00 need not be paid.

(f) Interest penalties are not re-
ired on payment delays due to dis-
reement between the Government
d contractor over the payment
nount, or other issues involving con-
act compliance, or on amounts tem-
rarily withheld or retained in ac-
rdance with the terms of the con-
act. Claims involving disputes, and
y interest that may be payable, will
resolved in accordance with the
sputes clause.

(g) For contracts awarded on or
ter October 1, 1989, a penalty
nount (calculated in accordance with
gulations issued by the Office of
anagement and Budget) shall be
id, in addition to the interest penal-
amount, if the contractor—

(1) Is owed an interest penalty;

(2) Is not paid the interest penalty
thin 10 days after the date the in-
ice amount is paid; and

(3) Makes a written demand that the
ency pay such a penalty not later
an 40 days after the date the invoice
nount is paid.

FR 3690, Feb. 8, 1988, as amended at 54
13336, Mar. 31, 1989]

907-2 Late contract financing payment.

No interest penalty shall be paid to
e contractor as a result of delayed
ntract financing payments.

08 Contract clauses.

) If the solicitation or contract
tains the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts, the contracting officer shall insert the clause at 52.232-26, Prompt Payment for Fixed-Price Architect-Engineer Contracts.

(b) The contracting officer shall insert the clause at 52.232-27, Prompt Payment for Construction Contracts, in all solicitations and contracts for construction (see part 36).

(c) The contracting officer shall insert the clause at 52.232-25, Prompt Payment, in all other solicitations and contracts (including small purchases as defined in subpart 13.1), except as indicated in 32.901.

(d) If payment may be made by electronic funds transfer, the contracting officer shall insert the clause at 52.232-28, Electronic Funds Transfer Payment Methods, in solicitations and contracts.

[54 FR 13336, Mar. 31, 1989]

32.909 Contractor inquiries.

Questions concerning delinquent payments should be directed to the designated billing office or designated payment office. If a question involves a disagreement in payment amount or timing, it should be directed to the contracting officer for resolution. The contracting officer shall coordinate within appropriate contracting channels and seek the advice of other offices as may be necessary to resolve disagreements. Small business concerns may obtain additional assistance related to payment issues, late payment interest penalties, and information on the Prompt Payment Act, by contacting the Agency's local representative from the Office of Small and Disadvantaged Business Utilization.

33.000 Scope of part.

This part prescribes policies and procedures for filing protests and for processing contract disputes and appeals.

[50 FR 2270, Jan. 15, 1985]

Subpart 33.1—Protests

Source: 50 FR 2270, Jan. 15, 1985, unless otherwise noted.

33.101 Definitions.

Interested Party for the purpose of filing a protest, as used in this subpart, means an actual or prospective offeror whose direct economic interest would be affected by the award of a contract or by the failure to award a contract.

Protest, as used in this subpart, means a written objection by an interested party to a soliciation by an agency for offers for a proposed contract for the acquisition of supplies or services or a written objection by an interested party to a proposed award or the award of such a contract.

[50 FR 2270, Jan. 15, 1985, as amended at 53 FR 43391, Oct. 26, 1988; 54 FR 19827, May 8, 1989]

33.102 General.

(a) Contracting officers shall consider all protests, whether submitted before or after award and whether filed directly with the agency, the General Accounting Office (GAO), or for automatic data processing acquisitions under 40 U.S.C. 759 (hereinafter cited as *ADP contracts*), the General Services Board of Contract Appeals (GSBCA). The protestor shall be notified in writing of the final decision of the protest. (See 19.302 for protests of small business status and 22.608-3 for protests involving eligibility under the Walsh-Healey Public Contracts Act.)

(b) An interested party wishing to protest—

(1) Is encouraged to seek resolution within the agency (see 33.103) before filing a protest with the GAO or the GSBCA;

(2) May protest to the GAO in accordance with GAO regulations (4 CFR part 21). An interested party who has filed a protest regarding an ADP contract with the GAO may not file a protest with the GSBCA with respect to that contract.

(3) May protest to the GSBCA regarding an award of an ADP contract in accordance with GSBCA Rules of Procedure (48 CFR chapter 61). An interested party who has filed a protest regarding an ADP contract with GSBCA (40 U.S.C. 759(h)) may not file a protest with the GAO with respect to that contract.

[50 FR 2270, Jan. 15, 1985, as amended at 55 FR 38517, Sept. 18, 1990]

33.103 Protests to the agency.

(a) When a protest is filed only with the agency, an award shall not be made until the matter is resolved unless the contracting officer or other designated official first determines that one of the following applies:

(1) The supplies or services to be contracted for are urgently required.

(2) Delivery or performance will be unduly delayed by failure to make award promptly.

(3) A prompt award will otherwise be advantageous to the Government.

(b)(1) When a protest against the making of an award is received and award will be withheld pending dispoition of the protest, the offerors whose offers might become eligible for ward should be informed of the pro- est. If appropriate, those offerors hould be requested, before expiration f the time for acceptance of their ffer, to extend the time for accept- nce in accordance with 14.404-1(d) to void the need for resolicitation. In he event of failure to obtain such ex- ensions of offers, consideration hould be given to proceeding with ward under paragraph (a) above.

(2) Protests received after award iled only with the agency shall be andled in accordance with agency rocedures. The contracting officer eed not suspend contract perform- nce or terminate the awarded con- ract unless it appears likely that an ward may be invalidated and a delay n receiving the supplies or services is ot prejudicial to the Government's nterest. In this event, the contracting fficer should consider seeking a utual agreement with the contractor o suspend performance on a no-cost asis.

3.104 Protests to GAO.

(a) *General.* (1) A protestor shall urnish a copy of its complete protest o the official or location designated in he solicitation or, in the absence of uch a designation, to the contracting fficer, no later than 1 day after the rotest is filed with the GAO. Failure o furnish a complete copy of the pro- est within 1 day may result in dismis- al of the protest by GAO.

(2)(i) If the protestor files a request r documents with a protest, the gency shall furnish copies of those equested documents, and the docu- ents described in 33.104(a)(6), along ith the copy of the agency report to e protestor, unless the protestor is ot otherwise authorized by law to re- ive the requested documents or the cuments—

(A) Are not relevant to the protest;

(B) Would give the protestor a com- titive advantage; or

(C) Have been previously provided to e protestor.

ii) Documents referred to in subdi- ion (a)(2)(i) of this section not fur- hed to the protestor shall be identi- d, and the reason for not furnishing them stated in the agency report described in subparagraph (a)(3) of this section.

(iii) If the protestor, after receipt of the agency report, requests additional documents, the agency must respond to the GAO within 5 days by filing the requested documents or by identifying any documents which will not be furnished to the protestor, and stating the reason for not furnishing them.

(3) When a protest, before or after award, has been lodged with the GAO, the agency shall prepare a report. The report should include a copy of—

(i) The protest;

(ii) The offer submitted by the protesting offeror and a copy of the offer which is being considered for award or which is being protested;

(iii) The solicitation, including the specifications or portions relevant to the protest;

(iv) The abstract of offers or relevant portions;

(v) Any other documents that are relevant to the protest; and

(vi) The contracting officer's signed statement setting forth findings, actions, and recommendations and any additional evidence or information deemed necessary in determining the validity of the protest. The statement shall be fully responsive to the allegation of the protest. If the contract action or contract performance continues after receipt of the protest, the report will include the determination(s) prescribed in paragraphs (b) or (c) of this section.

(vii) In addition to subdivisions (a)(3) (i) through (vi) of this section, the copy of the report forwarded to the GAO shall also identify the other parties who are being furnished copies of the report.

(4) Other persons, including offerors, involved in or affected by the protest shall be given notice of the protest and its basis in appropriate cases, within 1 work day after its receipt by the agency. The agency shall give immediate notice of the protest to the contractor if the award has been made or, if no award has been made, to all parties who appear to have a reasonable prospect of receiving an award if the protest is denied. These persons shall also be advised that they may

submit their views and relevant information directly to the GAO with a copy to the contracting officer and to other participating interested parties within a specified period of time. Normally, the time specified will be 1 week.

(5) The agency shall submit a complete report (see subparagraph (a)(3) of this section) to GAO within 25 work days after receipt from GAO of the telephonic notice of such protest, or within 10 work days after receipt from GAO of a determination to use the express option, unless—

(i) The GAO advises the agency that the protest has been dismissed; or

(ii) The agency advises GAO in writing that the specific circumstances of the protest require a longer period and GAO establishes a new date. Any new date shall be documented in the agency's protest file.

(6)(i) Timely action on protests is essential. Upon notice that a protest has been lodged with the GAO, the contracting officer shall immediately begin compiling the information necessary for a report to the GAO. To further expedite processing, when furnishing a copy of the report including relevant documents to the GAO, the agency shall simultaneously furnish a copy of the report including relevant documents to the protestor and the awardee or offeror who appears to have a substantial prospect of receiving an award if the protest is denied, and a copy of the report without relevant documents to other interested parties who have responded to the notice in subparagraph (a)(4) of this section, unless the protestor or other interested party is not otherwise authorized by law to receive those documents, or subdivisions (6)(i) (A) and (B) are applicable. Upon request, the agency shall also provide to any interested party a relevant document contained in the report.

(A) Documents previously furnished to or prepared by a party (e.g., the solicitation or the party's own proposal) need not be furnished to that party.

(B) Classified or privileged information or information that would give a party a competitive advantage and other information that the Government determines under appropriate authority to withhold should be deleted from the copy of the report or relevant documents furnished to that party.

(C) If documents are withheld from any of the parties, the agency must include in the report and in the copies of the report provided to the protestor and the interested parties, a list of the withheld documents.

(ii) The protestor and other interested parties shall be requested to furnish a copy of any comments on the report directly to the GAO, as well as to the contracting officer and to other participating interested parties.

(7) Agencies shall furnish the GAO with the name, title, and telephone number of one or more officials (in both field and headquarters offices, if desired) whom the GAO may contact who are knowledgeable about the subject matter of the protest. Each agency shall be responsible for promptly advising the GAO of any change in the designated officials.

(b) *Protests before award.* (1) When the agency has received notice from GAO of a protest filed directly with GAO, a contract may not be awarded unless authorized, in accordance with agency procedures, by the head of the contracting activity, on a nondelegable basis, upon a written finding that—

(i) Urgent and compelling circumstances which significantly affect the interests of the United States will not permit awaiting the decision of GAO; and

(ii) Award is likely to occur within 30 calendar days of the written finding.

(2) A contract award shall not be authorized until the agency has notified GAO of the above finding.

(3) When a protest against the making of an award is received and award will be withheld pending disposition of the protest, the offerors whose offers might become eligible for award should be informed of the protest. If appropriate, those offerors should be requested, before expiration of the time for acceptance of their offer, to extend the time for acceptance in accordance with 14.404-1(d) to avoid the need for resolicitation. In the event of failure to obtain such extensions of offers, consideration

hould be given to proceeding under
aragraph (b)(1) above.

(c) *Protests after award.* (1) When
he agency receives from GAO, within
0 calendar days after award, a notice
f a protest filed directly with GAO,
he contracting officer shall immedi-
tely suspend performance or termi-
ate the awarded contract, except as
rovided in paragraphs (c) (2) and (3)
elow.

(2) In accordance with agency proce-
ures, the head of the contracting ac-
vity may, on a nondelegable basis,
uthorize contract performance, not-
ithstanding the protest, upon a writ-
en finding that—

(i) Contract performance will be in
he best interests of the United States;
r

(ii) Urgent and compelling circum-
ances that significantly affect the in-
erests of the United States will not
ermit waiting for the GAO's decision.

(3) Contract performance shall not
e authorized until the agency has no-
fied GAO of the above finding.

(4) When it is decided to suspend
erformance or terminate the awarded
ontract, the contracting officer
hould attempt to negotiate a mutual
greement on a no-cost basis.

(5) When the agency receives notice
f a protest filed directly only with
he GAO more than 10 calendar days
fter award of the protested acquisi-
on, the contracting officer need not
uspend contract performance or ter-
inate the awarded contract unless
he contracting officer believes that
n award may be invalidated and a
elay in receiving the supplies or serv-
es is not prejudicial to the Govern-
ent's interest.

(d) *Findings and notice.* If the deci-
on is to proceed with contract award,
continue contract performance
nder (b) or (c) above, the contracting
ficer shall include the written find-
gs or other required documentation
the file. The contracting officer also
all give written notice of the deci-
on to the protester and other inter-
ted parties.

(e) *Conferences.* (1) A conference on
e merits of the protest may, at the
le discretion of the GAO, be held at
e request of the protestor, the
ency, or any interested party.

(2) A fact finding conference may, at the sole discretion of the GAO, be held at the request of any protestor, agency or interested party, or on the initiative of the GAO. The fact finding conference is intended to resolve specific factual disputes essential to the resolution of the protest which cannot otherwise be resolved from the record. Witnesses may be called to testify under oath and each party may question witnesses. A transcript will be made of the proceeding, and copies are available from the GAO for a fee. Written comments on the transcript may be submitted to the GAO within 3 days of receipt.

(f) *GAO decision time.* GAO will issue its recommendation on a protest within 90 work days, or within 45 calendar days under the express option, unless GAO establishes a longer period of time.

(g) *Notice to GAO.* The head of the agency or a designee (not below the level of the head of the contracting activity) responsible for the solicitation, proposed award, or award of the contract shall report to the Comptroller General within 60 days of receipt of the GAO's recommendation if the agency has decided not to comply with the recommendation. The report shall explain the reasons why the GAO's recommendation will not be followed by the agency.

(h) *Award of protest costs.* (1) GAO may declare an appropriate interested party to be entitled to the costs of—

(i) Filing and pursuing the protest, including reasonable attorneys' fees; and

(ii) Bid and proposal preparation.

(2) Costs awarded under subparagraph (h)(1) of this section shall be paid promptly by the agency out of funds available to or for the use of the agency for the acquisition of supplies or services.

[50 FR 2270, Jan. 15, 1985, as amended at 50 FR 25680, June 20, 1985; 50 FR 27969, July 9, 1985; 53 FR 43391, Oct. 26, 1988; 55 FR 38517, Sept. 18, 1990]

33.105 Protests to GSBCA.

(a)(1) An interested party may protest an ADP acquisition subject to section 111 of the Federal Property and

Administrative Services Act (40 U.S.C. 759) by filing a protest with the GSBCA. ADP acquisition protests not covered under this statute may not be heard by the GSBCA, but may be heard by the agency, the courts, or GAO. A protester shall furnish a copy of its complete protest to the official or location designated in the solicitation, or in the absence of such a designation to the contracting officer, on the same day the protest is filed with the GSBCA. Any request for a hearing on either a suspension of procurement authority or on the merits shall be in the protest.

(2) The GSBCA procedures state that—

(i) Within one working day after receipt of a copy of the protest, the agency shall give either oral or written notice of the protest to all parties who were solicited or, if the solicitation has closed, only to those who submitted a sealed bid or offer; and

(ii) Written confirmation of notice and a listing of all persons and agencies receiving notice should be given to the Board within five working days after receipt of the protest.

(b) The GSBCA procedures state that within 10 work days after the filing of a protest, or such longer time as the GSBCA may establish, the agency shall file with the GSBCA and all other parties a protest file. Except where the agency determines under appropriate authority to withhold classified or privileged information or information that would give a competitive advantage, the protest file shall include the following:

(1) A contracting officer's decision, if any.

(2) The contract, if any.

(3) All relevant correspondence.

(4) Affidavits or statements of witnesses on the matter under protest.

(5) All documents relied upon by the contracting officer in taking the action protested.

(6) A copy of the solicitation, the protestor's bid or proposal and, if bid opening has occurred and no contract has been awarded, a copy of any relevant bids and the bid abstract.

(7) In a negotiated acquisition, a copy of offers or proposals being considered for award and relevant to the protest should be included in the GSBCA file only, for *in camera* review by the Board. The agency shall serve all parties with a list of documents provided to the Board for *in camera* review.

(8) Any additional existing evidence or information necessary to determine the merits of the protest.

(9) Any information otherwise withheld, where it is appropriate for *in camera* review by the Board.

(c) The GSBCA procedures state that within 15 work days after the filing of the protest, or such longer time as the Board may establish, the agency shall submit its answer to the Board setting forth its defenses to the protest and its findings, actions, and recommendations in the matter.

(d)(1) If a protest contains a timely request for a suspension of procurement authority, a hearing will be held whenever practicable but no later than 10 calendar days after the filing of the protest. The Board shall suspend the procurement authority unless the agency establishes that—

(i) Absent suspension, the contract award is likely within 30 calendar days; and

(ii) Urgent and compelling circumstances which significantly affect interests of the United States will not permit waiting for the decision.

(2) Circumstances in (d)(1) above shall be established by a D&F executed by the agency head or designee.

(3) The Board's decision on suspension may be oral.

(e) A hearing on the merits, if requested, will be held within 25 work days after the filing of the protest and a GSBCA decision on the merits will be issued within 45 work days, unless the Board's chairman determines a longer period is required.

(f)(1) The GSBCA may declare an appropriate interested party to be entitled to the costs of—

(i) Filing and pursuing the protest, including reasonable attorney's fees and

(ii) Bid and proposal preparation.

(2) Costs awarded under (f)(1) above shall be paid promptly by the agency out of funds available to or for the use of the acquisition of supplies or services.

(g) The GSBCA's final decision may be appealed by the agency or by any interested party, including any intervening interested parties, as set forth in subpart 33.2.

[50 FR 2270, Jan. 15, 1985, as amended at 50 FR 23607, June 4, 1985; 53 FR 662, Jan. 11, 1988]

33.106 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.233-2, Service of Protest, in solicitations for other than small purchases.

(b) The contracting officer shall insert the clause at 52.233-3, Protest After Award, in all solicitations and contracts. If a cost reimbursement contract is contemplated, the contracting officer shall use the clause with its *Alternate I.*

[50 FR 25681, June 20, 1985]

Subpart 33.2—Disputes and Appeals

SOURCE: 48 FR 42349, Sept. 19, 1983, unless otherwise noted. Redesignated at 50 FR 2270, Jan. 15, 1985.

33.201 Definitions.

Claim, as used in this subpart, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. A claim arising under a contract, unlike a claim relating to that contract, is a claim that can be resolved under a contract clause that provides for the relief sought by the claimant. However, a written demand or written assertion by the contractor seeking the payment of money exceeding $50,000 s not a claim under the Contract Disputes Act of 1978 until certified as required by the Act and 33.207. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The ubmission may be converted to a laim, by written notice to the contracting officer as provided in 3.206(a), if it is disputed either as to ability or amount or is not acted pon in a reasonable time.

Misrepresentation of fact, as used in this part, means a false statement of substantive fact, or any conduct which leads to the belief of a substantive fact material to proper understanding of the matter in hand, made with intent to deceive or mislead.

[48 FR 42349, Sept. 19, 1983. Redesignated and amended at 50 FR 2270, Jan. 15, 1985]

33.202 Contract Disputes Act of 1978.

The Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act) establishes procedures and requirements for asserting and resolving claims by or against contractors arising under or relating to a contract subject to the Act. In addition, the Act provides for the payment of interest on contractor claims, for the certification of contractor claims in excess of $50,000, and for a civil penalty for contractor claims that are fraudulent or based on a misrepresentation of fact.

33.203 Applicability.

(a) Except as specified in paragraph (b) below, this part applies to any express or implied contract covered by the Federal Acquisition Regulation.

(b) This subpart does not apply to any contract with (1) a foreign government or agency of that government, or (2) an international organization or a subsidiary body of that organization, if the agency head determines that the application of the Act to the contract would not be in the public interest.

(c) This part applies to all disputes with respect to contracting officer decisions on matters *arising under* or *relating to* a contract. Agency Boards of Contract Appeals (BCA's) authorized under the Act continue to have all of the authority they possessed before the Act with respect to disputes arising under a contract, as well as authority to decide disputes relating to a contract. The clause at 52.233-1, Disputes, recognizes the *all disputes* authority established by the Act and states certain requirements and limitations of the Act for the guidance of contractors and contracting agencies. The clause is not intended to affect the rights and obligations of the parties as provided by the Act or to constrain the authority of the statutory agency BCA's in the handling and deciding of contractor appeals under the Act.

[48 FR 42349, Sept. 19, 1983. Redesignated and amended at 50 FR 2270, Jan. 15, 1985]

33.204 Policy.

It is the Government's policy to try to resolve all contractual issues by mutual agreement at the contracting officer's level, without litigation. In appropriate circumstances, the contracting officer, before issuing a decision on a claim, should consider the use of informal discussions between the parties by individuals who have not participated substantially in the matter in dispute, to aid in resolving the differences.

33.205 Relationship of the Act to Pub. L. 85-804.

(a) Requests for relief under Pub. L. 85-804 (50 U.S.C. 1431-1435) are not claims within the Contract Disputes Act of 1978 or the Disputes clause at 52.233-1, Disputes, and shall be processed under part 50, Extraordinary Contractual Actions. However, relief formerly available only under Pub. L. 85-804; i.e., legal entitlement to rescission or reformation for mutual mistake, is now available within the authority of the contracting officer under the Contract Disputes Act of 1978 and the Disputes clause. In case of a question whether the contracting officer has authority to settle or decide specific types of claims, the contracting officer should seek legal advice.

(b) A contractor's allegation that it is entitled to rescission or reformation of its contract in order to correct or mitigate the effect of a mistake shall be treated as a claim under the Act. A contract may be reformed or rescinded by the contracting officer if the contractor would be entitled to such remedy or relief under the law of Federal contracts. Due to the complex legal issues likely to be associated with allegations of legal entitlement, contracting officers shall make written decisions, prepared with the advice and assistance of legal counsel, either granting or denying relief in whole or in part.

(c) A claim that is either denied not approved in its entirety unde paragraph (b) above may be cogniz ble as a request for relief under Pu L. 85-804 as implemented by part 5 However, the claim must first be sub mitted to the contracting officer fo consideration under the Contract Di putes Act of 1978 because the claim not cognizable under Public Law 85 804, as implemented by part 50, unles other legal authority in the agenc concerned is determined to be lackin or inadequate.

33.206 Initiation of a claim.

(a) Contractor claims shall be sub mitted in writing to the contracting o ficer for a decision. The contractin officer shall document the contrac file with evidence of the date of re ceipt of any submission from the con tractor deemed to be a claim by th contracting officer.

(b) The contracting officer sha issue a written decision on any Gov ernment claim initiated against a con tractor.

33.207 Contractor claim certification.

(a) A contractor claim exceedin $50,000 shall be accompanied by a cer tification that—

(1) The claim is made in good faith

(2) Supporting data are accurate an complete to the best of the contrac tor's knowledge and belief; and

(3) The amount requested accurate reflects the contract adjustment fo which the contractor believes the Gov ernment is liable.

(b) The aggregate amount of bot the increased and decreased costs sha be used in determining when th dollar thresholds requiring claim cert fication are met (see the example i subdivision 15.804-2(a)(1)(ii)).

(c) (1) If the contractor is an individ ual, the certification shall be execute by that individual.

(2) If the contractor is not an indi vidual, the certification shall be exe cuted by—

(i) A senior company official i charge at the contractor's plant or lo cation involved; or

(ii) An officer or general partner o the contractor having overall respons bility for the conduct of the contractor's affairs.

33.208 Interest on claims.

The Government shall pay interest on a contractor's claim on the amount found due and unpaid from (a) the date the contracting officer receives the claim (properly certified if required by 33.207(a)), or (b) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the contracting officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. See 32.614 for the right of the Government to collect interest on its claims against a contractor.

[48 FR 42349, Sept. 19, 1983. Redesignated and amended at 50 FR 2270, Jan. 15, 1985]

33.209 Suspected fraudulent claims.

If the contractor is unable to support any part of the claim and there is evidence that the inability is attributable to misrepresentation of fact or to fraud on the part of the contractor, the contracting officer shall refer the matter to the agency official responsible for investigating fraud.

33.210 Contracting officer's authority.

Except as provided in this section, contracting officers are authorized, within any specific limitations of their warrants, to decide or settle all claims arising under or relating to a contract subject to the Act. This authorization does not extend to—

(a) A claim or dispute for penalties or forfeitures prescribed by statute or regulation that another Federal agency is specifically authorized to administer, settle, or determine; or

(b) The settlement, compromise, payment or adjustment of any claim involving fraud.

[48 FR 42349, Sept. 19, 1983. Redesignated and amended at 50 FR 2270, Jan. 15, 1985; 51 FR 36972, Oct. 16, 1986]

33.211 Contracting officer's decision.

(a) When a claim by or against a contractor cannot be satisfied or settled by mutual agreement and a decision on the claim is necessary, the contracting officer shall—

(1) Review the facts pertinent to the claim;

(2) Secure assistance from legal and other advisors;

(3) Coordinate with the contract administration office or contracting office, as appropriate; and

(4) Prepare a written decision that shall include a—

(i) Description of the claim or dispute;

(ii) Reference to the pertinent contract terms;

(iii) Statement of the factual areas of agreement and disagreement;

(iv) Statement of the contracting officer's decision, with supporting rationale;

(v) Paragraph substantially as follows:

This is the final decision of the Contracting Officer. You may appeal this decision to the Board of Contract Appeals. If you decide to appeal, you must, within 90 days from the date you receive this decision, mail or otherwise furnish written notice to the Board of Contract Appeals and provide a copy to the Contracting Officer from whose decision the appeal is taken. The notice shall indicate that an appeal is intended, reference this decision, and identify the contract by number. Instead of appealing to the Board of Contract Appeals, you may bring an action directly in the U.S. Claims Court (except as provided in the Contract Disputes Act of 1978, 41 U.S.C. 603, regarding Maritime Contracts) within 12 months of the date you receive this decision. If you appeal to the Board of Contract Appeals, you may, solely at your election, proceed under the Board's small claims procedure for claims of $10,000 or less or its accelerated procedure for claims of $50,000 or less; and

(vi) Demand for payment prepared in accordance with 32.610(b) in all cases where the decision results in a finding that the contractor is indebted to the Government.

(b) The contracting officer shall furnish a copy of the decision to the contractor by certified mail, return receipt requested, or by any other method that provides evidence of receipt. This requirement shall apply to decisions on claims initiated by or against the contractor.

(c) The contracting officer shall issue the decision within the following statutory time limitations:

(1) For claims of $50,000 or less, 60 days after receiving a written request from the contractor that a decision be rendered within that period, or within a reasonable time after receipt of the claim if the contractor does not make such a request.

(2) For claims over $50,000, 60 days after receiving a certified claim; *provided, however,* that if a decision will not be issued within 60 days, the contracting officer shall notify the contractor, within that period, of the time within which a decision will be issued.

(d) The contracting officer shall issue a decision within a reasonable time, taking into account—

(1) The size and complexity of the claim;

(2) The adequacy of the contractor's supporting data; and

(3) Any other relevant factors.

(e) In the event of undue delay by the contracting officer in rendering a decision on a claim, the contractor may request the agency BCA to direct the contracting officer to issue a decision in a specified time period determined by the BCA.

(f) Any failure of the contracting officer to issue a decision within the required time periods will be deemed a decision by the contracting officer denying the claim and will authorize the contractor to file an appeal or suit on the claim.

(g) The amount determined payable under the decision, less any portion already paid, should be paid, if otherwise proper, without awaiting contractor action concerning appeal. Such payment shall be without prejudice to the rights of either party.

[48 FR 42349, Sept. 19, 1983. Redesignated at 50 FR 2270, Jan. 15, 1985, and amended at 54 FR 34755, Aug. 21, 1989]

33.212 Contracting officer's duties upon appeal.

To the extent permitted by any agency procedures controlling contacts with agency BCA personnel, the contracting officer shall provide data, documentation, information, and support as may be required by the agency BCA for use on a pending appeal from the contracting officer's decision.

33.213 Obligation to continue performance.

(a) In general, before passage of the Act, the obligation to continue performance applied only to claims arising under a contract. However, Section 6(b) of the Act authorizes agencies to require a contractor to continue contract performance in accordance with the contracting officer's decision pending final decision on a claim relating to the contract. In recognition of this fact, an alternate paragraph is provided for paragraph (h) of the clause at 52.233-1, Disputes. This paragraph shall be used only as authorized by agency procedures.

(b) In all contracts that include the clause at 52.233-1, Disputes, with its Alternate I, in the event of a dispute not arising under, but relating to, the contract, the contracting officer shall consider providing, through appropriate agency procedures, financing of the continued performance; *provided,* that the Government's interest is properly secured.

33.214 Contract clause.

The contracting officer shall insert the clause at 52.233-1, Disputes, in solicitations and contracts, unless the conditions in 33.203 apply. If it is determined under agency procedures that continued performance is necessary pending resolution of any claim arising under or relating to the contract, the contracting officer shall use the clause with its Alternate I.

[48 FR 42349, Sept. 19, 1983. Redesignated and amended at 50 FR 2270, Jan. 15, 1985]

SUBCHAPTER F—SPECIAL CATEGORIES OF CONTRACTING

PART 34—MAJOR SYSTEM ACQUISITION

Sec.

34.000 Scope of part.
34.001 Definition.
34.002 Policy.
34.003 Responsibilities.
34.004 Acquisition strategy.
34.005 General requirements.
34.005-1 Competition.
34.005-2 Mission-oriented solicitation.
34.005-3 Concept exploration contracts.
34.005-4 Demonstration contracts.
34.005-5 Full-scale development contracts.
34.005-6 Full production.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42351, Sept. 19, 1983, unless otherwise noted.

34.000 Scope of part.

This part describes acquisition policies and procedures for use in acquiring major systems consistent with OMB Circular No. A-109, Major System Acquisitions (A-109) (see 34.003).

34.001 Definition.

Effective competition, as used in this part, is a market condition which exists when two or more contractors, acting independently, actively contend for the Government's business in a manner which ensures that the Government will be offered the lowest cost or price alternative or best technical design meeting its minimum needs.

Major system means that combination of elements that will function together to produce the capabilities required to fulfill a mission need. The elements may include hardware, equipment, software or any combination thereof, but exclude construction or other improvements to real property. A system shall be considered a major system if—

(a) The Department of Defense is responsible for the system and the total expenditures for research, development, test, and evaluation for the system are estimated to be more than $75,000,000 (based on fiscal year 1980 constant dollars) or the eventual total expenditure for the acquisition exceeds $300,000,000 (based on fiscal year 1980 constant dollars);

(b) A civilian agency is responsible for the system and total expenditures for the system are estimated to exceed $750,000 (based on fiscal year 1980 constant dollars) or the dollar threshold for a *major system* established by the agency pursuant to Office of Management and Budget Circular A-109, entitled *Major Systems Acquisition*, whichever is greater; or

(c) The system is designated a *major system* by the head of the agency responsible for the system.

[50 FR 27562, July 3, 1985, as amended at 51 FR 52434, Dec. 23, 1985; 51 FR 27116, July 29, 1986]

34.002 Policy.

The policies of this part are designed to ensure that agencies acquire major systems in the most effective, economical, and timely manner. Agencies acquiring major systems shall—

(a) Promote innovation and full and open competition as required by part 6 in the development of major system concepts by (1) expressing agency needs and major system acquisition program objectives in terms of the agency's mission and not in terms of specified systems to satisfy needs, and (2) focusing agency resources and special management attention on activities conducted in the initial stage of major programs; and

(b) Sustain effective competition between alternative system concepts and sources for as long as it is beneficial.

[48 FR 42351, Sept. 19, 1983, as amended at 50 FR 52434, Dec. 23, 1985]

34.003 Responsibilities.

(a) As required by A-109, the agency head or designee shall establish written procedures for its implementation.

(b) The agency procedures shall identify the key decision points of each major system acquisition and the agency official(s) for making those decisions.

(c) Systems acquisitions normally designated as major are those programs that, as determined by the agency head, (1) are directed at and critical to fulfilling an agency mission need, (2) entail allocating relatively large resources for the particular agency, and (3) warrant special management attention, including specific agency-head decisions. The agency procedures may establish additional criteria, as specified in A-109, for designating major programs system acquisitions.

34.004 Acquisition strategy.

The program manager, as specified in agency procedures, shall develop an acquisition strategy tailored to the particular major system acquisition program. This strategy is the program manager's overall plan for satisfying the mission need in the most effective, economical, and timely manner. The strategy shall be in writing and prepared in accordance with the requirements of subpart 7.1, except where inconsistent with this part, and shall qualify as the acquisition plan for the major system acquisition, as required by that subpart.

34.005 General requirements.

34.005-1 Competition.

(a) The program manager shall, throughout the acquisition process, promote full and open competition and sustain effective competition between alternative major system concepts and sources, as long as it is economically beneficial and practicable to do so. Notice of the proposed acquisition shall be given the broadest and most effective circulation practicable throughout the business, academic, and Government communities. Foreign contractors, technology, and equipment may be considered when it is feasible and permissible to do so.

(b) The contracting officer should time solicitation issuance and contract award to maintain continuity of concept development during the transition from withdrawing concept proposer to new contractor.

[48 FR 42351, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

34.005-2 Mission-oriented solicitation.

(a) Before issuing the solicitation, whenever practicable and consistent with agency procedures, the contracting officer should take the actions outlined in subparagraphs (1) and (2):

(1) Advance notification of the acquisition should be given the widest practicable dissemination, including publication in the Commerce Business Daily (see subpart 5.2) and should be sent to as wide a selection of potential sources as practicable, including smaller and newer firms, Government laboratories, federally funded research and development centers, educational institutions and other not-for-profit organizations, and, if it would be beneficial and is not prohibited, foreign sources.

(2) If appropriate, hold a presolicitation conference (see 15.404) and/or send copies of the proposed solicitation to all prospective offerors for their comments. After evaluation of these comments, the solicitation should be revised, if appropriate.

(b) The contracting officer shall send the final solicitation to all prospective offerors. It shall—

(1) Describe the nature of the need in terms of mission capabilities required, without reference to any specific systems to satisfy the need;

(2) Indicate, and explain when appropriate, the schedule, capability, and cost objectives and any known constraints in the acquisition;

(3) Provide, or indicate how access can be obtained to, all Government data related to the acquisition;

(4) Include selection requirements consistent with the acquisition strategy; and

(5) Clearly state that each offeror is free to propose its own technical approach, main design features, subsystems, and alternatives to schedule, cost, and capability goals.

(c) To the extent practicable, the solicitation shall not reference or mandate Government specifications or standards, unless the agency is mandating a subsystem or other component as approved under agency procedure.

48 FR 42351, Sept. 19, 1983, as amended at 0 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 3, 1985]

4.005-3 Concept exploration contracts.

Whenever practicable, contracts to e performed during the concept exploration phase shall be for relatively hort periods, at planned dollar levels. hese contracts are to refine the proosed concept and to reduce the conept's technical uncertainties. The cope of work for this phase of the rogram shall be consistent with the Government's planned budget for the hase. Follow-on contracts for such asks in the exploration phase shall be warded as long as the concept aproach remains promising, the conractor's progress is acceptable, and it s economically practicable to do so.

4.005-4 Demonstration contracts.

Whenever practicable, contracts for he demonstration phase should proide for contractors to submit, by the nd of the phase, priced proposals, toally funded by the Government, for ull-scale development. The contracting officer should provide contractors with operational test conditions, perormance criteria, life cycle cost facors, and any other selection criteria ecessary for the contractors to preare their proposals.

4.005-5 Full-scale development contracts.

Whenever practicable, the full-scale evelopment contracts should provide or the contractors to submit priced roposals for production that are ased on the latest quantity, schedule, nd logistics requirements and other onsiderations that will be used in aking the production decision.

4.005-6 Full production.

Contracts for full production of sucessfully tested major systems selected rom the full-scale development phase ay be awarded if the agency head (a) eaffirms the mission need and proram objectives and (b) grants approvl to proceed with production.

SOURCE: 48 FR 42352, Sept. 19, 1983, unless otherwise noted.

35.000 Scope of part.

(a) This part prescribes policies and procedures of special application to research and development (R&D) contracting.

(b) R&D integral to acquisition of major systems is covered in part 34. Independent research and development (IR&D) is covered at 31.205-18.

(c) This part also implements OFPP Policy Letter 84-1, Federally Funded Research and Development enters (FFRDC's), by prescribing the procedures for establishment, use, review, and termination of FFRDC's.

[48 FR 42352, Sept. 19, 1983, as amended at 55 FR 3884, Feb. 5, 1990]

35.001 Definitions.

Applied research means the effort that (a) normally follows basic research, but may not be severable from the related basic research; (b) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques; and (c) attempts to advance the state of the art. When being used by contractors in cost principle applications, this term does not include efforts whose principal aim is the design, development, or testing of specific items or services to be considered for sale; these efforts are within the definition of *development*, given below.

Basic research means research directed toward increasing knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application of that knowledge.

Broad agency announcement means a general announcement of an agency's research interest including criteria for selecting proposals and soliciting the participation of all offerors capable of satisfying the Government's needs (see 6.102(d)(2)).

Cost sharing, as used in this part, means an explicit arrangement under which the contractor bears some of the burden of reasonable, allocable, and allowable contract cost.

Development, as used in this part, means the systematic use of scientific and technical knowledge in the design, development, testing, or evaluation of a potential new product or service (or of an improvement in an existing product or service) to meet specific performance requirements or objectives. It includes the functions of design engineering, prototyping, and engineering testing; it excludes subcontracted technical effort that is for the sole purpose of developing an additional source for an existing product.

Federally Funded Research and Development Centers (FFRDC's), means activities that are sponsored under a broad charter by a Government agency (or agencies) for the purpose of performing, analyzing, integrating, supporting, and/or managing basic or applied research and/or development, and which receive 70 percent or more of their financial support from the Government; a long-term relationship is contemplated; most or all of the facilities are owned or funded by the Government; and the FFRDC has access to Government and supplier data, employees, and facilities beyond that which is common in a normal contractual relationship. The National Science Foundation maintains the master list of FFRDC's.

Recoupment, as used in this part, means the recovery by the Government of Government-funded nonrecurring costs from contractors that sell, lease, or license the resulting products or technology to buyers other than the Federal Government.

[48 FR 42352, Sept. 19, 1983, as amended at 53 FR 27467, July 20, 1988; 55 FR 3884, Feb. 5, 1990]

35.002 General.

The primary purpose of contracted R&D programs is to advance scientific and technical knowledge and apply that knowledge to the extent necessary to achieve agency and national goals. Unlike contracts for supplies and services, most R&D contracts are directed toward objectives for which the work or methods cannot be precisely described in advance. It is difficult to judge the probabilities of success or required effort for technical approaches, some of which offer little or no early assurance of full success. The contracting process shall be used to encourage the best sources from the scientific and industrial community to become involved in the program and must provide an environment in which the work can be pursued with reasonable flexibility and minimum administrative burden.

35.003 Policy.

(a) *Use of contracts*. Contracts shall be used only when the principal purpose is the acquisition of supplies or services for the direct benefit or use of the Federal Government. Grants or cooperative agreements should be used when the principal purpose of the transaction is to stimulate or support research and development for another public purpose.

(b) *Cost sharing.* Cost sharing policies (which are not otherwise required by law) under Government contracts shall be in accordance with 16.303, 42.707(a) and agency procedures.

(c) *Recoupment.* Recoupment not otherwise required by law shall be in accordance with agency procedures.

35.004 Publicizing requirements and expanding research and development sources.

(a) In order to obtain a broad base of the best contractor sources from the the scientific and industrial community, agencies shall, in addition to following the requirements of part 5, continually search for and develop information on sources (including small business concerns) competent to perform R&D work. These efforts should include—

(1) Early identification and publication of agency R&D needs and requirements, including publication in the *Commerce Business Daily* (see part 5);

(2) Cooperation among technical personnel, contracting officers, and Government small business personnel early in the acquisition process; and

(3) Providing agency R&D points of contact for potential sources.

(b) See subpart 9.7 for information regarding R&D pools and subpart 9.6 for teaming arrangements.

35.005 Work statement.

(a) A clear and complete work statement concerning the area of exploration (for basic research) or the end objectives (for development and applied research) is essential. The work statement should allow contractors freedom to exercise innovation and creativity. Work statements must be individually tailored by technical and contracting personnel to attain the deired degree of flexibility for contractor creativity and the objectives of the R&D.

(b) In basic research the emphasis is on achieving specified objectives and knowledge rather than on achieving predetermined end results prescribed in a statement of specific performance haracteristics. This emphasis applies particularly during the early or conceptual phases of the R&D effort.

(c) In reviewing work statements, contracting officers should ensure that language suitable for a level-of-effort approach, which requires the furnishing of technical effort and a report on the results, is not intermingled with language suitable for a task-completion approach, which often requires the development of a tangible end item designed to achieve specific performance characteristics. The wording of the work statement should also be consistent with the type and form of contract to be negotiated (see 16.207 and 16.306(d)). For example, the work statement for a cost-reimbursement contract promising the contractor's best efforts for a fixed term would be phrased differently than a work statement for a cost-reimbursement completion contract promising the contractor's best efforts for a defined task. Differences between work statements for fixed-price contracts and cost-reimbursement contracts should be even clearer.

(d) In preparing work statements, technical and contracting personnel shall consider and, as appropriate, provide in the solicitation—

(1) A statement of the area of exploration, tasks to be performed, and objectives of the research or development effort;

(2) Background information helpful to a clear understanding of the objective or requirement (e.g., any known phenomena, techniques, methodology, or results of related work);

(3) Information on factors such as personnel, environment, and interfaces that may constrain the results of the effort;

(4) Reporting requirements and information on any additional items that the contractor is required to furnish (at specified intervals) as the work progresses;

(5) The type and form of contract contemplated by the Government and, for level-of-effort work statements, an estimate of applicable professional and technical effort involved; and

(6) Any other considerations peculiar to the work to be performed; for example, any design-to-cost requirements.

35.006 Contracting methods and contract type.

(a) In R&D acquisitions, the precise specifications necessary for sealed bidding are generally not available, thus making negotiation necessary. However, the use of negotiation in R&D contracting does not change the obligation to comply with part 6.

(b) Selecting the appropriate contract type is the responsibility of the contracting officer. However, because of the importance of technical considerations in R&D, the choice of contract type should be made after obtaining the recommendations of technical personnel. Although the Government ordinarily prefers fixed-price arrangements in contracting, this preference applies in R&D contracting only to the extent that goals, objectives, specifications, and cost estimates are sufficient to permit such a preference. The precision with which the goals, performance objectives, and specifications for the work can be defined will largely determine the type of contract employed. The contract type must be selected to fit the work required.

(c) Because the absence of precise specifications and difficulties in estimating costs with accuracy (resulting in a lack of confidence in cost estimates) normally precludes using fixed-price contracting for R&D, the use of cost-reimbursement contracts is usually appropriate (see subpart 16.3). The nature of development work often requires a cost-reimbursement completion arrangement (see 16.306(d)). When the use of cost and performance incentives is desirable and practicable, fixed-price incentive and cost-plus-incentive-fee contracts should be considered in that order of preference.

(d) When levels of effort *can* be specified in advance, a short-duration fixed-price contract *may* be useful for developing system design concepts, resolving potential problems, and reducing Government risks. Fixed-price contracting may also be used in minor projects when the objectives of the research are well defined and there is sufficient confidence in the cost estimate for price negotiations. (See 16.207.)

(e) Projects having production requirements as a follow-on to R&D efforts normally should progress from cost-reimbursement contracts to fixed-price contracts as designs become more firmly established, risks are reduced, and production tooling, equipment, and processes are developed and proven. When possible, a final commitment to undertake specific product development and testing should be avoided until (1) preliminary exploration and studies have indicated a high degree of probability that development is feasible and (2) the Government has determined both its minimum requirements and desired objectives for product performance and schedule completion.

[48 FR 42352, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

35.007 Solicitations.

(a) The submission and subsequent evaluation of an inordinate number of R&D proposals from sources lacking appropriate qualifications is costly and time-consuming to both industry and the Government. Therefore, contracting officers should initially distribute solicitations only to sources technically qualified to perform research or development in the specific field of science or technology involved. Cognizant technical personnel should recommend potential sources that appear qualified, as a result of—

(1) Present and past performance of similar work;

(2) Professional stature and reputation;

(3) Relative position in a particular field of endeavor;

(4) Ability to acquire and retain the professional and technical capability, including facilities, required to perform the work; and

(5) Other relevant factors.

(b) Proposals generally shall be solicited from technically qualified sources, including sources that become known as a result of synopses or other means of publicizing requirements. If it is not practicable to initially solicit all apparently qualified sources, only a reasonable number need be solicited. In the interest of competition, contracting officers shall furnish copies of the solicitation to other apparently qualified sources.

(c) Solicitations shall require offerors to describe their technical and management approach, identify technical uncertainties, and make specific proposals for the resolution of any uncertainties. The solicitation should require offerors to include in the proposal any planned subcontracting of scientific or technical work (see 35.009).

(d) Solicitations may require that proposals be organized so that the technical portions can be efficiently evaluated by technical personnel (see 15.406-5(b)). Solicitation and evaluation of proposals should be planned to minimize offerors' and Government expense.

(e) R&D solicitations should contain evaluation factors to be used to determine the most technically competent (see 15.605(e)), such as—

(1) The offeror's understanding of the scope of the work;

(2) The approach proposed to accomplish the scientific and technical objectives of the contract or the merit of the ideas or concepts proposed;

(3) The availability and competence of experienced engineering, scientific, or other technical personnel;

(4) The offeror's experience;

(5) Pertinent novel ideas in the specific branch of science and technology involved; and

(6) The availability, from any source, of necessary research, test, laboratory, or shop facilities.

(f) In addition to evaluation factors for technical competence, the contracting officer shall consider, as appropriate, management capability (including cost management techniques), experience and past performance, subcontracting practices, and any other significant evaluation criteria (e.g., unrealistically low cost estimates in proposals for cost-reimbursement or fixed-price incentive contracts). Although cost or price is not normally the controlling factor in selecting a contractor to perform R&D, it should not be disregarded in arriving at a selection that best satisfies the Government's requirement at a fair and reasonable cost.

(g) The contracting officer should ensure that each prospective offeror fully understands the details of the work, especially the Government interpretation of the work statement. If the effort is complex, the contracting officer should provide prospective offerors an opportunity to comment on the details of the requirements as contained in the work statement, the contract Schedule, and any related specifications. This may be done through the use of preproposal conferences (see 15.409).

(h) If it is appropriate to do so, solicitations should permit offerors to propose an alternative contract type (see 16.103).

(i) In circumstances when a concern has a new idea or product to discuss that incorporates the results of independent R&D work funded by the concern in the private sector and is of interest to the Government, there should be no hesitancy to discuss it; however, the concern should be warned that the Government will not be obligated by the discussion. Under such circumstances, it may be appropriate to negotiate directly with the concern without competition. Also see subpart 15.5 concerning unsolicited proposals.

(j) The Government may issue an exploratory request to determine the existence of ideas or prior work in a specific field of research. Any such request shall clearly state that it does not impose any obligation on the Government or signify a firm intention to enter into a contract.

35.008 Evaluation for award.

(a) Generally, an R&D contract should be awarded to that organization, including any educational institution, that proposes the best ideas or concepts and has the highest competence in the specific field of science or technology involved. However, an award should not be made to obtain capabilities that exceed those needed for successful performance of the work.

(b) In R&D contracting, precise specifications are ordinarily not available. The contracting officer should therefore take special care in reviewing the solicitation evaluation factors to assure that they are properly presented and consistent with the solicitation.

(c) When a small business concern would otherwise be selected for award but is considered not responsible, the SBA Certificate of Competency procedure shall be followed (see subpart 19.6).

(d) The contracting officer should use the procedures in subpart 15.10 to notify and debrief offerors.

(e) It is important to evaluate a proposed contractor's cost or price estimate, not only to determine whether the estimate is reasonable but also to provide valuable insight into the offeror's understanding of the project, perception of risks, and ability to organize and perform the work. Cost or price analysis, as appropriate (see 15.805), is a useful tool.

35.009 Subcontracting research and development effort.

Since the selection of R&D contractors is substantially based on the best scientific and technological sources, it is important that the contractor not subcontract technical or scientific work without the contracting officer's advance knowledge. During the negotiation of a cost-reimbursement R&D contract, the contracting officer shall obtain complete information concerning the contractor's plans for subcontracting any portion of the experimental, research, or development effort (see also 35.007(c)). Also when negotiating a fixed-price contract, the contracting officer should evaluate this information and may obtain an agreement that protects the Government's interests. The clause at 52.244-2, Subcontracts Under Cost-Reimbursement and Letter Contracts, prescribed for cost-reimbursement contracts at 44.204(c), requires the contracting officer's prior approval for the placement of a substantial cost-reimbursement subcontract that has experimental, developmental, or research work as one of its purposes.

35.010 Scientific and technical reports.

(a) R&D contracts shall require contractors to furnish scientific and technical reports, consistent with the objectives of the effort involved, as a permanent record of the work accomplished under the contract.

(b) Agencies should make R&D contract results available to other Government activities and the private sector. Contracting officers shall follow agency regulations regarding such matters as national security, protection of data, and new technology dissemination policy. The contract should require that contractors send copies of scientific and technical reports resulting from DoD contracts to the Defense Technical Information Center (DTIC), Attn: DTIC-FDAC, Cameron Station, Alexandria, VA 22304-6145. DTIC provides a central service for the interchange of scientific and technical information of value to the Department of Defense and its contractors. Reports resulting from non-DoD contracts should be sent to the National Technical Information Service (NTIS), 5235 Port Royal Road, Springfield, VA 22164. When agencies require that completed reports be covered by a report documentation page, Standard Form (SF) 298, Report Documentation Page, the contractor should submit a copy with the report.

[48 FR 42352, Sept. 19, 1983, as amended at 55 FR 3884, Feb. 5, 1990]

35.011 Data.

(a) R&D contracts shall specify the technical data to be delivered under the contract, since the data clauses required by part 27 do not require the *delivery* of any such data.

(b) In planning a developmental program when subsequent production contracts are contemplated, consideration should be given to the need and time required to obtain a technical package (plans, drawings, specifications, and other descriptive information) that can be used to achieve competition in production contracts. In some situations, the developmental contractor may be in the best position to produce such a technical package.

35.012 Patent rights.

For a discussion of patent rights, see agency regulations and part 27.

35.013 Insurance.

Nonprofit, educational, or State institutions performing cost-reimbursement contracts often do not carry insurance. They may claim immunity from liability for torts, or, as State institutions, they may be prohibited by State law from expending funds for insurance. When this is the case, see 28.311 for appropriate clause coverage.

35.014 Government property and title.

(a) The requirements in part 45 for establishing and maintaining control over Government property apply to all R&D contracts.

(b) In implementing 31 U.S.C. 6306, and unless an agency head provides otherwise, the policies in subparagraphs (1) through (4) following, regarding title to equipment (and other tangible personal property) purchased by the contractor using Government funds provided for the conduct of basic or applied scientific research, apply to contracts with nonprofit institutions of higher education and nonprofit organizations whose primary purpose is the conduct of scientific research:

(1) If the contractor obtains the contracting officer's advance approval, the contractor shall automatically acquire and retain title to any item of equipment costing less than $5,000 (or a lesser amount established by agency regulations) acquired on a reimbursable basis.

(2) If purchased equipment costs $5,000 (or a lesser amount established by agency regulations) or more, and as the parties specifically agree in the contract, title may—

(i) Vest in the contractor upon acquisition without further obligation to the Government;

(ii) Vest in the contractor, subject to the Government's right to direct transfer of the title to the Government or to a third party within 12 months after the contract's completion or termination (transfer of title to the Government or third party shall not be the basis for any claim by the contractor); or

(iii) Vest in the Government, if the contracting officer determines that vesting of title in the contractor would not further the objectives of the agency's research program.

(3) If title to equipment is vested in the contractor, depreciation, amortization, or use charges are not allowable with respect to that equipment under any existing or future Government contract or subcontract.

(4) If the contract is performed at a Government installation and there is a continuing need for the equipment following contract completion, title need not be transferred to the contractor.

(c) The absence of an agreement covering title to equipment acquired by the contractor with Government funds that cost $1,000 or more does not limit an agency's right to act to vest title in a contractor as authorized by 31 U.S.C. 6306.

(d)(1) Vesting title under paragraph (b) above is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested, the contractor must agree that—

> "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment)."

(2) By signing the contract, the contractor accepts and agrees to comply with this requirement.

(e) The policies in subparagraphs (b)(1) through (b)(3) and paragraph (d) above are implemented in the Government property clauses (Alternate II of the clause at 52.245-2, Government Property (Fixed-Price); Alternate I of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts); Alternate I of the clause at 52.245-11, Government Property (Facilities Use); and the clause at 52.245-15, Transfer of Title to the Facilities), which are prescribed in part 45 (at 45.106 for fixed-price and cost-reimbursement contracts and at 45.302-6 and 45.302-7 for facilities contracts).

[48 FR 42352, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

35.015 Contracts for research with educational institutions and nonprofit organizations.

(a) *General.* (1) When the R&D work is not defined precisely and the contract states only a period during which work is conducted (that is, a specific time for achievement of results is not required), research contracts with educational institutions and nonprofit organizations shall—

(i) State that the contractor bears primary responsibility for the research;

(ii) Give (A) the name of the principal investigator (or project leader), if the decision to contract is based on that particular individual's research effort and management capabilities, and (B) the contractor's estimate of the amount of time that individual will devote to the work;

(iii) Provide that the named individual shall be closely involved and continuously responsible for the conduct of the work;

(iv) Provide that the contractor must obtain the contracting officer's approval to change the principal investigator (or project leader);

(v) Require that the contractor advise the contracting officer if the principal investigator (or project leader) will, or plans to, devote substantially less effort to the work than anticipated; and

(vi) Require that the contractor obtain the contracting officer's approval to change the phenomenon under study, the stated objectives of the research, or the methodology.

(2) If a research contract *does* provide precise objectives or a specific date for achievement of results, the contracting officer may include in the contract the requirements set forth in subparagraph (1) above, if it is necessary for the Government to exercise oversight and approval over the avenues of approach, methods, or schedule of work.

(b) *Basic agreements.* (1) A basic agreement should be negotiated if the number of contracts warrants such an agreement (see 16.702). Basic agreements should be reviewed and updated at least annually.

(2) To promote uniformity and consistency in dealing with educational institutions and nonprofit organizations, agencies are encouraged to use basic agreements of other agencies.

(3) Each year as of September 30, each agency shall furnish to the FAR Secretariat a list of its basic agreements pertaining to R&D. The FAR Secretariat shall be responsible for preparing and publishing a list of all these agreements.

35.016 Broad agency announcement.

(a) *General.* This paragraph prescribes procedures for the use of the broad agency announcement (BAA) with Peer or Scientific Review (see 6.102(d)(2)) for the acquisition of basic and applied research and that part of development not related to the development of a specific system or hardware procurement. BAA's may be used by agencies to fulfill their requirements for scientific study and experimentation directed toward advancing the state-of-the-art or increasing knowledge or understanding rather than focusing on a specific system or hardware solution. The BAA technique shall only be used when meaningful proposals with varying technical/scientific approaches can be reasonably anticipated.

(b) The BAA, together with any supporting documents, shall—

(1) Describe the agency's research interest, either for an individual program requirement or for broadly defined areas of interest covering the full range of the agency's requirements;

(2) Describe the criteria for selecting the proposals, their relative importance and the method of evaluation;

(3) Specify the period of time during which proposals submitted in response to the BAA will be accepted; and

(4) Contain instructions for the preparation and submission of proposals.

(c) The availability of the BAA shall be published in the Commerce Business Daily and, if authorized pursuant to subpart 5.5, may also be published in noted scientific, technical, or engineering periodicals. The notice shall be published no less frequently than annually.

(d) Proposals received as a result of the BAA shall be evaluated in accordance with evaluation criteria specified therein through a peer or scientific review process. Written evaluation reports on individual proposals will be necessary but proposals need not be evaluated against each other since they are not submitted in accordance with a common work statement.

(e) The primary basis for selecting proposals for acceptance shall be technical, importance to agency programs, and fund availability. Cost realism and reasonableness shall also be considered to the extent appropriate.

(f) Synopsis under subpart 5.2, Synopses of Proposed Contract Actions, of individual contract actions based upon proposals received under the BAA is not required. The notice published pursuant to subparagraph (c), of this section, fulfills the synopsis requirement.

[53 FR 27467, July 20, 1988]

35.017 Federally Funded Research and Development Centers.

(a) *Policy.*

(1) This section sets forth Federal policy regarding the establishment, use, review, and termination of Federally Funded Research and Development Centers (FFRDC's) and related sponsoring agreements.

(2) An FFRDC meets some special long-term research or development need which cannot be met as effectively by existing in-house or contractor resources. FFRDC's enable agencies to use private sector resources to accomplish tasks that are integral to the mission and operation of the sponsoring agency. An FFRDC, in order to discharge its responsibilities to the sponsoring agency, has access, beyond that which is common to the normal contractual relationship, to Government and supplier data, including sensitive and proprietary data, and to employees and facilities. The FFRDC is required to conduct its business in a manner befitting its special relationship with the Government, to operate in the public interest with objectivity and independence, to be free from organizational conflicts of interest, and to have full disclosure of its affairs to the sponsoring agency. It is not the Government's intent that an FFRDC use its privileged information or access to facilities to compete with the private sector. However, an FFRDC may perform work for other than the sponsoring agency under the Economy Act, or other applicable legislation, when the work is not otherwise available from the private sector.

(3) FFRDC's are operated, managed, and/or administered by either a university or consortium of universities, other not-for-profit or nonprofit organization, or an industrial firm, as an autonomous organization or as an identifiable separate operating unit of a parent organization.

(4) Long-term relationships between the Government and FFRDC's are encouraged in order to provide the continuity that will attract high-quality personnel to the FFRDC. This relationship should be of a type to encourage the FFRDC to maintain currency in its field(s) of expertise, maintain its objectivity and independence, preserve its familiarity with the needs of its sponsor(s), and provide a quick response capability.

(b) *Definitions.*

Nonsponsor, as used in this section, means any other organization, in or outside of the Federal Government, which funds specific work to be performed by the FFRDC and is not a party to the sponsoring agreement.

Primary sponsor, as used in this section, means the lead agency responsible for managing, administering, or monitoring overall use of the FFRDC under a multiple sponsorship agreement.

Special competency, as used in this section, means a special or unique capability, including qualitative aspects, developed incidental to the primary functions of the FFRDC to meet some special need.

Sponsor means the executive agency which manages, administers, monitors, funds, and is responsible for the overall use of an FFRDC. Multiple agency sponsorship is possible as long a one agency agrees to act as the "primary sponsor." In the event of multiple sponsors, "sponsor" refers to the primary sponsor.

[55 FR 3885, Feb. 5, 1990]

35.017-1 Sponsoring agreements.

(a) In order to facilitate a long-term relationship between the Government and an FFRDC, establish the FFRDC's mission, and ensure a periodic reevaluation of the FFRDC, a written agreement of sponsorship between the Government and the FFRDC shall be prepared when the FFRDC is established. The sponsoring agreement may take various forms; it may be included in a contract between the Government and the FFRDC, or in another legal instrument under which an FFRDC accomplishes effort, or it may be in a separate written agreement. Notwithstanding its form, the sponsoring agreement shall be clearly designated as such by the sponsor.

(b) While the specific content of any sponsoring agreement will vary depending on the situation, the agreement shall contain, as a minimum, the requirements of paragraph (c) of this subsection. The requirements for, and the contents of, sponsoring agreements may be as further specified in sponsoring agencies' policies and procedures.

(c) As a minimum, the following requirements must be addressed in either a sponsoring agreement or sponsoring agencies' policies and procedures:

(1) A statement of the purpose and mission of the FFRDC.

(2) Provisions for the orderly termination or nonrenewal of the agreement, disposal of assets, and settlement of liabilities. The responsibility for capitalization of an FFRDC must be defined in such a manner that ownership of assets may be readily and equitably determined upon termination of the FFRDC's relationship with its sponsor(s).

(3) A provision for the identification of retained earnings (reserves) and the development of a plan for their use and disposition.

(4) A prohibition against the FFRDC competing with any non-FFRDC concern in response to a Federal agency request for proposal for other than the operation of an FFRDC. This prohibition is not required to be applied to any parent organization or other subsidiary of the parent organization in its non-FFRDC operations. Requests for information, qualifications or capabilities can be answered unless otherwise restricted by the sponsor.

(5) A delineation of whether or not the FFRDC may accept work from other than the sponsor(s). If nonsponsor work can be accepted, a delineation of the procedures to be followed, along with any limitations as to the nonsponsors form which work can be accepted (other Federal agencies, State or local governments, nonprofit or profit organizations, etc.).

(d) The sponsoring agreement or sponsoring agencies' policies and procedures may also contain, as appropriate, other provisions, such as identification of—(1) Any cost elements which will require advance agreement if cost-type contracts are used; and (2) Considerations which will affect negotiation of fees where payment of fees is determined by the sponsor(s) to be appropriate.

(e) The term of the agreement will not exceed 5 years, but can be renewed, as a result of periodic review, in increments not to exceed 5 years.

[55 FR 3885, Feb. 5, 1990]

35.017-2 Establishing or changing an FFRDC.

To establish an FFRDC, or change its basic purpose and mission, the sponsor shall ensure the following:

(a) Existing alternative sources for satisfying agency requirements cannot effectively meet the special research or development needs.

(b) The notices required for publication (see 5.205(b)) are placed as required.

(c) There is sufficient Government expertise available to adequately and objectively evaluate the work to be performed by the FFRDC.

(d) The Executive Office of the President, Office of Science and Technology Policy, Washington, DC 20506, is notified.

(e) Controls are established to ensure that the costs of the services being provided to the Government are reasonable.

(f) The basic purpose and mission of the FFRDC is stated clearly enough to enable differentiation between work which should be performed by the FFRDC and that which should be performed by non-FFRDC's.

(g) A reasonable continuity in the level of support to the FFRDC is maintained, consistent with the agency's need for the FFRDC and the terms of the sponsoring agreement.

(h) The FFRDC is operated, managed, or administered by an autonomous organization or as an identifiably separate operating unit of a parent organization, and is required to operate in the public interest, free from organizational conflict of interest, and to disclose its affairs (as an FFRDC) to the primary sponsor.

(i) OMB Circular A-120 is complied with when applicable and quantity production or manufacturing is not performed unless authorized by legislation.

(j) Approval is received from the head of the sponsoring agency.

[55 FR 3885, Feb. 5, 1990]

35.017-3 Using an FFRDC.

(a) All work placed with the FFRDC must be within the purpose, mission, general scope of effort, or special competency of the FFRDC.

(b) Where the use of the FFRDC by a nonsponsor is permitted by the sponsor, the sponsor shall be responsible for compliance with paragraph (a) of this subsection. The nonsponsoring agency is responsible for making the determination required by 17.504 and providing the documentation required by 17.504(e). When permitted by the sponsor, a Federal agency may contract directly with the FFRDC in which case that Federal agency is responsible for compliance with part 6.

[55 FR 3886, Feb. 5, 1990]

35.017-4 Reviewing FFRDC's.

(a) The sponsor, prior to extending the contract or agreement with an FFRDC, shall conduct a comprehensive review of the use and need for the FFRDC. The review will be coordinated with any co-sponsors and may be performed in conjunction with the budget process. If the sponsor determines that its sponsorship is no longer appropriate, it shall apprise other agencies which use the FFRDC of the determination and afford them an opportunity to assume sponsorship.

(b) Approval to continue or terminate the sponsorship shall rest with the head of the sponsoring agency. This determination shall be based upon the results of the review conducted in accordance with paragraph (c) of this subsection.

(c) An FFRDC review should include the following:

(1) An examination of the sponsor's special technical needs and mission requirements that are performed by the FFRDC to determine if and at what level they continue to exist.

(2) Consideration of alternative sources to meet the sponsor's needs.

(3) An assessment of the efficiency and effectiveness of the FFRDC in meeting the sponsor's needs, including the FFRDC's ability to maintain its objectivity, independence, quick response capability, currency in its field(s) of expertise, and familiarity with the needs of its sponsor.

(4) An assessment of the adequacy of the FFRDC management in ensuring a cost-effective operation.

(5) A determination that the criteria for establishing the FFRDC continue to be satisfied and that the sponsoring agreement is in compliance with 35.017-1.

[55 FR 3886, Feb. 5, 1990]

35.017-5 Terminating an FFRDC.

When a sponsor's need for the FFRDC no longer exists, the sponsorship may be transferred to one or more Government agencies, if appropriately justified. If the FFRDC is not transferred to another Government agency, it shall be phased out.

[55 FR 3886, Feb. 5, 1990]

35.017-6 Master list of FFRDC's.

The National Science Foundation (NSF) maintains a master Government list of FFRDC's. Primary sponsors will provide information on each FFRDC, including sponsoring agreements, mission statements, funding data, and type of R&D being performed, to the NSF upon its request for such information.

[55 FR 3886, Feb. 5, 1990]

35.017-7 Limitation on the creation of new FFRDC's.

Pursuant to 10 U.S.C. 2367, the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Secretary of Transportation, and the Administrator of the National Aeronautics and Space Administration may not obligate or expend amounts appropriated to the Department of Defense for purposes of operating an FFRDC that was not in existence before June 2, 1986, until (a) the head of the agency submits to Congress a report with respect to such center that describes the purpose, mission, and general scope of effort of the center; and (b) a period of 60 days, beginning on the date such report is received by Congress, has elapsed.

[55 FR 3886, Feb. 5, 1990]

PART 36—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

Sec.

36.000 Scope of part.

Subpart 36.1—General

36.101 Applicability.
36.102 Definitions.
36.103 Methods of contracting.

Subpart 36.2—Special Aspects of Contracting for Construction

36.201 Evaluation of contractor performance.
36.202 Specifications.
36.203 Government estimate of construction costs.
36.204 Disclosure of the magnitude of construction projects.
36.205 Statutory cost limitations.
36.206 Liquidated damages.
36.207 Pricing fixed-price construction contracts.
36.208 Concurrent performance of firm-fixed-price and other types of construction contracts.
36.209 Construction contracts with architect-engineer firms.
36.210 Inspection of site and examination of data.
36.211 Distribution of advance notices and solicitations.

Sec.

Subpart 36.3—Special Aspects of Sealed Bidding in Construction Contracting

36.301 General.
36.302 Presolicitation notices.
36.303 Invitations for bids.
36.304 Notice of award.
36.305 Preconstruction conference.

Subpart 36.4—Special Procedures for Negotiation of Construction Contracts

36.401 [Reserved]
36.402 Price negotiation.
36.403 Cost-reimbursement contracts.

Subpart 36.5—Contract Clauses

36.500 Scope of subpart.
36.501 Performance of work by the contractor.
36.502 Differing site conditions.
36.503 Site investigation and conditions affecting the work.
36.504 Physical data.
36.505 Material and workmanship.
36.506 Superintendence by the contractor.
36.507 Permits and responsibilities.
36.508 Other contracts.
36.509 Protection of existing vegetation, structures, equipment, utilities, and improvements.
36.510 Operations and storage areas.
36.511 Use and possession prior to completion.
36.512 Cleaning up.
36.513 Accident prevention.
36.514 Availability and use of utility services.
36.515 Schedules for construction contracts.
36.516 Quantity surveys.
36.517 Layout of work.
36.518 Work oversight in cost-reimbursement construction contracts.
36.519 Organization and direction of the work.
36.520 [Reserved]
36.521 Specifications and drawings for construction.

Subpart 36.6—Architect-Engineer Services

36.600 Scope of subpart.
36.601 Policy.
36.602 Selection of firms for architect-engineer contracts.
36.602-1 Selection criteria.
36.602-2 Evaluation boards.
36.602-3 Evaluation board functions.
36.602-4 Selection authority.
36.602-5 Short selection processes for contracts not to exceed the small purchase limitation.
36.603 Collecting data on and appraising firms' qualifications.

Sec.
36.604 Performance evaluation.
36.605 Government cost estimate for architect-engineer work.
36.606 Negotiations.
36.607 Release of information on firm selection.
36.608 Liability for Government costs resulting from design errors or deficiencies.
36.609 Contract clauses.
36.609-1 Design within funding limitations.
36.609-2 Redesign responsibility for design errors or deficiencies.
36.609-3 Work oversight in architect-engineer contracts.
36.609-4 Requirements for registration of designers.

Subpart 36.7—Standard and Optional Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements.

36.700 Scope of subpart.
36.701 Standard and optional forms for use in contracting for construction or dismantling, demolition, or removal of improvements.
36.702 Forms for use in contracting for architect-engineer services.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42356, Sept. 19, 1983, unless otherwise noted.

36.000 Scope of part.

This part prescribes policies and procedures peculiar to contracting for construction and architect-engineer services. It includes requirements for using certain clauses and standard forms that apply also to contracts for dismantling, demolition, or removal of improvements.

Subpart 36.1—General

36.101 Applicability.

(a) Construction and architect-engineer contracts are subject to the requirements in other parts of this regulation, which shall be followed when applicable.

(b) When a requirement in this part is inconsistent with a requirement in another part of this regulation, this part 36 shall take precedence if the acquisition of construction or architect-engineer services is involved.

(c) A contract for both construction and supplies or services shall include (1) clauses applicable to the predominant part of the work (see subpart 22.4), or (2) if the contract is divided into parts, the clauses applicable to each portion.

36.102 Definitions.

Architect-Engineer Services means—

(a) Professional services of an architectural or engineering nature, as defined by State law, if applicable, which are required to be performed or approved by a person licensed, registered, or certified to provide such services;

(b) Other professional services associated with research, planning, development, design, construction, alteration, or repair of real property that the contracting officer determines are of an architectural or engineering nature;

(c) Other professional services of an architectural or engineering nature (including surveying and mapping, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals and other related services) that the contracting officer determines should logically or justifiably be performed by members of the architectural and engineering professions (and individuals in their employ); and

(d) Other incidental services (including studies, investigations, tests, evaluations, consultations, comprehensive planning, program management, and conceptual design) that the Contracting Officer determines should logically or justifiably be performed by members of the architectural and engineering professions (and individuals in their employ) in conjunction with professional architect-engineer services acquired by Pub. L. 92-582 procedures.

As-built drawings, see record drawings.

Construction means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. For purposes of this definition, the terms *buildings, structures, or other real property* include but are not limited to improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, cemeteries, pumping stations, railways, airport facilities, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, and channels. Construction does not include the manufacture, production, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property.

Contract, as used in this part, is intended to refer to a contract for construction or a contract for architect-engineer services, unless another meaning is clearly intended.

Firm, as used in this part in conjunction with architect-engineer services, means any individual, partnership, corporation, association, or other legal entity permitted by law to practice the professions of architecture or engineering.

Plans and specifications, as used in this part, means drawings, specifications, and other data for and preliminary to the construction.

Record drawings, as used in this part, means drawings submitted by a contractor or subcontractor at any tier to show the construction of a particular structure or work as actually completed under the contract.

Shop drawings, as used in this part, means drawings submitted by the construction contractor or a subcontractor at any tier or required under a construction contract, showing in detail (1) the proposed fabrication and assembly of structural elements, (2) the installation (i.e., form, fit, and attachment details) of materials or equipment, or (3) both.

[48 FR 42356, Sept. 19, 1983, as amended at 51 FR 36972, Oct. 16, 1986; 54 FR 13336, Mar. 31, 1989; 54 FR 19827, May 8, 1989]

36.103 Methods of contracting.

(a) Contracting officers shall acquire construction using sealed bid procedures if the conditions in 6.401(a) apply, except that sealed bidding need not be used for construction contracts to be performed outside the United States, its possessions, or Puerto Rico. (See 6.401(b)(2).)

(b) Contracting officers shall acquire architect-engineer services by negotiation, and select sources in accordance with applicable law, subpart 36.6, and agency regulations.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 36.2—Special Aspects of Contracting for Construction

36.201 Evaluation of contractor performance.

(a) *Preparation of performance evaluation reports.* (1) The contracting activity shall evaluate contractor performance and prepare a performance report using the SF 1420, Performance Evaluation (Construction Contracts), for each construction contract of—

(i) $500,000 or more; or

(ii) More than $10,000, if the contract was terminated for default.

(2) The report shall be prepared at the time of final acceptance of the work, at the time of contract termination, or at other times, as appropriate, in accordance with agency procedures. Ordinarily, the evaluating official who prepares the report should be the person responsible for monitoring contract performance.

(3) If the evaluating official concludes that a contractor's overall performance was unsatisfactory, the contractor shall be advised in writing that a report of unsatisfactory performance is being prepared and the basis for the report. If the contractor submits any written comments, the evaluating official shall include them in the report, resolve any alleged factual discrepancies, and make appropriate changes in the report.

(4) The head of the contracting activity shall establish procedures which ensure that fully qualified personnel prepare and review performance reports.

(b) *Review of performance reports.* Each performance report shall be reviewed to ensure that it is accurate and fair. The reviewing official should have knowledge of the contractor's performance and should normally be at an organizational level above that of the evaluating official.

(c) *Distribution and use of performance reports.* (1) Each performance report shall be distributed in accordance with agency procedures. One copy shall be included in the contract file. The contracting activity shall retain the report for at least six years after the date of the report.

(2) Before making a determination of responsibility in accordance with subpart 9.1, the contracting officer may consider performance reports in accordance with agency instructions.

[48 FR 42356, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986; 54 FR 48989, Nov. 28, 1989]

36.202 Specifications.

(a) Construction specifications shall conform to the requirements in part 10 of this regulation.

(b) Whenever possible, contracting officers shall ensure that references in specifications are to widely recognized standards or specifications promulgated by governments, industries, or technical societies.

(c) When *brand name or equal* descriptions are necessary, specifications must clearly identify and describe the particular physical, functional, or other characteristics of the brand-name items which are considered essential to satisfying the requirement.

36.203 Government estimate of construction costs.

(a) An independent Government estimate of construction costs shall be prepared and furnished to the contracting officer at the earliest practicable time for each proposed contract and for each contract modification anticipated to cost $25,000 or more. The contracting officer may require an estimate when the cost of required work is anticipated to be less than $25,000. The estimate shall be prepared in as much detail as though the Government were competing for award.

(b) When two-step sealed bidding is used, the independent Government estimate shall be prepared when the contract requirements are definitized.

(c) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

36.204 Disclosure of the magnitude of construction projects.

Advance notices and solicitations shall state the magnitude of the requirement in terms of physical characteristics and estimated price range. In no event shall the statement of magnitude disclose the Government's estimate. Therefore, the estimated price should be described in terms of one of the following price ranges:

(a) Less than $25,000.

(b) Between $25,000 and $100,000.

(c) Between $100,000 and $250,000.

(d) Between $250,000 and $500,000.

(e) Between $500,000 and $1,000,000.

(f) Between $1,000,000 and $5,000,000.

(g) Between $5,000,000 and $10,000,000.

(h) More than $10,000,000.

36.205 Statutory cost limitations.

(a) Contracts for construction shall not be awarded at a cost to the Government—

(1) In excess of statutory cost limitations, unless applicable limitations can be and are waived in writing for the particular contract; or

(2) Which, with allowances for Government-imposed contingencies and overhead, exceeds the statutory authorization.

(b) Solicitations containing one or more items subject to statutory cost limitations shall state (1) the applicable cost limitation for each affected item in a separate schedule; (2) that an offer which does not contain separately-priced schedules will not be considered; and (3) that offers must contain a certification that the price on each schedule includes an approximate apportionment of all estimated direct costs, allocable indirect costs, and profit.

(c) The Government shall reject an offer if its prices exceed applicable statutory limitations, unless laws or agency procedures provide pertinent exemptions. However, if it is in the Government's interest, the contracting officer may include a provision in the solicitation which permits the award of separate contracts for individual items whose prices are within or not subject to applicable statutory limitations.

(d) The Government shall also reject an offer if its prices are within statutory limitations only because it is materially unbalanced. An offer is unbalanced if its prices are significantly less than cost for some work, and overstated for other work.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

36.206 Liquidated damages.

The contracting officer shall evaluate the need for liquidated damages in a construction contract in accordance with 12.202 and agency regulations.

36.207 Pricing fixed-price construction contracts.

(a) Generally, firm-fixed-price contracts shall be used to acquire construction. They may be priced (1) on a lump-sum basis (when a lump sum is paid for the total work or defined parts of the work), (2) on a unit-price basis (when a unit price is paid for a specified quantity of work units), or (3) using a combination of the two methods.

(b) Lump-sum pricing shall be used in preference to unit pricing except when—

(1) Large quantities of work such as grading, paving, building outside utilities, or site preparation are involved;

(2) Quantities of work, such as excavation, cannot be estimated with sufficient confidence to permit a lump-sum offer without a substantial contingency;

(3) Estimated quantities of work required may change significantly during construction; or

(4) Offerors would have to expend unusual effort to develop adequate estimates.

(c) Fixed-price contracts with economic price adjustment may be used if such a provision is customary in contracts for the type of work being acquired, or when omission of an adjustment provision would preclude a significant number of firms from submitting offers or would result in offerors including unwarranted contingencies in proposed prices.

36.208 Concurrent performance of firm-fixed-price and other types of construction contracts.

In view of potential labor and administrative problems, cost-plus-fixed-fee, price-incentive, or other types of contracts with cost variation or cost adjustment features shall not be permitted concurrently, at the same work site, with firm-fixed-price, lump sum, or unit price contracts except with the prior approval of the head of the contracting activity.

36.209 Construction contracts with architect-engineer firms.

No contract for the construction of a project shall be awarded to the firm that designed the project or its subsidiaries or affiliates, except with the approval of the head of the agency or authorized representative.

36.210 Inspection of site and examination of data.

The contracting officer should make appropriate arrangements for prospective offerors to inspect the work site and to have the opportunity to examine data available to the Government which may provide information concerning the performance of the work, such as boring samples, original boring logs, and records and plans of previous construction. The data should be assembled in one place and made available for examination. The solicitation should notify offerors of the time and place for the site inspection and data examination. If it is not feasible for offerors to inspect the site or examine the data on their own, the solicitation should also designate an individual who will show the site or data to the

fferors. Significant site information
nd the data should be made available
o all offerors in the same manner, in-
luding information regarding any
tilities to be furnished during con-
truction. A record should be kept of
he identity and affiliation of all offer-
rs' representatives who inspect the
ite or examine the data.

6.211 Distribution of advance notices and solicitations.

Advance notices and solicitations
hould be distributed to reach as many
rospective offerors as practicable.
ontracting officers may send notices
nd solicitations to organizations that
aintain, without charge to the
ublic, display rooms for the benefit
f prospective offerors, subcontrac-
ors, and material suppliers. If re-
uested by such organizations, this
ay be done for all or a stated class of
onstruction projects on an annual or
emiannual basis. Contracting officers
ay determine the geographical
xtent of distribution of advance no-
ices and solicitations on a case-by-case
asis.

ubpart 36.3—Special Aspects of Sealed Bidding in Construction Contracting

.301 General.

Contracting officers shall follow the
rocedures for sealed bidding in part
4, as modified and supplemented by
e requirements in this subpart.

8 FR 42356, Sept. 19, 1983, as amended at
FR 1744, Jan. 11, 1985; 50 FR 52429, Dec.
, 1985]

.302 Presolicitation notices.

(a) Unless the requirement is waived
the head of the contracting activity
a designee, the contracting officer
all send presolicitation notices to
rospective bidders on any construc-
on requirement when the proposed
ntract is expected to equal or exceed
00,000. Presolicitation notices may
so be used when the proposed con-
act is expected to be less than
00,000. These notices shall be issued
fficiently in advance of the invita-
n for bids to stimulate the interest of the greatest number of prospective bidders.

(b) Presolicitation notices shall—

(1) Describe the proposed work in sufficient detail to disclose the nature and volume of work (in terms of physical characteristics and estimated price range)(see 36.204);

(2) State the location of the work;

(3) Include tentative dates for issuing invitations, opening bids, and completing contract performance;

(4) State where plans will be available for inspection without charge;

(5) Specify a date by which requests for the invitation for bids should be submitted;

(6) Notify recipients that if they do not submit a bid they should advise the issuing office as to whether they want to receive future presolicitation notices;

(7) State whether award is restricted to small businesses; and

(8) Specify any amount to be charged for solicitation documents.

(9) Be publicized in the Commerce Business Daily in accordance with 5.204.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 19716, May 30, 1986]

36.303 Invitations for bids.

(a) Invitations for bids for construction shall allow sufficient time for bid preparation (i.e., the period of time between the date invitations are distributed and the date set for opening of bids) (but see 5.203 and 14.202-1) to allow bidders an adequate opportunity to prepare and submit their bids, giving due regard to the construction season and the time necessary for bidders to inspect the site, obtain subcontract bids, examine data concerning the work, and prepare estimates based on plans and specifications.

(b) Invitations for bids shall be prepared in accordance with subpart 14.2 and this section using the forms prescribed in part 53.

(c) Contracting officers should assure that each invitation for bids includes the following information, when applicable:

(1) The appropriate wage determination of the Secretary of Labor (see

subpart 22.4), or, if the invitation for bids must be issued before the wage determination is received, a notice that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the invitation for bids before the opening date for bids (see 14.208 and 22.404-3(b)).

(2) The Performance of Work by the Contractor clause (see 36.501 and 52.236-1).

(3) The magnitude of the proposed construction project (see 36.204).

(4) The period of performance (see subpart 12.1).

(5) Arrangements made for bidders to inspect the site and examine the data concerning performance of the work (see 36.210).

(6) Information concerning any facilities, such as utilities, office space, and warehouse space, to be furnished during construction.

(7) Information concerning the prebid conference (see 14.207).

(8) Any special qualifications or experience requirements that will be considered in determining the responsibility of bidders (see subpart 9.1).

(9) Any special instructions concerning bids, alternate bids, and award.

(10) Any instructions concerning reporting requirements.

(d) The contracting officer shall send invitations for bids to prospective bidders who requested them in response to the presolicitation notice, and should send them to other prospective bidders upon their specific request (see 14.205 and 5.102(a)).

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

36.304 Notice of award.

When a notice of award is issued, it shall contain information required by 14.407 and shall—

(a) Identify the invitation for bids;

(b) Identify the contractor's bid;

(c) State the award price;

(d) Advise the contractor that any required payment and performance bonds must be promptly executed and returned to the contracting officer;

(e) Specify the date of commencement of work, or advise that a notice to proceed will be issued.

36.305 Preconstruction conference.

The contracting officer shall conduct a preconstruction conference to inform the contractor concerning the labor standards clauses of the contract, when appropriate in accordance with 22.405-1(b).

Subpart 36.4—Special Procedures for Negotiation of Construction Contracts

36.401 [Reserved]

36.402 Price negotiation.

(a) Agencies shall follow the policies and procedures in part 15 when negotiating prices for construction.

(b) The contracting officer shall evaluate proposals and associated cost or pricing data and shall compare them to the Government estimate.

(1) When the submission of certified cost or pricing data is not required (see 15.804-2 and 15.804-3), and any element of a proposal differs significantly from the Government estimate, the contracting officer should request the offeror to submit cost data concerning that element (e.g., wage rates or fringe benefits, significant materials, equipment allowances, and subcontractor costs).

(2) When a proposed price is significantly lower than the Government estimate, the contracting officer shall make sure both the offeror and the Government estimator completely understand the scope of the work. If negotiations reveal errors in the Government estimate, the estimate shall be corrected and the changes shall be documented in the contract file.

(c) When appropriate, additional pricing tools may be used. For example, proposed prices may be compared to current prices for similar types of work, adjusted for differences in the work site and the specifications. Also, rough yardsticks may be developed and used, such as cost per cubic foot for structures, cost per linear foot for utilities, and cost per cubic yard for excavation or concrete.

[48 FR 42356, Sept. 19, 1983, as amended at 53 FR 34228, Sept. 2, 1988]

36.403 Cost-reimbursement contracts.

Contracting officers may use a cost-reimbursement contract to acquire construction only when its use is consistent with subpart 16.3 and part 15 (see 15.903(d)(1)(iii) for fee limitation on cost-reimbursement contracts).

Subpart 36.5—Contract Clauses

36.500 Scope of subpart.

This subpart prescribes clauses for insertion in solicitations and contracts for (a) construction and (b) dismantling, demolition, or removal of improvements contracts. Provisions and clauses prescribed elsewhere in the Federal Acquisition Regulation (FAR) shall also be used in such solicitations and contracts when the conditions specified in the prescriptions for the provisions and clauses are applicable.

36.501 Performance of work by the contractor.

(a) To assure adequate interest in and supervision of all work involved in larger projects, the contractor shall be required to perform a significant part of the contract work with its own forces. The contract shall express this requirement in terms of a percentage that reflects the minimum amount of work the contractor must perform with its own forces. This percentage is (1) as high as the contracting officer considers appropriate for the project, consistent with customary or necessary specialty subcontracting and the complexity and magnitude of the work, and (2) ordinarily not less than 12 percent unless a greater percentage is required by law or agency regulation. Specialties such as plumbing, heating, and electrical work are usually subcontracted, and should not normally be considered in establishing the amount of work required to be performed by the contractor.

(b) The contracting officer shall insert the clause at 52.236-1, Performance of Work by the Contractor, in solicitations and contracts, except those awarded pursuant to subparts 19.5 or 19.8, when a fixed-price construction contract is contemplated and the contract amount is expected to exceed $1,000,000. The contracting officer may insert the clause on solicitations and contracts when a fixed-price construction contract is contemplated and the contract amount is expected to be $1,000,000 or less.

[48 FR 42356, Sept. 19, 1983, as amended at 53 FR 43392, Oct. 26, 1988]

36.502 Differing site conditions.

The contracting officer shall insert the clause at 52.236-2, Differing Site Conditions, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.503 Site investigation and conditions affecting the work.

The contracting officer shall insert the clause at 52.236-3, Site Investigation and Conditions Affecting the Work, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.504 Physical data.

The contracting officer shall insert the clause at 52.236-4, Physical Data, in solicitations and contracts when a fixed-price construction contract is contemplated and physical data (e.g., test borings, hydrographic data, weather conditions data) will be furnished or made available to offerors.

36.505 Material and workmanship.

The contracting officer shall insert the clause at 52.236-5, Material and Workmanship, in solicitations and contracts for construction contracts.

[54 FR 48989, Nov. 28, 1989]

36.506 Superintendence by the contractor.

The contracting officer shall insert the clause at 52.236-6, Superintendence by the Contractor, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.507 Permits and responsibilities.

The contracting officer shall insert the clause at 52.236-7, Permits and Responsibilities, in solicitations and contracts when a fixed-price or cost-reimbursement construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated.

[54 FR 48989, Nov. 28, 1989]

36.508 Other contracts.

The contracting officer shall insert the clause at 52.236-8, Other Contracts, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.509 Protection of existing vegetatio structures, equipment, utilities, and improvements.

The contracting officer shall inser the clause at 52.236-9, Protection o Existing Vegetation, Structure Equipment, Utilities, and Improvements, in solicitations and contract when a fixed-price construction contract or a fixed-price dismantling demolition, or removal of improvements contract is contemplated and the contract amount is expected t exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.510 Operations and storage areas.

The contracting officer shall insert the clause at 52.236-10, Operations ald Storage Areas, in solicitations ald contracts whel a fixed-price construction contract or a fixed-price dismantlilg, demmlitiol, or remmval mf improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitatio. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.511 Use and possession prior to completion.

The contracting officer shall insert the clause at 52.236-11, Use and Possession Prior to Completion, in solicitations and contracts when a fixed-price construction contract is contemplated and the contract award amount is expected to exceed the small purchase limitations. This clause may be inserted in solicitations and contracts when the contract amount is expected to be within the small purchase limitations.

36.512 Cleaning up.

The contracting officer shall insert the clause at 52.236-12, Cleaning Up, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation.

36.513 Accident prevention.

The contracting officer shall insert the clause at 52.236-13, Accident Prevention, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation. If the contract will involve work of a long duration or hazardous nature, the contracting officer shall use the clause with its Alternate I.

36.514 Availability and use of utility services.

The contracting officer shall insert the clause at 52.236-14, Availability and Use of Utility Services, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated, the contract is to be performed on Government sites, and the contracting officer decides (a) that the existing utility system(s) is adequate for the needs of both the Government and the contractor, and (b) furnishing it is in the Government's interest. When this clause is used, the contracting officer shall list the available utilities in the contract.

36.515 Schedules for construction contracts.

The contracting officer may insert the clause at 52.236-15, Schedules for Construction Contracts, in solicitations and contracts when a fixed-price construction contract is contemplated, the contract amount is expected to exceed the small purchase limitation, and the period of actual work performance exceeds 60 days. This clause may also be inserted in such solicitations and contracts when work performance is expected to last less than 60 days and an unusual situation exists that warrants imposition of the requirements. This clause should not be used in the same contract with clauses covering other management approaches for ensuring that a contractor makes adequate progress.

36.516 Quantity surveys.

The contracting officer may insert the clause at 52.236-16, Quantity Surveys, in solicitations and contracts when a fixed-price construction contract providing for unit pricing of items and for payment based on quantity surveys is contemplated. If it is determined at a level above that of the contracting officer that it is impracticable for Government personnel to perform the original and final surveys, and the Government wishes the contractor to perform these surveys, the clause shall be used with its Alternate.

36.517 Layout of work.

The contracting officer shall insert the clause at 52.236-17, Layout of Work, in solicitations and contracts when a fixed-price construction contract is contemplated and use of this clause is appropriate due to a need for accurate work layout and for siting verification during work performance.

36.518 Work oversight in cost-reimbursement construction contracts.

The contracting officer shall insert the clause at 52.236-18, Work Oversight in Cost-Reimbursement Construction Contracts, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

36.519 Organization and direction of the work.

The contracting officer shall insert the clause at 52.236-19, Organization and Direction of the Work, in solicitations and contracts when a cost-reimbursement construction contract is contemplated.

36.520 [Reserved]

36.521 Specifications and drawings for construction.

The contracting officer shall insert the clause at 52.236-21, Specifications and Drawings for Construction, in solicitations and contracts when a fixed-price construction contract or a fixed-price dismantling, demolition, or removal of improvements contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in solicitations and contracts when a fixed-price construction or a fixed-price contract for dismantling, demolition, or removal of improvements is contemplated and the contract amount is expected to be within the small purchase limitation. When the Government needs record drawings, the contracting officer shall (a) use the clause with its Alternate I, if reproducible shop drawings are needed, or (b) use the clause with its Alternate II, if reproducible shop drawings are not needed.

[48 FR 42356, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

Subpart 36.6—Architect-Engineer Services

36.600 Scope of subpart.

This subpart prescribes policies and procedures applicable to the acquisition of architect-engineer services.

36.601 Policy.

(a) The Government shall publicly announce all requirements for architect-engineer services, and negotiate contracts for these services based on the demonstrated competence and qualifications of prospective contractors to perform the services required at fair and reasonable prices. (See Pub. L. 92-582, 40 U.S.C. 541 et seq.) Sources for architect-engineer contracts shall be selected in accordance with the procedures in this subpart, rather than the solicitation or source selection procedures prescribed in parts 14 and 15 of this regulation. Compliance with the procedures in this subpart will constitute a competitive procedure in the acquisition of architect-engineer services (see 6.102(d)(1)).

(b) The Government shall publicly announce all requirements for surveying and mapping services that are associated with research, planning, development, design, construction, alteration, or repair of real property and negotiate contracts for these services based on the demonstrated competence and qualifications of prospective contractors to perform the services required at fair and reasonable prices. (See 40 U.S.C. 541, et seq.) Sources for surveying and mapping contracts shall be selected in accordance with the procedures in this subpart, rather than the solicitation or source selection procedures prescribed in parts 14 and 15 of this regulation. Compliance with the procedures in this subpart will constitute a competitive procedure in the acquisition of surveying and mapping services (see 6.102(d)(1)).

(c) Other than *incidental services* as specified in the definition of architect-engineer services in 36.102, services that do not require performance by a registered or licensed architect or engineer, notwithstanding the fact that architect-engineers also may perform those services, should be acquired pursuant to parts 13, 14, and 15.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 1744, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 51 FR 36972, Oct. 16, 1986; 54 FR 13337, Mar. 31, 1989]

36.602 Selection of firms for architect-engineer contracts.

36.602-1 Selection criteria.

(a) Agencies shall evaluate each potential contractor in terms of its—

Reproduced from poor document.

best copy available

(1) Professional qualifications necessary for satisfactory performance of required services;

(2) Specialized experience and technical competence in the type of work required;

(3) Capacity to accomplish the work in the required time;

(4) Past performance on contracts with Government agencies and private industry in terms of cost control, quality of work, and compliance with performance schedules;

(5) Location in the general geographical area of the project and knowledge of the locality of the project; *provided*, that application of this criterion leaves an appropriate number of qualified firms, given the nature and size of the project; and

(6) Acceptability under other appropriate evaluation criteria.

(b) When the use of design competition is approved by the agency head or a designee, agencies may evaluate firms on the basis of their conceptual design of the project. Design competition may be used when—

(1) Unique situations exist involving prestige projects, such as the design of memorials and structures of unusual national significance;

(2) Sufficient time is available for the production and evaluation of conceptual designs; and

(3) The design competition, with its costs, will substantially benefit the project.

36.602-2 Evaluation boards.

(a) When acquiring architect-engineer services, an agency shall provide for one or more permanent or ad hoc architect-engineer evaluation boards (which may include preselection boards when authorized by agency regulations) to be composed of members who, collectively, have experience in architecture, engineering, construction, and Government and related acquisition matters. Members shall be appointed from among highly qualified professional employees of the agency or other agencies, and if authorized by agency procedure, private practitioners of architecture, engineering, or related professions. One Government member of each board shall be designated as the chairperson.

(b) No firm shall be eligible for award of an architect-engineer contract during the period in which any of its principals or associates are participating as members of the awarding agency's evaluation board.

36.602-3 Evaluation board functions.

Under the general direction of the head of the contracting activity, an evaluation board shall perform the following functions:

(a) Review the current data files on eligible firms and responses to a public notice concerning the particular project (see 36.604).

(b) Evaluate the firms in accordance with the criteria in 36.602-1.

(c) Hold discussions with at least three of the most highly qualified firms regarding concepts and the relative utility of alternative methods of furnishing the required services. Architect-engineer fees shall not be considered in these discussions.

(d) Prepare a selection report for the agency head or other designated selection authority recommending, in order of preference, at least three firms that are considered to be the most highly qualified to perform the required services. The report shall include a description of the discussions and evaluation conducted by the board to allow the selection authority to review the considerations upon which the recommendations are based.

[48 FR 42356, Sept. 19, 1983, as amended at 54 FR 48989, Nov. 28, 1989]

36.602-4 Selection authority.

(a) The final selection decision shall be made by the agency head or a designated selection authority.

(b) The selection authority shall review the recommendations of the evaluation board and shall, with the advice of appropriate technical and staff representatives, make the final selection. This final selection shall be a listing, in order of preference, of the firms considered most highly qualified to perform the work. If the firm listed as the most preferred is not the firm recommended as the most highly qualified by the evaluation board, the selection authority shall provide for the contract file a written explanation of the reason for the preference. All firms on the final selection list are considered *selected firms* with which the contracting officer may negotiate in accordance with 36.606.

(c) The selection authority shall not add firms to the selection report. If the firms recommended in the report are not deemed to be qualified or the report is considered inadequate for any reason, the selection authority shall record the reasons and return the report through channels to the evaluation board for appropriate revision.

(d) The board shall be promptly informed of the final selection.

36.602-5 Short selection processes for contracts not to exceed the small purchase limitation.

When authorized by the agency, either or both of the short processes described in this subsection may be used to select firms for contracts not expected to exceed the small purchase limitation. Otherwise, the procedures prescribed in 36.602-3 and 36.602-4 shall be followed.

(a) *Selection by the board.* The board shall review and evaluate architect-engineer firms in accordance with 36.602-3, except that the selection report shall serve as the final selection list and shall be provided directly to the contracting officer. The report shall serve as an authorization for the contracting officer to commence negotiations in accordance with 36.606.

(b) *Selection by the chairperson of the board.* When the board decides that formal action by the board is not necessary in connection with a particular selection, the following procedures shall be followed:

(1) The chairperson of the board shall perform the functions required in 36.602-3.

(2) The agency head or designated selection authority shall review the report and approve it or return it to the chairperson for appropriate revision.

(3) Upon receipt of an approved report, the chairperson of the board shall furnish the contracting officer a copy of the report which will serve as an authorization for the contracting officer to commence negotiations in accordance with 36.606.

[48 FR 42356, Sept. 19, 1983, as amended at 54 FR 48989, Nov. 28, 1989]

36.603 Collecting data on and appraising firms' qualifications.

(a) *Establishing offices.* Agencies shall maintain offices or permanent evaluation boards, or arrange to use the offices or boards of other agencies, to receive and maintain data on firms wishing to be considered for Government contracts. Each office or board shall be assigned a jurisdiction by its parent agency, making it responsible for a geographical region or area, or a specialized type of construction.

(b) *Qualifications data.* To be considered for architect-engineer contracts, a firm must file with the appropriate office or board the Standard Form 254 (SF 254), *Architect-Engineer and Related Services Questionnaire,* and when applicable, the Standard Form 255 (SF 255), *Architect-Engineer and Related Services Questionnaire for Specific Project.*

(c) *Data files and the classification of firms.* Under the direction of the parent agency, offices or permanent evaluation boards shall maintain an architect-engineer qualifications data file. These offices or boards shall review the SF's 254 and 255 filed, and shall classify each firm with respect to:

(1) Location;

(2) Specialized experience;

(3) Professional capabilities; and

(4) Capacity, with respect to the scope of work that can be undertaken. A firm's ability and experience in computer-assisted design should be considered, when appropriate.

(d) *Currency of files.* Any office or board maintaining qualifications data files shall review and update each file at least once a year. This process should include:

(1) Encouraging firms to submit annually an updated statement of qualifications and performance data on a SF 254.

(2) Reviewing the SF's 254 and 255 and, if necessary, updating the firm's classification (see 36.603(c)).

3) Recording any contract awards
ıde to the firm in the past year.
4) Assuring that the file contains a
py of each pertinent performance
port (see 36.604).
5) Discarding any material that has
t been updated within the past
ree years, if it is no longer pertinent,
e 36.604(c).
6) Posting the date of the review in
e file.
e) *Use of data files.* Evaluation
ards and other appropriate Govern-
ent employees, including contracting
ficers, shall use data files on firms.

604 Performance evaluation.

a) *Preparation of performance re-*
rts. (1) For each contract of more
an $25,000, a performance evalua-
n report shall be prepared by the
gnizant contracting activity, using
e SF 1421, Performance Evaluation
rchitect-Engineer). Performance
aluation reports may also be pre-
red for contracts of $25,000 or less.
2) The report shall be prepared
er final acceptance of the work or
er contract termination, as appro-
iate. Ordinarily, the evaluating offi-
l who prepares the report should be
e person responsible for monitoring
ntract performance.
3) If the evaluating official con-
ıdes that a contractor's overall per-
rmance was unsatisfactory, the con-
ctor shall be advised in writing that
eport of unsatisfactory performance
being prepared and the basis for the
port. If the contractor submits any
itten comments, the evaluating offi-
l shall include them in the report,
solve any alleged factual discrepan-
s, and make appropriate changes in
e report.
4) The head of the contracting ac-
ity shall establish procedures which
sure that fully qualified personnel
epare and review performance re-
rts.
b) *Review of performance reports.*
ch performance report shall be re-
wed to ensure that it is accurate
l fair. The reviewing official should
ve knowledge of the contractor's
formance and should normally be
an organizational level above that
the evaluating official.

(c) *Distribution and use of performance reports.* Each performance report shall be distributed in accordance with agency procedures. The report shall be included in the contract file, and copies shall be sent to offices or boards for filing with the firm's qualifications data (see 36.603(d)(4)). The contracting activity shall retain the report for at least six years after the date of the report.

36.605 Government cost estimate for architect-engineer work.

(a) An independent Government estimate of the cost of architect-engineer services shall be prepared and furnished to the contracting officer before commencing negotiations for each proposed contract or contract modification expected to exceed $25,000. The estimate shall be prepared on the basis of a detailed analysis of the required work as though the Government were submitting a proposal.

(b) Access to information concerning the Government estimate shall be limited to Government personnel whose official duties require knowledge of the estimate. An exception to this rule may be made during contract negotiations to allow the contracting officer to identify a specialized task and disclose the associated cost breakdown figures in the Government estimate, but only to the extent deemed necessary to arrive at a fair and reasonable price. The overall amount of the Government's estimate shall not be disclosed except as permitted by agency regulations.

36.606 Negotiations.

(a) Unless otherwise specified by the selection authority, the final selection authorizes the contracting officer to begin negotiations. Negotiations shall be conducted in accordance with part 15 of this regulation, beginning with the most preferred firm in the final selection (see 15.903(d)(1)(ii) on fee limitation).

(b) The contracting officer should ordinarily request a proposal from the firm, ensuring that the solicitation does not inadvertently preclude the firm from proposing the use of modern design methods.

(c) The contracting officer shall inform the firm that no construction contract may be awarded to the firm that designed the project, except as provided in 36.209.

(d) During negotiations, the contracting officer should seek advance agreement (see 31.109) on any charges for computer-assisted design. When the firm's proposal does not cover appropriate modern and cost-effective design methods (e.g., computer-assisted design), the contracting officer should discuss this topic with the firm.

(e) Because selection of firms is based upon qualifications, the extent of any subcontracting is an important negotiation topic. The clause prescribed at 44.204(d), *Subcontractors and Outside Associates and Consultants* (see 52.244-4), limits a firm's subcontracting to firms agreed upon during negotiations.

(f) If a mutually satisfactory contract cannot be negotiated, the contracting officer shall obtain a written best and final offer from the firm, and notify the firm that negotiations have been terminated. The contracting officer shall then initiate negotiations with the next firm on the final selection list. This procedure shall be continued until a mutually satisfactory contract has been negotiated. If negotiations fail with all selected firms, the contracting officer shall refer the matter to the selection authority who, after consulting with the contracting officer as to why a contract cannot be negotiated, may direct the evaluation board to recommend additional firms in accordance with 36.602.

36.607 Release of information on firm selection.

After final selection has taken place, the contracting officer may release information identifying only the architect-engineer firm with which a contract will be negotiated for certain work. The work should be described in any release only in general terms, unless information relating to the work is classified. If negotiations are terminated without awarding a contract to the highest rated firm, the contracting officer may release that information and state that negot tions will be undertaken with anoth (named) architect-engineer fir When an award has been made, t contracting officer may release awa information, (see 5.401).

36.608 Liability for Government costs r sulting from design errors or deficie cies.

Architect-engineer contractors shal be responsible for the professiona quality, technical accuracy, and coordination of all services required under their contracts. A firm may be liable for Government costs resulting from errors or deficiencies in designs furnished under its contract. Therefore, when a modification to a construction contract is required because of an error or deficiency in the services provided under an architect-engineer contract, the contracting officer (with the advice of technical personnel and legal counsel) shall consider the extent to which the architect-engineer contractor may be reasonably liable. The contracting officer shall enforce the liability and collect the amount due, if the recoverable cost will exceed the administrative cost involved or is otherwise in the Government's interest. The contracting officer shall include in the contract file a written statement of the reasons for the decision to recover or not to recover the costs from the firm.

36.609 Contract clauses.

36.609-1 Design within funding limitations.

(a) The Government may require the architect-engineer contractor to design the project so that construction costs will not exceed a contractually specified dollar limit (funding limitation). If the price of construction proposed in response to a Government solicitation exceeds the construction funding limitation in the architect-engineer contract, the firm shall be solely responsible for redesigning the project within the funding limitation. These additional services shall be performed at no increase in the price of this contract. However, if the cost of proposed construction is affected by events beyond the firm's reasonable control (e.g., if there is an increase in material costs which could not have been anticipated, or an undue delay by the Government in issuing a construction solicitation), the firm shall not be obligated to redesign at no cost to the Government. If a firm's design fails to meet the contractual limitation on construction cost and the Government determines that the firm should not redesign the project, a written statement of the reasons for that determination shall be placed in the contract file.

(b) The amount of the construction funding limitation (to be inserted in paragraph (c) of the clause at 52.236-22) is to be established during negotiations between the contractor and the Government. This estimated construction contract price shall take into account any statutory or other limitations and exclude any allowances for Government supervision and overhead and any amounts set aside by the Government for contingencies. In negotiating the amount, the contracting officer should make available to the contractor the information upon which the Government has based its initial construction estimate and any subsequently acquired information that may affect the construction costs.

(c) The contracting officer shall insert the clause at 52.236-22, Design Within Funding Limitations, in fixed-price architect-engineer contracts except when (1) the head of the contracting activity or a designee determines in writing that cost limitations are secondary to performance considerations and additional project funding can be expected, if necessary, (2) the design is for a standard structure and is not intended for a specific location, or (3) there is little or no design effort involved.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

36.609-2 Redesign responsibility for design errors or deficiencies.

(a) Under architect-engineer contracts, contractors shall be required to make necessary corrections at no cost to the Government when the designs, drawings, specifications, or other items or services furnished contain any errors, deficiencies, or inadequacies. If, in a given situation, the Government does not require a firm to correct such errors, the contracting officer shall include a written statement of the reasons for that decision in the contract file.

(b) The contracting officer shall insert the clause at 52.236-23, Responsibility of the Architect-Engineer Contractor, in fixed-price architect-engineer contracts.

[48 FR 42356, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

36.609-3 Work oversight in architect-engineer contracts.

The contracting officer shall insert the clause at 52.236-24, Work Oversight in Architect-Engineer Contracts, in fixed-price architect-engineer contracts.

[50 FR 26903, June 28, 1985]

36.609-4 Requirements for registration of designers.

The contracting officer shall insert the clause at 52.236-25, Requirements for Registration of Designers, in fixed-price architect-engineer contracts, except that it may be omitted from a contract when the design is to be performed (a) outside the United States, its possessions, or Puerto Rico, or (b) in a State or possession that does not have registration requirements for the particular field involved.

Subpart 36.7—Standard and Optional Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements

36.700 Scope of subpart.

This subpart sets forth requirements for the use of standard and optional forms, prescribed in part 53, for contracting for construction, architect-engineer services, or dismantling, demolition, or removal of improvements. These standard and optional forms are illustrated in part 53.

[54 FR 29282, July 11, 1989]

36.701 Standard and optional forms for use in contracting for construction or dismantling, demolition, or removal of improvements.

(a) Contracting officers shall use Standard Form 1417, Presolicitation Notice (Construction Contract), to inform prospective offerors that a solicitation will be released for a proposed construction or dismantling, demolition, or removal of improvements contract estimated to be $100,000 or more. This form may also be used if the proposed contract is estimated to be less than $100,000.

(b) Standard Form 1442, Solicitation, Offer, and Award (Construction, Alteration, or Repair), shall be used to solicit and submit offers, and award construction or dismantling, demolition, or removal of improvements contracts expected to exceed the small purchase limitations, and may be used for contracts within the small purchase limitations. In all sealed bid solicitations, or when the Government otherwise requires a noncancellable offer acceptance period, the contracting officer shall insert in the blank provided in Block 13D the number of calendar days that the offer must be available for acceptance after the date offers are due.

(c) Optional Form 347, Order for Supplies or Services, may be used for construction or dismantling, demolition, or removal of improvements contracts that are within the small purchase limitation *provided*, that the contracting officer includes the clauses required (see subpart 36.5) in the small purchases documents (see part 13, Small Purchases and Other Simplified Purchase Procedures).

(d) Contracting officers may use Optional Form 1419, Abstract of Offers—Construction, and Optional Form 1419A, Abstract of Offers—Construction, Continuation Sheet, or the automated equivalents to record offers submitted in response to a sealed bid solicitation (see 14.403) and may also use them to record offers submitted in response to negotiated solicitations.

(e) Contracting activities shall use Standard Form 1420, Performance Evaluation (Construction), in evaluating and reporting on the performance of construction contractors as required in 36.201.

[48 FR 42356, Sept. 19, 1983, as amended at 52 FR 19805, May 27, 1987; 54 FR 29282, July 11, 1989]

36.702 Forms for use in contracting for architect-engineer services.

(a) Contracting officers shall use Standard Form 252, Architect-Engineer Contract, to award fixed-price contracts for architect-engineer services when the services are to be performed in the United States, its possessions, or Puerto Rico.

(b) The following standard forms shall be used preliminary to award of a contract for architect-engineer services relating to the construction, alteration, or repair of real property:

(1) Standard Form 254, Architect-Engineer and Related Services Questionnaire, shall be used to obtain information from architect-engineer firms regarding their professional qualifications.

(2) Standard Form 255, Architect-Engineer and Related Services Questionnaire for Specific Project, shall be used to supplement the SF 254 with additional, specific information on the firms' qualifications for a particular project when the contract amount is expected to exceed the small purchase limitation. This form may be used when the contract amount is expected to be within the small purchase limitations, if the contracting officer determines that its use is appropriate.

(c) Standard Form 1421, Performance Evaluation (Architect-Engineer), shall be used in evaluating and reporting on the performance of architect-engineer contractors as required in 36.604.

PART 37—SERVICE CONTRACTING

Sec.

37.000 Scope of part.

Subpart 37.1—Service Contracts—General

37.101 Definitions.

SOURCE: 48 FR 42365, Sept. 19, 1983, unless otherwise noted.

37.000 Scope of part.

This part prescribes general policy and procedures for acquiring services by contract, and includes but does not limit coverage to only those services to which the Service Contract Act of 1965 applies (see 37.107). It distinguishes between contracts for personal services and those for nonpersonal services and includes special conditions to be observed in acquiring advisory and assistance services. Dismantling, demolition, or removal of improvements is covered in subpart 37.3. This part does not regulate the obtaining of services by direct appointment, under normal civil service employment procedures, or by cooperative agreement.

[48 FR 42365, Sept. 19, 1983, as amended at 53 FR 43392, Oct. 26, 1988]

Subpart 37.1—Service Contracts—General

37.101 Definitions.

Nonpersonal services contract means a contract under which the personnel rendering the services are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

Personal services contract means a contract that, by its express terms or as administered, makes the contractor personnel appear, in effect, Government employees (see 37.104).

Service contract means a contract that directly engages the time and effort of a contractor whose primary purpose is to perform an identifiable task rather than to furnish an end item of supply. A service contract may be either a nonpersonal or personal contract. It can also cover services performed by either professional or nonprofessional personnel whether on an individual or organizational basis. Some of the areas in which service contracts are found include the following:

(a) Maintenance, overhaul, repair, servicing, rehabilitation, salvage, modernization, or modification of supplies, systems, or equipment.

(b) Routine recurring maintenance of real property.

(c) Housekeeping and base services.

(d) Advisory and assistance services.

(e) Operation of Government-owned equipment, facilities, and systems.

(f) Communications services.

(g) Architect-Engineering (see subpart 36.6).

(h) Transportation and related services (see part 47).

(i) Research and development (see part 35).

[48 FR 42365, Sept. 19, 1983, as amended at 53 FR 43392, Oct. 26, 1988]

37.102 Policy.

(a) Agencies shall generally rely on the private sector for commercial services (see OMB Circular No. A-76, Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government).

(b) In no event may a contract be awarded for the performance of an inherently governmental function.

(c) The relative costs of Government and contract performance require appropriate consideration where Government performance is practicable (see subpart 7.3).

(d) Nonpersonal service contracts are proper under general contracting authority.

37.103 Contracting officer responsibility.

(a) The contracting officer is responsible for ensuring that a proposed contract for services is proper. For this purpose the contracting officer shall—

(1) Determine whether the proposed service is for a personal or nonpersonal services contract using the definitions in 37.101 and the guidelines in 37.104;

(2) In doubtful cases, obtain the review of legal counsel; and

(3) Document the file (except as provided in paragraph (b) below) with (i) the opinion of legal counsel, if any, (ii) a memorandum of the facts and rationale supporting the conclusion that the contract does not violate the provisions in 37.104(b), and (iii) any further documentation that the contracting agency may require.

(b) Nonpersonal services contracts are exempt from the requirements of subparagraph (a)(3) above.

(c) Verify that the contract file contains the certifications required of contractor employees serving as Government procurement officials (see 3.104-9).

[48 FR 42365, Sept. 19, 1983, as amended at 55 FR 36796, Sept. 6, 1990]

37.104 Personal services contracts.

(a) As indicated in 37.101, a personal services contract is characterized by the employer-employee relationship it creates between the Government and the contractor's personnel. The Government is normally required to obtain its employees by direct hire under competitive appointment or other procedures required by the civil service laws. Obtaining personal services by contract, rather than by direct hire, circumvents those laws unless Congress has specifically authorized acquisition of the services by contract.

(b) Agencies shall not award personal services contracts unless specifically authorized by statute (e.g., 5 U.S.C. 3109) to do so.

(c) (1) An employer-employee relationship under a service contract occurs when, as a result of (i) the contract's terms or (ii) the manner of its administration during performance, contractor personnel are subject to the relatively continuous supervision and control of a Government officer or employee. However, giving an order for a specific article or service, with the right to reject the finished product or result, is not the type of supervision or control that converts an individual who is an independent contractor (such as a contractor employee) into a Government employee.

(2) Each contract arrangement must be judged in the light of its own facts and circumstances, the key question always being: Will the Government exercise relatively continuous supervision and control over the contractor personnel performing the contract? The sporadic, unauthorized supervision of only one of a large number of contractor employees might reasonably be considered not relevant, while relatively continuous Government supervision of a substantial number of contractor employees would have to be taken strongly into account (see (d) below).

(d) The following descriptive elements should be used as a guide in assessing whether or not a proposed contract is personal in nature:

(1) Performance on site.

(2) Principal tools and equipment furnished by the Government.

(3) Services are applied directly to the integral effort of agencies or an organizational subpart in furtherance of assigned function or mission.

(4) Comparable services, meeting comparable needs, are performed in the same or similar agencies using civil service personnel.

(5) The need for the type of service rovided can reasonably be expected o last beyond one year.

(6) The inherent nature of the servce, or the manner in which it is proided reasonably requires directly or ndirectly, Government direction or upervision of contractor employees in rder to—

(i) Adequately protect the Governnent's interest;

(ii) Retain control of the function inolved; or

(iii) Retain full personal responsibilty for the function supported in a luly authorized Federal officer or emloyee.

(e) When specific statutory authorty for a personal service contract is ited, obtain the review and opinion of egal counsel.

(f) Personal services contracts for he services of individual experts or onsultants are limited by the Classifiation Act. In addition, the Office of ersonnel Management has established requirements which apply in acuiring the personal services of exerts or consultants in this manner e.g., benefits, taxes, conflicts of interst). Therefore, the contracting officer hall effect necessary coordination vith the cognizant civilian personnel ffice.

7.105 Competition in service contracting.

(a) Unless otherwise provided by tatute, contracts for services shall be warded through sealed bidding whenver the conditions in 6.401(a) are met except see 6.401(b)).

(b) The provisions of statute and art 6 of this regulation requiring ompetition apply fully to service conracts. The method of contracting sed to provide for competition may ary with the type of service being acuired and may not necessarily be limted to price competition.

50 FR 1744, Jan. 11, 1985, and 50 FR 52429, Dec. 23, 1985]

7.106 Funding and term of service contracts.

When contracts for services are unded by annual appropriations, the erm of contracts so funded shall not xtend beyond the end of the fiscal ear of the appropriation except when authorized by law (see 32.703-2 for contracts conditioned upon availability of funds and 32.703-3 for contracts crossing fiscal years).

37.107 Service Contract Act of 1965.

The Service Contract Act of 1965 (41 U.S.C. 351-357) (the Act) provides for minimum wages and fringe benefits as well as other conditions of work under certain types of service contracts (see subpart 22.10). Whether or not the Act applies to a specific service contract will be determined by the definitions and exceptions given in the Act, or implementing regulations.

37.108 Small business Certificate of Competency.

In those service contracts for which the Government requires the highest competence obtainable, as evidenced in a solicitation by a request for a technical/management proposal and a resultant technical evaluation and source selection, the small business Certificate of Competency procedures may not apply (see subpart 19.6).

37.109 Services of quasi-military armed forces

Contracts with *Pinkerton Detective Agencies or similar organizations* are prohibited by 5 U.S.C. 3108. This prohibition applies only to contracts with organizations that offer quasi-military armed forces for hire, or with their employees, regardless of the contract's character. An organization providing guard or protective services does not thereby become a *quasi-military armed force,* even though the guards are armed or the organization provides general investigative or detective services. (See 57 Comp. Gen. 524).

37.110 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at 52.237-1, Site Visit, in solicitations for services to be performed on Government installations, unless the solicitation is for construction.

(b) The contracting officer shall insert the clause at 52.237-2, Protection of Government Buildings, Equipment, and Vegetation, in solicitations and contracts for services to be performed on Government installations, unless a construction contract is contemplated.

(c) The contracting officer may insert the clause at 52.237-3, Continuity of Services, in solicitations and contracts for services, when the Government anticipates difficulties during the transition from one contractor to another or to the Government.

(d) See 9.508 regarding the use of an appropriate provision and clause concerning the subject of conflict-of-interest, which may at times be significant in solicitations and contracts for services.

(e) The contracting officer shall also insert in solicitations and contracts for services the provisions and clauses prescribed elsewhere in the FAR, as appropriate for each acquisition, depending on the conditions that are applicable.

(f) For the Department of Defense, the contracting officer shall insert the clause at 52.237-8, Severance Payments to Foreign Nationals Employed Under a Service Contract Performed Outside the United States, in solicitations and contracts for services which may be performed in whole or in part outside the United States. Use of the clause by other Government agencies is optional.

[48 FR 42365, Sept. 19, 1983, as amended at 54 FR 13025, Mar. 29, 1989]

37.111 Extension of services.

Award of contracts for recurring and continuing service requirements are often delayed due to circumstances beyond the control of contracting offices. Examples of circumstances causing such delays are bid protests and alleged mistakes in bid. In order to avoid negotiation of short extensions to existing contracts, the contracting officer may include an option clause (see 17.208(f)) in solicitations and contracts which will enable the Government to require continued performance of any services within the limits and at the rates specified in the contract. However, these rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance thereunder shall not exceed 6 months.

[54 FR 29282, July 11, 1989]

Subpart 37.2—Advisory and Assistance Services

Source: 53 FR 43392, Oct. 26, 1988, unles otherwise noted.

37.200 Scope of subpart.

This subpart prescribes policies and procedures for acquiring advisory and assistance services by contract. The subpart regulates these contracts with individuals and organizations for both personal and nonpersonal services.

37.201 Definition.

Advisory and assistance services means services, other than those excluded or exempted in this subpart, to support or improve agency policy development, decision-making, management, and administration, or to support or improve the operation of management systems.

37.202 Policy.

(a) The acquisition of advisory and assistance services is a legitimate way to improve Government services and operations. Accordingly, advisory and assistance services may be used at all organizational levels to help managers achieve maximum effectiveness or economy in their operations.

(b) Subject to 37.205, agencies may contract for advisory and assistance services, when essential to the agency's mission, to—

(1) Obtain outside points of view to avoid too limited judgment on critical issues;

(2) Obtain advice regarding developments in industry, university, or foundation research;

(3) Obtain the opinions, special knowledge, or skills of noted experts;

(4) Enhance the understanding or, and develop alternative solutions to, complex issues;

(5) Support and improve the operation of organizations;

(6) Ensure the more efficient or effective operation of managerial or hardware systems.

(c) Advisory and assistance services shall not be—

(1) Used in performing work of a policy, decision-making, or managerial nature which is the direct responsibility of agency officials;

(2) Used to bypass or undermine personnel ceilings, pay limitations, or competitive employment procedures;

(3) Contracted for on a preferential basis to former Government employees;

(4) Used under any circumstances specifically to aid in influencing or enacing legislation;

(5) Used to obtain professional or technical advice which is readily available within the agency or another Federal agency.

37.203 Types of advisory and assistance services.

Advisory and assistance services may take the form of information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance. These services consist of—

(a) *Individual experts and consultants.* Individual experts and consultants are persons possessing special, current knowledge or skill that may be combined with extensive operational experience. This enables them to provide information, opinions, advice, or recommendations to enhance understanding of complex issues or to improve the quality and timeliness of policy development or decision-making.

(b) *Studies, analyses, and evaluations.* Studies, analyses, and evaluations are organized, analytic assessments needed to provide the insights necessary for understanding complex issues or improving policy development or decision-making. These analytic efforts result in formal, structured documents containing data or leading to conclusions and/or recommendations. This summary description is operationally defined by the following criteria:

(1) *Objective.* To enhance understanding of complex issues or to improve the quality and timeliness of agency policy development or decision-making by providing new insights into, understanding of, alternative solutions to, or recommendations on agency policy and program issues, through the applications of fact finding, analysis, and evaluation.

(2) *Areas of application.* All subjects, issues, or problems involving policy development of decision-making in the agency. These may involve concepts, organization, programs and other systems, and the application of such systems.

(3) *Outputs.* Outputs are formal structured documents containing or leading to conclusions and/or recommendations. Data bases, models, methodologies, and related software created in support of a study, analysis, or evaluation are to be considered part of the overall study effort.

(c) *Management and professional support services.* Management and professional support services take the form of advice, training, or direct assistance for organizations to ensure more efficient or effective operations of managerial, administrative, or related systems. This summary description is operationally defined in terms of the following criteria:

(1) *Objective.* To ensure more efficient or effective operation of management support or related systems by providing advice, training, or direct assistance associated with the design or operation of such systems.

(2) *Areas of application.* Management support or related systems such as program management, project monitoring and reporting, data collection, logisitics management, budgeting, accounting, auditing, personnel management, paperwork management, records management, space management, and public relations.

(3) *Outputs.* Services in the form of information, opinions, advice, training, or direct assistance that lead to the improved design or operation of managerial, administrative, or related systems. This does not include training which maintains skills necessary for normal operations. Written reports are normally incidental to the performance of the service.

(d) *Engineering and technical service.* Engineering and technical services (technical representatives) take the form of advice, training, or, under unusual circumstances, direct assistance to ensure more efficient or effective operation or maintenance of existing platforms, weapon systems, related systems, and associated software. All engineering and technical services provided prior to final Government acceptance of a complete hardware system are part of the normal development, production, and procurement processes and do not fall in this category. Engineering and technical services provided after final Government acceptance of a complete hardware system are in this category except where they are procured to increase the original design performance capabilities of existing or new systems or where they are integral to the operational support of a deployed system and have been formally reviewed and approved in the acquisition planning process.

37.204 Exclusions.

The following activities and programs are excluded or exempted from the definition of advisory or assistance services:

(a) Activities that are reviewed in accordance with the OMB Circular A-76, Policies for Acquiring Commercial or Industrial Products and Services Needed by the Government.

(b) Architectural and engineering services as defined in part 36.

(c) ADP/Telecommunications functions and related services that are controlled in accordance with 41 CFR part 201, the Federal Information Resources Management Regulation.

(d) Research on theoretical mathematics and basic medical, biological, physical, social, psychological, or other phenomena.

(e) Engineering studies related to specific physical or performance characteristics of existing or proposed systems.

(f) The day-to-day operation of facilities (e.g., the Johnson Space Center and related facilities) and functions (e.g., ADP operations and building maintenance).

(g) Government-owned, contractor-operated (GOCO) facilities. However, any contract for advisory and assistance services other than the basic contract for operation and management of a GOCO shall come under the definition of advisory or assistance ser ices.

(h) Clinical medicine.

(i) Those support services of a managerial or administrative nature performed as a simultaneous part of, and nonseparable from specific development, production, or operational support activities. In this context, nonseparable means that the managerial or administrative systems in question (e.g., subcontractor monitoring or configuration control) cannot reasonably be operated by anyone other than the designer or producer of the end-item hardware.

(j) Contracts entered into in furtherance of statutorily mandated advisory committees.

(k) Initial training, training aids, and technical documentation acquired as an integral part of the lease or purchase of equipment.

(l) Routine maintenance of equipment, routine administrative services (e.g., mail, reproduction, telephone) printing services, and direct advertising (media) costs.

(m) Auctioneers, realty-brokers, appraisers, and surveyors.

(n) The National Foreign Intelligence Program (NFIP).

(o) The General Defense Intelligence Program (GDIP).

(p) Tactical Intelligence and Related Activities (TIARA).

(q) Foreign Military Sales.

(r) Engineering and technical services as set forth in 37.203(d).

37.205 Management controls.

OMB Circular A-120 requires each agency to establish procedures for a written evaluation at the conclusion of the contract to assess the utility of the deliverables to the agency and the performance of the contractor.

37.206 Requesting activity responsibilities.

Requests for advisory and assistance services shall include—

(a) A statement certifying that the requirement is for advisory and assistance services as defined in this subpart.

(b) Written justification of need and certification that such services do not unnecessarily duplicate and previously performed work or services.

(c) Written approval for such services by an official at a level above the requesting office. However, in the case of requirements received by the contracting officer during the fourth quarter of the fiscal year, for award during the same fiscal year, the approval at the second level, or higher level if required by agency procedures, above the requesting office shall accompany the request for contract action.

(d) Properly chargeable funds certified by the cognizant fiscal/budget office.

37.207 Contracting officer responsibilities.

The contracting officer is responsible for determining whether any requested contractual action, regardless of dollar value, constitutes advisory and assistance services as described in this subpart. The contracting officer's determination shall be final. Before processing any contractual action for advisory and assistance services, the contracting officer shall verify that—

(a) Action is taken to avoid conflicts of interest in accordance with subpart 9.5.

(b) The applicable requirements of this subpart and 37.103 and 37.104 are met;

(c) The services being contracted for consist only of the types of services defined as 37.203;

(d) The request includes a statement of need and certification by the requesting official (see 37.206(a) and (b)); and

(e) Written approval for the requirement, including requests for contract modifications beyond the scope of the acquisition originally approved, has been obtained from the appropriate level(s) (see 37.206(c)).

[53 FR 43392, Oct. 26, 1988, as amended at 54 FR 20497, May 11, 1989; 55 FR 36796, Sept. 6, 1990]

Subpart 37.3—Dismantling, Demolition, or Removal of Improvements

37.300 Scope of subpart.

This subpart prescribes procedures for contracting for dismantling or demolition of buildings, ground improvements, and other real property structures and for the removal of such structures or portions of them (hereafter referred to as *dismantling, demolition, or removal of improvements*).

37.301 Labor standards.

Contracts for dismantling, demolition, or removal of improvements are subject to either the Service Contract Act (41 U.S.C. 351-358) or the Davis-Bacon Act (40 U.S.C. 276a—276a-7). If the contract is solely for dismantling, demolition, or removal of improvements, the Service Contract Act applies unless further work which will result in the construction, alteration, or repair of a public building or public work at that location is contemplated. If such further construction work is intended, even though by separate contract, then the Davis-Bacon Act applies to the contract for dismantling, demolition, or removal.

37.302 Bonds or other security.

When a contract is solely for dismantling, demolition, or removal of improvements, the Miller Act (40 U.S.C. 270a-270f) (see 28.102) does not apply. However, the contracting officer may require the contractor to furnish a performance bond or other security (see 28.103) in an amount that the contracting officer considers adequate to (a) ensure completion of the work, (b) protect property to be retained by the Government, (c) protect property to be provided as compensation to the contractor, and (d) protect the Government against damage to adjoining property.

37.303 Payments.

(a) The contract may provide that the (1) Government pay the contractor for the dismantling or demolition of structures or (2) contractor pay the Government for the right to salvage and remove the materials resulting from the dismantling or demolition operation.

(b) The contracting officer shall consider the usefulness to the Government of all salvageable property. Any of the property that is more useful to the Government than its value as salvage to the contractor should be expressly designated in the contract for retention by the Government. The contracting officer shall determine the fair market value of any property not so designated, since the contractor will get title to this property, and its value will therefore be important in determining what payment, if any, shall be made to the contractor and whether additional compensation will be made if the contract is terminated.

37.304 Contract clauses.

(a) The contracting officer shall insert the clause at 52.237-4, Payment by Government to Contractor, in solicitations and contracts solely for dismantling, demolition, or removal of improvements whenever the contracting officer determines that the Government shall make payment to the contractor in addition to any title to property that the contractor may receive under the contract. If the contracting officer determines that all material resulting from the dismantling or demolition work is to be retained by the Government, use the basic clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.237-5, Payment by Contractor to Government in solicitations and contracts for dismantling, demolition, or removal of improvements whenever the contractor is to receive title to dismantled or demolished property and a net amount of compensation is due to the Government, except if the contracting officer determines that it would be advantageous to the Government for the contractor to pay in increments and the government to transfer title to the contractor for increments of property only upon receipt of those payments.

(c) The contracting officer shall insert the clause at 52.237-6, Incremental Payment by Contractor to Government, in solicitations and contracts for dismantling, demolition, or removal of improvements if (1) the
contractor is to receive title to
tled or demolished property an
amount of compensation is
Government, and (2) the cont
officer determines that it woul
vantageous to the Government
contractor to pay in incremen
for the Government to transfer
the contractor for increments
erty only upon receipt of tho
ments. This determination may
propriate, for example, if it
ages greater competition or pa
tion of small business concerns.

Subpart 37.4—Nonpersonal H
Care Services

SOURCE: 54 FR 5056, Jan. 31, 198
otherwise noted.

37.400 Scope of subpart.

This subpart prescribes polic
procedures for obtaining healt
services of physicians, dentis
other health care providers by
sonal services contracts, as defi
37.101.

37.401 Policy.

Agencies may enter into nonpe
health care services contract
physicians, dentists and other
care providers under authority
U.S.C. 2304 and 41 U.S.C. 253
contract shall—

(a) State that the contract is
personal health care services co
as defined in 37.101, under whi
contractor is an independent c
tor;

(b) State that the Governme
evaluate the quality of profe
and administrative services pr
but retains no control over the
cal, professional aspects of s
rendered (e.g., professional judg
diagnosis for specific medical
ment);

(c) Require that the contrac
demnify the Government for
ability producing act or omiss
the contractor, its employee
agents occurring during contra
formance;

(d) Require that the cont
maintain medical liability insu
in a coverage amount accepta

the contracting officer, which is not less than the amount normally prevailing within the local community for the medical specialty concerned; and

(e) State that the contractor is required to ensure that its subcontracts for provisions of health care services, contain the requirements of the clause at 52.237-7, including the maintenance of medical liability insurance.

37.402 Contracting officer responsibilities.

Contracting officers shall obtain evidence of insurability concerning medical liability insurance from the apparently successful offeror prior to contract award and shall obtain a certificate of insurance evidencing the required coverage prior to commencement of performance.

37.403 Contract clause.

The contracting officer shall insert the clause at 52.237-7, Indemnification and Medical Liability Insurance, in solicitations and contracts for nonpersonal health care services. The contracting officer may include the clause in bilateral purchase orders for nonpersonal health care services awarded under the procedures in part 13.

PART 38—FEDERAL SUPPLY SCHEDULE CONTRACTING

38.201 Coordination requirements.
38.202 Criteria.
38.203 Solicitation preparation.
38.204 Schedule preparation.
38.205 Schedule contract administration.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42368, Sept. 19, 1983, unless otherwise noted.

38.000 Scope of part.

This part prescribes policies and procedures for contracting for supplies and services under the Federal Supply Schedule program, which is directed and managed by the General Services Administration. Procedures for ordering from Federal Supply Schedules are covered in subpart 8.4. See part 39 for automatic data processing and telecommunications equipment and services coverage. The Department of Defense uses a similar system of schedule contracting for military items that are also not a part of the Federal Supply Schedule program.

Subpart 38.1—Federal Supply Schedule Program

38.101 General.

(a) The Federal Supply Schedule program provides Federal agencies with a simplified process of acquiring commonly used supplies and services in varying quantities at lower prices while obtaining discounts associated with volume buying. Indefinite delivery contracts including requirements contracts are awarded, using competitive procedures, to commercial firms to provide supplies and services at stated prices for given periods of time. The schedule contracting office issues publications, titled Federal Supply Schedules, containing the information needed for placing delivery orders with the contractors.

(b) Each schedule identifies specific agencies in designated geographic areas that are required to use the contracts as primary sources of supply. Except as specified in 8.404-1, agencies included as mandatory users must order needed supplies and services from the schedule if the consignee is located within the geographic area of coverage. Geographic areas of coverage are determined on the basis of the location of the consignee, not the ordering office.

(c) Federal agencies not identified in the schedules as mandatory users (see 8.404-2) may issue orders under the schedules, and the contractors are encouraged to accept the orders.

(d) Under the schedule program, ordering agencies—

(1) Issue orders directly to the contractors;

(2) Receive shipments;

(3) Pay the contractors; and

(4) Administer individual orders.

(e) Although GSA awards most Federal Supply Schedule contracts, it may authorize other agencies to award schedule contracts and publish schedules; e.g., the Department of Veterans Affairs awards schedule contracts for certain medical and nonperishable subsistence items.

[48 FR 42368, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 54 FR 29282, July 11, 1989]

38.102 Types of Federal Supply Schedules.

38.102-1 Single-award schedules.

(a) Single-award schedules cover contracts made with one supplier at a stated price for delivery to a geographic area as defined in the schedule. All responsible firms may submit offers in response to a solicitation for a single-award schedule contract. A single-award schedule is appropriate if there are adequate commercial descriptions or specifications to permit competitive offers.

(b) Each single-award schedule lists the supplies or services covered and the prices. Unit prices are normally established on a zonal basis to provide for differences in transportation. The schedules contain the necessary information for placing orders. Some single-award schedules specify that contractors have prepared brochures containing additional information, usually fabric or color selections or similar variables.

[48 FR 42368, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

38.102-2 Multiple-award schedules.

(a) Multiple-award schedules are based on negotiated contracts established with more than one supplier for delivery of comparable commercial supplies or services. All responsible firms may submit offers in response to a solicitation for multiple award schedule contracts. Contracts are awarded to firms supplying the same generic types of items or services at
varying prices for delivery within
same geographic areas.

(b) These contracts are appropri
when—

(1) It is not practical to draft spec
cations or other descriptions for
required supplies or services and th
are multiple suppliers able to furni
similar commercial supplies or servi
(either established catalogs or mar
prices, or cost or pricing data will
used as a basis for determining pri
reasonableness); or

38.102-3 New Item Introductory Schedul

(a) The New Item Introductor
Schedule (NIIS) is used to introduc
new or improved products into th
Federal supply system. Potential sup
pliers submit applications, on GS
Form 1171, Application for Presentin
New Articles, through any GSA Bus
ness Service Center (BSC). These cen
ters are listed in the provision a
52.210-1, Availability of Specificatio
Listed in the GSA Index of Feder
Specifications, Standards and Com-
mercial Item Descriptions. The BS
screens the applications and forward
them to the GSA, Federal Suppl
Service (FSS), for review and accept-
ance or rejection. This review consid-
ers such factors as possible duplicatio
of present supply support items, an-
ticipated demand, and health, safety,
and legal requirements.

(b) The NIIS is published approximately four times a year and is cumulative. The user must obtain the contractors' catalogs and pricelists to use the schedule effectively. A contractor is required to make those documents available upon request.

(c) Agencies receiving applications from suppliers for consideration under the NIIS program shall forward them to the nearest GSA Business Service Center.

[48 FR 42368, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985; 53 FR 17859, May 18, 1988]

38.102-4 International Federal Supply Schedule.

(a) The International Federal Supply Schedule (IFSS) has been established to provide sources of supply (supplies and services) at reasonable prices to U.S. Government activities located overseas. The use of the schedule is mandatory only on GSA.

(b) The IFSS is divided into two sections. The items included in Section A are awarded under a solicitation using sealed bid procedures, as covered in part 14, while the items listed in Section B are awarded under a solicitation using negotiated procedures, as described in part 15.

[51 FR 19716, May 30, 1986]

Subpart 38.2—Establishing and Administering Federal Supply Schedules

38.201 Coordination requirements.

(a) Subject to current or future interagency agreements, contracting officers having responsibility for awarding Federal Supply Schedule contracts shall coordinate with the General Services Administration (GSA) before—

(1) Establishing new schedules;

(2) Discontinuing existing schedules;

(3) Changing the scope of agency or geographical coverage of existing schedules; or

(4) Adding or deleting special item numbers, national stock numbers, or revising their description.

(b) The coordination shall be accomplished by using GSA Form 1649, Recommendation for Improvement of Federal Supply Schedules. This form shall be submitted to GSA, Federal Supply Service (FSS), FCO, Washington, DC 20406, in duplicate, well in advance of solicitation preparation. A leadtime of 90 days is required by GSA to coordinate and obtain concurrences from the various agencies.

[48 FR 42368, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

38.202 Criteria.

(a) To justify establishing or continuing a Federal Supply Schedule, the annual business volume expected from a particular Federal Supply Schedule should be as follows: National scope multiple-award schedule—$1,000,000; national scope single-award schedule—$500,000; regional service schedules—$250,000.

(b) Items included in schedules shall be such that—

(1) It is not feasible to forecast definite quantity requirements for delivery to specific consignees or no advantage accrues for doing so;

(2) Industry distribution facilities are adequate to serve the consignees; and

(3) Price advantages are sufficient to warrant the cost of maintaining the schedules.

(c) A special item number (SIN) should not be retained in a future multiple-award schedule when the anticipated purchases of the SIN will be less than $25,000 for a 1-year period. A new contract should not be awarded to a current supplier whose sales were less than $25,000 for the most recent 1-year period. An item (product or service) should not be retained in a future schedule when the anticipated purchases of the item will be less than $2,000 for a 1-year period. (For the purpose of these criteria, an item is defined as a product on a multiple-award schedule; or a National Stock Number (NSN) or SIN on a single-award schedule.) This policy does not apply to service contracts or to the following:

(1) A part or accessory for a basic item.

(2) A component of a unit assembly.

(3) An item needed to fill out a range of colors, sizes, or other characteristics.

(4) A service related to an item that is being retained on a schedule.

(5) An item that is determined by the contracting officer to be economically advantageous to retain even though the expected demand is less than $2,000 for a 1-year period. A justification must be included in the case file explaining the reasons for retaining the item.

(d) In addition, an item should be removed from a schedule when the item is—

(1) Discontinued by the manufacturer;

(2) Obsolete;

(3) Transferred to another schedule;

(4) To be provided through another method of supply;

(5) Similar to an item available from stock; or

(6) Not to be acquired because it is unsafe, requires a special license, or it is a luxury (see 41 CFR 101-26.103-2).

[48 FR 42368, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

38.203 Solicitation preparation.

(a) Schedule contracting officers shall comply with the policies and procedures of part 5 and part 6. All responsible sources shall be allowed to submit offers in response to solicitations for Federal Supply Schedule contracts. Solicitations for Federal Supply Schedule contracts shall contain the solicitation provisions and contract clauses prescribed elsewhere in this regulation (e.g., see the clause matrix for indefinite delivery contracts in subpart 52.3). The schedule contracting officer may include additional provisions and clauses which apply to the particular commodity or service to be acquired. Also, GSA shall prescribe, at the time of assignment of a schedule to a contracting office, special clauses for inclusion in the solicitations and contracts.

(b) Small Business set-aside programs apply to both single and multiple-award schedule contracting (see part 19).

[48 FR 42368, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

38.204 Schedule preparation.

The schedule contracting office shall publish schedules by commodity or service classification. Depending upon the type of schedule used, information provided may include the names of the contractors, their addresses, the contract periods, contract numbers, geographical areas of coverage, mandatory and optional users, minimum and maximum order limitations, prices, and any other information essential to placing orders. When schedule formats are provided by GSA, schedule contracting offices shall adhere to them so as to facilitate the use of the schedules by using agencies.

38.205 Schedule contract administration.

The schedule contracting officer shall—

(a) Exercise general supervision of schedule contracts;

(b) Issue final decisions on all disputes which relate to schedule contracts, or arise under orders which cannot be resolved by the ordering office and the contractor;

(c) When necessary, terminate schedule contracts for default or for the convenience of the Government (see part 49); and

(d) Make necessary changes to the schedule. The following documents may be used to make changes to Federal Supply Schedules:

(1) *Cumulative schedule.* The preferred document to transmit changes is a complete schedule reprint containing all the information in the prior issuance with the new information added.

(2) *Amendment.* An amendment may be used to transmit changes to a schedule when the new information does not justify a complete reprint. Generally, if more than one page is needed, a cumulative schedule should be issued.

(3) *Notice to Ordering Offices.* A Notice to Ordering Offices may be used to transmit changes to a schedule when time will not permit the use of a cumulative schedule or amendment.

PART 39—ACQUISITION OF INFORMATION RESOURCES

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

NOTE: Until more comprehensive coverage is included in the FAR, this part serves as a means of referring acquisition personnel to the Federal Information Resources Management Regulation (FIRMR) for those special policies and procedures applicable to acquisition of certain automatic data processing (ADP), telecommunications, and related resources.

39.001 Policy.

In acquiring information resources, acquisition personnel shall follow the policies and procedures contained in the FAR except in those areas where the FIRMR (41 CFR Ch. 201) prescribes special policies, procedures, provisions, or clauses.

[53 FR 17859, May 18, 1988]

39.002 Delegations of procurement authority.

The Administrator of General Services has certain exclusive authorities regarding acquisition of information resources which may be delegated to agencies. The FIRMR contains blanket delegations and rules for requesting specific delegations. In addition, the FIRMR contains rules regarding other delegations that may be granted to meet specific information resources needs. Provisions for requesting these delegations are provided in the FIRMR (see particularly FIRMR part 201-23).

SOURCE: 48 FR 42370, Sept. 19, 1983, unless otherwise noted.

42.000 Scope of part.

This part prescribes general policies and procedures for performing contract administration functions and related audit services.

Subpart 42.1—Interagency Contract Administration and Audit Services

42.100 Scope of subpart.

This subpart prescribes policies and procedures for obtaining and providing interagency contract administration and audit services in order to (a) provide specialized assistance through field offices located at or near contractors' establishments, (b) avoid or eliminate overlapping and duplication of Government effort, and (c) provide more consistent treatment of contractors.

42.101 Policy.

(a) Agencies requiring field contract administration or audit services are encouraged to use cross-servicing arrangements with existing contract administration and contract audit components to preclude duplicate demands being made upon contractors (see 42.102(a) for the directories of cognizant offices). The customer agency and the servicing agency shall enter into a formal cross-servicing arrangement when the volume of work or other circumstances warrants a formal understanding.

(b) Multiple reviews, inspections, and examinations of a contractor or subcontractor by several agencies involving the same practices, operations, or functions shall be eliminated to the maximum practicable extent through the use of cross-servicing arrangements.

(c) OMB Circular No. A-73, Audit of Federal Operations and Programs, states executive branch policy on audit cross-servicing arrangements. As further provided in OFPP Policy Letter 78-4, Field Contract Support Cross-Servicing Program, (1) agencies shall use cross-servicing arrangements for the audit of costs incurred under contracts of two or more agencies being performed at the same business entity, and (2) the responsible auditor or contracting officer shall coordinate with concerned agencies the establishment of indirect cost rates at such entities and shall convey the finally established rates to those agencies for application to their contracts to the extent allocable and allowable (see subpart 42.7).

(d) Subject to the fiscal regulations of the agencies concerned, agencies (1) may be reimbursed in accordance with the Economy Act of 1932 (31 U.S.C. 1535) for services rendered under formal or informal cross-servicing arrangements, (2) normally should refrain from seeking reimbursement for cross-servicing accomplished incidental to their own needs or Government-wide responsibilities, and (3) may use the hourly rate established under the cross-servicing arrangement between the Department of Defense and the National Aeronautics and Space Administration to facilitate reimbursement arrangements.

(e) Agencies are not expected to enter into cross-servicing arrangements that would unduly burden agency resources or otherwise obstruct an agency in fulfilling its responsibilities.

[48 FR 42370, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986; 53 FR 662, Jan. 11, 1988]

42.102 Procedures.

(a) In locating available field contract administration or audit services, contracting offices shall consult the Department of Defense Directory of Contract Administration Services Components or the Directory of Federal Contract Audit Offices. Questions regarding contract administration offices may be referred to the Defense Logistics Agency, Attn: DLA-AO, Cameron Station, Alexandria, VA 22304-6100. Questions regarding audit offices may be referred to the Defense Contract Audit Agency, Attn: OTD, Cameron Station, Alexandria, VA 22304-6178. Agencies having a field contract administration or audit cross-servicing capability shall arrange for identification of this capability (including changes as they occur) in the appropriate directory by contacting one of these offices.

(b) Services may be obtained by direct request to the cognizant contract administration or audit component indicated in the applicable directory or as specified in a formal cross-servicing arrangement (see 42.101(a)).

(c) Except for requests submitted under formal cross-servicing arrangements, requests for services from Government agencies may be declined on a case-by-case basis if resources are inadequate to accomplish delegated tasks, provided the decision is made by an official above the level of the contract administration office, or as otherwise provided in agency regulations.

(d) Contract administration and audit services will be performed using the procedures of the servicing agency unless formal agreements between agencies provide otherwise.

(e) Both the requesting and servicing activities are responsible for prudent use of the services provided under either formal or informal interagency cross-servicing arrangements. When it is appropriate, servicing activities shall counsel requesting agencies or contracting offices concerning the desirability and practicality of relaxing or waiving controls and surveillance that may not be necessary to ensure satisfactory contract performance.

[48 FR 42370, Sept. 19, 1983, as amended at 55 FR 38517, Sept. 18, 1990]

Subpart 42.2—Assignment of Contract Administration

42.200 Scope of subpart.

This subpart prescribes policies and procedures for (a) assigning, retaining, or reassigning contract administration responsibility, (b) withholding normal functions or delegating additional functions when assigning contracts for administration, and (c) requesting and performing supporting contract administration. Subpart 42.3 lists both the normal contract administration functions and those requiring specific authorization by the contracting office.

42.201 Definition.

Supporting contract administration means performance of specific contract administration functions by another contract administration office (CAO) as required by (a) the CAO to which a contract is assigned for administration or (b) the contracting office retaining a contract for administration.

42.202 Assignment of contract administration.

(a) *Authority*. Except as provided in paragraph (b) below, assignment of a contract to a CAO for administration automatically carries with it the authority to perform all of the normal functions listed in 42.302(a) to the extent that those functions apply to the contract. The CAO has authority to perform the functions requiring specific authorizations, listed in 42.302(b), only to the extent specified by the contracting office. No other function shall be performed by the CAO unless delegated as provided under 42.202(c).

(b) *Withholding normal functions*. In assigning a contract for administration by a CAO, the contracting office may withhold individual functions among those listed in 42.302(a) if—

(1) Their retention by the contracting office is required by (i) the contracting agency's agency-level acquisition regulations or (ii) a formal interagency cross-servicing arrangement (see 42.101(a) and 42.102(b)); or

(2) It is clear, after consultation with the CAO when appropriate, that they can best be performed by the contracting office and the decision to withhold them is approved above the contracting officer's level.

(c) *Delegating additional functions.* For individual contracts or groups of contracts, the contracting office may delegate to the CAO functions not listed in 42.302; *provided,* that—

(1) Prior coordination with the CAO ensures the availability of required resources;

(2) In the case of authority to issue orders under provisioning procedures in existing contracts and under basic ordering agreements for items and services identified in the schedule, the head of the contracting activity or designee approves the delegation; and

(3) The delegation does not require the CAO to undertake new or follow-on acquisitions.

(d) *Transmittal and documentation.* When assigning a contract for administration by a CAO, the contracting officer shall—

(1) Enter on the contract the name and address of the CAO designated to administer it;

(2) Provide any special instructions, including any specific authorization to perform functions listed in 42.302(b), in an accompanying letter to the CAO;

(3) Include, along with the contract furnished to the CAO, copies of all contracting agency regulations or directives that are (i) incorporated into the contract by reference or (ii) otherwise necessary to administer the contract, unless copies have been previously provided; and

(4) Advise the contractor (and other activities as appropriate) of any functions withheld or additional functions delegated in the special instructions under subparagraph (2) above.

(e) *Contract administration office responsibilities.* For each contract assigned for administration, the CAO shall—

(1) Perform the functions listed in 42.302(a) to the extent that they apply to the contract, except for any functions specifically withheld under paragraph (b) above;

(2) Perform the functions listed in 42.302(b) to the extent that they apply and are specifically authorized by the contracting office;

(3) Serve as a focal point for inquiries and keep the contracting office and other interested activities advised concerning all pertinent matters related to administration of the contract;

(4) Request supporting contract administration under 42.204 when it is required; and

(5) Reassign contract administration under 42.206(a) if reassignment is required.

42.203 Retention of contract administration.

(a) Contracting offices shall retain for administration any contract (1) not requiring the performance of contract administration functions (see 42.302) at or near contractor facilities, or (2) for which retention by the contracting office is prescribed by agency acquisition regulations. However, 30.401 requires that retained contracts to which Cost Accounting Standards (CAS) apply be assigned for CAS administration only. Instructions for marking and distributing these contracts are provided in 4.201(c).

(b) Contracting offices or CAO's may request supporting contract administration under 42.204 for contracts for which they have contract administration responsibility. However, if a substantial proportion of the normal contract administration functions listed in 42.302(a) are to be requested, an official above the contracting officer's level shall review the validity of retaining administration while requesting extensive supporting contract administration.

42.204 Supporting contract administration.

(a) A CAO assigned a contract for administration under 42.202 or a contracting office retaining administration under 42.203 may request supporting contract administration from the CAO cognizant of the contractor location where performance of specific contract administration functions is required. The request shall (1) be in writing, (2) clearly state the specific functions to be performed, and (3) be accompanied by a copy of pertinent contractual and other necessary documents.

(b) The prime contractor is responsible for managing its subcontracts. The CAO's concern with subcontracts is normally limited to evaluating the prime contractor's management of them (see part 44). Therefore, supporting contract administration shall not be used for subcontracts unless (1) the Government would otherwise incur undue cost, (2) successful completion of the prime contract is threatened, or (3) it is authorized under paragraph (c) below or elsewhere in this regulation.

(c) For major system acquisitions (see part 34), the contracting officer may designate certain high-risk or critical subsystems or components for special surveillance (see 44.205) in addition to requesting supporting contract administration. This surveillance shall be conducted in a manner fully consistent with the policy of calling upon the cognizant CAO to perform contract administration functions at a contractor's facility (see subpart 42.1).

42.205 Designation of the paying office.

If the information is available, the contracting officer shall enter on the contract the name and address of the office designated under agency procedures to make payments on the contract. Unless agency acquisition regulations otherwise provide, the assignment of contract administration to a CAO does not affect the designation of the paying office.

42.206 Reassignment of contract administration.

(a) The administrative contracting officer at the CAO of initial assignment shall reassign a contract for administration when the need for reassignment results from (1) an incorrect initial assignment, (2) organizational transfer of the cognizant CAO, (3) establishment or disestablishment of a CAO, or (4) a change in a CAO's geographical responsibility.

(b) The contracting officer at the contracting office shall reassign a contract for administration when reasons other than those in paragraph (a) above make reassignment appropriate.

(c) To reassign a contract, the responsible contracting officer shall use a unilateral contract modification. The CAO of initial assignment shall transfer the contract file and necessary supporting documents to the successor CAO.

(d) When warranted by a change in circumstances and approved at a higher level, a contracting officer may recall a contract or function previously assigned for administration.

Subpart 42.3—Contract Administration Office Functions

42.301 General.

When a contract is assigned for administration under subpart 42.2, the contract administration office (CAO) shall perform contract administration functions in accordance with this regulation, the contract terms, and, unless otherwise agreed upon in formal cross-servicing arrangements (see 42.101(a)), the applicable regulations of the servicing agency.

42.302 Contract administration functions.

(a) The following are the normal contract administration functions to be performed by the cognizant CAO, to the extent they apply, as prescribed in 42.202:

(1) Review the contractor's compensation structure.

(2) Review the contractor's insurance plans.

(3) Conduct post-award orientation conferences.

(4) Review and evaluate contractors' proposals under subpart 15.8 and, when negotiation will be accomplished by the contracting officer, furnish comments and recommendations to that officer.

(5) Negotiate forward pricing rate agreements (see 15.809).

(6) Negotiate advance agreements applicable to treatment of costs under

contracts currently assigned for administration (see 31.109).

(7) Determine the allowability of costs suspended or disapproved as required (see subpart 42.8), direct the suspension or disapproval of costs when there is reason to believe they should be suspended or disapproved, and approve final vouchers.

(8) Issue Notices of Intent to Disallow or not Recognize Costs (see subpart 42.8).

(9) Establish final indirect cost rates and billing rates for those contractors meeting the criteria for contracting officer determination in subpart 42.7.

(10) Prepare findings of fact and issue decisions under the Disputes clause on matters in which the administrative contracting officer (ACO) has the authority to take definitive action.

(11) In connection with Cost Accounting Standards (see part 30)—

(i) Determine the adequacy of the contractor's disclosure statements;

(ii) Determine whether disclosure statements are in compliance with Cost Accounting Standards and part 31;

(iii) Determine the contractor's compliance with Cost Accounting Standards and disclosure statements, if applicable; and

(iv) Negotiate price adjustments and execute supplemental agreements under the Cost Accounting Standards clauses at 52.230-3, 52.230-4, and 52.230-5.

(12) Review and approve or disapprove the contractor's requests for payments under the progress payments clause.

(13) Make payments on assigned contracts when prescribed in agency acquisition regulations (see 42.205).

(14) Manage special bank accounts.

(15) Ensure timely notification by the contractor of any anticipated overrun or underrun of the estimated cost under cost-reimbursement contracts.

(16) Monitor the contractor's financial condition and advise the contracting officer when it jeopardizes contract performance.

(17) Analyze quarterly limitation on payments statements and recover overpayments from the contractor.

(18) Issue tax exemption certificates.

(19) Ensure processing and execution of duty-free entry certificates.

(20) For classified contracts, administer those portions of the applicable industrial security program designated as ACO responsibilities (see subpart 4.4).

(21) Issue work requests under maintenance, overhaul, and modification contracts.

(22) Negotiate prices and execute supplemental agreements for spare parts and other items selected through provisioning procedures when prescribed by agency acquisition regulations.

(23) Negotiate and execute contractual documents for settlement of partial and complete contract terminations for convenience, except as otherwise prescribed by part 49.

(24) Negotiate and execute contractual documents settling cancellation charges under multi-year contracts.

(25) Process and execute novation and change of name agreements under subpart 42.12.

(26) Perform property administration (see part 45).

(27) Approve contractor acquisition or fabrication of special test equipment under the clause at 52.245-18, Special Test Equipment.

(28) Perform necessary screening, redistribution, and disposal of contractor inventory.

(29) Issue contract modifications requiring the contractor to provide packing, crating, and handling services on excess Government property. When the ACO determines it to be in the Government's interests, the services may be secured from a contractor other than the contractor in possession of the property.

(30) In facilities contracts—

(i) Evaluate the contractor's requests for facilities and for changes to existing facilities and provide appropriate recommendations to the contracting officer;

(ii) Ensure required screening of facility items before acquisition by the contractor;

(iii) Approve use of facilities on a noninterference basis in accordance with the clause at 52.245-9, Use and Charges;

(iv) Ensure payment by the contractor of any rental due; and

(v) Ensure reporting of items no longer needed for Government production.

(31) Perform production support, surveillance, and status reporting, including timely reporting of potential and actual slippages in contract delivery schedules.

(32) Perform pre-award surveys (see subpart 9.1).

(33) Advise and assist contractors regarding their priorities and allocations responsibilities and assist contracting offices in processing requests for special assistance and for priority ratings for privately owned capital equipment.

(34) Monitor contractor industrial labor relations matters under the contract; apprise the contracting officer and, if designated by the agency, the cognizant labor relations advisor, of actual or potential labor disputes; and coordinate the removal of urgently required material from the strikebound contractor's plant upon instruction from, and authorization of, the contracting officer.

(35) Perform traffic management services, including issuance and control of Government bills of lading and other tran portation documents.

(36) Review the adequacy of the contractor's traffic operations.

(37) Review and evaluate preservation, packaging, and packing.

(38) Ensure contractor compliance with contractual quality assurance requirements (see part 46).

(39) Ensure contractor compliance with contractual safety requirements.

(40) Perform engineering surveillance to assess compliance with contractual terms for schedule, cost, and technical performance in the areas of design, development, and production.

(41) Evaluate for adequacy and perform surveillance of contractor engineering efforts and management systems that relate to design, development, production, engineering changes, subcontractors, tests, management of engineering resources, reliability and maintainability, data control systems, configuration management, and independent research and development.

(42) Review and evaluate for techn cal adequacy the contractor's logisti support, maintenance, and modific tion programs.

(43) Report to the contracting offic any inadequacies noted in specific tions.

(44) Perform engineering analyses o contractor cost proposals.

(45) Review and analyze contractor proposed engineering and design stud ies and submit comments and recom mendations to the contracting office as required.

(46) Review engineering change proposals for proper classification, and when required, for need, technical adequacy of design, producibility, and impact on quality, reliability, schedule, and cost; submit comments to the contracting office.

(47) Assist in evaluating and make recommendations for acceptance or rejection of waivers and deviations.

(48) Evaluate and monitor the contractor's procedures for complying with procedures regarding restrictive markings on data.

(49) Monitor the contractor's value engineering program.

(50) Review, approve or disapprove, and maintain surveillance of the contractor's purchasing system (see part 44).

(51) Consent to the placement of subcontracts.

(52) Review, evaluate, and approve plant or division-wide small and small disadvantaged business master subcontracting plans.

(53) Obtain the contractor's currently approved company- or division-wide plans for small business and small disadvantaged business subcontracting for its commercial products, or, if there is no currently approved plan, assist the contracting officer in evaluating the plans for those products.

(54) Assist the contracting officer, upon request, in evaluating an offeror's proposed small business and small disadvantaged business subcontracting plans, including documentation of compliance with similar plans under prior contracts.

(55) By periodic surveillance, ensure the contractor's compliance with small business and small disadvantaged business subcontracting plans and any

labor surplus area contractual requirements; maintain documentation of the contractor's performance under and compliance with these plans and requirements; and provide advice and assistance to the firms involved, as appropriate.

(56) Maintain surveillance of flight operations.

(57) Assign and perform supporting contract administration.

(58) Ensure timely submission of required reports.

(59) Issue administrative changes, correcting errors or omissions in typing, contractor address, facility or activity code, remittance address, computations, which do not require additional contract funds, and other such changes (see 43.101).

(60) Cause release of shipments from contractor's plants according to the shipping instructions. When applicable, the order of assigned priority shall be followed; shipments within the same priority shall be determined by date of the instruction.

(61) Obtain contractor proposals for any contract price adjustments resulting from amended shipping instructions. ACO's shall review all amended shipping instructions on a periodic, consolidated basis to assure that adjustments are timely made. Except when the ACO has settlement authority, the ACO shall forward the proposal to the contracting office for contract modification. The ACO shall not delay shipments pending completion and formalization of negotiations of revised shipping instructions.

(62) Negotiate and/or execute supplemental agreements, as required, making changes in packaging subcontractors or contract shipping points.

(63) Cancel unilateral purchase orders when notified of nonacceptance by the contractor. The ACO shall notify the contracting officer when the purchase order is canceled.

(64) Negotiated and execute one-time supplemental agreements providing for the extension of contract delivery schedules up to 90 days on contracts with an assigned Critically Designator of C (see 42.1105). Notification that the contract delivery schedule is being extended shall be provided to the contracting office. Subsequent extensions on any individual contract shall be authorized only upon concurrence of the contracting office.

(65) Accomplish administrative closeout procedures (see 4.804-5).

(66) Determine that the contractor has a drug-free workplace program and drug free awareness program (see subpart 23.5).

(b) The CAO shall perform the following functions only when and to the the extent specifically authorized by the contracting office:

(1) Negotiate or negotiate and execute supplemental agreements incorporating contractor proposals resulting from change orders issued under the Changes clause. Before completing negotiations, coordinate any delivery schedule change with the contracting office.

(2) Negotiate prices and execute priced exhibits for unpriced orders issued by the contracting officer under basic ordering agreements.

(3) Negotiate or negotiate and execute supplemental agreements changing contract delivery schedules.

(4) Negotiate or negotiate and execute supplemental agreements providing for the deobligation of unexpended dollar balances considered excess to known contract requirements.

(5) Issue amended shipping instructions and, when necessary, negotiate and execute supplemental agreements incorporating contractor proposals resulting from these instructions.

(6) Negotiate changes to interim billing prices.

(7) Negotiate and definitize adjustments to contract prices resulting from exercise of an economic price adjustment clause (see subpart 16.2).

(8) Issue change orders and negotiate and execute resulting supplemental agreements under contracts for ship construction, conversion, and repair.

(9) Execute supplemental agreements on firm-fixed price supply contracts to reduce required contract line item quantities and deobligate excess funds when notified by the contractor of an inconsequential delivery shortage, and it is determined that such action is in the best interests of the Government, notwithstanding the default provisions of the contract. Such

action will be taken only upon the written request of the contractor and, in no event shall the total downward contract price adjustment resulting from an inconsequential delivery shortage exceed $250.00 or 5 percent of the contract price, whichever is less.

(10) Execute supplemental agreements to permit a chance in place of inspection at origin specified in firm fixed-price supply contracts awarded to nonmanufacturers, as deemed necessary to protect the Government's interests.

(c) Any additional contract administration functions not listed in 42.302(a) and (b), or not otherwise delegated, remain the responsibility of the contracting office.

[48 FR 42370, Sept. 19, 1983, as amended at 54 FR 34756, Aug. 21, 1989; 54 FR 48989, Nov. 28, 1989; 55 FR 21708, May 25, 1990; 55 FR 38517, Sept. 18, 1990]

Subpart 42.4—Correspondence and Visits

42.401 Contract correspondence.

(a) The contracting officer (or other contracting agency personnel) normally shall (1) forward correspondence relating to assigned contract administration functions through the cognizant contract administration office (CAO) to the contractor and (2) provide a copy for the CAO's file. When urgency requires sending such correspondence directly to the contractor, a copy shall be sent concurrently to the CAO.

(b) The CAO shall send the contracting office a copy of pertinent correspondence conducted between the CAO and the contractor.

42.402 Visits to contractors' facilities.

(a) Government personnel planning to visit a contractor's facility in connection with one or more Government contracts shall provide prior notification to the cognizant CAO, with the following information, sufficiently in advance to permit the CAO to make necessary arrangements. Such notification is for the purpose of eliminating duplicative reviews, requests, investigations, and audits relating to the contract administration functions in subpart 42.3 delegated to CAO's and shall, as a minimum, include the following (see also paragraph (b) of this section):

(1) Visitors' names, official positions, and security clearances.

(2) Date and duration of visit.

(3) Name and address of contractor and personnel to be contacted.

(4) Contract number, program involved, and purpose of visit.

(5) If desired, visitors to a contractor's plant may request that a representative of the CAO accompany them. In any event, the CAO has final authority to decide whether a representative shall accompany a visitor.

(b) If the visit will result in reviewing, auditing, or obtaining any information from the contractor relating to contract administration functions, the prospective visitor shall identify the information in sufficient detail so as to permit the CAO, after consultation with the contractor and the cognizant audit office, to determine whether such information, adequate to fulfill the requirement, has recently been reviewed by or is available within the Government. If so, the CAO will discourage the visit and refer the prospective visitor to the Government office where such information is located. Where the office is the CAO, such information will be immediately forwarded or otherwise made available to the requestor.

(c) Visitors shall fully inform the CAO of any agreements reached with the contractor or other results of the visit that may affect the CAO.

[48 FR 42370, Sept. 19, 1983, as amended at 53 FR 662, Jan. 11, 1988; 53 FR 17859, May 18, 1988]

42.403 Evaluation of contract administration offices.

Onsite inspections or evaluations of the performance of the assigned functions of a contract administration office shall be accomplished only by or under the direction of the agency of which that office is a part.

Subpart 42.5—Postaward Orientation

42.500 Scope of subpart.

This subpart prescribes policies and procedures for the postaward orientation of contractors and subcontractors through (a) a conference or (b) a letter or other form of written communication.

42.501 General.

(a) A postaward orientation aids both Government and contractor personnel to (1) achieve a clear and mutual understanding of all contract requirements and (2) identify and resolve potential problems. However, it is not a substitute for the contractor's fully understanding the work requirements at the time offers are submitted, nor is it to be used to alter the final agreement arrived at in any negotiations leading to contract award.

(b) Postaward orientation is encouraged to assist small business and small disadvantaged business concerns (see part 19).

(c) While cognizant Government or contractor personnel may request the contracting officer to arrange for orientation, it is up to the contracting officer to decide whether a postaward orientation in any form is necessary.

(d) Maximum benefits will be realized when orientation is conducted promptly after award.

42.502 Selecting contracts for postaward orientation.

When deciding whether postaward orientation is necessary and, if so, what form it shall take, the contracting officer shall consider, as a minimum, the—

(a) Nature and extent of the preaward survey and any other prior discussions with the contractor;

(b) Type, value, and complexity of the contract;

(c) Complexity and acquisition history of the product or service;

(d) Requirements for spare parts and related equipment;

(e) Urgency of the delivery schedule and relationship of the product or service to critical programs;

(f) Length of the planned production cycle;

(g) Extent of subcontracting;

(h) Contractor's performance history and experience with the product or service;

(i) Contractor's status, if any, as a small business or small disadvantaged business concern;

(j) Contractor's performance history with small business and small disadvantaged business subcontracting programs;

(k) Safety precautions required for hazardous materials or operations; and

(l) Complex financing arrangements, such as progress payments, advance payments, or guaranteed loans.

42.503 Postaward conferences.

42.503-1 Postaward conference arrangements.

(a) The contracting officer who decides that a conference is needed is responsible for—

(1) Establishing the time and place of the conference;

(2) Preparing the agenda, when necessary;

(3) Notifying appropriate Government representatives (e.g., contracting/contract administration office) and the contractor;

(4) Designating or acting as the chairperson;

(5) Conducting a preliminary meeting of Government personnel; and

(6) Preparing a summary report of the conference.

(b) When the contracting office initiates a conference, the arrangements may be made by that office or, at its request, by the contract administration office.

42.503-2 Postaward conference procedure.

The chairperson of the conference shall conduct the meeting. Unless a contract change is contemplated, the chairperson shall emphasize that it is not the purpose of the meeting to change the contract. The contracting officer may make commitments or give directions within the scope of the contracting officer's authority and shall put in writing and sign any commitment or direction, whether or not it changes the contract. Any change to the contract that results from the postaward conference shall be made only by a contract modification (see 43.101) referencing the applicable terms of the contract. Participants without authority to bind the Government shall not take action that in any way alters the contract. The chairperson shall include in the summary report (see 42.503-3 below) all information and guidance provided to the contractor.

42.503-3 Postaward conference report.

The chairperson shall prepare and sign a report of the postaward conference. The report shall cover all items discussed, including areas requiring resolution, controversial matters, the names of the participants assigned responsibility for further actions, and the due dates for the actions. The chairperson shall furnish copies of the report to the contracting office, the contract administration office, the contractor, and others who require the information.

42.504 Postaward letters.

In some circumstances, a letter or other written form of communication to the contractor may be adequate postaward orientation (in lieu of a conference). The letter should identify the Government representative responsible for administering the contract and cite any unusual or significant contract requirements. The rules on changes to the contract in 42.503-2 also apply here.

42.505 Postaward subcontractor conferences.

(a) The prime contractor is generally responsible for conducting postaward conferences with subcontractors. However, the prime contractor may invite Government representatives to a conference with subcontractors, or the Government may request that the prime contractor initiate a conference with subcontractors. The prime contractor should ensure that representatives from involved contract administration offices are invited.

(b) Government representatives (1) must recognize the lack of privity of contract between the Government and subcontractors, (2) shall not take action that is inconsistent with or alters subcontracts, and (3) shall ensure that any changes in direction or commitment affecting the prime contract or contractor resulting from a subcontractor conference are made by written direction of the contracting officer to the prime contractor in the same manner as described in 42.503-2.

Subpart 42.6—Corporate Administrative Contracting Officer

42.601 General.

Contractors with more than one operational location (e.g., division, plant, or subsidiary) often have corporate-wide policies, procedures, and activities requiring Government review and approval and affecting the work of more than one administrative contracting officer (ACO). In these circumstances, effective and consistent contract administration may require the assignment of a corporate administrative contracting officer (CACO) to deal with corporate management and to perform selected contract administration functions on a corporate-wide basis.

42.602 Assignment and location.

(a) A CACO may be assigned only when (1) the contractor has at least two locations with resident ACO's or (2) the need for a CACO is approved by the agency head or designee (for this purpose, a nonresident ACO will be considered as resident if at least 75 percent of the ACO's effort is devoted to a single contractor). One of the resident ACO's may be designated to perform the CACO functions, or a full-time CACO may be assigned. In determining the location of the CACO, the responsible agency shall take into account such factors as the location(s) of the corporate records, corporate office, major plant, cognizant government auditor, and overall cost effectiveness.

(b) A decision to initiate or discontinue a CACO assignment should be based on such factors as (1) the benefits of coordination and liaison at the corporate level, (2) the volume of Government sales, (3) the degree of control exercised by the contractor's corporate office over Government-oriented lower-tier operating elements, and (4) the impact of corporate policies and procedures on those elements.

(c) Responsibility for assigning a CACO shall be determined as follows:

(1) When all locations of a corporate entity are under the contract administration cognizance of a single agency, that agency is responsible.

(2) When the locations are under the contract administration cognizance of more than one agency, the agencies concerned shall agree on the responsible agency (normally on the basis of the agency with the largest unliquidated dollar balance of affected contracts). In such cases, agencies may sometimes also consider geographic location.

(d) The directory of contract administration components referenced in 42.102(a) includes a listing of CACO's and the contractors for which they are assigned responsibility. When the directory indicates that the services of a CACO are available, the provisions of subpart 42.1 apply to the CACO functions.

42.603 Responsibilities.

(a) The CACO shall perform, on a corporate-wide basis, the contract administration functions (see subpart 42.3) as designated by the responsible agency. Typical CACO functions include (1) the determination of final indirect cost rates for cost-reimbursement contracts, (2) establishment of advance agreements or recommendations on corporate/home office expense allocations, and (3) administration of Cost Accounting Standards (CAS) applicable to corporate-level and corporate-directed accounting practices.

(b) The CACO shall—

(1) Fully utilize the cognizant contract audit agency financial and advisory accounting services, including (i) advice regarding the acceptability of corporate-wide policies and (ii) advisory audit reports;

(2) Keep cognizant ACO's and auditors informed of important matters under consideration and determinations made; and

(3) Solicit their advice and participation as appropriate.

Subpart 42.7—Indirect Cost Rates

42.700 Scope of subpart.

This subpart prescribes policies and procedures for establishing (a) billing rates and (b) final indirect cost rates.

42.701 Definitions.

Billing rate means an indirect cost rate (a) established temporarily for interim reimbursement of incurred indirect costs and (b) adjusted as necessary pending establishment of final indirect cost rates.

Business unit (see 30.102).

Final indirect cost rate means the indirect cost rate established and agreed upon by the Government and the contractor as not subject to change. It is usually established after the close of the contractor's fiscal year (unless the parties decide upon a different period) to which it applies. In the case of cost-reimbursement research and development contracts with educational institutions, it may be predetermined; that is, established for a future period on the basis of cost experience with similar contracts, together with supporting data.

Indirect cost (see 31.001 and 31.203).

Indirect cost rate means the percentage or dollar factor that expresses the ratio of indirect expense incurred in a given period to direct labor cost, manufacturing cost, or another appropriate base for the same period.

42.702 Purpose.

(a) Establishing final indirect cost rates under this subpart provides—

(1) Uniformity of approach with a contractor when more than one contract or agency is involved;

(2) Economy of administration; and

(3) Timely settlement under cost-reimbursement contracts.

(b) Establishing billing rates provides a method for interim reimbursement of indirect costs at estimated rates subject to adjustment during contract performance and at the time the final indirect cost rates are established.

42.703 Policy.

(a) A single agency (see 42.705-1(a)) shall be responsible for establishing indirect cost rates for each business unit. These rates shall be binding on all agencies and their contracting offices, unless otherwise specifically prohibited by statute.

(b) Billing rates and final indirect cost rates shall be used in reimbursing indirect costs under cost-reimbursement contracts and in determining progress payments under fixed-price contracts.

(c) Contracting officers shall—

(1) Unless the quick-closeout procedure in 42.708 is used, use final indirect cost rates of a business unit for a given period, which shall be binding for all the cost-reimbursement contracts of the business unit for that period, subject to any specific limitation in a contract or advance agreement (when contracts of more than one agency are involved, see 42.101(c)); and

(2) Take into consideration established final indirect cost rates in negotiating the final price of fixed-price incentive and fixed-price redeterminable contracts and in other situations requiring that indirect costs be settled before contract prices are established (see 31.103(b)).

42.704 Billing rates.

(a) The contracting officer or auditor responsible under 42.705 for determining the final indirect cost rate ordinarily shall also be responsible for determining the billing rate.

(b) The contracting officer or auditor shall establish a billing rate on the basis of information resulting from recent review, previous audits or experience, or similar reliable data or experience of other contracting activities. In establishing the billing rate, the contracting officer or auditor should ensure that it is as close as possible to the final indirect cost rate anticipated for the contractor's fiscal period, as adjusted for any unallowable costs. When the contracting officer or auditor determines that the dollar value of contracts requiring use of a billing rate does not warrant submission of a detailed billing rate proposal, the billing rate may be established by making appropriate adjustments from the prior year's indirect cost experience to eliminate unallowable and nonrecurring costs and to reflect new or changed conditions.

(c) Once established, billing rates may be prospectively or retroactively revised by mutual agreement of the contracting officer or auditor and the contractor at either party's request, to prevent substantial overpayment or underpayment.

(d) The elements of indirect cost and the base or bases used in computing billing rates shall not be construed as determinative of the indirect costs to be distributed or of the bases of distribution to be used in the final settlement.

42.705 Final indirect cost rates.

Final indirect cost rates shall be established on the basis of (a) contracting officer determination procedure (see 42.705-1) or (b) auditor determination procedure (see 42.705-2).

42.705-1 Contracting officer determination procedure.

(a) *Applicability and responsibility.* Contracting officer determination shall be used for the following, with the indicated cognizant contracting officer responsible for establishing the final indirect cost rates:

(1) Business units of a multidivisional corporation under the cognizance of a corporate administrative contracting officer (see subpart 42.6), with that officer responsible for the determination, assisted, as required, by the administrative contracting officers assigned to the individual business units. Negotiations may be conducted on a coordinated or centralized basis, depending upon the degree of centralization within the contractor's organization.

(2) Business units not under the cognizance of a corporate administrative contracting officer, but having a resident administrative contracting officer (see 42.602), with that officer responsible for the determination. For this purpose, a nonresident administrative contracting officer is considered as resident if at least 75 percent of the administrative contracting officer's time is devoted to a single contractor.

(3) Business units not included in subparagraph (1) or (2) above, but where the predominant interest (on the basis of unliquidated contract dollar amount) is in an agency whose procedures require contracting officer determination. In such cases, the responsible contracting officer will be as

designated under that agency's procedures.

(4) Educational institutions (see 42.705-3 for responsibility and procedures).

(5) State and local governments (see 42.705-4).

(6) Nonprofit organizations other than educational and state and local governments (see 42.705-5).

(b) *Procedures.* (1) In accordance with the Allowable Cost and Payment clause at 52.216-7 or 52.216-13, the contractor shall submit to the contracting officer and, if required by agency procedures, to the cognizant auditor a final indirect cost rate proposal reflecting actual cost experience during the covered period, together with supporting cost or pricing data.

(2) The auditor shall submit to the contracting officer an advisory audit report (i) identifying any relevant advance agreements or restrictive terms of specific contracts and (ii) including the information required by 15.805-5(e).

(3) The contracting officer shall head the Government negotiating team, which includes the cognizant auditor and technical or functional personnel as required. Contracting offices having significant dollar interest shall be invited to participate in the negotiation and in the preliminary discussion of critical issues. Individuals or offices that have provided a significant input to the Government position should be invited to attend.

(4) The Government negotiating team shall develop a negotiation position.

(5) The cognizant contracting officer shall—

(i) Conduct negotiations;

(ii) Prepare a written indirect cost rate agreement conforming to the requirements of the contracts;

(iii) Prepare, sign, and place in the contractor general file (see 4.801(c)(3)) a negotiation memorandum covering (A) the disposition of significant matters in the advisory audit report, (B) reconciliation of all costs questioned, with identification of items and amounts allowed or disallowed in the final settlement as well as the disposition of period costing or allocability issues, (C) reasons why any recommendations of the auditor or other Government advisors were not followed, and (D) identification of cost or pricing data submitted during the negotiations and relied upon in reaching a settlement; and

(iv) Distribute resulting documents in accordance with 42.706.

42.705-2 Auditor determination procedure.

(a) *Applicability and responsibility.* (1) The cognizant Government auditor shall establish final indirect cost rates for business units not covered in 42.705-1(a).

(2) In addition, auditor determination may be used for business units that are covered in 42.705-1(a) when the contracting officer and auditor agree that the indirect costs can be settled with little difficulty and any of the following circumstances apply:

(i) The business unit has primarily fixed-price contracts, with only minor involvement in cost-reimbursement contracts.

(ii) The administrative cost of contracting officer determination would exceed the expected benefits.

(iii) The business unit does not have a history of disputes and there are few cost problems.

(iv) The contracting officer and auditor agree that special circumstances require auditor determination.

(b) *Procedures.* (1) The contractor shall submit to the cognizant contracting officer and auditor a final indirect cost rate proposal reflecting actual cost experience during the covered period, together with supporting cost or pricing data.

(2) The auditor shall—

(i) Audit the proposal and seek agreement on it with the contractor;

(ii) Obtain from the contractor a Certificate of Current Cost or Pricing Data, if required (see 15.804-4);

(iii) In coordination with the affected contracting officers, prepare an indirect cost rate agreement conforming to the requirements of the contracts;

(iv) Prepare an audit report including the information required by 15.805-5(e);

(v) If agreement with the contractor is not reached, forward the audit report to the contracting officer designated by the agency with the predominant interest (on the basis of unliquidated contract dollar amounts) or, where applicable, the contracting officer designated in 42.705-2(a)(2) above, who will then resolve the disagreement; and

(vi) Distribute resulting documents in accordance with 42.706.

42.705-3 Educational institutions.

(a) *General.* (1) Postdetermined final indirect cost rates shall be used in the settlement of indirect costs for all cost-reimbursement contracts with educational institutions, unless predetermined final indirect cost rates are authorized and used (see paragraph (b) below).

(2) OMB Circular No. A-88, Indirect Cost Rates, Audit, and Audit Followup at Educational Institutions, (i) assigns each educational institution to a single Government agency for the negotiation of indirect cost rates and (ii) provides that those rates shall be accepted by all Federal agencies. Cognizant Government agencies and educational institutions are listed in the Directory of Federal Contract Audit Offices (see 42.102(a)).

(3) The cognizant agency shall establish the billing rates and final indirect cost rates at the educational institution, consistent with the requirements of this subpart, subpart 31.3, and the OMB Circular. The agency shall follow the procedures outlined in 42.705-1(b).

(4) If the cognizant agency is unable to reach agreement with an institution, the appeals system of the cognizant agency shall be followed for resolution of the dispute.

(b) *Predetermined final indirect cost rates.* (1) Under cost-reimbursement research and development contracts with universities, colleges, or other educational institutions (41 U.S.C. 254a), payment for reimbursable indirect costs may be made on the basis of predetermined final indirect cost rates. The cognizant agency is not required to establish predetermined rates, but if they *are* established, their use must be extended to all the institution's Government contracts.

(2) In deciding whether the use of predetermined rates would be appropriate for the educational institution concerned, the agency should consider both the stability of the institution's indirect costs and bases over a period of years and any anticipated changes in the amount of the direct and indirect costs.

(3) Unless their use is approved at a level in the agency (see subparagraph (a)(2) above) higher than the contracting officer, predetermined rates shall not be used when—

(i) There has been no recent audit of the indirect costs;

(ii) There have been frequent or wide fluctuations in the indirect cost rates and the bases over a period of years; or

(iii) The estimated reimbursable costs for any individual contract are expected to exceed $1 million annually.

(4) (i) If predetermined rates are to be used and no rate has been previously established for the institution's current fiscal year, the agency shall obtain from the institution a proposal for a predetermined rate to be applied until the end of the fiscal year.

(ii) If the proposal is found to be generally acceptable, the agency shall negotiate the predetermined rates with the institution. The rates should be based on an audit of the institution's costs for the year immediately preceding the year in which the rates are being negotiated. If this is not possible, an earlier audit may be used, but appropriate steps should be taken to identify and evaluate significant variations in costs incurred or in bases used that may have a bearing on the reasonableness of the proposed rates. However, in the case of smaller contracts (e.g., $100,000 or less), an audit made at an earlier date is acceptable if (A) there have been no significant changes in the contractor's organization and (B) it is reasonably apparent that another audit would have little effect on the rates finally agreed upon and the potential for overpayment of indirect cost is relatively insignificant.

(5) If predetermined rates are used—

(i) The contracting officer shall include the negotiated rates and bases in the contract Schedule; and

(ii) See 16.307(i), which prescribes
ne clause at 52.216-15, Predetermined
ndirect Cost Rates.

(6) Predetermined indirect cost rates
nall be applicable for a period of not
nore than 1 year. The agency shall
btain the contractor's proposal for a
ew predetermined rate sufficiently in
dvance so that the new rate, based on
urrent data, may be promptly negoti-
ted near the beginning of the new
scal year (see paragraphs (b) and (d)
f the clause at 52.216-15, Predeter-
ined Indirect Cost Rates).

(7) Contracting officers shall use
illing rates established by the agency
reimburse the contractor for work
erformed during a period not covered
y predetermined rates.

.705-4 State and local governments.

OMB Circular No. A-87 concerning
ost principles for state and local gov-
nments (see subpart 31.6) estab-
shes the cognizant agency concept
nd procedures for determining a cog-
izant agency for approving state and
cal government indirect costs associ-
ted with federally-funded programs
nd activities. The indirect cost rates
egotiated by the cognizant agency
ill be used by all Federal agencies
at also award contracts to these
me state and local governments.

.705-5 Nonprofit organizations other than educational and state and local governments.

See OMB Circular No. A-122.

.706 Distribution of documents.

(a) The contracting officer or audi-
r shall promptly distribute executed
pies of the indirect cost rate agree-
ent to the contractor and to each af-
cted contracting agency and shall
ovide copies of the agreement for
e contract files, in accordance with
e guidance for contract modifica-
ns in subpart 4.2, Contract Distribu-
n.

b) Copies of the negotiation memo-
dum prepared under contracting
icer determination or audit report
pared under auditor determination
ll be furnished, as appropriate, to
contracting offices and Govern-
nt audit offices.

42.707 Cost-sharing rates and limitations on indirect cost rates.

(a) Cost-sharing arrangements, when authorized, may call for the contractor to participate in the costs of the contract by accepting indirect cost rates lower than the anticipated actual rates. In such cases, a negotiated indirect cost rate ceiling may be incorporated into the contract for prospective application. For cost sharing under research and development contracts, see 35.003(b).

(b) (1) Other situations may make it prudent to provide a final indirect cost rate ceiling in a contract. Examples of such circumstances are when the proposed contractor—

(i) Is a new or recently reorganized company, and there is no past or recent record of incurred indirect costs;

(ii) Has a recent record of a rapidly increasing indirect cost rate due to a declining volume of sales without a commensurate decline in indirect expenses; or

(iii) Seeks to enhance its competitive position in a particular circumstance by basing its proposal on indirect cost rates lower than those that may reasonably be expected to occur during contract performance, thereby causing a cost overrun.

(2) In such cases, an equitable ceiling covering the final indirect cost rates may be negotiated and specified in the contract.

(c) When ceiling provisions are utilized, the contract shall also provide that (1) the Government will not be obligated to pay any additional amount should the final indirect cost rates exceed the negotiated ceiling rates and, (2) in the event the final indirect cost rates are less than the negotiated ceiling rates, the negotiated rates will be reduced to conform with the lower rates.

42.708 Quick-closeout procedure.

(a) The contracting officer responsible for contract closeout may negotiate the settlement of indirect costs for a specific contract, in advance of the determination of final indirect cost rates, if—

(1) The contract is physically complete;

(2) The amount of unsettled indirect cost to be allocated to the contract is relatively insignificant; and

(3) Agreement can be reached on a reasonable estimate of allocable dollars.

(b) Determinations of final indirect costs under the quick-closeout procedure provided for by the Allowable Cost and Payment clause at 52.216-7 or 52.216-13 shall be final for the contract it covers and no adjustment shall be made to other contracts for over- or under-recoveries of costs allocated or allocable to the contract covered by the agreement.

(c) Indirect cost rates used in the quick closeout of a contract shall not be considered a binding precedent when establishing the final indirect cost rates for other contracts.

Subpart 42.8—Disallowance of Costs

42.800 Scope of subpart.

This subpart prescribes policies and procedures for (a) issuing notices of intent to disallow costs and (b) disallowing costs already incurred during the course of performance.

42.801 Notice of intent to disallow costs.

(a) At any time during the performance of a contract of a type referred to in 42.802, the cognizant contracting officer responsible for administering the contract may issue the contractor a written notice of intent to disallow specified costs incurred or planned for incurrence. However, before issuing the notice, the contracting officer responsible for administering the contract shall make every reasonable effort to reach a satisfactory settlement through discussions with the contractor.

(b) A notice of intent to disallow such costs usually results from monitoring contractor costs. The purpose of the notice is to notify the contractor as early as practicable during contract performance that the cost is considered unallowable under the contract terms and to provide for timely resolution of any resulting disagreement. In the event of disagreement, the contractor may submit to the contracting officer a written response. Any such response shall be answered by withdrawal of the notice or by making a written decision within 60 days.

(c) As a minimum, the notice shall—

(1) Refer to the contract's Notice of Intent to Disallow Costs clause;

(2) State the contractor's name and list the numbers of the affected contracts;

(3) Describe the costs to be disallowed, including estimated dollar value by item and applicable time periods, and state the reasons for the intended disallowance;

(4) Describe the potential impact on billing rates and forward pricing rate agreements;

(5) State the notice's effective date and the date by which written response must be received;

(6) List the recipients of copies of the notice; and

(7) Request the contractor to acknowledge receipt of the notice.

(d) The contracting officer issuing the notice shall furnish copies to all contracting officers cognizant of any segment of the contractor's organization.

(e) If the notice involves elements of indirect cost, it shall not be issued without coordination with the contracting officer or auditor having authority for final indirect cost settlement (see 42.705).

(f) In the event the contractor submits a response that disagrees with the notice (see paragraph (b) above), the contracting officer who issued the notice shall either withdraw the notice or issue the written decision, except when elements of indirect cost are involved, in which case the contracting officer responsible under 42.705 for determining final indirect cost rates shall issue the decision.

42.802 Contract clause.

The contracting officer shall insert the clause at 52.242-1, Notice of Intent to Disallow Costs, in solicitations and contracts when a cost-reimbursement contract, a fixed-price incentive contract, or a contract providing for price redetermination is contemplated.

42.803 Disallowing costs after incurrence.

Cost-reimbursement contracts, the cost-reimbursement portion of fixed-price contracts, letter contracts that provide for reimbursement of costs, and time-and-material and labor-hour contracts provide for disallowing costs during the course of performance after the costs have been incurred. The following procedures shall apply:

(a) *Contracting officer receipt of vouchers.* When contracting officers receive vouchers directly from the contractor and, with or without auditor assistance, approve or disapprove them, the process shall be conducted in accordance with the normal procedures of the individual agency.

(b) *Auditor receipt of vouchers.* (1) When authorized by agency regulations, the contract auditor may be authorized to (i) receive reimbursement vouchers directly from contractors, (ii) approve for payment those vouchers found acceptable, and (iii) suspend payment of questionable costs. The auditor shall forward approved vouchers for payment to the cognizant contracting, finance, or disbursing officer, as appropriate under the agency's procedures.

(2) If the examination of a voucher raises a question regarding the allowability of a cost under the contract terms, the auditor, after informal discussion as appropriate, may, where authorized by agency regulations, issue a notice of contract costs suspended and/or disapproved simultaneously to the contractor and the disbursing officer, with a copy to the cognizant contracting officer, for deduction from current payments with respect to costs claimed but not considered reimbursable.

(3) If the contractor disagrees with the deduction from current payments, the contractor may—

(i) Submit a written request to the cognizant contracting officer to consider whether the unreimbursed costs should be paid and to discuss the findings with the contractor;

(ii) File a claim under the Disputes clause, which the cognizant contracting officer will process in accordance with agency procedures; or

(iii) Do both of the above.

Subpart 42.9—[Reserved]

Subpart 42.10—Negotiating Advance Agreements for Independent Research and Development/Bid and Proposal Costs

42.1001 Definitions.

See 31.205-18(a).

42.1002 Applicability.

The procedures in this subpart shall be used for negotiating advance agreements containing dollar ceilings for allowability of independent research and development (IR&D) costs and bid and proposal (B&P) costs, when these agreements are required by 31.205-18(c)(1).

42.1003 Designation of lead negotiating agency.

A single lead agency shall negotiate all required advance agreements for IR&D/B&P costs for each company required to negotiate an advance agreement under 31.205-18(c)(1). These agreements are binding on the company and on all Government agencies, unless prohibited by statute. The lead agency shall be designated as follows:

(a) To implement section 203 of Pub. L. 91-441, as amended by section 208 of Pub. L. 96-342, the Department of Defense (DOD) shall be the lead agency for each company receiving combined IR&D/B&P payments from DOD during the company's previous fiscal year exceeding the threshold in 31.205-18(c)(1).

(b) When DOD is not the lead agency as indicated in paragraph (a) preceding, and more than one agency has contracts with the company, the agency that paid the largest dollar amount of IR&D/B&P costs in the company's previous fiscal year shall (1) be the lead agency or (2) arrange for another agency having contracts with that company to be the lead agency.

(c) In the case of DOD, the term *lead negotiating agency* means the military service responsible for performing the negotiation of IR&D/B&P costs.

42.1004 Location of negotiators in a central office.

In order to facilitate participation, consistency, and interagency coordination, agencies with negotiating responsibilities shall locate at a central office(s) all personnel responsible for negotiating and executing advance agreements required under 31.205-18(c)(1). These agencies shall issue instructions on the use, by contracting officers, of estimated IR&D/B&P factors in forward pricing, interim billings, etc. Contracting officers shall obtain such factors, when applicable, from the cognizant central office.

42.1005 Lead negotiating agency responsibilities.

The lead agency shall perform the functions listed in paragraphs (a) through (h) following:

(a) Furnish contractors with guidance on the technical and financial information needed to support IR&D/B&P proposals, as well as how and when to submit the proposals.

(b) Perform, or arrange for performance of, a technical evaluation of the IR&D proposed by the contractor, to assist the contracting officer in evaluating the reasonableness and technical quality of the IR&D program. The technical evaluation shall include an opinion concerning the proposed IR&D program and any agency special rules on allowability.

(c) Provide the contractor with a contracting officer's determination concerning the proposed IR&D/B&P projects and any agency special rules on allowability.

(d) When advance agreements have not yet been negotiated, provide information regarding estimated ceilings, the allocation base, and indirect rate data, as appropriate, to contracting officers or other interested agency personnel who require information on IR&D/B&P costs for forward pricing and interim billing.

(e) Coordinate participation by affected agencies in prenegotiation meetings and in negotiations (see 31.109(f)).

(f) Prepare a prenegotiation position in coordination with the affected agencies.

(g) Negotiate advance agreements e
tablishing dollar ceilings for IR&D
B&P costs allowable during the com
pany's fiscal year for allocation to al
work of that part of the company's op
eration covered by the agreement.

(h) Prepare advance agreements an
distribute them to affected agencie
(see 31.109(g)).

(i) Prepare negotiation memoran
dums and distribute them to affecte
agencies upon request. The contract
ing officer may delete from the dis
tributed copy portions of a memoran
dum that are not pertinent to the af
fected agency. When a negotiatio
memorandum must contain compan
data subject to protection, that dat
should be so marked, and, when it i
useful and feasible to do so, it may b
separated from the body of the memo
randum.

42.1006 Conducting negotiations.

(a) Each contractor required to ne
gotiate an advance agreement unde
31.205-18(c)(1) shall submit, in accord
ance with agency guidance, technica
and financial information to suppor
its proposed IR&D/B&P program
(see 42.1005(a)). Separate dollar ceil
ings shall be negotiated for IR&D
costs and for B&P costs. In negotiat
ing the ceilings, in addition to othe
considerations, contracting officer
shall pay particular attention to—

(1) Comparison with the previous year's programs, including the level of Government participation;

(2) Changes in the company's current business activities and projected future business activities, to the extent these future activities can be determined with reasonable certainty;

(3) The results of the technical evaluation of IR&D;

(4) The extent to which the company's B&P program is well planned and managed; and

(5) The determination concerning the company's IR&D/B&P projects and any agency special rules on allowability.

(b) Negotiated ceilings must take into account the general rules of reasonableness (see 31.201-3) and the preceding considerations.

42.1007 Content of advance agreements.

Agreements negotiated in accordance with this subpart shall include the items specified in paragraphs (a) through (j) following:

(a) A dollar ceiling for total IR&D costs.

(b) A dollar ceiling for total B&P costs.

(c) A total dollar ceiling for IR&D/B&P costs equal to the sum of paragraphs (a) and (b) above.

(d) The base or other information necessary for allocating IR&D/B&P costs.

(e) A statement that a review in accordance with 42.1005 has been performed.

(f) For those companies meeting the threshold requirements, a provision that the recovery of IR&D/B&P costs under Government contracts shall not exceed the lesser of—

(1) Such contracts' allocable share of incurred costs up to the total ceiling specified in (c) above; or

(2) The amount of incurred costs as determined under any agency special rules on allowability.

(g) Any additional agreements concerning the allocability or allowability of IR&D costs or B&P costs.

(h) A provision stating whether recovery is authorized under either paragraph (a) or (b) above in excess of the established ceiling, provided the total recovery in the two categories does not exceed the total ceiling in paragraph (c) above.

(i) A requirement that the lesser of (1) the current IR&D/B&P estimates or (2) the appropriate ceiling amounts shall be used by the Government and the contractor for estimating and pricing contractual actions. (Also see (e) above.)

(j) A requirement that the lesser of (1) the actual costs incurred or (2) the appropriate ceiling amounts shall be used by the Government and the contractor for final price determinations. (Also see (f) above.)

42.1008 Administrative appeals.

If negotiations are held and an advance agreement is not reached, the contracting officer shall make a determination of a reduced amount of payment for IR&D/B&P (see 31.205-18(c)(1)(v) and (vi)). Each lead negotiating agency shall establish an administrative appeals hearing group and procedures for hearing and deciding contractor appeals of the contracting officer's decision to reduce payment. Appeal procedures under this section are separate and distinct from board or court appeals under the Contract Disputes Act of 1978 (41 U.S.C. 601-613).

Subpart 42.11—Production Surveillance and Reporting

42.1101 General.

Production surveillance is a function of contract administration used to determine contractor progress and to identify any factors that may delay performance. Production surveillance involves Government review and analysis of (a) contractor performance plans, schedules, controls, and industrial processes and (b) the contractor's actual performance under them.

42.1102 Applicability.

This subpart applies to all contracts for supplies or services other than facilities, construction contracts, and Federal Supply Schedule contracts.

42.1103 Policy.

The contractor is responsible for timely contract performance. The Government will maintain surveillance of contractor performance as necessary to protect its interests. When the contracting office retains a contract for administration, the contracting officer administering the contract shall determine the extent of surveillance.

42.1104 Surveillance requirements.

(a) The contract administration office determines the extent of production surveillance on the basis of (1) the criticality (degree of importance to the Government) assigned by the contracting officer (see 42.1105) to the supplies or services and (2) consideration of the following factors:

(i) Contract requirements for reporting production progress and performance.

(ii) The contract performance schedule.

(iii) The contractor's production plan.

(iv) The contractor's history of contract performance.

(v) The contractor's experience with the contract supplies or services.

(vi) The contractor's financial capability.

(vii) Any supplementary written instructions from the contracting office.

(b) Contracts of values less than the small purchase threshold should not normally require production surveillance.

(c) In planning and conducting surveillance, contract administration offices shall make maximum use of any reliable contractor production control or data management systems.

(d) In performing surveillance, contract administration office personnel shall avoid any action that may (1) be inconsistent with any contract requirement or (2) result in claims of waivers, of changes, or of other contract modifications.

42.1105 Assignment of criticality designator.

Contracting officers shall assign a criticality designator to each contract in the space for designating the contract administration office, as follows:

Criticality Designator	Criterion
A	Critical contracts, including DX-rated contracts (see subpart 12.3), contracts citing the authority in 6.302-2 (unusual and compelling urgency), and contracts for major systems.
B	Contracts (other than those designated "A") for items needed to maintain a Government or contractor production or repair line, to preclude out-of-stock conditions or to meet user needs for nonstock items.
C	All contracts other than those designated "A" or "B."

[48 FR 42370, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

42.1106 Reporting requirements.

(a) When information on contract performance status is needed, contracting officers may require contractors to submit production progress reports (see 42.1107(a)). Reporting requirements shall be limited to that information essential to Government needs and shall take maximum adv
tage of data output generated by c
tractor management systems.

(b) Contract administration offi
shall review and verify the accuracy
contractor reports and advise the c
tracting officer of any required acti
The accuracy of contractor-prepar
reports shall be verified either by
program of continuous surveillance
the contractor's report-preparati
system or by individual review of ea
report.

(c) The contract administrati
office may at any time initiate
report to advise the contracting offic
(and the inventory manager, if one
designated in the contract) of any p
tential or actual delay in performan
This advice shall (1) be in writing, (
be provided in sufficient time for t
contracting officer to take necessa
action, and (3) provide a definite re
ommendation, if action is appropria

42.1107 Contract clause.

(a) The contracting officer sh
insert the clause at 52.242-2, Produ
tion Progress Reports, in solicitatio
and contracts when productio
progress reporting is required; unless
facilities contract, a construction co
tract, or a Federal Supply Schedu
contract is contemplated.

(b) When the clause at 52.242-2
used, the contracting officer sh
specify appropriate reporting instru
tions in the Schedule (see 42.1106(a)

Subpart 42.12—Novation and Change-of-Name Agreements

42.1200 Scope of subpart.

This subpart prescribes policies an
procedures for—

(a) Recognition of a successor in i
terest to Government contracts whe
contractor assets are transferred;

(b) Recognition of a change in a co
tractor's name; and

(c) Execution of novation agre
ments and change-of-name agreemen
by the responsible contracting offic

42.1201 Definitions.

Change-of-name agreement means
legal instrument executed by the co
tractor and the Government that re

ognizes the legal change of name of the contractor without disturbing the original contractual rights and obligations of the parties.

Novation agreement means a legal instrument executed by (a) the contractor (transferor), (b) the successor in interest (transferee), and (c) the Government by which, among other things, the transferor guarantees performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets.

42.1202 Responsibility for executing agreements.

The contracting officer responsible for processing and executing novation and change-of-name agreements shall be determined as follows:

(a) If any of the affected contracts held by the transferor have been assigned to an administrative contracting officer (ACO) (see 2.1 and 42.202), the responsible contracting officer shall be—

(1) This ACO; or

(2) The ACO responsible for the corporate office, if affected contracts are in more than one plant or division of the transferor.

(b) If none of the affected contracts held by the transferor have been assigned to an ACO, the contracting officer responsible for the largest unsettled (unbilled plus billed but unpaid) dollar balance of contracts shall be the responsible contracting officer.

(c) If several transferors are involved, the responsible contracting officer shall be—

(1) The ACO administering the largest unsettled dollar balance; or

(2) The contracting officer (or ACO) designated by the agency having the largest unsettled dollar balance, if none of the affected contracts have been assigned to an ACO.

42.1203 Processing agreements.

(a) When a firm performing Government contracts wishes the Government to recognize (1) a successor in interest to these contracts or (2) a name change, the contractor shall submit a written request to the responsible contracting officer (see 42.1202).

(b) The responsible contracting officer shall—

(1) Promptly notify each contract administration office and contracting office affected by a proposed agreement for recognizing a successor in interest;

(2) Provide these offices with a list of all affected contracts; and

(3) Request submission within 30 days of their comments, which shall include technical considerations, if appropriate.

(c) The responsible contracting officer shall determine whether or not it is in the Government's interest to recognize the proposed successor in interest on the basis of—

(1) The comments received from the affected contract administration offices and contracting offices (failure to comment by the specified date shall be taken as consent); and

(2) A determination that the proposed successor is responsible under subpart 9.1, Responsible Prospective Contractors.

(d) Before novation and change-of-name agreements are executed, the responsible contracting officer shall ensure that Government counsel has reviewed them for legal sufficiency.

(e) The responsible contracting officer shall (1) forward a signed copy of the executed novation or change-of-name agreement to the transferor and to the transferee and (2) retain a signed copy in the case file.

(f) Following distribution of the agreement, the responsible contracting officer shall—

(1) Prepare a Standard Form 30, Amendment of Solicitation/Modification of Contract, incorporating a summary of the agreement and attaching a complete list of contracts affected;

(2) Retain the original Standard Form 30 with the attached list in the case file;

(3) Send a signed copy of the Standard Form 30, with attached list to the transferor and to the transferee; and

(4) Send a copy of this Standard Form 30 with attached list to each contract administration office or contracting office involved, which shall be responsible for further appropriate distribution.

42.1204 Agreement to recognize a successor in interest (novation agreement).

(a) The law (41 U.S.C. 15) prohibits transfer of Government contracts. However, the Government may, in its interest, recognize a third party as the successor in interest to a Government contract when the third party's interest in the contract arises out of the transfer of (1) all the contractor's assets or (2) the entire portion of the assets involved in performing the contract. (See 14.404-2(k) for the effect of novation agreements after bid opening but before award.) Examples include but are not limited to—

(i) Sale of these assets with a provision for assuming liabilities;

(ii) Transfer of these assets incident to a merger or corporate consolidation; and

(iii) Incorporation of a proprietorship or partnership, or formation of a partnership.

(b) When it is in the Government's interest not to concur in the transfer of a contract from one company to another company, the original contractor remains under contractual obligation to the Government, and the contract may be terminated for reasons of default, should the original contractor not perform.

(c) When a contractor asks the Government to recognize a successor in interest, the responsible contracting officer shall obtain from the contractor three signed copies of the proposed novation agreement and one copy each, as applicable, of the following:

(1) An authenticated copy of the instrument effecting the transfer of assets; e.g., bill of sale, certificate of merger, contract, deed, agreement, or court decree.

(2) A list of all affected contracts and purchase orders remaining unsettled between the transferor and the Government, showing for each the (i) contract number and type, (ii) name and address of the contracting office, (iii) total dollar value as amended, and (iv) remaining unpaid balance.

(3) A certified copy of each resolution of the corporate parties' boards of directors authorizing the transfer of assets.

(4) A certified copy of the minutes of each corporate party's stockholder
meeting necessary to approve
transfer of assets.

(5) An authenticated copy of
transferee's certificate and article
incorporation, if a corporation
formed for the purpose of receiv
the assets involved in performing
Government contracts.

(6) The opinion of legal counsel
the transferor and transferee stat
that the transfer was properly eff
ed under applicable law and the ef
tive date of transfer.

(7) Evidence of the transferee's ca
bility to perform the contracts.

(8) Balance sheets of the transfe
and transferee as of the dates imm
ately before and after the transfer
assets, certified for accuracy by in
pendent accountants.

(9) Evidence that any security cle
ance requirements have been met.

(10) The consent of sureties on
contracts listed under subparagra
(2) above if bonds are required, o
statement from the transferor t
none are required.

(d) When recognizing a successor
interest to a Government contract
consistent with the Government's
terest, the responsible contracting
ficer shall execute a novation agr
ment with the transferor and
transferee. It shall ordinarily prov
in part that—

(1) The transferee assumes all
transferor's obligations under the c
tract;

(2) The transferor waives all rig
under the contract against the G
ernment;

(3) The transferor guarantees p
formance of the contract by the tra
feree (a satisfactory performance bo
may be accepted instead of the gu
antee); and

(4) Nothing in the agreement sh
relieve the transferor or transfer
from compliance with any Federal l

(e) The responsible contracting o
cer shall use the following format
agreements when the transferor a
transferee are corporations and all
transferor's assets are transferr
This format may be adapted to fit sp
cific cases and may be used as a gui
in preparing similar agreements
other situations.

NOVATION AGREEMENT

The ABC CORPORATION (Transferor), a corporation duly organized and existing under the laws of ——— [*insert State*] with its principal office in ——— [*insert city*]; the XYZ CORPORATION (Transferee), [*if appropriate add "formerly known as the EFG Corporation"*] a corporation duly organized and existing under the laws of ——— [*insert State*] with its principal office in ——— [*insert city*]; and the UNITED STATES OF AMERICA (Government) enter into this Agreement as of ——— [*insert the date transfer of assets became effective under applicable State law*].

(a) THE PARTIES AGREE TO THE FOLLOWING FACTS:

(1) The Government, represented by various Contracting Officers of the ——— [*insert name(s) of agency(ies)*], has entered into certain contracts with the Transferor, namely: ——— [*insert contract or purchase order identifications*]; [*or delete "namely" and insert "as shown in the attached list marked 'Exhibit A' and incorporated in this Agreement by reference."*]. The term *the contracts*, as used in this Agreement, means the above contracts and purchase orders and all other contracts and purchase orders, including all modifications, made between the Government and the Transferor before the effective date of this Agreement (whether or not performance and payment have been completed and releases executed if the Government or the Transferor has any remaining rights, duties, or obligations under these contracts and purchase orders). Included in the term *the contracts* are also all modifications made under the terms and conditions of these contracts and purchase orders between the Government and the Transferee, on or after the effective date of this Agreement.

(2) As of ———, 19—, the Transferor has transferred to the Transferee all the assets of the Transferor by virtue of a ——— [*insert term descriptive of the legal transaction involved*] between the Transferor and the Transferee.

(3) The Transferee has acquired all the assets of the Transferor by virtue of the above transfer.

(4) The Transferee has assumed all obligations and liabilities of the Transferor under the contracts by virtue of the above transfer.

(5) The Transferee is in a position to fully perform all obligations that may exist under the contracts.

(6) It is consistent with the Government's interest to recognize the Transferee as the successor party to the contracts.

(7) Evidence of the above transfer has been filed with the Government.

[*When a change of name is also involved; e.g., a prior or concurrent change of the Transferee's name, an appropriate statement shall be inserted (see example in paragraph (8) below)*].

(8) A certificate dated ———, 19—, signed by the Secretary of State of ——— [*insert State*], to the effect that the corporate name of EFG CORPORATION was changed to XYZ CORPORATION on ———, 19—, has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT BY THIS AGREEMENT—

(1) The Transferor confirms the transfer to the Transferee, and waives any claims and rights against the Government that it now has or may have in the future in connection with the contracts.

(2) The Transferee agrees to be bound by and to perform each contract in accordance with the conditions contained in the contracts. The Transferee also assumes all obligations and liabilities of, and all claims against, the Transferor under the contracts as if the Transferee were the original party to the contracts.

(3) The Transferee ratifies all previous actions taken by the Transferor with respect to the contracts, with the same force and effect as if the action had been taken by the Transferee.

(4) The Government recognizes the Transferee as the Transferor's successor in interest in and to the contracts. The Transferee by this Agreement becomes entitled to all rights, titles, and interests of the Transferor in and to the contracts as if the Transferee were the original party to the contracts. Following the effective date of this Agreement, the term *Contractor*, as used in the contracts, shall refer to the Transferee.

(5) Except as expressly provided in this Agreement, nothing in it shall be construed as a waiver of any rights of the Governmelt against the Transferor.

(6) All payments and reimbursements previously made by the Governmelt to the Transferor, and all other previous actions taken by the Government under the contracts, shall be considered to have discharged those parts of the Government's obligations under the contracts. All payments and reimbursements made by the Government after the date of this Agreement in the name of or to the Transferor shall have the same force and effect as if made to the Transferee, and shall constitute a complete discharge of the Government's obligations under the contracts, to the extent of the amounts paid or reimbursed.

(7) The Transferor and the Transferee agree that the Government is not obligated to pay or reimburse either of them for, or otherwise give effect to, any costs, taxes, or

other expenses, or any related increases, directly or indirectly arising out of or resulting from the transfer or this Agreement, other than those that the Government in the absence of this transfer or Agreement would have been obligated to pay or reimburse under the terms of the contracts.

(8) The Transferor guarantees payment of all liabilities and the performance of all obligations that the Transferee (i) assumes under this Agreement or (ii) may undertake in the future should these contracts be modified under their terms and conditions. The Transferor waives notice of, and consents to, any such future modifications.

(9) The contracts shall remain in full force and effect, except as modified by this Agreement. Each party has executed this Agreement as of the day and year first above written.

**42.1205 Agreement to recognize co
tor's change of name.**

(a) If only a change of the cor
tor's name is involved and the Go
ment's and contractor's rights an
ligations remain unaffected, the
ties shall execute an agreement
flect the name change. The contr
shall forward to the responsible
tracting officer three signed copi
the Change-of-Name Agreement,
one copy each of the following:

(1) The document effecting
name change, authenticated
proper official of the State havin
risdiction.

(2) The opinion of the contrac
legal counsel stating that the ch
of name was properly effected u
applicable law and showing the
tive date.

(3) A list of all affected cont
and purchase orders remaining u
tled between the contractor and
Government, showing for each th
contract number and type, (ii)
and address of the contracting o
(iii) total dollar value as amended
(iv) remaining unpaid balance.

(b) The following suggested fo
for an agreement may be adapte
specific cases:

CHANGE-OF-NAME AGREEMEN

The ABC CORPORATION (Contra
a corporation duly organized and ex
under the laws of ——— [*insert State*
the UNITED STATES OF AMERICA
ernment), enter into this Agreement
——— [*insert date when the chan
name became effective under appli
State law*].

(a) THE PARTIES AGREE TO
FOLLOWING FACTS:

(1) The Government, represented by
ous Contracting Officers of the —
[*insert name(s) of agency(ies)*], has en
into certain contracts and purchase o
with the XYZ CORPORATION, na
——— [*insert contract or purchase
identifications*]; [*or delete "namely"
insert "as shown in the attached list m
'Exhibit A' and incorporated in this A
ment by reference."*]. The term *the
tracts*, as used in this Agreement, mean
above contracts and purchase orders a
other contracts and purchase orders, in
ing all modifications, made by the Go
ment and the Contractor before the
tive date of this Agreement (whether o
performance and payment have been

pleted and releases executed if the Government or the Contractor has any remaining rights, duties, or obligations under these contracts and purchase orders).

(2) The XYZ CORPORATION, by an amendment to its certificate of incorporation, dated ———, 19—, has changed its corporate name to ABC CORPORATION.

(3) This amendment accomplishes a change of corporate name only and all rights and obligations of the Government and of the Contractor under the contracts are unaffected by this change.

(4) Documentary evidence of this change of corporate name has been filed with the Government.

(b) IN CONSIDERATION OF THESE FACTS, THE PARTIES AGREE THAT—

(1) The contracts covered by this Agreement are amended by substituting the name "ABC CORPORATION" for the name "XYZ CORPORATION" wherever it appears in the contracts; and

(2) Each party has executed this Agreement as of the day and year first above written.

UNITED STATES OF AMERICA,

CERTIFICATE

I, ———, certify that I am the Secretary of ABC CORPORATION; that ———, who signed this Agreement for this corporation, was then ——— of this corporation; and that this Agreement was duly signed for and on behalf of this corporation by authority of its governing body and within the scope of its corporate powers.

Witness my hand and the seal of this corporation this —— day of ——— 19—.

By ————————————
[CORPORATE SEAL]

Subpart 42.13—[Reserved]

Subpart 42.14—Traffic and Transportation Management

42.1401 General.

(a) The contract administration office (CAO) shall ensure that instructions to contractors result in the most efficient and economical use of carrier services and equipment. If the transportation data regarding f.o.b. origin contracts is insufficient for Government transportation management purposes, the CAO shall obtain the data used in the evaluation of offers.

(b) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, are responsible for—

(1) Furnishing timely routings and releases for port shipments;

(2) Monitoring shipments to provide for carload or truckload quantities when practicable;

(3) Controlling and issuing U.S. Government bills of lading (GBL's) and determining proper freight classification descriptions;

(4) Reviewing documentation to ensure the proper distribution and validation of shipping documents;

(5) Developing, and advising on, transportation cost differentials brought on by proposed changes in contract terms; e.g., delivery schedules;

(6) Determining, for contract requirements, the size and carrying capability of carrier equipment to transport overdimensional and/or overweight supplies, hazardous mate ials, or supplies requiring special shipping arrangements;

(7) Developing information and reporting movements that may be the basis for negotiating special rates for volume movements or for rate adjustments (see 42.1402(b));

(8) Exercising control of irregularities in preservation, packing, loading, blocking and bracing, and other causes contributing to loss and damage; sealing of carrier equipment and documentation;

(9) Providing information on the use of transit arrangements;

(10) Recommending, when appropriate, prepayment by contractor for f.o.b. origin shipments or parcel post (see 42.1403-2 and 42.1404);

(11) Recommending, when appropriate, the use of commercial forms and procedures for small shipments of a recurring nature if transportation costs do not exceed $100, as authorized in 41 CFR 101-41.304-2 and, for the Department of Defense (DOD), in Chapter 214, Section XVII, paragraphs 214120 through 214124 of the Military Traffic Management Regulation (MTMR).

(12) Diverting, reconsigning, tracing, and expediting shipments; and

(13) Considering the capabilities of contractors for meeting new or emergency requirements that arise during the contract administration and using these capabilities when appropriate.

(14) Using routings through established consolidation stations when it is in the Government's interest.

(c) Civilian agencies shall consult and cooperate with the Office of Transportation of the General Services Administration (GSA) as required in 41 CFR 101-40. (See 47.105, Transportation assistance, for assistance to civilian Government activities or to military installations.)

[48 FR 42370, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

42.1402 Volume movements within the continental United States.

(a) (1) For purposes of contract administration, a volume movement is—

(i) In DOD, the aggregate of freight shipments amounting to or exceeding 25 carloads, 25 truckloads, or 500,000 pounds, to move during the contract period from one origin point for delivery to one destination point or area; and

(ii) In civilian agencies, 50 short tons (100,000 pounds) in the aggregate to move during the contract period from one origin point for delivery to one destination point or area.

(2) Transportation personnel assigned to or supporting the CAO, or appropriate agency personnel, shall report planned and actual volume movements in accordance with agency regulations. DOD activities report to the Military Traffic Management Command (MTMC) under the Military Traffic Management Regulation (MTMR). Civilian agencies report to GSA, Office of Transportation, or other designated offices under the Federal Property Management Regulations (FPMR), specifically 41 CFR 101-40.305-2.

(b) Reporting of volume movements permits MTMC and GSA transportation personnel to determine the reasonableness of applicable current rates and, when appropriate, to negotiate adjusted or modified rates.

42.1403 Shipping documents covering f.o.b. origin shipments.

42.1403-1 U.S. Government bills of lading.

(a) Except as provided in 42.1403-2, when a contract specifies delivery of supplies f.o.b. origin with transportation costs to be paid by the Government, the contractor shall make shipments on U.S. Government bills of lading (GBL's), or on other shipping documents prescribed by MTMC in the case of seavan containers, furnished by the CAO or the appropriate agency transportation office. Each agency shall establish appropriate procedures by which the contractor shall obtain GBL's. The contracting officer shall not authorize the contractor to ship on commercial bills of lading for conversion to GBL's unless delivery is extremely urgent and GBL's are not readily available.

(b) The possible application of reduced rates under section 10721 of the Interstate Commerce Act for shipments on commercial bills of lading and the Commercial Bill of Lading Notations clause are discussed at 47.104.

(c) (1) The limited authority for the use of commercial forms and procedures to acquire freight or express transportation for small shipments of a recurring nature when transportation costs do not exceed $100, is prescribed in the Transportation Documentation and Audit Regulation, specifically 41 CFR 101-41.304-2.

(2) For DOD shipments, corresponding guidance is in Chapter 214 of the MTMR.

42.1403-2 Contractor-prepaid commercial bills of lading.

(a) If it is advantageous to the Government, the contracting officer may authorize the contractor to ship by common carriers on commercial bills of lading supplies, which have been acquired f.o.b. origin and are therefore Government property, to domestic destinations, including DOD air and water terminals. Such shipments shall not exceed 150 pounds by commercial air or 1,000 pounds by other commercial carriers and shall not have a security classification.

(b) The contracting officer may authorize the shipments under paragraph (a) above to be consolidated with the contractor's own prepaid shipments for delivery to one or more destinations, if all appropriate f.o.b. origin shipments under one or more Government contracts have been consolidated initially. The contractor may be authorized to consolidate less-than-carload or less-than-truckload Government shipments with its own shipments so that the Government can take advantage of lower carload or truckload freight costs. The Government shall assume its pro rata share of the combined shipment cost. Agency transportation personnel shall evaluate overall transportation costs before authorizing any movement to ensure savings to the Government consistent with other contract and traffic management considerations. When consolidation is authorized, a copy of the commercial bill of lading shall be mailed promptly to each consignee.

(c) Shipments under prepaid commercial bills of lading, as authorized in paragraph (a) above, do not require a contract modification. Unless otherwise provided in the contract, the supplies move for the account of, and at the risk of, the Government. The supplies become Government property when loaded on the carrier's equipment and the contractor has obtained the carrier's receipt. The contractor pays the transportation charges and is reimbursed by the Government. Loss or damage claims shall be processed in accordance with agency regulations.

(d) The contractor's invoice for reimbursement by the Government shall show the prepaid transportation charges or apportioned charges as agreed (see paragraph (b) above), as a separate item for each individual shipment. The contractor shall support the transportation charges with a copy of the carrier's receipted freight bill or other evidence of receipt, except as follows:

(1) A Government agency may determine that receipted freight bills or other evidence of receipt are not required for transportation charges of 25 or less.

(2) A Government agency may pay an invoiced but unsupported transportation charge of $100 or less per transaction (i.e., purchase, invoice, or aggregate billing or payment for multiple purchases), if—

(i) The contractor cannot reasonably provide a receipted freight bill; and

(ii) The agency has determined that the charges are reasonable. Determination of reasonableness may be based on—

(A) Past experience (authenticated transportation charges for similar shipments);

(B) Rate checks;

(C) Copies of previous freight bills submitted by the contractor; or

(D) Other information submitted by the contractor to substantiate the amount claimed.

(3) Receipted freight bills in support of invoiced transportation charges of $100 or less are not required for reimbursement by the Government, if—

(i) The underlying contract specifies retention by the contractor of all records for at least 3 years after final payment under the contract; and

(ii) The contractor certifies that payment of the transportation charges has been made and that the contractor will furnish evidence of payment when requested by the Government.

(e) Shipments and invoices shall not be split to reduce transportation charges to $100 or less per transaction as a means of avoiding the required documented support for the charges. See 42.1403-2(d)(1) for unsupported transportation charges of $25 or less.

42.1404 Shipments by parcel post or other classes of mail.

42.1404-1 Parcel post eligible shipments.

(a) (1) Use of parcel post or other classes of mail permits direct movements from source of supply to the user, without the intermediate documentation that is required when supplies are transported through depots or air or water terminals. However, the use of parcel post and other classes of mail shall be confined to deliveries of mailable matter that meet the size, weight, and distance limitations prescribed by the U.S. Postal Service. Parcel post eligible shipments for overseas destinations will not be sent via Small Package Delivery services or parcel post to CONUS military air or water terminals. These shipments will be mailed through the APO or FPO to the overseas user.

(2) When parcel post or other classes of mail are used by contractors, they shall prepay the postage costs by using their own mailing labels or stamps and include prepaid postage costs as separate items in the invoices for supplies shipped.

(b) (1) Use of indicia mail (in lieu of stamps or cancellations) is not authorized. However, deviations from this ban may be granted. A request for a deviation should be processed to the U.S. Postal Service following agency procedures. If a deviation is granted, the agency shall follow the U.S. Postal Service permit requirements.

(2) When indicia mail is authorized, the contractor will be provided with official mailing labels, envelopes, or cards printed *Postage and Fees Paid.* These must bear in every case (i) the printed return address of the agency concerned above the printed words *Official Business* and (ii) the proper permit imprint number. The name and address of a private person or firm shall not be shown.

(c) When a contractor uses the contractor's own label for making a shipment to a post office servicing military and other agency consignees outside the United States, the contractor shall stamp or imprint the parcel immediately above the label in 1/4 inch block letters with (i) the name of the agency and (ii) the words *Official Mail-Contents for Official Use-Exempt from Customs Requirements.* This permits identification and expedites handling within the postal system. Use of this marking does not eliminate the requirement for payment of postage by the contractor when so required by the contract or when the contractor is to be reimbursed for the cost of postage.

(d) Contractors may not insure shipments at Government expense for the purpose of recovery in case of loss and/or damage, except that minimum insurance required for the purposes of obtaining receipts at point of origin and upon delivery is authorized.

[48 FR 42370, Sept. 19, 1983, as amended a 53 FR 27467, July 20, 1988]

42.1404-2 Contract clauses.

(a) The contracting officer shall insert the clause at 52.242-10, F.o.b. Origin—Government Bills of Lading or Prepaid Postage, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or prepaid postage.

(b) The contracting officer shall insert the clause at 52.242-11, F.o.b. Origin—Government Bills of Lading or Indicia Mail, in solicitations and contracts when f.o.b. origin shipments are to be made using Government bills of lading or indicia mail, if indicia mail has been authorized by the U.S. Postal Service.

42.1405 Discrepancies incident to shipment of supplies.

(a) Discrepancies incident to shipment include overage, shortage, loss, damage, and other discrepancies between the quantity and/or condition of supplies received from commercial carriers and the quantity and/or condition of these supplies as shown on the covering bill of lading or other transportation document. Regulations and procedures for reporting and adjusting discrepancies in Government shipments are in subpart 40.7 of the Federal Property Management Regulations (41 CFR 101-40.7). (Military installations shall consult *Reporting of Transportation Discrepancies in Shipments,* AR 55-38, NAVSUP INST 4610.33C, AFR 75-18, MCO P4610.19, DLAR 4500.15).

(b) Generally, when the place of delivery is f.o.b. origin, the Government consignee at destination is also accountable for the supplies, and all claims or reports dealing with discrepancies shall be initiated at that point in accordance with the property accountability regulations of the agency concerned.

(c) If supplies are acquired on an f.o.b. destination basis, any claim arising from a discrepancy occurring in transit is a matter for settlement between the contractor and the carrier. However, the Government consignee shall (1) notify the carrier of the discrepancy by noting the exception on the carrier's delivery receipt and (2) furnish all available data to the CAO or appropriate agency office, which shall promptly transmit the data to the contractor.

42.1406 Report of shipment.

42.1406-1 Advance notice.

Military (and as required, civilian agency) storage and distribution points, depots, and other receiving activities require advance notice of shipments en route from contractors' plants. Generally, this notification is required only for classified material; sensitive, controlled, and certain other protected material; explosives, and some other hazardous materials; selected shipments requiring movement control; or minimum carload or truckload shipments. It facilitates arrangements for transportation control, labor, space, and use of materials handling equipment at destination. Also, timely receipt of notices by the consignee transportation office precludes the incurring of demurrage and vehicle detention charges.

[48 FR 42370, Sept. 19, 1983, as amended at 54 FR 48989, Nov. 28, 1989]

42.1406-2 Contract clause.

The contracting officer shall insert the clause at 52.242-12, Report of Shipment (REPSHIP), in solicitations and contracts when advance notice of shipment is required for safety or security reasons, or where carload or truckload shipments will be made to DoD installations or, as required, to civilian agency facilities.

[54 FR 48989, Nov. 28, 1989]

PART 43—CONTRACT MODIFICATIONS

Sec.
43.000 Scope of part.

43.201 General.
43.202 Authority to issue change orders.
43.203 Change order accounting procedures.
43.204 Administration.
43.205 Contract clauses.

Subpart 43.3—Forms

43.301 Use of forms.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42386, Sept. 19, 1983, unless otherwise noted.

43.000 Scope of part.

This part prescribes policies and procedures for preparing and processing contract modifications for all types of contracts including construction and architect-engineer contracts. It does not apply to—

(a) Orders for supplies or services not otherwise changing the terms of contracts or agreements (e.g., delivery orders under indefinite-delivery contracts); or

(b) Modifications for extraordinary contractual relief (see part 50).

Subpart 43.1—General

43.101 Definitions.

Administrative change means a unilateral (see 43.103(b)) contract change, in writing, that does not affect the substantive rights of the parties (e.g., a change in the paying office or the appropriation data).

Change order means a written order, signed by the contracting officer, directing the contractor to make a change that the Changes clause authorizes the contracting officer to order without the contractor's consent.

Contract modification means any written change in the terms of a contract (see 43.103).

Effective date has various meanings based on the circumstances in which it is used:

(a) For a solicitation amendment, change order, or administrative change, the effective date shall be the issue date of the amendment, change order, or administrative change.

(b) For a supplemental agreement, the effective date shall be the date agreed upon by the contracting parties.

(c) For a modification issued as a confirming notice of termination for the convenience of the Government, the effective date of the confirming notice shall be the same as the effective date of the initial notice.

(d) For a modification converting a termination for default to a termination for the convenience of the Government, the effective date shall be the same as the effective date of the termination for default.

(e) For a modification confirming the termination contracting officer's previous letter determination of the amount due in settlement of a contract termination for convenience, the effective date shall be the same as the effective date of the previous letter determination.

Supplemental agreement means a contract modification that is accomplished by the mutual action of the parties.

43.102 Policy.

(a) Only contracting officers acting within the scope of their authority are empowered to execute contract modifications on behalf of the Government. Other Government personnel shall not—

(1) Execute contract modifications;

(2) Act in such a manner as to cause the contractor to believe that they have authority to bind the Government; or

(3) Direct or encourage the contractor to perform work that should be the subject of a contract modification

(b) Contract modifications, including changes that could be issued unilaterally, shall be priced before their execution if this can be done without adversely affecting the interest of the Government. If a significant cost increase could result from a contract modification and time does not permit negotiation of a price, at least a maximum price shall be negotiated unless impractical.

43.103 Types of contract modifications.

Contract modifications are of the following types:

(a) *Bilateral.* A bilateral modification (supplemental agreement) is a contract modification that is signed by the contractor and the contracting officer. Bilateral modifications are used to—

(1) Make negotiated equitable adjustments resulting from the issuance of a change order;

(2) Definitize letter contracts; and

(3) Reflect other agreements of the parties modifying the terms of contracts.

(b) *Unilateral.* A unilateral modification is a contract modification that is signed only by the contracting officer. Unilateral modifications are used, for example, to—

(1) Make administrative changes;

(2) Issue change orders;

(3) Make changes authorized by clauses other than a changes clause (e.g., Property clause, Options clause, Suspension of Work clause, etc.); and

(4) Issue termination notices.

43.104 Notification of contract changes.

(a) When a contractor considers that the Government has effected or may effect a change in the contract that has not been identified as such in writing and signed by the contracting officer, it is necessary that the contractor notify the Government in writing as soon as possible. This will permit the Government to evaluate the alleged change and (1) confirm that it is a change, direct the mode of further performance, and plan for its funding; (2) countermand the alleged change; or (3) notify the contractor that no change is considered to have occurred.

(b) The clause at 52.243-7, Notification of Changes, which is prescribed in 43.106, (1) incorporates the policy expressed in paragraph (a) above; (2) requires the contractor to notify the Government promptly of any Government conduct that the contractor considers a change to the contract, and (3) specifies the responsibilities of the contractor and the Government with respect to such notifications.

43.105 Availability of funds.

(a) The contracting officer shall not execute a contract modification that causes or will cause an increase in funds without having first obtained a certification of fund availability, except for modifications to contracts that—

(1) Are conditioned on availability of funds (see 32.703-2); or

(2) Contain a limitation of cost or funds clause (see 32.704).

(b) The certification required by paragraph (a) above shall be based on the negotiated price, except that modifications executed before agreement on price may be based on the best available estimate of cost.

43.106 Procurement integrity—modifications.

No modification over $100,000 as defined at 3.104-4(e) may be executed without complying with the requirements of 3.104.

[54 FR 20497, May 11, 1989]

EFFECTIVE DATE NOTE: At 54 FR 50718, Dec. 8, 1989, section 43.106 was suspended for the period December 1, 1989, through November 30, 1990.

43.107 Contract clause.

The contracting officer may insert a clause substantially the same as the clause at 52.243-7, Notification of Changes, in solicitations and contracts. The clause is available for use primarily in negotiated research and development or supply contracts for the acquisition of major weapon systems or principal subsystems. If the contract amount is expected to be less than $1,000,000, the clause shall not be used, unless the contracting officer anticipates that situations will arise that may result in a contractor alleging that the Government has effected changes other than those identified as such in writing and signed by the contracting officer.

[48 FR 42386, Sept. 19, 1983. Redesignated at 54 FR 20497, May 11, 1989]

Subpart 43.2—Change Orders

43.201 General.

(a) Generally, Government contracts contain a changes clause that permits the contracting officer to make unilateral changes, in designated areas, within the general scope of the contract. These are accomplished by issuing written change orders on Standard Form 30, Amendment of Solicitation/Modification of Contract (SF 30), unless otherwise provided (see 43.301).

(b) The contractor must continue performance of the contract as changed, except that in cost-reimbursement or incrementally funded contracts the contractor is not obligated to continue performance or incur costs beyond the limits established in the Limitation of Cost or Limitation of Funds clause (see 32.705-2).

(c) The contracting officer may issue a change order by telegraphic message under unusual or urgent circumstances; *provided*, that—

(1) Copies of the message are furnished promptly to the same addressees that received the basic contract;

(2) Immediate action is taken to confirm the change by issuance of a SF 30;

(3) The message contains substantially the information required by the SF 30 (except that the estimated change in price shall not be indicated), including in the body of the message the statement, "Signed by (Name), Contracting Officer"; and

(4) The contracting officer manually signs the original copy of the message.

43.202 Authority to issue change orders.

Change orders shall be issued by the contracting officer except when authority is delegated to an administrative contracting officer (see 42.202(c)).

43.203 Change order accounting procedures.

(a) Contractors' accounting systems are seldom designed to segregate the costs of performing changed work. Therefore, before prospective contractors submit offers, the contracting officer should advise them of the possible need to revise their accounting procedures to comply with the cost segregation requirements of the Change Order Accounting clause at 52.243-6.

(b) The following categories of direct costs normally are segregable and accountable under the terms of the Change Order Accounting clause:

(1) Nonrecurring costs (e.g., engineering costs and costs of obsolete or reperformed work).

(2) Costs of added distinct work caused by the change order (e.g., new subcontract work, new prototypes, or new retrofit or backfit kits).

(3) Costs of recurring work (e.g., labor and material costs).

43.204 Administration.

(a) *Change order documentation.* When change orders are not forward priced, they require two documents: the change order and a supplemental agreement reflecting the resulting equitable adjustment in contract terms. If an equitable adjustment in the contract price or delivery terms or both can be agreed upon in advance, only a supplemental agreement need be issued, but administrative changes and changes issued pursuant to a clause giving the Government a unilateral right to make a change (e.g., an option clause) initially require only one document.

(b) *Definitization.* (1) Contracting officers shall negotiate equitable adjustments resulting from change orders in the shortest practicable time.

(2) Administrative contracting officers negotiating equitable adjustments by delegation under 42.302(b)(1), shall obtain the contracting officer's concurrence before adjusting the contract delivery schedule.

(3) Contracting offices and contract administration offices, as appropriate, shall establish suspense systems adequate to ensure accurate identification and prompt definitization of unpriced change orders.

(4) The contracting officer shall ensure that a cost analysis is made, if appropriate, under 15.805 and shall consider the contractor's segregable costs of the change, if available. If additional funds are required as a result of the change, the contracting officer shall secure the funds before making any adjustment to the contract.

(c) *Complete and final equitable adjustments.* To avoid subsequent controversies that may result from a supplemental agreement containing an equitable adjustment as the result of a change order, the contracting officer should—

(1) Ensure that all elements of the equitable adjustment have been presented and resolved; and

(2) Include, in the supplemental agreement, a release similar to the following:

CONTRACTOR'S STATEMENT OF RELEASE

In consideration of the modification(s) agreed to herein as complete equitable adjustments for the Contractor's..........(describe).......... "proposal(s) for adjustment," the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to the "proposal(s) for adjustment" (except for ....).

43.205 Contract clauses.

(a) (1) The contracting officer shall insert the clause at 52.243-1, Changes—Fixed-Price, in solicitations and contracts when a fixed-price contract for supplies is contemplated.

(2) If the requirement is for services, other than architect-engineer or other professional services, and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services (other than architect-engineer services, transportation, or research and development) and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for architect-engineer or other professional services, the contracting officer shall use the clause with its Alternate III.

(5) If the requirement is for transportation services, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(b) (1) The contracting officer shall insert the clause at 52.243-2, Changes—Cost-Reimbursement, in solicitations and contracts when a cost-reimbursement contract for supplies is contemplated.

(2) If the requirement is for services and no supplies are to be furnished, the contracting officer shall use the clause with its Alternate I.

(3) If the requirement is for services and supplies are to be furnished, the contracting officer shall use the clause with its Alternate II.

(4) If the requirement is for construction, the contracting officer shall use the clause with its Alternate III.

(5) If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate IV.

(6) If it is desired to include the clause in solicitations and contracts when a research and development contract is contemplated, the contracting officer shall use the clause with its Alternate V.

(c) The contracting officer shall insert the clause at 52.243-3, Changes—Time-and-Materials or Labor-Hours, in solicitations and contracts when a time-and-materials or labor-hour contract is contemplated.

(d) The contracting officer shall insert the clause at 52.243-4, Changes, in solicitations and contracts for (1) dismantling, demolition, or removal of improvements; and (2) construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the applicable small purchase limitation in part 13.

(e) The contracting officer shall insert the clause at 52.243-5, Changes and Changed Conditions, in solicitations and contracts for construction, when the contract amount is not expected to exceed the applicable small purchase limitation in part 13.

(f) The contracting officer may insert a clause, substantially the same as the clause at 52.243-6, Change Order Accounting, in solicitations and contracts for supply and research and development contracts of significant technical complexity, if numerous changes are anticipated.

Subpart 43.3—Forms

43.301 Use of forms.

(a) (1) The Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall (except for the options stated in 43.301(a)(2)) be used for—

(i) Any amendment to a solicitation;

(ii) Change orders issued under the Changes clause of the contract;

(iii) Any other unilateral contract modification issued under a contract clause authorizing such modification without the consent of the contractor;

(iv) Administrative changes such as the correction of typographical mistakes, changes in the paying office, and changes in accounting and appropriation data;

(v) Supplemental agreements (see 43.103); and

(vi) Removal, reinstatement, or addition of funds to a contract.

(2) The SF 30 may be used for (i) modifications that change the price of contracts for the acquisition of petroleum as a result of economic price adjustment, (ii) termination notices, and (iii) purchase order modifications as specified in 13.503.

(3) If it is anticipated that a change will result in a price change, the estimated amount of the price change shall not be shown on copies of SF 30 furnished to the contractor.

(b) The Optional Form 336 (OF 336), Continuation Sheet, or a blank sheet of paper, may be used as a continuation sheet for a contract modification.

[48 FR 42386, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985; 51 FR 27120, July 29, 1986]

44.000 Scope of part.

This part prescribes policies and procedures for consent to subcontracts and for review, evaluation, and approval of contractors' purchasing systems.

Subpart 44.1—General

44.101 Definitions.

Approved purchasing system means a contractor's purchasing system that has been reviewed and approved in accordance with this part.

Consent to subcontract means the contracting officer's written consent for the prime contractor to enter into a particular subcontract.

Contractor, as used in this part, means the total contractor organization or a separate entity of it, such as an affiliate, division, or plant, that performs its own purchasing.

Contractor purchasing system review (*CPSR*) means the complete evaluation of a contractor's purchasing of material and services, subcontracting, and subcontract management from development of the requirement through completion of subcontract performance.

Facilities (see 45.301).

Subcontract, as used in this part, means any contract as defined in subpart 2.1 entered into by a subcontractor to furnish supplies or services for performance of a prime contract or a subcontract. It includes but is not limited to purchase orders, and changes and modifications to purchase orders.

Subcontractor, as used in this part, means any supplier, distributor, vendor, or firm that furnishes supplies or services to or for a prime contractor or another subcontractor.

[48 FR 42388, Sept. 19, 1983, as amended at 50 FR 26903, June 28, 1985]

44.102 Policy.

(a) Consent to subcontracts is required under 44.201 when the subcontract work is complex, the dollar value is substantial, or the Government's interest is not adequately protected by competition and the type of prime contract or subcontract.

(b) Consent requirements may be waived when the contractor's purchasing system has been reviewed and approved in accordance with subpart 44.3.

Subpart 44.2—Consent to Subcontracts

44.201 Consent requirements.

44.201-1 Fixed-price prime contracts.

(a) Consent to subcontracts is not required under prime contracts that are firm-fixed-price or fixed-price with economic price adjustment provisions. (See paragraph (c) below for unpriced modifications.)

(b) If the contractor has an approved purchasing system, consent to subcontracts is not required under other fixed-price prime contracts, except for any subcontracts selected for special surveillance. (See 44.205).

(c) If the contractor does not have an approved purchasing system, consent to the subcontracts specified in paragraph (d) below is required—

(1) Under fixed-price incentive and fixed-price redeterminable prime contracts; and

(2) Under prime contracts that are firm-fixed-price or fixed-price with economic price adjustment provisions, only when a new subcontract results

from an unpriced modification to the prime contract.

(d) Under prime contracts required to include the clause at 52.244-1, Subcontracts (Fixed-Price Contracts), consent is required under paragraph (c) above for any subcontract that is—

(1) To be a cost-reimbursement, time-and-materials, or labor-hour contract estimated to be over $25,000, including any fee;

(2) Estimated to be over $100,000 (or less if the contract clause has been modified as permitted by its preface); or

(3) One of a number of subcontracts, under the prime contract, with a single subcontractor for the same or related supplies or services, which in the aggregate are estimated to be over $100,000 (or less, if the contract clause has been modified as permitted by its preface).

[48 FR 42388, Sept. 19, 1983, as amended at 51 FR 36972, Oct. 16, 1986]

44.201-2 Cost-reimbursement and letter prime contracts.

(a) Consent is required under cost-reimbursement and letter prime contracts (except facilities contracts) for subcontracts (1) for fabrication, purchase, rental, installation, or other acquisition of special test equipment valued at more than $10,000 or of any items of facilities, or (2) that have experimental, developmental, or research work as one of their purposes.

(b) If the contractor does not have an approved purchasing system, consent is also required, under cost-reimbursement and letter prime contracts for (1) cost-reimbursement, time-and-materials, or labor-hour subcontracts and (2) fixed-price subcontracts that exceed either $25,000 or 5 percent of the total estimated cost of the prime contract; except that for DoD, Coast Guard, and NASA, the amounts shall be the greater of the small purchase limitation in part 13 or 5 percent of the total estimated cost of the prime contract.

(c) If the contractor has an approved purchasing system, consent is not required for the subcontracts identified in paragraph (b) above, but advance notification is still required by 10 U.S.C. 2306(e) or 41 U.S.C 254(b).

(d) In contracts for acquisition of major systems, subsystems, or their components (see part 34), consent is required for the subcontracts identified in paragraph (b) above, even though the contractor has an approved purchasing system.

[48 FR 42388, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 26903, June 28, 1985; 50 FR 52429, Dec. 23, 1985]

44.201-3 Other prime contracts.

Except for purchase of raw material or commercial stock items, consent is required for all subcontracts under time-and-material contracts. Consent is required for subcontracts under prime contracts for—

(a) Architect-engineer services; and

(b) Mortuary services, refuse service, or shipment and storage of personal property, when an agency requires prior approval of subcontractors' facilities.

44.201-4 Contractor use of Government sources.

The contracting officer's written authorization for the contractor to purchase from Government sources (see part 51) constitutes consent.

44.202 Contracting officer's evaluation.

44.202-1 Responsibilities.

(a) The cognizant administrative contracting officer (ACO) is responsible for consent to subcontracts, except when the contracting officer retains the contract for administration or withholds the consent responsibility from delegation to the ACO. In such cases, the contract administration office should assist the contracting office in its evaluation as requested.

(b) The responsible contracting officer shall—

(1) Promptly evaluate the contractor's requests for consent to subcontract;

(2) Obtain assistance in the evaluation from subcontracting, audit, pricing, technical, or other specialists as necessary; and

(3) Notify the contractor in writing of consent or the withholding of consent, including any changes or corrections required.

44.202-2 Considerations.

(a) The contracting officer responsible for consent shall review the request and supporting data and consider the following:

(1) Is the decision to subcontract consistent with the contractor's approved make-or-buy program, if any (see subpart 15.7)?

(2) Is the subcontract for special test equipment or facilities that are available from Government sources (see subpart 45.3)?

(3) Is the selection of the particular supplies, equipment, or services technically justified?

(4) Has the contractor complied with the prime contract requirements regarding labor surplus area or small business subcontracting, including, if applicable, its plan for subcontracting with small business concerns and small disadvantaged business concerns (see part 19)?

(5) Was adequate price competition obtained or its absence properly justified?

(6) Did the contractor adequately assess and dispose of subcontractors' alternate proposals, if offered?

(7) Does the contractor have a sound basis for selecting and determining the responsibility of the particular subcontractor?

(8) Has the contractor performed adequate cost or price analysis or price comparisons and obtained accurate, complete, and current cost or pricing data, including any required certifications?

(9) Is the proposed subcontract type appropriate for the risks involved and consistent with current policy?

(10) Has adequate consideration been obtained for any proposed subcontract that will involve the use of Government-furnished facilities?

(11) Has the contractor adequately and reasonably translated prime contract technical requirements into subcontract requirements?

(12) Does the prime contractor comply with applicable cost accounting standards for awarding the subcontract?

(13) Is the proposed subcontractor on the Consolidated List of Debarred, Suspended, and Ineligible Contractors (see subpart 9.4)?

(b) Particularly careful and thorough consideration under paragraph (a) above is necessary when—

(1) The prime contractor's purchasing system or performance is inadequate;

(2) Close working relationships or ownership affiliations between the prime and subcontractor may preclude free competition or result in higher prices;

(3) Subcontracts are proposed for award on a non-competitive basis, at prices that appear unreasonable, or at prices higher than those offered to the Government in comparable circumstances; or

(4) Subcontracts are proposed on a cost-reimbursement, time-and-materials, or labor-hour basis.

44.203 Consent limitations.

(a) The contracting officer's consent to a subcontract or approval of the contractor's purchasing system does not constitute a determination of the acceptability of the subcontract terms or price, or of the allowability of costs, unless the consent or approval specifies otherwise.

(b) Contracting officers shall not consent to—

(1) Cost-reimbursement subcontracts if the fee exceeds the fee limitations of 16.301-3;

(2) Subcontracts providing for payment on a cost-plus-a-percentage-of-cost basis;

(3) Subcontracts obligating the contracting officer to deal directly with the subcontractor;

(4) Subcontracts that make the results of arbitration, judicial determination, or voluntary settlement between the prime contractor and subcontractor binding on the Government; or

(5) Repetitive or unduly protracted use of cost-reimbursement, time-and-materials, or labor-hour subcontracts (contracting officers should follow the principles of 16.103(c)).

(c) Contracting officers should not refuse consent to a subcontract merely because it contains a clause giving the subcontractor the right of indirect appeal to an agency board of contract appeals if the subcontractor is affected by a dispute between the Government and the prime contractor. Indirect appeal means assertion by the subcontractor of the prime contractor's right to appeal or the prosecution of an appeal by the prime contractor on the subcontractor's behalf. The clause may also provide that the prime contractor and subcontractor shall be equally bound by the contracting officer's or board's decision. The clause may not attempt to obligate the contracting officer or the appeals board to decide questions that do not arise between the Government and the prime contractor or that are not cognizable under the clause at 52.233-1, Disputes.

44.204 Contract clauses.

(a) *Fixed-price contracts.* (1) Except as specified in (a)(2) below, the contracting officer—

(i) Shall insert the clause at 52.244-1, Subcontracts (Fixed-Price Contracts), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to exceed $500,000; and

(ii) May insert the clause in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is not expected to exceed $500,000, if the contracting officer determines that its use will be in the Government's interest.

(2) The clause shall not be used (i) in solicitations and contracts for mortuary services, refuse services, or shipment and storage of personal property, when an agency prescribed clause on approval of subcontractors' facilities is required, or (ii) in architect-engineer contracts.

(3) If the contracting officer elects to delete the requirement for advance notification of, or consent to, any subcontracts that were evaluated during negotiations (this election is not authorized for acquisition of major systems and subsystems or their components), the contracting officer shall use the clause with its Alternate I. See also 44.205.

(b) *Cost-reimbursement and letter contracts.* The contracting officer shall insert the clause at 52.244-2, Subcontracts (Cost-Reimbursement and Letter Contracts), in solicitations and contracts when a cost-reimbursement or letter contract is contemplated. If the contracting office is in DoD, the Coast Guard, or NASA, the contracting officer shall use the clause with its Alternate I. See also 44.205.

(c) *Time-and-materials and labor-hour contracts.* The contracting officer shall insert the clause at 52.244-3, Subcontracts (Time-and-Materials and Labor-Hour Contracts), in solicitations and contracts when a time-and-materials and labor-hour contract is contemplated.

(d) *Architect-engineer contracts.* The contracting officer shall insert the clause at 52.244-4, Subcontractors and Outside Associates and Consultants, in fixed-price architect-engineer contracts.

(e) *Competition in subcontracting.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.244-5, Competition in Subcontracting, in solicitations and contracts when the contract amount is expected to exceed the small purchase limitation in part 13, unless—

(1) A firm-fixed-price contract, awarded on the basis of adequate price competition or whose prices are set by law or regulation, is contemplated; or

(2) A contract of the type and/or purpose identified in paragraphs (c) and (d) above is contemplated.

[48 FR 42388, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 23607, June 4, 1985; 50 FR 52429, Dec. 23, 1985]

44.205 Special surveillance.

In exceptional circumstances, contracting officers may select subcontracts requiring extraordinary Government surveillance for special surveillance, by specifying the selected subcontracts in the prime contract Schedule.

Subpart 44.3—Contractors' Purchasing Systems Reviews

44.301 Objective.

The objective of a contractor purchasing system review (CPSR) is to evaluate the efficiency and effectiveness with which the contractor spends Government funds and complies with Government policy when subcontracting. The review provides the administrative contracting officer (ACO) a basis for granting, withholding, or withdrawing approval of the contractor's purchasing system.

44.302 Requirements.

(a) Except as provided in paragraph (b) below, a CPSR shall be conducted for each contractor whose sales to the Government, using other than sealed bid procedures are expected to exceed $10 million during the next 12 months. Such sales include those represented by prime contracts, subcontracts under Government prime contracts, and modifications (except when the negotiated price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public, or is set by law or regulation). Generally, a CPSR is not performed for a specific contract. The head of the agency responsible for contract administration may raise or lower the $10 million review level if such action is considered to be in the Government's best interest.

(b) A CPSR shall be conducted by the cognizant contract administration agency (see subpart 42.3) at least every 3 years for contractors that continue to meet the requirements of paragraph (a) above. This review may be accomplished at one time or on a continuing basis. A more frequent review cycle may be established if warranted (e.g., when resident surveillance personnel are not assigned), and special reviews may be conducted when information reveals a deficiency or major change in the contractor's purchasing system.

[48 FR 42388, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

44.303 Extent of review.

A CPSR requires a complete evaluation of the contractor's purchasing system. The considerations listed in 44.202-2 for consent evaluations of particular subcontracts shall also be used to evaluate the contractor's purchasing system, including the contractor's policies, procedures, and performance under that system. Special attention shall be given to—

(a) The degree of price competition obtained;

(b) Pricing policies and techniques, including methods of obtaining accurate, complete, and current cost or pricing data and certification as required;

(c) Methods of evaluating subcontractor responsibility, including the contractor's use of the list of Parties Excluded from Procurement Programs (see 9.404) and, if the contractor has subcontracts with parties on the list, the documentation, systems, and procedures the contractor has established to protect the Government's interests (see 9.405-2).

(d) Treatment accorded affiliates and other concerns having close working arrangements with the contractor;

(e) Policies and procedures pertaining to labor surplus area concerns and small business concerns, including small disadvantaged business concerns;

(f) Planning, award, and postaward management of major subcontract programs;

(g) Compliance with Cost Accounting Standards in awarding subcontracts;

(h) Appropriateness of types of contracts used (see 16.103); and

(i) Management control systems, including internal audit procedures, to administer progress payments to subcontractors.

[48 FR 42388, Sept. 19, 1983, as amended at 52 FR 9039, Mar. 20, 1987; 54 FR 19827, May 8, 1989]

44.304 Surveillance.

(a) In the period between complete CPSR's, the ACO shall maintain a sufficient level of surveillance to assure that the contractor is effectively managing its purchasing program. The ACO shall make a determination annually to (1) continue approval based on surveillance or (2) request a CPSR or special review as a basis for continuing or withdrawing approval.

(b) Surveillance shall be accomplished in accordance with a plan developed by the ACO with the assistance of subcontracting, audit, pricing, technical, or other specialists as necessary. The plan shall cover pertinent phases of a contractor's purchasing system (preaward, postaward, performance, and contract completion) and pertinent operations that affect the contractor's purchasing and subcontracting. The plan shall also provide for reviewing the effectiveness of the contractor's corrective actions taken as a result of previous Government recommendations. Duplicative reviews of the same areas by CPSR and other surveillance monitors shall be avoided.

44.305 Granting, withholding, or withdrawing approval.

44.305-1 Responsibilities.

(a) The cognizant ACO is responsible for granting, withholding, or withdrawing approval of a contractor's purchasing system. The ACO shall—

(1) Approve a purchasing system only after a CPSR discloses that the contractor's purchasing policies and practices are efficient and provide adequate protection of the Government's interests;

(2) Between CPSR's, determine annually whether there are any significant deviations from approved policies and practices that would indicate a need for a special review or new CPSR to decide whether or not to withdraw approval; and

(3) Promptly notify the contractor in writing of the granting, withholding, or withdrawing of approval.

(b) If, upon expiration of approval of the contractor's purchasing system, the ACO has not specifically withheld, continued, or withdrawn approval, the approval shall continue for another 90 days. Any further extension requires written approval at least one level higher than the ACO.

44.305-2 Notification.

(a) The notification granting initial system approval or continuation of system approval shall include—

(1) Identification of the plant or plants where the review was conducted;

(2) The effective date of approval and period for which approval is valid;

(3) A statement that system approval—

(i) Applies to all Federal Government contracts at that plant to the extent that cross-servicing arrangements exist;

(ii) Waives the contractual requirement for advance notification in fixed-price contracts, but not for cost-reimbursement contracts;

(iii) Waives the contractual requirement for consent to subcontracts in fixed-price contracts and for specified subcontracts in cost-reimbursement contracts but not for those subcontracts, if any, selected for special surveillance and identified in the contract Schedule;

(iv) Shall automatically terminate at the end of the approval period (or approval period as extended);

(v) Shall automatically terminate when any significant change occurs in the system unless approved by the ACO; and

(vi) May be withdrawn at any time at the ACO's discretion.

(b) In exceptional circumstances, consent to certain subcontracts or classes of subcontracts may be required even though the contractor's purchasing system has been approved. The system approval notification shall identify the class or classes of subcontracts requiring consent. Reasons for selecting the subcontracts include the fact that a CPSR or continuing surveillance has revealed sufficient weaknesses in a particular area of subcontracting to warrant special attention by the ACO.

(c) When recommendations are made for improvement of an approved system, the contractor shall be requested to reply within 15 days with a position regarding the recommendations.

44.305-3 Withholding or withdrawing approval.

(a) The ACO shall withhold or withdraw approval of a contractor's purchasing system when there are major weaknesses or when the contractor is unable to provide sufficient information upon which to make an affirmative determination. The ACO may withdraw approval at any time on the basis of a determination that there has been a deterioration of the contractor's purchasing system or to protect the Government's interest. Approval shall be withheld or withdrawn when there is a recurring noncompliance with requirements, including but not limited to—

(1) Cost or pricing data (see 15.804);

(2) Implementation of cost accounting standards (see Part 30);

(3) Advance notification as required by the clauses prescribed in 44.204; or

(4) Small business subcontracting (see subpart 19.7).

(b) When approval of the contractor's purchasing system is withheld or withdrawn, the ACO shall within 10 days after completing the in-plant review (1) inform the contractor in writing, (2) specify the deficiencies that must be corrected to qualify the system for approval, and (3) request the contractor to furnish within 15 days a plan for accomplishing the necessary actions. If the plan is accepted, the ACO shall make a follow-up review as soon as the contractor notifies the ACO that the deficiencies have been corrected.

44.306 Disclosure of approval status.

Upon request, the ACO may inform a contractor that the purchasing system of a proposed subconcontractor has been approved, but shall caution that the Government will not keep the contractor advised of any changes in the approval status. If the proposed subcontractor's purchasing system has not been examined or approved, the contractor shall be so advised.

44.307 Reports.

The ACO shall distribute copies of CPSR reports; notifications granting, continuing, withholding, or withdrawing system approval; and Government recommendations for improvement of an approved system, including the contractor's response, to at least—

(a) The cognizant contract audit office;

(b) Activities prescribed by the cognizant agency; and

(c) The contractor (except that furnishing copies of the contractor's response is optional).

PART 45—GOVERNMENT PROPERTY

Sec.
45.000 Scope of part.

Subpart 45.1—General

45.101 Definitions.
45.102 Policy.
45.103 Responsibility and liability for Government property.
45.104 Review and correction of contractors' property control systems.
45.105 Records of Government property.
45.106 Government property clauses.

Subpart 45.2—Competitive Advantage

45.201 General.
45.202 Evaluation procedures.
45.202-1 Rental equivalents.
45.202-2 Rent.
45.202-3 Other costs and savings.
45.203 Postaward utilization requests.
45.204 Residual value of special tooling and special test equipment.
45.205 Solicitation requirements.

Subpart 45.3—Providing Government Property to Contractors

45.300 Scope of subpart.
45.301 Definitions.
45.302 Providing facilities.
45.302-1 Policy.
45.302-2 Facilities contracts.
45.302-3 Other contracts.
45.302-4 Contractor use of Government-owned and -operated test facilities.
45.302-5 Standby or layaway requirements.
45.302-6 Required Government property clauses for facilities contracts.
45.302-7 Optional property-related clauses for facilities contracts.
45.303 Providing material.
45.303-1 Policy.
45.303-2 Procedures.
45.304 Providing motor vehicles.
45.305 [Reserved]
45.306 Providing special tooling.
45.306-1 Providing existing special tooling.
45.306-2 Special tooling under cost-reimbursement contracts.
45.306-3 Special tooling under fixed-price contracts.
45.306-4 [Reserved]
45.306-5 Contract clause.
45.307 Providing special test equipment.
45.307-1 General.
45.307-2 Acquiring special test equipment.
45.307-3 Contract clause.
45.308 Providing Government production and research property "as is."
45.308-1 General.

Sec.
45.308-2 Contract clause.
45.309 Providing Government production and research property under special restrictions.
45.310 Providing agency-peculiar property.

Subpart 45.4—Contractor Use and Rental of Government Property

45.400 Scope of subpart.
45.401 Policy.
45.402 Authorizing use of Government production and research property.
45.403 Rental—Use and Charges clause.
45.404 Rent-free use.
45.405 Contracts with foreign governments or international organizations.
45.406 Use of Government production and research property on independent research and development programs.
45.407 Non-Government use of plant equipment.

Subpart 45.5—Management of Government Property in the Possession of Contractors

45.500 Scope of subpart.
45.501 Definitions.
45.502 Contractor responsibility.
45.502-1 Receipts for Government property.
45.502-2 Discrepancies incident to shipment.
45.503 Relief from responsibility.
45.504 Contractor's liability.
45.505 Records and reports of Government property.
45.505-1 Basic information.
45.505-2 Records of pricing information.
45.505-3 Records of material.
45.505-4 Records of special tooling and special test equipment.
45.505-5 Records of plant equipment.
45.505-6 Special reports of plant equipment.
45.505-7 Records of real property.
45.505-8 Records of scrap or salvage.
45.505-9 Records of related data and information.
45.505-10 Records of completed products.
45.505-11 Records of transportation and installation costs of plant equipment.
45.505-12 Records of misdirected shipments.
45.505-13 Records of property returned for rework.
45.505-14 Reports of Government property.
45.506 Identification.
45.507 Segregation of Government property.
45.508 Physical inventories.
45.508-1 Inventories upon termination or completion.
45.508-2 Reporting results of inventories.
Sec.
45.508-3 Quantitative and monetary control.
45.509 Care, maintenance, and use.
45.509-1 Contractor's maintenance program.
45.509-2 Use of Government property.
45.510 Property in possession of subcontractors.
45.511 Audit of property control system.

Subpart 45.6—Reporting, Redistribution, and Disposal of Contractor Inventory

45.600 Scope of subpart.
45.601 Definitions.
45.602 [Reserved]
45.603 Disposal methods.
45.604 Restrictions on purchase or retention of contractor inventory.
45.605 Contractor-acquired property.
45.605-1 Purchase or retention at cost.
45.605-2 Return to suppliers.
45.605-3 Cost-reimbursement contracts.
45.606 Inventory schedules.
45.606-1 Submission.
45.606-2 Common items.
45.606-3 Acceptance.
45.606-4 Withdrawals.
45.606-5 Instructions for preparing and submitting schedules of contractor inventory.
45.607 Scrap.
45.607-1 General.
45.607-2 Recovering precious metals.
45.608 Screening of contractor inventory.
45.608-1 General.
45.608-2 Standard screening.
45.608-3 Agency screening.
45.608-4 Limited screening.
45.608-5 Special items screening.
45.608-6 Waiver of screening requirements.
45.608-7 Reimbursement of costs for transfer of contractor inventory.
45.608-8 Report of excess personal property (SF 120).
45.609 Donations.
45.610 Sale of surplus contractor inventory.
45.610-1 Responsibility.
45.610-2 Exemptions from sale by GSA.
45.610-3 Proceeds of sale.
45.610-4 Contractor inventory in foreign countries.
45.611 Destruction or abandonment.
45.612 Removal and storage.
45.612-1 General.

SOURCE: 48 FR 42392, Sept. 19, 1983, unless otherwise noted.

45.000 Scope of part.

This part prescribes policies and procedures for providing Government property to contractors, contractors' use and management of Government property, and reporting, redistributing, and disposing of contractor inventory. It does not apply to providing property under any statutory leasing authority, except as to non-Government use of plant equipment under 45.407; to property to which the Government has acquired a lien or title solely because of partial, advance, or progress payments; or to disposal of real property.

Subpart 45.1—General

45.101 Definitions.

(a) *Contractor-acquired property,* as used in this part, means property acquired or otherwise provided by the contractor for performing a contract and to which the Government has title.

Government-furnished property, as used in this part, means property in the possession of, or directly acquired by, the Government and subsequently made available to the contractor.

Government property means all property owned by or leased to the Government or acquired by the Government under the terms of the contract. It includes both Government-furnished property and contractor-acquired property as defined in this section.

Plant equipment, as used in this part, means personal property of a capital nature (including equipment, machine tools, test equipment, furniture, vehicles, and accessory and auxiliary items) for use in manufacturing supplies, in performing services, or for any administrative or general plant purpose. It does not include special tooling or special test equipment.

Property, as used in this part, means all property, both real and personal. It includes facilities, material, special tooling, special test equipment, and agency-peculiar property.

Real property, as used in this p
means land and rights in land, grou
improvements, utility distribution s
tems, and buildings and other str
tures. It does not include foundatio
and other work necessary for insta
ing special tooling, special test equ
ment, or plant equipment.

Special test equipment, as used
this part, means either single or mul
purpose integrated test units en
neered, designed, fabricated, or mo
fied to accomplish special purpo
testing in performing a contract.
consists of items or assemblies
equipment, including standard or ge
eral purpose items or component
that are interconnected and interd
pendent so as to become a new fun
tional entity for special testing pu
poses. It does not include materia
special tooling, facilities (except fou
dations and similar improvements ne
essary for installing special test equi
ment), and plant equipment item
used for general plant testing pu
poses.

Special tooling, as used in this par
means jigs, dies, fixtures, molds, pa
terns, taps, gauges, other equipmen
and manufacturing aids, all comp
nents of these items, and replacemen
of these items, which are of such
specialized nature that without su
stantial modification or alteratio
their use is limited to the developmen
or production of particular supplies
parts thereof or to the performance
particular services. It does not inclu
material, special test equipment, faci
ties (except foundations and simila
improvements necessary for installin
special tooling), general or special m
chine tools, or similar capital items.

(b) Additional definitions also appl
ing throughout this part appear
those subparts where the terms a
most frequently used.

[48 FR 42392, Sept. 19, 1983, as amended
51 FR 19716, May 30, 1986; 51 FR 3327
Sept. 19, 1986; 53 FR 27468, July 20, 1988]

45.102 Policy.

Contractors are ordinarily require
to furnish all property necessary
perform Government contracts. Ho
ever, if contractors possess Gover
ment property, agencies shall—

(a) Eliminate to the maximum practical extent any competitive advantage that might arise from using such property;

(b) Require contractors to use Government property to the maximum practical extent in performing Government contracts;

(c) Permit the property to be used only when authorized;

(d) Charge appropriate rentals when the property is authorized for use on other than a rent-free basis;

(e) Require contractors to be responsible and accountable for, and keep the Government's official records of Government property in their possession or control (but see 45.105);

(f) Require contractors to review and provide justification for retaining Government property not currently in use; and

(g) Ensure maximum practical reutilization of contractor inventory (see 45.601) within the Government.

45.103 Responsibility and liability for Government property.

(a) Contractors are responsible and liable for Government property in their possession, unless otherwise provided by the contract.

(b) Generally, Government contracts do not hold contractors liable for loss of or damage to Government property when the property is provided under—

(1) Negotiated fixed-price contracts for which the contract price is not based upon (i) adequate price competition, (ii) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (iii) prices set by law or regulation;

(2) Cost-reimbursement contracts;

(3) Facilities contracts; or

(4) Negotiated or sealed bid service contracts performed on a Government installation where the contracting officer determines that the contractor has little direct control over the Government property because it is located on a Government installation and is subject to accessibility by personnel other than the contractor's employees and that by placing the risk on the contractor, the cost of the contract would be substantially increased.

(c) When justified by the circumstances, the contract may require the contractor to assume greater liability for loss of or damage to Government property than that contemplated by the Government property clauses or the clause at 52.245-8, Liability for the Facilities. For example, this may be the case when the contractor is using Governmment property primarily for commercial work rather than Government work.

(d) If the Government provides Government property directly to a subcontractor, the terms of paragraph (b) above shall apply to the subcontractor.

(e) Subcontractors are liable for loss of or damage to Government property furnished through a prime contractor. However, if the prime contract is of a type listed in subparagraph (b)(1) or (2) above, the prime contractor may, after obtaining the contracting officer's consent, reduce the subcontractor's liability by including in the subcontract a clause similar to paragraph (g), Limited risk of loss, as provided in Alternate I of the clause at 52.245-2, Government Property (Fixed-Price Contracts), (for fixed-price contracts) or similar to the same paragraph of the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts) (for cost-reimbursement contracts). Before consenting to a clause that reduces the subcontractor's liability, the contracting officer should ensure that the Government's interests are sufficiently protected.

(f) A prime contractor that provides Government property to a subcontractor shall not be relieved of any responsibility to the Government that the prime contractor may have under the terms of the prime contract.

[48 FR 42392, Sept. 19, 1983, as amended at 53 FR 663, Jan. 11, 1988]

45.104 Review and correction of contractors' property control systems.

(a) The review and approval of a contractor's property control system shall be accomplished by the agency responsible for contract administration at a contractor's plant or installation. The review and approval of a contractor's property control system by one agency shall be binding on all other departments and agencies based on interagency agreements.

(b) The contracting officer or the representative assigned the responsibility as property administrator shall review contractors' property control systems to assure compliance with the Government property clauses of the contract.

(c) The property administrator shall notify the contractor in writing when its property control system does not comply with subpart 45.5 or other contract requirements and shall request prompt correction of deficiencies. If the contractor does not correct the deficiencies within a reasonable period, the property administrator shall request action by the contracting officer administering the contract. The contracting officer shall—

(1) Notify the contractor in writing of any required corrections and establish a schedule for completion of actions;

(2) Caution the contractor that failure to take the required corrective actions within the time specified will result in withholding or withdrawing system approval; and

(3) Advise the contractor that its liability for loss of or damage to Government property may increase if approval is withheld or withdrawn.

45.105 Records of Government property.

(a) Contractor records of Government property established and maintained under the terms of the contract are the Government's official Government property records. Duplicate official records shall not be furnished to or maintained by Government personnel, except as provided in paragraph (b) below.

(b) Contracts may provide for the contracting office to maintain the Government's official Government property records when the contracting office retains contract administration and Government property is furnished to a contractor (1) for repair or servicing and return to the shipping organization, (2) for use on a Government installation, (3) under a local support service contract, (4) under a contract with a short performance period or involving Government property h
an acquisition cost of $50,000 or
or (5) when otherwise determine
the contracting officer to be in
Government's interest.

[48 FR 42392, Sept. 19, 1983, as amend
51 FR 2666, Jan. 17, 1986]

45.106 Government property clauses.

This section prescribes the prin
Government property clauses. O
clauses pertaining to Governn
property are prescribed in sub
45.3.

(a) The contracting officer
insert the clause at 52.245-1, Prop
Records, in solicitations and contr
when the conditions in 45.105(b)
and the Government maintains
Government's official Govern
property records.

(b) (1) The contracting officer
insert the clause at 52.245-2, Go
ment Property (Fixed-Price
tracts), in solicitations and contr
when a fixed-price contract is con
plated, except as provided in
graphs (d) and (e) below.

(2) If the contract is (i) a negot
fixed-price contract for which p
are not based on adequate price
petition, established catalog or ma
prices of commercial items sold in
stantial quantities to the ge
public, or prices set by law or re
tion, or

(ii) A fixed-price service con
which is performed primarily
Government installation, provide
contracting officer determines it
in the best interest of the Govern
(see subpart 45.103(b)(4)), the
tracting officer shall use the c
with its Alternate I.

(3) If the contract is for the con
of basic or applied research at
profit institutions of higher educ
or at nonprofit organizations w
primary purpose is the conduct o
entific research (see 35.014), the
tracting officer shall use the c
with its Alternate II.

(c) The contracting officer
insert the clause at 52.245-3, Ide
cation of Government-Furn
Property, in addition to the clau
52.245-2, Government Pro
(Fixed-Price Contracts), in sol

tions and contracts when a fixed-price construction contract is contemplated under which the Government is to furnish Government property f.o.b. railroad cars at a specified destination or f.o.b. truck at the project site. The contract Schedule shall specify the point of delivery and may include special terms and conditions covering installation, preparation for operation, or equipment testing by the Government or by another contractor.

(d) The contracting officer may insert the clause at 52.245-4, Government-Furnished Property (Short Form), in solicitations and contracts when a fixed-price, time-and-material, or labor-hour contract is contemplated and the acquisition cost of all Government-furnished property to be involved in the contract is $50,000 or less; unless a contract with an educational or nonprofit organization is contemplated.

(e) When the cost of the property furnished does not exceed $10,000, purchase orders for property repair need not include a Government property clause.

(f) (1) The contracting officer shall insert the clause at 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts), in solicitations and contracts when a cost-reimbursement, time-and-material, or labor-hour contract is contemplated, except as provided in paragraph (d) above.

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate I.

(g) The contracting officer shall insert the clause at 52.245-6, Liability for Government Property (Demolition Services), in addition to the clauses prescribed at 37.304, in solicitations and contracts for dismantling, demolition, or removal of improvements.

[48 FR 42392, Sept. 19, 1983, as amended at 53 FR 663, Jan. 11, 1988]

Subpart 45.2—Competitive Advantage

45.201 General.

(a) The contracting officer shall, to the maximum practical extent, eliminate competitive advantage accruing to a contractor possessing Government production and research property (see 45.301). This is done by (1) adjusting the offers of those contractors by applying, for evaluation purposes only, a rental equivalent evaluation factor or, (2) when adjusting offers is not practical, by charging the contractor rent for using the property. Applying a rental equivalent factor is not appropriate in awarding negotiated contracts when the contracting officer determines that using the factor would not affect the choice of contractors.

(b) In evaluating offers, the contracting officer shall also consider any costs or savings to the Government related to providing such property, regardless of any competitive advantage that may result (see 45.202-3).

45.202 Evaluation procedures.

45.202-1 Rental equivalents.

If a rental equivalent evaluation factor is used, it shall be equal to the rent allocable to the proposed contract that would otherwise have been charged for the property, as computed in accordance with the clause at 52.245-9, Use and Charges. (See 45.205(b) for solicitation requirements.)

45.202-2 Rent.

If using a rental equivalent evaluation factor is not practical, and the competitive advantage is to be eliminated by charging rent, any offeror or subcontractor may use Government production and research property after obtaining the written approval of the contacting officer having cognizance of the property. Rent shall be charged in accordance with 45.403.

45.202-3 Other costs and savings.

(a) If furnishing Government production and research property will result in direct measurable costs that the Government must bear, additional factors shall be considered in evaluating bids or proposals. These factors shall be specified in the solicitation either as dollar amounts or as formulas and shall be limited to the cost of—

(1) Reactivation from storage;

(2) Rehabilitation and conversion; and

(3) Making the property available on an f.o.b. basis.

(b) If, under the terms of the solicitation, the contractor will bear the transportation cost of furnishing Government production and research property or the cost of making it suitable for use (such as when property is offered on an *as is* basis (see 45.308)), no additional evaluation factors related to those costs shall be used.

(c) If using Government production and research property will result in measurable savings to the Government, the dollar amount of these savings shall be specified in the solicitation and used in evaluating offers. Examples of such savings include—

(1) Savings occurring as a direct result of activating tools being maintained in idle status at known cost to the Government; and

(2) Avoiding the costs of deactivating and placing tools in layaway or storage or of maintaining them in an idle state, if the prospective costs are known. For these costs to be included in the evaluation, firm decisions must have been made that the tools will be laid away or stored if not used on the proposed contract and that such costs are not merely being deferred.

45.203 Postaward utilization requests.

When, after award, a contractor requests the use of special tooling or special test equipment, the administrative contracting officer shall obtain a fair rental or other adequate consideration if use is authorized. The value of the items, if known, and any amount included for them in the contract price shall be considered.

45.204 Residual value of special tooling and special test equipment.

(a) In awarding competitively negotiated contracts that permit the acquisition of special tooling or special test equipment, an evaluation may be made of the residual value of the
property to the Government. Th
evaluation is appropriate when th
contracting officer (1) determines th
the property will have a reasonab
foreseeable usefulness and related r
sidual value beyond the period of u
on the proposed contract and (2) a
ticipates that the cost of the propert
(as proposed by the several offeror
may be a factor in making the awar
This evaluation is not appropriate
the contract will include the speci
tooling or special test equipment as
contract line item.

(b) The purpose of evaluating the r
sidual value of special tooling or sp
cial test equipment is to apportion
each proposal only that part of th
total cost of the property that repr
sents the amount of useful life to
consumed during contract perforn
ance. Accordingly, the proposed pri
or cost may be reduced for evaluatio
purposes by an amount representin
the residual value of such property
the Government. In estimating resid
al value, the contracting officer sha
consider—

(1) The useful life of the speci
tooling and special test equipment
be acquired;

(2) Adaptability of the property f
use by other contractors or by th
Government;

(3) Reasonably foreseeable requir
ments for future use of the propert
and

(4) The scrap or salvage value of t
property.

(c) If the contacting officer decid
to consider the residual value of sp
cial tooling or special test equipmen
the solicitation shall so notify offero
and state the Government's reaso
ably foreseeable future requiremen
for the property.

45.205 Solicitation requirements.

(a) When Government productio
and research property (see 45.301)
offered for use in a competitive acqu
sition, solicitations will ordinarily r
quire the contractor to assume
costs related to making the propert
available for use (such as payment
all transportation or rehabilitatio
costs).

(b) The solicitation shall describe the evaluation procedures to be followed, including rental charges or equivalents (see 45.202) and other costs or savings to be evaluated (see 45.202-3), and shall require all offerors to submit with their offers the following information:

(1) A list or description of all Government production and research property that the offeror or its subcontractors propose to use on a rent-free basis. The list shall include property offered for use in the solicitation, as well as property already in possession of the offeror and its subcontractors under other contracts.

(2) Identification of the facilities contract or other instrument under which property already in possession of the offeror and its subontractors is held, and the written permission for its use from the contracting officer having cognizance of the property.

(3) The dates during which the property will be available for use (including the first, last, and all intervening months) and, for any property that will be used concurrently in performing two or more contracts, the amounts of the respective uses in sufficient detail to support proration of the rent.

(4) The amount of rent that would otherwise be charged, computed in accordance with 45.403.

(c) Solicitations shall provide that using Government production and research property (other than as described and permitted in the solicitation (see paragraph (b) above)) will not be authorized under the contract unless such use is approved in writing by the contracting officer cognizant of the property, and either rent calculated in accordance with the clause at 52.245-9, Use and Charges, is charged, or the contract price is reduced by an equivalent amount. (See 45.203 for postaward requests for special tooling and special test equipment and 45.204(c) for solicitation requirements for special tooling and special test equipment with residual value.)

Subpart 45.3—Providing Government Property to Contractors

45.300 Scope of subpart.

This subpart prescribes policies and procedures for providing Government property to contractors.

45.301 Definitions.

Agency-peculiar property, as used in this subpart, means Government-owned personal property that is peculiar to the mission of one agency (e.g., military or space property). It excludes Government material, special test equipment, special tooling, and facilities.

Facilities, as used in this subpart and when used in other than a facilities contract, means property used for production, maintenance, research, development, or testing. It includes plant equipment and real property (see 45.101). It does not include material, special test equipment, special tooling, or agency-peculiar property. When used in a facilities contract, the term includes all property provided under that contract.

Facilities contract, as used in this subpart, means a contract under which Government facilities are provided to a contractor or subcontractor by the Government for use in connection with performing one or more related contracts for supplies or services. It is used occasionally to provide special tooling or special test equipment. Facilities contracts may take any of the following forms:

(a) A facilities acquisition contract providing for the acquisition, construction, and installation of facilities.

(b) A facilities use contract providing for the use, maintenance, accountability, and disposition of facilities.

(c) A consolidated facilities contract, which is a combination of a facilities acquisition and a facilities use contract.

Government production and research property, as used in this subpart, means Government-owned facilities, Government-owned special test equipment, and special tooling to which the Government has title or the right to acquire title.

Material, as used in this subpart, means property that may be incorporated into or attached to a deliverable end item or that may be consumed or expended in performing a contract. It includes assemblies, components, parts, raw and processed materials, and small tools and supplies that may be consumed in normal use in performing a contract.

Nonprofit organization, as used in this subpart, means any corporation, foundation, trust, or institution operated for scientific, educational, or medical purposes, not organized for profit, and no part of the net earnings of which inures to the benefit of any private shareholder or individual.

Nonseverable, as used in this subpart, when related to Government production and research property, means property that cannot be removed after erection or installation without substantial loss of value or damage to the property or to the premises where installed.

45.302 Providing facilities.

45.302-1 Policy.

(a) Contractors shall furnish all facilities required for performing Government contracts except as provided in this subsection. Government facilities provided to contractors shall be individually identified in the solicitation, if possible, and contract. Agencies shall not furnish facilities to contractors for any purpose, including restoration, replacement, or modernization, except as follows:

(1) For use in a Government-owned, contractor-operated plant operated on a cost-plus-fee basis.

(2) For support of industrial preparedness programs.

(3) As components of special tooling or special test equipment acquired or fabricated at Government expense.

(4) When, as a result of the prospective contractor's written statement asserting inability to obtain facilities, the agency head or designeee issues a Determination and Finding (see subpart 1.7) that the contract cannot be fulfilled by any other practical means or that it is in the public interest to provide the facilities.

(i) If the contractor's inability t provide facilities is due to insufficien lead time, the Government may provide existing facilities until the contractor's facilities can be installed.

(ii) Mere assertion by a contracto that it is unable to provide facilities i not, in itself, sufficient to justify approval. Appropriate Government officials must determine that providin Government facilities is justified.

(iii) The determination shall includ findings that private financing of th facilities was sought but not availabl or that private financing was determined not advantageous to the Government. The determination shall also state that the contract cannot be accomplished without Government facilities being provided.

(iv) The original determination shall be included in the contract file.

(v) No determination is required when the facilities are provided as components of special tooling or special test equipment acquired or fabricated at Government expense.

(5) As otherwise authorized by law or regulation.

(b) Agencies shall not—

(1) Furnish new facilities to contractors unless existing Government-owned facilities are either inadequate or cannot be economically furnished;

(2) Use research and development funds to provide contractors with new construction or improvements of general utility, unless authorized by law; or

(3) Provide facilities to contractors solely for non-Government use, unless authorized by law.

(c) Competitive solicitations shall not include an offer by the Government to provide new facilities, nor shall solicitations offer to furnish existing Government facilities that must be moved into a contractor's plant, unless adequate price competition cannot be otherwise obtained. Such solicitations shall require contractors to identify the Government-owned facilities desired to be moved into their plants.

(d) Government facilities with a unit cost of less than $10,000 shall not be provided to contractors unless—

(1) The contractor is a nonprofit institution of higher education or other

nonprofit organization whose primary purpose is the conduct of scientific research;

(2) A contractor is operating a Government-owned plant on a cost-plus-fee basis;

(3) A contractor is performing on a Government establishment or installation;

(4) A contractor is performing under a contract specifying that it may acquire or fabricate special tooling, special test equipment, and components thereof subsequent to obtaining the approval of the contracting officer; or

(5) The facilities are unavailable from other than Government sources.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 34756, Aug. 21, 1989]

45.302-2 Facilities contracts.

(a) Facilities shall be provided to a contractor or subcontractor only under a facilities contract using the appropriate clauses required by 45.302-6, except as provided in 45.302-3.

(b) All facilities provided by a contracting activity for use by a contractor at any one plant or general location shall be governed by a single facilities contract, unless the contracting officer determines this to be impractical. Each agency should consolidate, to the maximum practical extent, its facility contracts covering specific contractor locations.

(c) No fee shall be allowed under a facilities contract. Profit or fee (plus or minus) shall be considered in awarding any related supply or service contract, consistent with the profit guidelines of subpart 15.9.

(d) Special tooling and special test equipment will normally be provided to a contractor under a supply contract, but may be provided under a facilities contract when administratively desirable.

(e) Agencies shall ensure that facility projects involving real property transactions comply with applicable laws (e.g., 10 U.S.C. 2676 and 41 U.S.C. 12 and 14).

45.302-3 Other contracts.

(a) Facilities may be provided to a contractor under a contract other than a facilities contract when—

(1) The actual or estimated cumulative acquisition cost of the facilities provided by the contracting activity to the contractor at one plant or general location does not exceed $100,000;

(2) The contract is for construction;

(3) The contract is for services and the facilities are to be used in connection with the operation of a Government-owned plant or installation; or

(4) The contract is for work within an establishment or installation operated by the Government.

(b) When a facilities contract is not used, the Government's interest shall normally be protected by using the appropriate Government property clause or, in the case of (a)(3) above, by appropriate portions of the facilities clauses.

45.302-4 Contractor use of Government-owned and -operated test facilities.

(a) Agencies may authorize onsite use by contractors of existing Government-owned and -operated test facilities in connection with Government contracts only when—

(1) No adequate commercial test capability is available;

(2) Substantial cost savings will result from using the Government-owned test facilities; or

(3) Otherwise authorized by law.

(b) When such use is authorized, the contracting officer shall obtain adequate consideration comparable to commercial rates.

45.302-5 Standby or layaway requirements.

A facilities contract may include requirements for maintenance and storage of Government production and research property in standby or layaway status. The contract shall include appropriate specifications for the care and maintenance of the property. If the Government is required to pay the contractor for maintenance and storage, the contract shall define what constitutes standby or layaway and specify when payments will begin and end. The contract may provide for reimbursing the contractor for any State or local property tax it is required to pay because of its possession of or interest in such property (see 31.205-41).

45.302-6 Required Government property clauses for facilities contracts.

(a) The contracting officer shall insert the clause at 52.245-7, Government Property (Consolidated Facilities), in solicitations and contracts when a consolidated facilities contract is contemplated (see 45.301).

(b) The contracting officer shall insert the clause at 52.245-8, Liability for the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated (see 45.301).

(c) The contracting officer shall insert the clause at 52.245-9, Use and Charges, in solicitations and contracts (1) when a consolidated facilities contract or a facilities use contract (see 45.301) or (2) when a fixed-price contract is contemplated, and Government production and research property is provided other than on a rent-free basis.

(d) The contracting officer shall insert the clause at 52.245-10, Government Property (Facilities Acquisition), in solicitations and contracts when a facilities acquisition contract is contemplated (see 45.301).

(e) (1) The contracting officer shall insert the clause at 52.245-11, Government Property (Facilities Use), in solicitations and contracts when a facilities use contract is contemplated (see 45.301).

(2) If the contract is for the conduct of basic or applied research at nonprofit institutions of higher education, or is awarded to a nonprofit organization whose primary purpose is the conduct of scientific research (see 35.014), the contracting officer shall use the clause with its Alternate I.

45.302-7 Optional property-related clauses for facilities contracts.

(a) The contracting officer may insert the clause at 52.245-12, Contract Purpose (Nonprofit Educational Institutions), in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(b) The contracting officer may insert the clause at 52.245-13, Accountable Facilities (Nonprofit Educational Institutions), in solicitations and contracts when a facilities contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(c) The contracting officer may insert the clause at 52.245-14, Use of Government Facilities, in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution (also see 45.302-6).

(d) The contracting officer may, under a proper delegation of authority, insert the clause at 52.245-15, Transfer of Title to the Facilities, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated for the conduct of basic or applied research at nonprofit institutions of higher education, or at nonprofit organizations whose primary purpose is the conduct of scientific research (see 35.015 and 45.302-6).

(e) The contracting officer may insert the clause at 52.245-16, Facilities Equipment Modernization, in solicitations and contracts when a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated under which the Government will provide modernized or replacement facilities.

45.303 Providing material.

45.303-1 Policy.

Contractors shall ordinarily furnish all material for performing Government contracts. However, agencies should provide material to a contractor when necessary to achieve significant economy, standardization, or expedited production, or when it is otherwise in the Government's interest.

45.303-2 Procedures.

Solicitations shall specify material that the Government will furnish in sufficient detail (including requisitioning procedures) to enable offerors to evaluate it accurately. The contracting officer shall insert the appropriate Government property clause prescribed in 45.106, in all solicitations when the Government will provide material.

45.304 Providing motor vehicles.

Contractors shall ordinarily furnish any motor vehicles needed in performing Government contracts. Agencies may provide contractors with motor vehicles only when—

(a) The number of vehicles required for use by contractor personnel is predictable and expected to remain fairly constant;

(b) The proposed contract will bear the entire cost of the vehicle program;

(c) The motor vehicles will not be used on any contract other than that for which the vehicles were provided, unless approved by the appropriate department or agency official;

(d) Prospective contractors do not have or would not be expected to have an existing and continuing capability for providing the vehicles from their own resources; and

(e) Substantial savings are expected.

45.305 [Reserved]

45.306 Providing special tooling.

45.306-1 Providing existing special tooling.

(a) The contracting officer shall offer existing Government special tooling to prospective contractors for use in Government work if it will not disrupt programs of equal or higher priority, it is otherwise advantageous to the Government, and use of the special tooling is authorized under 45.402(a). (See also 45.308 and 45.309.)

(b) Contracts authorizing the furnishing of existing special tooling shall contain a description of the special tooling, the terms and conditions of shipment, and the terms covering the cost of adapting and installing the tooling.

45.306-2 Special tooling under cost-reimbursement contracts.

Title to special tooling under cost-reimbursement contracts is acquired by the Government in all cases. The clause used for this purpose is 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts).

[54 FR 48989, Nov. 28, 1989]

45.306-3 Special tooling under fixed-price contracts.

(a) *Criteria for acquisition.* In deciding whether or not to acquire title to special tooling, or rights to title, under fixed-price contracts, the contracting officer shall consider the following factors:

(1) The current or probable future need of the Government for the items involved (including in-house use) and the estimated cost of producing them if not acquired.

(2) The estimated residual value of the items.

(3) The administrative burden and other expenses incident to reporting, recordkeeping, preparation, handling transportation, and storage.

(4) The feasibility and probable cost of making the items available to other offerors in the event of future acquisitions.

(5) The amount offered by the contractor for the right to retain the items.

(6) The affect on future competition and contract pricing.

(b) *Decision not to acquire special tooling.* In contracts in which the Government will not acquire title to special tooling, or rights to title, special requirements may be included in the Schedule of the contract (e.g., requirement governing the contractor's capitalization of special tooling costs).

[54 FR 48989, Nov. 28, 1989]

45.306-4 [Reserved]

45.306-5 Contract clause.

The contracting officer shall insert the clause at 52.245-17, Special Tooling, in solicitations and contracts when a fixed-price contract is contemplated, and either the contract will include special tooling provided by the Government or the Government will acquire title or right to title in special tooling to be acquired or fabricated by the contractor for the Government, other than special tooling to be delivered as an end item under the contract. The Special Tooling clause shall apply to all special tooling accountable to the contract.

[54 FR 48989, Nov. 28, 1989]

45.307 Providing special test equipment.

45.307-1 General.

(a) Contracting officers shall offer existing Government-owned special test equipment to contractors, consistent with the conditions in 45.306-1(a). (See also 45.308 and 45.309.)

(b) Contracting officers may also authorize contractors to acquire special test equipment for the Government when it is advantageous to the Government under the criteria in 45.306-3(a) and existing special test equipment is not available.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 48990, Nov. 28, 1989]

45.307-2 Acquiring special test equipment.

(a) When special test equipment or components are known, the solicitation (and the contract) shall separately identify each item to be furnished by the Government or acquired or fabricated by the contractor for the Government. Individual items of less than $1,000 may be grouped by category.

(b) *Notice and approval.* Under negotiated contracts containing the clause at 52.245-18, Special Test Equipment, the contractor must notify the contracting officer if it intends to acquire or fabricate special test equipment. Within 30 days of receipt of the notice, the contracting officer shall—

(1) Review the proposed items for necessity and proper classification as *special* test equipment;

(2) Screen the availability of existing Government-owned test equipment in accordance with agency procedures; and

(3) Notify the contractor, approving or disapproving the acquisition or fabrication and, if it is disapproved, state whether the equipment will be furnished by the Government.

45.307-3 Contract clause.

The contracting officer shall insert the clause at 52.245-18, Special Test Equipment, in solicitations and contracts when contracting by negotiation and the contractor will acquire or fabricate special test equipent for the Government but the exact identification of the special test equipment to be acquired or fabricated is unknown.

[54 FR 48990, Nov. 28, 1989]

45.308 Providing Government productio and research property "as is."

45.308-1 General.

(a) The contracting officer may provide Government production and research property on an "as is" basis for performing fixed-price, time-and-material, and labor-hour contracts. It may also be furnished under a facilities contract, in which case the contract shall state that the contractor will not be reimbursed for transporting, installing, modifying, repairing, or otherwise making the property ready for use.

(b) When the property is provided under other than a facilities contract, the solicitation shall state that—

(1) Offerors may inspect the property before submitting offers and the conditions under which it may be inspected;

(2) The property is offered in its current condition, f.o.b. present location (provide specific locations);

(3) Offerors must satisfy themselves that the property is suitable for their use;

(4) The successful offeror shall bear the cost of transporting, installing, modifying, repairing, or otherwise making the property suitable for use; and

(5) Evaluations will be made in accordance with Subpart 45.2 to eliminate any competitive advantage resulting from using the property.

[54 FR 48990, Nov. 28, 1989]

45.308-2 Contract clause.

The contracting officer shall insert the clause at 52.245-19, Government Property Furnished "As Is," in solicitations and contracts when a contract other than a consolidated facilities contract, a facilities acquisition contract, or a facilities use contract is contemplated and Government production and research property is to be furnished "as is" (see 45.106 for additional clauses that may be required).

[54 FR 48990, Nov. 28, 1989]

45.309 Providing Government production and research property under special restrictions.

(a) Government production and research property, other than foundations and similar improvements necessary for installing special tooling, special test equipment, or plant equipment, shall not be installed or constructed on land not owned by the Government in such fashion as to be nonseverable, unless the head of the contracting activity determines that the location is necessary, and the contract under which the property is provided contains—

(1) A requirement for the contractor to reimburse the Government for the fair value of the property at contract completion or termination or within a reasonable time thereafter (for example, the provision may require the contractor to purchase the property at a value determined by appraisal or at a price equal to its acquisition cost less depreciation at a specified rate);

(2) An option for the Government to acquire the underlying land; or

(3) An alternative provision that the agency head considers adequate to protect the Government's interests.

(b) If patent or other proprietary rights of a contractor may restrict the disposal of Government production and research property, the condition in either paragraph (a)(1) or (a)(3) above shall be satisfied before the property is provided.

(c) If Government production and research property is not available to all offerors, the solicitation shall identify the offerors to whom the property is available.

45.310 Providing agency-peculiar property.

(a) Agency-peculiar property may be furnished to contractors when necessary for use as a standard or model, for testing the contractor's end item where suitable commercial equipment is not available, to establish equipment compatibility, or for other reasons that the contracting officer determines to be in the Government's interest.

(b) Agency-peculiar property may be furnished under a facilities contract, a supply or service contract containing the appropriate Government Property clause, or a special bailment agreement.

(c) Contracting officers shall provide special instructions for security, liability, maintenance, and/or property control, when agency-peculiar property requires special handling or safeguards.

Subpart 45.4—Contractor Use and Rental of Government Property

45.400 Scope of subpart.

This subpart prescribes policies and procedures for contractor use and rental of Government production and research property.

45.401 Policy.

In performing Government contracts or subcontracts, Government production and research property in the possession of contractors or subcontractors shall be used to the greatest possible extent, provided that a competitive advantage is not conferred on the contractor or its subcontractors (see subpart 45.2). Prior approval of the contracting officer having cognizance of Government production and research property is required for any use, whether Government or non-Government, to ensure that the Government receives adequate consideration. Government use is defined as use in support of U.S. Government contacts and non-Government use is all other use (including direct commercial sales to domestic and foreign customers). As a general rule, Government use is on a rent-free basis. Non-Government use is on a rental basis. When Government production and research property is no longer required for the performance of Government contracts or subcontracts, it shall not continue to be made available to a contractor for non-Government use.

[51 FR 19717, May 30, 1986]

45.402 Authorizing use of Government production and research property.

(a) Contracting officers who believe it to be in the Government's interest for a prospective contractor or subcontractor to use existing Government production and research property shall authorize such use in the contract. The contracting officer shall confirm the availability of the property before authorizing its use on either a rental or rent-free basis.

(b) Unless the solicitation provides for the successful offeror to use Government production and research property in the offeror's possession, the solicitation shall require any offeror desiring to use such property to request the written concurrence of the contracting officer cognizant of the property. To preclude a competitive advantage, the contracting officer's concurrence should include any information required by subpart 45.2.

(c) The contracting officer shall review the contractor's request for non-Government use of Government production and research property when the property is no longer required for performing Government contracts but is retained for spares or for mobilization and readiness requirements. (Also see 45.302-1(b)(3).)

45.403 Rental—Use and Charges clause.

(a) The contracting officer shall charge contractors rent for using Government production and research property, except as prescribed in 45.404 and 45.405. Rent shall be computed in accordance with the clause at 52.245-9, Use and Charges. If the agency head or designee determines it to be in the Government's interest, rent for classes of production and research property other than plant equipment identified in item (ii) of Table I of the clause at 52.245-9, Use and Charges, may be charged on the basis of use rather than the rental period, or on some other equitable basis. In such cases, the clause at 52.245-9, Use and Charges, shall be appropriately modified.

(b) The contracting officer cognizant of the Government production and research property shall ensure the collection of any rent due the Government from the contractor.

45.404 Rent-free use.

(a) The rental required by 45.403 above does not apply to the following Government production and research property:

(1) That which is located in Government-owned, contractor-operated plants operated on a cost-plus-fee basis (but see 45.405).

(2) That which is left in place or installed on contractor-owned property for mobilization or future Government production purposes. However, rent computed in accordance with 45.403(a) shall apply to that portion of property or its capacity used or authorized for use.

(3) Items of equipment that are part of a general program approved by the Federal Emergency Management Agency (FEMA) and present unusual problems in relation to the time required for their preparation for shipment, installation, and operation because of size, complexity, or performance characteristics.

(4) Any other Government production and research property that may be excepted by FEMA.

(b) The contracting officer cognizant of the Government production and research property may grant written authorization for rent-free use of production and research property in the possession of nonprofit organizations when used for research, development, or educational work and—

(1) The use of the property is directly or indirectly in the national interest;

(2) The property will not be used for the direct benefit of a profitmaking organization; and

(3) The Government receives some direct benefit (such as rights to use the results of the work without charge) from its use. As a minimum, the contractor shall furnish a report on the work for which the property was provided.

(c) If the contracting officer has obtained adequate price or other consideration, Government production and research property may also be used rent-free under—

(1) Prime contracts that specifically authorize such use without charge; and

(2) Subcontracts of any tier, if the contracting officer awarding the prime contract has specifically authorized rent-free use by the subcontractor.

(d) After award, a contract may be modified to eliminate rent for using

Government production and research property. In this case, the contract shall be equitably adjusted to reflect the elimination of rent and any other amount attributable thereto.

45.405 Contracts with foreign governments or international organizations.

Requests by, or for the benefit of, foreign governments or international organizations to use Government production and research property shall be processed and costs shall be recovered or rental charged in accordance with agency procedures.

45.406 Use of Government production and research property on independent research and development programs.

The contracting officer cognizant of Government production and research property in the possession of a contractor may authorize a contractor to use the property on an independent research and development (IR&D) program, if—

(a) Such use will not conflict with the primary use of the property or enable the contractor to retain property that could otherwise be released;

(b) The contractor agrees not to include as a charge against any Government contract the rental value of the property used on its IR&D program; and

(c) A rental charge for the portion of the contractor's IR&D program cost allocated to commercial work, computed in accordance with 45.403, is deducted from any agreed-upon Government share of the contractor's IR&D costs.

45.407 Non-Government use of plant equipment.

Requirements for authorization and dollar thresholds for non-Government use of specific types of plant equipment shall be set at the agency level. The following general policies and requirements shall be used by agencies in supplementing this section:

(a) The contracting officer's advance written approval shall be required for any non-Government use of active plant equipment. Before authorizing non-Government use exceeding 25 percent, the contracting officer shall obtain approval of the head (or designee) of the agency that awarded the contract to which the property is accountable.

(b) The approvals under paragraph (a) above may be granted only when it is in the Government's interest—

(1) To keep the equipment in a high state of operational readiness through regular use;

(2) Because substantial savings to the Government would accrue through overhead cost-sharing and receipt of rental; or

(3) To avoid an inequity to a contractor who is required by the Government to retain the equipment in place.

(c) If the contractor's request for non-Government use in excess of 25 percent is approved, the contracting officer may require the contractor to insure the property against loss or damage. Facilities contracts may be modified to require such insurance.

Subpart 45.5—Management of Government Property in the Possession of Contractors

45.500 Scope of subpart.

This subpart prescribes the minimum requirements contractors must meet in establishing and maintaining control over Government property. It applies to contractors organized for profit and, except as otherwise noted, to non-profit organizations. In order for the special requirements in this subpart governing nonprofit organizations to apply, the contract must identify the contractor as a nonprofit organization. If there is any inconsistency between this subpart and the terms of the contract under which the Government property is provided, the terms of the contract shall govern.

45.501 Definitions.

Accessory item, as used in this subpart, means an item that facilitates or enhances the operation of plant equipment but which is not essential for its operation.

Agency-peculiar property (see 45.301).

Auxiliary item, as used in this subpart, means an item without which the basic unit of plant equipment cannot operate.

Contractor-acquired property (see 45.101).

Custodial records, as used in this subpart, means written memoranda of any kind, such as requisitions, issue hand receipts, tool checks, and stock record books, used to control items issued from tool cribs, tool rooms, and stockrooms.

Discrepancies incident to shipment, as used in this subpart, means all deficiencies incident to shipment of Government property to or from a contractor's facility whereby differences exist between the property purported to have been shipped and property actually received. Such deficiencies include loss, damage, destruction, improper status and condition coding, errors in identity or classification, and improper consignment.

Facilities (see 45.301).

Government-furnished property (see 45.101).

Government property (see 45.101).

Individual item record, as used in this subpart, means a separate card, form, document or specific line(s) of computer data used to account for one item of property.

Material (see 45.301).

Nonprofit organization (see 45.301).

Plant equipment (see 45.101).

Property administrator, as used in this subpart, means an authorized representative of the contracting officer assigned to administer the contract requirements and obligations relating to Government property.

Real property (see 45.101).

Salvage, as used in this subpart, means property that, because of its worn, damaged, deteriorated, or incomplete condition or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs, but has some value in excess of its scrap value.

Scrap, as used in this subpart, means personal property that has no value except for its basic material content.

Special test equipment (see 45.101).

Special tooling (see 45.101).

Stock record, as used in this subpart, means a perpetual inventory record which shows by nomenclature the quantities of each item received and issued and the balance on hand.

Utility distribution system, as in this subpart, includes distrib and transmission lines, substatio installed equipment forming an gral part of the system by which water, steam, electricity, seweraç other utility services are transm between the outside building or s ture in which the services are use the point of origin, disposal, or co tion with some other system. It not include communication service

Work-in-process, as used in this part, means material that has bee leased to manufacturing, enginee design or other services under the tract and includes undelivered m factured parts, assemblies, and p ucts, either complete or incomplet

45.502 Contractor responsibility.

(a) The contractor is directly res sible and accountable for all Gov ment property in accordance with requirements of the contract. Thi cludes Government property in possession or control of a subcon tor. The contractor shall establish maintain a system in accordance this subpart to control, protect, serve, and maintain all Governm property. This property co system shall be in writing unless property administrator determ that maintaining a written syste unnecessary. The system shall b viewed and, if satisfactory, appr in writing by the property admini tor.

(b) The contractor shall main and make available the records quired by this subpart and accoun all Government property until lieved of that responsibility. The tractor shall furnish all necessary to substantiate any request for r from responsibility.

(c) (1) The contractor shall be sponsible for the control of Gov ment property under this subpart upon—

(i) Delivery of Government- nished property into its custody control;

(ii) Delivery, when property is chased by the contractor and the tract calls for reimbursement by Government (this requirement not alter or modify contractual requirements relating to passage of title);

(iii) Approval of its claim for reimbursement by the Government or upon issuance for use in contract performance, whichever is earlier, of property withdrawn from contractor-owned stores and charged directly to the contract; or

(iv) Acceptance of title by the Government when title is acquired pursuant to specific contract clauses or as a result of change orders or contract termination.

(2) Property to which the Government has acquired a lien or title solely as a result of advance, progress, or partial payments is not subject to the requirements of this subpart.

(d) The contractor shall require subcontractors provided Government property under the prime contract to comply with the requirements of this subpart. Procedures for assuring subcontractor compliance shall be included in the contractor's property control system. Where the property administrator assigned to the contract has requested supporting property administration from another contract administration office, the contractor may accept the system approval of the supporting property administrator instead of performing duplicative actions to assure the subcontractor's compliance.

(e) If the property administrator finds any portion of the contractor's property control system to be inadequate, the contractor must take any necessary corrective action before the system can be approved. If the contractor and property administrator cannot agree regarding the adequacy of control and corrective action, the matter shall be referred to the contracting officer.

(f) When Government property (excluding misdirected shipments, see 45.505-12) is disclosed to be in the possession or control of the contractor but not provided under any contract, the contractor shall promptly (1) record such property according to the established property control procedure and (2) furnish to the property administrator all known circumstances and data pertaining to its receipt and a statement as to whether there is a need for its retention.

(g) The contractor shall promptly report all Government property in excess of the amounts needed to complete full performance under the contracts providing it or authorizing its use.

(h) When unrecorded Government property is found, both the cause of the discrepancy and actions taken or needed to prevent recurrence shall be determined and reported to the property administrator.

[48 FR 42392, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

45.502-1 Receipts for Government property.

The contractor shall furnish written receipts for all or specified classes of Government property only when the property administrator deems it essential for maintaining minimum acceptable property controls. If evidence of receipt is required for contractor-acquired property, the contractor shall provide it before submitting its request for payment for the property. For Government-furnished property, the contractor shall provide the required receipt immediately upon receipt of the property.

45.502-2 Discrepancies incident to shipment.

(a) *Government-furnished property.* If overages, shortages, or damages are discovered upon receipt of Government-furnished property, the contractor shall provide a statement of the condition and apparent causes to the property administrator and to other activities specified in the approved property control system. Only that quantity of property actually received will be recorded on the official records.

(b) *Contractor-acquired property.* The contractor shall take all actions necessary in adjusting overages, shortages, or damages in shipment of contractor-acquired property from a vendor or supplier. However, when the shipment has moved by Government bill of lading and carrier liability is indicated, the contractor shall report the discrepancy in accordance with paragraph (a) above.

45.503 Relief from responsibility.

(a) Unless the contract or contracting officer provides otherwise, the contractor shall be relieved of property control responsibility for Government property by—

(1) Reasonable and proper consumption of property in the performance of the contract as determined by the property administrator;

(2) Retention by the contractor, with the approval of the contracting officer, of property for which the Government has received consideration;

(3) The authorized sale of property, provided the proceeds are received by or credited to the Government;

(4) Shipment from the contractor's plant, under Government instructions, except when shipment is to a subcontractor or other location of the contractor; or

(5) A determination by the contracting officer of the contractor's liability for any property that is lost, damaged, destroyed, or consumed in excess of that normally anticipated in a manufacturing or processing operation, if—

(i) The determination is furnished to the contractor in writing;

(ii) The Government is reimbursed where required by the determination; and

(iii) Property rendered unserviceable by damage is properly disposed of, and the determination is cross-referenced to the shipping or other documents evidencing disposal.

(b) Nonprofit organizations are relieved of responsibility for Government property when title to the property is transferred to the contractor (see 35.014).

45.504 Contractor's liability.

(a) Subject to the terms of the contract and the circumstances surrounding the particular case, the contractor may be liable for shortages, loss, damages, or destruction of Government property. The contractor may also be liable when the use or consumption of Government property unreasonably exceeds the allowances provided for by the contract, the bill of material, or other appropriate criteria.

(b) The contractor shall investigate and report to the property administrator all cases of loss, damage, or destruction of Government property in its possession or control as soon as the facts become known or when requested by the property administrator. A report shall also be furnished when completed and accepted products or end items are lost, damaged, or destroyed while in the contractor's possession or control.

(c) The contractor shall require any of its subcontractors possessing or controlling Government property accountable under the contract to investigate and report all instances of loss, damage, or destruction of such property.

45.505 Records and reports of Government property.

(a) The contractor's property control records shall constitute the Government's official property records unless an exception has been authorized. The contractor shall establish and maintain adequate control records for all Government property, including property provided to and in the possession or control of a subcontractor. The property control records specified in this section are the minimum required by the Government. Unless the property administrator directs otherwise, when a subcontractor has an approved property control system for Government property provided under its own prime contracts, the contractor shall use the records created and maintained under that system.

(b) The contractor's property control system shall provide financial accounts for Government-owned property in the contractor's possession or control. The system shall be subject to internal control standards and be supported by property records for such property.

(c) Official Government property records must identify all Government property and provide a complete, current, auditable record of all transactions. The contractor's system of records maintenance shall be sufficient to adequately control Government property as required by this section. The contractor's system of records maintenance, as a minimum, shall be equivalent to and maintained in the same manner as the contractor's system for maintaining records of contractor-owned property, but need not exceed the requirements of this subpart. The records shall be safeguarded from tampering or destruction. Records shall be accessible to authorized Government personnel.

(d) Separate property records for each contract are desirable, but a consolidated property record may be maintained if it provides the required information.

(e) Special tooling and special test equipment fabricated from materials that are the property of the Government shall be recorded as Government-owned immediately upon fabrication. Special tooling and special test equipment fabricated from materials that are the property of the contractor shall be recorded as Government property at the time title passes to the Government.

(f) Property records of the type established for components acquired separately shall be used for serviceable components permanently removed from items of Government property as a result of modification.

(g) The contractor's property control system shall contain a system or technique to locate any item of Government property within a reasonable period of time.

[48 FR 42392, Sept. 19, 1983, as amended at 53 FR 43394, Oct. 26, 1988]

45.505-1 Basic information.

Unless summary records are used as authorized under 45.505-5(a), the contractor's property control records shall provide the following basic information for every item of Government property in the contractor's possession, regardless of value (other subsections of 45.505 require additional information for specific categories of Government property):

(a) The name, description, and National Stock Number (if furnished by the Government or available in the property control system).

(b) Quantity received (or fabricated), issued, and on hand.

(c) Unit price (and unit of measure).

(d) Contract number or equivalent code designation.

(e) Location.

(f) Disposition.

(g) Posting reference and date of transaction.

45.505-2 Records of pricing information.

(a) *Requirement for unit prices.* (1) The contractor's property control system shall contain the unit price for each item of Government property except as provided in (b) below. When a contractor records the unit price of property on other than the quantitative inventory records, those supplementary records shall become part of the official Government property records.

(2) (*Note: This subparagraph (2) does not apply to nonprofit organizations.*) The requirement that unit prices be contained in the official Government property records does not apply to those separate property records located at a contractor's secondary sites and subcontractor plants; *provided*, that—

(i) Records maintained by the prime contractor at its primary site include unit prices; and

(ii) The prime contractor agrees to furnish actual or estimated unit prices to the secondary site or subcontractor as the need arises.

(3) When definite information as to unit price cannot be obtained, reasonable estimates will be used.

(b) *Determining unit price.* (1) *Contractor-acquired and contractor-fabricated property.* Except for items fabricated by nonprofit organizations for research and development purposes, the unit price of contractor-acquired and contractor-fabricated property shall be determined in accordance with the system established by the contractor in conformance with consistently applied sound accounting principles. Generally, separate unit prices should be applied to items of special tooling and special test equipment fabricated or acquired by the contractor. However, if the contractor's accounting system is acceptable, and if maintaining detailed cost records results in excessive accounting cost or is otherwise impracticable, group pricing may be used for special tooling, special test equipment, and work-in-process in accordance with the contractor's acceptable cost accounting system. All processed material, fabricated parts, components, and assemblies charged to the contractor's work-in-process inventory, including items in temporary storage while awaiting processing, may be considered as work-in-process for this purpose.

(2) *Government-furnished property.* The Government shall determine and furnish to the contractor the unit price of Government-furnished property. Transportation and installation costs shall not generally be considered as part of the unit price for this purpose. Normally, the unit price of Government-furnished property will be provided on the document covering shipment of the property to the contractor. In the event the unit price is not provided on the document, the contractor will take action to obtain the information.

45.505-3 Records of material.

(a) *General.* All Government material furnished to the contractor, as well as other material to which title has passed to the Government by reason of allocation from contractor-owned stores or purchase by the contractor for direct charge to a Government contract or otherwise, shall be recorded in accordance with the contractor's property control system and the requirements of this section.

(b) *Consolidated stock record.* When a contractor has more than one Government contract under which Government material is provided, a consolidated record for materials may be authorized by the property administrator, *provided,* the total quantity of any item is allocated to each contract by contract number and each requisition of material from contractor-owned stores is charged to the contract on which the material is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

(c) *Custodial records.* The contractor shall maintain custodial records for tool crib items, guard force items, protective clothing, and other items issued to individuals for use in their work.

(d) *Use of receipt and issue documents.* (*Note: This paragraph (d) does not apply to nonprofit organizations.*) The property administrator may authorize the contractor to maintain, in lieu of stock records, a file of appropriately cross-referenced documents evidencing receipt, issue, and use of Government-provided material that is issued for immediate consumption and is not entered in the inventory record as a matter of sound business practice. This method of control may be authorized for—

(1) Material charged through overhead;

(2) Material under research and development contracts;

(3) Subcontracted or outside production items;

(4) Nonstock or special items;

(5) Items that are produced for direct charge to a contract, or are acquired and issued for installation upon receipt, and involve no spoilage; and

(6) Items issued from contractor-owned inventory direct to production or maintenance, etc.

(e) *Material issued directly upon receipt.* (*Note: This paragraph (e) applies only to nonprofit organizations.*)

(1) Under fixed-price contracts, the contractor's documents evidencing receipt and issue will be accepted as property control records for Government-furnished material issued directly by the contractor upon receipt so as to be considered consumed under the contract.

(2) Under cost-reimbursement contracts, Government invoices, contractor's purchase documents, or other evidence of acquisition and issue will be accepted as adequate property records for material furnished to or acquired by the contractor and issued directly so as to be considered consumed under the contract.

(f) *Multicontract cost and material control.* (*Note: This paragraph (f) does not apply to nonprofit organizations.*)

(1) *Description and scope.* A multicontract cost and material control system substitutes a system of financial accounting for the requirements for physical identification of Govern-

ment material. The system operates as follows:

(i) The contractor may acquire, requisition, receive, store, and issue like items of material for the total requirements of all contracts involved in the system without identifying the material to each contract.

(ii) The contractor may commingle, during any stage of contract performance, Government-owned and contractor-owned material and work-in-process that was furnished, acquired, or produced for all Government contracts covered by the system, without physical segregation or identification to the individual contracts.

(iii) In lieu of physical segregation and identification to individual contracts, periodic calculation of requirements and distribution of costs to all contracts permits the allocation of costs of material to products delivered. This system, by reflecting the material expended to perform each contract at any stage in production, permits usage analysis to determine the reasonableness of consumption and expenditure of Government material.

(iv) The system may include all Government contracts of any type that involve common repetitive operations.

(v) The system does not require commingling of all common materials under all contracts. For example, items of Government-furnished material of high value or in short supply may be excluded from commingling and reserved for use in performing the contract under which furnished.

(vi) The contractor shall take physical inventories of material in stores included in the systems (other than work-in-process) at least annually, extend and reconcile prices to the quantitative balance for each item, and record adjustments in the stock record and financial inventory control accounts. Such physical inventories and adjustments, as well as equitable distribution to cost accounts of any inventory losses, shall be reviewed by and are subject to the approval of the property administrator.

(2) *Criteria.* A multicontract cost and material control system may be authorized if—

(i) The contractor demonstrates that adopting the system will result in savings or improved operations or that it will otherwise be in the Government's interest;

(ii) The system is applied to existing Government contracts only and excludes materials acquired or costs incurred for non-Government work or in anticipation of future Government work; and

(iii) The contractor's accounting system is adequate to—

(A) Provide on a complete and timely basis a clear *audit trail* from costs of materials acquired for each contract to materials used or disposed of on each contract;

(B) Reflect separately for Government-furnished and contractor-acquired material in stores (except work-in-process) the inventory balances as affected by receipts, issues, adjustments, and other dispositions;

(C) Determine unit costs for each identifiable part, component, subassembly, assembly, end item, and contract item;

(D) Calculate amounts for cost reimbursements and progress payments during the life of the contract by applying or allocating such unit costs developed through each stage of work-in-process to contract items for the requirements of each contract; and

(E) Assure that when Government material furnished for use under one contract is authorized for use on another contract, the initial contract receives credit.

(3) *Authorization.* The administrative contracting officer may authorize a contractor who is performing or will perform more than one Government contract to use the multicontract cost and material control system. The property administrator shall approve whatever detailed operating procedures are necessary for each system authorized.

(4) *Requirement.* Whenever a multicontract cost and material control system is authorized, the contractor's financial accounts shall include all material in the system acquired or furnished for Government work and shall satisfy the requirements in subdivision (f)(2)(iii) of 45.505-3 above.

45.505-4 Records of special tooling and special test equipment.

(Note: The special tooling requirements of this subsection 45.505-4 do not apply to nonprofit organizations except for paragraph (c).)

(a) The contractor's property control system shall provide the basic information listed in 45.505-1 regarding each item of Government-owned special tooling and special test equipment, including any general purpose test equipment incorporated as components in such a manner that removal and reuse may be feasible and economical.

(b) If the contractor uses group pricing of special tooling or special test equipment, as recognized in 45.505-2(b), unit prices may be computed when required.

(c) In the case of special tooling acquired or fabricated by nonprofit organizations or furnished by the Government to nonprofit organizations for research and development, the Government invoices, contractor's purchase document, or other documents that evidence acquisition or issue will be accepted as adequate property control records.

(d) Records identifying special tooling and special test equipment shall include the identification number and item on which used.

(e) The contractor shall, when specified by the contract, identify and report special tooling and special test equipment by retention category (e.g., assembly tooling or critical tooling for spares or replacements).

45.505-5 Records of plant equipment.

(a) The contractor shall maintain individual item records for each item of plant equipment having a unit cost of $5,000 or more. Summary stock records may be maintained for plant equipment costing less than $5,000 per unit, except where the contract administration office determines that individual item records are necessary for effective control, calibration, or maintenance.

(b) In addition to the information required in 45.505-1, the contractor's records of Government-owned plant equipment, regardless of value, shall include—

(1) Federal Supply Code for the manufacturer (as listed in Cataloging Handbook H4-1 and H4-2) (available from the Superintendent of Documents, Government Printing Office (GPO), Washington, D.C. 20402);

(2) Federal Supply Classification (Cataloging Handbooks H2-1, H2-2, and H2-3) (available from GPO); and

(3) The original manufacturer's model or part number.

(c) For each item of Government-owned plant equipment having a unit cost of $5,000 or more, the contractor shall, in addition to the requirements of (b) above, include—

(1) Serial number and year built (when available);

(2) Government identification/tag number; and

(3) Acquisition and disposition document references and dates.

(d) The property administrator may determine that the information in (c)(1) and (2) above should be recorded in the property records for plant equipment costing less than $5,000.

(e) Accessory and auxiliary equipment shall be recorded on the record of the associated item of plant equipment. If the accessory or auxiliary item is not attached to, a part of, or acquired for use with a specific item of plant equipment, it shall be recorded either in an individual item record or in a summary stock record. When accessory and auxiliary items are permanently separated from the basic item of plant equipment, the unit price of the basic item shall be appropriately reduced.

45.505-6 Special reports of plant equipment.

An agency may set requirements for any special reports of plant equipment it determines necessary.

45.505-7 Records of real property.

(a) The contractor shall maintain an itemized record of the description, location, acquisition cost, and disposition of all Government real property (including unimproved real property); all alterations, all construction work, and sites connected with such alteration and construction, acquired by purchase, lease, or otherwise. These records, including maps, drawings, plans, specifications, and supplementary data where necessary, shall (1) be complete, (2) show the original cost of the property and improvements and the cost of any changes and additions, and (3) be appropriately indexed.

(b) Costs incurred by the contractor or the Government for new construction, including erection, installation, or assembly of Government real property in possession of the contractor, shall be capitalized in the official Government real property records and financial accounts maintained by the contractor for the Government.

(c) Costs incurred for additions, expansions, extensions, conversions, alterations, and improvements, including applicable portions of capital maintenance, that increase the value, life, utility, capability, or serviceability of Government real property shall be capitalized.

(d) Costs incurred for portable buildings or facilities specifically constructed for tests that involve destruction of the facility shall not be capitalized in the Government real property records or financial accounts.

(e) Costs incurred for maintenance, repair, or rearrangement to maintain the Government real property in good physical condition, utility, capacity, or serviceability shall be charged to expense, and the real property records shall not be affected.

(f) When Government-owned real property is sold, transferred, donated, destroyed by fire or other cause, abandoned-in-place, or condemned, the financial accounts shall be reduced by the presently recorded cost and the real property records annotated with a supporting statement, including pertinent facts.

45.505-8 Records of scrap or salvage.

(a) The contractor shall maintain records of all scrap or salvage generated, except as provided in 45.507. These records shall conform to the contractor's established system of scrap and salvage control approved by the property administrator.

(b) The contractor's property control system shall provide the following information:

(1) Contract number, if practical, or equivalent code designation from which the scrap or salvage derived.

(2) Nomenclature or description of salvable items or classification (material content) of scrap.

(3) Quantity on hand.

(4) Posting reference and date of transaction.

(5) Disposition.

45.505-9 Records of related data and information.

The contractor shall maintain property control and accountability, in accordance with sound business practice, of manufacturing or assembly drawings; installation, operation, repair, or maintenance instructions; and other similar information furnished to the contractor by the Government or generated or acquired by the contractor under the contract and for which title vests in the Government. The requirements of this subpart do not otherwise apply to such property.

45.505-10 Records of completed products.

The contractor shall maintain a record of all completed products produced under a contract as follows:

(a) When there is no time lapse between Government inspection and acceptance of the completed products and shipment from the plant site, the records shall, as a minimum, consist of a summary of quantities accepted and shipped. When end items are accepted by the Government and stored with the contractor awaiting shipment, the record shall identify quantities stored, location, and disposition action.

(b) On contracts that provide for the contractor to retain completed products for further use under the contract or other contracts, such items shall be considered *Government-furnished property* upon acceptance and shall be recorded as required by this subpart.

(c) When completed products are returned to a contractor under the terms of a warranty clause, the contractor shall maintain, by contract, a record containing a description of the items involved, quantities received and returned to the Government, and other pertinent data necessary to determine that a proper accounting for all property has been made.

45.505-11 Records of transportation and installation costs of plant equipment.

(*Note: This subsection 45.505-11 does not apply to nonprofit organizations.*)

(a) *Transportation costs.* (1) The contractor shall record within the property control system the transportation and installation costs directly borne by the Government for each item of Government-owned plant equipment with an acquisition cost of $5,000 or more. The administrative contracting officer may require the contractor to provide such recorded costs for use in computing rental charges.

(2) If transportation costs are not included in the price of equipment delivered, the contractor shall contact the property administrator for instructions for obtaining applicable freight data.

(b) *Installation costs.* (1) When the contractor performs installation, the cost shall be computed in accordance with the contractor's accounting system (if the system is acceptable for other contract cost determination purposes) and recorded in the property record.

(2) When installation is subcontracted, the contractor shall record the cost paid to the subcontractor in the property record.

(3) When installation costs are included in the price of equipment delivered to the using location, the property records should be so annotated.

45.505-12 Records of misdirected shipments.

The contractor's property control system shall provide the following information regarding each misdirected shipment of Government property received:

(a) Identity of shipment, such as shipping document or bill of lading.

(b) Origin of shipment.

(c) Content (items in the shipment) per shipping documents, if available.

(d) Location.

(e) Disposition.

45.505-13 Records of property returned for rework.

(a) The contractor shall maintain quantitative records of property returned for processing to assure control from time of receipt through return of the items to the Government. The contractor shall establish item records under its property control system and shall include the information required in 45.505-1.

(b) The records shall specify the quantity of units returned to the Government and the quantity otherwise disposed of with proper authority.

45.505-14 Reports of Government property.

(a) The contractor's property control system should provide annually the total acquisition cost of Government property for which the contractor is accountable under each contract with each agency, including Government property at subcontractor plants and alternate locations, in the following classifications (property classifications may be varied to meet individual agency needs):

(1) Land and rights therein.

(2) Other real property, including utility distribution systems, buildings, structures, and improvements thereto.

(3) Plant equipment of $5,000 or more.

(4) Plant equipment of less than $5,000.

(b) The contractor shall report the information under paragraph (a) as directed by the contracting officer.

45.506 Identification.

(a) The contractor shall identify, mark, and record all Government property promptly upon receipt, unless exempted by this section, and shall record assigned numbers on all applicable documents pertaining to the property control system. Markings shall be removed or obliterated when Government property is sold, scrapped, or donated.

(b) All Government material and plant equipment having an acquisition cost less than $5,000 shall be identified as Government property except in those cases where—

(1) No material or plant equipment of the same type costing less than $5,000 at the same location is owned by the contractor, its employees, or other contracting agencies;

(2) Adequate physical control is maintained over protective clothing, tool crib, guard force, and other items issued to individuals for use in their work;

(3) Property is of bulk type, or its general nature of packing or handling precludes adequate marking; or

(4) Property is commingled, as authorized by 45.507.

(c) In accordance with procedures approved by the property administrator, the contractor shall mark Government-owned special tooling and special test equipment with a serial number and an indication of Government ownership. If marking will damage the equipment or is otherwise impracticable, the contractor shall promptly report the problem to the property administrator. The contractor shall mark in a manner similar to plant equipment all components of special test equipment that have an acquisition cost of $5,000 or more and are incorporated in a manner that makes removal and reutilization feasible and economical.

(d) The contractor shall identify Government-owned plant equipment as such, unless (1) summary records are used as authorized under 45.505-5(a), (2) it is excluded under 45.506(b), or (3) when the size or nature of the equipment makes identification impracticable. (Excepted items shall be entered and described on the equipment property record.) Property shall be identified by a legible, permanent, conspicuous, and tamper-proof method (e.g., decals, plates, stamping, etc.). Identification shall consist of a serial number and an indication of Government ownership (unless already properly identified as Government property). For items included in a standard agency registration system, registration numbers obtained from the owning agency through the property administrator may be used in lieu of other identification numbers.

(e) Accessory or auxiliary equipment associated with a specific item of plant equipment and recorded on the property records need not be marked with an identification number, unless necessary to assure its return with the associated basic item.

[48 FR 42392, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

45.507 Segregation of Government property.

Government property shall be kept physically separate from contractor-owned property. However, when advantageous to the Government and consistent with the contractor's authority to use such property, the property may be commingled—

(a) When the Government property is special tooling, special test equipment, or plant equipment clearly identified and recorded as Government property;

(b) When approved by the property administrator in connection with research and development contracts;

(c) When material is included in a multicontract cost and material control system (however, see 45.505-3(f));

(d) When (1) scrap of a uniform nature is produced from both Government-owned and contractor-owned material and physical segregation is impracticable, (2) scrap produced from Government-owned material is insignificant in consideration of the cost of segregation and control, or (3) Government contracts involved are fixed-price and provide for the retention of the scrap by the contractor; or

(e) When otherwise approved by the property administrator.

45.508 Physical inventories.

The contractor shall periodically physically inventory all Government property (except materials issued from stock for manufacturing, research, design, or other services required by the contract) in its possession or control and shall cause subcontractors to do likewise. The contractor, with the approval of the property administrator, shall establish the type, frequency, and procedures. These may include electronic reading, recording and reporting or other means of reporting the existence and location of the property and reconciling the records. Type and frequency of inventory should be based on the contractor's established practices, the type and use of the Government property involved, or the amount of Government property involved and its monetary value, and the reliability of the contractor's property control system. Type and frequency of physical inventories normally will not vary between contracts being performed by the contractor, but may vary with the types of property being controlled. Personnel who perform the physical inventory shall not be the same individuals who maintain the property records or have custody of the property unless the contractor's operation is too small to do otherwise.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 25069, June 12, 1989]

45.508-1 Inventories upon termination or completion.

(a) *General.* Immediately upon termination or completion of a contract, the contractor shall perform and cause each subcontractor to perform a physical inventory, adequate for disposal purposes, of all Government property applicable to the contract, unless the requirement is waived as provided in paragraph (b) below.

(b) *Exception.* The requirement for physical inventory at the completion of a contract may be waived by the property administrator when the property is authorized for use on a follow-on contract; *provided,* that—

(1) Experience has established the adequacy of property controls and an acceptable degree of inventory discrepancies; and

(2) The contractor provides a statement indicating that record balances have been transferred in lieu of preparing a formal inventory list and that the contractor accepts responsibility and accountability for those balances under the terms of the follow-on contract.

(c) *Listings for disposal purposes.* (Note: This paragraph (c) applies only to nonprofit organizations.)

(1) Standard items that have been modified may be described on listings for disposal purposes as standard items with a general description of the modification.

(2) Items that have been fabricated, such as test equipment, shall be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

45.508-2 Reporting results of inventories.

The contractor shall, as a minimum, submit the following to the property administrator promptly after completing the physical inventory:

(a) A listing that identifies all discrepancies disclosed by a physical inventory.

(b) A signed statement that physical inventory of all or certain classes of Government property was completed on a given date and that the official property records were found to be in agreement except for discrepancies reported.

45.508-3 Quantitative and monetary control.

When requested by the contracting officer, the contractor's reports of results of physical inventory shall be prepared on a quantitative and monetary basis and segregated by categories of property.

45.509 Care, maintenance, and use.

The contractor shall be responsible for the proper care, maintenance, and use of Government property in its possession or control from the time of receipt until properly relieved of responsibility, in accordance with sound industrial practice and the terms of the contract. The removal of Government property to storage, or its contemplated transfer, does not relieve the contractor of these responsibilities.

45.509-1 Contractor's maintenance program.

(a) Consistent with the terms of the contract, the contractor's maintenance program shall provide for—

(1) Disclosure of need for and the performance of preventive maintenance;

(2) Disclosure and reporting of need for capital rehabilitation; and

(3) Recording of work accomplished under the program.

(b) Preventive maintenance is maintenance performed on a regularly scheduled basis to prevent the occurrence of defects and to detect and correct minor defects before they result in serious consequences. An effective preventive maintenance program shall include at least—

(1) Inspection of buildings at periodic intervals to assure detection of deterioration and the need for repairs;

(2) Inspection of plant equipment at periodic intervals to assure detection of maladjustment, wear, or impending breakdown;

(3) Regular lubrication of bearings and moving parts in accordance with a lubrication plan;

(4) Adjustments for wear, repair, or replacement of worn or damaged parts and the elimination of causes of deterioration;

(5) Removal of sludge, chips, and cutting oils from equipment that will not be used for a period of time;

(6) Taking necessary precautions to prevent deterioration caused by contamination, corrosion, and other substances; and

(7) Proper storage and preservation of accessories and special tools furnished with an item of plant equipment but not regularly used with it.

(c) The contractor's maintenance program shall provide for disclosing and reporting the need for major repair, replacement, and other capital rehabilitation work for Government property in its possession or control.

(d) The contractor shall keep records of maintenance actions performed and any deficiencies in the Government property discovered as a result of inspections.

45.509-2 Use of Government property.

(a) The contractor's procedures shall be in writing and adequate (1) to assure that Government property will be used only for those purposes authorized in the contract and that any required approvals will be obtained, and (2) to provide a basis for determining and allocating rental charges.

(b) With respect to plant equipment with an acquisition value of $5,000 or more, the procedures, as a minimum, shall—

(1) Establish a minimum level of use below which an analysis of need shall be made and retention justified, except for inactive plants and equipment retained for mobilization (the use level may be established for individual items or families of items, depending upon circumstances of use);

(2) Provide for recording authorized and actual use consistent with the established use levels;

(3) Require periodic analyses of production needs for plant equipment utilization based upon known requirements; and

(4) Provide for prompt reporting to the contracting officer of all plant equipment for which retention is not justified.

[48 FR 42392, Sept. 19, 1983, as amended at 52 FR 30078, Aug. 12, 1987]

45.510 Property in possession of subcontractors.

The contractor shall require any of its subcontractors possessing or controlling Government property to adequately care for and maintain that property and assure that it is used only as authorized by the contract. The contractor's approved property control system shall include procedures necessary for accomplishing this responsibility.

45.511 Audit of property control system.

The Government may audit the contractor's property control system as frequently as conditions warrant. These audits may take place at any time during contract performance, upon contract completion or termination, or at any time thereafter during the period the contractor is required to retain such records. The contractor shall make all such records and related correspondence available to the auditors.

Subpart 45.6—Reporting, Redistribution, and Disposal of Contractor Inventory

45.600 Scope of subpart.

This subpart establishes policies and procedures for the reporting, redistribution, and disposal of Government property excess to contracts and of property that forms the basis of a claim against the Government (e.g., termination inventory under fixed-price contracts). This subpart does not apply to the disposal of real property or to property for which the Government has a lien or title solely as a result of advance or progress payments that have been liquidated.

45.601 Definitions.

Common item, as used in this subpart, means material that is common to the applicable Government contract and the contractor's other work.

Contractor-acquired property (see 45.101).

Contractor inventory, as used in this subpart, means—

(a) Any property acquired by and in the possession of a contractor or subcontractor under a contract for which title is vested in the Government and which exceeds the amounts needed to complete full performance under the entire contract;

(b) Any property that the Government is obligated or has the option to take over under any type of contract as a result either of any changes in the specifications or plans thereunder or of the termination of the contract (or subcontract thereunder), before completion of the work, for the convenience or at the option of the Government; and

(c) Government-furnished property that exceeds the amounts needed to complete full performance under the entire contract.

Government-furnished property (see 45.101).

Government property (see 45.101).

Line item, as used in this subpart, means a single line entry on a reporting form that indicates a quantity of property having the same description and condition code from any one contract at any one reporting location.

Personal property, as used in this subpart, means property of any kind or interest in it except real property, records of the Federal Government, and naval vessels of the following categories: battleships, cruisers, aircraft carriers, destroyers, and submarines.

Plant clearance, as used in this subpart, means all actions relating to the screening, redistribution, and disposal of contractor inventory from a contractor's plant or work site. The term *contractor's plant* includes a contractor-operated Government facility.

Plant clearance officer, as used in this subpart, means an authorized representative of the contracting officer assigned responsibility for plant clearance.

Plant clearance period, as used in this subpart, means the period beginning on the effective date of contract completion or termination and ending 90 days (or such longer period as may be agreed to) after receipt by the contracting officer of acceptable inventory schedules for each property classification. The final phase of the plant clearance period means that period after receipt of acceptable inventory schedules.

Plant equipment (see 45.101).

Precious metals, as used in this subpart, means uncommon and highly valuable metals characterized by their superior resistance to corrosion and oxidation. Included are silver, gold, and the platinum group metals—platinum, palladium, iridium, osmium, rhodium, and ruthenium.

Property administrator (see 45.501).

Public body means any State, Territory, or possession of the United States, any political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, any agency or instrumentality of any of the foregoing, any Indian tribe, or any agency of the Federal Government.

Real property (see 45.101).

Reportable property, as used in this subpart, means contractor inventory that must be reported for screening in accordance with this subpart before disposition as surplus.

Reporting activity, as used in this subpart, means the Government activity that initiates the Standard Form 120, Report of Excess Personal Property (or when acceptable to GSA, by data processing output).

Salvage (see 45.501).

Scrap (see 45.501).

Screening completion date, as used in this subpart, means the date on which all screening required by this subpart is to be completed. It includes screening within the Government and the donation screening period.

Serviceable or usable property, as used in this subpart, means property that has a reasonable prospect of use or sale either in its existing form or after minor repairs or alterations.

Special test equipment (see 45.101).

Special tooling (see 45.101).

Surplus property, as used in this subpart, means contractor inventory not required by any Federal agency.

Surplus Release Date (SRD), as used in this subpart, means the date on which screening of personal property for Federal use is completed and the property is not needed for any Federal use. On that date, property becomes surplus and is eligible for donation.

Termination inventory, as used in this subpart, means any property purchased, supplied, manufactured, furnished, or otherwise acquired for the performance of a contract subsequently terminated and properly allocable to the terminated portion of the contract. It includes Government-furnished property. It does not include any facilities, material, special test equipment, or special tooling that are subject to a separate contract or to a special contract requirement governing their use or disposition.

Work-in-process (see 45.501).

45.602 [Reserved]

45.603 Disposal methods.

An agency may exercise its rights to require delivery of any contractor inventory. If the agency does not exercise these rights, the contractor inventory shall be disposed of by one of the following methods in the priority indicated:

(a) Purchase or retention at cost by prime contractor or subcontractor of contractor-acquired property (see 45.605-1).

(b) Return of contractor-acquired property to suppliers (see 45.605-2).

(c) Use within the Government through the use of prescribed screening procedures (see 45.608).

(d) Donation to eligible donees (see 45.609).

(e) Sale (including purchase or retention at less than cost by the prime contractor or subcontractor)(see 45.610).

(f) Donation to public bodies in lieu of abandonment (see 45.611).

(g) Abandonment or destruction (see 45.611).

45.604 Restrictions on purchase or retention of contractor inventory.

A contractor's or subcontractor's authority to purchase, retain, or dispose of contractor inventory is subject to any contract provisions and to applicable Government restrictions on the disposition of property that is classified for security reasons, possesses military offensive or defensive characteristics, or is dangerous to public health, safety, or welfare.

45.605 Contractor-acquired property.

45.605-1 Purchase or retention at cost.

(a) The plant clearance officer shall encourage contractors to purchase or retain contractor-acquired property at cost. However, the contractor shall not include any part of the cost of property purchased or retained in any claim for reimbursement against the Government. Under cost-reimbursement contracts, appropriate adjustments shall be made for previously reimbursed costs. When the property is for use on a continuing Government contract or commercial operation, handling and transportation charges may be considered an allowable cost (included in the contractor's settlement proposal as *other costs* in the case of a termination), provided that the charges are reasonable.

(b) If a contractor purchases or retains contractor inventory for use on a continuing Government contract that is subsequently terminated, the property shall be allocated to the continuing contract, even though its purchase would otherwise constitute undue anticipation of production schedules. If, as a result of the purchase or retention of property from a terminated contract for use on other Government contracts, the contractor terminates subcontracts under the other Government contracts, reasonable termination charges of the subcontracts may be included as an allocable cost under the contract that generated the excess property.

45.605–2 Return to suppliers.

The plant clearance officer shall encourage contractors to return allocable quantities of contractor-acquired property to suppliers for full credit less either the supplier's normal restocking charge or 25 percent of the cost, whichever is less. Contractors may be reimbursed for reasonable transportation, handling, and restocking charges, but not for the cost of the returned property. Under cost-reimbursement contracts, appropriate adjustments shall be made for costs previously reimbursed. A contractor's property control system shall include procedures to ensure property is returned to the supplier for appropriate credit whenever feasible.

[48 FR 42392, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

45.605–3 Cost-reimbursement contracts.

Under cost-reimbursement contracts, property purchased or retained by the contractor or returned to suppliers shall not be reported on inventory schedules. The cognizant contract administration office, in coordination with the cognizant auditor, shall periodically review such transactions to protect the Government's interests.

45.606 Inventory schedules.

45.606–1 Submission.

(a) When property is no longer needed to perform the contract, the contractor shall prepare inventory schedules in accordance with the contract and instructions from the plant clearance officer and shall promptly submit the schedules to the cognizant contract administration office. Detailed instructions and requirements governing preparing and submitting inventory schedules are contained in 45.606–5. Agencies may use special inventory schedules for intra-agency screening of particular categories of contractor inventory (e.g., plant equipment of $5,000 or more). Such schedules may also be used for screening with other Federal agencies after coordination with GSA.

(b) The certificate on the inventory schedule (which tenders title to the property) must be executed when contractor inventory is reported. The prime contractor shall execute thi certificate, except that for subcontractor termination inventory the subcontractor shall execute the certificate.

45.606–2 Common items.

The contractor's inventory schedule shall not include any items that the contractor can reasonably use on other work without financial loss. However, the schedules shall include common items specified by the contracting officer for delivery to the Government or which are Government-furnished property.

45.606–3 Acceptance.

(a) Within 15 days after receipt of inventory schedules, the plant clearance officer shall review them, determine their acceptability, and request the contractor to correct any inadequate listings. Inventory schedules should not be rejected if the information is adequate for disposal purposes, even if complete cost data on work-in-process are not available. Rejection shall be limited, when possible, to specific items and shall not necessarily render the entire schedule unacceptable. If substantial errors are discovered that were not apparent on termination inventory schedules previously found acceptable, the final phase of a plant clearance period shall not begin until corrected schedules have been submitted, unless the plant clearance officer determines otherwise.

(b) The plant clearance officer, with the assistance of other Government personnel as necessary, shall verify that (1) the inventory is present at the location indicated, (2) the inventory is allocable to the contract, (3) the quantity and condition are correctly stated, and (4) the contractor has endeavored to divert items to other work. The verification may be recorded on SF 1423, Inventory Verification Survey. The plant clearance officer shall require the contractor to promptly correct any discrepancies on the inventory schedule or resubmit the schedule as necessary.

[48 FR 42392, Sept. 19, 1983, as amended at 55 FR 25530, June 21, 1990]

45.606-4 Withdrawals.

If, before final disposition, the contractor becomes aware that any items of contractor-acquired property listed in the inventory schedules are usable on other work without financial loss, the contractor shall purchase the items or retain them at cost and amend the inventory schedules and claim accordingly. Upon notifying the plant clearance officer, the contractor may purchase or retain at cost any other items of property included in the inventory schedules. Withdrawal of any Government-furnished property is subject to the written approval of the plant clearance officer. If withdrawal is requested after screening has started, the plant clearance officer shall notify immediately the appropriate screening activity.

45.606-5 Instructions for preparing and submitting schedules of contractor inventory.

(a) *Use of forms.* The contractor shall report contractor inventory on the following forms, as appropriate.

(1) *Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form) and SF 1427, Inventory Schedule A - Continuation Sheet.* These forms are to be used to list metals in raw or primary form as furnished by the mill and on which there has been no subsequent fabricating operations. They are also to be used for listing nonmetallic materials, such as plastics, rubber, or lumber, in mill product form. They are not to be used for listing castings or forgings, which shall be reported on SF 1428.

(2) *Standard Form 1428, Inventory Schedule B and SF 1429, Inventory Schedule B - Continuation Sheet.* These forms are to be used to list all contractor inventory (including plant equipment) for which Standard Forms 1426, 1430, 1432, or 1434 are not appropriate. However, agencies may direct listing of particular categories of plant equipment on agency forms when standard forms are not appropriate. (See 45.505-6 and 45.606-1(a).)

(3) *Standard Form 1430, Inventory Schedule C (Work in Process) and SF 1431, Inventory Schedule C - Continuation Sheet.* These forms are to be used to list all work in process.

(4) *Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment) and SF 1433, Inventory Schedule D - Continuation Sheet.* These forms are to be used to list such contractor inventory as dies, jigs, gauges, fixtures, special tools, and special test equipment.

(5) *Standard Form 1434, Termination Inventory Schedule E.* This is a short form to be used with SF 1438, Settlement Proposal (Short Form). Applicability is limited to termination settlement proposals under $10,000.

(b) *Submission.*

(1) Contractors shall report contractor inventory promptly after determining it to be excess, unless a later date is authorized by the contract or the plant clearance officer.

(2) Unless contract provisions or agency regulations prescribe otherwise, 12 copies of inventory schedules listing serviceable or salvable items and 6 copies of inventory schedules listing scrap items shall be presented to the plant clearance officer at the cognizant contract administration office.

(3) The standard inventory schedule forms may be reproduced by contractors, provided no change is made in size or format. Machine listings may be submitted if all essential elements of data are included and the appropriate signed standard form is submitted as a cover sheet.

(4) The appropriate continuation sheet shall be used when more than one page is needed.

(5) Partial schedules may be submitted when they cover substantial portions of a particular property classification of contractor inventory. The first page of each schedule submitted shall be identified as partial or final in the title block of the schedule.

(6) The contractor should consult with the plant clearance officer when in doubt as to item descriptions or other inventory schedule requirements.

(c) *Grouping contractor inventory for reporting purposes.* All line items of contractor inventory shall be grouped into the following categories in the order indicated and reported on separate forms (line items may not be divided for the purpose of avoiding screening requirements):

(1) *Classified property.* This category includes all property bearing a security classification, regardless of acquisition cost. Classified property should be further subdivided into the same categories as unclassified property (see paragraph (3) below).

(2) *Government-furnished property.* This category should be subdivided into the same categories as unclassified property (see paragraph (3) below).

(3) *Unclassified property.* Unclassified property shall be subdivided as follows:

(i) Special tooling, regardless of acquisition cost.

(ii) Scrap, regardless of acquisition cost.

(iii) Salvage, regardless of acquisition cost.

(iv) Remaining property having a line item acquisition cost of $500 or less.

(v) Property having a line item acquisition cost of more than $500, further separated into the following categories (these categories may be revised to suit agency needs):

(A) Aeronautical material and equipment.

(B) Electronic material and equipment.

(C) Special test equipment.

(D) Other serviceable or usable property.

(d) *General instructions for completing forms.* The inventory schedule forms are self-explanatory, except for the following general instructions and the specific instructions in paragraph (e) below.

(1) If the inventory applies solely to one contract modification, indicate the contract modification number in the same block as the prime contract number. If the inventory results from the termination of a contract, enter the termination docket number in the same block as the prime contract number.

(2) Provide in column b an accurate and complete commercial description for each item of serviceable contractor inventory. Where practical, show the manufacturer's name, address, and catalog number. Describe other items in sufficient detail to permit the Government to determine appropriate disposition. Include in descriptions for all line items the National Stock Number furnished to the contractor with Government-furnished property and the National Stock Number available in the contractor's property control system.

(3) Identify in column b any industrial diamonds, diamond swarf, and property containing economically recoverable quantities of precious metals by the type of metal and express the quantity of the metal in the appropriate weight unit or in the percentage of total content. In addition, hazardous material or property contaminated with hazardous material shall be identified as to the type of hazardous material.

(4) Enter in column c one of the following codes to indicate the condition of each item of material:

Code 1, Unused-good. Unused property that is usable without repairs and identical or interchangeable with new items from normal supply sources.

Code 2, Unused-fair. Unused property that is usable without repairs, but is deteriorated or damaged to the extent that utility is somewhat impaired.

Code 3, Unused-poor. Unused property that is usable without repairs, but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.

Code 4, Used-good. Used property that is usable without repairs and most of its useful life remains.

Code 5, Used-fair. Used property that is usable without repairs, but is somewhat worn or deteriorated and may soon require repairs.

Code 6, Used-poor. Used property that may be used without repairs, but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.

Code 7, Repairs required-good. Required repairs are minor and should not exceed 15 percent of original acquisition cost.

Code 8, Repairs required-fair. Required repairs are considerable and are estimated to range from 16 percent to 40 percent of original acquisition cost.

Code 9, Repairs required-poor. Required repairs are major because property is badly damaged, worn, or deteriorated, and are estimated to range from 41 percent to 65 percent of original acquisition cost.

Code X, Salvage. Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical. Repair for any use would exceed 65 percent of the original acquisition cost.

Code S, Scrap. Material that has no value except for its basic material content.

(5) Enter in columns e and f the standard or invoiced cost of the material being reported. If such data are not available, enter the estimated cost, identified by the symbol "(e)".

(6) Enter after the amount of the contractor's offer in column g the letter "A" if a credit for acquisition has been authorized or approved by the plant clearance officer. Enter the letter "C" if the amount represents your offer to acquire the item. In either case, enter the quantity on a second line if it is less than the full quantity shown in column d.

(e) *Instructions for completing specific forms.* The following instructions are in addition to the general instructions in paragraph (d) and the self-explanatory blocks on the inventory forms.

(1) *Inventory Schedule A (Metals in Mill Product Form) (SF 1426).*

(i) *Classification.* List each type of metal (such as aluminum or carbon steel) on a separate form, with the name or alloy shown in the Property Classification block. List like forms of the metal or alloy together in sequence. (For example, for carbon steel, group all the strip, followed by sheets, followed by the bar stock, etc.)

(ii) *Description.* Enter in column b the full commercial description and weight for all items. Identify the material specification entered in column b2 as either a Government specification or that of a particular industrial society or manufacturer. Complete columns b3, b4, and b5 to show the thickness, width, and length.

(2) *Inventory Schedule B (SF 1428).*

(i) *Classification.* Use a separate form for each classification. Enter the name of the classification in the Property Classification block. Items having no commercial value should be placed in a single classification designated *no commercial value.* The term *raw materials (other than metals)* means material in primary form. Examples are plastics, textiles, lumber, and chemicals. Arrange items in sequence under separate subheadings. For example, under the classification *chemicals,* group separately all acids, all alkalis, all recins, etc.

(ii) *Description.* In the inventory description for plant equipment (see 45.101 for definition), include the following as a minimum:

(A) Nomenclature or description of the item and Federal Supply Classification (see Cataloging Handbooks H2-1, H2-2, and H2-3).

(B) Federal Supply Code for Manufacturers (see Cataloging Handbooks H4-1 and H4-2) and, if available in the contractor's property control system, the name and address of the equipment manufacturer.

(C) Model/part number.

(3) *Inventory Schedule C (Work in Process) (SF 1430).*

(i) *Classification.* No classification of items is required. Do not list finished components on this form (use SF 1428).

(ii) *Description.* Enter in column b a description in sufficient detail to permit the Government to determine the appropriate disposition. Estimate percentage of completion for each line item.

(iii) *Condition* (column c). Generally, conditions X (salvage) or S (scrap) are applicable to work in process (see paragraph (d)(4) above).

(4) *Inventory Schedule D (Special Tooling and Special Test Equipment) (SF 1432).*

(i) *Classification.* Use a new form for each general classification, such as dies, jigs, gauges, fixtures, special tooling, and special test equipment.

(ii) *Description.* Furnish a description which will enable the plant clearance officer or screener to determine the appropriate disposition. Include tool nomenclature, tool number, related product part number, or function which the tool performs. Designate special tooling usable for maintenance programs by placing the letter "M" in the left-hand column, *For Use of Contracting Agency Only.*

(i) *Classification.* Use of a new form for each general classification of special tooling and special test equipment.

(ii) *Description.* Furnish a description which will enable the plant clearance officer or screener to determine the appropriate disposition, including the potential for reutilization. Include tool nomenclature, tool number, related product part number, and function which the tool performs. Designate special tooling usable for maintenance programs by placing the letter "M" in the left-hand column, *For Use of Contracting Agency Only.* Provide the end-item application and a brief description of the test function for each unit of special test equipment.

(5) *Termination Inventory Schedule E (SF 1434).*

(i) *Classification.* No special classification is required, but similar items should be grouped together. Several classifications may be listed on one form.

(ii) *Description.* Enter in column b the full commercial description of all items which have commercial value. For other items, furnish a description in sufficient detail to permit the Government to determine the appropriate disposition.

[48 FR 42392, Sept. 19, 1983, as amended at 52 FR 30078, Aug. 12, 1987; 54 FR 25060, June 12, 1989]

45.607 Scrap.

45.607-1 General.

(a) The contractor need not itemize scrap on inventory schedules if (1) the material is physically segregated in the contractor's plant and (2) the contractor submits a statement describing the material, estimating its cost, and providing other information necessary for the plant clearance officer to verify whether the property is scrap. The contractor shall sort the scrap to the extent economically feasible to assure the highest sale proceeds.

(b) The plant clearance officer shall review the schedules of property reported as scrap and, if necessary, physically inspect the property involv
the plant clearance officer deter
that any of the property is servic
usable, or salvable, the cont
shall resubmit it on appropriate i
tory schedules.

45.607-2 Recovering precious metals

(a) GSA is responsible for initi
the Government-wide precious m
recovery program (see FPMR 101
for procedures and requirements
covering precious metals).

(b) Agencies shall assure that
tractors generating contractor i
tory containing precious metal-be
scrap identify and promptly r
such items. Agencies are also resp
ble for establishing and maintain
program for recovering pre
metals. Agencies having no rec
and disposal facility available ma
quest information or recovery a
ance from the GSA regional
serving the area or the DOD Pre
Metals Recovery Program Man
Attention DLA-SIP, Cameron Sta
Alexandria, VA 22314.

(c) Precious metals shall be
aged in nonporous, smooth conta
in a manner to prevent loss thr
leakage or damage to the contai
(Glass containers shall not be u
Grindings or sweepings shall no
packaged in paper or wooden con
ers, because loss occurs by adhesi
the containers. Containers shal
marked to show the type of pre
metals.

(d) The shipping document sha
dicate the net weight of each ite
the nearest ounce (troy or avo
pois). Shipment shall be made by
most economical means available,
sistent with adequate safeguard
prevent loss or theft.

45.608 Screening of contractor inven

45.608-1 General.

(a) Serviceable or usable propert
cluded in the contractor's inven
schedules that is not purchased o
tained by the prime contractor or
contractor or returned to supp
shall be screened for use by Gov
ment agencies before disposition
donation or sale. Agencies shall as
the widespread dissemination of i

mation concerning the availability of contractor inventory.

(b) There are four categories of screening: standard, agency, limited, and special items. The plant clearance officer shall determine the categories of screening required, initiate prescribed screening, and assure accomplishment of transfer and donation.

Table 45-1 lists the type of property and screening period for each of these categories. When circumstances warrant, the plant clearance officer may extend the period for agency screening or arrange for more extensive screening than that prescribed. In the event of a conflict between Table 45-1 and a specific contract requirement, items shall be screened as provided by the contract.

Table 45-1

Screening Requirements by Type of Property

Screening Categories	Type of Property	Period
Standard	Line items in excess of $500..	90 days/(see 45.608-2)
Agency	Special tooling, perishables, property bearing a security classification, property dangerous to public health and safety, regardless of acquisition cost, and agency-peculiar property..	30 days/(See 45.608-3)
Limited	Special tooling, scrap and salvage, property in condition codes 3, 6, 9, X, and S, work-in-process, inventory schedules (the total acquisition cost of which is reported as $2,500 or less), and line items of $500 or less (except perishables, property bearing a security classification, and property dangerous to public health and safety)..	30 days/(see 45.608-4)
Special Items	Special test equipment with standard components..	(see 45.608-5(a))
	Special test equipment without standard components.	(see 45.608-5(b))
	Printing equipment....................	(see 45.608-5(c))
	Automatic data processing equipment..	(see 45.608-5(d))
	Nuclear materials......................	(see 45.608-5(e))

45.608-2 Standard screening.

(a) Standard screening applies to serviceable property with a line item value in excess of $500 that does not meet the criteria for another screening category.

(b) Standard screening begins on the date the plant clearance officer receives acceptable contractor inventory schedules and ends 90 days thereafter. The period is broken into three phases as follows:

(1) *1st through 30th day—screening by the contracting agency.* The agency shall screen the listed items for its use. When screening is completed, the plant clearance officer shall delete the retained items from the schedules.

(2) *31st through 75th day—screening by all Federal agencies.* Not later than the 31st day, the plant clearance officer shall send four copies of the revised schedules and Standard Form (SF) 120, Report of Excess Personal Property, to the General Services Administration (GSA) regional office that serves the region in which the property is located. If the plant clearance officer receives a request for property transfer after submission of the SF 120, and before receiving a GSA property transfer order, a prompt request shall be forwarded to GSA for approval to withdraw the items from the inventory schedule. The regional GSA office will prepare and issue circulars and catalogs to all Federal agencies within the region. GSA will honor requests for transfer of property on a *first-come first-served* basis through the 75th day. The GSA regional office will transmit to the plant clearance officer the approved orders and shipping instructions for property to be transferred. The 75th day is the surplus release date and will be shown on the SF 120. The plant clearance officer may not extend this date.

(3) *76th through 90th day—screening by GSA for possible donation.* During this period, GSA will arrange for screening of all remaining property for possible donation to eligible donees. Procedures for donation are in 45.609. The 90th day is the screening completion date and will be shown on the SF 120. The plant clearance officer shall not extend this date.

45.608-3 Agency screening.

Agency screening is the procedure for screening certain types of property (see Table 45-1) only within the contracting agency. The screening period begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later.

45.608-4 Limited screening.

(a) Items that are scrap or salvage or that otherwise have a limited potential for use (except special tooling) are not ordinarily subject to standard or agency screening. The plant clearance officer shall include listings of such property in a special file, which shall be made available to GSA for limited screening. The screening period for such property begins on the date the plant clearance officer receives acceptable inventory schedules and ends 30 days later. This period is apportioned into two phases, as follows:

(1) 1st through 15th day—GSA selection of items for Federal utilization.

(2) 16th through 30th day—GSA selection of items for donation.

(b) For special tooling, the screening period described in paragraph (a) above begins upon completion of agency screening.

45.608-5 Special items screening.

Special procedures are established for the following types of property:

(a) *Special test equipment with standard components.* (1) Contractors reporting special test equipment that contains standard, general, or multipurpose components will describe the composite unit to clearly reflect its capability. Standard components that can be economically removed and reused will be listed and described in sufficient detail to permit screening.

(2) If the contractor has a requirement for the standard components to meet other approved special test equipment or facilities requirements, the contractor shall annotate the SF 1432, Inventory Schedule D (Special Tooling and Special Test Equipment), to reflect this requirement. Screening shall be accomplished in accordance with agency procedures for the first 30 days. If there are no agency requirements for the composite unit, and if the administrative contracting officer approves the retention, the contractor shall have priority for the standard components for which it has indicated a requirement.

(3) Standard components that have not been retained by the agency or the contractor shall be screened in accordance with standard requirements for the 31st through 75th day. Standard components shall not be removed from the composite unit until a requirement has been established. If no requirements exist, the composite units shall be donated or sold in accordance with prescribed procedures.

(b) *Special test equipment without standard components.* Special test equipment without standard components shall receive agency screening for 30 days. Items for which no requirements exist shall receive limited screening for an additional 30 days.

(c) *Printing equipment.* Agencies shall report all printing equipment excess to their requirements to the Public Printer, Government Printing Office, North Capitol and H Streets, NW, Washington, DC 20401, after screening within the agency (see 44 U.S.C. 312). If the Public Printer indicates no requirements, the reporting activity shall submit the listing of printing equipment to the General Services Administration for further use and donation screening.

(d) *Procedures for automatic data processing equipment (ADPE).* (1) The plant clearance officer shall report ADPE items on SF 120, Report of Excess Personal Property (or when acceptable to GSA, by data processing output). This requirement applies, regardless of Federal Supply Class, to Government-owned ADPE or to ADPE leased by the contractor under terms providing the Government an option to purchase (or other residual interests, including the right to use until expiration of the lease). ADPE should be reported as soon as it is possible to project the release date, within the following reporting schedule:

(i) Government-owned ADPE shall be reported upon receipt of notice of complete termination or when it is determined that the property will no longer be needed on the contract. After completion of screening within the agency, schedules listing ADPE

best copy available

Reproduced from poor document.

shall be referred to GSA for a 90-day screening period.

(ii) Leased ADPE, which is charged to one or more cost-reimbursement contracts, shall be reported promptly on a separate SF 120 when it is determined that the property will no longer be needed on the contracts. To preclude unnecessary lease costs, the release date established shall not extend the rental period beyond the date it can be released to the lessor. A quotation shall be requested from the lessor projecting the reduced price at which the equipment may be purchased based on accumulated rental credits through the anticipated release date. A copy of this quotation should be attached to the Standard Form 120, but submission of the Standard Form 120 should not be delayed pending receipt of this information.

(2) The following information shall be reported on SF 120:

(i) A complete list of each equipment item, identified by manufacturer's series and model number, and modifications and attachments applied to each component (including identification number if Government-owned); type of maintenance contract; contractor; and monthly cost.

(ii) A separate attachment showing the time in service for each component, average use (hours per month), average downtime per month for the 12-month period immediately preceding the report, and, if appropriate, a narrative description of any history of repeated equipment failure.

(iii) A list of compilers and software packages, such as executive routines, engineering drawings, and maintenance manuals, available with the equipment.

(iv) In the case of a complete equipment configuration, information regarding power and air conditioning requirements.

(e) *Nuclear materials.* (1) The possession, use, and transfer of certain nuclear materials are subject to the regulatory controls of the Nuclear Regulatory Commission (NRC). The materials are defined as follows:

(i) By-product material—any radioactive material (except special nuclear material) yielded in or made radioactive by exposure to the radiation incident to producing or using special nuclear material.

(ii) Source material—uranium or thorium, or any combination thereof, in any physical or chemical form; or ores which contain by weight one-twentieth of 1 percent (0.05 percent) or more of uranium, thorium, or any combination thereof. Source material does not include special nuclear material.

(iii) Special nuclear material—plutonium, uranium 233, uranium enriched in the isotope 233 or in the isotope 235, and any other material that the NRC determines to be special nuclear material (but not including source material); or any material artificially enriched by any nuclear material.

(2) Plant clearance officers shall submit listings of excess nuclear material in the categories described above for screening by the contracting activity. If there are no requirements, the ultimate method of disposal shall be dependent upon the license issued by the NRC or the respective states and pertinent Federal and agency regulations.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 34756, Aug. 21, 1989]

45.608-6 Waiver of screening requirements.

Agency heads or their designees may authorize exceptions from screening requirements; *provided,* (a) there are compelling circumstances clearly in the Government's interest and (b) the contracting agency prepares a written notice, including justification, and provides a copy to the Administrator, General Services Administration, and the contract administration office 10 days before the effective date of the exception.

45.608-7 Reimbursement of costs for transfer of contractor inventory.

The contracting agency shall not be reimbursed for the acquisition cost of any property selected by another agency or for overhead or administrative costs associated with such property. The transferree will pay any transportation costs that are not the contractor's responsibility. Costs for packing, crating, preparation for shipment, and loading of contractor inventory are chargeable to the contract for assets subject to the Government property clauses at 52.245-2, Government Property (Fixed-Price Contracts) and 52.245-5, Government Property (Cost-Reimbursement, Time-and-Material, or Labor-hour Contracts), and such costs are ordinarily included in the contractor's settlement proposal for termination inventory. The transferee will pay such costs for property subject to 52.245-7, Government Property (Consolidated Facilities), or 52.245-10, Government Property (Facilities Acquisition), or 52.245-11, Government Property (Facilities Use), unless such costs are otherwise the contractor's responsibility. The contract administration office is responsible for obtaining packing, crating, and handling service. To accelerate plant clearance, the transferee shall include all appropriate data, including funding data, in the transfer or shipping document.

[54 FR 34756, Aug. 21, 1989]

45.608-8 Report of excess personal property (SF 120).

(a) This subsection provides instructions for completing SF 120, Report of Excess Personal Property, when reporting contractor inventory in accordance with 45.608-2. (For reporting other agency excess personal property, see 41 CFR 101-43.4901-120-1, Instructions for preparing SF 120).

(b) All items on the form are self-explanatory, except as follows:

Item 1, Report number. Enter the serial number of the report and any other identifying number or symbol required by the reporting agency. If the report is a correction or withdrawal (complete or partial) of a prior report, the original report number shall be entered, followed by the letter a, b, or c, etc., to identify the number of successive correcting or withdrawing reports.

Item 3, Total cost. Enter the total of all amounts shown on the inventory schedules.

Item 4, Type of report.

Box b—Check if necessary to correct an original report and complete items 1, 2, 3, 4, 5, and 7. Complete the remaining items only to the extent necessary to show the correction.

Box c—Check for partial withdrawals of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Re-identify in column 18(b) the line items or portions of line items withdrawn. In column 18(e), show the number of units withdrawn. In column 18(g), show the acquisition cost of the units withdrawn. In item 3, enter the total acquisition cost of all items withdrawn.

Box d—Check for total withdrawal of contractor inventory previously reported and complete items 1, 2, 3, 4, 5, and 7. Provide explanatory remarks in column 18(b).

Item 5, To. Enter the name(s) and address(es) of the screening agencies or the GSA regional office cognizant of the location of the property. (ADPE, except supply items under $1,500, is reported to the Central Office, GSA.)

Item 6, Appropriation or fund to be reimbursed. No entry shall be made in this item if the net proceeds are to be deposited in the Treasury as miscellaneous receipts (see 45.610-3). However, in exchange/sale transactions an appropriation number is required.

Item 8, Report approved by. Enter signature and title of the Federal official approving report.

Item 12, GSA control number. Not to be used by reporting activity.

Item 13, FSC group number, if known. If inventory schedules contain multiple FSC groups, insert "See Inventory Schedules."

Item 14, Location of property. Enter the name of contractor holding the property and the specific address where the property is located.

Item 15, Reimbursement required. Enter X in the block designated "No."

Item 16, Agency control number. Leave blank.

Item 17, Surplus release date (see 45.608-2).

Item 18, Excess property list. Leave blank.

Column a, Item number. Leave blank.

Column b, Description. Enter the following information:

(1) Identification of attached inventory schedules and the number of pages for each schedule.

(2) The screening completion date (see 45.608-2).

(3) The following notation: "It is imperative that fund appropriations for the transportation of the materials be furnished with the transfer order." If, pursuant to 45.608-7, the transferee is responsible for funding, packing, crating, and handling, include this additional notation: "Fund appropriations for packing, crating, and handling of inventory described herein must also be provided by the transferee."

(4) Contract number.

(5) When reporting motor vehicles in Federal Supply Groups 23, 24, and 38—

(i) In column 18(b), the estimated one-time cost of repairs (parts and labor); and

(ii) In column 18(c), a condition code based on the estimated cost of repairs.

(c) Columns c through h. Leave blank, except as they are used for 5(ii) above.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 34756, Aug. 21, 1989]

45.609 Donations.

(a) Property may be donated only after it has been determined to be surplus following appropriate utilization screening. The donation of surplus property to an authorized donee is subordinate to any need for property by a Federal agency.

(b) The GSA is responsible for making necessary arrangements for donation screening of serviceable property during the last 15 days of the 90-day screening period.

(c) Items that have been selected for donation shall not be retained longer than 42 calendar days from the surplus release date. The plant clearance officer shall authorize release to the eligible donees immediately upon receipt of GSA approval and shipping instructions. If approval and shipping instructions, including provision for payment of all costs incident to donation, are not received within the 42-day period, the property shall be otherwise disposed of as surplus. All costs incident to donation that are not the responsibility of the contractor shall be borne by the donee.

(d) Agencies having a current essential requirement may withdraw property undergoing donation screening. In all other cases, property may be withdrawn only after GSA concurrence.

45.610 Sale of surplus contractor inventory.

45.610-1 Responsibility.

(a) The Administrator, GSA, exercises general supervision and direction over the disposition of surplus personal property, including sales of surplus contractor inventory. Policy and procedures for sales of contractor inventory are contained in the Federal Property Management Regulations (FPMR) 41 CFR part 101-45. Sales of contractor inventory under the control of the Department of Defense are conducted in accordance with the DOD Supplement to the FAR.

(b) Reportable property submitted to GSA on SF 120 for utilization screening and not otherwise transferred or donated will automatically be programmed for sale by the GSA regional office.

(c) All other property requiring sale shall be reported to GSA on SF 126, Report of Personal Property for Sale, and in accordance with any additional instructions provided by the GSA regional office cognizant of the location where the property is physically located.

45.610-2 Exemptions from sale by GSA.

(a) Agency heads may seek exemptions from the Administrator, GSA, by submitting a letter explaining the impairment or adverse effect of sale by GSA and justifying the need for the exemption.

(b) GSA regional offices may authorize sale by the reporting activity of perishable items or small lots of limited-value property at isolated locations.

45.610-3 Proceeds of sale.

Proceeds of any sale are to be credited to the Treasury of the United States as miscellaneous receipts, except where the contract or any subcontract thereunder authorizes the proceeds to be credited to the price or cost of the work (40 U.S.C. 485(a) and (e)).

45.610-4 Contractor inventory in foreign countries.

Contractor inventory located in foreign countries shall be sold or disposed of in accordance with agency procedures (see 40 U.S.C. 511-514).

45.611 Destruction or abandonment.

(a) Surplus property may be destroyed or abandoned only after every effort has been made to dispose of it by other authorized methods. Before authorizing destruction or abandonment, the plant clearance officer shall determine in writing that—

(1) The property has no commercial value and no value to the Government;

(2) The estimated cost of care and handling is greater than the probable sale price; or

(3) Because of its nature, the property constitutes a danger to public health, safety, or welfare.

(b) Unless permitted by the contract, no contractor inventory shall be abandoned on the contractor's premises without the contractor's written consent.

(c) Surplus property for which a determination has been made under subparagraph (a)(1) or (2) above may, however, be donated to public bodies in lieu of abandonment or destruction. All costs incident to donation shall be borne by the donee.

45.612 Removal and storage.

45.612-1 General.

Contractor inventory shall be removed from the contractor's premises as soon as possible to preclude storage expenses.

45.612-2 Special storage at the contractor's risk.

When the contractor finds it necessary to remove property from the premises before expiration of the plant clearance period, the contractor may, with the concurrence of the plant clearance officer, store property in a warehouse or other storage location on or off the contractor's premises. Storage shall in no way modify the contractor's responsibility for the property. The expense of storage, including any cost incident to the transportation to and from the storage area, shall normally be borne by the contractor and shall not be charged directly or indirectly to Government contracts unless the contracting officer determines that the storage is for the convenience of the Government.

45.612-3 Special storage at the Government's expense.

(a) Contractor inventory may be stored at the Government's expense only when the contracting officer determines that it should be retained in storage for anticipated use.

(b) When the plant clearance officer recommends that the contracting office execute a storage agreement with the contractor, the request shall be accompanied with adequate data to justify the agreement (e.g., property to be stored, storage period, and cost to the Government).

(c) If the contractor will not agree to storage on its premises, the plant clearance officer shall submit adequate information to permit a decision by the contracting office for storage on a Government or commercial facility (e.g., storage space required; necessary packing, crating, and shipping services; and information as to available Government or commercial storage facilities in the local area).

45.613 Property disposal determinations.

Written determinations supporting abandonment, destruction, or other appropriate disposition shall be made by the plant clearance officer and reviewed by an appropriate reviewing authority within the agency.

45.614 Subcontractor inventory.

(a) The disposal policies and procedures in this subpart are applicable to contractor inventory in the possession of subcontractors, except inventory under terminated subcontracts for which the termination contracting officer has authorized the prime contractor to conclude settlements (see 49.108-4).

(b) Subcontractors in all tiers shall prepare inventory schedules in accordance with the requirements of this subpart. Forms prescribed for use by prime contractors may be used by subcontractors, but their use is not required if substantially equivalent information is provided. Subcontractor inventory and any disposal recommendations (including scrap recommendations) shall be reported through the next-higher-tier subcontractor to the contractor, who is responsible for reporting property to the cognizant plant clearance officer. The prime contractor and each subcontractor are responsible for review and approval of inventory schedules submitted by their respective next-lower-tier subcontractors. This includes review and, if necessary, physical survey of subcontractor inventory that is contained in a termination settlement proposal to assure that it is physically, technically, and quantitatively allocable to the contract, and cannot be reasonably diverted to other work of the subcontractor.

(c) Any rights which the prime contractor has or acquires in the inventory of first-tier or lower-tier subcontractors shall, to the extent directed by the contracting officer, be exercised for the benefit of the Government in accordance with the provisions of the prime contract.

(d) Contract administration offices shall assure that prime contractors have performed adequate allocability reviews of subcontractor inventory and have determined that materials reasonably usable on other prime or subcontractor work are not included in a termination settlement proposal. The plant clearance officer for the prime contractor plant is responsible for determining the adequacy of screening, allocability reviews, and proper crediting of proceeds for the disposal of subcontractor inventory by the prime contractor. Assistance should generally be secured from other officers for verification, determination of allocability, local screening, and plant clearance action when property is located outside the geographic area of the cognizant contract administration office.

[48 FR 42392, Sept. 19, 1983, as amended at 54 FR 34756, Aug. 21, 1989]

45.615 Accounting for contractor inventory.

Following disposition of all contractor inventory, and after due application of proceeds, the plant clearance officer shall prepare SF 1424, Inventory Disposal Report, accounting for all property reported by the contractor and its disposition. The report shall indicate any inventory lost, damaged, destroyed, or otherwise unaccounted for, as well as any changes in quantity or value of inventory made by the contractor after submission of the initial schedules. The report shall be transmitted to the property administrator or, for termination inventory, to the termination contracting officer.

46.000 Scope of part.

This part prescribes policies and procedures to ensure that supplies and services acquired under Government contract conform to the contract's quality and quantity requirements. Included are inspection, acceptance, warranty, and other measures associated with quality requirements.

Subpart 46.1—General

46.101 Definitions.

Acceptance, as used in this part, means the act of an authorized representative of the Government by which the Government, for itself or as agent of another, assumes ownership of existing identified supplies tendered or approves specific services rendered as partial or complete performance of the contract.

Contract quality requirements, means the technical requirements in the contract relating to the quality of the product or service and those contract clauses prescribing inspection, and other quality controls incumbent on the contractor, to assure that the product or service conforms to the contractual requirements.

Government contract quality assurance, means the various functions, including inspection, performed by the Government to determine whether a contractor has fulfilled the contract obligations pertaining to quality and quantity.

Inspection, means examining and testing supplies or services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether they conform to contract requirements.

Off-the-shelf item, means an item produced and placed in stock by a contractor, or stocked by a distributor, before receiving orders or contracts for its sale. The item may be commercial or produced to military or Federal specifications or description.

Subcontractor (see 44.101).

Testing, means that element of inspection that determines the properties or elements, including functional operation of supplies or their components, by the application of established scientific principles and procedures.

46.102 Policy.

Agencies shall ensure that—

(a) Contracts include inspection and other quality requirements, including warranty clauses when appropriate, that are determined necessary to protect the Government's interest.

(b) Supplies or services tendered by contractors meet contract requirements;

(c) Government contract quality assurance is conducted before acceptance (except as otherwise provided in this part), by or under the direction of Government personnel;

(d) No contract precludes the Government from performing inspection;

(e) Nonconforming supplies or services are rejected, except as otherwise provided in 46.407; and

(f) The quality assurance and acceptance services of other agencies are used when this will be effective, economical, or otherwise in the Government's interest (see subpart 42.1.)

46.103 Contracting office responsibilities.

Contracting offices are responsible for—

(a) Receiving from the activity responsible for technical requirements any specifications for inspection, testing, and other contract quality requirements essential to ensure the integrity of the supplies or services (the activity responsible for technical requirements is responsible for prescribing such inspection, testing, and other contract quality requirements);

(b) Including in solicitations and contracts the appropriate requirements for the contractor's control of quality for the supplies or services to be acquired;

(c) Issuing any necessary instructions to the cognizant contract administration office and acting on recommendations submitted by that office (see 42.301 and 46.104(f); and

(d) When contract administration is retained (see 42.203), verifying that the contractor fulfills the contract quality requirements.

46.104 Contract administration office responsibilities.

When a contract is assigned for administration to the contract administration office cognizant of the contractor's plant, that office, unless specified otherwise, shall—

(a) Develop and apply efficient procedures for performing Government contract quality assurance actions under the contract in accordance with the written direction of the contracting office:

(b) Perform all actions necessary to verify whether the supplies or services conform to contract quality requirements;

(c) Maintain, as part of the performance records of the contract, suitable records reflecting—

(1) The nature of Government contract quality assurance actions, including, when appropriate, the number of observations made and the number and type of defects; and

(2) Decisions regarding the acceptability of the products, the processes, and the requirements, as well as action to correct defects.

(d) Implement any specific written instructions from the contracting office;

(e) Report to the contracting office any defects observed in design or technical requirements, including contract quality requirements; and

(f) Recommend any changes necessary to the contract, specifications, instructions, or other requirements that will provide more effective operations or eliminate unnecessary costs (see 42.102(e) and 46.103(c)).

46.105 Contractor responsibilities.

(a) The contractor is responsible for carrying out its obligations under the contract by—

(1) Controlling the quality of supplies or services;

(2) Tendering to the Government for acceptance only those supplies or services that conform to contract requirements;

(3) Ensuring that vendors or suppliers of raw materials, parts, components, subassemblies, etc., have an acceptable quality control system; and

(4) Maintaining substantiating evidence, when required by the contract, that the supplies or services conform to contract quality requirements, and furnishing such information to the Government as required.

(b) The contractor may be required to provide and maintain an inspection system or program for the control of quality that is acceptable to the Government (see 46.202).

(c) The control of quality by the contractor may relate to, but is not limited to—

(1) Manufacturing processes, to ensure that the product is produced to, and meets, the contract's technical requirements;

(2) Drawings, specifications, and engineering changes, to ensure that manufacturing methods and operations meet the contract's technical requirements;

(3) Testing and examination, to ensure that practices and equipment provide the means for optimum evaluation of the characteristics subject to inspection;

(4) Reliability and maintainability assessment (life, endurance, and continued readiness);

(5) Fabrication and delivery of products, to ensure that only conforming products are tendered to the Government;

(6) Technical documentation, including drawings, specifications, handbooks, manuals, and other technical publications;

(7) Preservation, packaging, packing, and marking; and

(8) Procedures and processes for services to ensure that services meet contract performance requirements.

(d) The contractor is responsible for performing all inspections and test required by the contract except those specifically reserved for performance by the Government (see 46.201(c).

[48 FR 42415, Sept. 19, 1983, as amended at 55 FR 38517, Sept. 18, 1990]

Subpart 46.2—Contract Quality Requirements

46.201 General.

(a) The contracting officer shall include in the solicitation and contract the appropriate quality requirements. The type and extent of contract quality requirements needed depends on the particular acquisition and may range from inspection at time of acceptance to a requirement for the contractor's implementation of a comprehensive program for controlling quality.

(b) As feasible, solicitations and contracts may provide for alternative, but substantially equivalent, inspection methods to obtain wide competition and low cost. The contracting officer may also authorize contractor-recommended alternatives when in the Government's interest and approved by the activity responsible for technical requirements.

(c) Although contracts generally make contractors responsible for performing inspection before tendering supplies to the Government, there are situations in which contracts will provide for specialized inspections to be performed solely by the Government. Among situations of this kind are—

(1) Tests that require use of specialized test equipment or facilities not ordinarily available in suppliers' plants or commercial laboratories (e.g., ballistic testing of ammunition, unusual environmental tests, and simulated service tests); and

(2) Contracts that require Government testing for first article approval (see subpart 9.3).

(d) Except as otherwise specified by the contract, required contractor testing may be performed in the contractor's or subcontractor's laboratory or testing facility, or in any other laboratory or testing facility acceptable to the Government.

46.202 Types of contract quality requirements.

Contract quality requirements fall into three general categories, depending on the extent of quality assurance needed by the Government for the acquisition involved.

46.202-1 Government reliance on inspection by contractor.

(a) Except as specified in (b) below, the Government shall rely on the contractor to accomplish all inspection and testing needed to ensure that supplies or services acquired under small purchases conform to contract quality requirements before they are tendered to the Government (see 46.301).

(b) The Government shall not rely on inspection by the contractor if the contracting officer determines that the Government has a need to test the supplies or services in advance of their tender for acceptance, or to pass judgment upon the adequacy of the contractor's internal work processes. In making the determination, the contracting officer shall consider—

(1) The nature of the supplies and services being purchased and their intended use (see 46.204 and Table 46-1);

(2) The potential losses in the event of defects;

(3) The likelihood of uncontested replacement or correction of defective work; and

(4) The cost of detailed Government inspection.

[48 FR 42415, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

46.202-2 Standard inspection requirements.

(a) Standard inspection requirements are contained in the clauses prescribed in 46.302 through 46.308, and 46.310, and in the product and service specifications that are included in solicitations and contracts.

(b) The clauses referred to in (a) above—

(1) Require the contractor to provide and maintain an inspection system that is acceptable to the Government;

(2) Give the Government the right to make inspections and tests while work is in process; and

(3) Require the contractor to keep complete, and make available to the Government, records of its inspection work.

46.202-3 Higher-level contract quality requirements.

(a) Higher-level contract quality requirements are contained in the clause prescribed in 46.311. Such requirements are appropriate in solicitations and contracts for complex and critical items (see 46.203(b) and (c) or when the technical requirements of the contract are such as to require—

(1) Control of such things as work operations, in-process controls, and inspection (see 46.204 and Table 46-1); or

(2) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.

(b) If it is in the Government's interest to require that higher-level contract quality requirements be maintained, the contract shall require the contractor to comply with a Government-specified inspection system, quality control system, or quality program (e.g., MIL-I-45208, MIL-Q-9858, NHB 5300.4(1B), NHB 5300.4(1C), FED-STD-368, or ANSI/ASME NQA-1). The contracting officer shall consult technical personnel before including one of these specifications in a contract.

46.203 Criteria for use of contract quality requirements.

The extent of contract quality requirements, including contractor inspection, required under a contract shall usually be based upon the classification of the contract item (supply or service) as determined by its technical description, its complexity, and the criticality of its application.

(a) *Technical description.* Contract items may be technically classified as—

(1) Commercial (described in commercial catalogs, drawings, or industrial standards);

(2) Military-Federal (described in Government drawings and specifications); or

(3) Off-the-shelf (see 46.101).

(b) *Complexity.* (1) Complex items have quality characteristics, not wholly visible in the end item, for which contractual conformance must be established progressively through precise measurements, tests, and controls applied during purchasing, manufacturing, performance, assembly, and functional operation either as an individual item or in conjunction with other items.

(2) Noncomplex items have quality characteristics for which simple measurement and test of the end item are sufficient to determine conformance to contract requirements.

(c) *Criticality.* (1) A critical application of an item is one in which the failure of the item could injure personnel or jeopardize a vital agency mission. A critical item may be either peculiar, meaning it has only one application, or common, meaning it has multiple applications.

(2) A noncritical application is any other application. Noncritical items may also be either peculiar or common.

46.204 Application of criteria.

Subject to mandatory limitations contained in the clause prescriptions (see subpart 46.3), Table 46-1 may be used as a guide in selecting the appropriate contract quality requirements. Where circumstances warrant, the contracting officer may specify a requirement different from that arrived at through use of the table, except for off-the-shelf items.

TABLE 46-1 CONTRACT QUALITY REQUIREMENTS GUIDE

Item		Type of Contract	
Technical Description	Complexity	Application	Quality Requirement
Commercial	Noncomplex	Noncritical Common	Contractor inspection (46.202-1)
Commercial	Noncomplex	Noncritical Peculiar	Contractor inspection (46.202-1)
Commercial	Noncomplex	Critical	Standard inspection (46.202-2)
Commercial	Complex	Noncritical Common	Contractor inspection (46.202-1)
Commercial	Complex	Noncritical Peculiar	Standard inspection (46.202-2)
Commercial	Complex	Critical	Higher-level (46.202-3)
Military-Federal	Noncomplex	Noncritical Common	Standard inspection (46.202-2)
Military-Federal	Noncomplex	Noncritical Peculiar	Standard inspection (46.202-2)
Military-Federal	Noncomplex	Critical	Higher-level (46.202-3)
Military-Federal	Complex	Noncritical Common	Standard inspection (46.202-2)
Military-Federal	Complex	Noncritical Peculiar	Higher-level (46.202-3)
Military-Federal	Complex	Critical	Higher-level (46.202-3)
Off-the-shelf	All	Noncritical	Contractor inspection (46.202-1)
Off-the-shelf	All	Critical	Standard inspection (46.202-2)

Subpart 46.3—Contract Clauses

46.301 Contractor inspection requirements.

The contracting officer shall insert the clause at 52.246-1, Contractor Inspection Requirements, in solicitations and contracts for supplies or services when the contract amount is expected to be within the small purchase limitation and (a) inclusion of the clause is necessary to ensure an explicit understanding of the contractor's inspection responsibilities, or (b) inclusion of the clause is required under agency procedures. The clause shall not be used if the contracting officer has made the determination specified in 46.202-1(b).

46.302 Fixed-price supply contracts.

The contracting officer shall insert the clause at 52.246-2, Inspection of Supplies—Fixed-Price, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation and inclusion of the clause is in the Government's interest. If a fixed-price incentive contract is contemplated, the contracting officer shall use the clause with its Alternate I. If a fixed-ceiling-price contract with retroactive price redetermination is contemplated, the contracting officer shall use the clause with its Alternate II.

46.303 Cost-reimbursement supply contracts.

The contracting officer shall insert the clause at 52.246-3, Inspection of Supplies—Cost-Reimbursement, in solicitations and contracts for supplies, or services that involve the furnishing of supplies, when a cost-reimbursement contract is contemplated.

46.304 Fixed-price service contracts.

The contracting officer shall insert the clause at 52.246-4, Inspection of Services—Fixed-Price, in solicitations and contracts for services, or supplies that involve the furnishing of services, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation and inclusion is in the Government's interest.

46.305 Cost-reimbursement service contracts.

The contracting officer shall insert the clause at 52.246-5, Inspection of Services—Cost Reimbursement, in solicitations and contracts for services, or supplies that involve the furnishing of services, when a cost-reimbursement contract is contemplated.

46.306 Time-and-material and labor-hour contracts.

The contracting officer shall insert the clause at 52.246-6, Inspection—Time-and-Material and Labor-Hour, in solicitations and contracts when a time-and-material contract or a labor-hour contract is contemplated. If Government inspection and acceptance are to be performed at the contractor's plant, the contracting officer shall use the clause with its Alternate I.

[48 FR 42415, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

46.307 Fixed-price research and development contracts.

(a) The contracting officer shall insert the clause at 52.246-7, Inspection of Research and Development—Fixed-Price, in solicitations and contracts for research and development when (1) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, (2) a fixed-price contract is contemplated, and (3) the contract amount is expected to exceed the small purchase limitation; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate.

(b) The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation, and its use is in the Government's interest.

46.308 Cost-reimbursement research and development contracts.

The contracting officer shall insert the clause at 52.246-8, Inspection of Research and Development—Cost-Reimbursement, in solicitations and contracts for research and development when (a) the primary objective of the contract is the delivery of end items other than designs, drawings, or reports, and (b) a cost-reimbursement contract is contemplated; unless use of the clause is impractical and the clause prescribed in 46.309 is considered to be more appropriate. If it is contemplated that the contract will be on a no-fee basis, the contracting officer shall use the clause with its Alternate I.

46.309 , Research and development contracts (short form).

The contracting officer shall insert the clause at 52.246-9, Inspection of Research and Development (Short Form), in solicitations and contracts for research and development when the clause prescribed in 46.307 or the clause prescribed in 46.308 is not used.

[51 FR 27120, July 29, 1986]

46.310 Facilities contracts.

The contracting officer shall insert the clause at 52.246-10, Inspection of Facilities, in solicitations and contracts when a facilities contract is contemplated.

46.311 Higher-level contract quality requirement.

The contracting officer shall insert the clause at 52.246-11, Higher-Level Contract Quality Requirement (Government Specification), in solicitations and contracts when the inclusion of a higher-level contract quality requirement is appropriate (see 46.202-3).

46.312 Construction contracts.

The contracting officer shall insert the clause at 52.246-12, Inspection of Construction, in solicitations and contracts for construction when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitations and contracts when the contract amount is expected to be within the small purchase limitation, and its use is in the Government's interest.

46.313 Contracts for dismantling, demolition, or removal of improvements.

The contracting officer shall insert the clause at 52.246-13, Inspection—Dismantling, Demolition, or Removal of Improvements, in solicitations and contracts for dismantling, demolition, or removal of improvements.

46.314 Transportation contracts.

The contracting officer shall insert the clause at 52.246-14, Inspection of Transportation, in solicitations and contracts for freight transportation services (including local drayage) by rail, motor (including bus), domestic freight forwarder, and domestic water carriers (including inland, coastwise, and intercoastal). The contracting officer shall not use the clause for the acquisition of transportation services by domestic or international air carriers or by international ocean carrie or to freight services provided und bills of lading or to those negotiate for reduced rates under 49 U.S. 10721(b)(1). (See part 47, Transport tion.)

46.315 Certificate of conformance.

The contracting officer shall inser the clause at 52.246-15, Certificate o Conformance, in solicitations and contracts for supplies or services whe the conditions in 46.504 apply.

46.316 Responsibility for supplies.

The contracting officer shall inser the clause at 52.246-16, Responsibilit for Supplies, in solicitations and contracts for (a) supplies, (b) services involving the furnishing of supplies, o (c) research and development, when fixed-price contract is contemplate and the contract amount is expecte to exceed the small purchase limitation. The contracting officer may insert the clause in such solicitation and contracts when the contract amount is not expected to exceed the small purchase limitation and inclusion of the clause is authorized under agency procedures.

Subpart 46.4—Government Contract Quality Assurance

46.401 General.

(a) Government contract quality assurance shall be performed at such times (including any stage of manufacture or performance of services) and places (including subcontractors' plants) as may be necessary to determine that the supplies or services conform to contract requirements.

(b) Each contract shall designate the place or places where the Government reserves the right to perform quality assurance.

(c) If the contract provides for performance of Government quality assurance at source, the place or places of performance may not be changed without the authorization of the contracting officer.

(d) If a contract provides for delivery and acceptance at destination and the Government inspects the supplies at a place other than destination, the supplies shall not ordinarily be reinspected at destination, but should be examined for quantity, damage in transit, and possible substitution or fraud.

(e) Government inspection shall be performed by or under the direction or supervision of Government personnel.

(f) Government inspection shall be documented on an inspection or receiving report form or commercial shipping document/packing list, under agency procedures (see subpart 46.6).

(g) Agencies may prescribe the use of inspection approval or disapproval stamps to identify and control supplies and material that have been inspected for conformance with contract quality requirements.

46.402 Government contract quality assurance at source.

Agencies shall perform contract quality assurance, including inspection, at source if—

(a) Performance at any other place would require uneconomical disassembly or destructive testing;

(b) Considerable loss would result from the manufacture and shipment of unacceptable supplies, or from the delay in making necessary corrections;

(c) Special required instruments, gauges, or facilities are available only at source;

(d) Performance at any other place would destroy or require the replacement of costly special packing and packaging;

(e) A higher-level contract quality requirement is included in the contract (see 46.202-3);

(f) Government inspection during contract performance is essential;

(g) Supplies requiring inspection are destined for points of embarkation for overseas shipment (unless the contracting officer determines in advance that necessary inspection functions can be provided at such points); or

(h) It is determined for other reasons to be in the Government's interest.

46.403 Government contract quality assurance at destination.

(a) Government contract quality assurance that can be performed at destination is normally limited to inspection of the supplies or services. Inspection shall be performed at destination under the following circumstances—

(1) Supplies are purchased off-the-shelf and require no technical inspection;

(2) Necessary testing equipment is located only at destination;

(3) Perishable subsistence supplies purchased within the United States, except that those supplies destined for overseas shipment will normally be inspected for condition and quantity at points of embarkation;

(4) Brand name products purchased for authorized resale through commissaries or similar facilities (however, supplies destined for direct overseas shipment may be accepted by the contracting officer or an authorized representative on the basis of a tally sheet evidencing receipt of shipment signed by the port transportation officer or other designated official at the transshipment point);

(5) The products being purchased are processed under direct control of the National Institutes of Health or the Food and Drug Administration of the Department of Health and Human Services;

(6) The contract is for services performed at destination; or

(7) It is determined for other reasons to be in the Government's interest.

(b) Overseas inspection of supplies shipped from the United States shall not be required except in unusual circumstances, and then only when the contracting officer determines in advance that inspection can be performed or makes necessary arrangements for its performance.

46.404 Government contract quality assurance of small purchases.

(a) In determining the type and extent of Government contract quality assurance to be required for small purchases, the contracting officer shall consider the criticality of application of the supplies or services, the amount of possible losses, and the likelihood of uncontested replacement of defective work (see 46.202-1).

(b) When the conditions in 46.202-1(b) apply, the following policies shall govern:

(1) Unless a special situation exists, the Government shall inspect small purchases at destination and only for type and kind; quantity; damage; operability (if readily determinable); and preservation, packaging, packing, and marking, if applicable.

(2) Special situations may require more detailed quality assurance and the use of a standard inspection or higher-level contract quality requirement. These situations include those listed in 46.402 and contracts for items having critical applications. See Table 46-1 at 46.204 for other possible situations.

(3) Detailed Government inspection may be limited to those characteristics that are special or likely to cause harm to personnel or property. When repetitive purchases of the same item are made from the same manufacturer with a history of defect-free work, Government inspection may be reduced to a periodic check of occasional purchases.

46.405 Subcontracts.

(a) Government contract quality assurance on subcontracted supplies or services shall be performed only when required in the Government's interest. The primary purpose is to assist the contract administration office cognizant of the prime contractor's plant in determining the conformance of subcontracted supplies or services with contract requirements or to satisfy one or more of the factors included in (b) below. It does not relieve the prime contractor of any responsibilities under the contract. When appropriate, the prime contractor shall be requested to arrange for timely Government access to the subcontractor facility.

(b) The Government shall perform quality assurance at the subcontract level when—

(1) The item is to be shipped from the subcontractor's plant to the using activity and inspection at source is required;

(2) The conditions for quality assurance at source are applicable (see 46.402);

(3) The contract specifies that certain quality assurance functions, which can be performed only at the subcontractor's plant, are to be pe
formed by the Government; or

(4) It is otherwise required by t
contract or determined to be in t
Government's interest.

(c) Supplies or services for whi
certificates, records, reports, or simil
evidence of quality are available at t
prime contractor's plant shall not
inspected at the subcontractor's pla
except occasionally to verify this e
dence or when required under (
above.

(d) All oral and written statemen
and contract terms and conditions
lating to Government quality assu
ance actions at the subcontract lev
shall be worded so as not to—

(1) Affect the contractual relatio
ship between the prime contractor a
the Government, or between t
prime contractor and the subcontra
tor;

(2) Establish a contractual relatio
ship between the Government and t
subcontractor; or

(3) Constitute a waiver of the Go
ernment's right to accept or reject t
supplies or services.

46.406 Foreign governments.

Government contract quality assu
ance performed for foreign gover
ments or international agencies sha
be administered according to the fo
eign policy and security objectives
the United States. Such support sha
be furnished only when consisten
with or required by legislation, execu
tive orders, or agency policies concer
ing mutual international programs.

46.407 Nonconforming supplies or serv ices.

(a) Contracting officers shoul
reject supplies or services not con
forming in all respects to contract re
quirements (see 46.102). In those in
stances where deviation from thi
policy is found to be in the Gover
ment's interest, such supplies or serv
ices may be accepted only as author
ized in this section.

(b) Contractors ordinarily shall b
given an opportunity to correct or re
place nonconforming supplies or serv
ices when this can be accomplished
within the required delivery schedule.

Unless the contract specifies otherwise (as may be the case in some cost-reimbursement contracts), correction or replacement shall be without additional cost to the Government. Subparagraph (e)(2) of the clause at 52.246-2, Inspection of Supplies—Fixed-Price, reserves to the Government the right to charge the contractor the cost of Government reinspection and retests because of prior rejection.

(c) (1) In situations not covered by (b) above, the contracting officer shall ordinarily reject supplies or services when the nonconformance adversely affects safety, health, reliability, durability, performance, interchangeability of parts or assemblies, weight or appearance (where a consideration), or any other basic objective of the specification. However, there may be circumstances (e.g., reasons of economy or urgency) when acceptance of such supplies or services is determined by the contracting officer to be in the Government's interest. The contracting officer shall make this determination, based upon—

(i) Advice of the technical activity that the material is safe to use, and will perform its intended purpose;

(ii) Information regarding the nature and extent of the nonconformance;

(iii) A request from the contractor for acceptance of the supplies or services (if feasible);

(iv) A recommendation for acceptance or rejection, with supporting rationale; and

(v) The contract adjustment considered appropriate, including any adjustment offered by the contractor.

(2) The cognizant contract administration office, or other Government activity directly involved, shall furnish this data to the contracting officer in writing, except that in urgent cases it may be furnished orally and later confirmed in writing. Before making a decision to accept, the contracting officer shall obtain the concurrence of the activity responsible for the technical requirements of the contract and, where health factors are involved, of the responsible health official of the agency concerned.

(d) If the nonconformance is minor, in that it does not affect any of the factors referred to in (c) above, the cognizant contract administration office may make the determination to accept or reject, except where this authority is withheld by the contracting office of the contracting activity. To assist in making this determination, the contract administration office may establish a joint contractor-contract administrative office review group. Acceptance of nonconforming supplies that affect any of the factors referred to in (c) above is outside the scope of the review group and must be handled as specified there.

(e) Contracting officers shall discourage the repeated tender of nonconforming supplies or services, including those with only minor nonconformances, by appropriate action, such as rejection and documenting the contractor's performance record.

(f) Each contract under which nonconforming supplies or services are accepted as authorized in (c) above shall be modified to provide for an equitable price reduction or other consideration. However, when supplies or services involving minor nonconformances are accepted, the contract shall not be modified unless (1) it appears that the savings to the contractor in fabricating the nonconforming supplies or performing the nonconforming services will exceed the cost to the Government of processing the modification, or (2) the Government's interests otherwise require a contract modification.

(g) Notices of rejection shall include the reasons for rejection and be furnished promptly to the contractor. Promptness in giving this notice is essential because, if timely nature of rejection is not furnished, acceptance may in certain cases be implied as a matter of law. The notice shall be in writing if—

(1) The supplies or services have been rejected at a place other than the contractor's plant;

(2) The contractor persists in offering nonconforming supplies or services for acceptance; or

(3) Delivery or performance was late without excusable cause.

46.408 Single-agency assignments of Government contract quality assurance.

(a) Government-wide responsibility for quality assurance support for acquisitions of certain commodities is assigned as follows:

(1) For drugs, biologics, and other medical supplies—the Food and Drug Administration;

(2) For food, except seafood—the Department of Agriculture.

(3) For seafood—the National Marine Fisheries Service of the Department of Commerce.

(b) Agencies requiring quality assurance support for acquiring these supplies should request the support directly from the cognizant office.

Subpart 46.5—Acceptance

46.501 General.

Acceptance constitutes acknowledgment that the supplies or services conform with applicable contract quality and quantity requirements, except as provided in this subpart and subject to other terms and conditions of the contract. Acceptance may take place before delivery, at the time of delivery, or after delivery, depending on the provisions of the terms and conditions of the contract. Supplies or services shall ordinarily not be accepted before completion of Government contract quality assurance actions (however, see 46.504). Acceptance shall ordinarily be evidenced by execution of an acceptance certificate on an inspection or receiving report form or commercial shipping document/packing list.

46.502 Responsibility for acceptance.

Acceptance of supplies or services is the responsibility of the contracting officer. When this responsibility is assigned to a cognizant contract administration office or to another agency (see 42.102(c)), acceptance by that office or agency is binding on the Government.

46.503 Place of acceptance.

Each contract shall specify the place of acceptance. Contracts that provide for Government contract quality assurance at source shall ordinarily provide for acceptance at source. Co
tracts that provide for Governme
contract quality assurance at destin
tion shall ordinarily provide for a
ceptance at destination. (For transpo
tation terms, see subpart 47.3). Su
plies accepted at a place other tha
destination shall not be reinspected
destination for acceptance purpose
but should be examined at destinatio
for quantity, damage in transit, an
possible substitution or fraud.

46.504 Certificate of conformance.

A certificate of conformance (se
46.315) may be used in certain in
stances instead of source inspectio
(whether the contract calls for accep
ance at source or destination) at th
discretion of the contracting officer
the following conditions apply:

(a) Acceptance on the basis of a con
tractor's certificate of conformance
in the Government's interest.

(b) (1) Small losses would be in
curred in the event of a defect; or

(2) Because of the contractor's repu
tation or past performance, it is likel
that the supplies or services furnishe
will be acceptable and any defectiv
work would be replaced, corrected, o
repaired without contest. In no cas
shall the Government's right to in
spect supplies under the inspectio
provisions of the contract be preju
diced.

46.505 Transfer of title and risk of loss.

(a) Title to supplies shall pass to the Government upon formal acceptance, regardless of when or where the Government takes physical possession, unless the contract specifically provides for earlier passage of title.

(b) Unless the contract specifically provides otherwise, risk of loss of or damage to supplies shall remain with the contractor until, and shall pass to the Government upon—

(1) Delivery of the supplies to a carrier if transportation is f.o.b. origin; or

(2) Acceptance by the Government or delivery of the supplies to the Government at the destination specified in the contract, whichever is later, if transportation is f.o.b. destination.

(c) Paragraph (b) above shall not apply to supplies that so fail to conform to contract requirements as to give a right of rejection. The risk of loss of or damage to such nonconforming supplies remains with the contractor until cure or acceptance. After cure or acceptance, paragraph (b) above shall apply.

(d) Under paragraph (b) above, the contractor shall not be liable for loss of or damage to supplies caused by the negligence of officers, agents, or employees of the Government acting within the scope of their employment.

(e) The policy expressed in (a) through (d) above is specified in the clause at 52.246-16, Responsibility for Supplies, which is prescribed in 46.316.

Subpart 46.6—Material Inspection and Receiving Reports

Agencies shall prescribe procedures and instructions for the use, preparation, and distribution of material inspection and receiving reports and commercial shipping document/packing lists to evidence Government inspection (see 46.401) and acceptance (see 46.501).

Subpart 46.7—Warranties

46.701 Definitions.

Acceptance (see 46.101).

Correction, as used in this subpart, means the elimination of a defect.

Warranty, as used in this subpart, means a promise or affirmation given by a contractor to the Government regarding the nature, usefulness, or condition of the supplies or performance of services furnished under the contract.

46.702 General.

(a) The principal purposes of a warranty in a Government contract are (1) to delineate the rights and obligations of the contractor and the Government for defective items and services and (2) to foster quality performance.

(b) Generally, a warranty should provide—

(1) A contractual right for the correction of defects notwithstanding any other requirement of the contract pertaining to acceptance of the supplies or services by the Government; and

(2) A stated period of time or use, or the occurrence of a specified event, after acceptance by the Government to assert a contractual right for the correction of defects.

(c) The benefits to be derived from a warranty must be commensurate with the cost of the warranty to the Government.

46.703 Criteria for use of warranties.

The use of warranties is not mandatory. In determining whether a warranty is appropriate for a specific acquisition, the contracting officer shall consider the following factors:

(a) *Nature and use of the supplies or services.* This includes such factors as—

(1) Complexity and function;

(2) Degree of development;

(3) State of the art;

(4) End use;

(5) Difficulty in detecting defects before acceptance; and

(6) Potential harm to the Government if the item is defective.

(b) *Cost.* Warranty costs arise from—

(1) The contractor's charge for accepting the deferred liability created by the warranty; and

(2) Government administration and enforcement of the warranty (see paragraph (c) below).

(c) *Administration and enforcement.* The Government's ability to enforce the warranty is essential to the effectiveness of any warranty. There must be some assurance that an adequate administrative system for reporting defects exists or can be established. The adequacy of a reporting system may depend upon such factors as the—

(1) Nature and complexity of the item;

(2) Location and proposed use of the item;

(3) Storage time for the item;

(4) Distance of the using activity from the source of the item;

(5) Difficulty in establishing existence of defects; and

(6) Difficulty in tracing responsibility for defects.

(d) *Trade practice.* In many instances an item is customarily warranted in the trade, and, as a result of that practice, the cost of an item to the Government will be the same whether or not a warranty is included. In those instances, it would be in the Government's interest to include such a warranty.

(e) *Reduced requirements.* The contractor's charge for assumption of added liability may be partially or completely offset by reducing the Government's contract quality assurance requirements where the warranty provides adequate assurance of a satisfactory product.

46.704 Authority for use of warranties.

The use of a warranty in an acquisition shall be approved in accordance with agency procedures.

46.705 Limitations.

(a) Except for the warranties in the clauses at 52.246-3, Inspection of Supplies—Cost-Reimbursement, and 52.246-8, Inspection of Research and Development—Cost-Reimbursement, the contracting officer shall not include warranties in cost-reimbursement contracts, unless authorized in accordance with agency regulations (see 46.708).

(b) Warranty clauses shall not limit the Government's rights under an inspection clause (see subpart 46.3) in relation to latent defects, fraud, or gross mistakes that amount to fraud.

(c) Except for warranty clauses in construction contracts, warranty clauses shall provide that the warranty applies notwithstanding inspection and acceptance or other clauses or terms of the contract.

46.706 Warranty terms and conditions.

(a) To facilitate the pricing and enforcement of warranties, the contracting officer shall ensure that warranties clearly state the—

(1) Exact nature of the item and its components and characteristics that the contractor warrants;

(2) Extent of the contractor's warranty including all of the contractor's obligations to the Government for breach of warranty;

(3) Specific remedies available to the Government; and

(4) Scope and duration of the warranty.

(b) The contracting officer shall consider the following guidelines when preparing warranty terms and conditions:

(1) *Extent of contractor obligations* (i) Generally, the contractor's obligations under warranties extend to all defects discovered during the warranty period, but do not include damage caused by the Government. When a warranty for the entire item is not advisable, a warranty may be required for a particular aspect of the item that may require special protection (e.g., installation, components, accessories, subassemblies, preservation, packaging, and packing, etc.).

(ii) If the Government specifies the design of the end item and its measurements, tolerances, materials, tests, or inspection requirements, the contractor's obligations for correction of defects shall usually be limited to defects in material and workmanship or failure to conform to specifications. If the Government does not specify the design, the warranty extends also to the usefulness of the design.

(iii) If express warranties are included in a contract (except contracts for commercial items), all implied warranties of merchantability and fitness for a particular purpose shall be negated by the use of specific language in the clause (see clauses 52.246-17, Warranty of Supplies of a Noncomplex Nature; 52.246-18, Warranty of Supplies of a Complex Nature; and 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria).

(2) *Remedies* (i) Normally, a warranty shall provide as a minimum that the Government may (A) obtain an equitable adjustment of the contract, or (B) direct the contractor to repair or replace the defective items at the contractor's expense.

(ii) If it is not practical to direct the contractor to make the repair or replacement, or, because of the nature of the item, the repair or replacement does not afford an appropriate remedy to the Government, the warranty should provide alternate remedies, such as authorizing the Government to—

(A) Retain the defective item and reduce the contract price by an amount equitable under the circumstances; or

(B) Arrange for the repair or replacement of the defective item, by the Government or by another source, at the contractor's expense.

(iii) If it can be foreseen that it will not be practical to return an item to the contractor for repair, to remove it to an alternate source for repair, or to replace the defective item, the warranty should provide that the Government may repair, or require the contractor to repair, the item in place at the contractor's expense. The contract shall provide that in the circumstance where the Government is to accomplish the repair, the contractor will furnish at the place of delivery the material or parts, and the installation instructions required to successfully accomplish the repair.

(iv) Unless provided otherwise in the warranty, the contractor's obligation to repair or replace the defective item, or to agree to an equitable adjustment of the contract, shall include responsibility for the costs of furnishing all labor and material to (A) reinspect items that the Government reasonably expected to be defective, (B) accomplish the required repair or replacement of defective items, and (C) test, inspect, package, pack, and mark repaired or replaced items.

(v) If repair or replacement of defective items is required, the contractor shall generally be required by the warranty to bear the expense of transportation for returning the defective item from the place of delivery specified in the contract (irrespective of the f.o.b. point or the point of acceptance) to the contractor's plant and subsequent return. When defective items are returned to the contractor from other than the place of delivery specified in the contract, or when the Government exercises alternate remedies, the contractor's liability for transportation charges incurred shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in the contract and the contractor's plant and subsequent return.

(3) *Duration of the warranty.* The time period or duration of the warranty must be clearly specified and shall be established after consideration of such factors as (i) the estimated useful life of the item, (ii) the nature of the item including storage or shelf-life, and (iii) trade practice. The period specified shall not extend the contractor's liability for patent defects beyond a reasonable time after acceptance by the Government.

(4) *Notice.* The warranty shall specify a reasonable time for furnishing notice to the contractor regarding the discovery of defects. This notice period, which shall apply to all defects discovered during the warranty period, shall be long enough to assure that the Government has adequate time to give notice to the contractor. The contracting officer shall consider the following factors when establishing the notice period:

(i) The time necessary for the Government to discover the defects.

(ii) The time reasonably required for the Government to take necessary administrative steps and make a timely report of discovery of the defects to the contractor.

(iii) The time required to discover and report defective replacements.

(5) *Markings.* The packaging and preservation requirements of the contract shall require the contractor to stamp or mark the supplies delivered or otherwise furnish notice with the supplies of the existence of the warranty. The purpose of the markings or notice is to inform Government personnel who store, stock, or use the supplies that the supplies are under warranty. Markings may be brief but should include (i) a brief statement that a warranty exists, (ii) the substance of the warranty, (iii) its duration, and (iv) who to notify if the supplies are found to be defective. For commercial items (see 46.709), the contractor's trade practice in warranty marking is acceptable if sufficient information is presented for supply personnel and users to identify warranted supplies.

(6) *Consistency.* Contracting officers shall ensure that the warranty clause and any other warranty conditions in the contract (e.g., in the specifications or an inspection clause) are consistent. To the extent practicable, all of the

warranties to be contained in the contract should be expressed in the warranty clause.

46.707 Pricing aspects of fixed-price incentive contract warranties.

If a fixed-price incentive contract contains a warranty (see 46.708), the estimated cost of the warranty to the contractor should be considered in establishing the incentive target price and the ceiling price of the contract. All costs incurred, or estimated to be incurred, by the contractor in complying with the warranty shall be considered when establishing the total final price. Contractor compliance with the warranty after the establishment of the total final price shall be at no additional cost to the Government.

46.708 Warranties of data.

Warranties of data shall be developed and used in accordance with agency regulations.

46.709 Warranties of commercial items.

If a warranty of commercial items is appropriate, the contracting officer may include a warranty of supplies clause modified for commercial items (see the clause at 52.246-17, Warranty of Supplies of a Noncomplex Nature, Alternate I, and 52.246-18, Warranty of Supplies of a Complex Nature, Alternate I). More appropriate warranty language may be included if the contracting officer determines that the Government's planned usage of the item is inconsistent with the item's normal usage, or that Government specifications have substantially altered the item. The Government may adopt the contractor's standard commercial warranty if the contracting officer determines it is not inconsistent with the rights that would be afforded the Government under a warranty of supplies clause (see the clauses at 52.246-17, Warranty of Supplies of a Noncomplex Nature, and 52.246-18, Warranty of Supplies of a Complex Nature) or other terms of the contract.

46.710 Contract clauses.

The clauses and alternates prescribed in this section may be used in solicitations and contracts in which in-
clusion of warranty coverage is appr
priate. However, because of the mar
situations that may influence the wa
ranty terms and conditions appropr
ate to a particular acquisition, the co
tracting officer may vary the tern
and conditions of the clauses and
ternates to the extent necessary. Th
alternates prescribed in this sectio
address the clauses; however, the co
ditions pertaining to each alterna
must be considered if the terms ar
conditions are varied to meet a pa
ticular need.

(a) (1) The contracting officer ma
insert a clause substantially the sam
as the clause at 52.246-17, Warranty
Supplies of a Noncomplex Nature,
solicitations and contracts for noncon
plex items when a fixed-price supp
contract is contemplated and the u
of a warranty clause has been a
proved under agency procedures.

(2) If commercial items are to be a
quired, the contracting officer may u
the clause with its Alternate I.

(3) If it is desirable to specify th
necessary transportation incident
correction or replacement will be
the Government's expense (as migl
be the case if, for example, the cost
a warranty would otherwise be prohil
itive), the contracting officer may u
the clause with its Alternate II.

(4) If the supplies cannot be o
tained from another source, the co
tracting officer may use the clau
with its Alternate III.

(5) If a fixed-price incentive contra
is contemplated, the contracting off
cer may use the clause with its Alte
nate IV.

(6) If it is anticipated that recove
of the warranted item will involve co
siderable Government expense for di
assembly and/or reassembly of larg
items, the contracting officer may u
the clause with its Alternate V.

(b) (1) The contracting officer ma
insert a clause substantially the sam
as the clause at 52.246-18, Warranty
Supplies of a Complex Nature, in s
licitations and contracts for delive
able complex items when a fixed-pric
supply or research and developme
contract is contemplated and the us
of a warranty clause has been a
proved under agency procedures.

(2) If commercial items are to be acquired, the contracting officer may use the clause with its Alternate I.

(3) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate II.

(4) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate III.

(5) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate IV.

(c) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, in solicitations and contracts when performance specifications or design are of major importance; a fixed-price supply, service, or research and development contract for systems and equipment is contemplated; and the use of a warranty clause has been approved under agency procedures.

(2) If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), the contracting officer may use the clause with its Alternate I.

(3) If a fixed-price incentive contract is contemplated, the contracting officer may use the clause with its Alternate II.

(4) If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, the contracting officer may use the clause with its Alternate III.

(d) The contracting officer may insert a clause substantially the same as the clause at 52.246-20, Warranty of Services, in solicitations and contracts for services when a fixed-price contract for services is contemplated and the use of a warranty clause has been approved under agency procedures; unless a clause substantially the same as the clause at 52.246-19, Warranty of Systems and Equipment under Performance Specifications or Design Criteria, has been used.

(e) (1) The contracting officer may insert a clause substantially the same as the clause at 52.246-21, Warranty of Construction, in solicitations and contracts when a fixed-price construction contract (see 46.705(c)) is contemplated and the use of a warranty clause has been approved under agency procedures.

(2) If the Government specifies in the contract the use of any equipment by *brand name and model,* the contracting officer may use the clause with its Alternate I.

Subpart 46.8—Contractor Liability for Loss of or Damage to Property of the Government

46.800 Scope of subpart.

This subpart prescribes policies and procedures for limiting contractor liability for loss of or damage to property of the Government that (a) occurs after acceptance and (b) results from defects or deficiencies in the supplies delivered or services performed.

46.801 Applicability.

(a) The subpart applies to contracts other than those for (1) automatic data processing, (2) telecommunications, (3) construction, (4) architect-engineer services and (5) maintenance and rehabilitation of real property. This subpart does not apply to items priced at or based on catalog or market prices except as indicated in 46.804.

(b) See subpart 46.7, Warranties, for policies and procedures concerning contractor liability caused by nonconforming technical data.

46.802 Definition.

High-value item, as used in this subpart, means a contract end item that (a) has a high unit cost (normally exceeding $100,000 per unit), such as an aircraft, an aircraft engine, a communication system, a computer system, a missile, or a ship, and (b) is designated by the contracting officer as a high-value item.

46.803 Policy.

(a) *General.* The Government will generally act as a self-insurer by relieving contractors, as specified in this subpart, of liability for loss of or damage to property of the Government that (1) occurs after acceptance of supplies delivered or services performed under a contract and (2) results from defects or deficiencies in the supplies or services. However, the Government will not relieve the contractor of liability for loss of or damage to the contract end item itself, except for high-value items.

(b) *High-value items.* In contracts requiring delivery of high-value items, the Government will relieve contractors of contractual liability for loss of or damage to those items. However, this relief shall not limit the Government's rights arising under the contract to—

(1) Have any defective item or its components corrected, repaired, or replaced when the defect or deficiency is discovered before the loss of or damage to a high-value item occurs; or

(2) Obtain equitable relief when the defect or deficiency is discovered after such loss or damage occurs.

(c) *Exception.* The Government will not provide contractual relief under paragraphs (a) and (b) above when contractor liability can be preserved without increasing the contract price.

(d) *Limitations.* Subject to the specific terms of the limitation of liability clause included in the contract, the relief provided under paragraphs (a) and (b) above does not apply—

(1) To the extent that contractor liability is expressly provided under a contract clause authorized by this regulation;

(2) When a defect or deficiency in, or the Government's acceptance of, the supplies or services results from willful misconduct or lack of good faith on the part of the contractor's managerial personnel; or

(3) To the extent that any contractor insurance, or self-insurance reserve, covers liability for loss or damage suffered by the Government through purchase or use of the supplies delivered or services performed under the contract.

46.804 Items priced at or based on catalog or market prices.

Contractors generally (a) carry product liability or similar insurance, or maintain a reserve for self-insurance, covering liability arising from defective items and (b) reflect its cost in catalog or market prices. Therefore, for items being priced at or based on catalog or market prices (see 15.804-3(c)), contracting officers should not provide relief under the policy in 46.803 by including a clause prescribed in 46.805, unless they obtain an appropriate reduction from the catalog or market price to reflect reduced contractor liability.

46.805 Contract clauses.

(a) *Contracts that exceed the small purchase limitation in 13.000.* The contracting officer shall insert the appropriate clause or combination of clauses specified in subparagraphs (a)(1) through (a)(5) of this section in solicitations and contracts when the contract amount is expected to be in excess of the small purchase limitation in 13.000 and the contract is subject to the requirements of this subpart as indicated in 46.801:

(1) In contracts requiring delivery of end items that are not high-value items, insert the clause at 52.246-23, Limitation of Liability.

(2) In contracts requiring delivery of high-value items, insert the clause at 52.246-24, Limitation of Liability—High-Value Items.

(3) In contracts requiring delivery of both high-value items and other end items, insert both clauses prescribed in (1) and (2) above, Alternate I of the clause at 52.246-24, and identify clearly in the contract schedule the line items designated as high-value items.

(4) In contracts requiring the performance of services, insert the clause at 52.246-25, Limitation of Liability—Services.

(5) In contracts requiring both the performance of services and the delivery of end items, insert the clause prescribed in subparagraph (4) above and the appropriate clause or clauses pre-

scribed in subparagraph (1), (2), or (3) above, and identify clearly in the contract schedule any high-value line items.

(b) *Contracts within the small purchase limitation in 13.000.* The clauses prescribed by paragraph (a) of this section are not required for contracts within the small purchase limitation in 13.000. However, in response to a contractor's specific request, the contracting officer may insert the clauses prescribed in subparagraph (a)(1) or (a)(4) of this section in a contract within the small purchase limitation in 13.000 and obtain any price reduction that is appropriate.

[48 FR 42415, Sept. 19, 1983, as amended at 55 FR 3886, Feb. 5, 1990]

46.806 Subcontracts.

(a) The clause at 52.246-23, Limitation of Liability, and the clause at 52.246-25, Limitation of Liability—Services, each require the contractor to insert the same clause in all subcontracts.

(b) The clause at 52.246-24, Limitation of Liability—High-Value Items, and its Alternate I require the contractor to insert that clause, the clause at 52.246-23, Limitation of Liability, or both, as appropriate, in all subcontracts. However, they require the contractor to obtain the contracting officer's written approval before including the clause at 52.246-24, Limitation of Liability—High-Value Items. The contracting officer shall approve the use of this clause in a subcontract only if the clause would have been used had the subcontract been a prime contract with the Government.

PART 47—TRANSPORTATION

Sec.
47.000 Scope of subpart.
47.001 Definitions.
47.002 Applicability.

Subpart 47.1—General

47.101 Policies.
47.102 Transportation insurance.
47.103 Transportation Documentation and Audit Regulation (TDA).
Sec.
47.104 Government rate tenders under section 10721 of the Interstate Commerce Act.
47.104-1 Government freight.
47.104-2 Fixed-price contracts.
47.104-3 Cost-reimbursement contracts.
47.104-4 Contract clause.
47.104-5 Citation of Government rate tenders.
47.105 Transportation assistance.

Subpart 47.2—Contracts for Transportation or for Transportation-Related Services

47.200 Scope of subpart.
47.201 Definitions.
47.202 Presolicitation planning.
47.203 Transportation term contracts.
47.204 Single-movement contracts.
47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.
47.206 Preparation of solicitations and contracts.
47.207 Solicitation provisions, contract clauses, and special requirements.
47.207-1 Qualifications of offerors.
47.207-2 Duration of contract and time of performance.
47.207-3 Description of shipment, origin, and destination.
47.207-4 Determination of weights.
47.207-5 Contractor responsibilities.
47.207-6 Rates and charges.
47.207-7 Liability and insurance.
47.207-8 Government responsibilities.
47.207-9 Annotation and distribution of shipping and billing documents.

Subpart 47.3—Transportation in Supply Contracts

47.300 Scope of subpart.
47.301 General.
47.301-1 Responsibilities of contracting officers.
47.301-2 Participation of transportation officers.
47.301-3 Using the Defense Transportation System (DTS).
47.302 Place of delivery—f.o.b. point.
47.303 Standard delivery terms and contract clauses.
47.303-1 F.o.b. origin.
47.303-2 F.o.b. origin, contractor's facility.
47.303-3 F.o.b. origin, freight allowed.
47.303-4 F.o.b. origin, freight prepaid.
47.303-5 F.o.b. origin, with differentials.
47.303-6 F.o.b. destination.
47.303-7 F.o.b. destination, within consignee's premises.
47.303-8 F.a.s. vessel, port of shipment.
47.303-9 F.o.b. vessel, port of shipment.

Sec.
47.303-10 F.o.b. inland carrier, point of exportation.

SOURCE: 48 FR 42424, Sept. 19, 1983, unless otherwise noted.

47.000 Scope of subpart.

(a) This part prescribes policies and procedures for—

(1) Applying transportation and traffic management considerations in the acquisition of supplies; and

(2) Acquiring transportation or transportation-related services by contract methods other than bills of lading, transportation requests, transportation warrants, and similar transportation forms. Even though the FAR does not regulate the acquisition of transportation or transportation-related services when the bill of lading is the contract, this contract method is widely used and, therefore, relevant guidance on the use of the bill of lading, particularly the Government bill of lading (GBL), is provided in this part.

(b) The definitions in this part have been condensed from statutory definitions. In case of inconsistency between the language of this part and the statutory requirements, the statute shall prevail.

47.001 Definitions.

Carrier or *commercial carrier* means a common carrier or a contract carrier.

Common carrier, as used in this part, means a person holding itself out to the general public to provide transportation for compensation.

Contract carrier means a person providing transportation for compensation under continuing agreements with one person or a limited number of persons.

CONUS or *Continental United States* means the 48 contiguous states and the District of Columbia.

F.o.b. means free on board. This term is used in conjunction with a physical point to determine (a) the responsibility and basis for payment of freight charges and (b) unless otherwise agreed, the point at which title for goods passes to the buyer or consignee.

F.o.b. origin means free on board at origin; i.e., the seller or consignor places the goods on the conveyance by which they are to be transported. Unless the contract provides otherwise, cost of shipping and risk of loss are borne by the buyer or consignee.

F.o.b. destination means free on board at destination; i.e., the seller or consignor delivers the goods on seller's or consignor's conveyance at destination. Unless the contract provides otherwise, cost of shipping and risk of loss are borne by the seller or consignor.

Freight means supplies, goods, and transportable property.

Shipment, as used in this part, means freight transported or to be transported.

47.002 Applicability.

(a) All Government personnel concerned with the activities listed in subparagraphs (1) through (4) below shall follow the regulations in part 47 as applicable:

(1) Acquisition of supplies.

(2) Acquisition of transportation and transportation-related services.

(3) Transportation assistance and traffic management.

(4) The making and administration of contracts under which payments are made from Government funds for (i) the transportation of supplies, (ii) transportation-related services, or (iii) transportation of contractor personnel and their personal belongings.

(b) Subpart 42.14, Traffic and Transportation Management, shall be used for administering transportation contracts, transportation-related contracts, and those portions of supply and other contracts that involve transportation.

Subpart 47.1—General

47.101 Policies.

(a) The contracting officer shall obtain traffic management advice and assistance (see 47.105) in the consideration of transportation factors required for—

(1) Solicitations and awards;

(2) Contract administration, modification, and termination; and

(3) Transportation of property by the Government to and from contractors' plants.

(b) (1) The preferred method of transporting supplies for the Government is by commercial carriers. However, Government-owned, leased, or chartered vehicles, aircraft, and vessels may be used if (i) they are available and not fully utilized, (ii) their use will result in substantial economies, and (iii) their use is in accordance with all applicable statutes, agency policies and regulations.

(2) If the three circumstances listed in subparagraph (b)(1) above apply, Government vehicles may be used for purposes such as—

(i) Local transportation of supplies between Government installations;

(ii) Pickup and delivery services that commercial carriers do not perform in connection with line-haul transportation;

(iii) Transportation of supplies to meet emergencies; and

(iv) Accomplishment of program objectives that cannot be attained by using commercial carriers.

(c) Agencies shall not accord preferential treatment to any mode of transportation or to any particular carrier either in awarding or administering contracts for the acquisition of supplies or in awarding contracts for the acquisition of transportation. (See subparts 47.2 and 47.3 for situations in which the contracting officer is permitted to use specific modes of transportation.)

(d) Agencies shall place with small business concerns purchases and contracts for transportation and transportation-related services as prescribed in part 19.

(e) Agencies shall comply with the Fly America Act, the Cargo Preference Act, and related statutes as prescribed in subparts 47.4, Air Transportation by U.S.-Flag Carriers, and 47.5, Ocean Transportation by U.S.-Flag Vessels.

47.102 Transportation insurance.

(a) The Government generally (1) retains the risk of loss of and/or damage to its property that is not the legal liability of commercial carriers and (2) does not buy insurance coverage for its property in the possession of commercial carriers (40 U.S.C. 726). (See part 28, Bonds and Insurance.)

(b) Under special circumstances the Government may, if such action is considered necessary and in the Government's interest, (1) buy insurance coverage for Government property or (2) require the carrier to (i) assume full responsibility for loss of or damage to the Government property in its possession and (ii) buy insurance to cover the carrier's assumed responsibility. The cost of this insurance to the carrier shall be part of the transportation cost. (The Secretary of the Treasury prescribes regulations regarding shipments of valuables in 31 CFR parts 261 and 262.)

(c) (1) If special circumstances dictate the need for the Government to buy insurance coverage, the contracting officer shall ascertain that (i) there is no statutory prohibition and (ii) funds for insurance are available.

(2) The contracting officer shall document the need and authorization for insurance coverage in the contract file.

47.103 Transportation Documentation and Audit Regulation (TDA).

(a) The United States Government bill of lading (GBL) generally shall be used for the transportation of property of the United States for which the Government pays the transportation charges directly to commercial carriers.

(b) (1) Regulations and procedures governing the GBL, documentation, payment, and audit of transportation services acquired by the United States Government are prescribed in 41 CFR 101-41, Transportation Documentation and Audit. Included in this regulation, among others, is the limited authority for the use of commercia forms and procedures to acquir freight or express transportation fo small shipments of a recurring natur when transportation costs do no exceed $100.

(2) For DOD shipments, corresponding guidance is in Chapter 214 of the Military Traffic Management Regulation (MTMR).

(c) Subsection 42.1403-2 prescribe regulations and procedures for the occasional use of contractor-prepaid commercial bills of lading for the transportation of supplies weighing not more than 1,000 pounds that are acquired by the Government on f.o.b. origin terms.

47.104 Government rate tenders under section 10721 of the Interstate Commerce Act.

47.104-1 Government freight.

(a) Common carriers subject to the jurisdiction of the Interstate Commerce Commission may under the provisions of 49 U.S.C. 10721 offer to transport persons or property for the account of the United States without charge or at reduced rates.

(b) Section 10721 rates are published in Government rate tenders and apply to shipments moving for the account of the Government; i.e., on—

(1) Government bills of lading;

(2) Commercial bills of lading endorsed to show that such bills of lading are to be exchanged for, or converted to, Government bills of lading at destination after delivery to the consignees; or

(3) Commercial bills of lading endorsed to show that total transportation charges are assignable to, and will be reimbursed by, the Government (see the clause at 52.247-1, Commercial Bill of Lading Notations).

(c) Government agencies may negotiate with carriers for additional or revised section 10721 rates in appropriate situations. Only qualified transportation officers shall carry out these negotiations. (See 47.105 for transportation assistance.) The following are examples of situations in which negotiations for additional or revised section 10721 rates may be appropriate:

(1) Volume movements are expected.

(2) Shipments will be made on a recurring basis between designated places, and substantial savings in transportation costs appear possible even though a volume movement is not involved.

(3) Transit arrangements are feasible and advantageous to the Government.

47.104-2 Fixed-price contracts.

(a) *F.o.b. destination*. Section 10721 quotations do not apply to shipments under fixed-price f.o.b. destination contracts (delivered price).

(b) *F.o.b. origin*. Under fixed-price f.o.b. origin contracts, shipments normally shall be made on GBL's. However, if it is advantageous to the Government, the contracting officer may occasionally require the contractor to prepay the freight charges to a specific destination. In such cases, the contractor shall use a commercial bill of lading and be reimbursed for the direct and actual transportation cost as a separate item in the invoice. The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government in this type of arrangement obtains the benefit of section 10721 rates.

47.104-3 Cost-reimbursement contracts.

(a) The Interstate Commerce Commission has ruled that section 10721 rates may be applied to shipments other than those made by the Government if the total benefit accrues to the Government; i.e., the Government must pay the charges or directly and completely reimburse the party that initially bears the freight charges. Therefore, section 10721 rates may be used for shipments moving on commercial bills of lading in cost-reimbursement contracts under which the transportation costs are direct and allowable costs under the cost principles of part 31.

(b) Section 10721 rates may be applied to the movement of household goods and personal effects of contractor employees who are relocated for the convenience and at the direction of the Government and whose total transportation costs are reimbursed by the Government.

(c) The clause at 52.247-1, Commercial Bill of Lading Notations, will ensure that the Government receives the benefit of lower section 10721 rates in cost-reimbursement contracts as described in paragraphs (a) and (b) above.

(d) Contracting officers shall—

(1) Include in contracts a statement requiring the contractor to use carriers that offer acceptable service at reduced rates if available; and

(2) Ensure that contractors receive the name and location of the transportation officer designated to furnish support and guidance when using Government rate tenders under 47.104-5(b).

(e) Transportation officers shall—

(1) Advise and assist contracting officers and contractors; and

(2) Make available to contractors the names of carriers that provide service under section 10721 quotations, cite applicable rate tenders, and advise contractors of the statement that must be shown on the carrier's commercial bill of lading (see the clause at 52.247-1, Commercial Bill of Lading Notations).

47.104-4 Contract clause.

(a) The contracting officer, in order to ensure the application of section 10721 rates, shall insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts when the contracts will be—

(1) Cost-reimbursement contracts, including those that may involve the movement of household goods (see 47.104-3(b)); or

(2) Fixed-price f.o.b. origin contracts (other than small purchases under part 13) (see 47.104-2(b) and 47.104-3).

(b) The contracting officer may insert the clause at 52.247-1, Commercial Bill of Lading Notations, in solicitations and contracts awarded within the small purchase limitation at 13.000 when it is contemplated that the delivery terms will be f.o.b. origin.

[48 FR 42424, Sept. 19, 1983, as amended at 54 FR 48990, Nov. 28, 1989]

47.104-5 Citation of Government rate tenders.

When section 10721 rates apply, transportation officers or contractors, as appropriate, shall identify the applicable Government rate tender by endorsement on bills of lading, including—

(a) GBL's or commercial bills of lading to be converted to GBL's (see 41 CFR 101-41.303, Conversion of commercial bills of lading to GBL's); and

(b) Properly endorsed commercial bills of lading when transportation charges are reimbursable (see 47.104-2(b) and 47.104-3).

47.105 Transportation assistance.

(a) Civilian Government activities that do not have transportation officers, or otherwise need assistance on transportation matters, shall obtain assistance from (1) the GSA Regional Federal Supply Service Bureau that provides support to the activity or (2) the transportation element of the contract administration office designated in the contract.

(b) Military installations shall obtain transportation assistance from the transportation office of the contracting activity, unless another military activity has been designated as responsible for furnishing assistance, guidance, or data. Military transportation offices shall request needed additional aid from the appropriate area headquarters of the Military Traffic Management Command (MTMC).

[48 FR 42424, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

Subpart 47.2—Contracts for Transportation or for Transportation-Related Services

47.200 Scope of subpart.

(a) This subpart prescribes procedures for the acquisition by sealed bid or negotiated contracts of—

(1) Freight transportation (including local drayage) from rail, motor (including bus), domestic water (including inland, coastwise, and intercoastal) carriers, and from freight forwarders; and

(2) Transportation-related services including but not limited to stevedoring, storage, packing, marking, and ocean freight forwarding.

(b) Except as provided in paragraph (c) below, this subpart does not apply to—

(1) The acquisition of freight transportation from (i) domestic or international air carriers and (ii) international ocean carriers (see subparts 47.4 and 47.5);

(2) Freight transportation acquired by bills of lading;

(3) Freight transportation for which rates are negotiated under 49 U.S.C. 10721(b)(1); or

(4) Small purchases under part 13.

(c) With appropriate modifications, the procedures in this subpart may be applied to the acquisition of freight transportation from the carriers listed in paragraph (b)(1) above and passenger transportation from any carrier or mode.

(d) The procedures in this subpart are applicable to the transportation of household goods and personal effects of persons being relocated at Government expense except when acquired—

(1) Under the commuted rate schedules as required in the Federal Travel Regulation (41 CFR part 101-7);

(2) By U.S. Government bill of lading (GBL); or

(3) By DoD under the Personal Property Management Regulation (DoD 4500.34R).

(e) Additional guidance for DoD acquisition of freight and passenger transportation is in the Military Traffic Management Regulation.

[48 FR 42424, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

47.201 Definitions.

General freight, as used in this subpart, means supplies, goods, and transportable property not encompassed in the definitions of *household goods* or *office furniture.*

Household goods, as used in this subpart, means personal property that belongs to a person and that person's immediate family and includes, but is not limited to household furnishings, equipment and appliances, furniture, clothing, books, and similar property (see 41 CFR 101-7).

ffice furniture, as used in this sub-
t, means furniture, equipment, fix-
es, records, and other equipment
materials used in Government of-
s, hospitals, and similar establish-
nts.

02 Presolicitation planning.

ontracting officers shall inform ac-
ties that plan to acquire transpor-
on or transportation-related serv-
of the applicable lead-time re-
ements, that is—

) The Service Contract Act of 1965
A) requirement for submission of
ndard Form 98, Notice of Intention
Make a Service Contract and Re-
nse to Notice, to the Department
abor not less than the number of
s prescribed by the Department of
or before the issuance of an invita-
for bid, request for proposal, or
mencement of negotiations for
contract exceeding $2,500 that
be subject to the SCA (see sub-
t 22.10);

) The possible requirement to pro-
, during the solicitation period,
for prospective offerors or con-
tors to inspect origin and destina-
locations; or

) The possible requirement for in-
tion by agency personnel of pro-
tive contractor facilities and
pment.

3 Transportation term contracts.

) Transportation term contracts
indefinite delivery requirements
racts for transportation or for
sportation-related services. They
particularly useful for local
age and office relocations within a
ropolitan area.

) Transportation term contracts
contain descriptions of the serv-
to be performed; rates and
ges for these services; the geo-
hical area of coverage; the term of
contract; and minimum or maxi-
order limitations by dollar
unt, shipment size, or other crite-

If appropriate, the transporta-
term contract shall require the
ractor to provide the services cov-
to any Government agency that
s an order for these services
r the contract. If so—

(1) Agencies may place orders for transportation or for transportation-related services under existing term contracts without further consideration of competition, as these term contracts are awarded on a price-competitive basis; and

(2) Agency personnel shall ensure that the orders they place conform to the contract, including any minimum or maximum order limitations.

(d) Policies and procedures regarding the use of GSA term contracts for transportation or for transportation-related services by civilian executive agencies are prescribed in 41 CFR 101-40.109.

47.204 Single-movement contracts.

Single-movement contracts may be awarded for unique transportation services that are not otherwise available under carrier tariffs or covered by DOD or GSA contracts; e.g., special requirements at origin and/or destination.

47.205 Availability of term contracts and basic ordering agreements for transportation or for transportation-related services.

(a) All Government agencies may contract for transportation or for transportation-related services and execute basic ordering agreements (BOA's) (see subpart 16.7) unless agency regulations prescribe otherwise. However, it is generally more economical and efficient for most agencies to make use of term contracts and basic ordering agreements that have been executed by agencies that employ personnel experienced in contracting for transportation or for transportation-related services. The Department of Defense (DOD) and the General Services Administration (GSA) contract for transportation or for transportation-related services on behalf of other activities and agencies. For instance, GSA awards term contracts for services such as local drayage, office moves, and ocean-freight forwarding (see 47.105 for assistance).

(b) Agencies may obtain transportation or transportation-related services for which the cost does not exceed the small purchase limitation under the small purchase procedures in part 13, if term contracts or basic ordering agreements are not available.

47.206 Preparation of solicitations and contracts.

(a) Contracting officers shall prepare solicitations and contracts for transportation or for transportation-related services as prescribed elsewhere in the FAR for fixed-price service contracts to the extent that those requirements are applicable and not inconsistent with the requirements in subpart 47.2.

(b) In addition, the contracting officer shall include in solicitations and contracts for transportation or for transportation-related services provisions, clauses, and instructions as prescribed in section 47.207.

[48 FR 42424, Sept. 19, 1983. Redesignated at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

47.207 Solicitation provisions, contract clauses, and special requirements.

The contracting officer shall include provisions, clauses, and special requirements in solicitations and contracts for transportation or for transportation-related services as prescribed in 47.207-1 through 47.207-9.

47.207-1 Qualifications of offerors.

(a) *Operating authorities.* The contracting officer shall insert the clause at 52.247-2, Permits, Authorities, or Franchises, when regulated transportation is involved. The clause need not be used when a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirement for holding or obtaining State authority to operate within the State.

(b) *Performance capability for Federal office moving contracts.* (1) The contracting officer shall insert the clause at 52.247-3, Capability to Perform a Contract for the Relocation of a Federal Office, when a Federal office is relocated, to ensure that offerors are capable to perform interstate or intrastate moving contracts involving the relocation of Federal offices.

(2) If a Federal office move is intrastate and the contracting officer determines that it is in the Government's interest not to apply the requirements for holding or obtaining State authority to operate within the State, and to maintain a facility within the State or commercial zone, the contracting officer shall use the clause with its Alternate I.

(c) *Inspection of shipping and receiving facilities.* The contracting officer shall insert the provision at 52.247-4, Inspection of Shipping and Receiving Facilities, when it is desired for offerors to inspect the shipping, receiving, or other sites to ensure realistic bids.

(d) *Familiarization with conditions.* The contracting officer shall insert the clause at 52.247-5, Familiarization with Conditions, to ensure that offerors become familiar with conditions under which and where the services will be performed.

(e) *Financial statement.* The contracting officer shall insert the provision at 52.247-6, Financial Statement, to ensure that offerors are prepared to furnish financial statements.

47.207-2 Duration of contract and time of performance.

The contracting officer shall—

(a) Establish a specific expiration date (month, day, and year) for the contract or state the length of time that the contract will remain in effect; e.g., 6 months commencing from the date of award; and

(b) Include the following items as appropriate:

(1) A statement of the time period during which the service is required when the service is a one-time job; e.g., a routine office relocation.

(2) A time schedule for the performance of segments of a major job; e.g., an office relocation for which the work phases must be coordinated to meet other needs of the agency.

(3) Statements of performance times for particular services; e.g., pickup and delivery services. Specify—

(i) On which days of the week and during which hours of the day pickup and delivery services may be required;

(ii) The maximum time allowable to the contractor for accomplishing delivery under regular or priority service; and

(iii) How much advance notice the contractor will be given for regular pickup services and, if applicable, priority pickup services.

47.207-3 Description of shipment, origin, and destination.

(a) *Origin of shipments.* The contracting officer shall include in solicitations full details regarding the location from which the freight is to be shipped. For example, if a single location is shown, furnish the shipper's name, street address, city, State, and ZIP code. If several or indefinite locations are involved, as in the case of multiple shippers or drayage contracts, describe the area of origin including boundaries and ZIP codes.

(b) *Destination of shipments.* The contracting officer shall include full details regarding delivery points. For example, if a single delivery point is shown, furnish the consignee's name, street address, city, State, and ZIP code. If several or indefinite delivery points are involved, describe the delivery area, including boundaries and ZIP codes.

(c) *Description of the freight.* The contracting officer shall include in solicitations—

(1) An inventory if the freight consists of nonbulk items; and

(2) The freight classification description, which should be obtained from the transportation office. If a freight classification description is not available, use a clear nontechnical description. Include additional details necessary to ensure that the prospective offerors have complete information about the freight; e.g., size, weight, hazardous material, whether packed for export, or unusual value.

(d) *Exclusion of freight.* The contracting officer shall (1) clearly identify any freight or types of shipments that are subject to exclusion; e.g., bulk freight, hazardous commodities, or shipments under or over specified weights; and (2) insert a clause substantially the same as the clause at 52.247-7, Freight Excluded, when any commodities or types of shipments have been identified for exclusion.

(e) *Quantity.* (1) The contracting officer shall state the actual weight of the freight or a reasonably accurate estimate. The following are examples:

(i) If the contract covers transportation services required over an extended period of time, include a schedule of actual or estimated tonnage or number of items to be transported per week, month, or other time period.

(ii) If the contract covers a group movement of household goods, give an estimate of the aggregate weights and the basis for determining the aggregate weight.

(2) The contracting officer shall insert the clause at 52.247-8, Estimated Weights or Quantities Not Guaranteed, when weights or quantities are estimates.

47.207-4 Determination of weights.

The contracting officer shall specify in the contract the method of determining the weights of shipments as appropriate for the kind of freight involved and the type of service required.

(a) *Shipments of freight other than household goods and office furniture.*

(1) The contracting officer shall insert the clause at 52.247-9, Agreed Weight—General Freight, when the shipping activity determines the weight of shipments of freight other than household goods or office furniture.

(2) The contracting officer shall insert the clause at 52.247-10, Net Weight—General Freight, when the weight of shipments of freight other than household goods or office furniture is not known at the time of shipment and the contractor is responsible for determining the net weight of the shipments.

(b) *Shipments of household goods or office furniture.* The contracting officer shall insert the clause at 52.247-11, Net Weight—Household Goods or Office Furniture, when movements of Government employees' household goods or relocations of Government offices are involved.

47.207-5 Contractor responsibilities.

Contractor responsibilities vary with the kinds of freight to be shipped and services required. The contracting officer shall specify clearly those service requirements that are not considered normal transportation or transportation-related requirements.

(a) *Type of equipment.* If appropriate, the contracting officer shall specify the type and size of equipment to be furnished by the contractor. Otherwise, state that the contractor shall furnish clean and sound closed-type equipment of sufficient size to accommodate the shipment.

(b) *Supervision, labor, or materials.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-12, Supervision, Labor, or Materials, when the contractor is required to furnish supervision, labor, or materials.

(c) *Accessorial services—moving contracts.* The contracting officer shall insert a clause substantially the same as the clause at 52.247-13, Accessorial Services—Moving Contracts, in contracts for the transportation of household goods or office furniture.

(d) *Receipt of shipment.* The contracting officer shall insert the clause at 52.247-14, Contractor Responsibility for Receipt of Shipment.

(e) *Loading and unloading.* The contracting officer shall insert the clause at 52.247-15, Contractor Responsibility for Loading and Unloading, when the contractor is responsible for loading and unloading shipments.

(f) *Return of undelivered freight.* The contracting officer shall insert the clause at 52.247-16, Contractor Responsibility for Returning Undelivered Freight, when the contractor is responsible for returning undelivered freight.

47.207-6 Rates and charges.

(a) (1) The contracting officer shall include in the solicitation a statement that the charges in the contract shall not exceed the contractor's charges for the same service that is—

(i) Available to the general public; or

(ii) Otherwise tendered to the Government.

(2) The contracting officer shall insert the clause at 52.247-17, Charges.

(b) The contracting officer shall include in the solicitation a tabulation listing each required service and the basis for the rate (price); e.g., *unit of weight* or *per work-hour,* leaving sufficient space for offerors to insert the rates offered for each service.

(c) The following guidelines apply to the composition of a tabulation of transportation or of transportation-related services and their rate (price) bases:

(1) *Combination of pricing bases.* If various types of services with different bases for assessing charges are required under the same contract, show each service separately and the applicable basis for that service.

(2) *Hourly rate basis.* If charges are based on an hourly rate, state the method for charging for fractions of an hour; e.g., (i) a period of 30 minutes or less is charged at one-half the hourly rate and (ii) the hourly rate applies to any portion of an hour that exceeds 30 minutes.

(3) *Shipments of varying weights.* If charges are based on weight and shipments will vary in weight, request rates on a graduated weight basis. Include a table of graduated weights for offerors to insert rates.

(4) *Multiple origins and/or destinations.* Specify whether rates are requested for each origin and/or each destination or for specific groups of origins and/or destinations.

(5) *Multiple shipments from one origin.* If multiple shipments will be tendered at one time to the contractor for delivery to two or more consignees at the same destination, request the rate applicable to the aggregate weight. If such shipments are for delivery to various destinations along the route between origin and last destination, request the rate applicable to the aggregate weight and a stopoff charge for each intermediate destination.

(i) The contracting officer shall insert the clause at 52.247-18, Multiple Shipments, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees at the same destination.

(ii) The contracting officer shall insert the clause at 52.247-19, Stopping in Transit for Partial Unloading, when multiple shipments are tendered at one time to the contractor for transportation from one origin to two or more consignees along the route between origin and last destination.

(6) *Estimated quantities or weights.* The contracting officer shall insert in solicitations the provision at 52.247-20, Estimated Quantities or Weights for Evaluation of Offers, when quantities or weights of shipments between each origin and destination are not known, stating estimated quantity or weight for each origin/destination pair.

(7) *Additional services.* If services in addition to those covered in the basic rate are anticipated; e.g., inside delivery, state the conditions under which payment will be made for those services.

47.207-7 Liability and insurance.

(a) The contracting officer shall specify—

(1) The contractor's liability for injury to persons or damage to property other than the freight being transported;

(2) The contractor's liability for loss of and/or damage to the freight being transported; and

(3) The amount of insurance the contractor is required to maintain.

(b) When the contractor's liability for loss of and/or damage to the freight being transported is not specified, the usual measure of liability as prescribed in section 11707 of the Interstate Commerce Act (49 U.S.C. 11707) applies.

(c) The contracting officer shall insert the clause at 52.247-21, Contractor Liability for Personal Injury and/or Property Damage.

(d) The contracting officer shall insert the clause at 52.247-22, Contractor Liability for Loss of and/or Damage to Freight other than Household Goods, in solicitations and contracts for the transportation of freight other than household goods.

(e) The contracting officer shall nsert the clause at 52.247-23, Contractor Liability for Loss of and/or amage to Household Goods, in solicitations and contracts for the transportation of household goods, including he rate per pound appropriate to the tuation.

(f) When freight is not shipped under rates subject to released or declared value, see 28.313(a) and the clause at 52.228-9, Cargo Insurance.

(g) When the contracting officer determines that vehicular liability and/or general public liability insurance required by law are not sufficient for a contract, see 28.313(b) and the clause at 52.228-10, Vehicular and General Public Liability Insurance.

47.207-8 Government responsibilities.

(a) The contracting officer shall state clearly the Government's responsibilities that have a direct bearing on the contractor's performance under the contract; e.g., the Government's responsibility to notify the contractor in advance when hazardous materials are included in a shipment.

(1) *Advance notification.* The contracting officer shall insert the clause at 52.247-24, Advance Nctification by the Government, when the Government is responsible for notifying the contractor of specific service times or unusual shipments.

(2) *Government equipment with or without operators* (i) The contracting officer shall insert the clause at 52.247-25, Government-Furnished Equipment with or without Operators, when the Government furnishes equipment with or without operators.

(ii) Insert the kind of equipment and the locations where the equipment will be furnished.

(3) *Direction and marking.* The contracting officer shall insert the clause at 52.247-26, Government Direction and Marking, when office relocations are involved.

(b) The contracting officer shall insert the clause at 52.247-27, Contract Not Affected by Oral Agreement.

47.207-9 Annotation and distribution of shipping and billing documents.

(a) The contracting officer shall state in detail the responsibilities of the contractor, the contracting agency, and, if appropriate, the consignee for the annotation and distribution of shipping and billing documents. See 41 CFR part 101-41, Transportation Documentation and Audit (TDA).

(b) In instances of mass movements of freight made available to the contractor at one time, it is particularly important that the contracting officer specifies that bills of lading be cross-referenced so that the Government benefits from applicable volume rates.

(c) The contracting officer shall insert the clause at 52.247-28, Contractor's Invoices, in drayage or other term contracts.

Subpart 47.3—Transportation in Supply Contracts

47.300 Scope of subpart.

(a) This subpart prescribes policies and procedures for the application of transportation and traffic management considerations in the acquisition of supplies. The terms and conditions contained in this subpart are applicable to fixed-price contracts.

(b) If a special requirement exists for application of any of these terms and conditions to other types of contracts; e.g., cost-reimbursement contracts, for which transportation arrangements are normally the responsibility of the contractor and transportation costs are allowable (see 31.205-45), the contracting officer shall use the terms and conditions prescribed in this subpart as a guide for (1) contract coverage of transportation and (2) instructions to the contractor to minimize the ultimate transportation costs to the Government.

47.301 General.

(a) Transportation and traffic management factors are important in awarding and administering contracts to ensure that (1) acquisitions are made on the basis most advantageous to the Government and (2) supplies arrive in good order and condition and on time at the required place. (See 47.104 for possible reduced transportation rates for Government shipments).

(b) The requiring activity shall—

(1) Consider all transportation factors including present and future requirements, positioning of supplies, and subsequent distribution to the extent known or ascertainable; and

(2) Provide the contracting office with information and instructions reflecting transportation factors applicable to the particular acquisition.

47.301-1 Responsibilities of contracting officers.

(a) Contracting officers shall obtain from traffic management offices transportation factors required for (1) solicitations and awards and (2) contract administration, modification, and termination, including the movement of property by the Government to and from contractors' plants.

(b) Contracting officers shall request transportation office participation especially before making an initial acquisition of supplies that are unusually large, heavy, high, wide, or long; have sensitive or dangerous characteristics; or lend themselves to containerized movements from the source. In determining total transportation charges, contracting officers shall also consider additional costs arising from factors such as the use of special equipment, excess blocking and bracing material, or circuitous routing.

47.301-2 Participation of transportation officers.

Agencies' transportation officers shall participate in the solicitation and evaluation of offers to ensure that all necessary transportation factors, such as transportation costs, transit arrangements, time in transit, and port capabilities, are considered and result in solicitations and contracts advantageous to the Government. Transportation officers shall provide traffic management assistance throughout the acquisition cycle (see 47.105 Transportation assistance).

[48 FR 42424, Sept. 19, 1983, as amended at 50 FR 1745, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

47.301-3 Using the Defense Transportation System (DTS).

(a) All military and civilian agencies shipping, or arranging for the acquisition and shipment by Government contractors, through the use of military-controlled transport or through military transshipment facilities shall follow Department of Defense (DOD) Regulation 4500.32-R, Military Standard Transportation and Movement

Procedures (MILSTAMP). MILSTAMP establishes uniform procedures and documents for the generation, documentation, communication, and use of transportation information, thus providing the capability for control of shipments moving in the DTS. MILSTAMP has been implemented on a world-wide basis.

(b) Contracting activities are responsible for (1) ensuring that the requirements of the MILSTAMP regulation are included in appropriate contracts for all applicable shipments and (2) enforcing these requirements with regard to shipments under their control. This includes requirements relating to documentation, marking, advance notification of shipment dates, and terminal clearances.

(c) Contractual documents shall designate a contract administration office (see 42.202(d)) as the contact point to which the contractor will provide necessary information to (1) effect MILSTAMP documentation and movement control, including air or water terminal shipment clearances, and (2) obtain data necessary for shipment marking and freight routing. Contractual documents shall specify that the contractor shall not ship directly to a military air or water port terminal without authorization from the designated contract administration office (see 47.305-6(f)).

[48 FR 42424, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986; 55 FR 38517, Sept. 18, 1990]

47.302 Place of delivery—f.o.b. point.

(a) The policies and procedures in 47.304-1, -2, and -3 govern the transportation of supplies from sources in the Continental United States (CONUS), except when identifiable costs, nature of the supplies (security, safety, or value), delivery requirements (premium modes of transport, escorts, transit arrangements, and tentative conditions), or other advantages, limitations, or requirements dictate otherwise. The policies and procedures in 47.304-4 govern the transportation of supplies from sources outside CONUS.

(b) Generally, the contracting officer shall solicit offers, and award contracts, with delivery terms on the basis prescribed in 47.304. The contracting officer shall document the contract file (see 4.801) with justifications for solicitations that do not specify delivery on the basis prescribed in 47.304.

(c) (1) The place of performance of Government acquisition quality assurance actions and the place of acceptance shall not control the delivery term, except that if acceptance is at destination, transportation shall be f.o.b. destination (see 47.304-1(f)).

(2) The fact that transportation is f.o.b. destination does not alone necessitate changing the place of acceptance from origin to destination; and the fact that acceptance is at origin does not necessitate an f.o.b. origin delivery term. Providing for inspection and acceptance at origin (if appropriate under 46.402), in conjunction with an f.o.b. destination term, may be advantageous to both the Government and the contractor. Acceptance of title at origin by the Government permits payment of the contractor, provided the invoice is supported either by a copy of the signed commercial bill of lading (indicating the carrier's receipt of the supplies covered by the invoice for transportation to the particular destination specified in the contract) or by other appropriate evidence of shipment to the particular destination for the contractor's account.

47.303 Standard delivery terms and contract clauses.

Standard delivery terms are listed in 47.303-1 through 47.303-16 (but see 47.300 regarding applicability to cost reimbursement contracts).

[53 FR 34228, Sept. 2, 1988]

47.303-1 F.o.b. origin.

(a) *Explanation of delivery term. F.o.b. origin* means free of expense to the Government delivered—

(1) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipment will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(2) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(3) To a U.S. Postal Service facility; or

(4) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR part 1048).

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Order specified carrier equipment when requested by the Government; or

(ii) If not specified, order appropriate carrier equipment not in excess of capacity to accommodate shipment;

(3) Deliver the shipment in good order and condition to the carrier, and load, stow, trim, block, and/or brace carload or truckload shipment (when loaded by the contractor) on or in the carrier's conveyance as required by carrier rules and regulations;

(4) Be responsible for any loss of and/or damage to the goods—

(i) Occurring before delivery to the carrier;

(ii) Resulting from improper packing and marking; or

(iii) Resulting from improper loading, stowing, trimming, blocking, and/or bracing of the shipment, if loaded by the contractor on or in the carrier's conveyance;

(5) Complete the Government bill of lading supplied by the ordering agency or, when a Government bill of lading is not supplied, prepare a commercial bill of lading or other transportation receipt. The bill of lading shall show—

(i) A description of the shipment in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable;

(ii) The seals affixed to the conveyance with their serial numbers or other identification;

(iii) Lengths and capacities of cars or trucks ordered and furnished;

(iv) Other pertinent information required to effect prompt delivery to the consignee, including name, delivery address, postal address and ZIP code of consignee, routing, etc.;

(v) Special instructions or annotations requested by the ordering agency for commercial bills of lading; e.g., (A) *to be converted to a Government bill of lading,* or (B) *this shipment is the property of, and the freight charges paid to the carrier(s) will be reimbursed by, the Government*; and

(vi) The signature of the carrier's agent and the date the shipment is received by the carrier; and

(6) Distribute the copies of the bill of lading, or other transportation receipts, as directed by the ordering agency.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-29, F.o.b. Origin, when the delivery term is f.o.b. origin.

[48 FR 42424, Sept. 19, 1983, as amended at 53 FR 17859, May 18, 1988]

47.303-2 F.o.b. origin, contractor's facility.

(a) *Explanation of delivery term. F.o.b. origin, contractor's facility* means free of expense to the Government delivered on board the indicated type of conveyance of the carrier (or of the Government if specified) at the designated facility, on the named street or highway, in the city, county, and State from which the shipment will be made.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-30, F.o.b. Origin, Contractor's Facility, when the delivery term is f.o.b. origin, contractor's facility.

47.303-3 F.o.b. origin, freight allowed.

(a) *Explanation of delivery term. F.o.b. origin, freight allowed* means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR part 1048); and

(2) An allowance for freight, based on applicable published tariff rates (or Government rate tenders) between the points specified in the contract, is deducted from the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-31, F.o.b. Origin, Freight Allowed, when the delivery term is f.o.b. origin, freight allowed.

[48 FR 42424, Sept. 19, 1983, as amended at 53 FR 17859, May 18, 1988]

47.303-4 F.o.b. origin, freight prepaid.

(a) *Explanation of delivery term. F.o.b. origin, freight prepaid* means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR part 1048); and

(2) The cost of transportation, ultimately the Government's obligation, is prepaid by the contractor to the point specified in the contract.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b), except that the contractor shall prepare commercial bills of lading or other transportation receipts and shall prepay all freight charges to the extent specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-32, F.o.b. Origin, Freight Prepaid, when the delivery term is f.o.b. origin, freight prepaid.

[48 FR 42424, Sept. 19, 1983, as amended at 53 FR 17859, May 18, 1988]

47.303-5 F.o.b. origin, with differentials.

(a) *Explanation of delivery term. F.o.b. origin, with differentials* means—

(1) Free of expense to the Government delivered—

(i) On board the indicated type of conveyance of the carrier (or of the Government, if specified) at a designated point in the city, county, and State from which the shipments will be made and from which line-haul transportation service (as distinguished from switching, local drayage, or other terminal service) will begin;

(ii) To, and placed on, the carrier's wharf (at shipside, within reach of the ship's loading tackle, when the shipping point is within a port area having water transportation service) or the carrier's freight station;

(iii) To a U.S. Postal Service facility; or

(iv) If stated in the solicitation, to any Government-designated point located within the same city or commercial zone as the f.o.b. origin point specified in the contract (commercial zones are prescribed by the Interstate Commerce Commission at 49 CFR part 1048); and

(2) Differentials for mode of transportation, type of vehicle, or place of delivery as indicated in contractor's offer may be added to the contract price.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-1(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-33, F.o.b. Origin, with Differentials, when it is likely that offerors may include in f.o.b. origin offers a contingency to compensate for unfavorable routing conditions by the Government at the time of shipment.

[48 FR 42424, Sept. 19, 1983, as amended at 53 FR 17859, May 18, 1988]

47.303-6 F.o.b. destination.

(a) *Explanation of delivery term. F.o.b. destination* means—

(1) Free of expense to the Government delivered, on board the carrier's conveyance, at a specified delivery point where the consignee's facility (plant, warehouse, store, lot, or other location to which shipment can be made) is located; and

(2) Supplies shall be delivered to the destination consignee's wharf (if destination is a port city and supplies are for export), warehouse unloading platform, or receiving dock, at the expense of the contractor. The Government shall not be liable for any delivery, storage, demurrage, accessorial, or other charges involved before the actual delivery (or *constructive placement* as defined in carrier tariffs) of the supplies to the destination, unless such charges are caused by an act or order of the Government acting in its contractual capacity. If rail carrier is used, supplies shall be delivered to the specified unloading platform of the consignee. If motor carrier (includi *piggyback*) is used, supplies shall delivered to truck tailgate at the u loading platform of the consignee. the contractor uses rail carrier (freight forwarder for less than carlo shipments, the contractor shall ensu that the carrier will furnish tailgat delivery if transfer to truck is require to complete delivery to consignee.

(b) *Contractor responsibilities.* Th contractor shall—

(1) (i) Pack and mark the shipmen to comply with contract specification or

(ii) In the absence of specification prepare the shipment in conformanc with carrier requirements;

(2) Prepare and distribute commercial bills of lading;

(3) Deliver the shipment in goo order and condition to the point of delivery specified in the contract;

(4) Be responsible for any loss o and/or damage to the goods occurrin before receipt of the shipment by th consignee at the delivery point specified in the contract;

(5) Furnish a delivery schedule an designate the mode of delivering carrier; and

(6) Pay and bear all charges to th specified point of delivery.

(c) *Contract clause.* The contractin officer shall insert in solicitations an contracts the clause at 52.247-34 F.o.b. Destination, when the deliver term is f.o.b. destination.

47.303-7 F.o.b. destination, within consignee's premises.

(a) *Explanation of delivery term. F.o.b. destination, within consignee's premises* means free of expense to the Government delivered and laid down within the doors of the consignee's premises, including delivery to specific rooms within a building if so specified.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-6(b).

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-35, F.o.b. Destination, within Consignee's Premises, when the delivery term is f.o.b. destination, within consignee's premises.

47.303-8 F.a.s. vessel, port of shipment.

(a) *Explanation of delivery term. F.a.s. vessel, port of shipment* means free of expense to the Government delivered alongside the ocean vessel and within reach of its loading tackle at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment in good order and condition alongside the ocean vessel and within reach of its loading tackle, at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges, including transportation costs, wharfage, handling, and heavy lift charges, if necessary, up to this point;

(3) Provide a clean dock or ship's receipt;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-36, F.a.s. Vessel, Port of Shipment, when the delivery term is f.a.s. vessel, port of shipment.

47.303-9 F.o.b. vessel, port of shipment.

(a) *Explanation of delivery term. F.o.b. vessel, port shipment* means free of expense to the Government loaded, stowed, and trimmed on board the ocean vessel at the specified port of shipment.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment on board the ocean vessel in good order and condition on the date or within the period fixed; and

(ii) Pay and bear all charges incurred in placing the shipment actually on board;

(3) Provide a clean ship's receipt or on-board ocean bill of lading;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment on board the ocean vessel; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-37, F.o.b. Vessel, Port of Shipment, when the delivery term is f.o.b. vessel, port of shipment.

47.303-10 F.o.b. inland carrier, point of exportation.

(a) *Explanation of delivery term. F.o.b. inland carrier, point of exportation* means free of expense to the Government, on board the conveyance of the inland carrier, delivered to the specified point of exportation.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) Prepare and distribute commercial bills of lading;

(3) (i) Deliver the shipment in good order and condition in or on the conveyance of the carrier on the date or within the period specified; and

(ii) Pay and bear all applicable charges, including transportation costs, to the point of delivery specified in the contract;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for (i) exportation or (ii) importation at destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-38, F.o.b. Inland Carrier, Point of Exportation, when the delivery term is f.o.b. inland carrier, point of exportation.

47.303-11 F.o.b. inland point, country of importation.

(a) *Explanation of delivery term. F.o.b. inland point, country of importation* means free of expense to the Government, on board the indicated type of conveyance of the carrier, delivered to the specified inland point where the consignee's facility is located.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2) (i) Deliver, in or on the inland carrier's conveyance, the shipment in good order and condition to the specified inland point where the consignee's facility is located;

(ii) Pay and bear all applicable charges incurred up to the point of delivery, including transportation costs; export, import, or other fees or taxes; costs of landing; wharfage costs; customs duties and costs of certificates of origin; consular invoices; and other documents that may be required for importation; and

(3) Be responsible for any loss of and/or damage to the goods until their arrival on or in the carrier's conveyance at the specified inland point.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-39, F.o.b. Inland Point, Country of Importation, when the delivery term is f.o.b. inland point, country of importation.

47.303-12 Ex dock, pier, or warehouse, port of importation.

(a) *Explanation of delivery term. Ex dock, pier, or warehouse, port of importation* means free of expense to the Government delivered on the designated dock or pier or in the warehouse at the specified port of importation.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements to protect the goods;

(2) (i) Deliver shipment in good order and condition; and

(ii) Pay and bear all charges up to the point of delivery specified in the contract, including transportation costs; export, import, or other fees or taxes; costs of wharfage and landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(3) Be responsible for any loss of and/or damage to the goods occurring before delivery of the shipment to the point of delivery specified in the contract.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-40, Ex Dock, Pier, or Warehouse, Port of Importation, when the delivery term is ex dock, pier, or warehouse, port of importation.

47.303-13 C.& f. destination.

(a) *Explanation of delivery term. C.& f. destination* means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation paid by the contractor.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for ocean transportation in conformance with carrier requirements;

(2) (i) Deliver the shipment in good order and condition; and

(ii) Pay and bear all applicable charges to the point of destination specified in the contract, including transportation costs and export taxes or other fees or charges levied because of exportation;

(3) Obtain and dispatch promptly to the Government clean on-board ocean bills of lading to the specified point of destination;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery; and

(5) At the Government's request and expense, provide certificates of origin, consular invoices, or any other documents issued in the country of origin or of shipment, or both, that may be required for importation into the country of destination.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-41, C.&f. Destination, when the delivery term is c.& f. destination.

47.303-14 C.i.f. destination.

(a) *Explanation of delivery term. C.i.f destination* means free of expense to the Government delivered on board the ocean vessel to the specified point of destination, with the cost of transportation and marine insurance paid by the contractor.

(b) *Contractor responsibilities.* The contractor's responsibilities are the same as those listed in 47.303-13(b), except that, in addition, the contractor shall obtain and dispatch to the Government an insurance policy or certificate providing the amount and extent of marine insurance coverage specified in the contract or agreed upon by the Government contracting officer.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-42, C.i.f. Destination, when the delivery term is c.i.f. destination.

47.303-15 F.o.b. designated air carrier's terminal, point of exportation.

(a) *Explanation of delivery term. F.o.b. designated air carrier's terminal, point of exportation* means free of expense to the Government loaded aboard the aircraft, or delivered to the custody of the air carrier (if only the air carrier performs the loading), at the air carrier's terminal specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods and to ensure assessment of the lowest applicable transportation charge;

(2) (i) Deliver the shipment in good order and condition into the conveyance of the carrier, or to the custody of the carrier (if only the carrier performs the loading), at the point of delivery and on the date or within the period specified in the contract; and

(ii) Pay and bear all applicable charges up to this point;

(3) Provide a clean Government bill of lading and/or air waybill;

(4) Be responsible for any loss of and/or damage to the goods occurring before delivery of the goods to the point specified in the contract; and

(5) At the Government's request and expense, assist in obtaining the documents required for the purpose of exportation.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-43, F.o.b. Designated Air Carrier's Terminal, Point of Exportation, when the delivery term is f.o.b. designated air carrier's terminal, point of exportation.

47.303-16 F.o.b. designated air carrier's terminal, point of importation.

(a) *Explanation of delivery term. F.o.b. designated air carrier's terminal, point of importation* means free of expense to the Government delivered to the air carrier's terminal at the point of importation specified in the contract.

(b) *Contractor responsibilities.* The contractor shall—

(1) (i) Pack and mark the shipment to comply with contract specifications; or

(ii) In the absence of specifications, prepare the shipment for air transportation in conformance with carrier requirements to protect the goods;

(2) Prepare and distribute bills of lading or air waybills;

(3) (i) Deliver the shipment in good order and condition to the point of delivery specified in the contract; and

(ii) Pay and bear all charges incurred up to the point of delivery specified in the contract, including transportation costs; export, import, or other fees or taxes; cost of landing, if any; customs duties; and costs of certificates of origin, consular invoices, or other documents that may be required for exportation or importation; and

(4) Be responsible for any loss of and/or damage to the goods until delivery of the goods to the Government at the designated air carrier's terminal.

(c) *Contract clause.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-44, F.o.b. Designated Air Carrier's Terminal, Point of Importation, when the delivery term is f.o.b. designated air carrier's terminal, point of importation.

47.304 Determination of delivery terms.

47.304-1 General.

(a) The contracting officer shall determine f.o.b. terms generally on the basis of overall costs, giving due consideration to the criteria given in 47.304.

(b) Solicitations shall specify whether offerors must submit offers f.o.b. origin, f.o.b. destination, or both; or whether offerors may choose the basis on which they make an offer. The contracting officer shall consider the most advantageous delivery point, such as (1) f.o.b. origin, carrier's equipment, wharf, or specified freight station near contractor's plant; or (2) f.o.b. destination.

(c) In determining whether f.o.b. origin or f.o.b. destination is more advantageous to the Government, the contracting officer shall consider the availability of lower freight rates (Government rate tenders) to the Government for f.o.b. origin acquisitions. F.o.b. origin contracts also present other desirable traffic management features, in that they—

(1) Permit use of transit privileges (see 47.305-13);

(2) Permit diversions to new destinations without price adjustment for transportation (see 47.305-11);

(3) Facilitate use of special routings or types of equipment (e.g., circuitous routing or oversize shipments) (see 47.305-14);

(4) Facilitate, if necessary, use of premium cost transportation and permit Government-controlled transportation;

(5) Permit negotiations for reduced freight rates (see 47.104-1(b)); and

(6) Permit use of small shipment consolidation stations.

(d) When destinations are tentative or unknown, the solicitation shall be f.o.b. origin only (see 47.305-5).

(e) When the size or quantity of supplies with confidential or higher security classification requires commercial transportation services, the contracting officer shall generally specify f.o.b. origin acquisitions.

(f) When acceptance must be at destination, solicitation shall be on an f.o.b. destination only basis.

(g) Following are examples of situations when solicitations shall normally be on an f.o.b. destination only basis because it is advantageous to the Government (see 47.305-4):

(1) Bulk supplies, such as coal, that require other than Government-owned or operated handling, storage, and loading facilities, are destined for shipment outside the continental United States.

(2) Steel or other bulk construction products are destined for shipment outside the continental United States.

(3) Supplies consist of forest products such as lumber.

(4) Perishable or medical supplies are subject to in-transit deterioration.

(5) Evaluation of f.o.b. origin offers is anticipated to result in increased ad-

strative lead time or administra-
cost that would outweigh the po-
ial advantages of an f.o.b. origin
rmination.

4-2 Shipments within CONUS.

Solicitations shall provide that
s may be submitted on the basis
ther or both f.o.b origin and f.o.b.
nation and that they will be eval-
d on the basis of the lowest over-
ost to the Government.

When sufficient reasons exist not
llow this policy, the contract file
be documented to include the
ons.

**4-3 Shipments from CONUS for
verseas delivery.**

When Government acquisitions
lve shipments from CONUS to
seas destinations, delivery f.o.b.
n may afford not only the econo-
of lower freight rates available to
Government within the United
es, but also flexibility for selection
) the port of export and (2) the
n transportation providing the
st overall cost to the Government.

(1) Unless there are valid reasons
e contrary (see 47.304-5), acquisi-
of supplies originating within
US for ultimate delivery to desti-
ons outside CONUS shall be made
e basis of f.o.b. origin. This policy
ies to supplies and equipment to
hipped either directly to a port
for export or to a storage or hold-
rea for subsequent forwarding to
rt area for export.

Justification for the solicitation
ffers on other than an f.o.b. origin
shall be recorded and the con-
file documented accordingly.

Export cargo involves consider-
s of operational and cost factors
the point of origin within
US to the overseas port destina-
The lowest cost of shipping can
etermined only by evaluating and
aring the various prospective
ed costs (including inland, termi-
and ocean costs). Also, agencies
have export licensing privileges
hipments to foreign destinations.
contracting officer shall obtain
e from the transportation officer
sure full use of these privileges.

47.304-4 Shipments originating outside CONUS.

(a) Unless there are valid reasons to the contrary (see 47.304-5), acquisition of supplies originating outside CONUS for ultimate delivery to destinations within CONUS or elsewhere, regardless of the quantity of the shipments, shall be on the basis of f.o.b. origin or f.o.b. destination, whichever is more advantageous to the Government.

(b) The contracting officer shall request the advice of the transportation officer to determine the most appropriate place of delivery to be specified in acquisition documents, giving full consideration to the possible use of Government transportation facilities, reduced rates available, special licensing or custom requirements, and availability of U.S.-flag shipping services between the points involved (see subpart 47.5).

47.304-5 Exceptions.

(a) Unusual conditions or circumstances may require the use of terms other than f.o.b. origin or f.o.b. destination. Such conditions or circumstances include, but are not limited to—

(1) Transportation disabilities at origin or destination;

(2) Mode of transportation required;

(3) Availability of Government or commercial loading, unloading, or transshipment facilities;

(4) Characteristics of the supplies;

(5) Trade customs related to certain supplies;

(6) Origins or destinations in Alaska and Hawaii; and

(7) Program requirements.

(b) Contracting officers shall obtain assistance from transportation officers before issuing solicitations when unusual conditions or circumstances exist that relate to f.o.b. terms.

47.305 Solicitation provisions, contract clauses, and transportation factors.

(a) The contracting officer shall coordinate transportation factors with the transportation office during the planning, solicitation, and award phases of the acquisition process (see 47.105).

(b) To the extent feasible, activities shall schedule deliveries to effect savings in transportation costs, and concomitant reductions in energy consumption by carriers (see 47.305-7 and 47.305-8 for specific possibilities).

47.305-1 Solicitation requirements.

When the acquisition of supplies is on f.o.b. origin or f.o.b. destination delivery terms, the contracting officer shall include in solicitations a requirement that the offeror furnish the Government as much of the following data as is applicable to the particular acquisition:

(a) Modes of transportation and, if rail transportation is used, names of rail carriers serving the offeror's facility.

(b) The number of railroad cars, motor trucks, or other conveyances that can be loaded per day.

(c) Type of packaging; e.g., box, carton, crate, drum, bundle, skids, and when applicable, package number from the governing freight classification.

(d) Number of units packed in one container.

(e) Guaranteed maximum shipping weight; cubic measurement; and length, width, and height of each container.

(f) Minimum size of each shipment.

(g) Number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(h) Description of material in terms of the governing freight classification or tariff (or Government rate tender) under which lowest freight rates are applicable.

(i) Benefits available to the Government under transit arrangements made by the offeror.

(j) Other requirements as stated under specific section headings.

47.305-2 Solicitations f.o.b. origin and f.o.b. destination—lowest overall cost.

(a) Solicitations, when appropriate, shall specify that offers may be f.o.b. origin, f.o.b. destination, or both; and that they will be evaluated on the basis of the lowest overall cost to the Government.

(b) When offers are solicited on the basis of both f.o.b. origin and f.o.b. destination, the contracting officer shall insert in solicitations the provision at 52.247-45, F.o.b. Origin and/or F.o.b. Destination Evaluation.

47.305-3 F.o.b. origin solicitations.

When preparing f.o.b. origin solicitations, the contracting officer shall refer to 47.303, where f.o.b. origin clauses relating to standard delivery terms are prescribed, and to 42.1404-2, where the use of bills of lading, parcel post, and indicia mail is prescribed. Supply solicitations that will or may result in f.o.b. origin contracts shall also contain requirements, information, provisions, and clauses concerning the following items:

(a) Delivery in carload or truckload lots f.o.b. carrier's equipment, wharf, or freight station.

(b) The requirement that the offeror furnish the following information with the offer:

(1) Location of the offeror's actual shipping point(s) (street address, city, State, and ZIP code) from which supplies will be delivered to the Government.

(2) Whether the offeror's shipping point has a private railroad siding, and the name of the rail carrier serving it.

(3) When the offeror's shipping point does not have a private siding, the names and addresses of the nearest public rail siding and of the carrier serving it. (This will enable transportation officers, when issuing routing instructions, to select the mode of transportation that will provide the required service at the lowest possible overall cost.)

(4) (i) The quantity of supplies to be shipped from each shipping point.

(ii) The contracting officer shall insert in f.o.b. origin solicitations the provision at 52.247-46, Shipping Point(s) Used in Evaluation of F.o.b. Origin Offers, when price evaluation for shipments from various shipping points is contemplated.

(c) When delivery is *f.o.b. origin, contractor's facility,* and the designated facility is not covered by the line-haul transportation rate, the charges required to deliver the shipment to the point where the line-haul rate is applicable.

(d) When delivery is *f.o.b. origin, freight allowed*, the basis on which transportation charges will be allowed, including the origin and destination from and to which transportation charges will be allowed.

(e) If f.o.b. origin offers only are desired, a statement that offers submitted on any other basis will be rejected as nonresponsive.

(f) (1) The methods of transportation used in evaluating offers. The Government normally uses land transportation by regulated common carriers between points in the 48 contiguous United States and the District of Columbia.

(2) The contracting officer shall insert the provision at 52.247-47, Evaluation—F.o.b. Origin, in solicitations that require prices f.o.b. origin for the purpose of establishing the basis on which offers will be evaluated.

(g) (1) When it is believed that prospective contractors are likely to include in f.o.b. origin offers a contingency to compensate for what may be an unfavorable routing condition by the Government at the time of shipment, the contracting officer may permit prospective contractors to state in offers a reimbursable differential that represents the cost of bringing the supplies to any f.o.b. origin place of delivery specified by the Government at the time of shipment (see the clause at 52.247-33, F.o.b. Origin, with Differentials).

(2) Following are situations that might impose on the contractor a substantial cost above *at plant* or *commercial shipping point* prices because of Government-required routings:

(i) The loading nature of the supplies; e.g., wheeled vehicles.

(ii) The different methods of shipment specified by the Government; e.g., towaway, driveaway, tri-level vehicle, or rail car, that may increase the contractor's cost in varying amounts for bringing the supplies to, or loading and bracing the supplies at, the specified place of delivery.

(iii) The contractor's f.o.b. origin shipping point is a port city served by United States inland, coastwise, or intercoastal water transportation, and the contractor would incur additional costs to make delivery f.o.b. a wharf in that city to accommodate water routing specified by the Government.

(iv) The contractor's plant does not have a private rail siding and in order to ship by Government-specified rail routing, the contractor would be required to deliver the supplies to a public siding or freight terminal and to load, brace, and install dunnage in rail cars.

[48 FR 42424, Sept. 19, 1986, as amended at 51 FR 31426, Sept. 3, 1986]

47.305-4 F.o.b. destination solicitations.

(a) When preparing f.o.b destination solicitations, the contracting officer shall refer to 47.303 for the prescription of f.o.b. destination clauses relating to standard delivery terms.

(b) If f.o.b. destination only offers are desired, the solicitation shall state that offers submitted on a basis other than f.o.b. destination will be rejected as nonresponsive.

(c) When supplies will or may be purchased f.o.b. destination but inspection and acceptance will be at origin, the contracting officer shall insert in solicitations and contracts the clause at 52.247-48, F.o.b. Destination—Evidence of Shipment.

47.305-5 Destination unknown.

(a) (1) When destinations are unknown, solicitations shall be f.o.b. origin only.

(2) The contracting officer shall include in the contract file justifications for such solicitations.

(b) (1) When the exact destination of the supplies to be acquired is not known, but the general location of the users can be reasonably established, the acquiring activity shall designate tentative destinations for the purpose of computing transportation costs, showing estimated quantities for each tentative destination.

(2) The contracting officer shall insert in solicitations the provision at 52.247-49, Destination Unknown, when destinations are tentative and only for the purpose of evaluating offers.

(3) If it is necessary to control subsequent shipping weights, the solicitation shall state that subsequent ship-

ments shall be made in carloads or truckloads (see the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments).

(c) (1) When exact destinations are not known and it is impracticable to establish tentative or general delivery places for the purpose of evaluating transportation costs, the contracting officer shall insert in solicitations the provision at 52.247-50, No Evaluation of Transportation Costs.

(2) The solicitation shall also state that the transportation costs of subsequent shipments must be controlled (see, for example, the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments).

47.305-6 Shipments to ports and air terminals.

(a) When supplies are acquired on the basis of the delivery terms in 47.303-8 through 47.303-16, the solicitation shall include a requirement that the offeror furnish the Government the following information:

(1) When the delivery term is *f.a.s. vessel, port of shipment, f.o.b. vessel, port of shipment,* or *f.o.b. inland carrier, point of exportation,* the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment;

(iii) The quantity that can be made available for loading to vessel per running day of 24 hours (if acquisition involves a commodity to be shipped in bulk);

(iv) The minimum leadtime required to make supplies available for loading to vessel; and

(v) The port and pier or other designation and, when applicable, the maximum draft of vessel (in feet) that can be accommodated.

(2) When the delivery term is *f.o.b. inland point, country of importation* or *f.o.b. designated air carrier's terminal, point of importation,* the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) Other data appropriate to shipment by air carrier.

(3) When the delivery term is *ex dock, pier, or warehouse, port of importation* or *c.& f. destination,* the required data shall include—

(i) A delivery schedule in number of units and/or long or short tons;

(ii) Maximum quantities available per shipment; and

(iii) The number of containers or units that can be loaded in a car, truck, or other conveyance of the size normally used (specify type and size) for the commodity.

(4) When the delivery term is *c.i.f. destination,* the required data shall include—

(i) The same as specified in 47.305-6(a)(3); and

(ii) The amount and type of marine insurance coverage; e.g., whether the coverage is *With Average* or *Free of Particular Average* and whether it covers any special risks or excludes any of the usual risks associated with the specific commodity involved.

(5) When the delivery term is *f.o.b. designated air carrier's terminal, point of exportation,* the required data shall include—

(i) A delivery schedule in number of units, type of package, and individual weight and dimensions of each package;

(ii) Minimum leadtime required to make supplies available for loading into aircraft;

(iii) Name of airport and location to which shipment will be delivered; and

(iv) Other data appropriate to shipment by air carrier.

(b) When supplies are acquired for known destinations outside CONUS and originate within CONUS, the contracting officer shall, for transportation evaluation purposes, note in the solicitation the CONUS port of loading or point of exit (aerial or water) and the water port of debarkation that serves the overseas destination.

(c) The contracting officer may also, for evaluation purposes, list in the solicitation other CONUS ports that meet the eligibility criteria compatible with the nature and quantity of the supplies, their destination, type of carrier required, and specified overseas delivery dates. This permits offerors that are geographically remote from the port that normally serves the overseas destination to be competitive as far as transportation costs are concerned.

(d) Unless logistics requirements limit the ports of loading to the ports listed in the solicitation, the solicitation shall state that—

(1) Offerors may nominate additional ports (including ports in Alaska and Hawaii) more favorably located to their shipping points; and

(2) These ports will be considered in the evaluation of offers if they possess all requisite capabilities of the listed ports in relation to the supplies being acquired.

(e) When supplies are to be exported through CONUS ports and offers are solicited on an f.o.b. origin or f.o.b. destination basis, the contracting officer shall insert in solicitations the provision at 52.247-51, Evaluation of Export Offers. The contracting officer shall use the provision with its—

(1) Alternate I, when the CONUS ports of export are DOD water terminals;

(2) Alternate II, when offers are solicited on an f.o.b. origin only basis; or

(3) Alternate III, when offers are solicited on an f.o.b. destination only basis.

(f) (1) When the supplies are to move in the Defense Transportation System (DTS) (see 47.301-3), the contract shall specify that—

(i) A Transportation Control Movement Document (TCMD) must be dispatched to the appropriate DOD air or water clearance authority in accordance with MILSTAMP procedures for all shipments consigned to DOD air or water terminal transshipment points; and

(ii) An Export Release must be obtained for supplies to be transshipped via a water port of loading to overseas destinations, except for shipments for which an Export Release is not required, generally shipments of less than 10,000 pounds, (see paragraph 202024 of the Military Traffic Management Regulation (MTMR) (AR 55-355, NAVSUP 4600.70, MCO 4600.14A, AFM 75-2, DLAR 4500.3).

(2) When shipments will be consigned to DOD air or water terminal transshipment points, the contracting officer shall insert in solicitations and contracts the clause at 52.247-52, Clearance and Documentation Requirements—Shipments to DOD Air or Water Terminal Transshipment Points.

(g) When a contract will not generate any shipments that require an Export Release, only the DOD CONUS ports that serve the overseas destination shall be listed in the solicitation (see MILSTAMP at 47.301-3), except that the responsible contracting officer may limit the water ports listed when such limitation is considered necessary to meet delivery or other requirements.

(h) The award shall specify the United States ports of loading that afford the lowest overall cost to the overseas destination.

(i) When supplies will be from origins outside CONUS to destinations either within or outside CONUS, the contracting officer shall use the appropriate f.o.b. term and include evaluation-of-offers information.

(j) In furtherance of the Cargo Preference Act of 1954 (46 U.S.C. 1241(b)), to encourage and foster the American Merchant Marine, the port of delivery of supplies originating outside the United States and shipped by ocean vessel shall be based on the availability of United States-flag vessels between the ports involved, unless the acquiring activity has given other specific instructions. (See subpart 47.5—Ocean Transportation by U.S.-Flag Vessels.)

(k) For application of the Fly America Act to the transportation of supplies and personnel when the Government is responsible for the transportation costs, see subpart 47.4—Air Transportation by U.S.-Flag Carriers.

(l) Military and civilian agencies shall obtain assistance from transportation offices in connection with all export shipments (see 47.105).

47.305-7 Quantity analysis, direct delivery, and reduction of crosshauling and backhauling.

(a) *Quantity analysis.* (1) The requiring activity shall consider the acquisition of carload or truckload quantities.

(2) When additional quantities of the supplies being acquired can be transported at lower unit transportation costs or with a relatively small increase in total transportation costs, with no impairment to the program schedule, the contracting officer shall ascertain from the requiring activity whether there is a known requirement for additional quantities. This may be the case, for example, when the additional quantity could profitably be stored by the activity for future use, or could be distributed advantageously to several using activities on the same transportation route or in the same geographical area.

(b) *Direct delivery*. When it is the usual practice of a requiring activity to acquire supplies in large quantities for shipment to a central point and subsequent distribution to using activities, as needed, consideration shall be given, if sufficient quantities are involved to warrant scheduling direct delivery, to the feasibility of providing for direct delivery from the contractor to the using activity, thereby reducing the cost of transportation and handling.

(c) *Crosshauling and backhauling*. The contracting officer shall select distribution and transshipment facilities intermediate to origins and ultimate destinations to reduce crosshauling and backhauling; i.e., the transportation of personal property of the same kind in opposite directions or the return of the property to or through areas previously traversed in shipment.

47.305-8 Consolidation of small shipments and the use of stopoff privileges.

(a) *Consolidation of small shipments*. Consolidation of small shipments into larger lots frequently results in lower transportation costs. Therefore, the contracting officer, after consultation with the transportation office and the activity requiring the supplies, may revise the delivery schedules to provide for deliveries in larger quantities.

(b) *Stopping for partial unloading*. When feasible, schedules for delivery of supplies to multiple destinations shall be consolidated and the stopoff privileges permitted under carrier tariffs shall be used for partial unloading at one or more points directly en route between the point of origin and the last destination.

47.305-9 Commodity description and freight classification.

(a) Generally, the freight rate for supplies is based on the rating applicable to the freight classification description published in tariffs filed with Federal and State regulatory bodies. Therefore, the contracting officer shall show in the solicitation a complete description of the commodity to be acquired and of packing requirements to determine proper transportation charges for the evaluation of offers. If supplies cannot be properly classified through reference to freight classification tariffs or if doubt exists, the contracting officer shall obtain the applicable freight classification from the transportation office. In some situations prospective contractors have established an official freight classification description that can be applied.

(b) (1) When the supplies being acquired are new to the supply system, nonstandard, or modifications of previously shipped items, and different freight classifications may apply, the contracting officer shall insert in solicitations the provision at 52.247-53, Freight Classification Description.

(2) The contracting officer shall alert the transportation officer to the possibility of negotiations for appropriate freight classification ratings and reasonable transportation rates.

(c) The solicitation shall contain adequate descriptions of explosives and other dangerous supplies according to (1) the regular freight classification and (2) the hazardous material description and hazard class as shown in 49 CFR 172.101.

(d) The contracting officer shall furnish the freight classification information developed in 47.305-9(a), (b), and (c) above to the contract administration office.

47.305-10 Packing, marking, and consignment instructions.

(a) Acquisition documents shall include packing and marking requirements necessary to prevent deterioration of supplies and damages due to the hazards of shipping, handling, and storage, and, when appropriate, marking in accordance with the requirements of 49 CFR 172.300.

(b) Contracts shall include complete consignment and marking instructions at the time the contract is awarded to ensure that supplies are delivered to proper destinations without delay. If complete consignment information is not initially known, the contracting officer shall issue amended delivery instructions under the Changes clause of the contract (see 43.205) as soon as the information becomes known.

(c) If necessary to meet required delivery schedules, the contracting officer may issue instructions by telephone, teletype, or telegram. The contracting officer shall confirm these instructions in writing.

(d) Marking and consignment instructions for military shipments shall conform to the current issue of MIL-STD-129 (Military Standard Marking for Shipment and Storage) and other applicable DOD regulations. Shipments for civilian agencies shall be marked as specified in Federal Standard 123, Marking for Domestic Shipment (Civil Agencies).

47.305-11 Options in shipment and delivery.

Although the clauses prescribed in subpart 43.2 allow certain changes to be made in regard to shipment and delivery, it may be desirable to provide specifically for certain options in the solicitation.

(a) The Government may reserve the right to—

(1) Direct deliveries of all or part of the contract quantity to destinations or to consignees other than those specified in the solicitation and in the contract;

(2) Direct shipments in quantities that may require transportation rates different from those on which the contract price is based; and

(3) Direct shipments by a mode of transportation other than that stipulated in the solicitation and in the contract.

(b)(1) When the transportation charges are for the account of the contractor, and changes in transportation requirements directed by the Government result in an increase or a decrease in transportation costs, an appropriate equitable adjustment shall be made.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-54, Diversion of Shipment under F.o.b. Destination Contracts, when transportation charges are for the account of the contractor and may need adjustments because of diversion of shipments.

47.305-12 Delivery of Government-furnished property.

(a)(1) When Government property is furnished to a contractor and transportation costs to the Government are a factor in the evaluation of offers, the contracting officer shall include in the solicitation a clear description of the property, its location, and other information necessary for the preparation of cost estimates.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-55, F.o.b. Point for Delivery of Government-Furnished Property, when Government property is to be furnished under a contract and the Government will be responsible for transportation arrangements and costs.

(b) The contracting officer shall describe explosive and dangerous material according to (1) the regular freight classification and (2) the hazardous material description and hazard class as shown in 49 CFR 172.101.

47.305-13 Transit arrangements.

(a) *Transit privileges.* (1) Transit arrangements permit the stopping of a carload or truckload shipment at a specific intermediate point en route to the final destination for storage, processing, or other purposes, as specified in carrier tariffs or rate tenders. A single through rate is charged from origin to final destination plus a transit or other related charge, rather than a more expensive combination of rates to and from the transit point.

(2) The contracting officer shall consider possible benefits available to the Government through the use of exist-

ing transit arrangements or through efforts to obtain additional transit privileges from the carriers. Solicitations incorporating transit arrangements shall be restricted to f.o.b. origin offers, as f.o.b. destination offers can only quote fixed overall delivered prices at first destination.

(3) (i) Traffic management personnel shall furnish information and analyses of situations in which transit arrangements may be beneficial. The quantity to be awarded must be of sufficient tonnage to ensure that carload/truckload shipments can be made by the contractor, and there should be reasonable certainty that shipments out of the transit point will be requested in carload/truckload quantities.

(ii) The contracting officer shall insert in solicitations the provision at 52.247-56, Transit Arrangements, when benefits may accrue to the Government because transit arrangements may apply.

(b) *Transit credits.* (1) In evaluations of f.o.b. origin offers for large quantities of supplies that contractors normally have in process or storage at intermediate points, contracting officers shall make use of contractors' earned commercial transit credits, which are recorded with the carriers. A transit credit represents the transportation costs for a recorded tonnage from the initial point to an intermediate point. The remaining transportation charges from the intermediate point to the Government destination, because they are based on through rates, are frequently lower than the transportation charges that would apply for the same tonnage if the intermediate point were the initial origin point.

(2) If transit credits apply, the contract shall state that the contractor shall ship the goods on prepaid commercial bills of lading, subject to reimbursement by the Government. The contracting officer shall ensure that this does not preclude a proper change in delivery terms under the Changes clause. The shipments move for the account and at the risk of the Government, as they become Government property at origin.

(3) The contractor shall show the transportation and transit charges as separate amounts on the invoice for
each individual shipment. The amo
to be reimbursed by the Governm
shall not exceed the amount quote
the offer. Regulations and procedu
regarding contractor prepaid trans
tation charges are prescribed
42.1403-2.

(4) The contracting officer s
insert in solicitations and contr
the clause at 52.247-57, Transpo
tion Transit Privilege Credits, w
supplies are of such a nature, or w
it is the custom of the trade, that
ferors may have potential transit c
its available and the Government
reduce transportation costs thro
the use of transit credits.

47.305-14 Mode of transportation.

Generally, solicitations shall
specify a particular mode of trans
tation or a particular carrier. If
use of particular types of carrier
necessary to meet program requ
ments, the solicitation shall pro
that only offers involving the speci
types of carriers will be conside
The contracting officer shall obtain
specifications for mode, route, de
ery, etc., from the transportat
office.

**47.305-15 Loading responsibilities of
tractors.**

(a) (1) Contractors are respons
for loading, blocking, and bracing
load shipments as specified in sta
ards published by the Association
American Railroads.

(2) The contracting officer s
insert in solicitations and contr
the clause at 52.247-58, Load
Blocking, and Bracing of Freight
Shipments, when supplies may
shipped in carload lots by rail.

(b) If the nature of the supplies
safety, environmental, or transp
ability factors require special meth
for securing the supplies on the ca
er's equipment, or if only a spe
mode of transportation or type veh
is appropriate, the contracting offi
shall include in solicitations deta
specifications that have been coo
nated with the transportation offic

47.305-16 Shipping characteristics.

(a) *Required shipping weights.* The contracting officer shall insert in solicitations and contracts the clause at 52.247-59, F.o.b. Origin—Carload and Truckload Shipments, when it is contemplated that they may result in f.o.b. origin contracts with shipments in carloads or truckloads. This will facilitate realistic freight cost evaluations of offers and ensure that contractors produce economical shipments of agreed size.

(b) *Guaranteed shipping characteristics.* (1) The contracting officer shall insert in soliciations and contracts, excluding those awarded under the small purchase procedures of Part 13, the clause at 52.247-60, Guaranteed Shipping Characteristics, when shipping and other characteristics are required to evaluate offers as to transportation costs. When all of the shipping characteristics listed in paragraph (a) of the clause at 52.247-60 are not required to evaluate offers as to transportation costs, the contracting officer shall delete the characteristics not required from the clause.

(2) The award document shall show the shipping characteristics used in the evaluation.

(c) *Minimum size of shipments.* When volume rates may apply, the contracting officer shall insert in solicitations and contracts the clause at 52.247-61, F.o.b. Origin—Minimum Size of Shipments.

(d) *Specific quantities unknown.*. (1) When total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined, solicitations shall state that offers are to be submitted on the basis of delivery *f.o.b. origin* and/or *f.o.b. destination* and that offers will be evaluated on both bases.

(2) The contracting officer shall insert in solicitations and contracts the clause at 52.247-62, Specific Quantities Unknown, when total requirements and destinations to which shipments will be made are known, but the specific quantity to be shipped to each destination cannot be predetermined. This clause protects the interests of both the Government and the contractor during the course of the performance of the contract.

[48 FR 42424, Sept. 19, 1983, as amended at 54 FR 48990, Nov. 28, 1989]

47.306 Transportation factors in the evaluation of offers.

When evaluating offers, contracting officers shall consider transportation and transportation-related costs as well as the offerors' shipping and receiving facilities.

47.306-1 Transportation cost determinations.

When requesting the transportation officer to assist in evaluating offers, the contracting officer shall give the transportation officer all pertinent data, including the following information:

(a) A complete description of the commodity being acquired including packaging instructions.

(b) Planned date of award.

(c) Date of initial shipment.

(d) Total quantity to be shipped (including weight and cubic content, when appropriate).

(e) Delivery schedule.

(f) Contract period.

(g) Possible use of transit privileges, including stopoffs for partial loading or unloading, or both.

47.306-2 Lowest overall transportation costs.

(a) For the evaluation of offers, the transportation officer shall give to the contracting officer, and the contracting officer shall use, the lowest available freight rates and related accessorial and incidental charges that (1) are in effect on, or become effective before, the expected date of the initial shipment and (2) are on file or published on the date of the bid opening.

(b) If rates or related charges become available after the bid opening or the due date of offers, they shall not be used in the evaluation unless they cover transportation for which no applicable rates or accessorial or incidental costs were in existence at the time of bid opening or due date of the offers.

47.306-3 Adequacy of loading and unloading facilities.

(a) When determining the transportation capabilities of an offeror, the contracting officer shall consider the type and adequacy of the offeror's shipping facilities, including the ability to consolidate and ship in carload or truckload lots.

(b) The contracting officer shall consider the type and adequacy of the consignee's receiving facilities to avoid shipping schedules that cannot be properly accommodated.

Subpart 47.4—Air Transportation by U.S.-Flag Carriers

47.401 Definitions.

Air freight forwarder means an indirect air carrier that is responsible for the transportation of property from the point of receipt to the point of destination, and utilizes for the whole or any part of such transportation the services of a direct air carrier or its agent, or of another air freight forwarder.

Gateway airport abroad means the airport from which the traveler last embarks en route to the United States or at which the traveler first debarks incident to travel from the United States.

Gateway airport in the United States means the last U.S. airport from which the traveler's flight departs or the first U.S. airport at which the traveler's flight arrives.

International air transportation means transportation by air between a place in the United States and a place outside the United States or between two places both of which are outside the United States.

United States, as used in this subpart, means the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and possessions of the United States.

U.S.-flag air carrier means an air carrier holding a certificate under section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371).

47.402 Policy.

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that Federal employees and their dependents, consultants, contractors, grantees, and others use U.S.-flag air carriers for U.S. Government-financed international air travel and transportation of their personal effects or property, to the extent service by these carriers is available.

47.403 Guidelines for implementation of the Fly America Act.

This section 47.403 is based on the Guidelines for Implementation of the Fly America Act (case number B-138942), issued by the Comptroller General of the United States on March 31, 1981.

47.403-1 Availability and unavailability of U.S.-flag air carrier service.

(a) If a U.S.-flag air carrier cannot provide the international air transportation needed or if the use of U.S.-flag air carrier service would not accomplish an agency's mission, foreign-flag air carrier service may be deemed necessary.

(b) U.S.-flag air carrier service is considered available even though—

(1) Comparable or a different kind of service can be provided at less cost by a foreign-flag air carrier;

(2) Foreign-flag air carrier service is preferred by, or is more convenient for, the agency or traveler; or

(3) Service by a foreign-flag air carrier can be paid for in excess foreign currency (unless U.S.-flag air carriers decline to accept excess or near excess foreign currencies for transportation payable only out of such monies).

(c) Except as provided in paragraph 47.403-1(a), U.S.-flag air carrier service shall be used for U.S. Government-financed commercial foreign air travel if service provided by U.S.-flag air carriers is available. In determining availability of a U.S.-flag air carrier, the following scheduling principles shall be followed unless their application would result in the last or first leg of travel to or from the United States being performed by a foreign-flag air carrier:

(1) U.S.-flag air carrier service available at point of origin shall be used to

destination or, in the absence of direct or through service, to the farthest interchange point on a usually traveled route.

(2) When an origin or interchange point is not served by a U.S.-flag air carrier, foreign-flag air carrier service shall be used only to the nearest interchange point on a usually traveled route to connect with U.S.-flag air carrier service.

(3) When a U.S.-flag air carrier involuntarily reroutes the traveler via a foreign-flag air carrier, the foreign-flag air carrier may be used notwithstanding the availability of alternative U.S.-flag air carrier service.

(d) For travel between a gateway airport in the United States and a gateway airport abroad, passenger service by U.S.-flag air carrier shall not be considered available if—

(1) The gateway airport abroad is the traveler's origin or destination airport and the use of U.S.-flag air carrier service would extend the time in a travel status, including delay at origin and accelerated arrival at destination, by at least 24 hours more than travel by a foreign-flag air carrier; or

(2) The gateway airport abroad is an interchange point and the use of U.S.-flag air carrier service would require the traveler to wait 6 hours or more to make connections at that point, or if delayed departure from, or accelerated arrival at, the gateway airport in the United States would extend time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier.

(e) For travel between two points outside the United States, the rules in paragraphs 47.403-1(a), (b), and (c) shall be applicable, but passenger service by a U.S.-flag air carrier shall not be considered to be reasonably available if—

(1) Travel by a foreign-flag air carrier would eliminate two or more aircraft changes en route;

(2) One of the two points abroad is the gateway airport en route to or from the United States and the use of a U.S.-flag air carrier would extend the time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier, including accelerated arrival at the overseas destination or delayed departure from the overseas origin, as well as delay at the gateway airport or other interchange point abroad; or

(3) The travel is not part of the trip to or from the United States and the use of a U.S.-flag air carrier would extend the time in a travel status by at least 6 hours more than travel by a foreign-flag air carrier including delay at origin, delay en route, and accelerated arrival at destination.

(f) For all short-distance travel under either paragraph (d) or paragraph (e) of 47.403-1, U.S. air carrier service shall not be considered available when the elapsed traveltime on a scheduled flight from origin to destination airport by foreign-flag air carrier is 3 hours or less and service by a U.S.-flag air carrier would involve twice such traveltime.

47.403-2 Air transport agreements between the United States and foreign governments.

Nothing in the guidelines of the Comptroller General (see 47.403) shall preclude, and no penalty shall attend, the use of a foreign-flag air carrier that provides transportation under an air transport agreement between the United States and a foreign government, the terms of which are consistent with the international aviation policy goals at 49 U.S.C. 1502(b) and provide reciprocal rights and benefits.

47.403-3 Disallowance of expenditures.

(a) Agencies shall disallow expenditures for U.S. Government-financed commercial international air transportation on foreign-flag air carriers unless there is attached to the appropriate voucher a certificate or memorandum adequately explaining why service by U.S.-flag air carriers was not available, or why it was necessary to use foreign-flag air carriers.

(b) When the travel is by indirect route or the traveler otherwise fails to use available U.S.-flag air carrier service, the amount to be disallowed against the traveler is based on the loss of revenues suffered by U.S.-flag air carriers as determined under the following formula, which is prescribed and more fully explained in 56 Comp. Gen. 209 (1977):

$$\frac{\text{Sum of U.S.-flag carrier segment mileage, authorized}}{\text{Sum of all segment mileage, authorized}} \times \text{Fare payable by Government}$$

MINUS

$$\frac{\text{Sum of U.S.-flag carrier segment mileage, traveled}}{\text{Sum of all segment mileage, traveled}} \times \text{Through fare payed}$$

(c) The justification requirement is satisfied by the contractor's use of the certification contained in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers. (See 47.405.)

47.404 Air freight forwarders.

(a) Agencies may use air freight forwarders that are engaged in international air transportation (49 U.S.C. 1301(24)(c)) for U.S. Government-financed movements of property. The rule on disallowance of expenditures in 47.403-3(a) applies also to the air carriers used by these international air freight forwarders.

(b) Agency personnel shall inform international air freight forwarders that to facilitate prompt payments of their bills, they shall submit with their bills (1) a copy of the airway bill or manifest showing the air carriers used and (2) justification certifications for the use of foreign-flag air carriers. A certification similar to the one shown in the clause at 52.247-63, Preference for U.S.-Flag Air Carriers, satisfies the justification requirement.

47.405 Contract clause.

The contracting officer shall insert the clause at 52.247-63, "Preference for U.S.-Flag Air Carriers, in solicitations and contracts whenever it is possible that U.S. Government-financed international air transportation of personnel (and their personal effects) or property will occur in the performance of the contract." This clause does not apply to small purchases made under part 13.

[48 FR 42424, Sept. 19, 1983, as amended at 53 FR 27468, July 20, 1988]

Subpart 47.5—Ocean Transportation by U.S.-Flag Vessels

47.500 Scope of subpart.

This subpart prescribes policy and procedures for giving preference to U.S.-flag vessels when transportation of supplies by ocean vessel is required. This subpart does not apply to the Department of Defense (DoD). Policy and procedures applicable to DoD appear in DFARS subpart 247.5.

[48 FR 42424, Sept. 19, 1983, as amended at 55 FR 3886, Feb. 5, 1990]

47.501 Definitions.

Dry bulk carrier means a vessel used primarily for the carriage of shipload lots of homogeneous unmarked nonliquid cargoes such as grain, coal, cement, and lumber.

Dry cargo liner means a vessel used for the carriage of heterogeneous marked cargoes in parcel lots. However, any cargo may be carried in these vessels, including part cargoes of dry bulk items or, when carried in deep tanks, bulk liquids such as petroleum and vegetable oils.

Foreign-flag vessel means any vessel of foreign registry including vessels owned by U.S. citizens but registered in a nation other than the United States.

Government vessel, as used in this subpart, means a vessel owned by the U.S. Government and operated directly by the Government or for the Government by an agent or contractor, including a privately owned U.S.-flag vessel under bareboat charter to the Government.

Privately owned U.S.-flag commercial vessel, as used in this subpart, means a vessel (a) registered and operated under the laws of the United States, (b) used in commercial trade of the United States, (c) owned and operated by U.S. citizens, including a vessel under voyage or time charter to the Government, and (d) a Government-owned vessel under bareboat charter to, and operated by, U.S. citizens.

Tanker means a vessel used primarily for the carriage of bulk liquid cargoes such as liquid petroleum products, vegetable oils, and molasses.

U.S.-flag vessel, as used in this subpart, when used independently means either a Government vessel or a privately owned U.S.-flag commercial vessel.

47.502 Policy.

(a) The policy of the United States regarding the use of U.S.-flag vessels is stated in the following acts:

(1) The Cargo Preference Act of 1904 (10 U.S.C. 2631), which requires the Department of Defense to use only U.S.-flag vessels for ocean transportation of supplies for the Army, Navy, Air Force, or Marine Corps unless those vessels are not available at fair and reasonable rates.

(2) The Merchant Marine Act of 1936 (46 U.S.C. 1101), which declares it is the policy of the United States to foster the development and encourage the maintenance of its merchant marine.

(3) The Cargo Preference Act of 1954 (46 U.S.C. 1241(b), which is Section 901(b) of the Merchant Marine Act). Under this Act, Government agencies acquiring, either within or outside the United States, supplies that may require ocean transportation shall ensure that at least 50 percent of the gross tonnage of these supplies (computed separately for dry bulk carriers, dry cargo liners, and tankers) is transported on privately owned U.S.-flag commercial vessels to the extent that such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels. This applies when the supplies are—

(i) Acquired for the account of the United States;

(ii) Furnished to, or for the account of, a foreign nation without provision for reimbursement;

(iii) Furnished for the account of a foreign nation in connection with which the United States advances funds or credits, or guarantees the convertibility of foreign currencies; or

(iv) Acquired with advance of funds, loans, or guaranties made by or on behalf of the United States.

(b) Additional policies providing preference for the use of U.S.-flag vessels are contained in—

(1) 10 U.S.C. 2634 for the transportation of privately-owned vehicles belonging to service members when making permanent change of station moves;

(2) 46 U.S.C. 1241(a) for official business travel by officers and employees of the United States and for the transportation of their personal effects; and

(3) 46 U.S.C. 1241(e) for the transportation of motor vehicles owned by Government personnel when transportation is at Government expense or otherwise authorized by law.

(c) The provisions of the Cargo Preference Act of 1954 may be temporarily waived when the Congress, the President, or the Secretary of Defense declares that an emergency justifying a temporary waiver exists and so notifies the appropriate agency or agencies.

47.503 Applicability.

(a) Except as stated in paragraph (b) below and in 47.504, the Cargo Preference Acts of 1904 and 1954 described in 47.502(a) apply to the following cargoes:

(1) Supplies owned by the Government and in the possession of—

(i) The Government;

(ii) A contractor; or

(iii) A subcontractor at any tier.

(2) Supplies for use of the Government that are contracted for and require subsequent delivery to a Government activity but are not owned by the Government at the time of shipment.

(3) Supplies not owned by the Government at the time of shipment that are to be transported for distribution to foreign assistance programs, but only if these supplies are not acquired or contracted for with local currency funds (see 47.504(b)).

(b) Government-owned supplies to be shipped commercially that are (1) in the possession of a department, a contractor, or a subcontractor at any tier and (2) for use of military departments shall be transported exclusively in privately owned U.S.-flag commercial vessels if such vessels are available at rates that are fair and reasonable for U.S.-flag commercial vessels.

(c) The 50-percent requirement shall not prevent the use of privately owned U.S.-flag commercial vessels for transportation of up to 100 percent of the cargo subject to the Cargo Preference Act of 1954.

47.504 Exceptions.

The policy and procedures in this subpart do not apply to the following:

(a) Shipments aboard vessels of the Panama Canal Commission or as required or authorized by law or treaty.

(b) Ocean transportation between foreign countries of supplies purchased with foreign currencies made available, or derived from funds that are made available, under the Foreign Assistance Act of 1961 (22 U.S.C. 2353).

(c) Shipments of classified supplies when the classification prohibits the use of non-Government vessels.

(d) Small purchases under part 13.

47.505 Construction contracts.

(a) Except as stated in paragraph (b) below, construction contractors, including subcontractors and suppliers, engaged in overseas work shall comply with the policies and regulations in this subpart.

(b) These requirements shall not apply to military assistance, foreign aid, or similar projects under the auspices of the U.S. Government when the recipient nation furnishes, or pays for, at least 50 percent of the transportation, in which event foreign-flag vessels may be used for a portion not to exceed 50 percent of the gross tonnage for the project.

47.506 Procedures.

(a) The contracting officer shall obtain assistance from the transportation activity (see 47.105) in developing appropriate shipping instructions and delivery terms for inclusion in solicitations and contracts that may involve ocean transportation of supplies subject to the requirements of the Cargo Preference Act of 1954 (see 47.502(a)(3)).

(b) When the contractor notifies the contracting officer that a privately owned U.S.-flag commercial vessel is not available, the contracting officer shall seek assistance from the transportation activity.

(c) For purposes of determining the availability of privately owned U.S.-flag commercial vessels at fair and reasonable rates, rates filed and published in accordance with the requirements of the Federal Maritime Commission may be accepted as fair and reasonable. When applicable rates for charter cargoes are not in published tariffs, a determination as to whether the rates are fair and reasonable shall be obtained from the Maritime Administration.

(d) The Maritime Administration has issued regulations (46 CFR 381) that require agencies to submit reports regarding ocean shipments. Contracting officers shall follow agency regulations when preparing, or furnishing information for, these reports.

47.507 Contract clauses.

(a) The contracting officer shall insert the clause at 52.247-64, Preference for Privately Owned U.S.-Flag Commercial Vessels, in solicitations and contracts that may involve ocean transportation of supplies subject to the Cargo Preference Act of 1954. (For application of the Cargo Preference Act of 1954, see 47.502(a)(3), 47.503(a), and 47.504.)

(b) If an applicable statute requires, or if it has been determined under agency procedures, that the supplies to be furnished under contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.502(a)(1) and 47.503(b)), use the basic clause with its Alternate I.

(c) If an applicable statute requires, or it has been determined under agency procedures, that supplies, materials, or equipment to be shipped under construction contracts shall be transported exclusively in privately owned U.S.-flag commercial vessels (see 47.505), use the basic clause with its Alternate II.

(d) The contracting officer may insert in solicitations and contracts, under agency procedures, additional appropriate clauses concerning the vessels to be used.

Subpart 48.2—Contract Clauses

.201 Clauses for supply or service contracts.
.202 Clause for construction contracts.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. hapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42443, Sept. 19, 1983, nless otherwise noted.

.000 Scope of part.

This part prescribes policies and proedures for using and administering alue engineering techniques in conacts.

.001 Definitions.

Acquisition savings, as used in this art, means savings resulting from the pplication of a value engineering hange proposal (VECP) to contracts warded by the same contracting ffice of its successor for essentially he same unit. Acquisition savings inlude—

(a) Instant contract savings, which re the net cost reductions on the conract under which the VECP is submited and accepted, and which are equal o the instant unit cost reduction mulplied by the number of instant conract units affected by the VECP, less he contractor's allowable developnent and implementation costs;

(b) Concurrent contract savings, hich are net reductions in the prices f other contracts that are definitized nd ongoing at the time the VECP is ccepted; and

(c) Future contract savings, which re the product of the future unit cost eduction multiplied by the number of ture contract units scheduled for devery during the sharing period (but e 48.102(g)). If the instant contract a multiyear contract, future contract savings include savings on quantities funded after VECP acceptance.

Collateral costs, as used in this part, means agency costs of operation, maintenance logistic support, or Government-furnished property.

Collateral savings, as used in this part, means those measurable net reductions resulting from a VECP in the agency's overall projected collateral costs, exclusive of acquisition savings, whether or not the acquisition cost changes.

Contracting office, as used in this part, includes any contracting office that the acquisition is transferred to, such as another branch of the agency or another agency's office that is performing a joint acquisition action.

Contractor's development and implementation costs, as used in this part, means those costs the contractor incurs on a VECP specifically in developing, testing, preparing, and submitting the VECP, as well as those costs the contractor incurs to make the contractual changes required by Government acceptance of a VECP.

Future unit cost reduction, as used in this part, means the instant unit cost reduction adjusted as the contracting officer considers necessary for projected learning or changes in quantity during the sharing period. It is calculated at the time the VECP is accepted and applies either (a) throughout the sharing period, unless the contracting officer decides that recalculation is necessary because conditions are significantly different from those previously anticipated or (b) to the calculation of a lump-sum payment, which cannot later be revised.

Government costs, as used in this part, means those agency costs that result directly from developing and implementing the VECP, such as any net increases in the cost of testing, operations, maintenance, and logistics support. The term does not include the normal administrative costs of processing the VECP or any increase in instant contract cost or price resulting from negative instant contract savings.

Instant contract, as used in this part, means the contract under which the VECP is submitted. It does not include increases in quantities after acceptance of the VECP that are due to contract modifications, exercise of options, or additional orders. If the contract is a multiyear contract, the term does not include quantities funded after VECP acceptance. In a fixed-price contract with prospective price redetermination, the term refers to the period for which firm prices have been established.

Instant unit cost reduction means the amount of the decrease in unit cost of performance (without deducting any contractor's development or implementation costs) resulting from using the VECP on the instant contract. In service contracts, the instant unit cost reduction is normally equal to the number of hours per line-item task saved by using the VECP on the instant contract, multiplied by the appropriate contract labor rate.

Negative instant contract savings means the increase in the instant contract cost or price when the acceptance of a VECP results in an excess of the contractor's allowable development and implementation costs over the product of the instant unit cost reduction multiplied by the number of instant contract units affected.

Net acquisition savings means total acquisition savings, including instant, concurrent, and future contract savings, less Government costs.

Sharing base, as used in this part, means the number of affected end items on contracts of the contracting office accepting the VECP.

Sharing period, as used in this part, means the period beginning with acceptance of the first unit incorporating the VECP and ending at the later of (a) 3 years after the first unit affected by the VECP is accepted or (b) the last scheduled delivery date of an item affected by the VECP under the instant contract delivery schedule in effect at the time the VECP is accepted (but see 48.102(g)).

Unit, as used in this part, means the item or task to which the contracting officer and the contractor agree the VECP applies.

Value engineering, as used in this part, means an organized effort to analyze the functions of systems, equipment, facilities, services, and supplies for the purpose of achieving the essential functions at the lowest life cycle cost consistent with required performance, reliability, quality, and safety.

Value engineering change proposal (*VECP*) means a proposal that—

(a) Requires a change to the instant contract to implement; and

(b) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; *provided,* that it does not involve a change—

(1) In deliverable end item quantities only;

(2) In research and development (R&D) items or R&D test quantities that are due solely to results of previous testing under the instant contract; or

(3) To the contract type only.

Value engineering proposal, as used in this part, means, in connection with an A-E contract, a change proposal developed by employees of the Federal Government or contractor value engineering personnel under contract to an agency to provide value engineering services for the contract or program.

[48 FR 42443, Sept. 19, 1983, as amended at 54 FR 5057, Jan. 31, 1989; 55 FR 3887, Feb. 5, 1990]

Subpart 48.1—Policies and Procedures

48.101 General.

(a) Value engineering is the formal technique by which contractors may (1) voluntarily suggest methods for performing more economically and share in any resulting savings or (2) be required to establish a program to identify and submit to the Government methods for performing more economically. Value engineering attempts to eliminate, without impairing essential functions or characteristics, anything that increases acquisition, operation, or support costs.

(b) There are two value engineering approaches:

(1) The first is an incentive approach in which contractor participation is voluntary and the contractor uses its own resources to develop and submit any value engineering change proposals (VECP's). The contract pro-

s for sharing of savings and for
ment of the contractor's allowable
elopment and implementation
s only if a VECP is accepted. This
ntary approach should not in
if increase costs to the Govern-
nt.

) The second approach is a manda-
program in which the Govern-
nt requires and pays for a specific
ie engineering program effort. The
tractor must perform value engi-
ring of the scope and level of effort
uired by the Government's pro-
m plan and included as a separate-
riced item of work in the contract
edule. No value engineering (VE)
ring is permitted in architect-engi-
r contracts. All other contracts
n a program clause share in savings
accepted VECP's, but at a lower
centage rate than under the volun-
approach. The objective of this
ie engineering program require-
nt is to ensure that the contractor's
ie engineering effort is applied to
s of the contract that offer oppor-
ities for considerable savings con-
ent with the functional require-
nts of the end item of the contract.

FR 42443, Sept. 19, 1983, as amended at
R 5057, Jan. 31, 1989]

02 Policies.

.) Agencies shall provide contrac-
a substantial financial incentive
develop and submit VECP's. Con-
cting activities will include value
ineering provisions in appropriate
ply, service, architect-engineer and
struction contracts as prescribed
48.201 and 48.202 except where ex-
ptions are granted on a case-by-case
is, or for specific classes of con-
cts, by the agency head.

) Agencies shall: (1) establish
delines for processing VECP's; (2)
cess VECP's objectively and expe-
ously; and (3) provide contractors a
share of the savings on accepted
CP's.

) Agencies shall consider requiring
rporation of value engineering
ses in appropriate subcontracts.

)(1) Agencies other than the De-
ment of Defense shall use the
e engineering program require-
t clause (52.248-1, Alternates I or
n initial production contracts for
major systems programs (see definition of major system in 34.001) and for contracts for major systems research and development except where the contracting officer determines and documents the file to reflect that such use is not appropriate

(2) In Department of Defense contracts, the VE program requirement clause (52.248-1, Alternates I or II), shall be placed in initial production solicitations and contracts (first and second production buys) for major system acquisition programs as defined in DoD Directive 5000.1, except as specified in subdivisions (d)(2)(i) and (ii) of this section. A program requirement clause may be included in initial production contracts for less than major systems acquisition programs if there is a potential for savings. The contracting officer is not required to include a program requirement clause in initial production contracts—

(i) Where, in the judgment of the contracting officer, the prime contractor has demonstrated an effective VE program during either earlier program phases, or during other recent comparable production contracts.

(ii) Which are awarded on the basis of competition.

(e) Value engineering incentive payments do not constitute profit or fee within the limitations imposed by 10 U.S.C. 2306(d) and 41 U.S.C. 254(b) (see 15.903(d)).

(f) Generally, profit or fee on the instant contact should not be adjusted downward as a result of acceptance of a VECP. Profit or fee shall be excluded when calculating instant or future contract savings.

(g) In the case of contracts for items requiring an extended period for production (e.g., ship construction, major system acquisition), agencies may prescribe sharing of future contract savings on all future contract units to be delivered under contracts awarded for essentially the same item during the sharing period, even if the scheduled delivery date is outside the sharing period. For engineering-development and low-rate-initial-production contracts, the future sharing shall be on scheduled deliveries equal in number to the quantity required over the highest 36 consecutive months of planned production, based on planning or production documentation at the time the VECP is accepted.

(h) In the case of contracts for architect-engineer services, the contract shall include a separately priced line item for mandatory value engineering of the scope and level of effort required in the statement of work. The objective is to ensure that value engineering effort is applied to specified areas of the contract that offer opportunities for significant savings to the Government. There shall be no sharing of value engineering savings in contracts for architect-engineer services.

(i) Agencies shall establish procedures for funding and payment of the contractor's share of collateral savings and future contract savings.

[48 FR 42443, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986; 54 FR 5057, Jan. 31, 1989; 55 FR 3887, Feb. 5, 1990]

48.103 Processing value engineering change proposals.

(a) Instructions to the contractor for preparing a VECP and submitting it to the Government are included in paragraphs (c) and (d) of the value engineering clauses prescribed in subpart 48.2. Upon receiving a VECP, the contracting officer or other designated official shall promptly process and objectively evaluate the VECP in accordance with agency precedures and shall document the contract file with the rationale for accepting or rejecting the VECP.

(b) The contracting officer is responsible for accepting or rejecting the VECP within 45 days from its receipt by the Government. If the Government will need more time to evaluate the VECP, the contracting officer shall notify the contractor promptly in writing giving the reasons and the anticipated decision date. The contractor may withdraw, in whole or in part, any VECP not accepted by the Government within the period specified in the VECP. Any VECP may be approved, in whole or in part, by a contract modification incorporating the VECP. Until the effective date of the contract modification, the contractor shall perform in accordance with the existing contract. If the Government accepts the VECP, but properly rejects units subsequently delivered or does not receive units on which a savings share was paid, the contractor shall reimburse the Government for the proportionate share of these payments. If the VECP is not accepted, the contracting officer shall provide the contractor with prompt written notification, explaining the reasons for rejection.

(c) The following Government decisions are not subject to the Disputes clause or otherwise subject to litigation under the Contract Disputes Act of 1978 (41 U.S.C. 601-613):

(1) The decision to accept or reject a VECP.

(2) The determination of collateral costs or collateral savings.

(3) The decision as to which of the sharing rates applies when Alternate II of the clause at 52.248-1, Value Engineering, is used.

[48 FR 42443, Sept. 19, 1983, as amended at 54 FR 5057, Jan. 31, 1989]

48.104 Sharing arrangements.

48.104-1 Sharing acquisition savings.

(a) *Supply or service contracts.* (1) The sharing base for acquisition savings is normally the number of affected end items on contracts of the contracting office accepting the VECP. The sharing rates (Government/contractor) for net acquisition savings for supplies and services are based on the type of contract, the value engineering clause or alternate used, and the type of savings, as follows:

GOVERNMENT/CONTRACTOR SHARES OF NET ACQUISITION SAVINGS

(figures in percent)

Contract Type	Sharing Arrangement			
	Incentive (voluntary)		Program requirement (mandatory)	
	Instant contract rate	Concurrent and future rate	Instant contract rate	Concurrent and future contract rate
Fixed-price (other than incentive)	50/50	50/50	75/25	75/25

GOVERNMENT/CONTRACTOR SHARES OF NET ACQUISITION SAVINGS—Continued

(figures in percent)

Contract Type	Sharing Arrangement			
	Incentive (voluntary)		Program requirement (mandatory)	
	Instant contract rate	Concurrent and future rate	Instant contract rate	Concurrent and future contract rate
ncentive (fixed-price or cost)	*	50/50	*	75/25
ost- reimbursement (other than incentive)**	75/25	75/25	85/15	85/15

*Same sharing arrangement as the contract's profit or fee djustment formula.

**Includes cost-plus-award-fee contracts.

(2) Acquisition savings may be real- zed on the instant contract, concur- ent contracts, and future contracts. The contractor is entitled to a percent- ge share (see subparagraph (1) above) f any net acquisition savings. Net ac- uisition savings result when the total f acquisition savings becomes greater han the total of Government costs nd any negative instant contract sav- ngs. This may occur on the instant ontract or it may not occur until re- luctions have been negotiated on con- urrent contracts or until future con- ract savings are calculated, either hrough lump-sum payment or as each uture contract is awarded.

(i) When the instant contract is not n incentive contract, the contractor's hare of new acquisition savings is cal- ulated and paid each time such sav- ngs are realized. This may occur once, several times, or, in rare cases, not at ll.

(ii) When the instant contract is an ncentive contract, the contractor shares in instant contract savings through the contract's incentive structure. In calculating acquisition savings under incentive contracts, the con- racting officer shall add any negative nstant contract savings to the target ost or to the target price and ceiling rice and then offset these negative nstant contract savings and any Gov- rnment costs against concurrent and uture contract savings.

(3) The contractor shares in the savings on all affected units scheduled for delivery during the sharing period (but see 48.102(g)). The contractor is responsible for maintaining, for 3 years after final payment on the contract under which the VECP was accepted, records adequate to identify the first delivered unit incorporating the applicable VECP.

(4) Contractor shares of savings are paid through the contract under which the VECP was accepted. On incentive contracts, the contractor's share of concurrent and future contract savings and of collateral savings shall be paid as a separate firm-fixed-price contract line item on the instant contract.

(5) Within 3 months after concurrent contracts have been modified to reflect price reductions attributable to use of the VECP, the contracting officer shall modify the instant contract to provide the contractor's share of savings.

(6) The contractor's share of future contract savings may be paid as subsequent contracts are awarded or in a lump-sum payment at the time the VECP is accepted. The lump-sum method may be used only if the contracting officer has established that this is the best way to proceed and the contractor agrees. The contracting officer ordinarily shall make calculations as future contracts are awarded and, within 3 months after their award, modify the instant contract to provide the contractor's share of savings. For future contract savings calculated under the optional lump-sum method, the sharing base is an estimate of the number of items that the contracting office will purchase for delivery during the sharing period. In deciding whether or not to use the more convenient lump-sum method for an individual VECP, the contracting officer shall consider—

(i) The accuracy with which the number of items to be delivered during the sharing period can be estimated and the probability of actual production of the projected quantity;

(ii) The availability of funds for a lump-sum payment; and

(iii) The administrative expense of amending the instant contract as future contracts are awarded.

(b) *Construction contracts.* Sharing on construction contracts applies only to savings on the instant contract and to collateral savings. The Government's share of savings is determined by subtracting Government costs from instant contract savings and multiplying the result by (1) 45 percent for fixed-price contracts; or (2) 75 percent for cost-reimbursement contracts. Value engineering sharing does not apply to incentive construction contracts.

(c) *Architect-engineering contracts.* There shall be no sharing of value engineering savings in contracts for architect-engineer services.

[48 FR 42443, Sept. 19, 1983, as amended at 54 FR 5057, Jan. 31, 1989; 55 FR 3887, Feb. 5, 1990]

48.104-2 Sharing collateral savings.

(a) The Government shares collateral savings with the contractor, unless the head of the contracting activity has determined that the cost of calculating and tracking collateral savings will exceed the benefits to be derived (see 48.201(e)).

(b) The contractor's share of collateral savings is 20 percent of the estimated savings to be realized during an average year of use but shall not exceed (1) the contract's firm-fixed-price, target price, target cost, or estimated cost, at the time the VECP is accepted, or (2) $100,000, whichever is greater. In determining collateral savings, the contracting officer shall consider any degradation of performance, service life, or capability. (See 48.104-1(a)(4) for payment of collateral savings through the instant contract.)

48.104-3 Sharing alternative—no-cost settlement method.

To minimize the administrative costs for both parties when there is a known continuing requirement for the unit, consideration should be given to the settlement of a VECP submitted against the VE Incentive clause of the contract at no cost to either party. Under this method of settlement, the contractor would keep all of the savings on the instant contract, and all savings on its concurrent contracts only. The Government would keep all savings resulting from concurrent contracts placed on other sources, savings from all future contracts and all collateral savings. Use of this method must be by mutual agreement of both parties for individual VECPs.

48.105 Relationship to other incentives.

Contractors should be offered the fullest possible range of motivation, yet the benefits of an accepted VECP should not be rewarded both as value engineering shares and under performance, design-to-cost, or similar incentives of the contract. To that end, when performance, design-to-cost, or similar targets are set and incentivized, the targets of such incentives affected by the VECP are not to be adjusted because of the acceptance of the VECP. Only those benefits of an accepted VECP not rewardable under other incentives are rewarded under a value engineering clause.

[48 FR 42443, Sept. 19, 1983, as amended at 54 FR 5057, Jan. 31, 1989]

Subpart 48.2—Contract Clauses

48.201 Clauses for supply or service contracts.

(a) *General.* The contracting officer shall insert a value engineering clause in solicitations and contracts when the contract amount is expected to be $100,000 or more, except as specified in subparagraphs (1) through (5) and in paragraph (f) below. A value engineering clause may be included in contracts of lesser value if the contracting officer sees a potential for significant savings. Unless the chief of the contracting office authorizes its inclusion, the contracting officer shall *not* include a value engineering clause in solicitations and contracts—

(1) For research and development other than full-scale development;

(2) For engineering services from not-for-profit or nonprofit organizations;

(3) For personal services (see subpart 37.1);

(4) Providing for product or component improvement, unless the value engineering incentive application is re-

stricted to areas not covered by provisions for product or component improvement;

(5) For commercial products (see part 11) that do not involve packaging specifications or other special requirements or specifications; or

(6) When the agency head has exempted the contract (or a class of contracts) from the requirements of part 48.

(b) *Value engineering incentive.* To provide a value engineering incentive, the contracting officer shall insert the clause at 52.248-1, Value Engineering, in solicitations and contracts except as provided in paragraph (a) above (but see subparagraph (e)(1) below).

(c) *Value engineering program requirement.* (1) If a mandatory value engineering effort is appropriate (i.e., if the contracting officer considers that substantial savings to the Government may result from a sustained value engineering effort of a specified level), the contracting officer shall use the clause with its Alternate I (but see subparagraph (e)(2) below).

(2) The value engineering program requirement may be specified by the Government in the solicitation or, in the case of negotiated contracting, proposed by the contractor as part of its offer and included as a subject for negotiation. The program requirement shall be shown as a separately priced line item in the contract Schedule.

(d) *Value engineering incentive and program requirement.* (1) If both a value engineering incentive and a mandatory program requirement are appropriate, the contracting officer shall use the clause with its Alternate II (but see subparagraph (e)(3) below).

(2) The contract shall restrict the value engineering program requirement to well-defined areas of performance designated by line item in the contract Schedule. Alternate II applies a value engineering program to the specified areas and a value engineering incentive to the remaining areas of the contract.

(e) *Collateral savings computation not cost-effective.* If the head of the contracting activity determines for a contract or class of contracts that the cost of computing and tracking collateral savings will exceed the benefits to be derived, the contracting officer shall use the clause with its—

(1) Alternate III if a value engineering incentive is involved;

(2) Alternate III and Alternate I if a value engineering program requirement is involved; or

(3) Alternate III and Alternate II if *both* an incentive and a program requirement are involved.

(f) *Architect-engineering contracts.* The contracting officer shall insert the clause at 52.248-2, Value Engineering—Architect-Engineer, in solicitations and contracts whenever the Government requires and pays for a specific value engineering effort in architect-engineer contracts. The clause at 52.248-1, Value Engineering, shall not be used in solicitations and contracts for architect-engineer services.

[48 FR 42443, Sept. 19, 1983, as amended at 54 FR 5057, Jan. 31, 1989; 55 FR 3887, Feb. 5, 1990]

48.202 Clause for construction contracts.

The contracting officer shall insert the clause at 52.248-3, Value Engineering—Construction, in construction solicitations and contracts when the contract amount is estimated to be $100,000 or more, unless an incentive contract is contemplated. The contracting officer may include the clause in contracts of lesser value if the contracting officer sees a potential for significant savings. The contracting officer shall not include the clause in incentive-type construction contracts. If the head of the contracting activity determines that the cost of computing and tracking collateral savings for a contract will exceed the benefits to be derived, the contracting officer shall use the clause with its Alternate I.

PART 49—TERMINATION OF CONTRACTS

Sec.

49.000 Scope of part.
49.001 Definitions.
49.002 Applicability.

Subpart 49.1—General Principles

SOURCE: 48 FR 42447, Sept. 19, 1983, unless otherwise noted.

49.000 Scope of part.

This part establishes policies and procedures relating to the complete or partial termination of contracts for the convenience of the Government or for default. It prescribes contract clauses relating to termination and excusable delay and includes instructions for using termination and settlement forms.

49.001 Definitions.

Claim, as used in this part, means the same as the language in 33.201.

Continued portion of the contract, as used in this part, means the portion of a partially terminated contract that the contractor must continue to perform.

Effective date of termination means the date on which the notice of termination requires the contractor to stop performance under the contract. If the termination notice is received by the contractor subsequent to the date fixed for termination, then the effective date of termination means the date the notice is received.

Other work, as used in this part, means any current or scheduled work of the contractor, whether Goverment or commercial, other than work related to the terminated contract.

Partial termination means the termination of a part, but not all, of the work that has not been completed and accepted under a contract.

Settlement agreement, as used in this part, means a written agreement in the form of an amendment to a contract settling all or a severable portion of a settlement proposal.

Settlement proposal, as used in this part, means a proposal for effecting settlement of a contract terminated in whole or in part, submitted by a contractor or subcontractor in the form, and supported by the data, required by this part. A settlement proposal is included within the generic meaning of the word *claim* under false claims acts (see 18 U.S.C. 287 and 31 U.S.C. 3729).

Terminated portion of the contract means the portion of a terminated contract that relates to work or end items not completed and accepted before the effective date of termination that the contractor is not to continue to perform. For construction contracts that have been completely terminated for convenience, it means the entire contract, notwithstanding the completion of, and payment for, individual items of work before termination.

Termination contracting officer means a contracting officer who is settling terminated contracts (see *Contracting officer* in 2.1).

Termination inventory means the same as the language in 45.601.

Unsettled contract change means any contract change or contract term for which a definitive modification is required but has not been executed.

[48 FR 42443, Sept. 19, 1983, as amended at 51 FR 2666, Jan. 17, 1986]

49.002 Applicability.

(a) This part applies to contracts that provide for termination for the convenience of the Government or for the default of the contractor (see also 13.504(b)).

(b) Contractors shall use this part, unless inappropriate, to settle subcontracts terminated as a result of modification of prime contracts. The contracting officer shall use this part as a guide in evaluating settlements of subcontracts terminated for the convenience of a contractor whenever the settlement will be the basis of a proposal for reimbursement from the Government under a cost-reimbursement contract.

(c) The contracting officer may use this part in determining an equitable adjustment resulting from a modification under the Changes clause of any contract, except cost-reimbursement contracts.

(d) When action to be taken or authority to be exercised under this part depends upon the *amount* of the settlement proposal, that amount shall be determined by deducting from the gross settlement proposed the amounts payable for completed articles or work at the contract price and amounts for the settlement of subcontractor settlement proposals. Credits for retention or other disposal of termination inventory and amounts for advance or partial payments shall not be deducted.

Subpart 49.1—General Principles

49.100 Scope of subpart.

(a) This subpart deals with—

(1) The authority and responsibility of contracting officers to terminate contracts in whole or in part for the convenience of the Government or for default;

(2) Duties of the contractor and the contracting officer after issuance of the notice of termination;

(3) General procedures for the settlement of terminated contracts; and

(4) Settlement agreements.

(b) Additional principles applicable to the termination for convenience and settlement of fixed-price and cost-reimbursement contracts are included in subparts 49.2 and 49.3. Additional principles applicable to the termination of contracts for default are included in subpart 49.4.

49.101 Authorities and responsibilities.

(a) The termination clauses or other contract clauses authorize contracting officers to terminate contracts for convenience, or for default, and to enter into settlement agreements under this regulation.

(b) The contracting officer shall terminate contracts, whether for default or convenience, only when it is in the Government's interest. The contracting officer shall effect a no-cost settlement instead of issuing a termination notice when (1) it is known that the contractor will accept one, (2) Government property was not furnished, and (3) there are no outstanding payments, debts due the Government, or other contractor obligations.

(c) When the price of the undelivered balance of the contract is less than $2,000, the contract should not normally be terminated for convenience but should be permitted to run to completion.

(d) After the contracting officer issues a notice of termination, the termination contracting officer (TCO) is responsible for negotiating any settlement with the contractor, including a no-cost settlement if appropriate. Auditors and TCO's shall promptly schedule and complete audit reviews and negotiations, giving particular attention to the need for timely action on settlements estimated at less than $100,000 involving small business concerns.

(e) If the same item is under contract with both large and small business concerns and it is necessary to terminate for convenience part of the units still to be delivered, preference shall be given to the continuing performance of small business contracts over large business contracts unless the chief of the contracting office determines that this is not in the Government's interest.

49.102 Notice of termination.

(a) *General.* The contracting officer shall terminate contracts for convenience or default only by a written notice to the contractor (see 49.601). When the notice is mailed, it shall be sent by certified mail, return receipt requested. When the contracting office arranges for hand delivery of the notice, a written acknowledgement shall be obtained from the contractor. The notice shall state—

(1) That the contract is being terminated for the convenience of the Government (or for default) under the contract clause authorizing the termination;

(2) The effective date of termination;

(3) The extent of termination;

(4) Any special instructions; and

(5) The steps the contractor should take to minimize the impact on personnel if the termination, together with all other outstanding terminations, will result in a significant reduction in the contractor's work force (see paragraph (g) of the notice in 49.601-2). If the termination notice is by telegram, include these *steps* in the confirming letter or modification.

(b) *Distribution of copies.* The contracting officer shall simultaneously send the termination notice to the contractor, and a copy to the contract administration office and to any known assignee, guarantor, or surety of the contractor.

(c) *Amendment of termination notice.* The contracting officer may amend a termination notice to—

(1) Correct nonsubstantive mistakes in the notice;

(2) Add supplemental data or instructions; or

(3) Rescind the notice if it is determined that items terminated had been completed or shipped before the contractor's receipt of the notice.

(d) *Reinstatement of terminated contracts.* Upon written consent of the contractor, the contracting office may reinstate the terminated portion of a contract in whole or in part by amending the notice of termination if it has been determined in writing that—

(1) Circumstances clearly indicate a requirement for the terminated items; and

(2) Reinstatement is advantageous to the Government.

49.103 Methods of settlement.

Settlement of terminated cost-reimbursement contracts and fixed-price contracts terminated for convenience may be effected by (a) negotiated agreement, (b) determination by the TCO, (c) costing-out under vouchers using SF 1034, Public Voucher for Purchases and Services Other Than Personal, for cost-reimbursement contracts (as prescribed in subpart 49.3), or (d) a combination of these methods. When possible, the TCO should negotiate a fair and prompt settlement with the contractor. The TCO shall settle a settlement proposal by determination only when it cannot be settled by agreement.

49.104 Duties of prime contractor after receipt of notice of termination.

After receipt of the notice of termination, the contractor shall comply with the notice and the termination clause of the contract, except as otherwise directed by the TCO. The notice and clause applicable to convenience terminations generally require that the contractor—

(a) Stop work immediately on the terminated portion of the contract and stop placing subcontracts thereunder;

(b) Terminate all subcontracts related to the terminated portion of the prime contract;

(c) Immediately advise the TCO of any special circumstances precluding the stoppage of work;

(d) Perform the continued portion of the contract and submit promptly any request for an equitable adjustment of price for the continued portion, supported by evidence of any increase in the cost, if the termination is partial;

(e) Take necessary or directed action to protect and preserve property in the contractor's possession in which the Government has or may acquire an interest and, as directed by the TCO, deliver the property to the Government;

(f) Promptly notify the TCO in writing of any legal proceedings growing out of any subcontract or other commitment related to the terminated portion of the contract;

(g) Settle outstanding liabilities and proposals arising out of termination of subcontracts, obtaining any approvals or ratifications required by the TCO;

(h) Promptly submit the contractor's own settlement proposal, supported by appropriate schedules; and

(l) Dispose of termination inventory, as directed or authorized by the TCO.

49.105 Duties of termination contracting officer after issuance of notice of termination.

(a) Consistent with the termination clause and the notice of termination, the TCO shall—

(1) Direct the action required of the prime contractor;

(2) Examine the settlement proposal of the prime contractor and, when appropriate, the settlement proposals of subcontractors;

(3) Promptly negotiate settlement with the contractor and enter into a settlement agreement; and

(4) Promptly settle the contractor's settlement proposal by determination for the elements that cannot be agreed on, if unable to negotiate a complete settlement.

(b) To expedite settlement, the TCO may request specially qualified personnel to—

(1) Assist in dealings with the contractor;

(2) Advise on legal and contractual matters;

(3) Conduct accounting reviews and advise and assist on accounting matters; and

(4) Perform the following functions regarding termination inventory (see subpart 45.6):

(i) Verify its existence.

(ii) Determine qualitative and quantitative allocability.

(iii) Make recommendations concerning serviceability.

(iv) Undertake necessary screening and redistribution.

(v) Assist the contractor in accomplishing other disposition.

(c) The TCO should promptly hold a conference with the contractor to develop a definite program for effecting the settlement. When appropriate in the judgment of the TCO, after consulting with the contractor, principal subcontractors should be requested to attend. Topics that should be discussed at the conference and documented include—

(1) General principles relating to the settlement of any settlement proposal, including obligations of the contractor under the termination clause of th contract;

(2) Extent of the termination, poin at which work is stopped, and status any plans, drawings, and informatio that would have been delivered ha the contract been completed;

(3) Status of any continuing work;

(4) Obligation of the contractor terminate subcontracts and gene principles to be followed in settlin subcontractor settlement proposals;

(5) Names of subcontractors involve and the dates termination notices wer issued to them;

(6) Contractor personnel handlin review and settlement of subcontractor settlement proposals and th methods being used;

(7) Arrangements for transfer title and delivery to the Governmen of any material required by the Government;

(8) General principles and procedures to be followed in the protectio preservation, and disposition of th contractor's and subcontractors' termination inventories, including the preparation of termination inventor schedules;

(9) Contractor accounting practice and preparation of SF 1439 (Schedul of Accounting Information (49.602-3);

(10) Form in which to submit settlement proposals;

(11) Accounting review of settlemen proposals;

(12) Any requirement for interim financing in the nature of partial payments;

(13) Tentative time schedule for negotiation of the settlement, includin submission by the contractor and subcontractors of settlement proposal termination inventory schedules, an accounting information schedules;

(14) Actions taken by the contracto to minimize impact upon employee affected adversely by the terminatio (see paragraph (g) of the letter notic in 49.601-2); and

(15) Obligation of the contractor t furnish accurate, complete, and current cost or pricing data, and to certify to that effect in accordance with 15.804-4(h) when the amount of a termination settlement agreement, or partial termination settlement agreement plus the estimate to complet

the continued portion of the contract exceeds the threshold in 15.804.

49.105-1 Termination status reports.

When the TCO and contracting officer are in different activities, the TCO will furnish periodic status reports on termination actions to the contracting office upon request. The contracting office shall specify the information required.

49.105-2 Release of excess funds.

(a) The TCO shall estimate the funds required to settle the termination at the earliest practical date. Based on this estimate, the TCO shall recommend the release of excess funds to the contracting office within 30 days after receipt of the termination notice. However, unless requested by the contracting office, the TCO shall not recommend amounts under $1,000.

(b) The TCO shall maintain continuous surveillance of required funds to permit timely release of any additional excess funds (a recommended format for release of excess funds is in 49.604). If previous releases of excess funds result in a shortage of the amount required for settlement, the TCO shall inform the contracting office, which shall reinstate the funds within 30 days.

49.105-3 Termination case file.

The TCO responsible for negotiating the final settlement shall establish a separate case file for each termination. This file will include memoranda and records of all actions relative to the settlement (see 4.801).

49.105-4 Cleanup of construction site.

In the case of terminated construction contracts, the contracting officer shall direct action to ensure the cleanup of the site, protection of serviceable materials, removal of hazards, and other action necessary to leave a safe and healthful site.

49.106 Fraud or other criminal conduct.

If the TCO suspects fraud or other criminal conduct related to the settlement of a terminated contract, the TCO shall discontinue negotiations and report the facts under agency procedures.

49.107 Audit of prime contract settlement proposals and subcontract settlements.

(a) The TCO shall refer each prime contractor settlement proposal of $25,000 or more to the appropriate audit agency for review and recommendations. The TCO may submit settlement proposals of less than $25,000 to the audit agency. Referrals shall indicate any specific information or data that the TCO desires and shall include facts and circumstances that will assist the audit agency in performing its function. The audit agency shall develop requested information and may make any further accounting reviews it considers appropriate. After its review, the audit agency shall submit written comments and recommendations to the TCO. When a formal examination of settlement proposals under $25,000 is not warranted, the TCO will perform or have performed a desk review and include a written summary of the review in the termination case file.

(b) The TCO shall refer subcontract settlements received for approval or ratification to the appropriate audit agency for review and recommendations when (1) the amount exceeds $50,000 or (2) the TCO wants a complete or partial accounting review. The audit agency shall submit written comments and recommendations to the TCO. The review by the audit agency does not relieve the prime contractor or higher tier subcontractor of the responsibility for performing an accounting review.

(c) (1) The responsibility of the prime contractor and of each subcontractor (see 49.108) includes performance of accounting reviews and any necessary field audits. However, the TCO should request the Government audit agency to perform the accounting review of a subcontractor's settlement proposal when—

(i) A subcontractor objects, for competitive reasons, to an accounting review of its records by an upper tier contractor;

(ii) The Government audit agency is currently performing audit work at the subcontractor's plant, or can perform the audit more economically or efficiently;

(iii) Audit by the Government is necessary for consistent audit treatment and orderly administration; or

(iv) The contractor has a substantial or controlling financial interest in the subcontractor.

(2) The audit agency should avoid duplication of accounting reviews performed by the upper tier contractor on subcontractor settlement proposals. However, this should not preclude the Government from making additional reviews when appropriate. When the contractor is performing accounting reviews according to this section, the TCO should request the audit agency to periodically examine the contractor's accounting review procedures and performance, and to make appropriate comments and recommendations to the TCO.

(d) The audit report is advisory only, and is for the TCO to use in negotiating a settlement or issuing a unilateral determination. Government personnel handling audit reports must be careful not to reveal privileged information or information that will jeopardize the negotiation position of the Government, the prime contractor, or a higher tier subcontractor. Consistent with this, and when in the Government's interest, the TCO may furnish audit reports under paragraph (c) above to prime and higher tier subcontractors for their use in settling subcontract settlement proposals.

49.108 Settlement of subcontract settlement proposals.

49.108-1 Subcontractor's rights.

A subcontractor has no contractual rights against the Government upon the termination of a prime contract. A subcontractor may have rights against the prime contractor or intermediate subcontractor with whom it has contracted. Upon termination of a prime contract, the prime contractor and each subcontractor are responsible for the prompt settlement of the settlement proposals of their immediate subcontractors.

49.108-2 Prime contractor's rights and obligations.

(a) Termination for convenience clauses provide that after receipt of a termination notice the prime contractor shall, unless directed otherwise by the TCO, terminate all subcontracts to the extent that they relate to the performance of prime work terminated. Therefore, prime contractors should include a termination clause in their subcontracts for their own protection. Suggestions regarding use of subcontract termination clauses are in subpart 49.5.

(b) The failure of a prime contractor to include an appropriate termination clause in any subcontract, or to exercise the clause rights, shall not—

(1) Affect the Government's right to require the termination of the subcontract; or

(2) Increase the obligation of the Government beyond what it would have been if the subcontract had contained an appropriate clause.

(c) In any case, the reasonableness of the prime contractor's settlement with the subcontractor should normally be measured by the aggregate amount due under paragraph (f) of the subcontract termination clause suggested in 49.502(e). The TCO shall allow reimbursement in excess of that amount only in unusual cases and then only to the extent that the terms of the subcontract did not unreasonably increase the rights of the subcontractor.

49.108-3 Settlement procedure.

(a) Contractors shall settle with subcontractors in general conformity with the policies and principles relating to settlement of prime contracts in this subpart and subparts 49.2 or 49.3. However, the basis and form of the subcontractor's settlement proposal must be acceptable to the prime contractor or the next higher tier subcontractor. Each settlement must be supported by accounting data and other information sufficient for adequate review by the Government. In no event will the Government pay the prime contractor any amount for loss of anticipatory profits or consequential damages resulting from the termination of any subcontract (but see 49.108-5).

(b) Except as provided in 49.108-4, the TCO shall require that (1) all subcontractor termination inventory be disposed of and accounted for in accordance with part 45 and (2) the prime contractor submit, for approval or ratification, all termination settlements with subcontractors. The prime contractor shall certify that the subcontractor settlement proposals have been examined, that they are allocable to the terminated portion of the prime contract, and that the settlements are fair and reasonable, were negotiated in good faith, and are not more favorable to the subcontractors than if the Government were not involved. The contractor shall also certify that all immediate subcontractors have submitted substantially the same certification. For settlements with lower tier subcontractors, the contractor shall certify that there is no information known to the contractor that causes doubt about the reasonableness or allocability of the settlements to the terminated portion of the prime contract.

(c) The TCO shall promptly examine each subcontract settlement received to determine that the subcontract termination was made necessary by the termination of the prime contract (or by issuance of a change order—see 49.002(b)). The TCO will also determine if the settlement was arrived at in good faith, is reasonable in amount, and is allocable to the terminated portion of the contract (or, if allocable only in part, that the proposed allocation is reasonable). In considering the reasonableness of any subcontract settlement, the TCO shall generally be guided by the provisions of this part relating to the settlement of prime contracts, and shall comply with any applicable requirements of 49.107 and 49.111 relating to accounting and other reviews. After the examination, the TCO shall notify the contractor in writing of (1) approval or ratification, or (2) the reasons for disapproval.

49.108-4 Authorization for subcontract settlements without approval or ratification.

(a) (1) The TCO may, upon written request, give written authorization to the prime contractor to conclude settlements of subcontracts terminated in whole or in part without approval or ratification when the amount of settlement (see 49.002(d)) is $25,000 or less, if—

(i) The TCO is satisfied with the adequacy of the procedures used by the contractor in settling settlement proposals, including proposals for retention, sale, or other disposal of termination inventory of the immediate and lower tier subcontractors (the TCO shall obtain the advice and recommendations of (A) the appropriate audit agency relating to the adequacy of the contractor's audit administration, including personnel, and (B) the cognizant plant clearance officer relating to the adequacy of the contractor's procedures and personnel for the administration of property disposal matters);

(ii) Any termination inventory included in determining the amount of the settlement will be disposed of as directed by the prime contractor, generally using the requirements of 45.614, except that the disposition of the inventory shall not (A) be subject to review by the TCO under 49.108-3(c) or 45.607, or (B) be subject to the screening requirements in 45.608; and

(iii) A certificate similar to the certificate in the settlement proposal form in 49.602-1(a) will accompany the settlement.

(2) Except as provided in subparagraph (4) below, authority granted to a prime contractor under subparagraph (1) above by any TCO shall apply to all Executive agencies' prime contracts that are terminated, or modified by change orders.

(3) Except as provided in subparagraph (4) below, the TCO shall accept, as part of the prime contractor's settlement proposal, settlements of terminated lower tier subcontracts concluded by any of the prime contractor's immediate or lower tier subcontractors who have been granted authority as prime contractors to settle subcontracts; *provided*, that the settlement is within the limit of the authority. Authorization to settle proposals of lower tier subcontractors shall not be granted directly to subcontractors. However, a prime contractor authorized to approve subcontractor settlements may also exercise this authority in its capacity as a subcontractor, with

respect to its terminated subcontracts and orders. When exercising this authority as a subcontractor, the contractor shall notify the purchaser.

(4) The provisions of subparagraphs (1), (2), and (3) above shall not apply to contracts under the administration of any contracting officer if the contracting officer so notifies the prime contractor concerned. This notice shall (i) be in writing, and (ii) if subparagraph (3) above is involved, specify any subcontractor affected.

(b) Section 45.614 shall apply to disposal of completed end items allocable to the terminated subcontract. However, these items may be disposed of without review by the TCO under 49.108-3 or 45.607, and without screening under 45.608, if the total amount (at the subcontract price) when added to the amount of the settlement does not exceed the amount authorized under this subsection.

(c) A TCO granting the authorization in subparagraph (a)(1) above shall periodically (at least annually) make a selective review of settlements and settlement procedures to determine if the contractor is making adequate reviews and fair settlements, and whether the authorization should remain in effect. The TCO shall obtain the advice and recommendations of the appropriate audit agency and the cognizant plant clearance officer. When it is determined that the contractor's procedures are not adequate, or that improper settlements are being made, or when the authority has not been used in the preceding 2 years, the TCO shall revoke the authorization by written notice to the contractor, effective on the date of receipt.

(d) The contractor may make any number of separate settlements with a single subcontractor but shall not divide settlement proposals solely to bring them under an authorization limit. Separate settlement proposals that would normally be included in a single proposal, such as those based on a series of separate orders for the same item under one contract, shall be consolidated whenever possible.

(e) Upon written request of the contractor, the TCO may increase an authorization granted under subparagraph (a)(1) above to authorize the contractor to conclude settlements between $25,000 and $50,000 under a particular prime contract. The TCO may limit the increased authorization to specific subcontracts or classes of subcontracts.

(f) Authorizations granted under this 49.108-4 shall not authorize the settlement of requisitions or orders placed with any unit within the contractor's corporate entity.

(g) Recommended formats for a request to settle subcontractor settlement proposals and the TCO's letter of authorization to the contractor are in 49.605 and 49.606, respectively.

49.108-5 Recognition of judgments and arbitration awards.

(a) When a subcontractor obtains a final judgment against a prime contractor, the TCO shall, for the purposes of settling the prime contract, treat the amount of the judgment as a cost of settling with the contractor, to the extent the judgment is properly allocable to the terminated portion of the prime contract, if—

(1) The prime contractor has made reasonable efforts to include in the subcontract a termination clause described in 49.502(e), 49.503(c), or a similar clause excluding payment of anticipatory profits or consequential damages;

(2) The provisions of the subcontract relating to the rights of the parties upon its termination are fair and reasonable and do not unreasonably increase the common law rights of the subcontractor;

(3) The contractor made reasonable efforts to settle the settlement proposal of the subcontractor;

(4) The contractor gave prompt notice to the contracting officer of the initiation of the proceedings in which the judgment was rendered and did not refuse to give the Government control of the defense of the proceedings; and

(5) The contractor diligently defended the suit or, if the Government assumed control of the defense of the proceedings, rendered reasonable assistance requested by the Government.

(b) If the conditions in subparagraphs (a)(1) through (5) above are not all met, the TCO may allow the contractor the part of the judgment considered fair for settling the subcontract settlement proposal, giving due regard to the policies in this part for settlement of proposals.

(c) When a contractor and a subcontractor submit the subcontractor's settlement proposal to arbitration under any applicable law or contract provision, the TCO shall recognize the arbitration award as the cost of settling the proposal of the contractor to the same extent and under the same conditions as in paragraphs (a) and (b) above.

49.108-6 Delay in settling subcontractor settlement proposals.

When a prime contractor's inability to settle with a subcontractor delays the settlement of the prime contract, the TCO may settle with the prime contractor. The TCO shall except the subcontractor settlement proposal from the settlement in whole or part and reserve the rights of the Government and the prime contractor with respect to the subcontractor proposal.

49.108-7 Government assistance in settling subcontracts.

In unusual cases the TCO may determine, with the consent of the prime contractor, that it is in the Government's interest to provide assistance to the prime contractor in the settlement of a particular subcontract. In these situations, the Government, the prime contractor, and a subcontractor may enter into an agreement covering the settlement of one or more subcontracts. In these settlements, the subcontractor shall be paid through the prime contractor as part of the overall settlement with the prime contractor.

49.108-8 Assignment of rights under subcontracts.

(a) The termination for convenience clauses in 52.249, except the short-form clauses, obligate the prime contractor to assign to the Government, as directed by the TCO, all rights, titles, and interest under any subcontract terminated because of termination of the prime contract. The TCO shall not require the assignment unless it is in the Government's interest.

(b) The termination for convenience clauses (except the short-form clauses) also provide the Government the right, in its discretion, to settle and pay any settlement proposal arising out of the termination of subcontracts. This right does not obligate the Government to settle and pay settlement proposals of subcontractors. As a general rule, the prime contractor is obligated to settle and pay these proposals. However, when the TCO determines that it is in the Government's interest, the TCO shall, after notifying the contractor, settle the subcontractor's proposal using the procedures for settlement of prime contracts. An example in which the Government's interest would be served is when a subcontractor is a sole source and it appears that a delay by the prime contractor in settlement or payment of the subcontractor's proposal will jeopardize the financial position of the subcontractor. Direct settlements with subcontractors are not encouraged.

49.109 Settlement agreements.

49.109-1 General.

When a termination settlement has been negotiated and all required reviews have been obtained, the contractor and the TCO shall execute a settlement agreement on Standard Form 30 (Amendment of Solicitation/Modification of Contract) (see 49.603). The settlement shall cover (a) any setoffs that the Government has against the contractor that may be applied against the terminated contract and (b) all settlement proposals of subcontractors, except proposals that are specifically excepted from the agreement and reserved for separate settlement.

49.109-2 Reservations.

(a) The TCO shall—

(1) Reserve in the settlement agreement any rights or demands of the parties that are excepted from the settlement;

(2) Ensure that the wording of the reservation does not create any rights for the parties beyond those in exist-

ence before execution of the settlement agreement;

(3) Mark each applicable settlement agreement with "This settlement agreement contains a reservation" and retain the contract file until the reservation is removed;

(4) Ensure that sufficient funds are retained to cover complete settlement of the reserved items; and

(5) At the appropriate time, prepare a separate settlement of reserved items and include it in a separate settlement agreement.

(b) A recommended format for settlement of reservations appears in 49.603-9.

49.109-3 Government property.

Before execution of a settlement agreement, the TCO shall determine the accuracy of the Government property account for the terminated contract. If an audit discloses property for which the contractor cannot account, the TCO shall reserve in the settlement agreement the rights of the Government regarding that property or make an appropriate deduction from the amount otherwise due the contractor.

49.109-4 No-cost settlement.

The TCO shall execute a no-cost settlement agreement (see 49.603-6 or 49.603-7, as applicable) if (a) the contractor has not incurred costs for the terminated portion of the contract or (b) the contractor is willing to waive the costs incurred and (c) no amounts are due the Government under the contract.

49.109-5 Partial settlements.

The TCO should attempt to settle in one agreement all rights and liabilities of the parties under the contract except those arising from any continued portion of the contract. Generally, the TCO shall not attempt to make partial settlements covering particular items of the prime contractor's settlement proposal. However, when a TCO cannot promptly complete settlement under the terminated contract, a partial settlement may be entered into if (a) the issues on which agreement has been reached are clearly severable from other issues and (b) the partial settlement will not prejudice the Government's or contractor's interests in disposing of the unsettled part of the settlement proposal.

49.109-6 Joint settlement of two or more settlement proposals.

(a) With the consent of the contractor, the TCO or TCO's concerned may negotiate jointly two or more termination settlement proposals of the same contractor under different contracts, even though the contracts are with different contracting offices or agencies. In such cases, accounting work shall be consolidated to the greatest extent practical. The resulting settlement may be evidenced by one settlement agreement covering all contracts involved or by a separate agreement for each contract involved.

(b) When the settlement agreement covers more than one contract, it shall (1) clearly identify the contracts involved, (2) assign an amendment modification number to each contract, (3) apportion the total amount of the settlement among the several contracts on some reasonable basis, (4) have attached or incorporated a schedule showing the apportionment, and (5) be distributed and attached to each contract involved in the same manner as other contract modifications.

49.109-7 Settlement by determination.

(a) *General.* If the contractor and TCO cannot agree on a termination settlement, or if a settlement proposal is not submitted within the period required by the termination clause, the TCO shall issue a determination of the amount due consistent with the termination clause, including any cost principles incorporated by reference. The TCO shall comply with 49.109-1 through 49.109-6 in making a settlement by determination and with 49.203 in making an adjustment for loss, if any. Copies of determinations shall receive the same distribution as other contract modifications.

(b) *Notice to contractor.* Before issuing a determination of the amount due the contractor, the TCO shall give the contractor at least 15 days notice by certified mail (return receipt requested) to submit written evidence, so as to reach the TCO on or before a stated date, substantiating the amount previously proposed.

(c) *Justification of settlement proposal.* (1) The contractor has the burden of establishing, by proof satisfactory to the TCO, the amount proposed.

(2) The contractor may submit vouchers, verified transcripts of books of account, affidavits, audit reports, and other documents as desired. The TCO may request the contractor to submit additional documents and data, and may request appropriate accountings, investigations, and audits.

(3) The TCO may accept copies of documents and records without requiring original documents unless there is a question of authenticity.

(4) The TCO may hold any conferences considered appropriate (i) to confer with the contractor, (ii) to obtain additional information from Government personnel or from independent experts, or (iii) to consult persons who have submitted affidavits or reports.

(d) *Determinations.* After reviewing the information available, the TCO shall determine the amount due and shall transmit a copy of the determination to the contractor by certified mail (return receipt requested), or by any other method that provides evidence of receipt. The transmittal letter shall advise the contractor that the determination is a final decision from which the contractor may appeal under the Disputes clause, except as shown in paragraph (f) below. The determination shall specify the amount due the contractor and will be supported by detailed schedules conforming generally to the forms for settlement proposals prescribed in 49.602-1 and by additional information, schedules, and analyses as appropriate. The TCO shall explain each major item of disallowance. The TCO need not reconsider any other action relating to the terminated portion of the contract that was ratified or approved by the TCO or another contracting officer.

(e) *Preservation of evidence.* The TCO shall retain all written evidence and other data relied upon in making a determination, except that copies of original books of account need not be made. The TCO shall return books of account, together with other original papers and documents, to the contractor within a reasonable time.

(f) *Appeals.* The contractor may appeal, under the Disputes clause, any settlement by determination, except when the contractor has failed to submit the settlement proposal within the time provided in the contract and failed to request an extension of time. The pendency of an appeal shall not affect the authority of the TCO to settle the settlement proposal or any part by negotiation with the contractor at any time before the appeal is decided.

(g) *Decision on the contractor's appeal.* The TCO shall give effect to a decision of the Claims Court or a board of contract appeals, when necessary, by an appropriate modification to the contract. When appropriate, the TCO should obtain a release from the contractor. TCO's are authorized to modify the formats of settlement agreements in 49.603 to agree with this provision.

[48 FR 42447, Sept. 19, 1983, as amended at 52 FR 19805, May 27, 1987]

49.110 Negotiation memorandum.

(a) The TCO shall, at the conclusion of negotiations, prepare a memorandum containing the principal elements of the settlement for inclusion in the termination case file and for use by reviewing authorities.

(b) If the settlement was negotiated on the basis of individual items, the TCO shall specify the factors considered for each item. If the settlement was negotiated on an overall lump-sum basis, the TCO need not evaluate each item or group of items individually, but shall support the total amount of the recommended settlement in reasonable detail. The memorandum shall include explanations of matters involving differences and doubtful questions settled by agreement, and the factors considered. The TCO should include any other matters that will assist reviewing authorities in understanding the basis for the settlement.

49.111 Review of proposed settlements.

Each agency shall establish procedures, when necessary, for the administrative review of proposed termination settlements. When one agency provides termination settlement services for another agency, the agency providing the services shall also perform the settlement review function.

49.112 Payment.

49.112-1 Partial payments.

(a) *General.* If the contract authorizes partial payments on settlement proposals before settlement, a prime contractor may request them on the form prescribed in 49.602-4 at any time after submission of interim or final settlement proposals. The Government will process applications for partial payments promptly. A subcontractor shall submit its application through the prime contractor which shall attach its own invoice and recommendations to the subcontractor's application. Partial payments to a subcontractor shall be made only through the prime contractor and only after the prime contractor has submitted its interim or final settlement proposal. Except for undelivered acceptable finished products, partial payments shall not be made for profit or fee claimed under the terminated portion of the contract. In exercising discretion on the extent of partial payments to be made, the TCO shall consider the diligence of the contractor in settling with subcontractors and in preparing its own settlement proposal.

(b) *Amount of partial payment.* Before approving any partial payment, the TCO shall obtain any desired accounting, engineering, or other specialized reviews of the data submitted in support of the contractor's settlement proposal. If the reviews and the TCO's examination of the data indicate that the requested partial payment is proper, reasonable payments may be authorized in the discretion of the TCO up to—

(1) 100 percent of the contract price, adjusted for undelivered acceptable items completed before the termination date, or later completed with the approval of the TCO (see 49.205);

(2) 100 percent of the amount of any subcontract settlement paid by the prime contractor if the settlement was approved or ratified by the TCO under 49.108-3(c) or was authorized under 49.108-4;

(3) 90 percent of the direct cost of termination inventory, including costs of raw materials, purchased parts, supplies, and direct labor;

(4) 90 percent of other allowable costs (including settlement expense and manufacturing and administrative indirect costs) allocable to the terminated portion of the contract and not included in subparagraphs (1), (2), or (3) above; and

(5) 100 percent of partial payments made to subcontractors under this section.

(c) *Recognition of assignments.* When an assignment of claims has been made under the contract, the Government shall not make partial payments to other than the assignee unless the parties to the assignment consent in writing (see 32.805(e)).

(d) *Security for partial payments.* If any partial payment is made for completed end items or for costs of termination inventory, the TCO shall protect the Government's interest. This shall be done by obtaining title to the completed end items or termination inventory, or by the creation of a lien in favor of the Government, paramount to all other liens, on the completed end items or termination inventory, or by other appropriate means.

(e) *Deductions in computing amount of partial payments.* The TCO shall deduct from the gross amount of any partial payment otherwise payable under 49.112-1(b)—

(1) All unliquidated balances of progress and advance payments (including interest) made to the contractor, which are allocable to the terminated portion of the contract; and

(2) The amounts of all credits arising from the purchase, retention, or sale of property, the costs of which are included in the application for payment.

(f) *Limitation on total amount.* The total amount of all partial payments shall not exceed the amount that will, in the opinion of the TCO, become due to the contractor because of the termination.

(g) *Effect of overpayment.* If the total of partial payments exceeds the amount finally determined due on the settlement proposal, the contractor shall repay the excess to the Government on demand, together with interest. The interest shall be computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2) from the date the excess payment was received by the contractor to the date of repayment. However, interest will not be charged for any (1) excess payment attributable to a reduction in the settlement proposal because of retention or other disposition of termination inventory, until 10 days after the date of the retention or disposition, or a later date determined by the TCO, or (2) overpayment under cost-reimbursement research and development contracts without profit or fee if the overpayments are repaid to the Government within 30 days after demand.

(h) *Certification and approval of partial payments.* (1) The contractor shall place the following certification on vouchers or invoices for partial payments:

> The payment covered by this voucher is a partial payment on the Contractor's settlement proposal under contract No. .... made under part 49 of the Federal Acquisition Regulation.

(2) The TCO shall approve the invoice or voucher by noting on it the following:

> Payment of $........ is approved.

49.112-2 Final payment.

(a) *Negotiated settlement.* After execution of a settlement agreement, the contractor shall submit a voucher or invoice showing the amount agreed upon, less any portion previously paid. The TCO shall attach a copy of the settlement agreement to the voucher or invoice and forward the documents to the disbursing officer for payment.

(b) *Settlement by determination.* If the settlement is by determination and—

(1) There is no appeal within the allowed time, the contractor shall submit a voucher or invoice showing the amount determined due, less any portion previously paid; or

(2) There is an appeal, the contractor shall submit a voucher or invoice showing the amount finally determined due on the appeal, less any portion previously paid. Pending determination of any appeal, the contractor may submit vouchers or invoices for charges that are not directly involved with the portion being appealed, without prejudice to the rights of either party on the appeal.

(c) *Construction contracts.* In the case of construction contracts, before forwarding the final payment voucher, the contracting officer shall ascertain whether there are any outstanding labor violations. If so, the contracting officer shall determine the amount to be withheld from the final payment (see subpart 22.4).

(d) *Interest.* The Government shall not pay interest on the amount due under a settlement agreement or a settlement by determination. The Government may, however, pay interest on a successful contractor appeal from a contracting officer's determination under the Disputes clause at 52.233-1.

49.113 Cost principles.

The cost principles and procedures in the applicable subpart of part 31 shall, subject to the general principles in 49.201, (a) be used in asserting, negotiating, or determining costs relevant to termination settlements under contracts with other than educational institutions, and (b) be a guide for the negotiation of settlements under contracts for experimental, developmental, or research work with educational institutions (but see 31.104).

49.114 Unsettled contract changes.

(a) Before settlement of a completely terminated contract, the TCO shall obtain from the contracting office a list of all related unsettled contract changes. The TCO shall settle, as part of final settlement, all unsettled contract changes after obtaining the recommendations of the contracting office concerning the changes.

(b) When the contract has been partially terminated, any outstanding unsettled contract changes will usually be handled by the contracting officer.

However, the contracting officer may delegate this function to the TCO.

49.115 Settlement of terminated incentive contracts.

(a) *Fixed-price incentive contracts.* The TCO shall settle terminated fixed-price incentive (FPI) contracts under the provisions of paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, and 52.249-2, Termination for Convenience of the Government (Fixed-Price).

(1) *Partial termination.* Under a partially terminated contract, the TCO shall negotiate a settlement as provided in the termination clause of the contract, and paragraph (j) of the clause at 52.216-16, Incentive Price Revision—Firm Target, or paragraph (l) of the clause at 52.216-17, Incentive Price Revision—Successive Targets. The contracting officer shall apply the incentive price revision provisions to completed items accepted by the Government, including any for which the contractor may request reimbursement in the settlement proposal. The TCO shall reimburse the contractor at target price for completed articles included in the settlement proposal for which a final price has not been established. The TCO shall incorporate in the settlement agreement an appropriate reservation as to final price for these completed articles.

(2) *Complete termination.* If any items were delivered and accepted by the Government, the contracting officer shall establish prices under the incentive provisions of the contract. On the terminated portion of the contract, the provisions of the termination clause (see 52.249-2, Termination for Convenience of the Government (Fixed-Price)) shall govern and the provisions of the incentive clause shall not apply. The TCO responsible for the termination settlement will ensure, on the basis of evidence considered proper (including coordination with the contracting officer), that no portion of the costs considered in the negotiations under the incentive provisions are included in the termination settlement.

(b) *Cost-plus-incentive-fee contracts.* The TCO shall settle terminated cost-plus-incentive-fee contracts under the clause at 52.249-6, Termination (Cost-Reimbursement).

(1) *Partial termination.* Under a partial termination, the TCO shall limit the settlement to an adjustment of target fee as provided in paragraph (e) of the clause at 52.216-10, Incentive Fee. The settlement agreement shall include a reservation regarding any adjustment of target cost resulting from the partial termination. The contracting officer shall adjust the target cost, if required.

(2) *Complete termination.* The parties shall negotiate the settlement under the provisions of subpart 49.3 and the clause at 52.249-6, Termination (Cost-Reimbursement). The fee shall be adjusted on the basis of the target fee, and the incentive provisions shall not be applied or considered.

Subpart 49.2—Additional Principles for Fixed-Price Contracts Terminated for Convenience

49.201 General.

(a) A settlement should compensate the contractor fairly for the work done and the preparations made for the terminated portions of the contract, including a reasonable allowance for profit. Fair compensation is a matter of judgment and cannot be measured exactly. In a given case, various methods may be equally appropriate for arriving at fair compensation. The use of business judgment, as distinguished from strict accounting principles, is the heart of a settlement.

(b) The primary objective is to negotiate a settlement by agreement. The parties may agree upon a total amount to be paid the contractor without agreeing on or segregating the particular elements of costs or profit comprising this amount.

(c) Cost and accounting data may provide guides, but are not rigid measures, for ascertaining fair compensation. In appropriate cases, costs may be estimated, differences compromised, and doubtful questions settled by agreement. Other types of data, criteria, or standards may furnish equally reliable guides to fair compensation. The amount of recordkeeping, reporting, and accounting related to the settlement of terminated contracts should be kept to a minimum compatible with the reasonable protection of the public interest.

49.202 Profit.

(a) The TCO shall allow profit on preparations made and work done by the contractor for the terminated portion of the contract but not on the settlement expenses. Anticipatory profits and consequential damages shall not be allowed (but see 49.108-5). Profit for the contractor's efforts in settling subcontractor proposals shall not be based on the dollar amount of the subcontract settlement agreements but the contractor's efforts will be considered in determining the overall rate of profit allowed the contractor. Profit shall not be allowed the contractor for material or services that, as of the effective date of termination, have not been delivered by a subcontractor, regardless of the percentage of completion. The TCO may use any reasonable method to arrive at a fair profit.

(b) In negotiating or determining profit, factors to be considered include—

(1) Extent and difficulty of the work done by the contractor as compared with the total work required by the contract (engineering estimates of the percentage of completion ordinarily should not be required, but if available should be considered);

(2) Engineering work, production scheduling, planning, technical study and supervision, and other necessary services;

(3) Efficiency of the contractor, with particular regard to—

(i) Attainment of quantity and quality production;

(ii) Reduction of costs;

(iii) Economic use of materials, facilities, and manpower; and

(iv) Disposition of termination inventory;

(4) Amount and source of capital and extent of risk assumed;

(5) Inventive and developmental contributions, and cooperation with the Government and other contractors in supplying technical assistance;

(6) Character of the business, including the source and nature of materials and the complexity of manufacturing techniques;

(7) The rate of profit that the contractor would have earned had the contract been completed;

(8) The rate of profit both parties contemplated at the time the contract was negotiated; and

(9) Character and difficulty of subcontracting, including selection, placement, and management of subcontracts, and effort in negotiating settlements of terminated subcontracts.

(c) When computing profit on the terminated portion of a construction contract, the contracting officer shall—

(1) Comply with paragraphs (a) and (b) above;

(2) Allow profit on the prime contractor's settlements with construction subcontractors for actual work in place at the job site; and

(3) Exclude profit on the prime contractor's settlements with construction subcontractors for materials on hand and for preparations made to complete the work.

49.203 Adjustment for loss.

(a) In the negotiation or determination of any settlement, the TCO shall not allow profit if it appears that the contractor would have incurred a loss had the entire contract been completed. The TCO shall negotiate or determine the amount of loss and make an adjustment in the amount of settlement as specified in paragraph (b) or (c) below. In estimating the cost to complete, the TCO shall consider expected production efficiencies and other factors affecting the cost to complete.

(b) If the settlement is on an inventory basis (see 49.206-2(a)), the contractor shall not be paid more than the total of the amounts in subparagraphs (1), (2), and (3) below, less all disposal credits and all unliquidated advance and progress payments previously made under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The contract price, as adjusted, for acceptable completed end items (see 49.205).

(3) The remainder of the settlement amount otherwise agreed upon or determined (including the allocable portion of initial costs (see 31.205-42(c)), reduced by multiplying the remainder by the ratio of (i) the total contract price to (ii) the total cost incurred before termination plus the estimated cost to complete the entire contract.

(c) If the settlement is on a total cost basis (see 49.206-2(b)), the contractor shall not be paid more than the total of the amounts in subparagraphs (1) and (2) below, less all disposal and other credits, all advance and progress payments, and all other amounts previously paid under the contract:

(1) The amount negotiated or determined for settlement expenses.

(2) The remainder of the total settlement amount otherwise agreed upon or determined (lines 7 and 14 of SF 1436, Settlement Proposal (Total Cost Basis)) reduced by multiplying the remainder by the ratio of (i) the total contract price to (ii) the remainder plus the estimated cost to complete the entire contract.

49.204 Deductions.

From the amount payable to the contractor under a settlement, the TCO shall deduct—

(a) The agreed price for any part of the termination inventory purchased or retained by the contractor, and the proceeds from any materials sold that have not been paid or credited to the Government;

(b) The fair value, as determined by the TCO, of any part of the termination inventory that, before transfer of title to the Government or to a buyer under part 45, is destroyed, lost, stolen, or so damaged as to become undeliverable (normal spoilage is excepted, as is inventory for which the Government has expressly assumed the risk of loss); and

(c) Any other amounts as appropriate in the particular case.

49.205 Completed end items.

(a) Promptly after the effective date of termination, the TCO shall (1) have all undelivered completed end items inspected and accepted if they comply with the contract requirements, and (2) determine which accepted end items are to be delivered under the contract. The contractor shall invoice accepted and delivered end items at the contract price in the usual manner and shall not include them in the settlement proposal. When completed end items, though accepted, are not to be delivered under the contract, the contractor shall include them in the settlement proposal at the contract price, adjusted for any saving of freight or other charges, together with any credits for their purchase, retention, or sale.

(b) Work in place accepted by the Government under a construction contract is not considered a completed item even though that work may have been paid for at unit prices specified in the contract.

49.206 Settlement proposals.

49.206-1 Submission of settlement proposals.

(a) Subject to the provisions of the termination clause, the contractor should promptly submit to the TCO a settlement proposal for the amount claimed because of the termination. The final settlement proposal must be submitted within one year from the effective date of the termination, unless the period is extended by the TCO. Termination charges under a single prime contract involving two or more divisions or units of the prime contractor may be consolidated and included in a single settlement proposal.

(b) The settlement proposal must cover all cost elements including settlements with subcontractors and any proposed profit. With the consent of the TCO, proposals may be filed in successive steps covering separate portions of the contractor's costs. Such interim proposals shall include all costs of a particular type, except as the TCO may authorize otherwise.

(c) Settlement proposals must be on the forms prescribed in 49.602 unless the forms are inadequate for a particular contract. Settlement proposals must be in reasonable detail supported by adequate accounting data. Actual, standard (appropriately adjusted), or average costs may be used in preparing settlement proposals if they are determined under generally recognized accounting principles consistently followed by the contractor. When actual, standard, or average costs are not reasonably available, estimated costs may be used if the method of arriving at the estimates is approved by the TCO. Contractors shall not be required to maintain unduly elaborate cost accounting systems merely because their contracts may subsequently be terminated.

(d) The contractor may use the Settlement Proposal (Short Form), SF 1438 (see 49.602-1(d) and 53.249), when the total proposal is less than $10,000, unless otherwise instructed by the TCO. Settlement proposals that would normally be included in a single settlement proposal; e.g., those based on a series of separate orders for the same item under one contract, should be consolidated whenever possible and not divided to bring them below $10,000.

(e) The Schedule of Accounting Information, SF 1439, must be submitted for each termination under a contract for which a settlement proposal is submitted, except when the Standard Form 1438 is used. Although several interim proposals may be submitted, SF 1439 need be submitted only once unless, subsequent to filing the original form, major changes occur in the information submitted.

49.206–2 Bases for settlement proposals.

(a) *Inventory basis.* (1) Use of the inventory basis for settlement proposals is preferred. Under this basis, the contractor may propose only costs allocable to the terminated portion of the contract, and the settlement proposal must itemize separately—

(i) Metals, raw materials, purchased parts, work in process, finished parts, components, dies, jigs, fixtures, and tooling, at purchase or manufacturing cost;

(ii) Charges such as engineering costs, initial costs, and general administrative costs;

(iii) Costs of settlements with subcontractors;

(iv) Settlement expenses; and

(v) Other proper charges.

(2) An allowance for profit (49.202) or adjustment for loss (49.203(b)) must be made to complete the gross settlement proposal. All unliquidated advance and progress payments and all disposal and other credits known when the proposal is submitted must then be deducted.

(3) This inventory basis is also appropriate for use under the following circumstances:

(i) The partial termination of a construction or related professional services contract.

(ii) The partial or complete termination of supply orders under any terminated construction contract.

(iii) The complete termination of a unit-price (as distinguished from a lump-sum) professional services contract.

(b) *Total cost basis.* (1) When use of the inventory basis is not practicable or will unduly delay settlement, the total-cost basis (SF-1436) may be used if approved in advance by the TCO as in the following examples:

(i) If production has not commenced and the accumulated costs represent planning and preproduction or *get ready* expenses.

(ii) If, under the contractor's accounting system, unit costs for work in process and finished products cannot readily be established.

(iii) If the contract does not specify unit prices.

(iv) If the termination is complete and involves a letter contract.

(2) When the total-cost basis is used under a complete termination, the contractor must itemize all costs incurred under the contract up to the effective date of termination. The costs of settlements with subcontractors and applicable settlement expenses must also be added. An allowance for profit (49.202) or adjustment for loss (49.203(c)) must be made. The contract price for all end items delivered or to be delivered and accepted must be deducted. All unliquidated advance and progress payments and disposal and other credits known when the proposal is submitted must also be deducted.

(3) When the total-cost basis is used under a partial termination, the settlement proposal shall not be submitted until completion of the continued portion of the contract. The settlement

proposal must be prepared as in subparagraph (2) above, except that all costs incurred to the date of completion of the continued portion of the contract must be included.

(4) If a construction contract or a lump-sum professional services contract is completely terminated, the contractor shall—

(i) Use the total cost basis of settlement;

(ii) Omit Line 10 "Deduct-Finished Product Invoiced or to be Invoiced" from Section II of Standard Form-1436) Settlement Proposal (Total Cost Basis); and

(iii) Reduce the gross amount of the settlement by the total of all progress and other payments.

(c) *Other basis.* Settlement proposals may not be submitted on any basis other than paragraph (a) or (b) above without the prior approval of the chief of the contracting or contract administration office.

49.207 Limitation on settlements.

The total amount payable to the contractor for a settlement, before deducting disposal or other credits and exclusive of settlement costs, must not exceed the contract price less payments otherwise made or to be made under the contract.

49.208 Equitable adjustment after partial termination.

Under the termination clause, after partial termination, a contractor may request an equitable adjustment in the price or prices of the continued portion of a fixed-price contract. The TCO shall forward the proposal to the contracting officer except when negotiation authority is delegated to the TCO. The contractor shall submit the proposal on SF-1411, Contract Pricing Proposal Cover Sheet.

(a) When the contracting officer retains responsibility for negotiating the equitable adjustment and executing a supplemental agreement, the contracting officer shall ensure that no portion of an increase in price is included in a termination settlement made or in process.

(b) The TCO shall also ensure that no portion of the costs included in the equitable adjustment are included in the termination settlement.

Subpart 49.3—Additional Principles for Cost-Reimbursement Contracts Terminated for Convenience

49.301 General.

Termination clauses for cost-reimbursement contracts (see 49.503(a)) provide for the settlement of costs and fee, if any. The contract clauses governing costs shall determine what costs are allowable.

49.302 Discontinuance of vouchers.

(a) When the contract has been completely terminated, the contractor shall not use Standard Form 1034 (Public Voucher for Purchases and Services Other than Personal) after the last day of the sixth month following the month in which the termination is effective. The contractor may elect to stop using vouchers at any time during the 6-month period. When the contractor has vouchered out all costs within the 6-month period, a proposal for fee, if any, may be submitted on SF 1437 (see 49.602-1) or by letter appropriately certified. The contractor must submit a substantiated proposal for fee to the TCO within 1 year from the effective date of termination, unless the period is extended by the TCO. When the use of vouchers is discontinued, the contractor shall submit all unvouchered costs and the proposed fee, if any, as specified in 49.303.

(b) When the contract is partially terminated, 49.304 shall apply.

49.303 Procedure after discontinuing vouchers.

49.303-1 Submission of settlement proposal.

The contractor shall submit a final settlement proposal covering unvouchered costs and any proposed fee to the TCO within 1 year from the effective date of termination, unless the period is extended by the TCO. The contractor shall use the form prescribed in 49.602-1, unless the TCO authorizes otherwise. The proposal shall not include costs that have been—

(a) Finally disallowed by the contracting officer; or

(b) Previously vouchered and formally questioned by the Government but not yet decided as to allowability.

49.303-2 Audit of settlement proposal.

The TCO shall submit the settlement proposal to the appropriate audit agency for review (see 49.107). However, if the settlement proposal is limited to an adjustment of fee, no referral to the audit agency is required.

49.303-3 Adjustment of indirect costs.

(a) If the contract contains the clause at 52.216-7, Allowable Cost and Payment, and it appears that adjustment of indirect costs will unduly delay final settlement, the TCO, after obtaining information from the appropriate audit agency, may agree with the contractor to—

(1) Negotiate the amount of indirect costs for the contract period for which final indirect cost rates have not been negotiated, or to use billing rates as final rates for this period if the billing rates appear reasonable; or

(2) Reserve any indirect cost adjustment in the final settlement agreement, pending establishment of negotiated rates under subpart 42.7.

(b) When an amount of indirect cost is negotiated under subparagraph (a)(1) above, the contractor shall eliminate the indirect cost and the related direct costs on which it was based from the total pool and base used to compute indirect costs for other contracts performed during the applicable accounting period.

49.303-4 Final settlement.

(a) The TCO shall proceed with the settlement and execution of a settlement agreement upon receipt of the audit report, if applicable, and the contract audit closing statement covering vouchered costs.

(b) The TCO shall adjust the fee as provided in 49.305.

(c) The final settlement agreement may include all demands of the Government and proposals of the contractor under the terminated contract. However, no amount shall be allowed for any item of cost disallowed by the Government, nor for any other item of cost of the same nature.

(d) If an overall settlement of costs is agreed upon, agreement on each element of cost is not necessary. If appropriate, differences may be compromised and doubtful questions settled by agreement. An overall settlement shall not include costs that are clearly not allowable under the terms of the contract.

49.304 Procedure for partial termination.

49.304-1 General.

(a) In a partial termination, the TCO shall limit the settlement to an adjustment of the fee, if any, and with the concurrence of the contracting office, to a reduction in the estimated cost. The TCO shall adjust the fee as provided in 49.304-2 and 49.305, unless—

(1) The terminated portion is clearly severable from the balance of the contract; or

(2) Performance of the contract is virtually complete, or performance of any continued portion is only on subsidiary items or spare parts, or is otherwise not substantial.

(b) In the case of the exceptions in paragraph (a), the procedures in 49.302 and 49.303 apply.

49.304-2 Submission of settlement proposal (fee only).

The contractor shall limit the settlement proposal to a proposed reduction in the amount of fee. The final settlement proposal shall be submitted to the TCO within one year from the effective date of termination, unless the period is extended by the TCO. The proposal may be submitted in the form prescribed in 49.602-1 or by letter appropriately certified. The contractor shall substantiate the amount of fee claimed (see 49.305).

49.304-3 Submission of vouchers.

When a partial termination settlement is limited to adjustment of fee, the contractor shall continue to submit the SF 1034, Public Voucher for Purchases and Services Other than Personal, for costs reimbursable under the contract. The contractor shall not be reimbursed for costs of settlements with subcontractors unless required approvals or ratifications have been obtained (see 49.108).

49.305 Adjustment of fee.

49.305-1 General.

(a) The TCO shall determine the adjusted fee to be paid, if any, in the manner provided by the contract. The determination is generally based on a percentage of completion of the contract or of the terminated portion. When this basis is used, factors such as the extent and difficulty of the work performed by the contractor (e.g., planning, scheduling, technical study, engineering work production and supervision, placing and supervising subcontracts, and work performed by the contractor in (1) stopping performance, (2) settling terminated subcontracts, and (3) disposing of termination inventory) shall be compared with the total work required by the contract or by the terminated portion. The contractor's adjusted fee shall not include an allowance for fee for subcontract effort included in subcontractors' settlement proposals.

(b) The ratio of costs incurred to the total estimated cost of performing the contract or the terminated portion is only one factor in computing the percentage of completion. This percentage may be either greater or less than that indicated by the ratio of costs incurred, depending upon the evaluation by the TCO of other pertinent factors.

49.305-2 Construction contracts.

(a) The percentage of completion basis refers to the contractor's total effort and not solely to the actual construction work. Generally, the effort of a contractor under a cost-reimbursement construction or professional services contract can be segregated into factors such as (1) mobilization including organization, (2) use of finances, (3) contracting for and receipt of materials, (4) placement of subcontracts, (5) preparation of shop drawings, (6) work in place performed by own forces, (7) supervision of subcontractors' work (8) job administration, and (9) demobilization.

(b) Each of the applicable factors in paragraph (a) above shall be assigned a weighted value depending on its importance and difficulty. The total weight value of all factors should be easily divisible (e.g., by 100) to determine percentages. The percentage of completion of each factor must be established based upon the specific facts of each contract. When totaled, the percentage of completion of each factor applied to the weighted value of each factor results in the overall percentage of contract completion. The percentage of completion is then applied to the total contract fee or to the fee applicable to the terminated portion of the contract to arrive at an equitable adjustment.

Subpart 49.4—Termination for Default

49.401 General.

(a) Termination for default is generally the exercise of the Government's contractual right to completely or partially terminate a contract because of the contractor's actual or anticipated failure to perform its contractual obligations.

(b) If the contractor can establish, or it is otherwise determined that the contractor was not in default or that the failure to perform is excusable; i.e., arose out of causes beyond the control and without the fault or negligence of the contractor, the default clauses prescribed in 49.503 and located at 52.249 provide that a termination for default will be considered to have been a termination for the convenience of the Government, and the rights and obligations of the parties governed accordingly.

(c) The Government may, in appropriate cases, exercise termination or cancellation rights in addition to those in the contract clauses (see for example, paragraph (h) of the Default clause at 52.249-8).

(d) For default terminations of orders under Federal Supply Schedule contracts, see subpart 8.4.

(e) Notwithstanding the provisions of this 49.401, the contracting officer may, with the written consent of the contractor, reinstate the terminated contract by amending the notice of termination, after a written determination is made that the supplies or services are still required and reinstatement is advantageous to the Government.

49.402 Termination of fixed-price contracts for default.

49.402-1 The Government's right.

Under contracts containing the Default clause at 52.249-8, the Government has the right, subject to the notice requirements of the clause, to terminate the contract completely or partially for default if the contractor fails to (a) make delivery of the supplies or perform the services within the time specified in the contract, (b) perform any other provision of the contract, or (c) make progress and that failure endangers performance of the contract.

49.402-2 Effect of termination for default.

(a) Under a termination for default, the Government is not liable for the contractor's costs on undelivered work and is entitled to the repayment of advance and progress payments, if any, applicable to that work. The Government may elect, under the Default clause, to require the contractor to transfer title and deliver to the Government completed supplies and manufacturing materials, as directed by the contracting officer.

(b) The contracting officer shall not use the Default clause as authority to acquire any completed supplies or manufacturing materials unless it has been ascertained that the Government does not already have title under some other provision of the contract. The contracting officer shall acquire manufacturing materials under the Default clause for furnishing to another contractor only after considering the difficulties the other contractor may have in using the materials.

(c) Subject to paragraph (d) below, the Government shall pay the contractor the contract price for any completed supplies, and the amount agreed upon by the contracting officer and the contractor for any manufacturing materials, acquired by the Government under the Default clause.

(d) The Government must be protected from overpayment that might result from failure to provide for the Government's potential liability to laborers and material suppliers for lien rights outstanding against the completed supplies or materials after the Government has paid the contractor for them. To accomplish this, before paying for supplies or materials, the contracting officer shall take one or more of the following measures:

(1) Ascertain whether the payment bonds, if any, furnished by the contractor are adequate to satisfy all lienors' claims or whether it is feasible to obtain similar bonds to cover outstanding liens.

(2) Require the contractor to furnish appropriate statements from laborers and material suppliers disclaiming any lien rights they may have to the supplies and materials.

(3) Obtain appropriate agreement by the Government, the contractor, and lienors ensuring release of the Government from any potential liability to the contractor or lienors.

(4) Withhold from the amount due for the supplies or materials any amount the contracting officer determines necessary to protect the Government's interest, but only if the measures in subparagraphs (d)(1), (2), and (3) above cannot be accomplished or are considered inadequate.

(5) Take other appropriate action considering the circumstances and the degree of the contractor's solvency.

(e) The contractor is liable to the Government for any excess costs incurred in acquiring supplies and services similar to those terminated for default (see 49.402-6), and for any other damages, whether or not repurchase is effected (see 49.402-7).

49.402-3 Procedure for default.

(a) When a default termination is being considered, the Government shall decide which type of termination action to take (i.e., default, convenience, or no-cost cancellation) only after review by contracting and technical personnel, and by counsel, to ensure the propriety of the proposed action.

(b) The administrative contracting officer shall not issue a show cause notice or cure notice without the prior approval of the contracting office, which should be obtained by the most expeditious means.

(c) Subdivision (a)(1)(i) of the Default clause covers situations when the contractor has defaulted by failure to make delivery of the supplies or to perform the services within the specified time. In these situations, no notice of failure or of the possibility of termination for default is required to be sent to the contractor before the actual notice of termination (but see paragraph (e) below). However, if the Government has taken any action that might be construed as a waiver of the contract delivery or performance date, the contracting officer shall send a notice to the contractor setting a new date for the contractor to make delivery or complete performance. The notice shall reserve the Government's rights under the Default clause.

(d) Subdivisions (a)(1)(ii) and (a)(1)(iii) of the Default clause cover situations when the contractor fails to perform some of the other provisions of the contract (such as not furnishing a required performance bond) or so fails to make progress as to endanger performance of the contract. If the termination is predicated upon this type of failure, the contracting officer shall give the contractor written notice specifying the failure and providing a period of 10 days (or longer period as necessary) in which to cure the failure. When appropriate, this notice may be made a part of the notice described in subparagraph (e)(1) below. Upon expiration of the 10 days (or longer period), the contracting officer may issue a notice of termination for default unless it is determined that the failure to perform has been cured. A format for a cure notice is in 49.607.

(e)(1) If termination for default appears appropriate, the contracting officer should, if practicable, notify the contractor in writing of the possibility of the termination. This notice shall call the contractor's attention to the contractual liabilities if the contract is terminated for default, and request the contractor to show cause why the contract should not be terminated
default. The notice may further s
that failure of the contractor
present an explanation may be ta
as an admission that no valid expla
tion exists. When appropriate,
notice may invite the contractor to
cuss the matter at a conference
format for a show cause notice i
49.607.

(2) When a termination for defa
appears imminent, the contracting
ficer shall provide a written notif
tion to the surety. If the contracto
subsequently terminated for defaul
copy of the notice of default shall
sent to the surety.

(3) If requested by the surety,
agreed to by the contractor and
assignees, arrangements may be m
to have future checks mailed to
contractor in care of the surety.
this case, the contractor must forw
a written request to the designa
disbursing officer specifically direct
a change in address for mai
checks.

(4) If the contractor is a small b
ness firm, the contracting officer sh
immediately provide a copy of
cure notice or show cause notice to
contracting office's small business
cialist and the Small Business Adm
istration Regional Office nearest
contractor. The contracting off
should, whenever practicable, con
with the small business specia
before proceeding with a default
mination (see also 49.402-4).

(f) The contracting officer shall
sider the following factors in de
mining whether to terminate a
tract for default:

(1) The terms of the contract
applicable laws and regulations.

(2) The specific failure of the
tractor and the excuses for the fail

(3) The availability of the supp
or services from other sources.

(4) The urgency of the need for
supplies or services and the period
time required to obtain them fr
other sources, as compared with
time delivery could be obtained fr
the delinquent contractor.

(5) The degree of essentiality of
contractor in the Government acqu
tion program and the effect of a ter
nation for default upon the cont

tor's capability as a supplier under other contracts.

(6) The effect of a termination for default on the ability of the contractor to liquidate guaranteed loans, progress payments, or advance payments.

(7) Any other pertinent facts and circumstances.

(g) If, after compliance with the procedures in paragraphs (a) through (f) of this 49.402-3, the contracting officer determines that a termination for default is proper, the contracting officer shall issue a notice of termination stating—

(1) The contract number and date;

(2) The acts or omissions constituting the default;

(3) That the contractor's right to proceed further under the contract (or a specified portion of the contract) is terminated;

(4) That the supplies or services terminated may be purchased against the contractor's account, and that the contractor will be held liable for any excess costs;

(5) If the contracting officer has determined that the failure to perform is not excusable, that the notice of termination constitutes such decision, and that the contractor has the right to appeal such decision under the Disputes clause;

(6) That the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs; and

(7) That the notice constitutes a decision that the contractor is in default as specified and that the contractor has the right to appeal under the Disputes clause.

(h) The contracting officer shall make the same distribution of the termination notice as was made of the contract. A copy shall also be furnished to the contractor's surety, if any, when the notice is furnished to the contractor. The surety should be requested to advise if it desires to arrange for completion of the work. In addition, the contracting officer shall notify the disbursing officer to withhold further payments under the terminated contract, pending further advice, which should be furnished at the earliest practicable time.

(i) In the case of a construction contract, promptly after issuance of the termination notice, the contracting officer shall determine the manner in which the work is to be completed and whether the materials, appliances, and plant that are on the site will be needed.

(j) If the contracting officer determines before issuing the termination notice that the failure to perform is excusable, the contract shall not be terminated for default. If termination is in the Government's interest, the contracting officer may terminate the contract for the convenience of the Government.

(k) If the contracting officer has not been able to determine, before issuance of the notice of termination whether the contractor's failure to perform is excusable, the contracting officer shall make a written decision on that point as soon as practicable after issuance of the notice of termination. The decision shall be delivered promptly to the contractor with a notification that the contractor has the right to appeal as specified in the Disputes clause.

[48 FR 42447, Sept. 19, 1983, as amended at 54 FR 48990, Nov. 28, 1989]

49.402-4 Procedure in lieu of termination for default.

The following courses of action, among others, are available to the contracting officer in lieu of termination for default when in the Government's interest:

(a) Permit the contractor, the surety, or the guarantor, to continue performance of the contract under a revised delivery schedule.

(b) Permit the contractor to continue performance of the contract by means of a subcontract or other business arrangement with an acceptable third party, provided the rights of the Government are adequately preserved.

(c) If the requirement for the supplies and services in the contract no longer exists, and the contractor is not liable to the Government for damages as provided in 49.402-7, execute a no-cost termination settlement agreement using the formats in 49.603-6 and 49.603-7 as a guide.

49.402-5 Memorandum by the contracting officer.

When a contract is terminated for default or a procedure authorized by 49.402-4 is followed, the contracting officer shall prepare a memorandum for the contract file explaining the reasons for the action taken.

49.402-6 Repurchase against contractor's account.

(a) When the supplies or services are still required after termination, the contracting officer shall repurchase the same or similar supplies or services against the contractor's account as soon as practicable. The contracting officer shall repurchase at as reasonable a price as practicable, considering the quality and delivery requirements. The contracting officer may repurchase a quantity in excess of the undelivered quantity terminated for default when the excess quantity is needed, but excess cost may not be charged against the defaulting contractor for more than the undelivered quantity terminated for default (including variations in quantity permitted by the terminated contract). Generally, the contracting officer will make a decision whether or not to repurchase before issuing the termination notice.

(b) If the repurchase is for a quantity not over the undelivered quantity terminated for default, the Default clause authorizes the contracting officer to use any terms and acquisition method deemed appropriate for the repurchase. However, the contracting officer shall obtain competition to the maximum extent practicable for the repurchase. The contracting officer shall cite the Default clause as the authority. If the repurchase is for a quantity over the undelivered quantity terminated for default, the contracting officer shall treat the entire quantity as a new acquisition. If the repurchase is for a quantity over the undelivered quantity terminated for default, the contracting officer shall treat the entire quantity as a new acquisition.

(c) If repurchase is made at a price over the price of the supplies or services terminated, the contracting officer shall, after completion and final payment of the repurchase contr
make a written demand on the
tractor for the total amount of
excess, giving consideration to any
creases or decreases in other c
such as transportation, discounts,
If the contractor fails to make
ment, the contracting officer s
follow the procedures in subpart
for collecting contract debts due
Government.

[48 FR 42447, Sept. 19, 1983, as amende
50 FR 1745, Jan. 11, 1985; 50 FR 52429,
23, 1985]

49.402-7 Other damages.

(a) If a contract is terminated for
fault or if a course of action in lie
termination for default is follo
(see 49.402-4), the contracting off
shall promptly ascertain and m
demand for any liquidated damage
which the Government is enti
under the contract. Under the c
tract clauses for liquidated damage
52.212-4, these damages are in a
tion to any excess repurchase costs.

(b) If the Government has suffe
any other ascertainable damages
result of the contractor's default,
contracting officer shall, on the b
of legal advice, take appropriate act
as prescribed in subpart 32.6 to as
the Government's demand for
damages.

49.403 Termination of cost-reimbursem contracts for default.

(a) The right to terminate a cost
imbursement contract for default
provided for in the Termination
Default or for Convenience of
Government clause at 52.249-6. A
day notice to the contractor bef
termination for default is required
every case by the clause.

(b) Settlement of a cost-reimbu
ment contract terminated for defa
is subject to the principles in subp
49.1 and 49.3 the same as when a c
tract is terminated for convenie
except that—

(1) The costs of preparing the c
tractor's settlement proposal are
allowable (see subparagraph (g)(3)
the clause); and

(2) The contractor is reimbursed
allowable costs, and an appropriate

duction is made in the total fee, if any, (see subparagraph (g)(4) of the clause).

(c) The contracting officer shall use the procedures in 49.402 to the extent appropriate in considering the termination for default of a cost-reimbursement contract. However, a cost-reimbursement contract does not contain any provision for recovery of excess repurchase costs after termination for default (but see paragraph (g) of the clause at 52.246-3 with respect to failure of the contractor to replace or correct defective supplies).

49.404 Surety-takeover agreements.

(a) The procedures in this section apply primarily, but not solely, to fixed-price construction contracts terminated for default.

(b) Because of the surety's liability for damages resulting from the contractor's default, the surety has certain rights and interests in the completion of the contract work and application of any undisbursed funds. Accordingly, the contracting officer shall carefully consider proposals by the surety concerning completion of the work. The contracting officer shall take action on the basis of the Government's interest, including the possible effect of the action upon the Government's rights against the surety.

(c) If the surety offers to complete the contract work, this should normally be permitted unless the contracting officer has reason to believe that the persons or firms proposed by the surety to complete the work are not competent and qualified and the interests of the Government would be substantially prejudiced.

(d) Because of the possibility of conflicting demands for unpaid prior earnings (retained percentages and unpaid progress estimates) of the defaulting contractor, the surety may condition its offer of completion upon the execution by the Government of a *takeover* agreement fixing the surety's rights to payment from those funds. In that event, the contracting officer may (but not before the effective date of termination) enter into a written agreement with the surety. The contracting officer should consider including in the agreement both the surety and the defaulting contractor in order to eliminate any disagreement concerning the contractor's residual rights, including assertions to unpaid prior earnings.

(e) The agreement shall provide for the surety to complete the work according to all the terms and conditions of the contract and for the Government to pay the surety the balance of the contract price unpaid at the time of default, but not in excess of the surety's costs and expenses, in the manner provided by the contract subject to the following conditions:

(1) Any unpaid earnings of the defaulting contractor, including retained percentages and progress estimates for work accomplished before termination, shall be subject to debts due the Government by the contractor, except to the extent that such unpaid earnings may be required to permit payment to the completing surety of its actual costs and expenses incurred in the completion of the work, exclusive of its payments and obligations under the payment bond given in connection with the contract.

(2) The agreement shall not waive or release the Government's right to liquidated damages for delays in completion of the work, except to the extent that they are excusable under the contract.

(3) If the contract proceeds have been assigned to a financing institution, the surety may not be paid from unpaid earnings, unless the assignee consents to the payment in writing.

(4) The surety shall not be paid any amount in excess of its total expenditures necessarily made in completing the work and discharging its liabilities under the payment bond of the defaulting contractor. Furthermore, payments to the surety to reimburse it for discharging its liabilities under the payment bond of the defaulting contractor shall be only on authority of—

(i) Mutual agreement between the Government, the defaulting contractor, and the surety;

(ii) Determination of the Comptroller General as to payee and amount; or

(iii) Order of a court of competent jurisdiction.

49.405 Completion by another contractor.

If the surety does not arrange for completion of the contract, the contracting officer normally will arrange for completion of the work by awarding a new contract based on the same plans and specifications. The new contract may be the result of sealed bidding or any other appropriate contracting method or procedure. The contracting officer shall exercise reasonable diligence to obtain the lowest price available for completion.

[48 FR 42447, Sept. 19, 1983, as amended at 50 FR 1746, Jan. 11, 1985; 50 FR 52429, Dec. 23, 1985]

49.406 Liquidation of liability.

The contract provides that the contractor and the surety are liable to the Government for resultant damages. The contracting officer shall use all retained percentages of progress payments previously made to the contractor and any progress payments due for work completed before the termination to liquidate the contractor's and the surety's liability to the Government. If the retained and unpaid amounts are insufficient, the contracting officer shall take steps to recover the additional sum from the contractor and the surety.

Subpart 49.5—Contract Termination Clauses

49.501 General.

This subpart prescribes the principal contract termination clauses. In appropriate cases, agencies may authorize the use of special purpose clauses, if consistent with this regulation.

49.502 Termination for convenience of the Government.

(a) *Fixed-price contracts of $100,000 or less (short form).*

(1) *General use.* The contracting officer shall insert the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be $100,000 or less, except (i) if use of the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form) is appropriate, (ii) in contracts for research and development work with an educational or nonprofit institution on a no-profit basis, (iii) in contracts for architect-engineer services, or (iv) if one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(2) *Dismantling and demolition.* If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(b) *Fixed-price contracts over $100,000.*

(1) (i) *General use.* The contracting officer shall insert the clause at 52.249-2, Termination for Convenience of the Government (Fixed-Price), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to be over $100,000, except in contracts for (i) dismantling and demolition, (ii) research and development work with an educational or nonprofit institution on a no-profit basis, or (iii) architect-engineer services; it shall not be used if the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), is appropriate (see 49.502(c)), or one of the clauses prescribed or cited at 49.505(a), (b), or (e), is appropriate.

(ii) *Construction.* If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(iii) *Partial payments.* If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(2) *Dismantling and demolition.* The contracting officer shall insert the clause at 52.249-3, Termination for Convenience of the Government (Dismantling, Demolition, or Removal of Improvements) in solicitations and contracts for dismantling, demolition, or removal of improvements, when a fixed-price contract is contemplated

and the contract amount is expected to be over $100,000. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(c) *Service contracts (short form).* The contracting officer shall insert the clause at 52.249-4, Termination for Convenience of the Government (Services) (Short Form), in solicitations and contracts for services, regardless of value, when a fixed-price contract is contemplated and the contracting officer determines that because of the kind of services required, the successful offeror will not incur substantial charges in preparation for and in carrying out the contract, and would, if terminated for the convenience of the Government, limit termination settlement charges to services rendered before the date of termination. Examples of services where this clause may be appropriate are contracts for rental of unreserved parking space, laundry and drycleaning, etc.

(d) *Research and development contracts.* The contracting officer shall insert the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), in solicitations and contracts when either a fixed-price or cost-reimbursement contract is contemplated for research and development work with an educational or nonprofit institution on a no-profit or no-fee basis.

(e) *Subcontracts.* (1) *General use.* The prime contractor may find the clause at 52.249-1, Termination for Convenience of the Government (Fixed-Price) (Short Form), or at 52.249-2, Termination for Convenience of the Government (Fixed-Price), as appropriate, suitable for use in fixed-price subcontracts, except as noted in subparagraph (2) below; *provided*, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (c)) in 52.249-2 should be deleted and the periods reduced for submitting the subcontractor's termination settlement proposal (e.g., 6 months), and for requesting an equitable price adjustment (e.g., 45 days).

(2) *Research and development.* The prime contractor may find the clause at 52.249-5, Termination for the Convenience of the Government (Educational and Other Nonprofit Institutions), suitable for use in subcontracts placed with educational or nonprofit institutions on a no-profit or no-fee basis; *provided*, that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraph (g)) should be deleted, the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months), the subcontract should be placed on a no-profit or no-fee basis, and the subcontract should incorporate or be negotiated on the basis of the cost principles in part 31 of the Federal Acquisition Regulation.

49.503 Termination for convenience of the Government and default.

(a) *Cost-reimbursement contracts.*

(1) *General use.* The contracting officer shall insert the clause at 52.249-6, Termination (Cost-Reimbursement), in solicitations and contracts when a cost-reimbursement contract is contemplated, except in contracts for architect-engineer services and for research and development with an educational or nonprofit institution on a no-fee basis.

(2) *Construction.* If the contract is for construction, the contracting officer shall use the clause with its Alternate I.

(3) *Partial payments.* If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate II. In such contracts for construction, the contracting officer shall use the clause with its Alternate III.

(4) *Time-and-material and labor-hour contracts.* If the contract is a time-and-material or labor-hour contract, the contracting officer shall use

the clause with its Alternate IV. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate V.

(b) *Fixed-price contracts.* The contracting officer shall insert the clause at 52.249-7, Termination (Fixed-Price Architect-Engineer), in solicitations and contracts for architect-engineer services, when a fixed-price contract is contemplated.

(c) *Subcontracts.* The prime contractor may find the clause at 52.249-6, Termination (Cost-Reimbursement), suitable for use in cost-reimbursement subcontracts; *provided,* that the relationship between the contractor and subcontractor is clearly indicated. Inapplicable conditions (e.g., paragraphs (d), (i) and (m)) should be deleted and the period for submitting the subcontractor's termination settlement proposal should be reduced (e.g., 6 months).

49.504 Termination of fixed-price contracts for default.

(a) (1) *Supplies and services.* The contracting officer shall insert the clause at 52.249-8, Default (Fixed-Price Supply and Service), in solicitations and contracts when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if the acquisition involves items with a history of unsatisfactory quality).

(2) *Transportation.* If the contract is for transportation or transportation-related services, the contracting officer shall use the clause with its Alternate I.

(b) *Research and development.* The contracting officer shall insert the clause at 52.249-9, Default (Fixed-Price Research and Development), in solicitations and contracts for research and development when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation, except those with educational or nonprofit institutions on a no-profit basis. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if the contracting officer believes that key personnel essential to the work may be devoted to other programs).

(c) (1) *Construction.* The contracting officer shall insert the clause at 52.249-10, Default (Fixed-Price Construction), in solicitations and contracts for construction, when a fixed-price contract is contemplated and the contract amount is expected to exceed the small purchase limitation. The contracting officer may use the clause when the contract amount is not expected to exceed the small purchase limitation, if appropriate (e.g., if completion dates are essential).

(2) *Dismantling and demolition.* If the contract is for dismantling, demolition, or removal of improvements, the contracting officer shall use the clause with its Alternate I.

(3) *National emergencies.* If the contract is to be awarded during a period of national emergency, the contracting officer may use the clause (i) with its Alternate II when a fixed-price contract for construction is contemplated, or (ii) with its Alternate III when a contract for dismantling, demolition, or removal of improvements is contemplated.

49.505 Other termination clauses.

(a) *Facilities.* The contracting officer shall insert the clause at 52.249-11, Termination of Work (Consolidated Facilities or Facilities Acquisition), in consolidated facilities contracts and facilities acquisition contracts. If the contract is with an agency of the U.S. Government or with State, local, or foreign governments or their agencies, and if the contracting officer determines that the requirement to pay interest on excess partial payments is inappropriate, the contracting officer shall use the clause with its Alternate I.

(b) *Personal service contracts.* The contracting officer shall insert the clause at 52.249-12, Termination (Personal Services), in solicitations and contracts for personal services (see part 37).

(c) *Failure to perform.* The contracting officer shall insert the clause at 52.249-13, Failure to Perform, in facilities contracts, except facilities use contracts with nonprofit educational institutions.

(d) *Excusable delays.* The contracting officer shall insert the clause at 52.249-14, Excusable Delays, in solicitations and contracts for supplies, services, construction, and research and development on a fee basis, when a cost-reimbursement contract is contemplated. The contracting officer shall also insert the clause in time-and-material contracts, labor-hour contracts, consolidated facilities contracts, and facilities acquisition contracts.

(e) *Communication service contracts.* This regulation does not prescribe a clause for the cancellation or termination of orders under communication service contracts with common carriers because of special agency requirements that apply to these services. An appropriate clause, however, shall be prescribed at agency level, within those agencies contracting for these services.

Subpart 49.6—Contract Termination Forms and Formats

49.601 Notice of termination for convenience.

(See 49.402-3(g) for notice of termination for default.)

49.601-1 Telegraphic notice.

(a) *Complete termination.* The following telegraphic notice is suggested for use if a supply contract is being completely terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

DATE————————

XYZ Corporation
New York, NY 12345

Contract No. .... is completely terminated under clause ...., effective .... [*insert* "immediately" *or* "on ...., 19..", or "as soon as you have delivered, including prior deliveries, the following items:" (*list*)]. Immediately stop all work, terminate subcontracts, and place no further orders except to the extent [*insert if applicable* "necessary to complete items not terminated or"] that you or a subcontractor wish to retain and continue for your own account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

____

Contracting Officer

(b) *Partial termination.* The following telegraphic notice is suggested for use if a supply contract is being partially terminated for convenience. If appropriately modified, the notice may be used for other than supply contracts.

DATE————————

XYZ Corporation
New York, NY 12345

Contract No. ..... is partially terminated under clause ...., effective .... [*insert* "immediately" *or* "on ...., 19.."]. Reduce items to be delivered as follows: [*insert instructions*]. Immediately stop all work, terminate subcontracts, and place no further orders except as necessary to perform the portion not terminated or that you or a subcontractor wish to retain and continue for your account any work-in-process or other materials. Telegraph similar instructions to all subcontractors and suppliers. Detailed instructions follow.

____

Contracting Officer

49.601-2 Letter notice.

The following letter notice of termination is suggested for use if a contract for supplies is being terminated for convenience. With appropriate modifications, it may be used in terminating contracts for other than supplies and in terminating subcontracts. This notice shall be sent by certified mail, return receipt requested. If no prior telegraphic notice was issued, use the alternate notice that follows this notice.

NOTICE OF TERMINATION TO PRIME CONTRACTORS

[*At the top of the notice, set out all special details relating to the particular termination; e.g., name and address of company,* *contract number of terminated contract, items, etc.*]

(a) *Effective date of termination.* This confirms the Government's telegram to you dated ...., 19...., terminating .... [*insert* "completely" *or* "in part"] Contract No. ...... (referred to as "the contract") for the Government's convenience under the clause entitled .... [*insert title of appropriate termination clause*]. The termination is effective on the date and in the manner stated in the telegram.

(b) *Cessation of work and notification to immediate subcontractors.* You shall take the following steps:

(1) Stop all work, make no further shipments, and place no further orders relating to the contract, except for—

(i) The continued portion of the contract, if any;

(ii) Work-in-process or other materials that you may wish to retain for your own account; or

(iii) Work-in-process that the Contracting Officer authorizes you to continue (A) for safety precautions, (B) to clear or avoid damage to equipment, (C) to avoid immediate complete spoilage of work-in-process having a definite commercial value, or (D) to prevent any other undue loss to the Government. (If you believe this authorization is necessary or advisable, immediately notify the Contracting Officer by telephone or personal conference and obtain instructions.)

(2) Keep adequate records of your compliance with subparagraph (1) above showing the—

(i) Date you received the Notice of Termination;

(ii) Effective date of the termination; and

(iii) Extent of completion of performance on the effective date.

(3) Furnish notice of termination to each immediate subcontractor and supplier that will be affected by this termination. In the notice—

(i) Specify your Government contract number;

(ii) State whether the contract has been terminated completely or partially;

(iii) Provide instructions to stop all work, make no further shipments, place no further orders, and terminate all subcontracts under the contract, subject to the exceptions in subparagraph (1) above;

(iv) Provide instructions to submit any settlement proposal promptly; and

(v) Request that similar notices and instructions be given to its immediate subcontractors.

(4) Notify the Contracting Officer of all pending legal proceedings that are based on subcontracts or purchase orders under the contract, or in which a lien has been or may be placed against termination inventory to be reported to the Government. Also, promptly notify the Contracting Officer of any such proceedings that are filed after receipt of this Notice.

(5) Take any other action required by the Contracting Officer or under the Termination clause in the contract.

(c) *Termination inventory.* (1) As instructed by the Contracting Officer, transfer title and deliver to the Government all termination inventory of the following types or classes, including subcontractor termination inventory that you have the right to take [*Contracting Officer insert proper identification or* "None"].

(2) To settle your proposal, it will be necessary to establish that all prime and subcontractor termination inventory has been properly accounted for. For detailed information, see part 45.

(d) *Settlements with subcontractors.* You remain liable to your subcontractors and suppliers for proposals arising because of the termination of their subcontracts or orders. You are requested to settle these settlement proposals as promptly as possible. For purposes of reimbursement by the Government, settlements will be governed by the provisions of part 49.

(e) *Completed end items.* (1) Notify the Contracting Officer of the number of items completed under the contract and still on hand and arrange for their delivery or other disposal (see 49.205).

(2) Invoice acceptable completed end items under the contract in the usual way and do not include them in the settlement proposal.

(f) *Patents.* If required by the contract, promptly forward the following to the Contracting Officer:

(1) Disclosure of all inventions, discoveries, and patent applications made in the performance of the contract.

(2) Instruments of license or assignment on all inventions, discoveries, and patent applications made in the performance of the contract.

(g) *Employees affected.* (1) If this termination, together with other outstanding terminations, will necessitate a significant reduction in your work force, you are urged to—

(i) Promptly inform the local State Employment Service of your reduction-in-force schedule in numbers and occupations, so that the Service can take timely action in assisting displaced workers;

(ii) Give affected employees maximum practical advance notice of the employment reduction and inform them of the facilities and services available to them through the local State Employment Service offices;

(iii) Advise affected employees to file applications with the State Employment Service to qualify for unemployment insurance, if necessary;

(iv) Inform officials of local unions having agreements with you of the impending reduction-in-force; and

(v) Inform the local Chamber of Commerce and other appropriate organizations which are prepared to offer practical assistance in finding employment for displaced workers of the impending reduction-in-force.

(2) If practicable, urge subcontractors to take similar actions to those described in subparagraph (1) above.

(h) *Administrative.* The contract administration office named in the contract will identify the Contracting Officer who will be in charge of the settlement of this termination and who will, upon request, provide the necessary settlement forms. Matters not covered by this notice should be brought to the attention of the undersigned.

(i) Please acknowledge receipt of this notice as provided below.

(Title)

(End of notice)

Alternate notice. If no prior telegraphic notice was issued, substitute the following paragraph (a) for paragraph (a) of the notice above:

(a) *Effective date of termination.* You are notified that Contract No. ...... (referred to as "the contract") is terminated .... [*insert* "completely" *or* "in part"] for the Government's convenience under the clause entitled .... [*insert title of appropriate termination clause*]. The termination is effective .... [*insert either* "immediately upon receipt of this Notice" *or* "on ...., 19...," *or* "as soon as you have delivered, including prior deliveries, the following items:" (*list*)]. Reduce items to be delivered as follows: [*insert instructions*].

49.602 Forms for settlement of terminated contracts.

The standard forms listed below shall be used for settling terminated prime contracts. The forms at 49.602-1 and 49.602-2 may also be used for settling terminated subcontracts. Standard forms are illustrated in subpart 53.3.

49.602-1 Termination settlement proposal forms.

(a) Standard Form 1435, Settlement Proposal (Inventory Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on an inventory basis (see 49.206-2(a)).

(b) Standard Form 1436, Settlement Proposal (Total Cost Basis), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the proposals are computed on a total cost basis (see 49.206-2(b)).

(c) Standard Form 1437, Settlement Proposal for Cost-Reimbursement Type Contracts, shall be used to submit settlement proposals resulting from the termination of cost-reimbursement contracts (see 49.302).

(d) Standard Form 1438, Settlement Proposal (Short Form), shall be used to submit settlement proposals resulting from the termination of fixed-price contracts if the total proposal is less than $10,000 (see 49.206-1(d)).

49.602-2 Inventory schedule forms.

The following forms shall be used to support settlement proposals submitted on the forms specified in 49.602-1(a), (b), and (c) (see 45.606):

(a) Standard Form 1426, Inventory Schedule A (Metals in Mill Product Form), and Standard Form 1427, Inventory Schedule A - Continuation Sheet (Metals in Mill Product Form).

(b) Standard Form 1428, Inventory Schedule B, and Standard Form 1429, Inventory Schedule B - Continuation Sheet (used for reporting raw materials, purchased parts, finished components, finished product, plant equipment, and miscellaneous inventory).

(c) Standard Form 1430, Inventory Schedule C - (Work-in-Process), and Standard Form 1431, Inventory Schedule C - Continuation Sheet (Work-in-Process).

(d) Standard Form 1432, Inventory Schedule D (Special Tooling and Special Test Equipment), and Standard Form 1433, Inventory Schedule D - Continuation Sheet (Special Tooling and Special Test Equipment).

(e) Standard Form 1434, Termination Inventory Schedule E (Short Form for use with SF 1438 Only).

49.602-3 Schedule of accounting information.

Standard Form 1439, Schedule of Accounting Information, shall be filed in support of a settlement proposal unless the proposal is filed on Standard Form 1438, Settlement Proposal (Short Form) (see 49.206-1(e)).

49.602-4 Partial payments.

Standard Form 1440, Application for Partial Payment, shall be used to apply for partial payments (see 49.112-1).

49.602-5 Settlement agreement.

Standard Form 30 (SF 30), Amendment of Solicitation/Modification of Contract, shall be used to execute a settlement agreement (see 49.109-1).

49.603 Formats for termination for convenience settlement agreements.

The formats to be used for termination for convenience settlement agreements should be substantially as shown in this section (see 49.109). Termination contracting officers (TCO's) may, however, modify the contents of these agreements to conform with special termination clauses prescribed or authorized by their agencies (e.g., see 49.501 and 49.505(e)).

49.603-1 Fixed-price contracts—complete termination.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts completely terminated.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ....

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Of-

best copy available

ficer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(4) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(5) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(6) (i) The Contractor has received $......... for work and services performed, or items delivered, under the completed portion of the contract. The Government confirms the right of the Contractor, subject to paragraph (7) below, to retain this sum and agrees that it constitutes a portion of the total amount to which the Contractor is entitled in settlement of the contract.

(ii) Further, the Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of $.......... [*insert net amount of settlement*], arrived at by deducting from the sum of $.......... [*for proposals on an inventory basis insert gross amount of settlement; for proposals on a total cost basis, insert gross amount of settlement less amount shown in subdivision (6)(i) above*], (A) the amount of $......... for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest) and (B) the amount of $......... for all applicable property disposal credits [*insert if appropriate,* "and (C) the amount of $.......... for all other amounts due the Government under this contract, except as provided in paragraph (7) below"].

(iii) The net settlement of $.......... in subdivision (ii) above, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and of all other demands and liabilities of the Contractor and the Government under the contract except as provided in paragraph (7) below.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-2 Fixed-price contracts—partial termination.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts partially terminated.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ....

(b) The parties agree to the following:

(1) The terminated portion of the contract is as follows: [*specify the terminated portion clearly as to* (*i*) *item numbers,* (*ii*) *descriptions,* (*iii*) *quantity terminated,* (*iv*) *unit price of items,* (*v*) *total price of terminated items, and* (*vi*) *any other explanation necessary to avoid uncertainty or misunderstanding*].

(2) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(3) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(4) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(5) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received, or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(6) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(7) (i) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, the sum of $.......... [*insert net amount of settlement*], arrived at by deducting from $.......... [*insert gross amount of settlement*], (A) the amount of $.......... for all unliquidated partial or progress payments previously made to the Contractor or its assignee and all unliquidated advance payments (with any interest) applicable to the terminated portion of the contract and (B) the amount of $.......... for all applicable property disposal credits.

(ii) The net settlement of $.......... in subdivision (i) above, together with sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the terminated portion of the contract, except as provided in subparagraph (8) below.

(iii) Upon payment of the net settlement of $.........., all obligations of the Contractor to perform further work or services or to make further deliveries under the terminated portion of the contract and all obligations of the Government to make further payments or carry out other undertakings concerning the terminated portion of the contract shall cease; *provided*, that nothing in this agreement shall impair or affect any covenants, terms, or conditions of the contract relating to the completed or continued portion of this contract.

(8) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by, and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-3 Cost-reimbursement contracts—complete termination, if settlement includes cost.

[*Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement includes costs.*]

(a) This supplemental agreement settles the settlement proposal resulting from the Notice of Termination dated ....

(b) The parties agree to the following:

(1) The Contractor certifies that all contract termination inventory (including scrap) has been retained or acquired by the Contractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits have been used in arriving at this agreement.

(2) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by this agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(3) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do
not include any items reaso
usable without loss to the Contr
on its other work. The Contractor
ther certifies that the Contractin
ficer has been informed of any
stantial change in the status of
items between the dates of the t
nation inventory schedules and
date of this agreement.

(4) The Contractor transfers,
veys, and assigns to the Govern
all the right, tit'e, and interest, if
that the Contractor has received,
entitled to receive, in and to sub
tract termination inventory not ot
wise properly accounted for.

(5) The Contractor shall, withi
days after receipt of the paym
specified in this agreement, pay
each of its immediate subcontrac
(or their respective assignees)
amounts to which they are entit
after deducting any prior paym
and, if the Contractor so elects,
amounts due and payable to the
tractor by those subcontractors.

(6) (i) The Contractor has rece
$.......... for work and services
formed, or articles delivered, u
the contract before the effective
of termination. The Government
firms the right of the Contractor,
ject to paragraph (7) below, to re
this sum and agrees that it constit
a portion of the total amount to w
the Contractor is entitled in comp
and final settlement of the contrac

(ii) Further, the Government ag
to pay to the Contractor or its ass
ee, upon presentation of a proper
voice or voucher, the sum of $...
[*insert net amount of settlement*],
rived at by deducting from the sum
$.......... [*insert gross amount of se
ment less amount shown in subd
sion (6)(i) above*] (A) the amount
$.......... for all unliquidated partial
progress payments previously made
the Contractor or its assignee and
unliquidated advance payments (
any interest), (B) the amount of $...
for all applicable property disp
credits [*insert if appropriate*, "and
the amount of $.......... for all ot
amounts due the Government un
this contract, except as provided
paragraph (7) below."]

(iii) The net settlement of $........
subdivision (ii) above, together

sums previously paid, constitutes payment in full and complete settlement of the amount due the Contractor for the complete termination of the contract and of all other demands and liabilities of the Contractor and the Government under the contract, except as provided in paragraph (7) below.

(7) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved:

[*The following list of reserved or excepted rights and liabilities is intended to cover those that should most frequently be reserved and that should be scrutinized at the time a settlement agreement is negotiated (see 49.109-2). The suggested language of the excepted items on the list may be varied at the discretion of the contracting officer. If accuracy or completeness can be achieved by referencing the number of a contract clause or provision covering the matter in question, then follow that method of enumerating reserved rights and liabilities. Omit any of the following that are not applicable and add any additional exceptions or reservations required.*]

(i) All rights and liabilities, if any, of the parties, as to matters covered by, and regulations made implementing 10 U.S.C. 2382, as amended, and any other renegotiation authority.

(ii) All rights of the Government to take the benefit of agreements or judgments affecting royalties paid or payable in connection with the performance of the contract.

(iii) All rights and liabilities, if any, of the parties under those clauses inserted in the contract because of the requirements of Acts of Congress and Executive Orders, including, without limitation, any applicable clauses relating to: labor law, contingent fees, domestic articles, employment of aliens, and "officials not to benefit." [*If the contract contains clauses of this character inserted for reasons other than requirements of Acts of Congress or Executive Orders, the suggested language should be appropriately modified.*]

(iv) All rights and liabilities of the parties arising under the contract and relating to reproduction rights, patent infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(v) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(vi) All rights and liabilities of the parties under the contract relating to any contract termination inventory stored for the Government.

(vii) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(viii) All rights and liabilities of the parties relating to Government property furnished to the Contractor for the performance of this contract.

(ix) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(x) Unresolved demands or assertions by the Contractor against the Government for costs under General Accounting Office exceptions or other costs of the same nature that are excluded from the settlement without prejudice to the rights of either party, as follows: [*Insert amount and describe charges not waived.*]

(xi) Claims by the Contractor against the Government, when the Contractor's rights of reimbursement are disputed, that are excluded without prejudice to the rights of either party are as follows: [*Insert the amounts and describe the claims on which the Contracting Officer has made findings and has disallowed and on which the Contractor has taken, or intends to take, timely appeal.*]

(xii) Unresolved demands or assertions by the Contractor against the Government that are unknown in amount and involve costs alleged to be reimbursable under the contract are as follows: [*Insert the estimated amounts and describe the charges.*]

(xiii) Unknown amounts alleged by the Contractor against the Government, based upon responsibility of the Contractor to third parties that involve costs reimbursable under the contract.

(xiv) Debts due the Government by the Contractor that are based on refunds, rebates, credits, or other amounts not now known to the Government, with interest, now due or that may become due the Contractor from third parties, if the amounts arise out of transactions for which reimbursement has been made to the Contractor under the contract. The Contractor shall pay to the Government, within 30 days after receipt, any of these amounts that become due from any third party or any other source. Interest at the rate established by the Secretary of the Treasury under 50 U.S.C. (App.) 1215(b)(2) shall accrue and shall be paid to the Government on any amounts that remain unpaid after the 30-day period.

(xv) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603-4 Cost-reimbursement contracts—complete termination, with settlement limited to fee.

[*Insert the following in Block 14 of SF 30 for settlement of cost-reimbursement contracts that are completely terminated, if settlement is limited to fee.*]

(a) This supplemental agreement settles the amount of fee due under the contract, terminated in its entirety by Notice of Termination dated ....

(b) The parties agree to the following:

(1) The Contractor has received $.......... on account of its fee under the contract before the effective date of termination.

(2) The Government agrees to pay to the Contractor or its assignee, upon presentation of a proper invoice or voucher, $.......... [*insert net amount to be paid on account of fee*]. This sum, with sums previously paid, constitutes payment in full and complete sett
ment of the amount due the Contr
tor on account of its fee under t
contract.

(3) The Contractor's allowable co
under the contract will be paid und
the terms and conditions of the co
tract and parts 31 and 49 of the Fede
al Acquisition Regulation.

[*Insert subparagraph (3) only
there are costs to be vouchered out* (
*49.302) or if there are costs to be co
ered later by a separate settleme
agreement.*]

(4) Regardless of any other provisi
of this agreement, the following righ
and liabilities of the parties under t
contract are reserved:

[*The following list of reserved or
cepted rights and liabilities is inten
ed to cover those that should most f
quently be reserved and that should
scrutinized at the time a settleme
agreement is negotiated* (*see 49.109-
The suggested language of the except
items on the list may be varied at t
discretion of the contracting officer.
accuracy or completeness can
achieved by referencing the number
a contract clause or provision cov
ing the matter in question, then foll
that method of enumerating reserv
rights and liabilities. Omit any of t
following that are not applicable a
add any additional exceptions or r
ervations required.*]

(i) All rights and liabilities, if any,
the parties, as to matters covered b
and regulations made implementing
U.S.C. 2382, as amended, and a
other renegotiation authority.

(ii) All rights and liabilities, if an
of the parties under those clauses
serted in the contract because of t
requirements of Acts of Congress a
Executive Orders, including, witho
limitation, any applicable clauses
lating to: labor law, contingent fe
domestic articles, employment
aliens, and "officials not to benefit
[*If the contract contains clauses
this character inserted for reaso
other than requirements of Acts
Congress or Executive Orders, the su
gested language should be appropria
ly modified.*]

(iii) All rights and liabilities of t
parties arising under the contract a
relating to reproduction rights, pate

infringements, inventions, or applications for patents, including rights to assignments, invention reports, licenses, covenants of indemnity against patent risks, and bonds for patent indemnity obligations, together with all rights and liabilities under the bonds.

(iv) All rights and liabilities of the parties, arising under the contract or otherwise, and concerning defects, guarantees, or warranties relating to any articles or component parts furnished to the Government by the Contractor under the contract or this agreement.

(v) All rights and liabilities of the parties under agreements relating to the future care and disposition by the Contractor of Government-owned property remaining in the Contractor's custody.

(vi) All rights and liabilities of the parties relating to Government property furnished to, or acquired by, the Contractor for the performance of the contract.

(vii) All rights and liabilities of the parties under the contract relating to options (except options to continue or increase the work under the contract), covenants not to compete, and covenants of indemnity.

(viii) All rights and liabilities, if any, of the parties under those clauses of the contract relating to price reductions for defective cost or pricing data.

(End of agreement)

49.603–5 Cost-reimbursement contracts—partial termination.

[*Insert the following in Block 14 of SF 30, Amendment of Solicitation/Modification of Contract, for settlement agreements for cost-reimbursement contracts as a result of partial termination.*]

(a) This supplemental agreement settles the termination settlement proposal resulting from the Notice of Termination dated ....

(b) The parties agree as follows:

(1) The contract is amended by deleting the terminated portion as follows: [*specify the terminated portion clearly as to (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit and total price of terminated items, and (v) any other explanation necessary to avoid uncertainty or misunderstanding*].

(2) The fee stated in the contract is decreased by $.........., from $.......... to $.......... .

[*Insert, if appropriate,* "(3) The estimated cost of the contract is decreased by $.........., from $.......... to $........".]

(c) The Contractor's allowable costs and earned fee, if any, for the terminated portion of the contract will continue to be reimbursed on SF 1034, Public Voucher for Purchase and Services Other Than Personal, under the applicable provisions of the contract and part 31 of the Federal Acquisition Regulation.

(End of agreement)

49.603–6 No-cost settlement agreement—complete termination.

[*Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under a complete termination, is to be executed.*]

(a) This supplemental agreement .... [*insert* "modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated ...." *or, if not previously terminated,* "terminates the contract in its entirety".]

(b) The parties agree as follows:

The Contractor unconditionally waives any charges against the Government because of the termination of the contract and, except as set forth below, releases it from all obligations under the contract or due to its termination. The Government agrees that all obligations under the contract are concluded, except as follows:

[*List reserved or excepted rights and liabilities. See 49.109–2 and 49.603–1(b)(7).*]

(End of agreement)

49.603–7 No-cost settlement agreement—partial termination.

[*Insert the following in Block 14 of SF 30 if a no-cost settlement agreement, under a partial termination, is to be executed.*]

(a) This supplemental agreement modifies the contract to reflect a no-cost settlement agreement with respect to the Notice of Termination dated ....

(b) The parties agree as follows:

(1) The terminated portion of the contract is as follows: [*Specify (i) item numbers, (ii) descriptions, (iii) quantity terminated, (iv) unit and total price of terminated items, and (v) any other explanation necessary to avoid uncertainty or misunderstanding.*]

(2) The Contractor unconditionally waives any charges against the Government arising under the terminated portion of the contract or by reason of its termination, including, without limitation, all obligations of the Government to make further payments or to carry out any further undertakings under the terminated portion of the contract. The Government acknowledges that the Contractor has no obligation to perform further work or services or to make further deliveries under the terminated portion of the contract. Nothing in this paragraph affects any other covenants, terms, or conditions of the contract. Under the terminated portion of the contract, the following rights and liabilities of the parties are reserved:

[*List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).*]

(End of agreement)

49.603-8 Fixed-price contracts—settlements with subcontractors only.

[*Insert the following in Block 14 of SF 30 for settlements of fixed-price contracts covering only settlements with subcontractors.*]

(a) This agreement settles that portion of the settlement proposal of the Contractor that is based upon termination of the following subcontracts entered into in performing this contract:

[*Insert a list of the terminated subcontracts included in this settlement.*]

(b) The parties agree to the following:

(1) The Contractor certifies that each immediate subcontractor, whose settlement proposal is included in the proposal settled by the agreement, has furnished the Contractor a certificate stating (i) that all subcontract termination inventory (including scrap) has been retained or acquired by the subcontractor, sold to third parties, returned to suppliers, delivered to or stored for the Government, or otherwise properly accounted for, and that all proceeds and retention credits were used in arriving at the settlement of the subcontract, and (ii) that the subcontractor has received a similar certificate from each immediate subcontractor whose proposal was included in its proposal.

(2) The Contractor certifies that all items of termination inventory, the costs of which were used in arriving at the amount of this settlement or the settlement of any subcontract settlement proposal included in this settlement, (i) are properly allocable to the terminated portion of the contract, (ii) do not exceed the reasonable quantitative requirements of the terminated portion of the contract, and (iii) do not include any items reasonably usable without loss to the Contractor on its other work. The Contractor further certifies that the Contracting Officer has been informed of any substantial change in the status of the items between the dates of the termination inventory schedules and the date of this agreement.

(3) The Contractor transfers, conveys, and assigns to the Government all the right, title, and interest, if any, that the Contractor has received or is entitled to receive, in and to subcontract termination inventory not otherwise properly accounted for.

(4) The Contractor shall, within 10 days after receipt of the payment specified in this agreement, pay to each of its immediate subcontractors (or their respective assignees) the amounts to which they are entitled, after deducting any prior payments and, if the Contractor so elects, any amounts due and payable to the Contractor by those subcontractors.

(5) The Government agrees to pay the Contractor or its assignee, upon presentation of a proper invoice or voucher, $.......... [*insert net amount of settlement*], which, together with the amount of $.......... previously paid the Contractor as partial, progress, or advance payments, constitutes payment in full and complete settlement, except as provided in subparagraph (b)(6) below, of the amount due the

Contractor for that portion of its settlement proposal that is based upon termination of the subcontracts listed above.

(6) Regardless of any other provision of this agreement, the following rights and liabilities of the parties under the contract are reserved: [*List reserved or excepted rights and liabilities. See 49.109-2 and 49.603-1(b)(7).*]

(End of agreement)

49.603-9 Settlement of reservations.

[*Insert the following in Block 14 of SF 30 for settlement of reservations.*]

(a) Supplemental Agreement No. ———, dated ———, was executed to reflect the settlement of the termination of this contract. The supplemental agreement excepted from the settlement certain items described in the agreement including the items described in paragraph (b) below. This supplemental agreement settles those items listed in paragraph (b) below.

(b) The parties agree to the following:

(1) The Government agrees to pay the Contractor $ ——— for the following reserved or excepted items:* [*List items.*]

(2) The Contractor releases and forever discharges the Government from all liability and from all existing and future claims and demands that it may have under this contract, insofar as it pertains to the contract, for the items described in subparagraph (1) above.*

[**When payment is due the Government, reverse the words Government* and *Contractor* in subparagraphs (b)(1) and (b)(2).]

(End of agreement)

49.604 Release of excess funds under terminated contracts.

The following format shall be used to recommend the release of excess funds under terminated contracts, except if the contracting office retains responsibility for settlement of the termination:

FROM: Termination Contracting Officer ——— [address]
TO: Contracting office ——— [address]
SUBJ: Terminated Contract No. ——— with ——— [Contractor]
Refs:

(a) [*Cite termination notice and effective date.*]

(b) [*Cite prior letters releasing excess funds, if any.*]

1. Referenced termination notice, ——— [*insert* "completely" *or* "partially"] terminated contract ———.

2. Based on the best information available, it is estimated that the gross settlement cost will be $ ———. The amount available for release as excess to the contract is $ ———. Any payments previously made to the Contractor for terminated items have been considered in arriving at the above amounts.

[*If prior letters recommending release of excess funds are cited, use the following as paragraph 2*:

"The estimated settlement costs previously reported by reference (b) in the amount of $ ——— are revised. On the best evidence now available, it is estimated that the settlement costs will be $ ———. The additional amount available for release is $ ———".]

3. The related appropriations and amounts involved are:

Copies to:
Paying Office
Accounting and Finance Office
Other

49.605 Request to settle subcontractor settlement proposals.

Contractors requesting authority to settle subcontractor settlement proposals shall furnish applicable information from the list below and any additional information required by the contracting officer:

(a) Name of contractor and address of principal office.

(b) Name and location of divisions of the applicant's plant for which authorization is requested.

(c) An explanation of the necessity and justification for the authorization requested.

(d) A full description of the applicant's organization for handling terminations, including the names of the officials in charge of processing and settling proposals.

(e) The number and dollar amount (estimated if necessary) of uncompleted contracts with Government agencies and the percentage applicable to each agency.

(f) The number and dollar amount (estimated if necessary) of uncompleted subcontracts under Government contracts and the percentage applicable to each agency.

(g) The extent of the applicant's experience in termination matters, including the handling of proposals of subcontractors.

(h) The approximate amount and general nature of terminations of the applicant currently in process.

(i) A statement that no other application has been made for any division of the applicant's plant covered by the application or, if one has been made, a full statement of the facts.

(j) The limit of authorization requested.

49.606 Granting subcontract settlement authorization.

Contracting officers shall use the following format when granting subcontract settlement authorization:

LETTER OF AUTHORIZATION

(a) Your request of —— (date) is approved, and you are authorized, subject to the limitations of subsection 49.108-4 and those stated below, to settle, without further approval of the Government, all subcontracts and purchase orders terminated by you as a result of a Government contract being terminated or modified (1) for the convenience of the Government or (2) under any other circumstances that may require the Government to bear the cost of their settlement.

(b) This authorization does not extend to the disposition of Government-furnished material or articles completed but undelivered under the subcontract or purchase order, as these require screening and approval of disposal actions by the Government, except that allocable completed articles may be disposed of without Government approval or screening if the total amount (at subcontract price) when added to the amount of settlement (as computed below) does not exceed $ ——— [*insert limit of authorization being granted*].

(c) This authorization is subject to the following conditions and requirements:

(1) The amount of the subcontract termination settlement does not exceed $ —— [*insert limit of authorization being granted*], computed as follows:

(i) Do not deduct advance or partial payments or credits for retention or other disposal of termination inventory allocated to the settlement proposal.

(ii) Deduct amounts payable for completed articles or work at the contract price or for the settlement of termination proposals of subcontractors (except those settlements that have not been approved by the Government).

(2) Any termination inventory involved has been disposed of under subsection 49.108-4, except that screening and Government approval of scrap and salvage determinations are not required.

(3) The Contracting Officer may incorporate into each Notice of Termination specific instructions about the disposition of specific items of termination inventory, or the Contracting Officer may, at any time before final settlement, issue specific instructions. These instructions will not affect any disposal action taken by you or your subcontractors before their receipt.

(4) The settlements made by you with your subcontractors and suppliers under this authorization, including sales, retention, or other dispositions of property involved in making these settlements, are reimbursable under part 49 and the Termination clause of the contract, and do not require approval of the Contracting Officer.

(5) Any number of separate settlements of $ —— [*insert limit of authorization granted*] or less may be made with a single subcontractor. Settlement proposals that would normally be included in a single proposal; e.g., those based on a series of separate orders for the same item under one contract, should be consolidated whenever possible and shall not be divided to bring them within the authorization.

(6) This authorization does not apply if a subcontractor or supplier is affiliated with you. For this purpose, you should consider a contractor to be affiliated with you if you are under common control or if there is any common interest between you by reason of stock ownership, or otherwise, that is sufficient to create a reasonable doubt that the bargaining between you is completely at arm's length.

(7) A representative of this office will, from time to time, review the methods used in negotiating settlements with your subcontractors and will make a selective examination of the settlements made by you. If the review indicates that you are not adequately protecting the Government's interest, this delegation will be revoked.

(End of letter)

49.607 Delinquency notices.

The formats of the delinquency notices in this section may be used to satisfy the requirements of 49.402-3. All notices will be sent with proof of delivery requested. (See subpart 12.5 for stop-work orders.)

(a) *Cure notice.* If a contract is to be terminated for default before the delivery date, a *Cure Notice* is required by the Default clause. Before using this notice, it must be ascertained that an amount of time equal to or greater than the period of *cure* remains in the contract delivery schedule or any extension to it. If the time remaining in the contract delivery schedule is not sufficient to permit a realistic *cure* period of 10 days or more, the *Cure Notice* should not be issued. The *Cure Notice* may be in the following format:

CURE NOTICE

You are notified that the Government considers your ——— [*specify the contractor's failure or failures*] a condition that is endangering performance of the contract. Therefore, unless this condition is cured within 10 days after receipt of this notice [*or insert any longer time that the Contracting Officer may consider reasonably necessary*], the Government may terminate for default under the terms and conditions of the ——— [*insert clause title*] clause of this contract.

(End of notice)

(b) *Show cause notice.* If the time remaining in the contract delivery schedule is not sufficient to permit a realistic *cure* period of 10 days or more, the following *Show Cause Notice* may be used. It should be sent immediately upon expiration of the delivery period.

SHOW CAUSE NOTICE

Since you have failed to ——— [*insert* "perform Contract No. ——— within the time required by its terms", *or* "cure the conditions endangering performance under Contract No. ——— as described to you in the Government's letter of ——— (date)"], the Government is considering terminating the contract under the provisions for default of this contract. Pending a final decision in this matter, it will be necessary to determine whether your failure to perform arose from causes beyond your control and without fault or negligence on your part. Accordingly, you are given the opportunity to present, in writing, any facts bearing on the question to ——— [*insert the name and complete address of the contracting officer*], within 10 days after receipt of this notice. Your failure to present any excuses within this time may be considered as an admission that none exist. Your attention is invited to the respective rights of the Contractor and the Government and the liabilities that may be invoked if a decision is made to terminate for default.

Any assistance given to you on this contract or any acceptance by the Government of delinquent goods or services will be solely for the purpose of mitigating damages, and it is not the intention of the Government to condone any delinquency or to waive any rights the Government has under the contract.

SOURCE: 48 FR 42471, Sept. 19, 1983, unless otherwise noted.

50.000 Scope of part.

This part prescribes policies and procedures for entering into, amending, or modifying contracts in order to facilitate the national defense under the extraordinary emergency authority granted by Pub. L. 85-804 as amended by Pub. L. 93-155 (50 U.S.C. 1431-1435), as amended, referred to in this part as *the Act*, and Executive Order (EO) 10789, dated November 14, 1958, as amended, referred to in this part as *the Executive Order*. It does not cover advance payments (see subpart 32.4).

50.001 Definitions.

Approving authority, as used in this part, means an agency official or contract adjustment board authorized to approve actions under the Act and Executive Order.

Secretarial level, as used in this part, means a level at or above the level of a deputy assistant agency head, or a contract adjustment board.

Subpart 50.1—General

50.101 Authority.

(a) The Act empowers the President to authorize agencies exercising functions in connection with the national defense to enter into, amend, and modify contracts, without regard to other provisions of law related to making, performing, amending, or modifying contracts, whenever the President considers that such action would facilitate the national defense.

(b) The Executive Order authorizes the heads of the following agencies to exercise the authority conferred by the Act and to delegate it to other officials within the agency: the Government Printing Office; the Federal Emergency Management Agency; the
Tennessee Valley Authority; th
tional Aeronautics and Space Ad
tration; the General Services Ad
tration; the Defense, Army, Nav
Force, Treasury, Interior, Agric
Commerce, and Transportatio
partments; the Department of E
for functions transferred to th
partment from other authorized
cies; and any other agency that
be authorized by the President.

50.102 Policy.

(a) The authority conferred b
Act may not (1) be used in a m
that encourages carelessness
laxity on the part of persons en
in the defense effort or (2) be
upon when other adequate leg
thority exists within the agency.

(b) Actions authorized under th
shall be accomplished as expediti
as practicable, consistent with
care, restraint, and exercise of
judgment appropriate to the u
such extraordinary authority.

(c) Certain kinds of relief previ
available only under the Act; e.
cission or reformation for mutual
take, are now available under th
thority of the Contract Dispute
of 1978. In accordance with sub
graph (a)(2) above, part 33 mu
followed in preference to part 5
such relief. In case of doubt
whether part 33 applies, the cont
ing officer should seek legal advic

50.103 Deviations.

Any deviations to this part 50
not be effective for defense age
until approved by the Secretary o
fense, and for civilian agencies
approved by the agency head.

50.104 Reports.

(a) The Act and Executive Orde
quire that each agency listed
50.101(b) shall submit to Congre
nually by March 15 a report of ac
taken on requests for relief, inclu
indemnity, under the Act's author

(b) The report shall contain th
formation in subparagraph (1) b
for all actions on approved requ
and in subparagraph (2) below fo
requests denied. In addition, for
approved request that involves a

pages tightly bound

or potential cost to the Government in excess of $50,000, the report shall include the name of the contractor, the actual cost or estimated potential cost, a description of the property or services involved, and a statement of the circumstances justifying the action.

(1) For actions on approved requests, the report shall contain—

(i) The total number of requests, total dollar amount requested, and total dollar amount approved; and

(ii) By type of request (amendments without consideration, correction of mistakes, formalization of informal commitments, and other requests as appropriate), the number of requests, dollar amount requested, and dollar amount approved.

(2) For requests denied, the report shall contain—

(i) The total number of requests and total dollar amount requested; and

(ii) By type of request, the number of requests and dollar amount requested.

(c) The report should omit any information classified *Confidential* or higher.

(d) A request is not reportable until a Memorandum of Decision is issued approving or denying relief.

50.105 Records.

Agencies shall maintain complete records of all actions taken under this part 50. For each request for relief processed, these records shall include, as a minimum—

(a) The contractor's request;

(b) All relevant memorandums, correspondence, affidavits, and other pertinent documents;

(c) The Memorandum of Decision (see 50.306 and 50.402); and

(d) A copy of the contractual document implementing an approved request.

Subpart 50.2—Delegation of and Limitations on Exercise of Authority

50.201 Delegation of authority.

An agency head may delegate in writing authority under the Act and Executive Order, subject to the following limitations:

(a) Authority delegated shall be to a level high enough to ensure uniformity of action.

(b) Authority to approve requests to obligate the Government in excess of $50,000 may not be delegated below the secretarial level.

(c) Regardless of dollar amount, authority to approve any amendment without consideration that increases the contract price or unit price may not be delegated below the secretarial level, except in extraordinary cases or classes of cases when the agency head finds that special circumstances clearly justify such delegation.

(d) Regardless of dollar amount, authority to indemnify against unusually hazardous or nuclear risks, including extension of such indemnification to subcontracts, shall be exercised only by the Secretary or Administrator of the agency concerned, the Public Printer, or the Chairman of the Board of Directors of the Tennessee Valley Authority (see 50.403).

50.202 Contract adjustment boards.

An agency head may establish a contract adjustment board with authority to approve, authorize, and direct appropriate action under this part 50 and to make all appropriate determinations and findings. The decisions of the board shall not be subject to appeal; however, the board may reconsider and modify, correct, or reverse its previous decisions. The board shall determine its own procedures and have authority to take all action necessary or appropriate to conduct its functions.

50.203 Limitations on exercise of authority.

(a) The Act is not authority for—

(1) Using a cost-plus-a-percentage-of-cost system of contracting;

(2) Making any contract that violates existing law limiting profit or fees;

(3) Providing for other than full and open competition for award of contracts for supplies or services; or

(4) Waiving any bid bond, payment bond, performance bond, or other bond required by law.

(b) No contract, amendment, or modification shall be made under the Act's authority—

(1) Unless the approving authority finds that the action will facilitate the national defense;

(2) Unless other legal authority within the agency concerned is deemed to be lacking or inadequate;

(3) Except within the limits of the amounts appropriated and the statutory contract authorization (however, indemnification agreements authorized by an agency head (50.403) are not limited to amounts appropriated or to contract authorization); and

(4) That will obligate the Government for any amount over $25 million, unless the Senate and House Committees on Armed Services are notified in writing of the proposed obligation, 60 days of continuous session of Congress have passed since the transmittal of such notification, and neither House of Congress has adopted a resolution disapproving the obligation. However, this subparagraph (4) does not apply to indemnification agreements authorized under 50.403.

(c) No contract shall be amended or modified unless the contractor submits a request before all obligations (including final payment) under the contract have been discharged. No amendment or modification shall increase the contract price to an amount higher than the lowest rejected bid of any responsible bidder, if the contract was negotiated under 10 U.S.C. 2304(a)(15) or 41 U.S.C. 252(c)(14), or FAR 15.103.

(d) No informal commitment shall be formalized unless—

(1) The contractor submits a written request for payment within 6 months after furnishing, or arranging to furnish, supplies or services in reliance upon the commitment; and

(2) The approving authority finds that, at the time the commitment was made, it was impracticable to use normal contracting procedures.

(e) The exercise of authority by officials below the secretarial level is subject to the following additional limitations:

(1) The action shall not—

(i) Release a contractor from performance of an obligation over $50,000;

(ii) Result in an increase in cost to the Government over $50,000;

(iii) Deal with, or directly affect, any matter that has been submitted to the General Accounting Office; or

(iv) Involve disposal of Government surplus property.

(2) Mistakes shall not be corrected by an action obligating the Government for over $1,000, unless the contracting officer receives notice of the mistake before final payment.

(3) The correction of a contract because of a mistake in its making shall not increase the original contract price to an amount higher than the next lowest responsive offer of a responsible offeror.

[48 FR 42471, Sept. 19, 1983, as amended at 50 FR 1746, Jan. 1, 1985; 50 FR 52429, Dec. 23, 1985]

Subpart 50.3—Contract Adjustments

50.300 Scope of subpart.

This subpart prescribes standards and procedures for processing contractors' requests for contract adjustment under the Act and Executive Order.

50.301 General.

The fact that losses occur under a contract is not sufficient basis for exercising the authority conferred by the Act. Whether appropriate action will facilitate the national defense is a judgment to be made on the basis of all of the facts of the case. Although it is impossible to predict or enumerate all the types of cases in which action may be appropriate, examples are included in 50.302 below. Even if all of the factors in any of the examples are present, other considerations may warrant denying a contractor's request for contract adjustment. The examples are not intended to exclude other cases in which the approving authority determines that the circumstances warrant action.

50.302 Types of contract adjustment.

50.302-1 Amendments without consideration.

(a) When an actual or threatened loss under a defense contract, however caused, will impair the productive ability of a contractor whose continued performance on any defense contract or whose continued operation as a source of supply is found to be essential to the national defense, the contract may be amended without consideration, but only to the extent necessary to avoid such impairment to the contractor's productive ability.

(b) When a contractor suffers a loss (not merely a decrease in anticipated profits) under a defense contract because of Government action, the character of the action will generally determine whether any adjustment in the contract will be made, and its extent. When the Government directs its action primarily at the contractor and acts in its capacity as the other contracting party, the contract may be adjusted in the interest of fairness. Thus, when Government action, while not creating any liability on the Government's part, increases performance cost and results in a loss to the contractor, fairness may make some adjustment appropriate.

50.302-2 Correcting mistakes.

(a) A contract may be amended or modified to correct or mitigate the effect of a mistake. The following are examples of mistakes that may make such action appropriate:

(1) A mistake or ambiguity consisting of the failure to express, or express clearly, in a written contract, the agreement as both parties understood it.

(2) A contractor's mistake so obvious that it was or should have been apparent to the contracting officer.

(3) A mutual mistake as to a material fact.

(b) Amending contracts to correct mistakes with the least possible delay normally will facilitate the national defense by expediting the contracting program and assuring contractors that mistakes will be corrected expeditiously and fairly.

50.302-3 Formalizing informal commitments.

Under certain circumstances, informal commitments may be formalized to permit payment to persons who have taken action without a formal contract; for example, when a person, responding to an agency official's written or oral instructions and relying in good faith upon the official's apparent authority to issue them, has furnished or arranged to furnish supplies or services to the agency, or to a defense contractor or subcontractor, without formal contractual coverage. Formalizing commitments under such circumstances normally will facilitate the national defense by assuring such persons that they will be treated fairly and paid expeditiously.

50.303 Contractor requests.

A contractor seeking a contract adjustment shall submit a request in duplicate to the contracting officer or an authorized representative. The request, normally a letter, shall state as a minimum—

(a) The precise adjustment requested;

(b) The essential facts, summarized chronologically in narrative form;

(c) The contractor's conclusions based on these facts, showing, in terms of the considerations set forth in 50.301 and 50.302 above, when the contractor considers itself entitled to the adjustment; and

(d) Whether or not—

(1) All obligations under the contracts involved have been discharged;

(2) Final payment under the contracts involved has been made;

(3) Any proceeds from the request will be subject to assignment or other transfer, and to whom; and

(4) The contractor has sought the same, or a similar or related, adjustment from the General Accounting Office or any other part of the Government, or anticipates doing so.

50.304 Facts and evidence.

(a) *General.* When it is appropriate, the contracting officer or other agency official shall request the contractor to support any request made under

50.303 with any of the following information:

(1) A brief description of the contracts involved, the dates of execution and amendments, the items being acquired, the price or prices, the delivery schedules, and any special contract provisions relevant to the request.

(2) A history of performance indicating when work under the contracts or commitments began, the progress made to date, an exact statement of the contractor's remaining obligations, and the contractor's expectations regarding completion.

(3) A statement of payments received, due, and yet to be received or to become due, including advance and progress payments; amounts withheld by the Government; and information as to any obligations of the Government yet to be performed under the contracts.

(4) A detailed analysis of the request's monetary elements, including precisely how the actual or estimated dollar amount was determined and the effect of approval or denial on the contractor's profits before Federal income taxes.

(5) A statement of the contractor's understanding of why the request's subject matter cannot now, and could not at the time it arose, be disposed of under the contract terms.

(6) The best supporting evidence available to the contractor, including contemporaneous memorandums, correspondence, and affidavits.

(7) Relevant financial statements, cost analyses, or other such data, preferably certified by a certified public accountant, as necessary to support the request's monetary elements.

(8) A list of persons connected with the contracts who have factual knowledge of the subject matter, including, when possible, their names, offices or titles, addresses, and telephone numbers.

(9) A statement and evidence of steps taken to reduce losses and claims to a minimum.

(10) Any other relevant statements or evidence that may be required.

(b) *Amendments without consideration—essentiality a factor.* When a request involves possible amendment without consideration, and essentiality to the national defense is a facto (50.302-1(a)), the contractor may b asked to furnish, in addition to th facts and evidence listed in paragrap (a) of this section, any of the followin information:

(1) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(2) A statement and evidence of the contractor's present estimate of total costs under the contracts involved if it is enabled to complete them, broken down between costs accrued to date and completion costs, and between costs paid and those owed.

(3) A statement and evidence of the contractor's estimate of the final price of the contracts, taking into account all known or contemplated escalation, changes, extras, and the like.

(4) A statement of any claims known or contemplated by the contractor against the Government involving the contracts, other than those stated in response to subparagraph (3) above.

(5) An estimate of the contractor's total profit or loss under the contracts if it is enabled to complete them at the estimated final contract price, broken down between profit or loss to date and completion profit or loss.

(6) An estimate of the contractor's total profit or loss from other Government business and all other sources, from the date of the first contract involved to the estimated completion date of the last contract involved.

(7) A statement of the amount of any tax refunds to date, and an estimate of those anticipated, for the period from the date of the first contract involved to the estimated completion date of the last contract involved.

(8) A detailed statement of efforts the contractor has made to obtain funds from commercial sources to enable contract completion.

(9) A statement of the minimum amount the contractor needs as an amendment without consideration to enable contract completion, and the detailed basis for that amount.

(10) An estimate of the time required to complete each contract if the request is granted.

(11) A statement of the factors causing the loss under the contracts involved.

(12) A statement of the course of events anticipated if the request is denied.

(13) Balance sheets, preferably certified by a certified public accountant, (i) for the contractor's fiscal year immediately preceding the date of the first contract, (ii) for each subsequent fiscal year, (iii) as of the request date, and (iv) projected as of the completion date of all the contracts involved (assuming the contractor is enabled to complete them at the estimated final prices), together with income statements for annual periods subsequent to the date of the first balance sheet. Balance sheets and income statements should be both consolidated and broken down by affiliates. They should show all transactions between the contractor and its affiliates, stockholders, and partners, including loans to the contractor guaranteed by any stockholder or partner.

(14) A list of all salaries, bonuses, and other compensation paid or furnished to the principal officers or partners, and of all dividends and other withdrawals, and of all payments to stockholders in any form since the date of the first contract involved.

(c) *Amendments without consideration—essentiality not a factor.* When a request involves possible amendment without consideration because of Government action, and essentiality to the national defense is not a factor (50.302-1(b)), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A clear statement of the precise Government action that the contractor considers to have caused a loss under the contract, with evidence to support each essential fact.

(2) A statement and evidence of the contractor's original breakdown of estimated costs, including contingency allowances, and profit.

(3) The estimated total loss under the contract, with detailed supporting analysis.

(4) The estimated loss resulting specifically from the Government action, with detailed supporting analysis.

(d) *Correcting mistakes.* When a request involves possible correction of a mistake (50.302-2), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) A statement and evidence of the precise error made, ambiguity existing, or misunderstanding arising, showing what it consists of, how it occurred, and the intention of the parties.

(2) A statement explaining when the mistake was discovered, when the contracting officer was given notice of it, and whether this notice was given before completion of work under, or the effective termination date of, the contract.

(3) An estimate of profit or loss under the contract, with detailed supporting analysis.

(4) An estimate of the increase in cost to the Government resulting from the adjustment requested, with detailed supporting analysis.

(e) *Formalizing informal commitments.* When a request involves possible formalizing of an informal commitment (50.302-3), the contractor may be asked to furnish, in addition to the facts and evidence listed in paragraph (a) of this section, any of the following information:

(1) Copies of any written instructions or assurances (or a sworn statement of any oral instructions or assurances) given the contractor, and identification of the Government official who gave them.

(2) A statement as to when the contractor furnished or arranged to furnish the supplies or services involved, and to whom.

(3) Evidence that the contractor relied upon the instructions or assurances, with a full description of the circumstances that led to this reliance.

(4) Evidence that, when performing the work, the contractor expected to be compensated directly for it by the Government and did not anticipate recovering the costs in some other way.

(5) A cost breakdown supporting the amount claimed as fair compensation for the work performed.

(6) A statement and evidence of the impracticability of providing, in an appropriate contractual instrument, for the work performed.

50.305 Processing cases.

(a) In response to a contractor request made in accordance with 50.303, the contracting officer or an authorized representative shall make a thorough investigation to establish the facts necessary to decide a given case. Facts and evidence, including signed statements of material facts within the knowledge of individuals when documentary evidence is lacking, and audits if considered necessary to establish financial or cost facts, shall be obtained from contractor and Government personnel.

(b) When a case involves matters of interest to more than one Government agency, the interested agencies should maintain liaison with each other to determine whether joint action should be taken.

(c) When additional funds are required from another agency, the contracting agency may not approve adjustment requests before receiving advice that the funds will be available. The request for this advice shall give the contractor's name, the contract number, the amount of proposed relief, a brief description of the contract, and the accounting classification or fund citation. If the other agency makes additional funds available, the agency considering the adjustment request shall be solely responsible for any action taken on the request.

(d) When essentiality to the national defense is an issue (50.302-1(a)), agencies considering requests for amendment without consideration involving another agency shall obtain advice on the issue from the other agency before making the final decision. When this advice is received, the agency considering the request for amendment without consideration shall be responsible for taking whatever action is appropriate.

50.306 Disposition.

When approving or denying a contractor's request made in accordance with 50.303, the approving authority shall sign and date a Memorandum
Decision containing—

(a) The contractor's name and a
dress, the contract identification, a
the nature of the request;

(b) A concise description of the su
plies or services involved;

(c) The decision reached and t
actual cost or estimated potential co
involved, if any;

(d) A statement of the circumstanc
justifying the decision;

(e) Identification of any of the fo
going information classified *Confide*
tial or higher (instead of being inclu
ed in the memorandum, such inform
tion may be set forth in a separa
classified document referenced in t
memorandum); and

(f) If some adjustment is approved,
statement in substantially the follo
ing form: "I find that the action a
thorized herein will facilitate the n
tional defense." The case files suppo
ing this statement will show the de
vation and rationale for the doll
amount of the award. When the doll
amount exceeds the amounts suppo
ed by audit or other independent
views, the approving authority w
further document the rationale for d
viating the recommendation.

[48 FR 42471, Sept. 19, 1983, as amended
51 FR 31426, Sept. 3, 1986]

50.307 Contract requirements.

(a) The Act and Executive Order
quire that every contract entered in
amended, or modified under this pa
50 shall contain—

(1) A citation of the Act and Exec
tive Order;

(2) A brief statement of the circu
stances justifying the action; and

(3) A recital of the finding that t
action will facilitate the national
fense.

(b) The authority in 50.101(a) sh
not be used to omit from contrac
when otherwise required, the clau
at 52.203-5, Covenant Against Cont
gent Fees; 52.215-1, Examination
Records by Comptroller Gene
52.222-4, Contract Work Hours a
Safety Standards Act—Overtime Co
pensation; 52.222-6, Davis-Bacon A
52.222-10, Compliance With Copela
Act Requirements; 52.222-20, Wals

Healey Public Contracts Act; 52.222-26, Equal Opportunity; and 52.232-23, Assignment of Claims.

[48 FR 42471, Sept. 19, 1983, as amended at 51 FR 31426, Sept. 3, 1986; 53 FR 4945, Feb. 18, 1988]

Subpart 50.4—Residual Powers

50.400 Scope of subpart.

This subpart prescribes standards and procedures for exercising residual powers under the Act. The term *residual powers* includes all authority under the Act except (a) that covered by subpart 50.3 and (b) the authority to make advance payments (see subpart 32.4).

50.401 Standards for use.

Subject to the limitations in 50.203, residual powers may be used in accordance with the policies in 50.102 when necessary and appropriate, all circumstances considered. In authorizing the inclusion of the clause at 52.250-1, Indemnification Under Pub. L. 85-804, in a contract or subcontract, an agency head may require the indemnified contractor to provide and maintain financial protection of the type and amount determined appropriate. In deciding whether to approve use of the indemnification clause, and in determining the type and amount of financial protection the indemnified contractor is to provide and maintain, an agency head shall consider such factors as self-insurance, other proof of financial responsibility, workers' compensation insurance, and the availability, cost, and terms of private insurance. The approval and determination shall be final.

50.402 General.

(a) When approving or denying a proposal for the exercise of residual powers, the approving authority shall sign and date a Memorandum of Decision containing substantially the same information called for by 50.306.

(b) Every contract entered into, amended, or modified under residual powers shall comply with the requirements of 50.307.

50.403 Special procedures for unusually hazardous or nuclear risks.

50.403-1 Indemnification requests.

(a) Contractor requests for the indemnification clause to cover unusually hazardous or nuclear risks should be submitted to the contracting officer and shall include the following information:

(1) Identification of the contract for which the indemnification clause is requested.

(2) Identification and definition of the unusually hazardous or nuclear risks for which indemnification is requested, with a statement indicating how the contractor would be exposed to them.

(3) A statement, executed by a corporate official with binding contractual authority, of all insurance coverage applicable to the risks to be defined in the contract as unusually hazardous or nuclear, including—

(i) Names of insurance companies, policy numbers, and expiration dates;

(ii) A description of the types of insurance provided (including the extent to which the contractor is self-insured or intends to self-insure), with emphasis on identifying the risks insured against and the coverage extended to persons or property, or both;

(iii) Dollar limits per occurrence and annually, and any other limitation, for relevant segments of the total insurance coverage;

(iv) Deductibles, if any, applicable to losses under the policies;

(v) Any exclusions from coverage under such policies for unusually hazardous or nuclear risks; and

(vi) Applicable workers' compensation insurance coverage.

(4) The controlling or limiting factors for determining the amount of financial protection the contractor is to provide and maintain, with information regarding the availability, cost, and terms of additional insurance or other forms of financial protection.

(5) Whether the contractor's insurance program has been approved or accepted by any Government agency; and whether the contractor has an indemnification agreement covering similar risks under any other Govern-

ment program, and, if so, a brief description of any limitations.

(6) If the contractor is a division or subsidiary of a parent corporation, (i) a statement of any insurance coverage of the parent corporation that bears on the risks for which the contractor seeks indemnification and (ii) a description of the precise legal relationship between parent and subsidiary or division.

(b) If the dollar value of the contractor's insurance coverage varies by 10 percent or more from that stated in an indemnification request submitted in accordance with paragraph (a) above, or if other significant changes in insurance coverage occur after submission and before approval, the contractor shall immediately submit to the contracting officer a brief description of the changes.

50.403-2 Action on indemnification requests.

(a) The contracting officer, with assistance from legal counsel and cognizant program office personnel, shall review the indemnification request and ascertain whether it contains all required information. If the contracting officer, after considering the facts and evidence, denies the request, the contracting officer shall notify the contractor promptly of the denial and of the reasons for it. If recommending approval, the contracting officer shall forward the request (as modified, if necessary, by negotiation) through channels to the appropriate official specified in 50.201(d). The contracting officer's submission shall include all information submitted by the contractor and—

(1) All pertinent information regarding the proposed contract or program, including the period of performance, locations, and facilities involved;

(2) A definition of the unusually hazardous or nuclear risks involved in the proposed contract or program, with a statement that the parties have agreed to it;

(3) A statement by responsible authority that the indemnification action would facilitate the national defense;

(4) A statement that the contract will involve unusually hazardous or nuclear risks that could impose liability upon the contractor in excess of financial protection reasonably available;

(5) A statement that the contractor is complying with applicable Government safety requirements;

(6) A statement of whether the indemnification should be extended to subcontractors; and

(7) A description of any significant changes in the contractor's insurance coverage (see 50.403-1(b)) occurring since submission of the indemnification request.

(b) Approval of a request to include the indemnification clause in a contract shall be by a Memorandum of Decision executed by the appropriate official specified in 50.201(d).

(c) When use of the indemnification clause is approved under paragraph (b) above, the definition of unusually hazardous or nuclear risks (see subparagraph (a)(2) above) shall be incorporated into the contract, along with the clause.

(d) When approval is (1) authorized in the Memorandum of Decision and (2) justified by the circumstances, the contracting officer may approve the contractor's written request to provide for indemnification of subcontractors, using the same procedures as those required for contractors.

50.403-3 Contract clause.

The contracting officer shall insert the clause at 52.250-1, Indemnification Under Public Law 85-804, in contracts whenever the approving official determines that the contractor shall be indemnified against unusually hazardous or nuclear risks (also see 50.403-2(c)). In cost-reimbursement contracts, the contracting officer shall use the clause with its Alternate I.

AUTHORITY: 40 U.S.C. 486(c); 10 U.S.C. Chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 48 FR 42476, Sept. 19, 1983, unless otherwise noted.

51.000 Scope of part.

This part prescribes policies and procedures for the use by contractors of Government supply sources and interagency motor pool vehicles and related services.

Subpart 51.1—Contractor Use of Government Supply Sources

51.100 Scope of subpart.

This subpart prescribes policies and procedures for the use of Government supply sources (see 51.102(c)) by contractors. In this subpart, the terms *contractors* and *contracts* include *subcontractors* and *subcontracts.*

51.101 Policy.

(a) If it is in the Government's interest, and if supplies or services required in the performance of a Government contract are available from Government supply sources, contracting officers may authorize contractors to use these sources in performing—

(1) Government cost-reimbursement contracts; or

(2) Other types of negotiated contracts when the agency determines that a substantial dollar portion of the contractor's contracts are of a Government cost-reimbursement nature.

(b) Contractors with fixed-price Government contracts that require protection of security classified information may acquire security equipment through GSA sources (see 41 CFR 101-26.407).

51.102 Authorization to use Government supply sources.

(a) Before issuing an authorization to a contractor to use Government supply sources, the contracting officer shall place in the contract file a written finding supporting issuance of the authorization. The determination shall be based on, but not limited to, considerations of the following factors:

(1) The administrative cost of placing orders with Government supply sources and the program impact of delay factors, if any.

(2) The lower cost of items available through Government supply sources.

(3) Suitability of items available through Government supply sources.

(4) Delivery factors such as cost and time.

(5) Recommendations of the contractor.

(b) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(c) Upon deciding to authorize a contractor to use Government supply sources, the contracting officer shall request, in writing, as applicable—

(1) A FEDSTRIP activity address code, through the agency's central contact point for matters involving activity address codes, from the General Services Administration (GSA), FSR, Washington, DC 20406;

(2) A MILSTRIP activity address code from the appropriate Department of Defense (DOD) service point listed in Section 1 of the Introduction to the DOD Activity Address Directory;

(3) Approval for the contractor to use Department of Veterans Affairs (VA) supply sources from the Assistant Administrator for Supply Services (Code 90), Office of Supply Services, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420;

(4) Approval for the contractor to acquire helium from the Department of the Interior, Bureau of Mines, Division of Helium Operations, Box H-4372, Herring Plaza, Amarillo, Texas 79101; or

(5) Approval from the appropriate agency for the contractor to use a Government supply source other than those identified in (1) through (4) above.

(d) Each request made under paragraph (c) above shall contain—

(1) The complete address(es) to which the contractor's mail, freight, and billing documents are to be directed;

(2) A copy of the contracting officer's letter of authorization to the contractor;

(3) The prime contract number(s); and

(4) The effective date and duration of each contract.

(e) In each authorization to the contractor, the contracting officer—

(1) Shall cite the contract number(s) involved;

(2) Shall, when practicable, limit the period of the authorization;

(3) Shall specify, as appropriate, that—

(i) When requisitioning from GSA or DOD, the contractor shall use FEDSTRIP or MILSTRIP, as appropriate, and include the activity address code assigned by GSA or DOD;

(ii) When requisitioning from the VA, the contractor should use FEDSTRIP or MILSTRIP, as appropriate, Optional Form 347, Order for Supplies or Services (see 53.302-347), or an agency-approved form; and

(iii) When placing orders for helium with the Bureau of Mines, the contractor shall reference the Federal contract number on the purchase order;

(4) May include any other limitations or conditions deemed necessary. For example, the contracting officer may—

(i) Authorize purchases from Government supply sources of any overhead supplies, but no production supplies;

(ii) Limit any authorization requirement to use Government sources to a specific dollar amount, thereby leaving the contractor free to make smaller purchases from other sources if so desired;

(iii) Restrict the authorization to certain facilities or to specific contracts; or

(iv) Provide specifically if vesting of title is to differ from other property acquired or otherwise furnished by the contractor for use under the contract; and

(5) Shall instruct the contractor to comply with the applicable policies and procedures prescribed in this subpart.

(f) After issuing the authorization, the authorizing agency shall be responsible for—

(1) Ensuring that contractors comply with the terms of their authorizations and that supplies and services obtained from Government supply sources are properly accounted for and properly used;

(2) Any indebtedness incurred for supplies or services and not satisfied by the contractor; and

(3) Submitting, in writing, to the appropriate Government sources, address changes of the contractor and deletions when contracts are completed or terminated.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.103 Ordering from Government supply sources.

(a) Contractors placing orders under Federal Supply Schedules shall follow the terms of the applicable schedule and authorization and include with each order—

(1) A copy of the authorization (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(2) The following statement:

This order is placed under written authorization from......................dated............ In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

(b) If a Federal Supply Schedule contractor refuses to honor an order placed by a Government contractor under an agency authorization, the contracting agency shall report the circumstances to the General Services Administration, FCO, Washington, DC 20406.

(c) Contractors placing orders under nonmandatory schedule contracts and requirements contracts issued by GSA, Information Resources Management Service, for automated data processing equipment, software and maintenance, communications equipment and supplies, and teleprocessing services shall follow the terms of the applicable contract and the procedures in 51.103(a)(1) and (2).

(d) Contractors placing orders for Government stock shall—

(1) Comply with the requirements of the contracting officer's authorization, using FEDSTRIP or MILSTRIP procedures, as appropriate;

(2) Use only the GSA Form 1948-A, Retail Services Shopping Plate, when ordering from GSA Self-Service Stores; and

(3) Order only those items required in the performance of their contracts.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.104 Furnishing assistance to contractors.

After receiving an activity address code, the contracting officer will notify the appropriate GSA regional office or military activity, which will contact the contractor and—

(a) Provide initial copies of ordering information and instructions; and

(b) When necessary, assist the contractor in preparing and submitting, as appropriate—

(1) The initial FEDSTRIP or MILSTRIP requisitions, the Optional Form 347, or the agency-approved forms;

(2) A completed GSA Form 457, FSS Publications Mailing List Application, so that the contractor will automatically receive current copies of required publications; or

(3) A completed GSA Form 3525, Application for Customer Supply Center Services and (Address Change).

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.105 Payment for shipments.

GSA, DOD, and VA will not forward bills to contractors for supplies ordered from Government stock until after the supplies have been shipped. Receipt of billing is sufficient evidence to establish contractor liability and to provide a basis for payment. Contracting officers should direct their contractors to make payment promptly upon receipt of billings.

51.106 Title.

(a) Title to all property acquired by the contractor under the contracting officer's authorization shall vest in the parties as provided in the contract, unless specifically provided for otherwise.

(b) If contracts are with educational institutions and the Government Property clause at 52.245-2, Alternate II, or 52.245-5, Alternate I, is used, title to property having an acquisition cost of less than $1,000 shall vest in the contractor as provided in the clause. Agencies may provide higher thresholds, if appropriate.

51.107 Contract clause.

The contracting officer shall insert the clause at 52.251-1, Government Supply Sources, in solicitations and contracts when the contracting officer may authorize the contractor to acquire supplies or services from a Government supply source. If a facilities contract is contemplated, the contracting officer shall use the clause with its Alternate I.

Subpart 51.2—Contractor Use of Interagency Fleet Management System (IFMS)

51.200 Scope of subpart.

This subpart prescribes policies and procedures for the use by contractors of interagency fleet management system (IFMS) vehicles and related services. In this subpart, the terms *contractors* and *contracts* include *subcontractors* and *subcontracts.*

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.201 Policy.

(a) If it is in the Government's interest, the contracting officer may authorize cost-reimbursement contractors to obtain, for official purposes only, interagency fleet management system (IFMS) vehicles and related services, including (1) fuel and lubricants, (2) vehicle inspection, maintenance, and repair, (3) vehicle storage, and (4) commercially rented vehicles for short-term use.

(b) Complete rebuilding of major components of contractor-owned or leased equipment requires the approval of the contracting officer in each instance.

(c) Government contractors shall not be authorized to obtain interagency fleet management system (IFMS) vehicles and related services for use in performance of any contract other than a cost-reimbursement contract, except as otherwise specifically approved by the Administrator of the General Services Administration at the request of the agency involved.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.202 Authorization.

(a) The contracting officer may authorize a cost-reimbursement contractor to obtain interagency fleet management system (IFMS) vehicles and related services, if the contracting officer has—

(1) Determined that the authorization will accomplish the agency's contractual objectives and effect demonstrable economies;

(2) Received evidence that the contractor has obtained motor vehicle liability insurance covering bodily injury and property damage, with limits of liability as required or approved by the agency, protecting the contractor and the Government against third-party claims arising from the ownership, maintenance, or use of an interagency fleet management system (IFMS) vehicle;

(3) Arranged for periodic checks to ensure that authorized contractors are using vehicles and related services exclusively under cost-reimbursement contracts;

(4) Ensured that contractors shall establish and enforce suitable penalties for their employees who use or authorize the use of Government vehicles for other than performance of Government contracts (see 41 CFR 101-38.301-1);

(5) Received a written statement that the contractor will assume, without the right of reimbursement from the Government, the cost or expense of any use of interagency fleet management system (IFMS) vehicles and services not related to the performance of the contract; and

(6) Considered any recommendations of the contractor.

(b) The authorization shall—

(1) Be in writing;

(2) Cite the contract number;

(3) Specify any limitations on the authority, including its duration, and any other pertinent information; and

(4) Instruct the contractor to comply with the applicable policies and procedures provided in this subpart.

(c) Authorizations to subcontractors shall be issued through, and with the approval of, the contractor.

(d) Contracting officers authorizing contractor use of interagency fleet management system (IFMS) vehicles and related services subject their agencies to the responsibilities and liabilities provided in 41 CFR 101-39.4 regarding accidents and claims.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

51.203 Means of obtaining service.

(a) Authorized contractors shall submit requests for interagency fleet management system (IFMS) vehicles and related services in writing to the appropriate GSA regional Federal Supply Service Bureau, Attention: Regional fleet manager, except that requests for more than five vehicles shall be submitted to General Services Administration, FBF, Washington, DC 20406, and not to the regions. Each request shall include the following:

(1) Two copies of the agency authorization to obtain vehicles and related services from GSA.

(2) The number of vehicles and related services required and period of use.

(3) A list of the contractor's employees who are authorized to request vehicles and related services.

(4) A listing of the make, model, and serial numbers of contractor-owned or -leased equipment authorized to be serviced.

(5) Billing instructions and address.

(b) Contractors requesting unusual quantities of vehicles should do so as far in advance as possible to facilitate availability.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, 29283, July 11, 1989]

51.204 Use of Interagency Fleet Management System (IFMS) vehicles and related services.

Contractors authorized to use interagency fleet management system (IFMS) vehicles and related services shall comply with the requirements of 41 CFR part 101-38 and the operator's packet furnished with each vehicle.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, 29283, July 11, 1989]

51.205 Contract clause.

The contracting officer shall insert the clause at 52.251-2, Interagency Fleet Management System (IFMS) Vehicles and Related Services, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contracting officer may authorize the contractor to use interagency fleet management system (IFMS) vehicles and related services.

[48 FR 42476, Sept. 19, 1983, as amended at 54 FR 29282, July 11, 1989]

I	General Accounting Office (Parts 1—99)
II	Federal Claims Collection Standards (General Accounting Office—Department of Justice) (Parts 100—299)
III	General Accounting Office (CASB) (Parts 300—499)

Title 5—Administrative Personnel

I	Office of Personnel Management (Parts 1—1199)
II	Merit Systems Protection Board (Parts 1200—1299)
III	Office of Management and Budget (Parts 1300—1399)
IV	Advisory Committee on Federal Pay (Parts 1400—1499)
V	The International Organizations Employees Loyalty Board (Parts 1500—1599)
VI	Federal Retirement Thrift Investment Board (Parts 1600—1699)
VII	Advisory Commission on Intergovernmental Relations (Parts 1700—1799)
VIII	Office of Special Council (Parts 1800—1899)
IX	Appalachian Regional Commission (Parts 1900—1999)
XI	United States Soldiers' and Airmen's Home (Parts 2100—2199)
XIV	Federal Labor Relations Authority, General Counsel of the Federal Labor Relations Authority and Federal Service Impasses Panel (Parts 2400—2499)

Title 5—Administrative Personnel—Continued

Chap.	
XV	Office of Administration, Executive Office of the President (Parts 2500—2599)
XVI	Office of Government Ethics (Parts 2600—2699)

Title 6—[Reserved]

Title 7—Agriculture

	SUBTITLE A—Office of the Secretary of Agriculture (Parts 0—26)
	SUBTITLE B—Regulations of the Department of Agriculture
I	Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture (Parts 27—209)
II	Food and Nutrition Service, Department of Agriculture (Parts 210—299)
III	Animal and Plant Health Inspection Service, Department of Agriculture (Parts 300—399)
IV	Federal Crop Insurance Corporation, Department of Agriculture (Parts 400—499)
V	Agricultural Research Service, Department of Agriculture (Parts 500—599)
VI	Soil Conservation Service, Department of Agriculture (Parts 600—699)
VII	Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture (Parts 700—799)
VIII	Federal Grain Inspection Service, Department of Agriculture (Parts 800—899)
IX	Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture (Parts 900—999)
X	Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture (Parts 1000—1199)
XI	Agricultural Marketing Service (Marketing Agreements and Orders; Miscellaneous Commodities), Department of Agriculture (Parts 1200—1299)
XIV	Commodity Credit Corporation, Department of Agriculture (Parts 1400—1499)
XV	Foreign Agricultural Service, Department of Agriculture (Parts 1500—1599)
XVI	Rural Telephone Bank, Department of Agriculture (Parts 1600—1699)
XVII	Rural Electrification Administration, Department of Agriculture (Parts 1700—1799)
XVIII	Farmers Home Administration, Department of Agriculture (Parts 1800—2099)
XXI	Foreign Economic Development Service, Department of Agriculture (Parts 2100—2199)
XXII	Office of International Cooperation and Development, Department of Agriculture (Parts 2200—2299)

Title 7—Agriculture—Continued

Chap.	
XXIV	Board of Contract Appeals, Department of Agriculture (Parts 2400—2499)
XXV	Office of the General Sales Manager, Department of Agriculture (Parts 2500—2599)
XXVI	Office of Inspector General, Department of Agriculture (Parts 2600—2699)
XXVII	Office of Information Resources Management, Department of Agriculture (Parts 2700—2799)
XXVIII	Office of Operations, Department of Agriculture (Parts 2800—2899)
XXIX	Office of Energy, Department of Agriculture (Parts 2900—2999)
XXX	Office of Finance and Management, Department of Agriculture (Parts 3000—3099)
XXXI	Office of Environmental Quality, Department of Agriculture (Parts 3100—3199)
XXXII	Office of Grants and Program Systems, Department of Agriculture (Parts 3200—3299)
XXXIII	Office of Transportation, Department of Agriculture (Parts 3300—3399)
XXXIV	Cooperative State Research Service, Department of Agriculture (Parts 3400—3499)
XXXVI	National Agricultural Statistics Service, Department of Agriculture (Parts 3600—3699)
XXXVII	Economic Research Service, Department of Agriculture (Parts 3700—3799)
XXXVIII	World Agricultural Outlook Board, Department of Agriculture (Parts 3800—3899)
XXXIX	Economic Analysis Staff, Department of Agriculture (Parts 3900—3999)
XL	Economics Management Staff, Department of Agriculture (Parts 4000—4099)
XLI	National Agricultural Library, Department of Agriculture (Part 4100)

Title 8—Aliens and Nationality

I	Immigration and Naturalization Service, Department of Justice (Parts 1—499)

Title 9—Animals and Animal Products

I	Animal and Plant Health Inspection Service, Department of Agriculture (Parts 1—199)
II	Packers and Stockyards Administration, Department of Agriculture (Parts 200—299)
III	Food Safety and Inspection Service, Meat and Poultry Inspection, Department of Agriculture (Parts 300—399)

Title 10—Energy

Chap.	
I	Nuclear Regulatory Commission (Parts 0—199)
II	Department of Energy (Parts 200—699)
III	Department of Energy (Parts 700—999)
X	Department of Energy (General Provisions) (Parts 1000—1099
XV	Office of the Federal Inspector for the Alaska Natural Ga Transportation System (Parts 1500—1599)

VI	United States Arms Control and Disarmament Agency (Parts 600—699)
VII	Overseas Private Investment Corporation, International Development Cooperation Agency (Parts 700—799)
IX	Foreign Service Grievance Board Regulations (Parts 900—999)
X	Inter-American Foundation (Parts 1000—1099)

Title 22—Foreign Relations—Continued

Chap.	
XI	International Boundary and Water Commission, United States and Mexico, United States Section (Parts 1100—1199)
XII	United States International Development Cooperation Agency (Parts 1200—1299)
XIII	Board for International Broadcasting (Parts 1300—1399)
XIV	Foreign Service Labor Relations Board; Federal Labor Relations Authority; General Counsel of the Federal Labor Relations Authority; and the Foreign Service Impasse Disputes Panel (Parts 1400—1499)
XV	African Development Foundation (Parts 1500—1599)
XVI	Japan-United States Friendship Commission (Parts 1600—1699)

Title 23—Highways

I	Federal Highway Administration, Department of Transportation (Parts 1—999)
II	National Highway Traffic Safety Administration and Federal Highway Administration, Department of Transportation (Parts 1200—1299)
III	National Highway Traffic Safety Administration, Department of Transportation (Parts 1300—1399)

Title 24—Housing and Urban Development

	SUBTITLE A—Office of the Secretary, Department of Housing and Urban Development (Parts 0—99)
	SUBTITLE B—Regulations Relating to Housing and Urban Development
I	Office of Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development (Parts 100—199)
II	Office of Assistant Secretary for Housing-Federal Housing Commissioner, Department of Housing and Urban Development (Parts 200—299)
III	Government National Mortgage Association, Department of Housing and Urban Development (Parts 300—399)
V	Office of Assistant Secretary for Community Planning and Development, Department of Housing and Urban Development (Parts 500—599)
VI	Office of Assistant Secretary for Community Planning and Development, Department of Housing and Urban Development (Parts 600—699)
VII	Office of the Secretary, Department of Housing and Urban Development (Section 8 Housing Assistance Programs and Public and Indian Housing Programs) (Parts 700—799)
VIII	Office of the Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development (Section 8 Housing Assistance Programs and Section 202 Direct Loan Program) (Parts 800—899)
IX	Office of Assistant Secretary for Public and Indian Housing, Department of Housing and Urban Development (Parts 900—999)

Title 24—Housing and Urban Development—Continued

Chap.	
X	Office of Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development (Interstate Land Sales Registration Program) (Parts 1700—1799)
XI	Solar Energy and Energy Conservation Bank, Department of Housing and Urban Development (Parts 1800—1899)
XII	Office of Inspector General, Department of Housing and Urban Development (Parts 2000—2099)
XV	Mortgage Insurance and Loan Programs under the Emergency Homeowners' Relief Act, Department of Housing and Urban Development (Parts 2700—2799)
XX	Office of Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development (Parts 3200—3699)
XXV	Neighborhood Reinvestment Corporation (Parts 4100—4199)

Title 25—Indians

I	Bureau of Indian Affairs, Department of the Interior (Parts 1—299)
II	Indian Arts and Crafts Board, Department of the Interior (Parts 300—399)
IV	Navajo and Hopi Indian Relocation Commission (Parts 700—799)

Title 26—Internal Revenue

I	Internal Revenue Service, Department of the Treasury (Parts 1—699)

Title 27—Alcohol, Tobacco Products and Firearms

I	Bureau of Alcohol, Tobacco and Firearms, Department of the Treasury (Parts 1—299)

Title 28—Judicial Administration

I	Department of Justice (Parts 0—199)
III	Federal Prison Industries, Inc., Department of Justice (Parts 300—399)
V	Bureau of Prisons, Department of Justice (Parts 500—599)
VI	Offices of Independent Counsel, Department of Justice (Parts 600—699)
VII	Office of Independent Counsel (Parts 700—799)

Title 29—Labor

	SUBTITLE A—Office of the Secretary of Labor (Parts 0—99)
	SUBTITLE B—Regulations Relating to Labor
I	National Labor Relations Board (Parts 100—199)

Title 29—Labor—Continued

Chap.	
II	Bureau of Labor-Management Relations and Cooperative Programs, Department of Labor (Parts 200—299)
III	National Railroad Adjustment Board (Parts 300—399)
IV	Office of Labor-Management Standards, Department of Labor (Parts 400—499)
V	Wage and Hour Division, Department of Labor (Parts 500—899)
IX	Construction Industry Collective Bargaining Commission (Parts 900—999)
X	National Mediation Board (Parts 1200-1299)
XII	Federal Mediation and Conciliation Service (Parts 1400-1499)
XIV	Equal Employment Opportunity Commission (Parts 1600-1699)
XVII	Occupational Safety and Health Administration, Department of Labor (Parts 1900—1999)
XX	Occupational Safety and Health Review Commission (Parts 2200—2499)
XXV	Pension and Welfare Benefits Administration, Department of Labor (Parts 2500—2599)
XXVI	Pension Benefit Guaranty Corporation (Parts 2600—2699)
XXVII	Federal Mine Safety and Health Review Commission (Parts 2700—2799)

Title 30—Mineral Resources

I	Mine Safety and Health Administration, Department of Labor (Parts 1—199)
II	Minerals Management Service, Department of the Interior (Parts 200—299)
III	Board of Surface Mining and Reclamation Appeals, Department of the Interior (Parts 300—399)
IV	Geological Survey, Department of the Interior (Parts 400—499)
VI	Bureau of Mines, Department of the Interior (Parts 600—699)
VII	Office of Surface Mining Reclamation and Enforcement, Department of the Interior (Parts 700—999)

Title 31—Money and Finance: Treasury

	SUBTITLE A—Office of the Secretary of the Treasury (Parts 0—50)
	SUBTITLE B—Regulations Relating to Money and Finance
I	Monetary Offices, Department of the Treasury (Parts 51—199)
